Mrs. Soway and Mrs. Frank A. Bartlett are visiting in Portland.

A new butcher shop is said to be the very next thing on the taps for Port Townsend.

Read Mr. Hunt's advertisement if you need any bricks. He can furnish you with the best on the Sound.

The schooners Grainger and Mary Parker have each discharged a quantity of freight here last week.

Winter overcoats for Ladies, Gents, Misses and Children, at the SAN FRANCISCO STORE.

Rev. Jno. Reid and family returned from Victoria last week. They have been having considerable sickness lately.

If you don't believe that Mr. Clinger sells cheap for cash just give him a trial.

We are indebted to H. L. Tibbals, Jr., and to Purser McComb of the steamer Empire, for data and files of late San Francisco papers.

Judge Swan has a most unique specimen of fish sent him by Mr. Martin, of Hoko, which he will send to the Smithsonian at Washington.

Winter Gloves for Ladies and Gents, at GROSS BROS.

Bishop Padlock preached in the Episcopal church last Sunday. Notice of the services, we regret to say, was recorded too late for insertion in our last issue.

Ms. Holcombe has changed a partition so as to enlarge the room occupied by his fruit and variety store. He has a growing business, and must make room for it.

For good cigars, go to James Jones' head of Union Wharf, opposite Central Hotel.

Get some of that antiquated crockery ware at Bartlett's. It's an old, old style, made out from the dim long ago, and made new again. It will doubtless be all the rage soon.

The printing material used in publishing the late "Democratic Press," the sale of which has been postponed several times, is now advertised to be sold on the 12th inst., at 10 A. M.

Yes, mother said she was going to get all our boys' clothing at the San Francisco Store hereafter. They give such good satisfaction.

An election is announced to take place at the school house to-morrow, between the hours of 1 P. M., and 3 P. M., for the purpose of electing a director for three years, and a clerk for one year.

Preaching morning and at night at the M. E. Church in this place on next Sunday. Subject at night: Man, when created—MAN NOW, and MAN hereafter. Text: "If a man die, shall he live again?"

Just received at Holcombe's, per Idaho, choice lots of tobacco, cigars, &c.

Ms. Arthur Athridge, one of the efficient inspectors in the Custom's employment at this place, made a big haul one day last week, by seizing about seven hundred dollars' worth of opium.

Collector Bash invited us to take a look at his splendid new McNeale & Urban safe last Friday. It is a magnificent property, and the government officials may now feel easy about their surplus funds.

Oh! where did you get that splendid coat? "Why at Gross Bros." They have plenty more, and are selling them cheap too.

The County Treasurer gives due and ample notice in this issue of the ANNUAL tax to be paid to him in Jefferson County—and that taxes will be delinquent on and after January 1st. Please take notice.

The chaffier characters, "C. C. BARTLETT, 1881," have been put in position in the last issue of stone on the front of the new store building. Being plainly cut, raised letters and figures, they form a neat and attractive label for the monument so nearly finished by our enterprising townsman.

NEWS FOR THE LADIES.—Received. Another fine assortment of Dolls and Ulsters, at the

SAN FRANCISCO STORE. * Isn't it about time to revive the literary society formerly so successful at this place? The long winter evenings are approaching, and quantities of talent for public speaking are lying around loose, in fact, going to waste. Seriously, the institution was productive of substantial good, when in active existence, and what has been done can be done again.

LEGISLATIVE.—From a private letter just received from H. J. A. Kuhn, we take the liberty of extracting the following: "We are progressing nicely, and I think will be able to give the Territory a book embodying all laws on general subjects heretofore passed and now in force, with an index showing local laws. * * * Nothing of importance has yet been finally passed except the Civil Practice Act. The revenue law is about ready to be presented. In regard to the hog law for Clatsop, I will say I was requested by the Claim people to do just that thing. It applies to several counties, and provides that hogs shall not run at large from May 1st to Oct. 1st in each year. Owners liable to damage done. Sequin wants it. The Pilot and Quarantine Bills still hang fire."

LOOK out for an advertisement from C. C. Bartlett & Co. next week, on the subject of "Horses and Wagon For Sale." They will have a bargain to offer.

