DETROIT, Oct. 12 .- Taxing the liquor business was to-day decided by the Sudreme Court to be constitutional. The main points argued were, first, whether the present liquor law, taxing the business was not practically a license law and thus in contravention to the existing clause in the constitution which prohibits the legislature from passing any law licensing the sale of intoxicating liquors. Second, whether the tax, being levied by authority of the State, could be constitutionally enforced, since it was applied to the support of local municipal Government, or if it were not so, whether the levying of such tax were not in violation of the right of self government possessed by municipalities.

Hospital! CONDUCTED BY G. A. WEED. M. D. COMMERCIAL ST., BETWEEN

MAIN AND JACKSON, SEATTLE. W. T.

SEATTLE. W. T.

TO MEET THE PRESSING WANTS OF many person on Puget Sound needing Medical and Surgical sid, and for comfortable rooms, good care and Moderate Prices, I have fitted up a Hospital, where every convenience and comfort will be provided in consection with experienced and skillful Medical and Surgical attendance.

We aim to make this a permanent Institution, and to give special attention to cases of fracture and injuries of all kinds that are constantly occurring in the saw mills, coal mines and logging camps surrounding us.

Seattle being centrally located, with regard to these interests, and more accessible than any other point, we mean with the aid of these advantages, and by giving personal and thorough a tention to its entire management, to build up an Institution indispensable to the sick and disabled who have no homes, and worthy of their confidence and that of the public.

The Hospital is in a pleasant and healthy locality, and the rooms neatly and cheerfully furnished.

For further particulars apply either in person case letter to.
