look forward to a very lively spring, and the number is augmented daily by the arrival of fresh prospectors.

The preceding article will give the reader something of an idea of the extent and value of the new field opened out to the world.

Two routes will probably be traveled from this point. One is to the Mission, on the Post, and from there by the Jacks Prairie trail.

Origin of the Slave Trade. The Spaniards in their American possessions, sought to make slaves of the Indians.

JUST IN. What an Intelligent and Experienced Gentleman has to say regarding the Mines.

As spring approaches the excitement over the Ceur d'Alene mines intensifies. From all over the land come letters of inquiry.

During our nine months of residence in this city we have frequently had occasion to speak of the little city we have made our home in flattering terms.

A Flourishing City of Great Promise. Spokane Falls.

From information I gathered I gleaned the following regarding the projected stage line: Stages will leave Spokane Falls about 7 a. m.

ANY LEGITIMATE ENTERPRISE. From information I gathered I gleaned the following regarding the projected stage line.

RETURNING WITH FORTUNES. Yet uncertainties, after all, are what the majority of mankind pursue.

SECRET OF "GOLD." And neglected his "lumber interests" to such an extent that his employees.

Go from Spokane Falls. A Cheap, Direct, and the most Accessible Route to the Mines.

DIRECT COMMUNICATION BETWEEN THE FALLS AND THE COEUR D'ALENE GOLD MINES.

What a Disinterested Gentleman has to say on the Subject. [E. J. Jones in the Portland Daily Northwest News.]

E. G. JONES. It would be well enough for parties contemplating a trip to the new mining camp to bear in mind that there is no necessity of going to the trouble and expense of bringing goods from a distant place to take into the mines.

BUSINESS LOCALS.

If you want any information about the improved economy of lands, see Paul J. Strobach.

LUMBER!

Frank L. Stone's depot for the Montana Improvement Co's lumber, lath, shingles and other building material.

SCRAPINGS.

January 20th. Winter has about skipped.

The school term for winter closes next Monday.

Snow is over five feet deep on the level in the mines.

Two pack trains left this city for the mines Sunday.

Lots in Eagle City are comparatively low priced.

The hotels seem to be crowded with transient boarders.

Several parties are getting out maps of the new gold fields.

People pass through the city every day loaded for the mines.

J. H. Bishop has our thanks for a file of late Quincy, Ill., papers.

The outlines of a new residence are in sight on Cannon's addition.

The second committee of the Board of Trade are doing good work.

Geo. T. Crane has been elected Treasurer of the Transportation Company.

H. French, A. H. Porter and other parties are getting up for summer.

The most practical and direct route to the mines is by way of Spokane Falls.

It is rumored that two papers will be started at Eagle City in the spring.

Several individuals are running pack-trains from this place to Eagle City.

The most practical and direct route to the mines is by way of Spokane Falls.

WANTED.—Two girls to do chamber work. Apply at the California House.

The quartz mines of the Cœur d'Alene diggings promise to develop wonderfully.

The Transportation Company has made arrangements to purchase coaches in Portland.

While business has been brisk this week happenings of a local nature are scanty.

Parties are taking goods up in the mines in shifts, but navigation is spiced with danger.

Several new town sites will be laid out in the mines in the spring. They will be needed.

The Spokane Stage and Transportation Company expect to commence operations Monday.

As an after-dinner pill, to promote easy digestion, Ayer's Pills are wonderfully effective.

The stockholders of the new library association meet to-night for the purpose of organizing.

New water and gas projects will bring upwards of \$200,000 in outside capital to our city.

Evolution, a station half way between the Mission and Eagle City, promises to be a lively camp.

Eagle City will be the metropolis of the mines. It will contain 10,000 people by the 1st of July.

Merchants of this city are putting in stocks especially to meet the demands of the mining trade.

A slight touch of snow Tuesday gave us to understand that winter has not deserted this section.

The town has been full of people this week, and the bulk of the conversation has been on the mines.

Mark will move his chop house down to the building formerly occupied by R. W. Forrest next week.

Hall shipped a large tent to Trout creek Wednesday. He has about as much work in that line as he can do.

As soon as pack steamers are running through tickets can be purchased from Spokane Falls to Eagle City.

It is firmly believed that every gold in the mountains will be found to contain gold in paying quantities.

A man without money and a supply of grub has no business there.

Several parties have arrived from the mines this week, and they all favor the route to Spokane Falls.

A new pack maker has opened out in the city and added himself to the list of Howard street business firms.

If we had had a thousand extra copies of the Review last week we would have found no difficulty in selling them.

J. J. Peters has a new lamp hanging from the front of his establishment at the corner of Main and Howard streets.

Union services at the Congregational church to-morrow evening. Preaching by Rev. J. T. Baker pastor of the Baptist church.

Outfits of every description from a pick axe to a freight wagon can be purchased at the Falls as low as anywhere in the northwest.

The Vest vs. Urquhart contests came up at the land office Friday. Judge Lewis is attending these cases for the defendant, Mr. Urquhart.

The social at the Congregational church last evening was enjoyed by a large company. There will be another two weeks from last night.

