ARGUS GLANCES.

Dr. Sparling returns to Seattle.
Seattle arrests fortune tellers as
vagrants.
Briston will be appointed to the
Supreme Court soon.

The bark California comes to Na-
mimo, from Frisco, for coal.

The whole German army has been
ordered to be ready for action.

Over a million dollars in fine sil-
ver goes to China next steamer.

Something that has "blown over,"
the Olympia & T 9 railroad.

It is reported that the Wallowa
Indian troubles has blown over.

The Grover investigating commit-
tee are about starting for Oregon.

The English channel fleet has
been ordered to the Mediterranean.

Seven Canadian Pacific R. R. sur-
veying parties are fitting out from
Victoria.

Gen. Sevenyearhitch would be the
man to bring the Russians up to the
scratch.

Vienna has received assurance
from Russia that Serbia will take no
part in the war.

Hon. J. B. Allen, U. S. Attorney,
is to ferret out the forger of Judge
Lewis' resignation.

Apparently the first great battle
of the Russo-Turkish campaign will
be fought at Toprak Kalah.

On the 10th, the Philadelphia per-
manent international exhibition was
opened with great ceremony.

The Russians sacked all the villa-
ges in the vicinity of Tchernoug,
massacring women and children.

England will oppose any move-
ment on the part of Turkey to ob-
struct commerce in the Suez Canal.

The Russians drove the Turks from
the field at Ardahan, capturing the
town and a large quantity of stores.

The Seattle folks now want the
Victoria people to visit them on the
Fourth of July. "You tiele me, etc."

Los Angeles, Cal., is trying a new
fuel, made of screenings and tar
pressed together in cakes, and sold
at \$15 per ton.

Scotch saying, "A door plant w/
a man's nam on's a vairy good
thing, but a dinner plant w/
a man's dinner on's a better."

A panic reigns among the Rus-
sians along the Black sea, they hav-
ing lost all confidence in shore bat-
teries and torpedoes.

When Greek meets Greek, then
comes the tug of war we think; but
when American meets American it's
"Wha'll you have to drink?"

Brigham Young has buried 27
mothers-in-law, and he wants the
United States to understand that he
is not afraid of a mountain howitzer
loaded to the muzzle.

When De Fonton, new Minister
of the Interior of France, mounted
the tribune, the scene in the Cham-
ber was very turbulent, the Senate
adjoining amidst great tumult.

The Idaho City World prints what
is called the "Devil's Column," and
courtiouly enouh announces at the
same time that the editor is not re-
sponsible for anything that appears
in it.

"Susan," said the madame of a
boarding-school, "you say your mis-
tress wishes to absent herself from
the class-room this afternoon; is the
reason for her staying away very ur-
gent?" "Yes, mum, it is 'er gent."

INGERSOLL SPEAKS.

The following is an extract from a
speech made by Bob. Ingersoll, and
published in the Colorado Springs
"Gazette," of the 31st inst. "If there
is a young man in this audience I
beg of him 'never take a clerkship
in the city of Washington.' Don't
you do it! Never do you put your-
self in a position where you have to
duck your head and take off your
hat to everybody else. Don't do it!
Don't put your happiness—don't
put your fortune—in the power of
another man's breath. Don't you
do it. You never will have any
manhood; you never will have any
real, square spunk; you cannot have
it; and you will begin to lose confi-
dence, and you will begin to think,
if you cannot have a regular pay-
ment each month of \$94.75, that
you cannot possibly make a living in
this world. It will take all the pluck
out of you. I beg of you not to dis-
count your future; I beg of every
young man, have the courage to take
what comes, let it be feast or famine,
but don't sell the gift that fortune
may have in store for you for a pet-
ty salary of \$60 or \$70 or \$100 per
month. Don't do it. Go west! I
would rather have forty acres of land
and a log house with one room—yes,
and the woman that I love, and some
lace-curtain over the window, so that
the sunlight would fall checkered on
the baby in the cradle, and a few
hollyhocks at the corner of the
house—I would rather have that, and
a nice path leading down to the
spring, where I could go and hear
the water gurgling; I would rather
live there and die there than be a
clerk of any government on earth.

