### ADMINISTRATOR'S SALE OF REAL ESTATE.

NOTICE IS HEREBY GIVEN THAT IN PURSUANCE OF AN ORDER OF THE PROBATE Court of Kitsap County, Washington Territory, made on the 14th day of September, A. D. 1874, in the matter of the co-partnership property and estate of Samuel E. Smith, deceased, the undersigned, surviving partners of the firm of Renton, Smith & Co. and Administrators of the copartnership property and effects of the said Samuel E. ## Puget Sound Dispatch.

A MODEST REQUEST.—At a meeting of the citizens of Olympia to protest against the bad management of mail matters on Puget Sound, a resolution was unanimously passed, requesting Judge Jacobs, the Delegate elect, to proceed at once to Washington to look after this matter, Judge McFadden being too ill to take his seat at the present session. As the term for which Judge Jacobs is elected does not begin until the 4th of next March, this request is, that he perform the duties of his office, from now till then at his own expense; say for one quarter of a year, $1,250 and travelling expenses. Judge Jacobs is not a rich man and there is no reasonable claim upon him for this service. The fair and reasonable proposition would be, to request Judge McFadden, who is unable to perform the service and has no equitable claim to pay for services he cannot render, to remit to Judge Jacobs the amount to pay him for the services which the people need.

THEATRE—COMPLIMENTARY BENEFIT.—Mr. H. R. Archer, of Madame Duret's Dramatic Troupe, will to-night be the recipient of a complimentary benefit, tendered by our leading citizens. Mr. Archer has already established himself as a favorite with our theatre going public and all who have heard him sing, well know that that alone, is well worth the price of admission. The bill for to-night is one of the best that has ever been placed upon the stage in this city. Madame Duret will appear in two plays, "Lucretia Borgia" and a "Devilish Good Joke." There will also be a musical interlude, in which Mr. Fenton will give some of his best comical songs in character and Mr. Archer will sing several of those soul stirring melodies for which he has become celebrated. Mrs. Carrie Archer, the charming soubrette, will make her first appearance on the stage. The Seattle Brass Band have also volunteered their services for the occasion. Miss Annie Sheppard, the talented and gifted elocutionist, gives one of her choice recitations. We are satisfied that Mr. Archer will get a good "send off" from our people and that the house will be jammed. Our advice is, go early and secure good seats.

THE MATCH.—On Thursday evening quite a large crowd assembled in the rink to witness the potato picking match. The contestants were the same as mentioned the other day with the exception of R. K. Bonney whose place was supplied by S. F. Coombs. In the first match, the judges decided that J. L. Jamieson and E. H. Brown run the match over again as they were a tie. The match between them was very close until they got nearly through when Johnny got a bad fall thereby losing the match.

The prizes were a handsome cigar case, beautifully engraved by W. G. Jamieson, with the monogram of the Seattle Skating Association and the winners monogram; and the privilege of wearing the championship medal, a very fine piece of work also by W. G. Jamieson, until beaten in some contest.

J. L. Jamieson challenged the winner to another match which was accepted and will be run on Thursday evening next.

DROWNED.—Mr. Joseph Teal of this city having mysteriously disappeared on on Tuesday of last week, his friends became alarmed for his safety and accordingly a thorough search for the missing man was instituted. On Saturday his lifeless remains were discovered in Mill Creek, just opposite McCalley's mill below the city. At the time of the discovery the body was lying near the bank, where the water was too shallow to more than just cover it. It is supposed that he had attempted to cross the stream and being quite old and feeble had fallen into the water, and being unable to help himself, had thus strangled to death. In his pockets was found the sum of $87 20, which is probably all that he had with him at the time.—His watch was also found upon his person. These circumstances, together with the fact that he bore no marks of violence, is conclusive evidence that there could have been no foul play.—A Coroner's jury summoned for the purpose of an investigation, brought in a verdict of "death by accidental drowning." His remains were taken to his family residence in this city, where they remained till Monday, when they were conveyed to the City Cemetery for interment, Rev. P. B. Chamberlain officiating in the funeral ceremonies. Mr. Teal has been a resident of Umatilla county, Oregon, for many years, where by perservering industry he had accumulated a respectable fortune. He had but recently moved his family into town for the purpose of educating his children. Mr. Teal was a man possessed of a kind, genial disposition, and was highly esteemed by all who knew him, and his untimely death will be deeply lamented by his many friends and a large family which he leaves behind. His age was about 65 years.—*Walla Walla Spirit of West.*

☞ Mr. Stone, of Puyallup, was drowned on the 25th. He leaves a large family.

☞ We call the attention of our readers to Mr. Piper's new ad. in another column.

RELIGIOUS NOTICE.—There will be union services, in the interests of the American Bible Society, at the Baptist Church next Sabbath morning at 11 o'clock, and in the evening at the Brown Church. The evening services will be such as are common at anniversaries. Addresses will be delivered by various persons.

All who are interested in this noble cause are invited to attend both meetings.

