TREATIES.

Treaty between the United States of America and his Majesty the King of the Belgians; Extinguishment of the Scheldt dues; Dated at Brussels, July 20, 1863; Ratified, March 5, 1864; Exchanged, June 24, 1864; Proclaimed by the President, November 18, 1864.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

WHEREAS a treaty between the United States of America and his Majesty the King of the Belgians, for the extinguishment of the Scheldt dues, was concluded and signed by their respective plenipotentiaries, at Brussels, on the twentieth day of July, eighteen hundred and sixty-three, which treaty, being in the English and French languages, is in word for word as follows:—

The United States of America and his Majesty the King of the Belgians, equally desirous of liberating forever the navigation of the Scheldt from the dues which encumber it, to assure the reformation of the maritime taxes levied in Belgium, and to facilitate thereby the development of trade and navigation, have resolved to conclude a treaty to complete the convention signed on the 20th of May, 1863, between the United States and Belgium, and have appointed as their plenipotentiaries, namely: The President of the United States of America, Henry Shelton Sanford a citizen of the United States, their minister resident to his Majesty the King of the Belgians; and the King of the Belgians, Mr. Charles Rogier, grand officer of the Order of Leopold, decorated with the iron cross, &c., &c., his minister of foreign affairs; who, after having exchanged their full powers, found to be in good and due form, have agreed upon the following articles:—

Article I.

The high contracting parties take note of, and record:—

1st. The treaty concluded on the twelfth of May, eighteen hundred and sixty-three, between Belgium and the Netherlands, which will remain annexed to the present treaty, and by which his Majesty the King of the Netherlands renounces forever the dues established upon navigation in the Scheldt, and its mouths, by the third paragraph of the 9th article of the treaty of the nineteenth of April, eighteen hundred and thirty-nine, and his Majesty the King of the Belgians engages to pay the capital sum of the redemption of those dues, which amount to 17,141,640 florins.

2d. The declaration made in the name of his Majesty the King of the Netherlands on the fifteenth of July, eighteen hundred and sixty-three, to the plenipotentiaries of the high contracting parties, the extinguishment of the Scheldt dues consented to by his said Majesty applies to all flags, that these dues can never be re-established under any form whatsoever, and that this suppression shall not affect in any manner the other provisions of the treaty of the nineteenth of April, eighteen hundred and thirty-nine, which declaration shall be considered inserted in the present treaty, to which it shall remain also annexed.

Article II.

His Majesty the King of the Belgians makes, for what concerns him, the same declaration as that which is mentioned in the second paragraph of the preceding article.

Article III.

It is well understood that the tonnage dues suppressed in Belgium, in conformity with the convention of the twentieth of May, eighteen hundred and sixty-three, cannot be re-established, and that the pilotage dues and local taxes reduced under the same convention cannot be again increased.

The tariff of pilotage dues and of local taxes at Antwerp shall be the same for the United States as those which are set down in the protocols of the conference at Brussels.

Article IV.

In regard to the proportion of the United States in the capital sum of the extinguishment of the Scheldt dues, and the manner, place, and time of the payment thereof, reference is made by the high contracting parties to the convention of the twentieth of May, eighteen hundred and sixty-three.

Article V.

The execution of the reciprocal engagements contained in the present treaty is made subordinate, in so far as is necessary to the formalities and rules established by

the constitutional laws of the high contracting parties.

Article VI.

It is well understood that the provisions of Article 3 will only be obligatory upon respects to the State which has taken part in, or those which shall adhere to, the treaty of this day, the King of the Belgians reserving to himself the manner of treatment as to fiscal and customs regulations of vessels belonging to States which shall not be parties to this treaty.

Article VII.

The present treaty shall be ratified, and the ratifications thereof shall be exchanged at Brussels, with the least possible delay.

In faith whereof, the respective plenipotentiaries have signed the same in duplicate, and affixed thereto their seals.

Done at Brussels, the twentieth day of July, eighteen hundred and sixty-three.

[Translation.]

Treaty of May 12, 1863, between Belgium and the Netherlands, annexed to the treaty of July 20, 1863.