The "London Truth" ventures a
prediction as to the result of Turco-
Russian war. It thinks Russia will
not attempt the passage of the Bal-
can, but will content itself with a
firm establishment in Bulgaria, form-
ing a junction with the Montenegrin
forces. Thus the forces will be en-
tirely cut off from Bosnia. In Asia
the Russian army will co-operate with
Persia. Peace will then be proposed
upon the basis of Bulgaria being an-
nexed Roumania, in consideration of
which Moldavia will be ceded to
Russia. The Prince of Montenegro
will receive a considerable accession
of territory, and Bosnia will be offer-
ed to Austria. In Asia the Persians
will obtain a rectification of frontier
at the expense of Turkey. England
will be informed that, if she chooses
to replace Turkey as the suzerain of
Egypt, the Continental Powers will
make no opposition. This scheme of
pacification and considerable favor
with German statesmen.

A dumb wife is a disgrace to her
husband. An independent wife is
his glory. If she never differs from
him, it is because she is a serf and
you are a despot. She ought to be
your best adviser. She ought to be
your most confidential counselor.
The self-conceit of man amounts to a
genius. There are many husbands
that would as soon think of taking
advice of their wives as of their
children. But it is only the fool who
is too wise to seek counsel.

Said a woman speaker in a New
Haven suffrage meeting, "Woman is
in every respect the equal of man.
Her reputation for heroic bravery?"
—at that point a mouse ran in, sight,
and the orator jumped on the table
and screamed.

JAMES C. SWAN,
Attorney at Law, Proctor in Admiralty
AND NOTARY PUBLIC.
Special attention paid to taking an extend-
ing Marine Survey, general average accounts,
and all other matters connected with Marine
Insurance and maritime affairs. Will also
make a specialty of attending to business con-
nected with the Probate Court.

Port Townsend, May 18, 1877.

By the Governor of the Territory of Washington.

A PROCLAMATION.

WHEREAS, At the General Election, held on
the 7th day of November, A. D. 1874, in the
Counties of Clallam and San Juan, there was
no choice for a Joint Representative for said
Counties to the Legislative Assembly of the
Territory of Washington, two persons hav-
ing received the highest and an equal num-
ber of votes in said counties, to-wit: Now,
therefore, I, ELISHA F. FERRY, Govern-
or of the Territory of Washington, by virtue
of the power and authority in me vested by
the laws of said Territory of Washington, do
hereby order that a special election be held in
said Counties of Clallam and San Juan on the
25th day of June, A. D. 1877, for a Joint
Representative for said Counties, to the
Legislative Assembly of the Territory of
Washington.

In testimony whereof, I have hereunto set
my hand and caused the Great Seal of
[L.S.] the Territory to be affixed. Done at
Olympia, this 10th day of May, A. D. 1877.
By the Governor, ELISHA F. FERRY.
N. H. OWING,
Secretary of the Territory.

T. M. Hammond's

PUGET SOUND ARGUS.

FRIDAY, JUNE 1, 1877.

THE "OREGONIAN" AND THE HAWAIIAN TREATY.

We have heretofore considered the "Oregonian" one of the leading papers in the Northwest. Its circulation is large, its news columns full of the latest intelligence from all parts of the world, its local page always refined, and its editorials usually recent and intelligent and well written. Of late, however, some blue or green glass spirit seems to have possessed its otherwise complacent editor. He wasted time some weeks ago to get off a pun at the expense of one of the leading officials of this Territory, and labored so hard to be witty that none could fail to see he was prejudiced which was a great mistake for an independent editor to make. His most painful labor was to make a series of attacks on Senator Mitchell, of Oregon, for his advocacy of the Hawaiian treaty. His arguments on this subject in brief have been as follows: "I have to pay a penny a pound more for sugar than before the treaty was made; Senator Mitchell advocated the treaty, so we must pound Senator M. for the penny." This is verily "penny wise and pound foolish," and the attempt to make the public believe that the advance in sugar is due to that treaty is either unpardonable ignorance or unprincipled roguery.

The public well know that the price of sugar here is regulated by the price of that article in Eastern markets. The Sandwich Islands produce only about one hundredth part of the sugar used in the United States and not over one-fifth of that used in the Pacific States and Territories, and it is absurd to talk of this paltry production keeping the market up. The telegraph announced the other day that sugar had advanced in Scotland two cents per pound; there is just as much reason to claim that it was due to Senator M. and the Hawaiian treaty as to insist that the advance which has been general in all the markets of the United States has been due to the same cause.

