**THE ROUTE TO PORTLAND.**—By the  
 mail which arrived this morning (the  
 17th) we learn that communication is  
 kept open with Portland, for passengers  
 and mails, by steamers from Portland to  
 a point on the Washington side of the  
 Columbia, nearly opposite St. Helens,  
 from thence they are conveyed to Kala-  
 ma, to connect with the railroad. Be-  
 low that point the river is blocked with  
 ice so as to cut off all communication  
 with the ocean. Regular passenger  
 trains to Tacoma, we understand, will  
 not commence running till the first of  
 January; then, if the river is open, pas-  
 sengers leaving Portland in the morn-  
 ing can arrive at Seattle in the evening  
 of the same day.

**"WHAT'S IN A NAME."**—The new Rail  
 road at Tacoma is to be called "Bay  
 View House." That was the name of  
 John Pennell's celebrated establishment  
 in this city. As he has removed his  
 stock and business to Tacoma, we do not  
 know whether the Ring assumed his  
 name to compliment him or to draw his  
 custom. It is appropriate either way  
 by the laws of affinity. John's com-  
 merce is quite as reputable as that of  
 the Land Ring.

A newspaper maintained and  
 supported in the interests of the Land  
 Ring, almost entirely by pickings from  
 the Northern Pacific Railroad whose  
 organ it assumes to be, devotes one half  
 of its editorial space to slanders and  
 billingsgate vituperation of personal  
 character, and the other half chiefly to  
 depreciating and defaming the old towns,  
 centres of trade and populations in the  
 Territory. This seems to be the sole  
 business for which it is employed and  
 paid for out of the treasury of the Rail-  
 road which derives its sole revenues from  
 a Government subsidy, a portion of  
 which is used to make war upon the  
 people.

**THE GRANGES.**—We see it stated that  
 a Mr. Clark, Master of the Oregon State  
 Grange of the Patrons of Husbandry,  
 will be upon the Sound in a few days to  
 organize Granges, and that the farmers  
 upon White River, in this county, have  
 applied for a charter. The general ob-  
 jects of this association has our warmest  
 sympathies and support. However we  
 may object to class combinations, or to  
 general principles to secret societies for  
 political purposes, as inconsistent  
 with popular government in which equal  
 rights and an equal voice are guaranteed  
 to all, there are circumstances which at  
 times justify extraordinary measures of  
 defence. "When bad men conspire,  
 good men must associate." That can  
 hardly be regarded as a secret society  
 for the purposes, aims and transactions of  
 which are all open to public criticism.

The organization of farmer's leagues  
 was incited by a long train of abuses  
 for which there was no other apparent  
 remedy. The whole power of the coun-  
 try was rapidly passing into the hands  
 of combined wealth, establishing mono-  
 polies, subordinating to themselves  
 all productive industry and subsidizing  
 legislation to the centralizing of power  
 in the hands of the few at the expense  
 of the many. This state of things was  
 borne until forbearance ceased to be a  
 virtue and further concession would  
 have been treason to popular liberty.

Combinations of wealth monopolized all  
 the avenues of trade, from railroad and  
 steamer lines to wharfs, warehouses and  
 drays, laying all the productions of the  
 country under most onerous contribu-  
 tion, and perpetrating their power by  
 corrupting the ballot, controlling can-  
 didates and subsidizing legislators, by  
 which the laborers and producers of the  
 country were subjugated by the money  
 drawn from their own pockets in the  
 form of taxes, ostensibly for the support  
 of Government. The old political par-  
 ties, both of which were under the  
 same influence and subject to the same  
 caustic management, uniformly used to  
 defeat the popular will, offered no re-  
 medy for these crying wrongs which were  
 rapidly on the increase. Hence the  
 establishment of the Granges. It is a  
 cooperative and protective society; not  
 political in a party sense; the distribu-  
 tion of the spoils of office is no part of  
 the purpose of the organization; but to  
 protect the rights of the producing  
 classes and to resist the unjust exactions  
 of monopolies and special privileges by  
 means of the ballot, is. They do not  
 assume to nominate or dictate candi-  
 dates for office from their own society;  
 but will support none who are hostile  
 to their principles. This organization  
 has already worked a revolution in the  
 old Northwestern States, and as an in-  
 strumentality for the reform of many  
 manifest abuses and the purification of  
 the administration of public affairs, it  
 appears now to offer the most reason-  
 able hope. Of course many bankrupt  
 politicians, damogogues and adventur-  
 ers will rush into the organization in  
 hope of using it for their own selfish  
 purposes. If such evil influences can  
 be kept down, the public have much to  
 hope and nothing to fear from it.

