order. The ladies of Seattle and vicinity are invited
to call and see them no8 tf

FOR CASH—NEW GOODS—FOR CASH.

YESLER, DENNY & CO.
Have just received a new and well selected stock of
MERCHANDISE suited to this market, which they
offer for sale cheap

FOR CASH, AND CASH ONLY!

Thankful for past patronage, they hope for a con-
tinuance of the same upon the CASH SYSTEM
which they find necessary to adopt to sustain their
business. Those who have money to pay for goods
will remember where they obtained them when
they had none. After this date the credit system is
closed with
YESLER, DENNY & CO.

SOONER OR LATER.

Sooner or later the storm shall beat
Over my slumber from head to feet;
Sooner or later the winds shall rave
In the long grass above my grave.

I shall not heed them where I lie,
Nothing their sound shall signify,
Nothing the headstone's fret of rain,
Nothing to me the dark day's pain.

Sooner or later the sun shall shine
With tender warmth on that mound of mine,
Sooner or later in Summer air,
Clover and violet blossom there.

I shall not feel, in that deep-laid rest,
The sheeted light fall over my breast,
Nor ever note in those hidden bours
The wind-blown breath of the tossing flowers.

Sooner or later the stainless snows
Shall add their hush to my mute repose,
Sooner or later shall slant and shift,
And heap my bed with their dazzling drift.

Chill through that frozen pall shall seem,
Its touch no colder can make the dream
That recks not the sweet and sacred dread
Shrouding the city of the dead.

Sooner or later the bee shall come
And fill the noon with its golden hum;
Sooner or later on half-poised wing
The blue-bird's warble about me ring.

Ring and chirrup and whistle with glee,
Nothing his music means to me,
None of these beautiful things shall know
How soundly their lover sleeps below.

Sooner or later far out in the night,
The stars shall over me wing their flight;
Sooner or later my darling dews
Catch the white spark in their silent ooze.

Never a ray shall part the gloom
That wraps me round in the silent tomb;
Peace shall be perfect for lip and brow,—
Sooner or later,—Oh, why not now?

Good SPELLING.—The Downieville Mes-
senger has the following:

This noble structure (the Durgan bridge)
which for years has served as a means of
communication between Durgan Flat and
the village of Downieville, is soon to be
destroyed as we learn from the following,
which was found nailed to one of its strug-
gling on Wednesday morning last: "Notas is
hereby giffen that I clamz this brig for
wud and intend a cutin uv it up soon az i
can." We are under the impression that
the writer of the aforesaid "notas" is cra-
zy—he has such terrible "spells."

"How do you like the character of St. Paul?"
asked a Parson of his landlady one day. "Ah!
he was a good, clever, old soul, I know, for
he once said, you know, that we must eat
what is set before us, and ask no questions
for conscience sake. I always thought I
should like to have him for a boarder."

Bassompierre, the French Ambassador
to Spain, was telling Henri Quatre how he
entered Madrid. "I was mounted on the
smallest mule in the world." "Ah," said
Henri, "What an amusing sight—the big-
gest ass on the smallest mule!" "I was
your Majesty's representative," was the
 rejoinder.

An Irishman illustrating the horrors of
solitary confinement, stated that out of one
hundred persons sentenced to imprisonment
for life, every one of them died before his
time was out.

A poor fellow, sent to jail for marrying
two wives, excuses himself by saying that
when he had one she fought him, but when
he had two, they fought each other.

A grave friend of ours tells us that he
and his wife always go to bed quarreling.
"And yet," says he, "with all our differ-
ences, we never fall out."

"An attorney," said Sterne, "is the same
thing to a barrister that an apothecary is
to a physician—with this difference, that
your attorney does not deal in scruples."

WHENEVER you find a great deal of gra-
titude in a poor man, take it for granted
that there would be as much generosity, if
he were a rich one.

Many railway trains have smoking car-
riages. It might save the feelings of ladies
and gentlemen if each had a swearing car-
riage also.

"Beautiful wether," as the gentleman said
when he chanced to get a tender piece of
mutton on his plate at dinner.

To smile at the jest that plants a thorn
in another's bosom, is to become a principal
in the mischief.

Pleasure is like a cordial; a little of it
is not injurious, but too much destroys.

The ashes of a cigar are little thought
of—those of a man scarcely more.

Spain and Brazil are now the only na-
tions that tolerate human slavery.

DETAILS OF EASTERN NEWS.

Dates to Dec. 9th.

Chicago, Dec. 8.—Gayle, the assassination
advertiser, appeared for trial before Judge
Busted at Montgomery, Alabama, and gave
bonds to appear when called for.

O'Mahoney, President of the Fenian
Brotherhood, published a card denouncing
the malcontents styling themselves the Fen-
ian Senate, now in session.

Gen. Kilpatrick will leave for Chile,
Dec. 21, under instructions.

A fire broke out this morning at the cor-
ner of Clark and Jackson streets, and de-
stroyed five buildings occupied by twenty
families. Loss \$60,000. It was caused
by incendiarism. A fire broke out in the
postoffice at Macgregor's, Iowa, this morn-
ing and destroyed 200 buildings, comprising
stores and other valuable structures with
their contents. Losses over \$1,000,000.