The statesmanship that devised and carried into effect the Hawaiian treaty was, we believe, above praise. Its full benefits cannot as yet be fully appreciated. Any measure that increases our foreign trade and renders our commerce more wise and worthy of the highest diplomatic efforts. The San Francisco "Chronicle" has already shown how the trade from that port with the Sandwich Islands has increased since this treaty went into effect. The records of this Collection District are not less convincing. Comparing the six months before the treaty went into effect with the six months ending March 31st, 1877, a careful examination of the records of the Puget Sound Custom House shows that UNDER THE DIRECT INFLUENCE OF THIS TREATY, DURING THIS TIME, OUR EXPORTS TO THE SANDWICH ISLANDS INCREASED FIVE HUNDRED PER CENT IN VALUE, WHILE THE IMPORTS DURING THE SAME TIME INCREASED FIVE THOUSAND PER CENT.

Our exports have been chiefly lumber which, previous to the treaty, went from British Columbia in large quantities; none that we can learn having been shipped from there since. The imports are mainly sugar. Had we refused to accept this treaty, it is well known it would have been consummated with Great Britain, and British Columbia would have reaped the fruits of its wisdom at our expense. As it is our neighbors on Vancouver's Island pay just as much for sugar and a little more than we do, though they have no treaty; while their trade with the Sandwich Islands is gone forever.

The Puget Sound trade is but a small item of the whole trade between the United States and the Sandwich Islands, but we believe the increase of trade, as it has been, from England and other countries, by wise statesmanship, is an unanswerable argument in favor of this treaty. We believe it will be a long time before our neighbor of the "Oregonian" can get any intelligent citizen to weep and wail over this treaty, or to believe that the pen that dictates the constant attacks on its supporters is not influenced by prejudice rather than misguided by ignorance. In cithe

case the "Oregonian," if it continues in its course, must expect to give way to papers with writers of more impartial judgment, and be content to take a second place in Oregon journalism.

FATAL SHOOTING AFFRAY.

One day after our last issue, a row occurred on Union wharf, in which H. L. Sutton, the keeper of a saloon at that place, shot a man named Howard, causing the death of the latter on Sunday afternoon. Two of the shots took effect; one in the arm, and the other in the abdomen, the latter missile doing but too well its murderous work of sending an unprepared soul into eternity. It seems that an old feud had existed between these two men, the culmination of which was the row resulting as shown. Sutton, very soon—perhaps ten minutes—after the row, took his money, firearms, &c., and, in company with another fellow, started out in a small boat, and was soon far ahead of retributive (?) justice. As regards the details of the affair, not much of interest remains to be said. Current reports as to the whereabouts of the murderer are flying, severely censuring this town, not without some cause, for allowing the fellow to escape in broad day-light; a reward of \$500 has been offered, by Sheriff Miller, for the body of Sutton, and a good deal of excitement is still manifested in town over the affair. The feeling here against Sutton seems quite strong, and is almost universal, although his victim was acknowledged to be a quarrelsome man, belonging to the same class as himself.

We have been repeatedly asked for a public expression of views, in regard to the neglect of duty by our County officers. This is rather hard to give, fully, considering all things. No blame can possibly be attached to Sheriff Miller, as he was away discharging official duty. As to his deputy, we have nothing to say, offensive or defensive. One thing, however, is certain; any dallying around and halting between two opinions, by an officer of the law, on such an occasion, certainly merits the severest condemnation. But the popular criticism is by far too severe, as will be seen by the fact that it comes mostly from persons who would do least, personally, if placed in a responsible position on a similar occasion.

Telegraphic Summary.

Greek Chambers opens on the 25th. Opposition is very strong, and the position of the Cabinet is extremely insecure. Later advices from the Greek ministry were defeated in the chamber of deputies on the 25th, and announced their resignation. Roundabout intelligence has it that Arslan has been recaptured by a Turkish corps under Pasha. The czar, on his arrival, will formally take command of both the Russian and Roumanian armies. All cause for jealousy will thus be averted. Intelligence from Sookpoom Kale state that the Russians have evacuated the whole coast line of the Amazons country.