**Council Proceedings.**  
**SEATTLE, Dec. 17.**—Council met at  
 call of the Mayor, to take action in re-  
 gard to setting street gaslights. Present,  
 John Collins, Mayor; Fred Minick, Mar-  
 shal; Councilmen, John Leary, L. Wad-  
 dall, Wm. Meydenbauer, James McKin-  
 ley, John S. Anderson, Robt. Abrams.  
 Minutes of the previous meeting read  
 and approved.  
 Moved and instructed that the Gas Com-  
 mittee be carried to procure 12 posts  
 with burners, etc., complete, for street  
 lights and that 9 of said posts be set im-  
 mediately.  
 Moved and carried that the Gas Com-  
 mittee set the 9 gas lights at such points  
 as they may see fit.  
 On motion adjourned to next regular  
 meeting. EDW. H. BROWN,  
 City Clerk.

**MILITARY.**—On Friday evening the  
 steamer Alida brought to this city Gen.  
 M. C. Meigs, Quarter Master General  
 U. S. Army, Gen. Jeff. C. Davis, Com-  
 mander of the Department of the Col-  
 umbia, Col. R. A. Bachelor, Capt. W.  
 H. Boyle, Messrs. M. Meigs and V. D.  
 Eggleston. The party chartered the  
 steamer Elta White, and left this (Sat-  
 urday) morning for Fort Townsend and  
 San Juan, for the purpose of inspecting  
 and determining the proposition for the  
 removal of the troops from the latter to  
 the former place.  
 Our old friend, Gen. Davis, does not  
 seem much elated with his prospects for  
 the Presidency, though he has been  
 nominated for that office by a conven-  
 tion in Indiana and is supported by  
 several of the most influential journals  
 in the Northwest. As a brave, manly,  
 and true-hearted gentleman, who has  
 honored every position he has ever held  
 and been found equal to the highest and  
 most delicate public trusts both in war  
 and diplomacy, Gen. Davis has had few  
 peers and no superiors among the pub-  
 lic men developed by the late civil war,  
 and if we are to have a military chief-  
 tant at the head of our Government, we  
 know of no one in whose judgment, in-  
 corruptible integrity, and fidelity to the  
 rights of the people we would be more  
 willing to confide. The son of a small  
 farmer in a rural district in Indiana, his  
 sympathies are all with the laboring and  
 producing classes; as a military man his  
 career was never marked by act of tyr-  
 anny or oppression, and no step of his  
 promotion from a Lieutenant to a Major  
 General in the army, was conferred by  
 personal or party favoritism, but achiev-  
 ed by meritorious conduct which could  
 not be ignored. Gen. Davis is no party  
 politician, but eminently sound upon all  
 those measures of reform for which the  
 country is now languishing. When he  
 comes before the country as a candidate  
 for President, we care not by what party  
 nominated, we want to be counted in.

**THE ORGANS OF THE LAND RING**  
 stoutly deny the authenticity of the  
 telegram from Gen. Cass to Mr. Denny,  
 asking the people of Seattle to make a  
 proposition for the extension of the rail-  
 road to this city, with the view of mak-  
 ing this the permanent terminus. That  
 not only one but several communications  
 of like import have been received here,  
 can be substantiated by the documents  
 and the affidavits of the operator should  
 it become necessary. No confidence was  
 betrayed in making these communica-  
 tions public—as was intimated by a silly  
 billy cotemporary—for it was a matter  
 for public consideration which could  
 only be disposed of in a public manner.  
 The denials only prove that the honora-  
 ble men in the Board have not consult-  
 ed the Land Ring or its agents in the  
 present matter, and do not propose to be  
 influenced by them in the future.

**SHOOKUM SMITH** tells his lieutenants  
 he is going to employ a Chinaman to  
 trash the editor of this paper. We are  
 glad he is making some advance in his  
 sense of propriety. The editor he em-  
 ploys to assail us and publish his lies  
 would disgrace the lowest Chinaman  
 ever imported, by his association.—  
 Smith himself is competent to lying and  
 all other dirty work in which there is no  
 personal risk. He has a profound ven-  
 eration for the maxim: "Discretion is  
 the better part of valor."

**THE LAND RING** organs continue  
 to denounce the report that Gen. Cass  
 has made a proposition to the people  
 of Seattle for the extension of the rail-  
 road to this place, as false and fraudu-  
 lent—**invented and forged for the ruin  
 of Tacoma and building up Seattle.** The  
 report is true, nevertheless, and those  
 who deny it have not at all over-rated  
 its consequences, as will be seen very  
 shortly.