The resignation of Generals Butler and
Dix have been accepted. The former in-
tends to reply to that part of the report of
Grant which was sent to Congress.

The Collector of Internal Revenue of the
First District of Kentucky is unable to act
without an armed guard and has applied to
Gen. Palmer for a detail of soldiers.

A Washington dispatch says that a Cab-
inet meeting, held on Wednesday evening,
decided that Mallory, the rebel Secretary of
the Navy should be tried by jury at once.

Resolutions were introduced in Congress
on Wednesday, which have been incorrectly
interpreted as having reference to employees
of the Treasury Department; but they are
directed against a certain class of officers who
could not take the prescribed oath, Provisional
Governors included.

El Paso advices, of Nov. 9th, include a
decree of Juarez extending the Presidential
term, because a popular election was imprac-
ticable. Another decree declares Or-
tega subject to trial upon his return for
staying in the United States beyond his
time. Juarez was to leave for Chihuahua
on Nov. 13th. The News from the interior
was reported to be satisfactory to the Lib-
erals. It says several Generals on the
frontier have accepted Maximilian's amnes-
ty. The telegraph lines were soon to be ex-
tended from Guajuato to Tampico and
Matamoros.

The Indian tribes that made the recent
attack on the Overland Route are believed
to be that branch of the Cheyennes and
Arrapahoes which were driven forth to the
Platte river after the massacre last August.
When the commissioners were on the plains
they were informed that these Indians had
sent messengers to negotiate for peace. It
is supposed that these messengers were at-
tacked and driven back by our forces, and
robbed of their mission, and that the recent
attacks are in retaliation. Information
has been received at the Department of the
Interior that shows that these Indians are
yet disposed to be friendly, and Major
Wynkoop has been detailed to negotiate
with them.

Daniel S. Dickerson and F. E. Spinner
are now the most prominent candidates for
the N. Y. Collectorship.

It is reported in Mobile that Jacob
Lawrence and B. W. Duston, late of the
Treasury Department as common agents,
have pocketed a million dollars each and
left the country to escape prosecution and
punishment.

New York, Dec. 8.—Wall street is very
dull. The only feature of importance is
the increased public confidence as indicated
by the rise in good securities and the decline
of gold. This improvement is attributable
in part to the satisfactory tone of the Pres-
ident's message and to the decided policy of
the Secretary of the Treasury relative to
contraction, and to the prospect of the re-
duction in the expenses of the war and
navy departments, and in the aggregate of
the national debt.

Washington, Dec. 9.—The belief gains
strength that Congress will remodel the
municipal court in the District of Columbia
and introduce negro suffrage. To oppose
this, the citizens are working to have their
charter revoked, and have no municipal
government, placing their affairs entirely
in the hands of Congress.

Minister Burlingame will return to China
in a few days with new instructions.
The General Land Office to-day trans-
mitted to Oregon City, Oregon, 49 grants
for claims, grown out of ancient settlers in
Oregon, being under a donation enactment
of the State, which set aside 23,000 acres
for pioneers and old settlers.

Chicago, Dec. 9.—Meuphis newspapers
record a shocking tragedy at Brooksville,
Miss. on the 3d. A young man named
Charles Thompson, son of a wealthy planter,
shot and killed his mother, brother and
three sisters, and wounded his father and
one sister. He had returned from South
America a year since and exhibited evi-
dence of citizenship of Peru. The property
was decided to him for protection. Late-
ly he has been organizing a company for
Brazil and selling off the stock of the pla-
tation. His mother was taking legal steps
to restrain him, when it resulted as above
stated. He went to a flatboat in the Tom-
bigbee, loaded with cotton, and was put-
ting off when he was arrested. He is now
in jail at Macou.

The Louisville Courier was re-issued on
the 4th. The Richmond Examiner was
revived on the 9th. E. M. Bruce, late
member of Congress from Kentucky, now a
builder at Augusta, has presented John C.
Breckenridge with \$100,000. Gen. Sher-
man is making a tour of his military de-
partment. He was at Memphis on the 5th
and would leave the next day for Little
Rock. The Southern press has called a
convention at Memphis on the 20th, to
form an association for telegraph news.
Gen. Beauregard is now at New Orleans
attached to the great Northern Railroad.
He publishes a card in the New Orleans
Times of the 5th, in which he says: When
my native State, Louisiana, required my
service, I drew my sabre without hesitation,
as soon as I would to rescue my mother
from the torrent, without thought of my
own safety. In order to escape the hatred
of Northern fanatics, I thought of taking
refuge in Brazil, but the generous senti-
ments expressed by President Johnson towards
the Southern States persuaded me and a
great many other Confederate officers and
soldiers to remain in Louisiana. I prefer to
live here poor and forgotten rather than be
endowed with honor and riches in a foreign
country.

John M. Withers was elected Mayor of
Mobile on the 4th, but he has been inform-
ed that he will not be permitted to exercise
the functions of the office until pardoned.