☞ A private telegram from San Francisco Friday night announced the death of Looney C. Bond, one of the pioneer citizens of Oregon. He formerly resided in Linn county, where he had a large circle of friends and acquaintances. Lately he has resided at Waitsburg, W. T. Last September, being out of health with an affection of the heart, he went to California in hopes of getting relief from a change of climate, but no relief came till it came in death. His remains will be brought up on the Oriflamme, and taken to Albany, his old home, for interment.—*Courier.*

PIANOS TUNED AND REPAIRED.—John A. Hillis, practical Tuner and Repairer of Pianos, intends locating permanently at Seattle and respectfully tenders his services to those having instruments. Charges reasonable and satisfaction guaranteed. All orders left at the Store of Wm. Meydenbauer will receive prompt attention. n24-1m pd

☞ We learn that the church recently organized on Spring Creek in Klickitat county, W. T., with fifteen members, is getting along finely. They have organized a Sunday School. This is good news and shows that the people of that section of country are progressing in the ways of civilization.

### The Insane Asylum.

One of the most painful duties which devolves upon us as a journalist is to arraign for public censure personal friends for whose public and private characters we had theretofore had high regard. But where there is a wrong to be redressed, a right to be defeended, or a public interest to be promoted through the medium of the press, we have not the moral courage to allow our sense of duty to be thwarted or biassed by sentiments of personal friendship or enmity.

We have heard much commendation of the cleanliness, order and humane treatment of patients, which prevailed in the management of the Territorial Insane Asylum, and were glad to believe that these commendations were deserved. But now come counter reports from sources which cannot be disregarded. In consequence of repeated reports of bad treatment of patients at the Asylum, the Western Washington Medical Society, at a recent stated meeting in this city, appointed a Committee to wait upon the Governor and request an investigation of the management of that institution. The Committee performed that duty, and the result is stated in the following letter from the Physician of the Asylum:

November 24th, 1874.

Dr. G. A. WEED, Seattle, W. T.

DEAR DOCTOR—Your favor of the 20th ult. at hand. I have just received a letter from Dr. Steele; he informs me that the Governor has done nothing in the matter, whatever, as yet, regarding the Asylum affairs. He says he talked with Murphy, and that the Governor has not so much as mentioned the matter to the Auditor I am sorry that you did not have more time when you were in Olympia, that you could have had the Governor and Auditor both together when you presented those statements and affidavits. You are probably aware that Harmon is an intimate friend of the Governor, and it was through his suggestions and requests that the Governor changed the form of the Physician's contract by taking the sanitary and moral oversight of the patients out of his hands and giving it to Harmon. No doubt the Governor sees the error of his way and on his own account would rather the thing would blow over. His prating about the dignity of the law and all that thing is but bosh. The idea that in this republican government, where the will of the people is supposed to be the supreme law, that the welfare of fifty or more helpless, unfortunate citizens are put in the hands of a man with no restriction as to their care, for him to speculate upon their misfortune, paid by the people's money, to argue that we have no right to investigate the affairs of this institution; that the sacredness of Mr. Harmon's contract—which he has violated in every clause it contains—must not be even meddled with. Would the Governor presume to argue that Mr. Harmon's pecuniary interest is paramount to all other considerations; the interest of the whole people who are taxed to pay for the care of the unfortunate insane; the interests of humanity, the welfare of the insane, nay, even the very lives of these unfortunate creatures and the happiness of their families? The fact of the matter is, Governor Ferry knows that a thorough investigation of the affairs of the institution would reflect no credit on the course he has pursued in regard to it.

You are not probably aware that the Inspectors are solely in the power and interest of Harmon; that they have neglected and abused their trust from the very first; that they have been aware of the abuse of patients, but for fear of offending Mr. Harmon have reported favorably to the Governor all the time. And now to ask these same men to examine and report is but to add insult to injury. It must be remembered that the Auditor has as much to do with this affair as the Governor has, and I would suggest that your Committee write to him, or inform him personally at once as to what has already been done in the matter. We can expect nothing from the Governor alone only a whitewash affair, unless he is forced to do more. The half has not been made known to your committee in regard to the abuse of patients from the very beginning of this institution. I have been informed of many things concerning it since I talked with you.

Yesterday, at my request, an inquest was made on the body of a man who died here in the Asylum, after being here three days. His death was from gangren of the right arm, due to exposure and neglect. He was brought here on the evening of the 18th, through the cold north wind, the arm exposed to the weather, perfectly bare. It was at that time greatly swollen from neglect and tight iron handcuffs. He was bro't here from Walla Walla. He was fifty-two years old, a weak, thin, pale old grey-haired man, docile and harmless as a lamb. But a few weeks ago his wife met with an accident by which her clothes caught on fire, and she was burned so badly that she died in a short time afterward; and now by the abuse and neglect of this old man three or four small children are rendered orphans. I hold that to let these abuses pass unnoticed is to acknowledge ourselves destitute of all human and Christain feeling, that we have relapsed into barbarism.

You will pardon me if I seem to be becoming enthusiastic on the subject. But I am determined that while these outrages continue the public shall know it. If our attempt to get a fair investigation in that matter shall fail, I shall publish the facts in my possession and let the public draw their own conclusions as to where the blame lies. The Coroner's Jury have not as yet returned a verdict. You are welcome, if you think it best, to give these facts, concerning the case, to the publishers of either paper in Seattle.

