Puget Sound Dispatch.
 FROM DAILY OF THURSDAY.
SEATTLE & WALLA WALLA RAILROAD.—A proposition has been made by certain parties to the Seattle & Walla Walla Railroad directors to take up and build, ready for the rolling stock, the first section of 15 miles of their road. A meeting of the directors is to be held this evening to consider the proposition and there is not a doubt of their acceptance of it. The building of the first fifteen miles ensures the completion of the road within the next two years.
TERRITORIAL UNIVERSITY.—We were presented this morning with a copy of the Register of the Territorial University for the year ending July 30, 1875. The register is a very neat little pamphlet, printed by C. B. Bagley, Olympia. From it we learn that the Board of Instructors now numbers six persons, and there were, during the term, 96 pupils attending.
SURBER'S PILE DRIVER.—Surber's pile driver was alongside the wharf this morning, having her wheels taken off, preparatory to going up the Duwamish River snaggling. She is to commence at Steele's place and pull out all the snags from there down. She is employed for that purpose by the Talbot Coal Co.
PHOTOGRAPHS.—Moore has preserved the negative of his latest photo of the celebrated Judge C. C. Perkins, and will print a limited number of copies of them at 50 cents apiece. No family should be without them. Children cry for them.
JAMIESON desires to remind those persons indebted to him that October 1st is the last day of grace. All bills unpaid at that date will positively be placed in the hands of a collector. The sale at cost will continue till October 10th.
W. W. I. A.—We have received some complimentary tickets to the fair of the Western Washington Industrial Association, to be held at Olympia October 18th. The managers will please accept our thanks.
ENLARGEMENT.—The contemplated enlargement of our daily and weekly papers will have to be postponed about six weeks. We had intended to have made the alterations next Monday, but we are compelled to defer them.
PACIFIC.—The steamer Pacific sailed for San Francisco last night at two o'clock. She took down a large number of passengers from this place but no coal and only about 30 tons of miscellaneous freight.
EASTERN OYSTERS.—Piper has now on hand and receives by every San Francisco steamer, a quantity of fresh Eastern oysters. Call and try them.
ARREST.—Parties were arrested and brought before Justice Scott this morning, on a charge of larceny. The evidence not being sufficient to warrant the charge they were discharged.
The Territorial Legislature will meet on Monday next, at Olympia.
The railroad iron brought up by the Meyer is being discharged on the wharf. It is sufficient to lay one mile of the road.
The steam tug Favorite was not launched to-day as expected.
A young manufacturer of our acquaintance is making money fast on this motto, parodied from "Poor Richard": "Early to bed, and early to rise; never get tight, and advertise."

The Fanny Lake went down to Guy's logging camp this morning after a boom of logs.
FROM DAILY OF FRIDAY.
SEATTLE COAL.—The amount of coal being shipped from the Seattle mine is increasing daily. The ship Orpheus is now very nearly loaded and there are three more barges now awaiting their turn at the bunkers. When the new wharf is completed, the work of loading coal will be much expedited.
Brouette & Chapman, of the St. Charles Saloon, inform us that they have just received a quantity of fine cognac, and some of the best brands of cigars. If they are all as good as the samples they sent us, we can safely say that no better can be got anywhere.
The Comet will not be on the route again as soon as expected. When the repairs to her boiler are finished she will have to go on the gridiron and have her hull patched up a little as she is leaking considerably. She will hardly be out before Tuesday or Wednesday of next week.
THE RAILROAD.—The proposition of certain parties to the Seattle & Walla Walla Railroad, which we mentioned yesterday, was accepted at the meeting of the board. This proposition, if carried out, will ensure not only the building but the thorough equipping of at least the first 20 miles of road.
ACCIDENT.—R. Elliott met with a serious accident this morning near the Bay View House. He was standing on some scaffolding when it broke with him and he fell to the ground, striking on his abdomen across a beam. He is injured internally.
RACE.—The Zephyr and Black Diamond had a lively little race this morning. The Black Diamond had about a quarter of a mile start, but from the way the Zephyr was gaining on her it is supposed she passed her about Alki Point.
Our town is getting unusually quiet. One of the Justices of the Peace informs us that he has not had a case before him for a week. It speaks well for the morals of our little city, but it is rather rough on our local.
The steamer Zephyr left at 8 1/2 this morning. She took up a large number of passengers, mostly persons going up to attend the session of the Legislature.
Mr. M. P. Bull is to start a paper, to be called the *East Oregonian*, in Pendleton, Eastern Oregon, some time during the present month.
RENTON COAL.—The schooner W. H. Meyer is loading with Renton coal from scows.
FROM DAILY OF SATURDAY.
NEW DRAY.—We were shown this afternoon a dray built in this city for Mr. David Morris, by J. W. Hunt. The dray is heavily ironed throughout and is, as Mr. Morris says, a much stronger and better one than he could get from the East for the same money. Mr. Morris found at what cost he could get one from Chicago and it was exactly what it would cost to build one here. Consequently he gave the job to Mr. Hunt. A few more in this city would act in as sensible a manner as this, it would result in building up numerous small manufactures of this nature, as well as in keeping in circulation here a large amount of money now annually sent abroad. Mr. Morris rejoices in the possession of the first wagon as well as in the first dray ever built in Seattle.
HAY.—The scow of Morrill & Morris came down from its first trip up White River last night, bringing down 19 tons of hay. Capt. Morris reports the river as still very low.