Halifax, Dec. 8.—The following additional
news by the steamer Asia has been received:

The British Government has offered a re-
ward of £1,000 for the capture of Stephens,
the Fenian Head Center of Ireland. It
also offers £300 for information that may
lead to his arrest, with a free pardon to any
person or persons who may give such infor-
mation. Nothing is known as to the mode
or manner of Stephens' escape, except that
his liberation must have been effected by
officials.

General Logan has not yet come to a
decision regarding the acceptance of the
Mexican mission. He is awaiting the re-
turn of General Grant before he decides.

A QUAKER JOKE.

K—, the Quaker President of a Penn-
sylvania railroad, during the confusion and
panic last fall, called upon the W—
bank, with which the road kept a large
regular account, and asked for an ex-
tension of part of its paper falling due in a
few days. The Bank President declined
rather abruptly, saying in a rough tone to
the functionary:

"Mr. K—, your paper must be paid
at maturity; we cannot renew it."

"Very well," our Quaker friend replied,
and left the bank. But he did not let the
matter drop here. On leaving the bank he
went to the depot and telegraphed to all
the agents and conductors on the road to re-
ject the bills on the W— bank. In a few
hours the train began to move, full of the
panic, and bringing the news of the W—
bank all along the line. Stockholders and
depositors flocked to the bank, quaking with
panic, inquiring thus:

"What's the matter? Is the bank
broke?" &c., &c.

A little inquiry on the part of the officers
showed that the trouble originated in the
rejection of the bills by the railroad agents.
The President seized his hat and rushed
down to the Quaker's office, and came burst-
ing in with this inquiry:

"Mr. K—, have you directed the refusal
of our currency by your agents?"

"Yes," was the quiet reply.

"Why is this? It will ruin us."

"Well, friend L—, I supposed the
bank was going to break, as it could not re-
new a little paper for us this morning."

It is needless to say that Mr. L—
renewed all the Quaker's paper, and enlarged
his line of discount, while the magic wires
carried all around the road, to every agent,
the sedative message:

"The W— bank is all right. Thee
may take all its currency."

MARRIAGE BY PROXY.—Marriage by
proxy is said to be quite a common occur-
rence in Mexico, but we believe it has not
been practiced to any extent in California;
but we being a progressive people, ever
ready to seize upon and adopt as our own
everything of worth, we may soon be induced
to accept the Mexican plan as an amend-
ment to ours. At any rate, an attempt has
recently been made in this city to set the
ball in motion. A gentleman engaged in
business here was engaged to be married to
a young lady, but before the day fixed upon
had arrived, he was compelled to make a
trip to Mazatlan. Bidding his intended to
be of good cheer, and promising to be back
by the day appointed for the wedding, he
took passage for Mexico. Man proposes
but God disposes, and in this case, although
the gentleman used his utmost endeavors,
he could not so arrange his affairs as to re-
turn by the time agreed upon, but he could
not bear to have his intended disappointed,
and in order to remedy the matter he sent
a power of attorney to a friend with in-
structions to marry the girl for him and in
his name. The friend, desirous of accom-
modating the absent one, yesterday applied
to the County Clerk for a license. The
matter is in abeyance, we believe.—Call.

THE POET BRYANT.

Mr. Bryant was 71 years old on the 3d
of November. He bears his age well.
Frost lies white upon his ample beard, but
the fire of youth is in his eye, and his heart
still beats strongly and steadily, with a vi-
tal fire that shows no sign of serious physical
decay. His mind, working alertly and clear-
ly, is as quick in perception and as logical
in deduction as it was 20 years ago. His
slight and agile figure, passing rapidly
among the crowds of the street, is that of
a man of thirty years rather than the frame
which men usually associate with a septu-
agenarian's weight of years. He uses no
glasses to aid his vision. The nearest ap-
proach he was ever known to make to a
confession of imperfect sight was in my
bearing about a year ago. Going to a
window to read a newspaper, he uttered a
good-natured remonstrance against the fine-
ness of the print, observing that he didn't
intend to wear spectacles so long as he
could help it, but wished the papers would
not use such small type.

In the matter of dress, Mr. Bryant is
neither a Count D'Orsay nor a Horace
Greely. He greatly prefers cleanliness to
style; is always tidy, but blissfully uncon-
scious of the requirements of fashion, and,
like Domine Sampson, would be quite like-
ly to attribute to the preservative qualities
of the atmosphere the exceeding glossiness
of any new garment surreptitiously intro-
duced into his apartment over night. Yet
he is orderly and precise in his intellectual
life—almost to the extreme of fastidiousness
and hypercriticism, as if Nature's principle
of compensation were specially illustrated
in his case. He has a hearty contempt for
shams, snobs, and silliness; admires pluck,
perseverance and industry; adores Nature,
and works hard for the love of work, and
readily recognizes a worker when he sees
him; finds his recreation in recondite stud-
ies, in green fields, babbling brooks, and
the study of animal forms—in digging
among the roots of language, in planting
trees, making newspapers, and observing
mankind—in the prattle of children and
the wisdom of the schools—in short, in
everything that the world does and men
think.