Hoping to hear from you soon, I am,
Yours Truly, in haste,
H. C. WILLISON,
Steilacoom, W. T.

San Franciscians are indignant because highway robbers nineteen years of age and upwards, are sent by the courts to the industrial school for boys, and are thus given an opportunity to contaminate the minds of the young men who have been placed there for killing Chinamen, and other boyish offenses.

☞ Opium, belladonna and arsenic are the favorite luxuries among the ladies of Reading, Pa. It is unnecessary to add that suicide, blindness and sudden death are not infrequent items in the local press.

☞ A converted liquor compounder has been divulging the secrets of his profession. Now, if a corner groceryman could be got to the mourner's bench what a world of good he might do.

☞ A minister asked a tipsy fellow, leaning up against a fence, where he expected to go when he died. "If I can't get along any better than I do now," he said. "I shan't go anywhere. I'll stay where I am!"

☞ "Show me a radical, gentlemen," said a politician, "and I'll show you a liar." 'I, sir, am one," exclaimed a ready opponent. "Just come around the corner." was the reply, "and I'll show you a fellow who said I couldn't find a radical in the ward."

☞ The difficulties attendant upon the breaking off the habit of chewing tobacco were never more vividly described than by the man who said that freeing himself from the thraldom of the weed he chewed seventeen papers of camomile flowers, five pounds of stick licorice and slippery elm, eat up four fresh towels, three napkins, and a dozen pocket handkerchiefs—and then went back to tobacco again.

BERIAH BROWN: : EDITOR

Seattle, W. T., Dec. 3, 1874

THE PARTISAN PRESS.—The prevailing idea of the partisan press is, that all political effort has but one end and aim: the patronage of office—the spoils of victory. To this end all other purposes are subordinated; by this standard all individual political action is judged and every public measure weighed. "All is fair in politics," is the heathen motto of that class of politicians, and "to the victors belong the spoils," their controlling motive. The question never occurs to them as to which candidate for public position will best promote the public interests; but who are their friends, and how will they dispose of their official patronage? And these partisan editors cannot imagine that any one who takes an active part in politics can be influenced by any other than selfish motives. Hence it is that the partisan press of the country has become a by-word and a reproach to the people, and the independent press has become a power in the land. It was the independent press that broke up the "Tammany Ring" and sent "Boss Tweed" to the penitentiary. It was the independent press which unloaded the Administration of such dead weights as Butler and Poland, in strong Republican districts. It was the independent press that elected Judge McFadden two years ago and gave Judge Jacobs an unparallelled majority at the late election; and the independent press will determine the character of the next General Administration. To no one of the results above mentioned did or can the party or subsidized press contribute a vote to the side it espoused; the interested character of its advice is too well known to carry with it any weight.

The following from the *Standard*, the only newspaper organ of the Democratic party in Washington Territory, illustrates the view above indicated:

"Judge Brown, of the DISPATCH, says that it was his son who illuminated the family mansion, in Seattle, during the recent celebration of Democratic victories in the Atlantic States, and disclaims any responsibility for the act or sympathy with the object. Well, we don't know but what we must commend the Judge's foresight—"a bird in the hand may be worth more than "two in the bush," and then it will be handy to have some one of the family who can come in for a share of the spoils under the new dispensation. Let us kiss him for his father!"

It will be seen that the idea of spoils being the sole incentive to political action, that no amount of facts to the contrary has any weight with the partisan editor. We distinctly said that our residence was not illuminated at all, and that the house illuminated by our son was not occupied by us, and we had no part or lot in the matter. But that makes no difference to a partisan editor, who like a shyster lawyer, thinks forgery and perjury legitimate practice, when it wins. He ignores the fact that our whole political life has been a protest against official patronage as a means to promote party measures; and also, that in renouncing allegiance to every political party organization we necessarily resigned all claims to any share in the spoils of party victory; and makes an exhibition of his own political motives, by complimenting us for supposed duplicity in our public professions, which has ever been our special aversion, as cowardly, hypocritical and abhorrent to our nature.

Actuated by the same sentiments, and in view of "a share of the spoils under the new dispensation," the editor of the *Standard* devotes a column to assailing the management of a public meeting held in Olympia, to consider the question of the mail service on Puget Sound. The ostensible cause of complaint is, that a proposition was favorably passed upon by the meeting to employ Judge Jacobs to proceed to Washington immediately to lay the matter before the Department. This is a matter of great importance to all the people of Puget Sound, and to none more than to the people of Olympia, and any measure which will promote the object sought should have the support of every citizen. Of all the men in Washington, who could be sent to the capital to reprent the wants and wishes of the people with a better prestige or larger influence than the man who has just received the largest popular endorsement ever given to a Delegate to Congress from this Territory? What to every unprejudiced man, intent only on the public interests, seems eminently fit and proper to be done, through the jaundiced eyes of the partisan editor, intent only on party spoils, seems only a trick to promote some party or personal ends; a conclusion based solely upon imaginary facts which have no foundation but in the brain of the inventor. A party press is barely tolerable in the States, where political principles are in issue; in a Territory, where only measures of policy are involved, it is an unmittigated nuisance.