**CAPT. J. C. BRITTON**, of Freeport,  
 has purchased the steamer Diana, of  
 San Francisco, formerly known upon  
 the Sound as Tom Wright's yacht. She  
 is a stanch little steamer of about 80  
 tons burden, a fast sailer, with superior  
 passenger accommodations. She is  
 being thoroughly overhauled and refit-  
 ted, and is intended to ply regularly be-  
 tween Port Townsend, San Juan Semi-  
 amo and way ports, and will be on the  
 route about the twentieth of the present  
 month.

**BUSINESS NOTICES**  
 Mr. Chas. Naeher's direct importation  
 of Jewelry, Silverware etc. from the  
 East is just received in time for the  
 Holidays. It is well worth a visit to  
 walk into this establishment and see the  
 wonderful stock of curiosities displayed  
 there. Any one wishing to purchase  
 holiday presents can save by buying of  
 him, as Mr. Naeher is enabled to sell  
 cheaper than others, having bought his  
 goods in the East.

 Brown Bread will be delivered to any  
 part of the City every Sunday morning.

**WE** are indebted to Pumphrey &  
 Young, of the Pioneer Book Depot for  
 a quantity of late Eastern illustrated  
 newspapers and magazines, of which  
 they have a large quantity on hand.  
**FINE DISPLAY.**—The display of con-  
 fectionery, entirely of their own make,  
 at the Puget Sound Candy Manufactory,  
 in this city, is as fine as can be seen  
 anywhere upon this upper coast. This  
 manufactory is a credit to Seattle, and  
 Seattle people should patronize it liber-  
 ally.

**CHRISTMAS TREE.**—The eve of the  
 merriest day of the year is to be cele-  
 brated at the Congregational Church  
 with songs from the children and a tree  
 laden with gifts. Those wishing to put  
 presents on the tree will please to send  
 them to the Church, labelling them  
 carefully, on Wednesday forenoon. All  
 are invited.

**A SITKA** correspondent thus de-  
 scribes Alaska scenery: "Take one big  
 mountain covered with trees from the  
 base nearly to the summit, with an  
 overgrowth of brush, briars and moss, al-  
 most impassable—multiply one by ten  
 thousand, and you will have Alaska.—  
 There is a terrible sameness. One sin-  
 gular feature of this mass of forest is  
 the absence of birds. I have seen but  
 one robin in Sitka."

 from San Francisco. Sailed, from Ply-  
 mouth, bark Bygale for San Francisco.

 Dublin, for Seabeck.

**TREASURE TROVE.**—Some ten years  
 ago a man who lived at Utsalady went  
 to see a friend, living near Oak Harbor,  
 on Whidby Island, and found him at  
 work on his place. The visitor not  
 wishing to be loathed when there was  
 work to do, threw off his coat in which  
 was a purse containing \$250, in gold.  
 When he picked up his coat he missed  
 his wallet, and suspected an Indian of  
 having stolen it. Soon after the Indian  
 was taken and threatened with hanging  
 to extort a confession; several times the  
 poor fellow was strung up, and each  
 time denied having any knowledge of  
 the money. It was then concluded by  
 the settlers that the Indian was innocent  
 and that the man who lost the money  
 was an impostor, and he was allowed  
 only two hours to leave the Island. The  
 affair was soon after forgotten, and no-  
 thing more thought of it, until a few  
 days ago, when a man who was plowing  
 near the place where the Utsalady man  
 had thrown down his coat, ten years  
 before, when to his astonishment, he  
 turned up a twenty-dollar piece. On  
 further search the whole amount of \$250  
 was picked up.

The loser of the money is supposed  
 to be somewhere in British Columbia,  
 but may never be heard of again. The  
 Indian and loser of the money were both  
 innocent, but were treated as though  
 they were guilty. People can never be  
 too careful about passing hasty judg-  
 ment upon any man.—Port Townsend  
 Argus.

**TEMPUS FUERT.**—As the year rolls  
 found, and the seasons succeed each  
 other, each with their peculiar interests,

there is probably none which bring  
 with it as many pleasant associations as  
 the Christmas Holidays. During the  
 year 1873, now drawing to a close, many  
 hard knocks have been aimed at our  
 ambitious little city, yet it still towers  
 with increased energies and brilliant  
 prospects for 1874. With gratefulness  
 for past successes, and hopes buoyant  
 for the future, we would be negligent  
 of duty if we failed to properly observe  
 the approaching Holidays, by making  
 suitable presents to our friends, and so  
 perpetuate the time-honored custom.  
 With full realization of the temporary  
 dull times and present scarcity of ready  
 cash, still we feel justified in saying that  
 we can supply suitable gifts within the  
 means of all. Our goods possess the  
 advantage of being useful as well as  
 elegant and ornamental, and not being  
 of a perishable nature, we deem it econ-  
 omy to purchase of this class. We think  
 we will not be considered egotistical by  
 laying claim to having the best assort-  
 ment in our line in the Territory—in  
 fact that our display would not be dis-  
 credited to many large cities.  
 Reader, we will be pleased to have  
 you pay us a visit. We esteem it no  
 trouble to show goods. Our prices are  
 in accord with the times, and we feel  
 assured you will be pleased with  
 your call and satisfied with your pur-  
 chases.