It is now certain the Roumanian army will not cross the border with the invading forces, but will remain on the Roumanian side to guard the right flank. Official reports from Tifin state that the greater part of the Turkish garrison at Arslan has been dispersed. Some fled towards Batoum.

Mukhtar Pasha has telegraphed to Constantinople that he would have to retire behind Erzeroum, as the passes of Soghau and Dagh were being turned by the Russians, and his army is in danger of being cut off from Erzeroum. The Russian cavalry having already appeared on his flank.

The Bedouins are being troublesome in Palestine and there is a panic at Jerusalem.

A Washington special says the story is current that President Hayes will offer the vacant seat on the bench of the U. S. Supreme Court to Attorney General Devens, who is not content with his present position, which has interfered with his lucrative practice as a lawyer.

A London special dispatch, describing Grant's arrival in Europe, says a steamer containing the British and French went out to meet the Indians. Instantly Grant was recognized and greeted with three enthusiastic cheers.

The jury impaneled in the Coroner's inquest on the body of Chas. W. Howard, returned a verdict that "He came to his death on the 27th day of May, 1877, at about 4:30 P. M., at his residence in Port Townsend, W. T. That the cause of his death was from pistol shots fired by the hand of Henry L. Sutton, on the Union wharf, in front of the Saloon of the said Henry L. Sutton, on Saturday, May 25th, 1877, between the hours of 5 and 6:30 P. M." J. D. DALGARNO, Coroner.

During the past week our town has been canvassed by Mr. W. Henderson, agent for Guizot's popular History of France, Bryant's History of the United States, and other valuable literary works. We learn that quite a number of books have been disposed of, to the edification and instruction of purchasers. Mr. Henderson is a very pleasant gentleman, and goes away followed by many good wishes for his success.

LOCAL NEWS.

Obituary.

Died, at Port Ludlow, on Monday, May 28th, 1877, Arthur Phinney. Deceased was born in Annapolis township, Wilcox county, Nova Scotia, Jan. 11th, 1827.

From Massachusetts, where he had resided for a number of years, he came to California in 1858. Here he engaged in business. In 1859 he came to this Territory; and in connection with S. Amos, leased Port Ludlow Mill of Wm. T. Sawyood. The firm was known as Amos & Phinney.

Afterward W. H. Hook became a partner, and the firm was known as Amos, Phinney & Co. Mr. Phinney, conducted the business at Port Ludlow and his partners at San Francisco. In 1866 this partnership was dissolved on account of failure, financially, of the firm. After the failure, he assumed control of the entire property; and under his skillful management, it grew into an importance second to none on the Sound. Some three years ago, he became owner of the entire property; and at the time of his death, had a force of men employed building a new mill by which it was expected that the business would be revived.

Mr. Phinney was a quiet, unassuming business man, possessing those rare qualities which rendered him eminently adaptable for his calling, and endeared him to all who knew him. Below we give the result of the post mortem examination which was performed on the body by Dr. Callahan, William and Baker.

The examination confirmed the diagnosis made before death, and revealed the cause of death to have been due to a mechanical obstruction situated in the larger intestines near its junction with the smaller intestines. This obstruction was formed by old adhesions, formed by slight inflammatory action many years ago, probably the result of a kick in the abdomen received in early manhood. These adhesions encroached upon its caliber, forming strictures; and the recent inflammatory trouble, causing congestion, completely shut off the passage from the upper part of the bowels to the lower, rendering death inevitable.

The funeral ceremony will be held on Sunday afternoon at 2 o'clock, at the auspices of the Masonic fraternity; after which the remains will be taken to San Francisco.

NEW TYPE.—Bring along your job printing. The steam ship City of Panama brought on her last trip, from San Francisco, a fine lot of new type, and material for the Amos office; so that from this time forward we will be prepared to do on short notice, orders from every part of the Sound. We can get up anything, from a large poster to a wedding card. None but good stock kept, and no work done except what is warranted to give satisfaction unless the patron has chronic displeasure; and then we can come as near pleasing as the next.