GREAT MEN.—An Oregon editor illustrates the local idea of great men, by stating, under the head of "Great men coming to the front," that the probabilities are that Henry Clay Dean, of Missouri, and Dan. W. Voorhees, of Indiana, will be elected Senators. Dean can discount "Beast Butler" as a black guard, and Voorhees can beat Zach. Chandler in drinking whisky. If that is the character of the men who are to be brought to the front by the Democratic victories, we would rather rule the country with the present party in power. It would certainly be no improvement.

NO PARTY TRIUMPH.—The late victories at the elections in the Eastern States are no where claimed by the leading politicians and most thoughtful men among the victors, as party triumphs; but rather as victories over party. Tilden, the Governor elect of New York, is one of the ablest and purest statesmen that State has ever produced, and this all the Independent, and the better class of the Republican papers concede; and even Vice President Wilson, in a public meeting in New York since the election, bore testimony to his purity of character and congratulated him and the people of the State on his election. Mr Tilden has himself on frequent occasions declared that his Administration should be entirely independent of party dictation or bias, and his previous life is a guarantee of the sincerity of his pledges. He gave up a law practice which paid him $50,000 a year and devoted his entire time and ability for over two years to the labor of breaking up the "Tammany Ring" and bringing the official thieves to justice, without any charge to the State, and it was this fact which gave him the personal popularity which elected him Governor of New York, and not the strength of the Democratic party. And a like character for probity and fidelity to the public interests made Gaston Governor of Massachusetts. There is no hope in any of these results for the characterless Democratic politicians who hope to ride into power upon mere party strength.

There is as little probability of the revival of any of the issues settled by the war. Senator Gordon, of Georgia, in an after election speech, said to his constituents:

"One boon I ask in this hour of your deliverance, I ask you to commission me, in your name, to pledge upon the floor of the senate, your fidelity to the Union under the constitution; your acquiescence in laws passed in accordance with the constitution, good and bad until lawfully repealed; your support of all rightful authority; your cordial friendship for every man and men of all sections, who will aid in rostering peace to the sections, justice to states, liberty to citizens, purity to all departments of the government, and the constitution to its supremacy over presidents, congress, parties, and the people."

These sentiments were cheered to the echo by the men who are accused of the design to re-establish slavery. The truth is, that the recent elections only indicated that no party can succeed in the next general election which does not present as candidates men who have the confidence of the people. Whichever party presents the strongest men is sure to succeed.

NO CONVENTION.—The question of calling a Convention to form a State Constitution, submitted to the voters of Washington Territory at the late election, has been decided in the negative. This postpones the matter of State Government indefinitely. If the next Legislature, which meets a year hence, should again submit the question and it should be decided affirmatively, the succeeding Legislature would have to make provision for the Convention, which would have to go over to another election, so that it will take not less than five years from this time to get the question of admission into the Union before Congress. There is a bare possibility that the State of Washington may have a vote in the Presidential election of 1880; not before.

MOTHER'S HOUSE. — How many are the thoughts called up by these two beautiful words. Is there, can there be any place so full of pleasant places, beneath the waving palms of sunny isles, or in the chilling shadows of icy mountains? Our hearts turn with unchargeable love and longing to the dear old house which sheltered us in childhood. Kind friends may beckon to newer scenes, and loving hearts may bind us fast to pleasant homes but we are not satisfied with them alone, for there is one place far more lovely than them all and that is "mother's house."

It may be old and rickety to the eyes of the stranger. The windows may be broken and patched and the floor worn and mended with tin, but it is still mother's house, from which we looked out at life with hearts full of hope, building wonderful castles in cloudland whsch faded long ago; but, thanks to the good Father, mother's house is left us still and weary with the busy turmoil of life, weary of ourselves, we turn our steps toward the dear house of rest, and at its threshold lay our burdens down.

Here we have watched life come and go. Here we have folded still, cold hands, over hearts as still, that once beat full of love for us. Here we have welcomed brothers and sisters into life watched for the first lisping words from baby lips, guiding the tottering feet from helplessness to manhood, and here we have watched with aching heart to see the dear ones turn from the home nest out into a world which has proved but a snare and a temptation to many wandering feet. And her we gather strength to take up our lives again and go on patiently to the end. But though the world calls us, and we may find friends good and true, we turn to the dear old home, when troubles came, for help and comfort. God grant that for us a there may long remain a "mother's house."

LIGHT IN DANGEROUS PLACES. — In Paris, the watchmen in all magazines where inflammable or explosive material are stored, use for purposes of illumination, a light provided according to the following method:

"Take an oblong vial of the cleanest glass put into it a piece of phosphorus about the size of a pea, upon which pour some olive oil heated to the boiling point, filling the vial about one-third full, and then close the vial with a tight cork. To use it, remove the cork, and allow the air to enter the vial, and then recork it. The whole empty space in the bottle will then become luminous, and the light thus obtained will be equal to that of a lamp. As soon as the light grows weak its power can be increased by opening the vial and allowing a fresh supply of air to enter. In winter it is some times neccessary to heat the vial between the hands to increase the fluidity of the oil. Thus prepared the vial may be used for six months."