The largest stock of Gents' Furnishing goods—you can find at GROSS BROS. *

The Otter came down Wednesday in place of the Annie Stewart—the North Pacific being still under repairs.

The November number of the "Callifornia" is at hand, and is as usual full of the best current literature of the day. Published at 408, California Street, San Francisco. Price, \$1 per year.

The largest stock of Hosiery ever brought to this city—you can find at GROSS BROS. *

THE Annie Stewart broke her shaft on Monday at Irondale, and had to be towed up the Sound Tuesday. With the North Pacific in her place on the route, we may expect less detention and less grumbling.

Ms. Capt. Seiden, daughter of Mrs. Sires, of Seattle, started home last week from Pensacola, Florida, to comfort her aged mother who is prostrated with grief over the brutal murder of the head of the family.

A LODGE of United Workmen is soon to be instituted at Dungeness, by the editor of this paper, who is District Deputy G. M. This will be the 68th lodge in the jurisdiction of Oregon, W. T. and B. C. The Order is growing rapidly.

If you want such an article as a fine buggy robe at reasonable cost, call at GROSS BROS. *

It has been determined to locate the million dollar, Pacific Coast rolling mill at Oakland, Cal., and operations upon the site are beginning. Puget Sound townships will have to wait a year or two longer for such an establishment.—EX.

Dr. L. B. Lyman, of Whatcom County, has gone to San Francisco for the purpose of interesting capitalists in a scheme for the manufacture of wood pulp for paper on the Skagit river. He certainly has an abundance of the very best material to work upon.

COLLECTOR Bash has written a very readable, newsy letter to the Seattle "Post-Intelligencer," descriptive of his recent trip through Eastern Washington. It sets forth a lively appreciation of the agricultural value of the country traversed during the journey.

You can find a fine and large stock of Ladies' Underwear, at GROSS BROS. *

PARTIES who started to move from Dungeness to Quilcote only got as far as Neah Bay where they have been detained since by unfavorable weather. The Dispatch is by no means a safe vessel in which to venture beyond Cape Flattery in winter season, hence the care of all concerned to select the most favorable time.

Da. Willson is exhibiting considerable enterprise in developing Irondale. His latest venture was the purchase of a small flouring mill, run by tide water at Cleveland in Island county, by a Mr. Wilson. It will be moved to Irondale by the new owner and made to do duty under pressure from the Chilmacum creek.

Who would not like to have a ranch stocked with such cows as described in the following? Mr. Josiah S. Kennerion, of Barret, Vermont, is the owner of Jersey Queen, from which he has made nearly one thousand pounds of butter this year, and for which he has a standing offer of TEN THOUSAND DOLLARS! Jerseys are pretty good stock, ain't they?

PACKED UP.—Capt. Munroe, of the Dispatch, informs us that on Tuesday, on his way up from Neah Bay, near Sall Rock, a few miles this side of the former place, and out in the Straits, he picked up a round life preserver and a little cabin work, evidently from some wreck. The life preserver had short hair still clinging to it, showing that it had lately been occupied.

THE ALASKA GOLD MINES.—A Harrisburg (Alaska) news dispatch of the 24th contains this information: "The mail steamer California arrived here this morning from San Francisco and way ports, several days behind time on account of some accident to her machinery. She landed a quartz mill and several men, who will go to work in the mill and mines. Times are lively here at present. Everybody is feeling jubilant over the placer diggings which are turning out well."

We have received the first number of the "Polaris," edited by Rev. J. H. Aetion, formerly of the P. C. "Advocate." It numbers among its contributors some

of the leading men of the coast, and evidently aims to be the Eclectic of the Pacific. Starting with a high aim, it will, doubtless maintain a splendid standard. The only question to be solved is that of adequate support. We certainly hope the venture may be a successful one. The price, \$3.50 per year, we consider to be very reasonable considering the value to be returned for it.

THE Walla Walla "Union," argues against a Sunday law on the ground that you cannot make people moral by legislation. This old, worn-out idea, was used long ago against laws for the punishment of murder and theft. Those laws some-how help people to be moral in action at least, though they don't make angels of us, and our neighbor would hardly want them stricken from the statute books. A Sunday law would hardly be respected all over the territory, at first, but it is a step in the right direction, and those who stand in the way of such progress must sooner or later drop behind the front ranks of advancing civilization and pander to the unthinking, lawless ones who reverence nothing.