Rev. J. T. Weekes of San Juan, is expected to preach in the Presbyterian Church here on Sunday next, morning at eleven o'clock. The new Episcopal minister, Rev. Mr. Davis, we believe will hereafter hold Divine service regularly in his Church unless published otherwise. The M. E. Sunday school is still held in the unoccupied hall of Dr. Hill's residence, at 2:30, on Sunday afternoon. It is well conducted, and visitors are all welcome.

Are you interested with good reading? Would you know as much as possible of the past and present of the Republic of San Francisco, agent for "Foot Prints of the Ages" or "Six Thousand Years of History," the official History of the territorial and many other valuable works of literature. Mr. Mc Donnell is also agent for the National Publishing Co., Philadelphia. He comes among us highly recommended. Help him along.

S. M. Pettigill's news-paper directory and advertisers and book for 1877, a copy of which has just been received at this office. It is gotten up in neat, pleasing and comprehensive style; and is another indisputable evidence of the facilities in this American land of ours, of circulating information.

The public school at this place closes this week we are told, for an indefinite time. Mr. Hoffman, who has borne an excellent reputation as a teacher, will go to Portland shortly where he will engage in business.

The steamer Zephyr is now running regularly between this port and Seattle. She will leave this place on Tuesday Thursday and Saturday mornings at 8 o'clock. Fare has been reduced to \$1.00.

We acknowledge the receipt of a few copies of the Chicago "Frankforter." It is a valuable paper for the farm and household. Price \$2.00 per year.

DIED.—At Seabeach on the 30th of May, Mr. Bouting, an old resident of this Territory. He had a pain at the head of Tarboe Bay, in this county.

The tug-boat Donald, for the Freeport Mill Company, is said to be an excellent boat; at least she comes from San Francisco with a good name.

KILLED.—A man employed in a logging camp at the head of Port Gamble was recently killed by the rolling over of a sawlog.

The Hunter is the name of a new schooner just built at Port Ludlow. Her length is 45.9 ft., breadth 10 ft., depth 4 ft., tonnage 70.8.

For favors rendered, Mr. Ed. Brown, of the U. S. Custom house, is here in grateful remembrance at this office.

For favors received we are much indebted to Mr. Geo. Chambers, of the Washington Market.

"About a month ago a traveling billk made his appearance here with a girl about fourteen years old, whom he introduced as an oratrix on spiritualism. He went off with every body who would trust him."—Seattle "Dispatch."

Rev. A. Atwood, Pastor of the M. E. Church at Seattle, has gone to Dungeness to take the place of Rev. A. C. Fairchild, who left on the 24th inst. at the quarterly meeting, on Sunday next.

The members of the Masonic fraternity will go from Port Townsend to Port Ludlow next Sunday, to attend the funeral obsequies of the late Arthur Phinney.

The steamer Phantom left yesterday in pursuit of Harry Sutton, carrying on board a party of some three or four who will endeavor to capture the fugitive.

Hon. Marshall Blinn, of Olympia, called on us this week. He is looking well and reports everything quiet up the Sound.

The North Pacific, Annie Stewart, Disposition of the Phantom made their regular trips this week as usual.

Isn't it about time our people were preparing for the Fourth of July?

New potatoes and "sich truck" are now plentiful.

THE STORIES

There is a cottage overshadowed by leaves... The house of my heart...

THE HOME OF MY HEART.

Not here in the poplar grove... The house of my heart... The home of my heart...

THE HOME OF MY HEART.

And there as you gaze down the sea... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

And there in the rapturous spring... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

For there at the casement above... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

And there as you gaze down the sea... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

And there in the rapturous spring... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

For there at the casement above... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

And there as you gaze down the sea... The home of my heart... The home of my heart...

THE HOME OF MY HEART.

And there in the rapturous spring... The home of my heart... The home of my heart...

central light. He was a strange, stern... I took great hold of my husband... I had three sisters and two brothers...

I had three sisters and two brothers... Brother John, just like father, and mother's pet; brother Will, gay, bright, a dandy boy. He used to be al- most 'beside himself' with veneration at father's 'bits of silence,' and wickedly wish he might die if he were ever going to fall into such a habit as that!