BEECHER IN A NUTSHELL.—The Journal, of Marseilles, commenting on the Beecher scandal, says:

"A bitter quarrel has brokon out between three prominent American clergymen, Beecher, Silton and Moultin, on account of certain love letters addressed to Mrs. Beecher Stowe by Silton, which had somehow been got hold of by Moultin. Silton, we are further informed, on his part, charges Beecher with having seduced his youngest daughter, Miss Florene Silton, and sues him for $50,000 damages. * * Mrs. Beecher Stowe is he Mother of the famous Uncle Tom, the well known blind pianist, who created a few years ago, such a *furor* in France.

☞ A Baker City letter to the Salem *Statesman* says: Rye valley, in that Co., is just now the exciting point among the people, rich strikes having lately been made. Green's Discovery, at water level, actually assayed $10,000 to $35,000 silver to the ton. Complete and extensive reducing works are now in course of erection on this and other mines in the district, which will be in working order in the spring. Workmen will be engaged under ground all winter in getting out ore from the mine.

☞ They don't seem to have any Reformers up at Ripon. When Senator Carpenter, in his speech, exclaimed, "Where now are your Reformers?" one of those awfully practical fellows answered, "He is over in the beer saloon, playing pigeon-hole."

INFLUENCE OF NEWSPAPERS.—Small is the sum that is required to patronize a newspaper, and amply rewarded is its patron, I care not how humble and unpretending the gazette which he takes. It is next to impossible to fill a sheet with printed matter without putting into it something that is worth the subscription price. Every parent whose son is away from home at school, should supply him with a newspaper. I well remember what a marked difference there was between those of my schoolmates who had and those who had not access to newspapers. Other things being equal, the first were always decidedly superior to the last in debate, composition and general intelligence.—*Daniel Webster.*

CATHOLIC FAIR. — A Grand Fair for the benefit of the Orphans under the direction of Father Prefontaine and the Sisters of Charity, will be held at the Pavilion, on Thursday, Friday and Saturday evenings, December 10th, 11th and 12th. All who are in sympathy with the charitable object of this effort are invited to cooperate in the work. Contributions will be thankfully received by Father Prefontaine.

EASTERN WASHINGTON. — Rev. S. G. Havermale, in a letter to the *Christian Advocate*, says of the country lying north of Snake River in Eastern Washinton: "When this country is fully developed, there will be harvested or may be, sixty million bushels of wheat per annum. This, with railroad facilities, will realize to the producer fifty cents per bushel more than present prices, or thirty million dollars. This amount, at twenty thousand dollars per mile, will build and equip fifteen hundred miles of railroad, or a through line from Puget Sound to the Missouri River. I believe the children are now born, who, before the prime of life, will see this vision realized. In the above, nothing is said of dairy and garden products, poultry, hogs, cattle, horses, hides, wool, fruit, lumber, minerals, etc."

## Telegraphic

EXLUSIVELY TO THE DAILY DISPATCH.

SANTIAGO DE CUBA, Nov. 28.—A body of Spanish troops encountered a party of insurgents at San Juan yesterday and killed 11.

NEW YORK, Nov. 28.—A private letter from St. Pierre gives an account of a terrible tragedy which took place in a settlement in Labrador on the 15th inst. The victims were two families named Morrison, numbering nine persons, only one of whom, a girl, escaped. It seems, of late, gangs of Esquimaux Indians have been committing robberies, and after several captured were publicly whipped, the Indians sought revenge. On the night of the 15th they visited the dwelling of the Morrisons and shot and stabbed to death 8 persons residing there. One Indian was also shot.

NEW YORK, Nov. 28.—Foreign mails bring the following items:

There is much talk in London over the neglect of the Empress of Russia by the Queen. The Empress has been part of a month in the country, and, apart from her son-in-law has not seen a single member of the Royal family, except on one occasion the Prince and Princess of Wales made a morning call. It is said she likes freedom from ceremony.

The rumor of the Prince Imperial's marrying a Russian Grand Duchess created considerable dissatisfaction among the Bonapartists. The Grand Duchess referred to is the offspring of a morganatic marriage, and Imperialists think the heir of Napoleon III. ought to cast his eyes higher.

SAN FRANCISCO, Nov. 29.—After the Benecia came to anchor last night, Capt. Hopkins gave orders to bank the fires and get under way at daylight. The steamer will round to off Broadway wharf between 8 and 9 this morning.—The programme of the occasion involves a royal salute of 21 guns from Alcatraz, a parting salute from the Benicia as the King leaves her, a salute of welcome by the troops of the National Guard of California, who will escort the King to the hotel. The military division of the Pacific will not participate in the reception because of the rule of etiquette that the King must be first received by the President of the U. S. before any portion of the U. S. forces should salute. The salute from the fort is fired by the commander, Gen. Schofield. The King and suite will be received at the Broadway wharf by the Mayor and Hawaiian consul and military, and escorted to the quarters provided for them in the Grand Hotel, where he will give audience to the consular corps and such other persons as desire to pay their respects.

The Central and Union Pacific R. R. Cos. will tender him a special drawing room car for the overland trip to Washington.