He has pleasant ways. At odd moments
he invites his friends to little trials of gym-
nastic exercise. "Can you do that?" he
said once to a much younger man, suit-
ing the action to the word by lifting himself to
the top of the door by his hands, and
swinging up and down and sidewise, vary-
ing the sport by grasping the door-casing,
and repeating the feat in a more difficult
position. The junior tried it, but failed;
he had not leaped so many high rail fences
in the country as Mr. Bryant had leaped,
and the brown beard could not wag in the
air as the white one wagged. Rarely, if a
fence or a gate is in the way at Kosiyn,
does its owner stop to dodge it or open it.
He leaps it. If a horse is not harnessed, he
walks. If a storm howls and a valued
friend is lonely at a distant house, he
trudges off with an umbrella in one hand
and a bouquet of flowers in the other; offer-
ing the latter and his company where he
knows that both will be welcome.

A MOUSE STORY.—An English Journal
has the following story, of which the reader
may believe as much as he pleases:

A gentleman in Scotland has trained a
couple of mice and invented machinery for
enabling them to spin yarn. The work is
done on the treadmill principle. It is so
constructed that the common house mouse
is enabled to make atonement for past
offences by twisting and reeling from 100
to 120 threads per day. To complete this,
the little pedestrian has to run ten and a half
miles. This journey is performed daily.
An ordinary mouse weighs only half an
ounce. A halfpenny's worth of oatmeal at
one shilling and three pence the peck serves
one of these treadmill culprits for the long
period of five weeks. In that time it makes
110 threads per day, being an average of
3,850 threads of 55 inches, which is nearly
nine lengths of the reel. A penny is paid
to women for every cut in the ordinary way.
At this rate a mouse earns ninepence every
five weeks, which is one farthing per
day, or seven shillings and sixpence per an-
num. Take sixpence off for board and one
shilling for machinery, there will arise six
shillings clear profit from every mouse year-
ly. The mouse employer is going to make
application for the lease of an old, empty
house, the dimensions of which are 100 feet
by 50, and 50 feet in height, which, at a
moderate calculation, will hold 10,000 mouse
mills, sufficient room being left for keepers
and some hundred spectators. Allowing
£200 for rent and taskmasters, £10,000 to
erect machinery, and £500 for interest,
there will be left a balance of £2,300 per
annum.

It is the commonest of assumptions that
the secret of family economy lies in the ex-
ercise of a due control by the husband over
the wife; whereas, in a majority of cases,
the desired result would be far more certain-
ly attained if the positions could be re-
versed, and the wife be intrusted with the
control of the husband.

He who carries musical compositions in
his hat, puts on airs whenever he walks

SEATTLE GAZETTE.

SEATTLE, DEC. 22d, 1865.

L. P. FISHER, is the authorized agent for the GAZETTE at San Francisco, California.

M. W. WAITE, is agent for the GAZETTE at Victoria, V. I.

OLYMPIA EDITION.

PUBLICATION DAY.—The SEATTLE GAZETTE will, in future, appear every Friday evening, instead of Saturday, as heretofore. Advertisements, in order to insure insertion, must be handed in by Thursday evening of each week.

REMOVAL OF THE CUSTOM HOUSE.

We notice, by reference to the proceedings of our Legislature, that both branches of that body have concurred in a resolution recommending the removal of the Custom House, in the Puget Sound District, from Port Angeles to Port Townsend. We have frequently made known our views upon this matter, of such grave importance to the commercial prosperity of Puget Sound, and sincerely hope this resolution may meet with favorable consideration at the National Capitol. It is, on all sides, conceded that Port Townsend is far the most eligible site for the location of the Custom House. Most of our importing is done from, and exporting to, Victoria, and for vessels to be compelled to cross the Straits of Fuca, some thirty miles out of their course, at the great risk of being swamped in the trough of the sea,—which almost invariably sets either in or out of the Straits,—when, by steering for Port Townsend, this difficulty could be avoided, is, in our opinion, a decided nuisance. All things considered, the harbor at Port Townsend is much better than that at Port Angeles, and vessels lying there, are not so much exposed to winds and storms. Besides, the former place is just as accessible to vessels from the Southern coast as the latter, while, to vessels from the Northern coast, or Victoria, Port Townsend is much more convenient.

CHRISTMAS BALL.—The citizens of Seattle will remember the ball, to be given on Monday evening next, at Yester's Hall, by our friend David Sires. Mr. S. has had the hall refitted, and the best music in the country has been engaged for the occasion. No pains or expense will be spared in the preparation of the supper. Tickets are for sale at the principal business places in town, and everybody is cordially invited to buy one, and attend.

STRATMAN.—Major J. Stratman has placed us under obligations for late Atlantic and California newspapers, Harper's Weeklies, Frank Leslie's Illustrated Almanac, for 1866, Newspaper, etc. The Major has just returned from New York, where he has made arrangements with the publishers of the principal journals of the Atlantic States that will enable him to furnish subscribers, on this coast, with these papers at New York prices.

WINTER.—During the past week, Mother Earth has been wrapped in the garb of winter, and, ever and anon, the tinkle of the merry bells reminded us of happy times in our boyhood.

TWO TRIPS.—The steamer Eliza Anderson made, this week, in addition to her regular trip, an extra trip from Stellacoom to Victoria, with a cargo of live stock.

