#### A TEST OF LOVE.

Mrs. Clark had been reading the Beecher-Tilton scandal until she acquired a poor opinion of men in general, and she thought that perhaps her own husband might have been led from the paths of virtue by some bewitching siren, as his love for her was evidently growing cold. But how to find it out, was the question. He did not show any signs of producing a statement, or of confessing his guilt to a mutual friend.

Ah! I have it, said she triumphantly. I'll drown myself, that is figuratively.

Clark was a farmer in good circumstances, and being several years younger than his wife, and good-looking, it kept her in a per-

petual worry.

Just behind the house was a deep well which was covered over to keep the cattle from falling into it. She removed the covering, and placing her bonnet and shawl upon its brink, she crawled in under a large gooseberry bush to wait developments.

The weather was cold, and she was nearly frozen before she saw in your bereavement, and—and bein and crown in one piece, and her husband and hired man com- I consent. Mercy on us, Mr. Clark! Your wife has thrown herself in the

well! he shouted wildly.

Mrs. Clark expected that her husband would rush to the edge of the well, and after calling her all the endearing names he could think of descend into the watery depths in search of her cold damp corpse.

But Mr. Clark did not do anything of the kind. He calmly approached the well and looking into

Hadn't I better get some of the neighbors here first? asked the frightened man.

After dinner will do, Jake. Business before pleasure, is my motto, and I'm awful hungry. Jake covered up the well, and the men went into the house, leaving the old lady howling with

rage.
I'll old girl him! I'll suicided pesky heifer than he does with me.

After dinner Clark sent the hired man after some of the neighbors, and while he was awaiting his return he seated himself upon The neighbors arrived, and were

for raising the body, but owing to the great depth of the well, they could not decide on the right one. I'll tell you the best way, said lark, pathetically. She is gone, and all never come back to this world woe and trouble; so I think had better let the body remain here it is, and fill up the well. at will save a power of trouble.

This proposition was agreed to by the neighbors as being feasible, and the work of filling up commenced, Josephus throwing in all the large stones and blocks of wood he could lay his hands on.

There, said he, I guess that will do, after they had thrown a couple of cart-loads of miscellaneous rubbish into the well. Jake can fill up the rest at odd spells and rainy days. We'll have the funeral sermon preached as soon as I get

done hauling wood. Near by the side of Josephus stood a woman of about thirty summers, and she had been regarding the solemn scene with a mixture of pleasure and sorrow, intermingled; and when the rest of the neighbors took their de-

Life in Sweet.

The blood is the life of the homan con. Keep it pure and all is well, for present to standard medicine has h tem. Keep it pure and at is well, for this purpose to elandard medicine has but so uniform and amazing second as for Han-Ley's Celebratyre I. X. L. Berryans. Telsis a pure stimulard, medicated with the finest tonics and alteratives which the vegetable kingdom affords, and is the easily preparation at present known which there oughly meets the emergency. The effect of this popular restorative is continuous. Each dose taken invigorates the vital energies and the brain, and its presented one will unquestiously cure any case of debitity, or mental torpolity that dose not granfrom organic causes beyond the reach of medicine. It is in the strictest sense of the word, an invigorating and regulating cordial. If the nerves are tremulous and relaxed, it braces them; if the liver is torpolit it promotes activity in that organ; the apinxed, it braces them; if the liver is torpid it promotes activity in that ergan; the appetite is poor and digestion a slew and painful o eration, it creates a relish for tood and enables the stomach to convert it into healthful allment. Moreover it is a specific for a large number of aliments, some of which are particularly prevalent in the damp and chilly weather we so often experience in mid-winter. Among These may be mentioned rheumatism, chills and fever, and all the morbid conditions of the digestive organs. By insuring perfect digestive organs. By insuring perfect digestion and a proper flow of bile, it insures pure blood, a vigorous circulation, and the prompt discharge of all waste matter from the system.

Important. Endorsed by the Medical profession. Dr. Wm. HALL'S BALSAM FOR THE LUNGS cures Coughs, Colds and Consumption, and all diseases of the Throat and Chest. Dr. TOWNSLEY'S TOOTHACHE ANODYNE cures in one Minute.

The Houses We Live In-In other words, our bodies-are held on repair ing leases. We must prop and sustain them when they exhibit signs of weak-ness and decay, or they will inevitably break down. In Dr. Walker's California Vinegar Bitters, a matchless com-pound of newly discovered medical herbs, peculiar to the Pacific region, the debilitated, the bilious, the rheumatic, the consumptive will find the most genial tonic and restorative ever offered to the suffering invalid. It contains no alcohol, and consequently leaves no sting behind.

Dr. J. Walker's California Vinegar Bitters are a purely Veg-etable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of dise and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Reno-vator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEOAR Britzes in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious

The properties of Dr. WALERE'S VINEGAB BITTERS are Aperieut, Dia-phoretic, Nutritious, Laxative, Diu-retic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim

VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system. No person can take these Bitter's according to directions, and remain long unwell, provided their bones are not destroyed by mineral

poison or other means, and vital or-

gans wasted beyond repair. Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast trib-utaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of un-usual heat and dryness, are invariably accompanied by extensive derangeaccompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic for the purpose equal to Dz. J. Walker's Vinegar Birtress, as they will speedily remove the devithey will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time

stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs. Fortify the body against disease by purifying all its fluids with the Brrrens. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Hendache, Pain in the Shoulders, Coughs, Tightness of the Chest, Diz-ziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the off-springs of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous In-flammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Dr. WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chron-

ic Rheumatism, Gout, Bilious,

Remittent and Intermittent Fevers.

Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood. Mechanical Diseases,—Persons engaged in Paints and Minerals, such as Flumbers, Type-setters, Goldbeaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. Walker's Vincous Bertrans.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelus, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use

of these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thou-sands, are effectually destroyed and re-moved. No system of medicine, no vermifuges, no anthelminities will free the system from worms like these Bitters.

For Female Complaints, in

young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible. Cleanse the Vitlated Blood whenever you find its impurities burst-ing through the skin in Pimples, Eruptions, or Scres; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow:

tem will follow.