The ruins of the residence of State Senator Moore were removed after the storm, and Mrs. Moore found with two heavy timbers lying across her body. Two children were crushed out of shape. Jno. Hodgkins was blown out of a second story window, and the house blown down, burying his brother's family. On removing the ruins Hodgkins' wife and 4 children were all found crushed to death. The house of Mrs. Winslow was blown down and she found killed by a heavy wardrobe. The loss of life by the tornado will not be less than sixty. Fully as many wounded.

SAN FRANCISCO, Nov. 28.—In the race this afternoon between Occident and Fullerton for $6,000, Fullerton was the favorite in the pools before the race.—Occident drew the pole. In the first heat, at the start, Fullerton was half a length ahead, and three or four lengths at the half mile. At the ¾ Occident collared him and won the heat in 2:19. In the second heat, Fullerton broke 30 feet from the wire and stumbled. Occident took the lead, Fullerton nearly closed in but on the home stretch broke and Occident won by a length in 2:25. The third heat and race was won by Occident in 2:20¾.

TAHLEQUEQUAH, Cherokee Nation, Indian Territory, Nov. 26.—Investigation by Major Ingalls of the fight here on the 24th inst., shows a lamentable condition of affairs. Over 100 shots were fired. A man named Joseph Murphy, while quietly at work on a building, was shot in the breast and died soon after. The Sheriff and Deputy have resigned. The Guard have been suspended, as the murderers were members of the Guard. Sheriff from Illinois District and a posse of 20 mounted men are patroling the place. Over a hundred warriors have come in and others are on the way. The excitement is intense. More trouble is anticipated.

NEW YORK, Nov. 27.—John J. Hannon, the absconding book-keeper of the Southern Coastwise Steamship Co. of San Francisco, was arrested to-night in Jersey City, and locked up to await the requisition of the Governor of California. Nov. 27.—John Hendricks, a native of Finland, aged 32, and a young lad named Willie Bailey, were drowned while attempting to reach Victoria from San Juan Island, in an open whaleboat, during the recent gale.

The schooner Fanny Hare is safely off the ground without sustaining any damage.

The schooner Surprise was totally lost on the east coast of Vancouver Island on Wednesday.

SAN FRANCISCO, Nov. 28 —The repairing of the break of the California Pacific Railroad was completed yesterday morning in a substantial manner, and piles have been driven to strengthen the embankment. The passenger train from Vallejo crossed the break and reached the City at 12:30 P. M. Afterward another passenger train left Sacramento for Vallejo and returned last night; to-day the trains will be running as before the storm.

Yesterday it became necessary to repair the damage from overheating the main engine of the United States Mint. The mechanic in charge attached a rope to the gear for the purpose of facilitating operations. Started the engine into opperation and the beveled wheels were torn out and ruined. It will be several days before new wheels can be cast. The engine is disabled. The little engine which had not yet been accepted by the Government is now struggling to furnish power for the Mint.

CHICAGO, Nov. 28.—Committee on appropriations have nearly completed the War Department bill. They have closely followed the bill of last year. The army to be maintained is 25,000 men. No deficiency in the War Department estimates for this year. The Secretary has received the annual reports of all the Commanders of the Divisions and Departments. General Schofield of the Division of Pacific says since the last report, satisfactory progress toward the final settlement of Indian questions as far as dependent on military operations have been made. A few Apaches who refused to submit to the necessary restrictions have been hunted down and killed.

WASHINGTON, Nov. 28.—The Supreme Court of the U. S. rendered an important decision as the rights of Indians to the land in their reservations. The decision is, that the Indian tribes have not he fee to the lands within their respective reservations, and are only tenants of the U. S., to whom alone the land belongs. The decision holds that the timber and mineral are a portion of the royalty. The Indian tribes cannot sell one nor lease the other.

R. A. Wilbur, agent of the Papago Indians in Arizona, in a communication to the Commissioner of Indian Affairs complains that the Catholic priests are attempting to establish a hierarchy among the Indians, and seek to reduce them to a state of vassalage. They have declared war against the public school system, and use every possible way of oppressing and imposing upon the Indians. The agent particularly explains that the priests are not Americans but Mexicans, and they differ entirely from their American brethren.

SAN FRANCISCO, Dec. 1.—A rumor is current that Milton S. Latham will soon retire from the position of manager of the London & San Francisco Bank in this city. The bank, representing British capital principally, has risen rapidly since its establishment a few years since, until it was the first to largely compete with the Bank of California in the control of the business of commercial banking. The magnificent building now occupied by the bank was paid for out of the surplus profits of the business, after the payment to stockholders of the large dividends declared, these being at the rate of 24 per cent. per annum. Under Latham's management the bank was a most successful financial establishment. The reason given by rumor for the retiring of Mr. Latham is the unsatisfactory results of the California Pacific R. R. scheme, Mr. Latham being the representative of much foreign capital invested. The recent heavy loss to the bank through the failure of E. E. Morgan & Sons, brought about a condition of feeling between the home management and Latham, which has induced the latter to forward his resignation.

EXLUSIVELY TO THE DAILY DISPATCH.