His Majesty the King of the Netherlands, having come to an agreement upon the conditions of the redemption, by capitalization, of the dues established upon the navigation of the Scheldt, and of its mouths, by paragraph 3 of the 9th article of the treaty of the 19th April, 1839, have resolved to conclude a special treaty on this subject, and have appointed for their plenipotentiaries, namely:—

His Majesty the King of the Belgians, M. Aldephouse Alexander Felix, Baron du Jardin, commander of the Order of Leopold, decorated with the iron cross, commander of the Lion of the Netherlands, chevalier grand cross of the Oaken Crown, grand cross and commander of other orders, his envoy extraordinary and minister plenipotentiary near to his Majesty the King of the Netherlands:

His Majesty the King of the Netherlands, Messrs. Paul Vander Maesen de Sombreff, chevalier grand cross of the Order of the Nichan Iftihar of Tunis, his minister of foreign affairs, M. Jean Rudolphe Thorbecke, chevalier grand cross of the Order of the Lion of the Netherlands, grand cross of the Order of Leopold of Belgium, and of other orders, his minister of interior, and M. Gerard Henri Betz, his minister of finance;

Who, after having exchanged their full powers, found in good and due form, have concluded upon the following articles:

Article I.

His Majesty the King of the Netherlands renounces forever, for the sum of 17,140,640 florins of Holland, the dues levied upon the navigation of the Scheldt, and of its mouths, by virtue of paragraph 3 of article 9 of the treaty of 19th April, 1839.

Article II.

This sum shall be paid to the government of the Netherlands by the Belgian government, at Antwerp, or at Amsterdam, at the choice of the latter, the franc calculated at 47 1/2 cents of the Netherlands, as follows:

One third immediately after the exchange of ratifications, and the two other thirds in three equal instalments, payable on the 1st May, 1864, 1st May, 1865, and 1st May, 1866. The Belgian government may anticipate the above-named payments.

Article III.

From and after the payment of the first instalment of one third, the dues shall cease to be levied by the government of the Netherlands.

The sums not immediately paid shall bear interest at the rate of 4 per cent. per annum in favor of the treasury of the Netherlands.

Article IV.

It is understood that the capitalization of the dues shall not in any way affect the engagements by which the two States are bound in what concerns the Scheldt by treaties in force.

Article V.

The pilotage dues now levied on the Scheldt are reduced—

20 per cent. for sailing vessels.
25 per cent. for towed vessels, and
30 per cent. for steam vessels.

It is, moreover, agreed that the pilotage dues on the Scheldt can never be higher than the pilotage dues levied at the mouths of the Meuse.

Article VI.

The present treaty shall be ratified, and the ratifications shall be exchanged at the Hague, within four months, or earlier if possible.

In faith whereof, the plenipotentiaries above named have signed the same and affixed their seals.

The plenipotentiaries undersigned, having come together in conference to determine the general treaty relative to the

redemption of the Scheldt dues, and having judged it useful, before drawing up this arrangement in due form, to be enlightened with respect to the treaty concluded the 12th of May, 1863, between Belgium and Holland, have resolved, to this end, to invite the minister of the Netherlands to take a place in the conference.

The plenipotentiary of the Netherlands presented himself in response to this invitation, and made the following declaration:—

THE COUNTY FAIR.

Wednesday next is the day set for holding the King County Agricultural Fair. All who take an interest in the advancement of this important branch of business should attend, and bring with them for exhibition any fine specimens they may have of the products of the field, orchard and garden; horses and cattle; poultry; farming implements, new inventions or improvements on old ones. Let the farm, the shop, the loom, the needle, etc., be well represented, that the Fair may be, in fact, what it was intended to make it—a place to see and investigate things of utility, and to obtain useful information that will have a tendency to advance the interest of the various occupations of this community. At the present time, any information touching upon the agricultural resources of our county, is important to be made known; as persons seeking to make homes, by such information may be materially assisted in their choice of locality, and the benefit thus conferred would be twofold: first to the settler, second, to the community in which he may settle. Our greatest need now is farmers, and a spirit of progress infused into those already here. While we have vast tracts of fertile lands and an almost boundless range for cattle, we are importing grain, flour, and cattle to supply the home consumption. Scarcely a week passes in which one or more vessels do not arrive from San Francisco with flour and grain for this market, and everything the farmer raises here meets with quick sale at remunerative prices. In view of these facts, too much importance cannot be attached to anything calculated to awaken interest and attract enterprise in this direction. Our farmers are energetic, practical men, and are making fine farms and good homes in our new country, and will undoubtedly take pride and feel an interest in making the Fair a decided success this fall. Let all turn out and bring with them whatever they may have worthy of a place in the exhibition, and they will find that it was a day profitably spent.