REMOVED.—We hear it rumored that F. A. Wilson, the Collector of Customs for the Puget Sound District, has been removed.

The expenses of the Navy Department, during the war, foot up only about seven and a half per cent. of the national debt.

KURTZ, the man who so cruelly took the life of a Chinaman at Idaho City, has been found guilty of murder in the first degree.

For some cause, unknown to us, the J. B. Libby did not make her usual trip to Sehome this week.

SUSPENDED.—The publication of the *Umatilla Advertiser* has been suspended. The editor has "holed up," for the winter.

WAGES in Montana, during the past summer and fall, have usually been as high as twelve dollars per day.

About a dozen ship carpenters have gone up to the Pen d' Oreille Lake, to build a steamboat for Messrs. Moody & Davidson.

SCHUYLER COLFAX has been elected Speaker of the U. S. House of Representatives, by the following vote: Colfax, 135; Brooks, 35.

We are informed that R. H. Hewitt has been elected Public Printer, by the Legislature now in session at Olympia.

The military authorities have relinquished the government of the city of Savannah, Ga., to the mayor and council.

Most of the rebel chiefs in Hayti have been shot. Guffard is now master of the situation.

CHOLERA has entirely disappeared from Barcelona, Valencia and the Balearic Islands.

QUEEN EMMA, of the Sandwich Islands, has been on a visit to Liverpool.

It is reported that Lady Palmerston will be created peeress, in her own right.

LATEST NEWS.

Dates to Dec. 5.

Eastern News.

Washington, Dec. 4.—A proposition that the Senate shall act in harmony with the House, on the admission of Southern Representatives, is strongly opposed by Senators on the ground that it is an infringement on the rights of Senators.

Last week \$27,000 of mutilated currency passed into the treasury.

Gen. Howard reports cases of ejection of Freedmen from lands, before the order of restoration was issued.

The second Comptroller decides that sailors detailed as soldiers, are not entitled to bounty.

The House galleries are densely crowded. At noon to-day, McPherson, Clerk of the House, proceeded to call the roll of members. While it was being called, Maynard, of Tennessee, whose name had not been placed on the roll by McPherson, wanted to suggest something, but the Clerk refused to be interrupted. After the call was completed, Maynard rose to speak but the Clerk ruled him out of order. One hundred and seventy five members answered to their names.

Brooks, of New York, made a speech characterizing the omission of the names of the members from the roll as unprecedented, unjust and totally uncalled for. He said if Maynard was not a loyal man from a loyal State, then the President was not a loyal man, but an alien and a stranger. He charged that the adoption of the resolution excluding the Southern members from the House by the Union caucus was designed to be antagonistic to the President's message.

The House took no action on the subject, but under the previous question, proceeded to the election of Speaker. Schuyler Colfax and James Brooks were put in nomination. Colfax was elected.

The Senate met at noon and was called to order by Foster, President pro tem. Rev. Mr. Wylie then offered prayer.

Holland, of Vermont, successor to Collamer, appeared and was sworn into office.

ORIGIN OF THE FENIANS.

The Fenian brotherhood has been in existence for the past eight years. Its founders were two of the Irish exiles of 1848, Col. John O'Mahony and Michael Doherty, both of whom are well known in the Atlantic States. The late Gen. Corcoran was in conjunction with them. O'Mahony was connected with this movement, in 1848, and though a mere youth, he influenced about fifteen thousand of the peasantry in the county of Tipperary, where he belonged, to join him. The military surrounded, and dispersed them, and O'Mahony fled to France, where the plans for the future revolutionary organization were formed. After residing in France a few years, O'Mahony came to America, where, aided by Corcoran and Doherty, he started the Fenian organization. For five years the brotherhood maintained a semi-secret character, spreading rapidly through the United States, Canada and the British provinces, with a regular system of communication.

Three years ago, a national convention was held in Chicago, and the purpose of the organization was boldly avowed, and the spread of the movement was greater than before. The leaders of the Fenians are men who have taken up downright revolution as the business of their lives. O'Mahony, the Head Centre, is acknowledged, even by his enemies, to be highly cultured, of a chivalrous nature, and a man of great determination. The State Centres are nearly all wealthy Irish merchants. Many Catholic clergymen are in its ranks, and not very long ago, a Gen. McGroarty, President of the Fenian Military Council, went arm-in-arm with Father Wiggitt, the Superior of the Jesuits, to head a Fenian procession, in Washington. Gen. Meagher is a member, and the late General Smith, of the Union army, was a member of the brotherhood at the time of his death.

One of the largest rolling mills in the United States, is already at work in Chattanooga, Tenn., which is daily turning off the best quality of railroad iron. A blast furnace is in contemplation, and a copper rolling mill, the cost of which will reach \$1,000,000, is soon to be put up in the neighborhood. Another large blast furnace will soon be commenced, on the Tennessee River, above Chattanooga. Several Coal Companies are only waiting for machinery, in order to commence operations in different localities around the place. The old coal mines are now being worked, and new ones reopened.