COUNTRY.

Country, this morning, in Cannon's Hall, at 7:30. Over fifty shares are taken, and the company will now organize.

A. L. Swarts will open up in one of the store rooms in Friederich & Berg's new block on Howard street.

French has out a lamp in front of his place to guide the benighted traveler on his way.

The important contest case of Hubbard vs. Stroup has been occupying the attention of the land office for over a week.

A dozen of Summit Valley miners from Montana, have discovered a quartz ledge thirty miles north-west from Eagle.

The Review will be found for sale at the news stands in Leadville, Col., and Central City, Mont.

The merchants of Spokane Falls are putting in immense stocks of goods to meet the great demand that is expected in the spring.

Companies have been formed at Salt Lake, Utah, Eureka, Nev., Denver, Leadville and Durango, Col., Cheyenne, Wyo., and almost every mining camp in California to come in the latter part of February.

Usual services at the Presbyterian church in Cannon's Hall, to-morrow at 11 a. m. and 7 p. m.

Parties desiring to reach the new Cœur d'Alene mines should study their own interests and go by the way of Spokane Falls.

For the benefit of certain parties who seem very anxious for the welfare of Judge Lewis, we are authorized to say that he graduated in 1876.

Some fellow fell through, or was fired through, or slipped through, or was dragged through the window of the depot Monday night.

Services at the Methodist church to-morrow as follows: At 11 a. m. preaching by the pastor, infant baptism, reception of members.

Some fellow fell through, or was fired through, or slipped through, or was dragged through the window of the depot Monday night.

Some fellow fell through, or was fired through, or slipped through, or was dragged through the window of the depot Monday night.

A GOON.

Most men incline to fast horses. Where they have any weakness at all for the quadruped.

Whether he be saint or sinner, if he owns a horse he desires that the animal should show a clean pair of heels and be able to throw dust in the eyes of any neighbor who might exhibit a wish to pass him on the road.

And when a person once gets hold of a trotter that can crowd a feeling of satisfaction that is the envy of less fortunate individuals.

There are a number of good horses in this city with creditable records, that can scatter themselves over ground with a velocity indicative of a three-minute, or less, gait.

Among our citizens who take kindly to stock, and has no objections to putting the reins over the rump of a fast stepper.

He is H. L. Post. The animal he owns is an old, well-bred, seven-year-old, weight 1,100 pounds, and is to the name of Tom. Post purchased this nag and his mate for \$350.

While he showed no evidence of a latent superiority over other horses of the same breed, yet Mr. Post had an idea that time would develop something extraordinary in the best. The horse has never been trained, is perfectly gentle and up to 90 percent date was worked on a wagon pulling saw logs.

He could do, and show Post, he could not well spare, Mr. Turner concluded so close that 3:30 is within his reach, and perhaps ten or a dozen seconds to lower could be touched.

Saturday last Mr. Post invited us to take a spin behind this new turf celebrity. We accepted. The docile looking steed was buckled to a light trotter and seemed in his best humor.

As the more public streets were passed, Mr. Post gave the horse the word and away the outfit flew. For a quiet, slow, unobtrusive man like us the sensation was anything but delightful.

The view was limited on account of a cloud of chips and ice and snow, and nothing was visible ahead but a bare stretch of horse, that seemed, from the motions of his hind quarters, to be going after a doctor on very urgent business.

Mr. Post said that the cutter was moving at 2:30 speed, but the way we felt about it we should judge that 1:30 was nearer the correct figure. One thing is certain, Mr. Post has a fast horse, that with the right training would put any trotter in the Territory on his mettle to equal.

He has named the animal Silver Slick, which, if not an elegant speculation, is at least quite appropriate. We expect to hear of his making a good record one of these days on the track.

Speculation over the sudden departure of A. M. Cannon and J. J. Browne for the east runs rife in the city, and the question is constantly asked, "What's in the wind?"

Not but that these gentlemen, who are old and representative citizens, have a perfect right to pack their grip-sacks and go hence singly or together wherever they wish, but at this time, when rumors are current of certain great and startling beneficiary additions to the place, a movement of the kind is looked upon as the prelude to something that is to aid the Falls. We are at sea ourselves and not able to respond to the query.

Mr. Cannon had a rendezvous with us for Tuesday evening, when the matter would probably have been explained, but he was compelled to depart on the early train that evening and the interview was prevented. From what we can gather, the gentlemen were summoned to New York City by an urgent telegram.

They may possibly meet e parties to be conferred with at Minneapolis, in which case their trip will not be extended beyond that point. While we believe that the object is to confer with a syndicate proposing to put in a railroad direct from this city to the mines, we are not informed positively, and therefore cannot give the statement as a settled fact, yet knowing the men as we do, we are convinced that the nature of their errand is such that Spokane Falls will receive a benefit if they are successful in their undertaking.