MONTGOMERY, Ala., Nov. 24.—Gov Houston was inaugurated to-day. In his address, he promised faithful performance of his duties. He said if citizens would be loyal to the United States Government and obey its laws cheerfully they would ask the right to govern themselves untrammelled by unwarrantable interference.

LITTLE ROCK, Nov. 24.—Governor Garland issued a proclamation this morning offering a reward of $1,000 for the capture of Smith and $500 for Wheeler.

COLUMBIA, S. C., Nov. 24.—Legislature met to-day. Ex-Congressman Elliott was elected Speaker.

PORT CALBORNE, Ont., Nov. 24.—The water in Welland Canal has reached the level of Lake Erie and the lock gates have been thrown open by back water, which never happened before. Water in the harbor has risen six or seven feet. The storm of last night was one of the most severe ever experienced here. The water dashed over the piers with such force that it was impossible to see the Light House. The keepers found it impossible to get out to light the lamps. Much damage was done to shipping and buildings in the course of erection.

DUNVILLE, Ont., Nov. 24.—Schooner Augustus went ashore at Point Maitland last night. Four of the crew froze to death.

NEW YORK, Nov. 24.—A letter from Havana says a party of 25 Spanish soldiers of garrisoning Fort St. Hillaceo in Central Department, revolted and seized a coasting schooner of Puerto Del Padre on the north coast under threats of death and ordered the captain to take them to Key West, St. Thomas or any neighboring Island. The Capt. set sail but ran his vessel aground on a neighboring Key; then in a small boat went to the nearest post, notified the Commander, who arrested the deserters. They were tried the next day and eleven shot. The rest were imprisoned.

MARYSVILLE, Cal., Nov. 25.—At 7:30 A. M. the Levee north of the city and just back of the Hospital gave way making a crevace of about 60 feet, through which the waters rushed into the old slough-bed with great force, following in its course through the low lands of the west side of the city and by noon had reached the old levee at the foot of Fourth street. The water spread out and surrounded the dwellings in the low lands or slough bottom situated between F and H streets and Fourth and Sixth streets. The occupants had timely warning and succeeded in getting safely out at 4 in the evening, saving a good portion of their household goods from the water. The water rose rapidly in the slough and soon broke through the old levee, which crosses the slough at the foot of Fourth street. The Tranier & Ellis mill was surrounded by water, but not until nearly everything was taken from the basement and brought to the high land. The water at this point rose nearly to a level with E st., but is rapidly receding, as also is the water in both the Yuba and Feather Rivers. The rear portion of L. B. Ayers stable, which stood in the slough, fell this afternoon. There were four valuable trotting horses in the stable, one carriage and two buggies, besides a complete outfit of stable fixtures. Three of the horses were taken out but the other was killed. All the buggies are a total wreck. Mr. Ayres' loss is considerable, probably between $5,000 and 6,000. A young man named Hammel, who was endeavoring to save the horses, was caught in the falling building and killed. The railroad embankment between 8th and 9th streets gave way a distance of 10 or 12 feet. The passengers crossed the break and were taken up by a train on the other side. The Sacramento River at Colusa and Princeton is bankfull. Water is in the streets of Princeton. The river is falling at Red Bluff. The Parks levee at Butte Slough in Sutter County, which broke last winter, is reported safe as also is that near Knight's Landing.

OAKLAND, Nov. 25. A dredging machine working in the Bay near Oakland Point this afternoon, dug up the body of an unknown man whose legs and arms were cut off. The body is in a good state of preservation. The Coroner has been notified.

SAN FRANCISCO, Nov. 25.—At an early hour this morning, three garroters attacked Geo. C. Randall, proprietor of a saloon on the corner of Sacramento and Kearney sts. He made a vigorous resistance at the door of the saloon, but the fellows secured and got away with a valuable gold chain, but did not get his watch valued at $700.

The trotting race between Fullerton, Occident and Chicago has been postponed till Saturday next.

CHICAGO, Nov. 25.—A Washington special says: "Secretary Delano's annual report to the President treats at length on the Indian question. The Secretary thinks that the humane policy is more successful each year, and the cooperation of the various religious organizations is mentioned in terms of warm praise. The situation at present is regarded as very favorable. A proposition to make citizens of the Indians is offered and strongly advocated. The Secretary also recommends that the homestead law be amended so as to enable individual Indians to take advantage of its benefits.

WASHINGTON, Nov. 25.—The House Committee on Appropriations will reduce the appropriation for the Indian Service $250,000 from that of last year. This is justified by the expiration of several Indian treaties. The Committee think the appropriation for the Army should also be reduced.

BOSTON, Nov. 25.—A slight shock of earthquake was felt at Newburyport, Mass., yesterday. The direction of the vibration was from West to East.

MADRID, Nov. 22.—The Carlists attacked San Marcial to-day but were repulsed with heavy loss. The Carlists have again surrounded Irun and are within 500 yards of the wall. They opened a heavy fire to-dav.

HENDAYE, Nov. 25.—Buckland and Leighan, correspondents of the New York Times and Herald, were arrested recently while crossing the San Diego River, notwithstanding their passports. The officers making the arrests refused to examine them.