FENIANS IN IRELAND.—The Fenians are becoming numerous in Ireland, and the Government is getting alarmed at their rapid increase and threatening attitude. Many who belonged to the Society, and who have served in our armies during the late war, are returning to their native land, and arms are reported to be arriving there constantly by vessels in small quantities. The Fenians are now very strong in the United States, and have accumulated quite a large sum of money in their treasury, which, if used to aid Ireland in the threatened outbreak, together with the military experience of those going from this country, will give England a deal of trouble. Well may she be uneasy, and her ruling class tremble for its stability, for the heaven of liberty is working, and will continue to work, until the rights of the masses, so long trampled under foot, are obtained. The day of haughty oppressors is passing away, and the sun of equal rights is dawning on the world.

WALLA WALLA appears to be flourishing. This Statesman says the permanent population of the city is steadily increasing. Persons from other sections are beginning to look towards Walla Walla as a place in every way desirable to make permanent homes. During the past fortnight several families have moved up from California and Oregon, and there is scarcely a day in that time that we have not heard persons making inquiries concerning houses to rent. This, together with the bustle and stir among the mechanics of the city, the loading up and departure of trains for Blackfoot, the pouring in of overland immigrants and the arrival and departure of the Boise, Wallula and Lewiston stages, full of passengers, may be set down as a fair indication that Walla Walla "still lives" and is destined to continue to flourish, the prediction of croakers to the contrary notwithstanding.

A SIGN THAT IT'S GOING ON.—We have been informed that Mr. Murphy, of the Washington Standard, has purchased two lots, on the corner of Washington and Second streets, Olympia, and is erecting a new office on them, twenty by forty feet, with a hall up stairs. We are gratified to record evidences of prosperity among newspaper men, for it is precious seldom that we have that pleasure, and hail this as "a sign that it's going on" all right with Standard Murphy.

COLLECTOR.—In our last week's issue we stated that Leander Holmes had been appointed U. S. District Attorney, vice Mr. McGillvra, removed. This was an error, and in the hurry of going to press was overlooked. In justice to that gentleman we now state that he, notified Government, sometime since, that he did not want the office any longer and declined a re-appointment. If Mr. Holmes is appointed it will fill the vacancy thus caused.

GOODS SEIZED.—Inspector A. R. Burbank, lately seized some trunks of fine lace, silk, and opium at Monticello, which were being smuggled through to Oregon or the upper country. These enterprising gents who thus attempt to defraud Government of its revenue, may find the Cowitz route "a hard road to travel" and not at all profitable.

THE term of office of President Jaurez, of Mexico, expires on the 30th of November, and General Ortega is spoken of as a proper person to succeed him.

IMMIGRATION MEETING AT OLYMPIA.

[From the Washington Standard.]

We publish below the proceedings of the meeting held at the M. E. Church in this place, on Saturday evening last, to devise ways and means to provide for the widows and orphans induced to immigrate to this Territory by Hon. A. S. Mercer. The assemblage was creditable, considering the unsuitableness of the hour selected for the meeting, and the sentiment appeared to be cordial in favor of extending a hearty welcome. Gov. Evans stated the object of the meeting in a few terse remarks. He said that while he urged the adoption of such measures as the emergency required, he denounced the injustice and cruelty done the homeless wives and daughters of our country's defenders in the evident misrepresentations made to induce these deluded women to accept the cold charity of strangers. The Governor was followed by Messrs. Huntington, Moore, and others.

At a meeting of the Citizens of Olympia, held at the M. E. Church, on Saturday evening, Sept. 23d, 1865 in behalf of the orphans that are to accompany Mr. Mercer to this Territory, B. F. Brown was called to the chair and L. P. Beach chosen Secretary.