COMMUNION.—Communion Services will be held in the M. E. (White) Church next Sabbath morning. Also a series of evening services to begin with a watch-night meeting on New Year's, commencing at 8 o'clock.

MASONIC BALL.—Great preparations are being made for the Masonic Ball to come off on Friday evening. The Pavilion is being very prettily trimmed, and it is expected that it will be lighted by gas on that evening.

We call the attention of our readers to the advertisement of Mr. Richards of a dinner at his restaurant to-morrow. Mr. Richards has the reputation of knowing how to set a good table and whoever dines with him to-morrow will be perfectly satisfied with the bill of fare.

VISITING CARDS.—Having just received, direct from the foundry, a quantity of type especially adapted to printing visiting cards, we are now prepared to print them as cheap as they can be got on the Sound. Any one expecting to make calls on New Year's day will do well to procure a quantity. Call and examine specimens and price.

SKATING RINK.—The lovers of roller skating will be glad to learn that the enterprising proprietors of the Skating Rink are to-day laying a new floor in the rink, which will be a vast improvement. They will also receive, per North Pacific, this evening, 40 pairs of new skates, which will be put into the rink as soon as the steamer arrives. The rink will be open as usual this evening.

THE LATE SNOW STORM.—The California papers are filled with accounts of the late cold spell in that State. At San Francisco, Sacramento, Vallejo, and other cities in that part of the State the snow fall was greater than was ever known before, there being a foot of snow at Sacramento. The Placer Herald says of the storm: "All the northern part of the State was visited last Wednesday by the heaviest snow storm that the white man has ever known to fall in the valley so early in the season."

The business men of Astoria and Portland are agitating the question of constructing a telegraph line between the two places. It is estimated to cost only some \$10,000 or \$12,000. It seems strange to us that this work has not been done long ere this. It would be a matter of convenience and advantage to a large class of people in the State, and its cost would be a mere bagatelle. On the Sound here a line has been completed by private parties who do not represent one-twentieth of the capital of those who would be benefited by the Columbia line, and the line between Port Townsend and Seattle cost more than twice the estimated cost of the other, requiring as it did submarine cables in two places, of an aggregate length of seven or eight miles.—Courier.

FATAL ACCIDENT.—Saturday evening last, Dec. 20th, a resident of Tacoma, named William Jamieson was killed, and W. F. Morey, badly injured by an accident to a stage belonging to Mr. Tilley's line running between Tumino and this place. The former was a passenger and the latter the driver. The scene of the accident was near the foot of a long hill some 12 miles from this place. The cars reached Tumino late that night, and it was about 6 o'clock and very dark at the time. The hill is nearly a half mile long, and the driver who is quite feeble and little able to talk, informs us that he was about half way down and at one of the steepest places he lost control of the brake, either by his foot slipping off, or the brake itself giving away. There were three passengers and their luggage and a heavy stage pressing on the horses and they started to run. The driver made ineffectual attempts to control his team, but succeeded in keeping in the roadway until near the foot of the hill where the track makes a short curve. Here the stage struck a large stump, about three feet from the road with such an impetus that although it upset, it went some 30 feet before striking the ground. Two of the passengers were comparatively uninjured, and soon rescued the others. Mr. Jamieson said he was badly hurt, but lived about half an hour after the accident. The driver, Mr. Morey, was found lying partly in the bed of a little stream just at the foot of the hill, with the stage on him, he was insensible when extricated. Mr. Coggan's stage came along a few minutes later, and brought all to a farmer's house some distance this way, where Mr. Jamieson and the driver were left over night. They were brought in next

day, and a post mortem examination was made upon the body of Mr. Jamieson showing that his liver was ruptured. He has a wife living in Tacoma, and bore an excellent reputation. His brother-in-law, Mr. De Cordova, was with him at the time, and went down to Tacoma last night to break the sorrowful tidings to his sister. "Altogether, it was a serious affair, such as we hope may not again be our lot to chronicle its like.—Courier.

BUSINESS NOTICES

Dr. Freeman, the Dentist, is now at home, and may be found at his office until the 1st of January.