A STEP, just made toward higher civilization in this Territory, is the introduction of a Bill in the Legislature to prohibit buying and selling any kind of goods, wares, or merchandise, (including intoxicating liquors) on the Sabbath. We are not well enough "posted" in the make-up of the legislature to predict the passage or defeat of this bill, but its provisions are such as ought to commend it to all admirers of christian civilization.

(Since the above was put in type, we learn that the Bill passed the House and would also pass the Council.)

To START UP.—We learn on first class authority that the Milton sawmill will start up on January 1st. Men are now at work building a new smoke-stack and putting the place in order. The wharves will be rebuilt, and the place put in good shape for advantageous work.—Post-Intelligencer.

[Later advices say the mill will be closed another year, under subsidy from California monopolists.]

ARTHUR has signified his intention, it is said, to carry out President Garfield's policy with regard to the suppression of polygamy—over which fact the AKRUS hereby throws up his hat.

G. Q. Cannon, Mormon delegate to Congress, has been defeated in his suit before the U. S. Supreme court for his suit in that body. A. Campbell takes his place. Great rejoicing among the Gentiles.

We learn that some of Mr. Bishop's folks in Chilmacum are down with what they call black measles. Probably a disease akin to the chicken pox, of Tacoma.

We have just received a lot of rambling items jotted down by a itinerant correspondent—too late for insertion till next time.]

Mrs. Thos. Jackson, of this place, and Mrs. Capt. Callison, arrived on the Dakota, Wednesday.

FRESH supply of bird seed, just received by LATHRIM & CO., New Drug Store.

MISCELLANEOUS.

THE U. S. Senate adjourned last Saturday.

THE number of insane persons in the United States is put down by experts at one hundred thousand, and the same authorities say that from ten to twenty per cent. are curable by methods at present used.

THERE have been seven vice-presidents from New York—Burr, Clinton, Tompkins, Van Buren, Fillmore, Wheeler and Arthur. There have been three presidents from New York—Van Buren, Fillmore and Arthur.

A GREAT ENGINEERING PROJECT.—The St. John "Telegraph" states that a proposal has been suggested to utilize the vast water supply of the extreme north of America by closing the northerly outlet of the valley of the Mackenzie River at the line of the 68 degree, and thus storing up the water of 1,200,000 square miles, to which could be added the water of other large areas. A lake would be formed of about 2000 miles in length by 200 miles of an average width, which would cover with one continuous surface the labyrinth of streams and valleys which now occupy the Mackenzie Valley. It would be a never failing feeder for the Mississippi, and would connect with Hudson Bay and the great lakes, and also with the interior of Alaska through the Yukon and its affluents. The connection of the upper Mississippi with Lake Mackenzie would be a comparatively easy matter and a vast amount of navigable waterway would be added to this river. The formation of Lake Mackenzie would also contribute to the proposed ship canal from Cairo (Illinois) to the Gulf of St. Lawrence by the almost straight line which cuts the Wash Valley, the Lakes Erie and Ontario, and the lower St. Lawrence.

Prof. A. L. Francis, professional piano tuner and repairer, desires to give notice that he will be in Port Townsend on or about November 12th. Leave orders at this office.

\$1500 per year can be easily made at home working for E. L. Hinton & Co., 15 Barclay street New York. Send for their catalogue and full particulars.

Have Winter's Hosiery of Wild Cherry always at hand. It cures Coughs, Colds, Bronchitis, Whooping Cough, Croup, Influenza, Consumption, and all throat and Lung Complaints. 50 cents and \$1 a bottle.

Mr. Korter has made a nice improvement in his barber-shop. We venture to say that he has a shop as neatly fitted up as any on the Sound. He has also fitted up a bathroom for salt and fresh water baths. He has done his best to have one of the finest shops, and is master of his profession.

WALL PAPER.—To those wishing to purchase anything in this line, we would say that we have a large and well selected assortment of all kinds of cheap, costly, plain and showy wall paper, just received and now on hand for the trade. Call and examine, as we feel sure we can suit all, in quality, style and price. The selections have been carefully made by competent judges, with a view of putting a superior article on the market.