On motion, C. A. Huntington, N. Crosby, Jr., A. J. Chambers, Elwood Evans, A. Tilly, Thalhamer, S. S. Ford, J. R. Browning, Chapman, of Boisfort, and L. P. Beach, were chosen a Committee to procure temporary or permanent homes for as many as possible.

On motion, the following ladies were appointed a Reception Committee, and instructed to make such arrangements as circumstances may require, on the arrival of the party from Seattle: Mrs. Mary Warbass, Mrs. Harnard, Mrs. Whithworth, Mrs. Evans, Mrs. Biglow.

On motion, the Secretary was instructed to report by telegraph, on Wednesday, at 12 M., the number that Olympia and vicinity can provide for. After some able remarks and a fervent appeal in behalf of the orphans of our country, the meeting adjourned. L. P. BEACH, Sec.

A DARING ROBBERY.—The boldest robbery we ever heard of occurred last night about nine o'clock at the store of Crawford, Slocum & Co. Mr. Redway, as was his habit, had made up his cash account and put his dust into the safe, and stood at the desk in his office making a memorandum of the greenbacks that he had just placed in a wallet lying at his elbow on the desk. While entering a note of the amount in his cash book, some person entered the office of the store through the back door, snatched the wallet—containing about two thousand in greenbacks and some notes—from the desk and made his escape out of the store into the darkness. Mr. Redway had just time to get a glimpse of the man—enough to see that he had on a pair of goggles, and was otherwise disguised. Several persons were standing a short distance from the door, but the operation was so adroitly and quickly performed that before any of them could realize what was done the rascal had made his escape.—Idaho Statesman.

NEW STOCK.—Mr. D. Hurton, of this place, has shown us his entire stock of goods just received, amounting in the aggregate to about ninety-six tons. This is decidedly the largest importation of dry goods and provisions ever made to Seattle. Mr. H. informs us that he keeps everything that can be called for in his line of business. Persons desirous of purchasing goods at wholesale will do well to give him a call. He is also agent for the sale of Willamette Woolen Goods, and expects soon to be able to supply customers with goods of Oregon manufacture, at very reasonable rates. See his advertisement in another column.

PERSONAL.—Mr. Beach, an old tyro from Clamtown, paid us a visit this week. He is looking well, and we think it probable he may take unto himself a "jit" when Mr. Mercer's cargo of fair ones arrive, provided the business prospects of that village for the future should prove flattering enough to induce him to incur the extra expense. Business has been rather dull there, but the oyster season is about commencing and brisker times are looked for.

SANTIAM QUARTZ.—The Oregon Statesman of Sept. 25, says, a few days ago, Dr. Chapman, of Portland, took 884 pounds of rock out of the Union Company's claim, to Gibbs & Co's quartz mill in Portland, and it produced gold and silver at the rate of \$160 per ton. The rock was not picked. Again, while at the "dump pile" of the mine, a few days ago, J. H. Moores, picked up several pieces of rock "lying around loose," which were literally covered with the precious stuff.

A new express line has been established between Walla Walla and the Blackfoot mines in Montana Territory. That country is now said to be richer than Boise was, and miners from all sections of the upper country are turning in that direction. The indications are that the Blackfoot country is the point to which the next grand rush will be made.

We learn from Mr. Curry, who left the Snoqualmie Road Party about a week since, that fifteen miles of the road was then completed, and was being pushed forward at the rate of one mile per day. By this time, doubtless, upwards of twenty miles of it have been made.

U. S. S. SUWANEE returned from Olympia on Monday last. In the evening a ball was given the officers at Yessler's Hall, which was largely attended, and which passed off as pleasantly as smiling beauty and sparkling wit could make it.

Miscellaneous Items.

A notorious murderer named Henry, and leader of a gang of villains which have long infested the southern part of California, was killed near Los Angeles, on the night of September 14th. A confederate named Rogers, was arrested, who informed his captors of Henry's place of concealment. A party took Rogers and went to the place, but by some means, Henry became alarmed and attempted to flee, at the same time firing from two six-shooters which he held in his hands. He was instantly shot, fifty-seven balls taking effect in his body.

Sidney Smith was once looking through the hot-house of a lady who was proud of her flowers, and used, not very accurately, a profusion of botanical names.