The *Olympia Standard* says, "Knef," of the *P. Tribune*, appears to have been in a perplexed state of mind when he made, and broke his printing contract with "Mac." He reminds us of the old lady who, when asked by Peter Cartwright if she thought she had religion, replied: "Waal, sometimes I thinks I hev, and at other times, I thinks it's only worms."

A large amount of bogus dust is said to be in circulation in Idaho and Eastern Oregon. The counterfeit is so complete that the best judges are likely to be deceived unless they test it with acid.

Judge Terry, the man who killed Broderick, has settled, after many years of wanderings, on a ranch, near San Blas, in Mexico.

It is stated upon the authority of Consul Daly, that the Shenandoah will sail for New York on the 21st inst.

Miscellaneous Items.

City of Mexico correspondence of the *New Orleans Crescent*, of October 28th, alleges the discovery of a grant of the entire State of Lower California, by the Juarez Government, for the sum of \$100,000, the grantees to colonize the territory within a certain period. The grant is said to be now held by the Sonora and Lower California Colonization Company, of New York, who have obtained the written opinion of Caleb Cushing, that their title is good; that the United States Government will be obliged to protect Americans proceeding there under it; that Secretary Stanton has given the parties great encouragement; that it is their purpose to involve the United States in a war with Maximilian, etc.

Some excitement was created, lately, in the town of Montgomery, Pa., says the *Philadelphia Ledger*, by the discovery of a cave, near the Old Trappe Church. Some boys were at play among the bushes, when one of them fell, and his leg slipped into the aperture of a cave, and after examination, it was found that, down about nine feet, there was a room some seven feet square, with the floor carpeted, a fireplace, cooking utensils, and a ladder, by which the inhabitants, whoever they may be, gained egress to the outer world. There were meat-bones and other unmistakable signs of domestic life, yet no one can explain the mystery.—The cave is said to be a reality, but who fashioned it, who occupies it, or how long it has been there, nobody knows.

The *Marysville Appeal* mentions the receipt of a telegram by the Stage Company, stating that the bridges, culverts, and grades, on the Oregon mail route, have suffered severely by the late rains. The amount of damage is not known, but it is feared that nearly all the improvements on the route have been swept off. If this news prove correct, the loss will be severe on the Company, and will probably break up travel over the route during the winter.

The Chinese, outside the levee surrounding Marysville, Cal., have suffered badly, in consequence of the high water. All the Chinese' gardens, except one, are outside the wall, and they are all nearly ruined. Domestic vegetables have almost disappeared from market.

The Treasury Department has issued to the Kansas Branch Pacific Railroad Company, six hundred and forty thousand dollars in bonds, the amount due upon the completion of the first forty miles, under the appropriation of sixteen thousand dollars for each mile of railroad.

The *Placer Herald* says that the late heavy rains have caused many of the Chinamen, employed on the Pacific Railroad, to take something like a stampede, to engage in mining in surface diggings, for the winter, in the lower part of that county.

The California Steam Navigation Company has presented, to a number of Sacramento ladies, who were distinguished for kind attentions to the passengers of the Yosemite, free passes, to travel on its boats to San Francisco, until March next.

It is reported that Fort Laramie was recently invested by a force of five hundred Indians.—Every available man about the fort was immediately put into line to attack the Indians.

A man in Indiana has just gathered, and sold a crop of cranberries, from a ten acre field, which, after deducting cost of gathering and marketing, netted \$4,300.

Grand Duke Nicholas, of Deuchtenberg, who is only twenty-two years old, has been made a Major-General in the Russian army, and a member of the Scientific Committee of Engineers.

Columbus, formerly a thriving town on the bank of the Columbia river, about twelve miles above Celilo, can now boast of but one white man. Another fit subject for a Goldsmith.

The mother of Gen. Slocum, died in Syracuse, N. Y., Oct. 30, aged seventy-two years. This sad event caused the General to revoke his engagements in the pending campaign.

A good quality of coal has been found on Snake River, I. T.; a fact of much interest, in connection with the new project to put steamboats on that stream, next season.

Great confusion exists in the Island of Madagascar. The Queen has yielded herself to the French, and the cause of Protestantism suffers in consequence.

Letters from Rome, dated the 17th ult., mention that the creation of cardinals, which was to have taken place in December, has now been postponed to Lent.

The name of the heir to the throne of Siam, is Phra Bard Somdetch Phra Paramendh Moka Monkut Phra Chom Klan Chau Kram Te Hua. Enough to make a Spaniard envious.

The Emperor Maximilian is said to have sent 3,000,000 francs for the construction of a palace at Lacroma, an Island he has purchased near Ragusa.

German journals announce the death of M. D. Wieland, at the age of eighty-four years. He was the last surviving son of the celebrated poet, Wieland.

A French Republican Club has recently been formed in Montreal, having for its chief object the annexation of Canada to the United States.

T. A. Smith, of Marysville, has one thousand five hundred pounds of California peanuts, which were raised in that vicinity, by Chinamen.

Asa Fitch, the well known manufacturer and millionaire, of Fitchville, Connecticut, died on the 30th of October, of pneumonia.

BONDS FOR THE IRISH REPUBLIC.

