he Seattle and Walla Walla Railroad. The progress and prospects of this enterprise are of great interest to our people; and we have been kindly furnished by officers of that 'Company with much valuable information for publication in connection with that project.

We are informed that Col. Thos. B. Morris, late Engineer of the N. P. R. R.

We are informed that Col. Thos. B. Morris, late Regineer of the N. P. R. R. Co., is now in the employ of the Seattle and Walla Railroad Co., and has procured and delivered over to the last named company copies of all the maps, profiles and surveys of the N. P. R. R. Co., from Seattle to Wallla over the Snoqualmie pass. This Col. Morris has done by the express permission of Chief Engineer W. Milnor Roberts, and Gen. Cass, President of the N. P. R. R. . Cass, President of the N. P. R. R.

would otherwise have required an ex enditure of from \$15,000 to \$20,000 penditure of from \$15,000 to \$20,000.
Those surveys embrace several different lines from Scattle to the summit of the Snoqualmie pass, and a line from the summit down the Yakima to the Colum-umbia to Wallula.

Col. Morris is employed also to make some additional surveys on both sides of the mountains, including a line from Wallula to Walla Walla; and then to make Wallula to Walla Walla, and then to make a full and complete report of the cost and probable earnings of the road when built. This report will embrace estimates upon different lines, and for different classes of narrow gnage roads.—Thus it will be seen that the Company have not only secured the services best of the ablest en gineer to be had, but have advanced their work at least one year by procuring these surveys.

If Gea. Tilton and Jas. McNaught succeed in obtaining the Legislation they are now looking after before Control of the control of the services.

they are now looking after before Con-gress, as they no doubt will, the Company expect to commence the construion of their road early in the Spring.

Now as the New Year is about to be ushered in with such avorable auspices, it is a most fortnitous time for a grand rally by the people in the interests of this movement, so all important to the whole people and the general, welfare of the country.

Public Buildings, etc.- In the Con-ressional Record of Dec. 8, 1873, we

Mr. McFedden also introduced a bill (H. B. No. 431) to provide for the pur-chase of a site and the erection of a public building in Port Townsend, W. T.; which was read a first and second time, referred to the Committee on Pub-

time, referred to the Committee on Fuo-lie Buildings and Grounds and ordered to be printed.

Mr. McFaddon also introduced a bill (W. R. No. 432) to provide for the sur-veys and estimated cost of removing ob-structions to the mavigation of the Skag-it, Snohomish and Chehalis Rivers in the Territorr of Washington, which was the Territory of Washington, which was read a first and second time, referred to Committee on Commerce, and ordered to be printed.

Far Rumors have been rife during the past week that the N.P.R.R. Company will surrender their lease of the L. S. & M. Go, on the 1st of January, though no definite action has yet been taken. One of the terms of the lease is that the N. P. Company are to pay the interest on the bended indebtedness of the L, S. & M. Company-and a failure to do so ren-ders them liable to lose their chartered rights. There is no doubt but that these rumors are well founded and that the ourse indicated will be pursued-bu

Navy blue is undoubtedly the color of the season. So great is the demand for that wholesale houses will only sell lim-ited quantities of it in silk, velvet, or cloth, and then not unless the buyer will also take several pieces of goods in less saleable colors. The general ignorance or color blindness, or both, is so great, however, that quantities of fabrics in different shades of purple are sold for navy blue, and the mistake is not dis-covered by either seller or buyer.