J. F. Morrill, druggist, has just received, per brig Kolosa, a nice lot of perfumery and toilet articles for the holidays.

RETURNED.—Dr. J. C. Grass, dentist, has returned and will remain permanently. He can be found at his rooms, Nos. 1 and 2, in Burnett's new building on Commercial street.

BOSTON BROWN BREAD.—Hot Boston Brown Bread will be delivered to any part of the City every Sunday morning. Leave your orders at the SEATTLE BAKERY. L. REINIG.

Mr. Chas. Nacher's direct importation of Jewellery, Silverware etc. from the East is just received in time for the holidays. It is well worth a visit to walk into this establishment and see the wonderful stock of curiosities displayed there. Any one wishing to purchase holiday presents can save by buying of him, as Mr. Nacher is enabled to sell cheaper than others, having bought his goods in the East.

TEMPUS FUGIT.—As the year rolls round, and the seasons succeed each other, each with their peculiar interests, there is probably none which brings with it as many pleasant associations as the Christmas holidays. During the year 1873, now drawing to a close, many hard knocks have been aimed at our ambitious little city, yet it still lives, with increased energies and brilliant prospects for 1874. With gratefulness for past successes, and hopes buoyant for the future, we would be negligent of duty if we failed to properly observe the approaching holidays, by making suitable presents to our friends, and so perpetuate the time-honored custom. With full realization of the temporary dull times and present scarcity of ready cash, still we feel justified in saying that we can supply suitable gifts within the means of all. Our goods possess the advantage of being useful as well as elegant and ornamental, and not being of a perishable nature, we deem it economy to purchase of this class. We think we will not be considered egotistical by laying claim to having the best assortment in our line in the Territory—in fact that our display would not be discreditable to many large cities. Reader, we will be pleased to hear you pay us a visit. We esteem it no trouble to show goods. Our prices are in accord with the times, and we feel assured you will go away pleased with your call. W. G. JAMIESON, Watchmaker and Jeweller. Seattle, W. T.

WASHINGTON, Dec. 19.—The Senate has confirmed William Van Dyke as District Attorney for California; Edward Marcellus as Marshal of California; William F. Wheeler as Marshal for Montana; Sylvester C. Sibley as Postmaster for Idaho City; William H. Gilliam, as Postmaster at Seattle. The majority of the Senators are now known to be unwilling to confirm Williams. If the nomination is not withdrawn it will be rejected, unless at least six senators change from their present attitude. Amendments reported by the Senate Committee on Civil Service to the House salary bill are in the form of a substitute for the bill. It repeals the law of March 3d, 1873 so far as relates to the Members, officers or employees of Congress, and fixes their salaries and compensation exactly what it was at the time of the passage of that act, and the salaries of Cabinet officers at \$8,000 and requires the Secretary of the Treasury to convey unto the Treasury all the sums withdrawn or returned, which are due or have been sold under the act of March, 1873.

BOSTON, Dec. 19.—Orders were received from Washington to-day to close all extra work at Charlestown navy yard, and resume the usual working force. The fitting out of the Brooklyn will proceed but as the emergency is over a number of employees will be discharged.

NEW YORK, Dec. 19.—Jury in the case of Henry W. Genet, on trial for fraudulent practices in connection with the building of Harlem Court House, to-day returned a verdict of guilty. A stay of sentence was granted until Monday, to give him time to prepare a bill of exceptions. A motion to admit to bail was refused and Genet was remanded to the custody of the Sheriff.

SAN FRANCISCO, Dec. 20.—Passengers per steamer Prince Alfred: A. J. D. McElman, Theodore Haltern, Wm. Ren-ton, Mrs. Mensner, Philip Van Tassel, W. J. Harris wife and two children, S. P. Kennedy, A. W. King, Thadens Wolinsky, Chris Hoeser, Mrs. Matthews, and 10 in the steerage.

NEW YORK, Dec. 20.—Several morning papers state that E. A. Woodward, who was county agitor when the Tweed ring ruled, has consented to turn State evidence, has already returned to this

city and given himself up to the authorities and is now in custody. It is alleged that he will implicate some against whom no proof of crime has heretofore been developed, including two or three persons now holding high offices. Oakley Hall still professes perfect confidence of his acquittal. The general impression is that he did not regularly join the ring or share in the division of plunder, and that his large pecuniary acquisitions during Tweed's time, came from the immense professional business given to his law firm by his influence. This will probably be found a sufficient motive with the jury for adjudging him guilty of a criminal purpose if the evidence convict him of official carelessness or indifference. The conviction yesterday of Prince Harry Genet was a complete surprise to the prisoner and his friends. At the conclusion of Tweed's trial he indignantly scouted his friends' advice to flee out of the reach of New York Courts. The penalty under his conviction of obtaining money by false pretences, is from one year in the penitentiary to 5 years in the State prison at the discretion of the Court, and a fine not exceeding \$20,000. There remain untried indictments against Genet for forgery and larceny.

