CHRISTIAN CLYMER, President.

A. S. MERCER, Secy. August 20th, 1864. no27-4w

U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act, shall be EXEMPT FROM TAXATION by or under any State or municipal authority.

Subscribers to this loan will have the option of having their Bonds drawn interest from March first, by paying the accrued interest in coin—or in United States notes, or the notes of National Banks, adding fifty per cent. for premium, or receive them drawing interest from the date of subscription and deposit.

At the present rate of premium on gold, they pay Over Eight Per Cent. Interest, in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders, as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while for the debts of the United States, the whole property of the country is held to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist.—They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection, that the total Funded Debt of the United States, on which interest is payable in gold, on the 3d day of March, 1864, was \$708,965,000. The interest on this debt for the coming fiscal year, will be \$46,987,126, while the customs revenue in gold, for the current fiscal year, ending June 30th, 1864, has been, so far, at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury, for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts, from customs on the same amount of importation, to \$150,000,000 per annum.

Instructions to the National Banks acting as our agents, were not issued until March 26th, but the amount of Bonds reported sold at the United States Treasury, up to May 7th, was \$44,606,100. Subscriptions will be received by the Treasurer of the United States at Washington, and the Assistant Treasurers at New York, Boston, and Philadelphia, and by ALL NATIONAL BANKS which are deposits of public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depository Banks,) will furnish further information on application, and afford EVERY FACILITY TO SUBSCRIBERS.

VOCABULARY OF THE CHINOOK JARGON.

The following vocabulary of the Indian or Chinook Jargon is published by request, for the benefit of new comers into this Territory. That all who desire it may secure a copy, we shall keep it standing in our columns until the space it occupies is required for other purposes.

This Jargon was the invention of the early settlers of the northern Pacific coast, and though very imperfect in its construction, is the only medium of verbal communication between the whites and Indians, as well as between the numerous different tribes of Indians themselves, throughout Northern Oregon, Washington Territory and British Columbia.

Not having the necessary type, we are unable to give the accented syllables and pronunciation; but these will be more readily and thoroughly acquired by a little practice than in any other way.

The letter F does not occur in the Jargon. Words express either nouns in all cases and numbers or verbs in all tenses, as NIKA WA-WA, I SPEAK or SPOKE, MY WORD or WORDS.

Ab lah, well then. Ar hne yu, a chest. Aris, a sister. Arts, a dog. Arts-poo, fleas.

SEND IN YOUR ORDERS. THE SCIENTIFIC AMERICAN FOR 1864.

VOLUME X.—NEW SERIES.

The publishers of the SCIENTIFIC AMERICAN respectfully give notice that the Tenth Volume (New Series) commenced on the first of January. This Journal was established in 1845, and is undoubtedly the most widely circulated and influential publication of the kind in the world.

A JOURNAL OF POPULAR SCIENCE. In this respect it stands unrivaled. It not only finds its way to almost every workshop in the country, as the earnest friend of the mechanic and artisan, but it is found in the counting-room of the manufacturer and merchant; in the library and the household.

NUMEROUS SPLENDID ENGRAVINGS of the latest and best inventions of the day. This feature of the journal is worthy of special note. Every number contains from five to ten original engravings of mechanical inventions relating to every department of the arts.

REPERTORY OF AMERICAN PATENTS. In this important department, so vitally connected with all the great interests of the country, no other journal can lay any claim whatever, as in its columns there is published a weekly Official List of the "claims" of all patents granted at the U. S. Patent Office.

TERMS OF SUBSCRIPTION: Two volumes of the SCIENTIFIC AMERICAN are published each year, at \$1 50 each, or \$3 00 per annum, with correspondingly low terms to clubs; \$1 will pay for four months' subscription. The numbers for one year, when bound in a volume, constitute a work of 832 pages of useful information, which every one ought to possess.

Club Rates: Five Copies, for Six Months, \$6 00. Ten Copies, for Six Months, 12 00. Ten Copies, for Twelve Months, 23 00. Fifteen Copies, for Twelve Months, 34 00. Twenty Copies, for Twelve Months, 40 00. For all clubs of twenty and over, the yearly subscription is only \$2 00. Names can be sent in at different times and from different Post offices. Specimen copies will be sent gratis to any part of the country.