LONDON, Nov. 25.—As the American ship Nancy Pendleton, Capt. Pendleton, was leaving the harbor yesterday a disturbance broke out on board. A steamtug passing heard the reports of firearms, and one of the ship's crew afterward shouted, "man shot." The fight was going on with axes. Several men shockingly wounded. The ship proceeded to sea. No further particulars obtained.

A telegram from the steamer Faraday yesterday says: "operations delayed by unfavorable weather," and a later dispatch says: "The gale is not abating. We shall buoy the cable. Depth of water 834 fathoms.

GEORGETOWN, Cal., Nov. 26.—On the morning of the 11th of November, Mat Barker, Joseph Francis and another man left Georgetown for Tunnel Hill, Barker driving a four horse team, hauling provisions to that place for Francis. At a wayside grog shop they became slightly intoxicated, angry words passed. Baker become incensed at Francis and hit him over the head with a navy revolver, knocking him off the wagon. Francis, a small man, no match for Barker, could only remonstrate with him, and told him if he was armed things would wear a different aspect. Barker told him to heel himself. Francis reached his house ahead of Barker, and armed himself with a Henry rifle. When Barker drove up he fired at Francis, who stood in the doorway of the house. The latter fired twice. The first ball entered Barker's mouth and came out under his jaw, near the butt of his ear. The other ball entered his side and came out near his shin. He begged Francis not to kill him. Francis immediately procured assistance for the wounded man and gave himself up to an officer. Examination before a justice acquitted him.

To day Francis, unarmed, proceeded to the house of Barker to see if the difficulty could not be settled, and if he could not make amends for the injuries sustained by Barker. As he entered the house Barker, with a navy revolver, blew out Francis' brains. Francis was ditch agent in the employ of the California water Co, and was highly respected.

NEW YORK, Nov. 26.—The Montana arrived at Panama Nov. 18 from San Francisco. The Acapulco sailed from Aspinwall for New York on the 21st.

PARIS, Nov. 26.—Mr. J. Sartoris is expected here on Monday.

A frightful mountain disaster is reported at Great St. Bernard. Eleven persons were buried.

WASHINGTON, Nov. 27.—The jury in the safe burglary case came in at 11 30 and announced that they had agreed as to one of the parties could not agree as to the others and were not likely to do so. The verdict was: "We agree that Arthur B. Williams is innocent. Cannot agree upon Whitely and Harrington. Jury discharged.

LONDON, Nov. 27.—American ship Lady Blessington, which sailed from Liverpool, Nov. 13th, for San Francisco, returned leaking.

CHICAGO, Nov. 27.—The follow extract from the official dispatch of Col. Miles was received at Lieut. Gen. Sheridan's headquarters this morning. It refers to the girls whose rescue from the Indians was announced some time ago:—"During the fight two white girls were recaptured from the Indians. They were sisters, Adelaide and Julia German, aged 5 and 7 respectively, captured in Kansas. Their father, mother, brother and one sister were murdered, and they and two older sisters kept prisoners. They have no positive knowledge of their whereabouts. Their story is too horrible to relate. They were almost naked and nearly starved, and are now under charge of the surgeon. When strong enough to endure the journey they will be sent to Leavenworth.

NEW YORK, Nov. 27.—A Knoxville letter indicates that Andrew Johnson has no prospect of election to the Senate to succeed Brownlow. He is one of score of candidates of Union antecedents. Gov. J. C Brown, the candidate of a corrupt ring, is thought to have the best chance of success.

A Times special says: "It is reposted that the President favors the scheme for a grand system of internal improvements, with the view of reviving business. Republican politicians regard it as a fine scheme to revive the Radical party, to buy the people's votes with the people's money.

TILSONBURG, N. Y., Nov. 27.—A fire last night destroyed about 20 stores and dwellings on the upper flats, among them Hennis' grocery and liquor store, Short and Co.'s hardware, Marrett's general store, the office of the Montreal Telegraph Co. Loss between $75,000 and $100,000.

FREEMANSBURG, Nov. 17.—The excitement over the surprising stealing from its cradle of the child Albert Goss, culminated to-day on finding its body in the Lehigh River. The evidence indicates that the mother threw the child in the river. Mrs. Goss was arrested and conveyed to the Easton jail this morning. Much feeling against the woman.

SORE THROAT—TIGHT COLLARS.—Says an exchange: An eminent physician, who devotes his whole attention to diseases of the throat and lungs, told us the other day that about three fourths of all throat diseases would get well by wearing very loose collars, and no necktie at all. He said that often singers came to him for throat disease and loss of voice, and he would tear open their cravats and cure them, with no other treatment whatever. "The pressure of the collar on the arteries of the neck is very bad for the health," said he. He also added, "If you have a disease of the throat, let nature do the curing, and the physician as little as possible.

☞ James says the ladies don't seem to give a thought to us fellows who keep away from saloons.

☞ A party of young men were out serenading a few nights since. They sat on the pavement, which had been recently paved with a tar solution. Next morning the rear of six pair of pants dotted the walk, and music is heard no more around that cottage.

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL PURELY CALIFORNIA D. WALKER'S EUREKA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with the BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, DR. WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take DR. WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