WASHINGTON, Dec. 20.—The Senate adjournment for the holidays without acting on Williams' nomination is ominous of defeat, because the vote should certainly have been pressed if the confirmation had been probable. His friends outside, however, still feel confident that the president will not withdraw the nomination, and that the Senate will ultimately confirm him. His opponents doubtless weakened themselves by specific charges which cannot be maintained, and therefore will react. Only two members of the judiciary committee actively support the nomination. Among his present opponents are the Connecticut Senators, who have been advised by the bar of that State that Williams' argument in the Credit Mobilier case at Hartford was so weak as to be a subject for adverse comment. If a new nomination is made, Edward Pierpont of New York is the most prominent now.

The impression is gaining ground that the Spanish Minister will show that the Virginian had no right to carry the American flag, that she was owned in whole or in part by foreigners and that her American papers were obtained by fraud. If so our government will withdraw the demand for the salute to the American flag on Christmas day according to the protocol. The Postmaster-General has announced that he will arrange a system by which European mails shall be dispatched from New York four times a week on steamers sailing on any given Tuesday, Wednesday, Thursday or Saturday, which, according to their past record, best fulfill the conditions of speed, security and certainty.

NEW YORK, Dec. 20.—The Samana Bay Co.'s enterprise, it is understood, is abandoned. The failure of the U. S. to purchase a naval coaling station there is the cause of the abandonment. The first section of the Oriental Expedition of the Topographical Corps sailed to-day for Egypt with Professor James Strong in charge. He will be joined by Geo. May Powell, and assistants at the mouth of the Nile in March and proceed through Sinai, Moab, Basha, Central and Western Palestine, Asia Minor and Greece.

ST. LEWIS, Dec. 20.—The funeral of Col. Frederick Dent, father in law of President Grant, took place here to-day from the residence of his son. A large number of old friends and acquaintances were present. The body was interred in Belmont cemetery.

TERMINO, Dec. 22.—Opposition stage overturned by a runaway team Saturday night Mr. Jamieson of Tacoma was killed, the driver is not expected to live. The other passengers were unhurt.

WASHINGTON, Dec. 21. It has been known for some days that the Spanish Government has furnished evidence with regard to the Virginian and her claim to the right to bear the flag, and that the President had submitted the evidence to the Attorney General for his opinion. It seems now to be understood in official circles that the Attorney General has formed an opinion that the vessel had forfeited the right to bear flag of the U. S. and at the time of her capture was carrying it without right and improperly. In view of this opinion, our Government will, in accordance with the terms of the protocol, institute enquiry and adopt proceedings against the Virginian and against any persons who may appear to have been guilty of irregularities in connection therewith. As Spain has proven to the satisfaction of the U. S. that the Virginian had no right to the American flag at the time of her capture, the salute on the 25th of December will be dispensed with, as now not necessarily required, but the United States will expect a disclaimer of intent to offer indignity to its flag in the act which had been committed. From the proof submitted by Spain it appears that the clearance papers of the Virginian were obtained by perjury.

A majority of the Senate are not in favor of a total repeal of the bankruptcy act but of amending it in such particulars as will guard a debtor from the exactions of a small minority of his creditors, leaving the question of involuntary bankruptcy to be determined by the those largely interested.

KEY WEST, Dec. 10.—Information reached here yesterday from Havana that serious complications, with regard to Cuba have arisen between the Span-

ish and British Governments. Advice did not state precisely the nature of the difficulties, but it is rumored that the British Consul-General at Havana has received dispatches from Lord Granville to instruct all naval commanders in the West Indies to immediately rendezvous in Cuban ports. It is stated that in official circles it is certainly known that the British Government will demand the punishment of Buriel. British Admiral has left for St. Thomas, where he expects to be relieved.

EXCLUSIVELY FOR THE DAILY DISPATCH

**WASHINGTON, Dec. 16.**—John A. Michels, in charge of the Dead Letter Office, was arrested to-day and held to bail on the charge of abstracting money from letters.

The Senate was in executive session for several hours yesterday afternoon, on the nomination of Geo. H. Williams for Chief Justice. Adjourned without confirming him. Some doubts are expressed by several Senators as to a favorable result.