The *New York Times*, of October 26, says these bonds are of the denominations, \$10, \$20, \$50, \$100 and \$500, of varied general arrangement, admirable in design, and of elaborate execution. One allegorical vignette of exclusive and fitting character, is prominent upon all.—The verbal matter in form is as follows:

"It is hereby certified that the Irish Republic is indebted unto —, —, or bearer, in the sum of — dollars, redeemable six months after the acknowledgment of the independence of the Irish Nation, with interest from the date hereof, inclusive, at six per cent. per annum, payable on presentation of the bond at the Treasury of the Irish Republic."

Of the conspicuous devices upon the bonds, the portraits of the well-known Irish patriots, Robert Emmet, Wolfe Tone, and Fitzgerald, are prominent. These are skillfully engraved, from authentic original pictures. The composition of the principle allegorical vignette upon these bonds deserves particular notice, from the fact that one of the chief officers connected with this interest, furnished the suggestions adopted by the artist in its design. Erin is represented as a maiden, pointing to the sunburst behind the distant mountains, which are typical of the centuries of oppression and of the difficulties to be overcome, before the just sun of liberty will be in the ascendancy. With the right hand, she points to the unsheathed sword, lying upon the ground, thus indicating the only hope for the regeneration of Ireland. An Irish soldier is represented as stooping to grasp the sword, with his eyes fixed in the direction of the rising sun. In the foreground, accessories of the picture, is shown the Irish wolf-hound, crouching at the feet of the figure Erin, and the ancient Harp of Erin. In the background, one of the ancient round-towers of Ireland is a conspicuous point in the landscape. These bonds were engraved and printed by the Continental Bank Note Company, of this city.

WORK AND INVENTIONS.—Mr. Mill tells us, in his political economy, that the labor-saving inventions of modern times have not yet lessened the daily labor of mankind. The steam engine does the work of about 1,000,000 men—more men than there are in the world—and this inconceivable addition to the world's working force has all accrued in ninety years; yet no man finds his day's work diminished by it. On the contrary, we work harder now, than we did ninety years ago, and hardest, where there are the most steam engines. The farmer, on our western prairies, by the aid of the reaping machine, gets in, in one week, a crop which his father could not have gathered, by working until the over-ripe grain dropped from the straw; and then he threshes, in six hours, more than his father could have flailed out in a whole winter. But he works harder than his father did, winter and summer. Ladies have made the same remark, in reference to the sewing machine; they sew at a pace that would have made their grandmothers gasp to behold, but their sewing is never any nearer done than it was when they set every stitch by hand.

A NEW QUARTZ CRUSHER.—Miners in our section of the country, as well as those in the neighboring Territories, will, doubtless, read with interest the following description of a newly invented quartz crushing machine. This machine is designed for the Spanish Gold and Silver Mining Company, and is to be located at Canyon City, Big Creek, Nevada. It is known as "Gardiner's Crusher," and the inventor claims that it will crush and pulverize ten tons of quartz an hour. This machine grinds to powder, as well as crushes the quartz, and the experiments made in New York, on different qualities of quartz, were entirely successful.—This crushing apparatus is of the enormous weight of fourteen thousand pounds, and is constructed of the very best materials.

At a recent meeting of the Massachusetts State Teachers' Association, a Committee of five was appointed to memorialize Congress in favor of organizing a National Bureau of Education, which, without interfering with State educational systems, may hold the same relation to them which the National Department of Agriculture holds to State and county, and be organized for promoting the cause of education in every State of the Union, without regard to location, condition, sex or color.

Anything a horse can touch with his nose without being harmed he does not fear. Therefore the hand, the halter, girth, blanket, saddle, harness, umbrella, buffalo robe, whatever is brought into proximity with him, should be introduced to and touched by that sensitive organ. A knowledge of this important fact is the main secret of Rarey's success in horse taming.

The *Umatilla Advertiser* says a survey and map has been made and lots are offered for sale at White Bluffs, on the Columbia, eighty or ninety miles above this point. The projectors wish to draw the travel by their proposed town that will go to Montana by the Pen d'Oreille route.

The late Dr. Barry, Inspector-General of Military Hospitals, was found after death to be a woman. The *Carlisle Examiner* says that the fact was suspected during life, by reason of voice, stature, and beardless face, but that Dr. Barry was very haughty and bold, having given more than one challenge to a duel.

Two men, named Daniels and Williams, were arrested on the 18th ult., at the Dalles, having been fully identified as the rascals who committed the late robbery at the Orleans Hotel at Umatilla.

CHOLERA ADVICE.

A correspondent of the *New York Herald* gives the following advice in order to guard against cholera:

First—Avoid physic of all kinds, unless indicated for a specific purpose, having no reference to cholera; for when the bowels are once loosened, there is no certainty of again regulating them while the epidemic is prevailing.

Second—Wear flannel next to the person, especially about the abdomen.

Third—Keep the feet dry, and sleep with sufficient covering to prevent chilliness in the morning.

Fourth—Avoid an excess of acids, both in eating and drinking.

Fifth—Eat and drink more for the purpose of supplying the demands of nature, than for the gratification of the appetite, using any food to which you have become accustomed.