At last it was my turn, and my poor, plain love pleased no one but me. Father called him a "shades" advertiser, and even forbade him the house. But love, you know, scorns such hindrances. We found various ways of communicating with each other, and loved each other none the less for the troubles. When I finally told my father that we were engaged to be married, and only waited for his permission, he was in a great passion and declared he should never give it. So we quietly waited until my age made it unnecessary—two happy years.

At last it was my turn, and my poor, plain love pleased no one but me. Father called him a "shades" advertiser, and even forbade him the house. But love, you know, scorns such hindrances. We found various ways of communicating with each other, and loved each other none the less for the troubles. When I finally told my father that we were engaged to be married, and only waited for his permission, he was in a great passion and declared he should never give it. So we quietly waited until my age made it unnecessary—two happy years.

I took great hold of my husband from the first. If he could in one, two or even five years, make his own dog a fortune for me, I would be content. He would try. All his old love of adventure became as strong as ever. No woman planned to leave her little home, and I could not see how he could do it. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go.

I could not see how he could do it. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go.

I could not see how he could do it. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go.

I could not see how he could do it. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go. I would not let him go, and he would not let me go.

Sheep Raising in New Mexico. Sheep-raising seems destined to be the great productive industry of the Territory. An immense area of pastoral lands is available for stock raising. The grasses and mesquite grasses are especially valuable, as a natural process of curing in the dry season renders them available for winter feeding. Stock of all kinds thrive upon this diet, and cattle become almost as fat as if stall-fed. Merino sheep were introduced from Spain three hundred and thirty-six years ago, and have grown, with little effort at improvement. Yet, although they have degenerated in size and quality of fleece, their mutton is excellent. Judicious cross-breeding made, with encouraging results. The increase of lambs amounts to about 100 per cent. of the number of ewes—and a flock of 5,000 ewes and 100 rams may be expected in one year to increase to 10,000 of which 7,000 will be ewes, and 2,000 rams and wethers, the increase being nearly equally divided between the sexes. The wool clip from the 5,000 sheep at 11 cents per pound would amount to 7,250 pounds, which at 22 cents a pound, brings \$1,615 for the wool clip for the first year alone. The expense of keep is estimated at \$765, leaving a net profit of \$850. The high grade rams. The second year, then, will open with 7,500 ewes and 2,500 rams. If the former again double, there are 15,000 sheep at the end of the second year, which will bring \$1,875. At this point 2,500 yearling wethers may be sold for enough to purchase 1,600 ewes and 100 rams. At the beginning of the third year this will give 12,800 ewes and 4,000 rams and wethers—16,800 sheep in all.

By converting wethers into valuable rams and ewes, the process may be continued. If judicious regard be had to all the elements of success, a net profit is found in the fact that the fleece improves in price as it increases in weight. These figures are said to be fully achieved in New Mexico.—Rept. Department Agriculture.

GRAPE-VINES AT PARIS.—Vineyardists who may have expected to see a grand show of grape-vines at the forthcoming Paris International Exhibition for 1878, are likely to be disappointed, as the Commissioners have issued a circular, in which they say that in consequence of the ravages caused by the Phylloxera and the ease with which it is propagated, no plant or cutting of any vine will be admitted within the area of the Exhibition. This prohibition will be rigorous in enforcement. In other respects vine-growers may illustrate their methods of culture as they think fit—by description, photographs, drawings, plans, models, instruments, appliances, etc.

This prohibition is almost as absurd as the exclusion of American potatoes from Europe, because there are injurious insects which feed on the leaves in the country in which they are raised, on this side of the Atlantic ocean. The absurdity of excluding vines from the Exhibition itself, while they are brought to the very entrance and displayed in the streets of Paris, outside the grounds, is an apparent that one less stupid than a "Grand Commission" could fall to see it. It certainly shows a thorough appointment to the office of Commissioner at any of the great International Expositions was fatal to common sense; at least it has been so in this country, for an exhibit of this appalling calamity was painfully apparent at our "Centennial."—Ex.