"Madam," said he, "have you the septennis psoriasis?"

"No," said she, "I had it last winter, but I gave it to the Archbishop of Canterbury; it came out beautifully in the spring."

"Septennis psoriasis" is the medical term for the seven years' itch.

An oil well on Pitthole creek was destroyed by fire on the 3d of August. The well was flowing about two hundred barrels per day, and no tanks being up, the oil was allowed to flow on the ground. Some twenty persons were standing around the derrick, some of whom barely escaped by jumping into the creek. The well was still flowing and burning.

Francis Allston Channing, a young American, and son of Rev. Wm. H. Channing, has, this year, won an honor second to none at the Oxford University, in England. He gained the "Chancellor's Prize," for the best English essay. This prize is open for competition to all students in the University, and as a test of talent and scholarly accomplishments, the winning of it places the successful candidate in the first rank of students.

It has at last been decided what use should be made of Ford's Theatre in the future. The building will be made a depository of rebel archives and relics. On the 2d of August, the place was stripped of all its theatrical furniture and the floors torn up preparatory to adapting it to the use for which it is intended. So it seems that the Government has finally purchased the building.

A Pennsylvania paper says that the people of Lancaster have elected ex-President Buchanan to the high and responsible office of constable, for three years successively. Three times has he been compelled to go before the proper authority and swear that he was elected without his consent, and that he did not want the office.

Capt. Powell's command, on the 12th of September, had a skirmish with the Snake Indians near the Malheur river. The Indians were routed, after a short engagement, and one man, private Hatchley, received a slight wound in his right shoulder.

The Queen Charlotte Coal Company have decided to expend \$20,000 in developing their coal seam on Queen Charlotte Island. They engaged thirty men yesterday, who will immediately be sent forward to open the mine. It is probable a steamer will be dispatched to the spot within two weeks.

It is now stated, on good authority, that there were nearly 900,000 men in the Federal service at the time of Gen. Lee's surrender. On the first day of January there were one million four hundred thousand men on the pay rolls of the Union Army. About 730,000 men, altogether, have been discharged and sent home.

HOLLOWAY'S PILLS.—Nothing preserves the health so well as occasional alterative in changes of weather, or when the nerves are unstrung. These pills act admirably on the stomach, liver, and kidneys, and so thoroughly purify the blood that they are most efficient in warding off derangements of the stomach, fever, diarrhoea, dysentery, and other maladies, and giving tone and energy to debilitated constitutions. All who have the natural laudable desire of maintaining their own and their family's health, cannot do better than trust Holloway's Pills, which cool, regulate and strengthen. These purifying Pills are suitable for all ages, seasons, climates, and constitutions, when all other means fail. They are the female's best friend.

THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT

THE EFFECT OF THE OINTMENT ON THE SYSTEM.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hand as salt disappears when rubbed upon meat. The ointment performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumours, scrofulous developments of all kinds, abscesses, cancers, old wounds, and in fact, every species of inflammation or suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course and permanently cured without danger, by rubbing in this inimitable Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.
In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores and ulcers: in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs: and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier and emigrant.

PILES, FISTULAS, STRUCTURES.
The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient to merely smear the Ointment on the affected parts, but it must be rubbed in for some considerable time, two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

IMPRUDENCES OF YOUTH;—SORES AND ULCERS.
Blisters, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to insure a lasting cure.

DYPHTHERIA, BRONCHITIS, SORE THROATS, COUGHS AND COLDS.
Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest and neck of the patient. The ointment will soon penetrate the pores and give immediate relief. To allay the fever and prevent inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

BOTH THE OINTMENT AND PILLS SHOULD BE USED IN THE FOLLOWING CASES:—
Bad Legs, Corns, (Soft,) Rheumatism, Scalds, Cancers, Contracted and Sore Throats, Bunions, Stiff Joints, Sore Nipples, Bite of Mosqui-Elephantiasis, Skin Diseases, Toes and Sand Pustules, Scurvy, Files, Gout, Sore Heads, Cocoon-bay, Glandular Swel. Tumours, Chiego-foot, Ulcers, Chillsains, Lumbago, Wounds, Chapped Hands, Piles, Yaws.