All Christians and sinners are invited to attend the meeting to-morrow afternoon at 3 o'clock near the liberty pole. Preaching by George Edwards.
To be LAUNCHED.—The repairs to the tug Favorite have been finished and she will be launched at high tide this evening. The Favorite was bought in Portland for \$2,400 and has been fitted up here at an expense of nearly \$2,000 more.
CITY OF PANAMA.—As will be seen by our dispatches, the City of Panama arrived in Victoria yesterday, consequently she may be expected here this evening. She has quite a number of passengers for this and other Sound ports.
The mile of railway iron for the Renton Coal Co. was loaded on one of the Company's scows, and will be taken up the river on the next trip of the Otter.
For SNOHOMISH.—The steamer Fanny Lake made a trip down to Snohomish to-day, leaving here about 11 o'clock. The Fanny is now making two trips a week to Snohomish.
FAN BLAST.—Mr. McDonald, the blacksmith, was so pleased with the working of the fan blast on the first forge to which he applied it that he has commenced using it on another one.
The schooner Meyer finished loading with Renton coal and has hauled around to Colman's mill to complete her cargo with a deck load of lumber.
SIDEWALK.—A sidewalk of two-inch plank is being built in front of the new Seattle bank.
Captain Chas. Hopkins, recently appointed U. S. Marshal for Washington Territory, will soon remove his family to Olympia, where he will reside permanently.
Preaching at the Baptist Church at 11 A. M., and 7 P. M. to-morrow. All are invited.—Seats free.
The steamer Libby arrived here at 2 o'clock last night, bringing up a large freight—mostly farm produce.
M. E. CHURCH.—Preaching to-morrow at 11 A. M. and 7 P. M. by the pastor, Rev. A. Atwood. Evening Subject, The Fast Young Man or the Prodigal Son.
RACE.—There will be a horse race at the Seattle track at 1 o'clock to-morrow, between Miss Mary and Kittie Crane, for \$150 a side.
THE LIBBY.—The steamer Libby, in the intervals between her weekly trips to Bellingham Bay, is constantly being fitted up. This week she is having a new wheel put on one side and on her return from her trip next week the other one will be put on. Last trip she hung a new rudder.
WANTED.—A girl to wait on the table at the American Exchange, Mill street.
PREACHING.—At Yesler's Hall, to-morrow at 11 A. M. and at 7 P. M. by Rev. David Sires. All are invited to attend.

News Items
Jefferson County Jail is now without an occupant—for the first time, we have been informed, since its erection, in 1867.
Underground mining, at Schomberg, is temporarily suspended for a week or two, awaiting the arrival of the coal vessels to deplete the shafts.
Steps are being taken by residents on Whidby Island for the construction of a wharf at Hancock's Landing, and already some seven hundred dollars have been subscribed for the purpose. When the structure is completed a steamer will be laid on between that point and Port Townsend.

The ship Sunbeam, to load at Port Blakely, arrived Tuesday morning from an Australian port.
By a resolution of the Council last evening all Indians will be sent without the town limits at once.

An exchange says that a Southwestern editor recently appeared at the grave of a deceased subscriber who had left for years' subscription unpaid, and when the coffin was opened for the last time, deposited therein a palm-leaf fan a linen coat, and a thermometer. Could anything be more considerate and forgiving?
It is reported on good authority that eleven of the jurors who sat at the coroner's inquest on the bodies of the victims of the collision between H. M. yacht Alberta and the Mistletoe were in favour of bringing in a verdict of manslaughter against the officers of the Queen's yacht, and only one was in favour of recording a verdict of accidental death.
The English Earl of Dunraven has bought a large piece of land in Estes Park, Colorado, and designs to persevere the game there for sporting purposes. The neighboring settlers do not approve of this, and his lordship will probably have to employ a large force of gamekeepers.
A GOOD WORD FOR THE BLACKBIRDS.—A farmer writes from Wood's Hole to the Boston Advertiser: "A few days ago, as the barley in my fields was ripening, the blackbirds began to gather about it, and my farmer began to anathematize them as thieves and robbers, feeding upon what they did not sow. 'Why, said he, they come in clouds from Nahshon, and all about us.' Notwithstanding, I told him, I was satisfied that they did more good than harm, and they are welcome to their share. The harvest began, and as the mowers reached the middle of the field they found the stalks of the grain stripped and cut up by the army worm. When the barley was down they began to march out of the field in a compact stream through the barway into the next one, and here we clearly saw what the 'blackbirds' were after. They ponced upon them and devoured them by thousands, very materially lessening their number and their power of mischief. These army worms have returned after an interval of eight or ten years."

SOMEbody's DARING.—"You can smile and smile," remarked the court, as a girl about 18 years old nipped out "but the law wants to know why you throw a pop-bottle through a window on Beaubien street last night."

"Has any one a right to make faces at me?" she asked.

"I was going past Mrs. Johnson's, and she made up a face like this—, and then she flew mad."

"Well, Miss Prim, it was your duty to pass right on without seeming to notice her, even if she had stood on the steps and called you a strawberry blonde, or yelled out that your pull-back dress didn't pull back for shocks."

"Oh, no, I can't take it as a gift."

"Well, then, let's see how we can fix it. You raise chickens, I believe?"

"Yes, a few; but they don't bring anything hardly."

"Don't they? Neither does my paper cost anything, hardly. Now, I have a proposition to make to you."

"All right, brother Moore," and the fellow chuckled at what he thought a capital bargain.

"O, nothing, only a while ago I was playing out by the gate and heard pa say to Mr. Smith that if the truth were known there were a good many Beechers about, and he said they had both been in the Beecher business considerably themselves, and had been lucky at it."

"You bet." Then pa said there'd be a hurricane if you suspected anything; pa looked down then and see me, and slapped me, and told me to go into the house."