Fashion Notes. Wigs are now fashionable for ladies in Paris. Rambouillet is the favorite wool for ladies' under-the-stick. It is not only for mourning, but for fancy jewels. Rubber aprons for ladies doing housework, are among the novelties. Daggers, poniards, and arrows are worn in the hair, giving one quite a fierce appearance. The new shades of yellow are linter-green, hair, old gold and mandarin, which is a vivid yellow. Ladies with gray hair wear the Pompadour coiffure, and young ladies wear their hair in the Grecian style. Calverly cloth is a novelty this season. This lace-like fabric is made of threads of loose jersey wool tied in diamond figures with silk. The fringes of this season are the handomest that have been imported for years; hence fringe is the fashionable trimming. To keep the wring down when visiting is now not considered a breach of etiquette, and there are in consequence several novelties in preparation; but the most becoming is another plain white turban or black with diamond spots. The newest kid slippers for ladies are a kind of sandal, with the straps buttoned across the foot, and each one ornamented with bows of the color of the dress, or with black velvet bows and steel buckles. A new style of napkins and doilies comes in white watered surface. In the center is woven in red threads a crab, a lobster, fish or coral. On flowered napkins are woven red cherries and other fruit. A substantial improvement in bustles and papiers is that of having the ends of the horizontal hoops interlocked, so that they will close in a secure way that prevents them from being displaced and protruding at the ends, as they are apt to do. Another good invention puts hinges in the lengthwise wires, so that they will fold without breaking, when the wearer sits down. These are made up in cloth and in skeleton papiers, small bustles, long ones, and the small hoop skirts that make ladies like to use during the summer months. The habit basque costume is a favorite design with the best Parisian houses, and promises to be popular for the street and house alike. It is made of two colors, but lacks best if one color is used throughout (though the materials may differ), and the contrast be introduced merely in the trimming. The most striking yellow is used as the lining of the bows on this dress of plum-gray camel's hair, and the rows of sewing-machine stitching are of grayish white. Other cuts made by this design are: olive-green wool stitched with pale blue, or else myrtle-green stitched with tuffet. The scarf dolman is one of the best models of the new short raps. Its extreme simplicity is its chief recommendation. One big band down the middle of the back, and a Talma dart on each shoulder, will commend it to all, and this scarf-shape, with the merest touch to the hands that make it rest against the shoulders and hold the armclessly to the sides, giving the slender appearance now considered stylish. The most dressy of these raps are of light-colored broods, with black silk, Stoffe and net will be used for summer, and plain black cashmere is used for plainer wraps that are neat and ladylike, though not meant to be dressy.

BEAUTIFYING FINGER-NAILS.—The finger-nails of fashionable French women are professionally attended, and this is a description of the method of operation:—First, a sharp instrument cut the nails and slope them on the side with a point in the center; then a tiny pair of scissors were used to trim the ends in pieces of dry skin around the nails, commonly called by us hangnails; then a steel file was used to raise up the skin and push it back so as to show the half-moon on the nail, which was considered a part of its beauty; then a liquid was poured over it to bathe it; then dried; then a red pomade was spread this and rubbed off with a fine yellow powder, which caused them to shine. It took about half an hour, and cost the magnificent sum of sixty cents. There are woman nail-dressers in Paris who obtain as high as \$2 a visit.

THE KINDS OF POULTRY TO KEEP.—There are two productions for which fowls are always in demand—laying eggs and for poultry. It is well to keep the birds in the best condition possible for one or both of these branches of business. And if you can at the same time have them plump the fancy of the fancier, so much the better, as they make better customers usually for the surplus stock than the butcher. In some localities eggs are not in high demand, and it is profitable to have them at a particular time of the year. For egg production the non-sitter should be chosen, and they will produce eggs when wanted, and they will produce eggs properly fed and otherwise cared for. If early poultry is wanted, the non-sitters of good size are the best to breed from, but if you want to raise in late Fall or Winter choose the short-legged strains.

DID YOU EVER COME DOWN STAIRS on Sunday morning, and ask your wife to put a button on your wristband, but she said she had her eyes so heavy and with clasped hands assured you that when that shirt was put away, there was a button on it.

ECALYPTUS HONEY.—Since the introduction of the Australian Gum tree into California, the leaves of this tree have been almost every known disease; moreover, even malarial fevers disappear from a country soon after the planting of the most wonderful tree. But it seems that even all this is not enough, for now we are to have medicinal honey, gathered by California bees from the flowers of this tree of life, the famous Eucalyptus or Blue-gum tree. This honey is feared that the Typhoid and Malarial fevers were light spasms compared with this Blue-gum epidemic.