Owing to the death at a late hour last night of Col. Frederick Dent, father of Mrs. Grant, there was no formal meeting of the Cabinet to-day, nor were visitors received by the President. Deceased was in his 88th year. He complained of feeling unwell yesterday but no alarming symptoms were apparent until a short time before his death which occurred without a struggle. Remains were deposited in the family lot in the St. Louis cemetery.

**Boston, Dec. 16.**—Under-graduates of Harvard College and the Boston Society of Natural History have adopted appropriate resolutions relating to the death of Prof. Agassiz. His funeral has been appointed for 2 p. m. Thursday. Many scientific and other bodies of which the late Professor was a member have expressed a desire to take part in the funeral, but it has been decided, as conformable to what would have been his own wishes to decline all such offers.

**Chicago, Dec. 16.**—Washington special says the efforts in the way of retrenchment will be made at an early day, which will make trouble with officials all over the country. The advisability of cutting down salaries of Government officials, from the highest down through the entire list, comprising assessors, collectors, both of internal revenue and ports, postmasters, etc., is under consideration and will be brought before the House when an opportunity offers.

**LONDON, Dec. 16.**—Dispatch from Sheffield says the city was visited to-day by a terrible terrific storm. A large number of buildings and chimneys were blown down and many persons killed. One immense chimney fell, killing and wounding several persons. In consequence of great excitement and crowds in the streets few details could be learned.

**PARIS, December 16.**—In the Assembly yesterday, M. Dohier of the extreme right presented a petition for the restoration of the Monarchy, with 120,000 signatures.

**MADRID, Dec. 16.**—Bombardment of Cartagena opened again yesterday with increasing vigor. It is said the Great Powers will have assured Castellar that they will recognize the Republic when the Cartagena insurrection is suppressed.

**LONDON, Dec. 17.**—The storm has abated. Telegraph wires are prostrated in all directions, but the lines that are working bring the news that the storm extended all over the North of England and far into Scotland. Sheffield looks as if it had been bombarded. The loss of property is immense. Churches are unroofed and many factories were compelled to suspend work. The lowest estimates place the number of casualties to persons in the city at seven killed, 33 wounded, many fatally.

Other dispatches show that the effects of the hurricane were felt at Glasgow, Halifax, Shrewsbury and Nottingham, in all of which cities lives were lost and great damage done. At Leeds it is estimated that property to the amount of \$100,000 was destroyed. Great damage was done at West Hartlepool and Durham.

Shipping suffered severely at Newcastle, and the Shields steamer is ashore off Aurdrossan. A railway station and several houses were blown down on the Weston, York & North Midland rail road. The steamer Celebrity, from Riga bound for Stettin has been lost; 21 persons drowned.

Jean Luis, witness for the defense in the Tichborne case, who was arrested for perjury and afterwards discovered to be a ticket of leave man, was brought up at Bow St. to-day. When asked if he had anything to say before revocation of his license, he replied that he was sorry for what had happened, but that he was invited and encouraged to do as he did. He declined to say anything further, and was then removed to the convict prison at Pentonville to serve out the unexpired portion of his sentence, after which he will be tried for perjury.

Eugenie is visiting Victoria to-day. It is reported that the King of Ashantee is dead.

**New York, Dec. 15.**—New York Women Suffrage Society held a meeting last night in the Union League Theatre, for the purpose of protesting against the tyranny of taxation without representation. Addresses were made by Mrs. Deveraux, Blair, Sheppard, Logan and Susan B. Anthony, the latter recounting her trial for illegal voting. The usual "taxation without representation is tyranny" resolutions were adopted.

**PHILADELPHIA, Dec. 16.**—Estimated majority in favor of the Constitution, based on the returns already in, is 15,000 out of a total vote of 82,692. Philadelphia gives 26,865 majority in favor of Constitution.

**New York, Dec. 17.**—A Key West dispatch says that Fortune and Ossipee sailed early yesterday. The latter in tow laden with coal probably intended for the Virginias.

Soon after night workers were relieved by day men in Brooklyn Navy Yard yesterday, a discovery was made of two large kegs powder secreted in hold of the Minnesota, the finest and nearest completed war ship in repairer's hands. General belief in the Yard is that the kegs were filled gradually, and being old escaped particular notice.

**WASHINGTON, Dec. 17.**—Gen. Howard appeared before the House Committee on military affairs. He said he courted fullest investigation; waived any advantage that might accrue to him by statute of limitation or otherwise in order that he might be tried by Court-martial.

**LONDON, Dec. 17.**—Swiss Government has reimbursed Genet Stempely and the expenses incurred by him as a member of Geneva Court arbitration. Count declining any remuneration in form of testimonial.