Make a Note of It. In order that local industries can be made to thrive it is proper and right that they should be aided and encouraged. We do not mean that such institutions are subjects for charity, but when men put their money in manufactures they should receive the patronage of the public, especially when they are able to produce a grade of goods superior to the same article purchased abroad and can sell it as cheap. These remarks are called forth in defence of the Echo Flouring mill of this place. We claim that to-day the Echo mill is producing a better quality of flour than any mill in Washington or Oregon, and we challenge a test and accompanying denial. We expect no mill, and are willing to leave it to the decision of acknowledged judges of what constitutes good flour.

Such being the case, it is but an act of justice that our people should buy no other flour, unless they want to make paste or use the dust of the wheat for other purposes than family consumption. When the housewives of our city and the surrounding country once use the Echo mills flour they will have no other, and a single test will prove to them the excellency of the product. Then merchants will learn that they cannot find a sale for flour other than the Spokane brands.

In Preparation. We understand that the members of the Baptist church are making arrangements to give a grand musicale on the evening of Tuesday, February 12th, which promises eclipse anything in the way of concerts ever given in this city.

The programme of exercises has not yet been completed, but from what we can learn we are in a position to promise something of more than ordinary merit. There will be vocal and instrumental music and other literary features that together will make up a very enjoyable evening's entertainment.

Mrs. Jno. L. Wilson, a lady of exquisite vocal accomplishments, and Mr. and Mrs. E. J. Fellows, both talented singers, have kindly consented to take part, while Mrs. Geo. Brandt, too well known as a thorough musician for us to introduce, will also participate. Besides these mentioned, a number of other ladies and gentlemen will lend their aid to make the affair a success. The entertainment will take place in the new Opera House.

Change of Base. W. L. Turner, the prosperous young gentleman who has the good fortune to be the proprietor and manipulator of the City Drug Store, has made a change in his location. While the move has not been a great one, considering it in the shape of distance, yet the improvement in the surroundings is of such a marked description that the exertion of transferring his stock from one store room to another can be set down as one of the wisest transactions that he has ever engaged in.

Heretofore Mr. Turner has occupied quarters in the frame building next to Wilson & Turner's meat market. As long as the demands of the trade only required a comparatively small quantity of drugs, oils, paints, etc., that he carries in stock, the dimensions of the quarters were sufficient for all commercial purposes, but as the city grew, and the requirements of the place called for a more abundant supply and a greater variety of these things in his line, it became apparent that a little more elbow room would be conducive to building up a larger trade. The fact is in the old place boxes, hales and packages became so numerous, and the room so completely stuffed that if Mr. Turner had not been lucky in not having superfluity of size, it would have been almost impossible for him to move about in the store with any degree of comfort.

After looking over a great deal of flesh that he could not well spare, Mr. Turner concluded that the time had come for taking possession of a larger store. To lower could be touched. Saturday last Mr. Post invited us to take a spin behind this new turf celebrity. We accepted. The docile looking steed was buckled to a light trotter and seemed in his best humor.

As the more public streets were passed, Mr. Post gave the horse the word and away the outfit flew. For a quiet, slow, unobtrusive man like us the sensation was anything but delightful.

THE BAPTIST CONVENTION OF EASTERN WASHINGTON AND NORTHERN IDAHO.

The above is the name of an organization that was effected last week during a meeting of the Baptists at Spangle. It is composed of representatives of the various Baptist churches in eastern Washington and northern Idaho, and has for its object the promotion of the missionary, Sunday school and educational work of the Baptist denomination in the region named.

The officers of the convention are: President, Rev. W. H. Carmichael, of Cheney; Vice President, Rev. I. R. Snodgrass, of Dayton; Secretary, Rev. Geo. Campbell, of Colfax; Treasurer, Rev. D. W. C. Britt, of Spokane Falls.

The convention, through an Executive Board, of which Rev. J. F. Baker is President, will co-operate with the Baptist Home Mission Society of New York in the work of supporting missionaries and occupying new fields. This Society has generously offered to give four dollars for missionary work for every one dollar raised by the convention, or in other words, every dollar contributed within the bounds of eastern Washington and northern Idaho, for the work of Baptist home missions will bring from the Society's treasury in New York four other dollars to be used in the same work, thus one dollar will be equal to five.

At its late meeting the convention, after carefully considering the demands of the work, concluded that in order to meet the same not less than \$7,000 would be needed before October 1st, 1881. Of this amount one-fifth, or \$1,500, must be raised within the bounds of the convention. There are one or two other matters also upon which the convention took important action. The first is the educational work of the denomination. It is known to many that Colfax Academy has during its entire history been under Baptist control. It has reached a point now, however, where if the denomination does not rally to its support it will either pass into other hands or else cease to exist. At least \$1,200 are needed before the beginning of another school year, to furnish the Academy with buildings proper for the accommodation of students.

The citizens are interested in the prosperity of the school and already the trustees have proposed to raise money from responsible parties, looking toward its permanent enlargement and increased efficiency. Prof. Trimble, the acting principal, is an energetic man, of fine executive ability, and has superior qualifications as a teacher. With him as leader, and aided by the hearty and liberal support of the denomination, there is no good reason why Colfax Academy should not become a permanent and flourishing school. Nearly \$150 were pledged in its