Sixth—If the stomach or bowels become deranged, regulate them by diet, and rest in the horizontal position, together with some simple stomachic, calculated to improve, rather than depress the tone of the stomach.

By the observance of these simple rules, I am certain that thousands of cases of cholera may be prevented, which is more than can be said of any course of medication heretofore prescribed either in Europe or in this country.

The *Mountaineer* learns that arrangements have been made to have the lands of the Atlatum valley, lying north of the Columbia river, subdivided during the coming year. These lands have already been surveyed into sections, but for the convenience of settlers it is highly desirable that they should be cut into shape for actual improvement. There are many excellent locations in that quarter, and we may expect them all to be occupied ere long.

CALEB CUSHING sailed from New York for England in the steamer of the 4th November. He went on a special legal mission connected with the State Department. His business was kept confidential, but it is understood that it has reference to an adjudication of the claims for damages made by our Government on great Britain for depredations of rebel pirates on our commerce.

The *Idaho World* says, since the 5th of November, 1864, to the 5th of November, 1865, no less than one hundred and twenty persons were received into the Hospital—many of them in a horribly mutilated condition—suffering from wounds received from the falling of trees, caving of banks, and other incidents common to a mining life.

The late storm was very severe in California. Nearly all the streams rose to a greater height than they had attained during the past four years. The damages by high water in some portions of the State have been considerable. Several persons are reported drowned.

The Government has restored to the American Telegraph Company full control of its lines in the South; at the same time retaining the censorship on the press, and other matter, the same as during the war.

It seems to be generally conceded that the Postmastership of the House of Representatives will, as is usual, be given to the West, and that the successful candidate will be from Ohio.

A rumor is prevalent that the British Government has instructed Sir Frederick Bruce to remonstrate with our Government against the movements of the Fenians in this country.

The President is said to have opposed the recent request of the Ambassador of Juarez, for permission to purchase materials from the United States.

LIMA was captured on the morning of the 6th of November, by the Revolutionary Army. No resistance offered, except by four hundred troops in the Palace.

The revolution in Peru has triumphed, and peace is restored. The overthrown President took refuge in an English man-of-war, and has gone to Panama.

Maximilian still remains in the City of Mexico. Further Imperial successes in the interior, are reported in official papers.

The large number of Fenians admitted to bail, is regarded as an indication that only the chief ones will be prosecuted.

SLIDELL'S Secretary, Eustice, Mason, and Hughes apply for pardons. Slidell says he never will.

The Russian Council has ratified Sibley's contracts concerning the Russian and American Asiatic Telegraph.

The number of rebel prisoners, captured and paroled, during the war, was 420,000; Union prisoners amounted to 187,000.

HOLLOWAY'S PILLS.—These celebrated Pills are especially useful in purifying the blood, cleansing the stomach, gently stimulating the kidneys, and acting as mild aperients. A few doses of this purifying medicine will set the foulest stomach right, remove all bilious symptoms, steady the circulation, give strength to the muscles, and compose to the brain and nerves. The Pills are so innocuous, that they may be taken by persons in the most delicate state of health, and with marvellous effect. When the system has been enervated by over-indulgence, or exhausted by mercurial preparations, these Pills are excellent restoratives; they expel the poison and enrich the blood.

HOLLOWAYS PILLS.
HOLLOWAY'S OINTMENT
 THE EFFECT OF THE OINTMENT ON THE SYSTEM.
 To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hand as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumours, scrofulous developments of all kinds, abscesses, cancers, old wounds, and in fact, every species of inflammation or suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course and permanently cured without danger, by rubbing in this inestimable Ointment.
BAD LEGS, BAD BREASTS, SORES AND ULCERS.
 In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs, and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier and emigrant.
PILES, FISTULAS, STRUCTURES.
 The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these distressing complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient to merely smear the Ointment on the affected parts, but it must be rubbed in for some considerable time, two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.
IMPRUDENCIES OF YOUTH—SORES AND ULCERS.
 Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to insure a lasting cure.
DIPHTHERIA, BRONCHITIS, SORE THROATS, COUGHS AND COLDS.
 Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and prevent inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest, which arise from Asthma, Bronchitis, and other causes.

BOTH THE OINTMENT AND PILLS SHOULD BE USED IN THE FOLLOWING CASES:—
 Bad Legs, Corns, (Soft,) Rheumatism,
 Bad Breasts, Cancers, Scalds,
 Burns, Contracted and Sore Throats,
 Bunions, Stiff Joints, Sore Nipples,
 Bite of Mosquit, Elephantiasis, Skin Diseases,
 Itch and Sand Fistulas, Scurvy,
 Files, Gout, Sore Heads,
 Cocoa-bay, Glandular Swel. Tumours,
 Chiefo-foot, Rings, Ulcers,
 Chilblains, Lumbago, Wounds,
 Chapped Hands, Piles, Yaws.

Sold at the establishment of Professor HOLLOWAY, 224 Strand, (near Temple bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s, 1½d., 2s, 3d., 4s, 6d., 11s., 22s., and 35s., each Pot.
 * * * There is a considerable saving by taking the larger sizes.
 N. B.—Directions for the guidance of Patients in every disorder are affixed to each Pot. (no43:6m)