Advices from Cape Coast Castle to the 24th ultimo, report that General Garnett Woolsey has completely recovered his health and resumed active duty. During illness expedition was at a standstill, owing to a large number being sick. Authorities made efforts to place every obstruction they could in way of establishing sanitarium for British soldiers stricken with fever.

**SINGAPORE, Dec. 16.**—Dutch troops have had an engagement with Achinese army and obtained victory.

**WASHINGTON, Dec. 17.**—State Department received information that Virginias was released yesterday morning and sailed from Balboa Honda in the afternoon. Orlando Allen is nominated postmaster of Prescott, Arizona.

**CHICAGO, Dec. 17.**—InterOcean's Washington dispatch says at last light begins to dawn upon Williams' case in spite of reticence regarding charges preferred against him in connection with Chief Justiceship.

Wright says Holmes and Jackson suits charges were examined and rejected as baseless. He was then reported for confirmation, when a telegram making serious charges in connection with alleged attempts to control political matters in Oregon were received from Oregon by Judiciary Committee, and character of signs caused Committee to ask that nomination might be recommitted. After consideration they have asked for power to send for persons and papers and chances now are that no report can be made until after recess.

**New York, Dec. 17.**—Correspondent of the Tribune who was present at the surrender of the Virginias, telegraphs from Key West that the surrender of the Virginias took place at Bahia Honda yesterday morning. The fast steam yacht Dispatch was selected to receive the Virginias, and Captain Whiting, of the Worcester, was selected to command her. He was accompanied by Lieut. Adolphus Marx, Master George A. Calhoun and Assistant Engineer N. H. Landon. The crew consisted of 39 men from the Pawnee.

The Dispatch sailed from Key West Sunday, and reached Bahia Honda about noon Monday. As soon as the Dispatch was signalled from the shore the Spanish flag, bearing the crown, notwithstanding the Republican edict abolishing that monarchical emblem, was flung to the breeze. We distinguished a black, sidewheeled steamer, with 2 smoke stacks, beyond the forts and in perfectly smooth water. No other craft except two or three coasting schooners was visible and it was not until we were about to come ashore that we discovered a Spanish sloop of war lying close under the shore. She was about two miles and a half away and proceeded slowly and steadily and anchored about 400 yards from the Virginias. Almost immediately afterwards a boat from the Spanish vessel came alongside the Virginias, and at a quarter to 2 o'clock the stars and stripes were raised by Spanish hands again and floated over the vessel which carried Ryan, Vanous, Frye and their comrades to death.

A boat was then pulled away at the same moment we saw, by aid of glasses, another boat let down from Spanish vessel which proved to be the Captain's gig. It brought to Dispatch a young Spanish Naval Officer in full uniform. He was courteously met at the gangway by Capt. Rodgers, and he introduced himself as Senor de la Camera, commanding Sloop of War Favorite. He was invited into the cabin, but being informed by Capt. Rodgers that Capt. Whiting was to receive surrender, he stepped briskly toward the latter and Spaniard and American lifted their caps in courteous salute. Camera remarked that he had received a copy of protocol requiring surrender of Virginias and was prepared to execute it, either on that or the following day. Capt. Whiting replied that he was instructed to receive vessel Tuesday, but the hour would be left to the convenience of the Spanish commander. It was then agreed that ceremony should take place at 9 o'clock Tuesday morning. Salutes were again exchanged and Senor de la Camera left the ship, the interview not having lasted more than five minutes. In the afternoon Capt. Whiting and Lieutenant Mansix returned call and were received with proper courtesies. On Tuesday morning punctually as bells on Dispatch struck 9 o'clock, American flag flew to flag-staff of Virginias and at the same moment a boat containing Capt. Whiting and Lieut. Mansix put away from Dispatch. As they ascended accommodation ladder of Virginias a single man was on deck, who proved to be Senor de la Camera, advanced, made salute to officers, and remarked that in obedience to requirements of his Government he had the honor to turn over steamer Virginias to American authorities. Capt. Whiting accepted and

ascertaining that receipt would be acceptable, gave one to the Spaniard, stepped over the side, signalled to his oarsmen and in 10 minutes was upon the deck of his own vessel.

Virginias was in a most filthy condition and was leaking considerably. Spanish Captain stated that he had kept her pumps going continually since her arrival, in order to keep the water down. Virginias steamed about 200 yards; all going well, when engines suddenly refused to do duty and it became necessary for Dispatch to take her in tow and the two vessels went out of the harbor briskly, Spanish flags being displayed by forts as they passed. In an hour we were at sea. Virginias was soon again under steam. Dispatch ceased to tow her and the two vessels steamed together toward Tortugas. When steamers reached Tortugas they found U. S. Sloop of War Ossipee awaiting their arrival.
