SPOKANE FALLS, SPOKANE COUNTY, W. T., SATURDAY, JUNE 7, 1884.

The Grand Lodge of Washington Territory, A. F. & A. M., opened its annual session in this city Wednesday morning, with a very full attendance, almost every lodge in the juri-diction being represented. The members of the Order in our city have exerted themselves to make the session one long to be remembered by the participants, both in the lodge room and in social inter-course during the intervening time between meetings. The lodge room of Spokane Lodge is over the hard-ware store of Hon. Louis Zeigler, at the corner of Riverside avenue and Howard street, and the apartments, from the anter-rooms to the main as-sembly chamber, are fitted up lux-urbusly. Few lodges are better pre-pared for the reception of the august body now occupying the building, and the neatness of the rooms and the richness of the fixures attracts very favorable comment. The body of the representatives arrived in the city Wednesday morning, although a number reached here several days prior to the date of meeting in order to secure an insight into a city that has been attracting so much atten-Stoves, Ranges to secure an insight into a city that has been attracting so much attention of late. M. H. Harris' Colossal NickelPlate Circus gave two performances in this city Monday. The company is traveling east by rail, and the first infimation of the arrival was the cloud of canvas that covered the vacant space north of the freight depot. At 11 in the morning the interest of the public was stirred by the customary street parade, that was not as brilliant a pagentry as is generally on exhibition. The performance in the atternoon was slimly attended, but a better house greeted the performance in the evening. While Mr. Harris does not pretend to carry a troupe that will compted in size with the large aggregations on the road in the east, still he has some remarkably fine artists. The gymnasts, trapeze performers, wire walker and tumblers can not be excelled, and little Dalsy Belmont's bare-back riding and globe act felictic det the applause she deserved. The zoological collection was a light feature, although no fault of the manager, as the various animals expected from the east did not reach here and will into the added to the show until it reaches Bismark. Taken altogether and Mr. Harris is to be congratulated upon the extent and character of his organization.

Our contemporary, the Review, is to be congratulated upon the extent and character of his organization.

It seems that the boys from the Great Prairio States saw that their favorite had no show, and feeling that the wishes of the people should be respected, threw their support to the strongest man before the convention. While the friends of Blaine were sanguine and have labored hard to accomplish this result, yet so much opposition developed in the Convention that some doubts' were entertained as to the utilimate result of the ballots. siring to see how ridiculous he could make himself appear, this correspondent, speaking of Spokane Falls, says: "Here again, one is reminded of Villard's princely ideas and the lavish expenditure of other people's money." Now, we challenge any one to point out a 'single instance where Villard's coils, or any foreign capital, has been invested to the benefit of this city. The railroad company, either under Villard's management or that of any other president, has never shown a dispocompany, either under Villard's management or that of any other president, has never shown a disposition to favor the Fulls, let alone in vesting money in building up the place. Spokane Falls has advanced purely on its merits, a backing more lasting than that of the fallen Villard or any other individual. It is just as easy to be truther.

All reports from the mines con-tinue to be favorable and there is every reason to believe that next season will see the camp even live-lier than it was last winter. Gold is being taken out of every claim opened, and the quartz ledges prom-ise well. It requires time and cap-ital to develop the country. "I arrived here safely in two days after I left you enjoying the ride very much. This place is very dull, but Murrayville is advancing rapidly. There are a number of assayers here and at Murrayville, but they are not dull the model. It is too early have been out to the minos, every day since I arrived here, and as far as my observation goes I think there is a great future before this district. I was told yesterday that the parties towning the Dream Guich refused to take SexJool for their claim. By the favor of Mr. Davis, one the owners, I was invited to see a surface cleam, including a nugget of half the size of my littlefancer. He showed me the figures on his book for each run, the total amounting to about \$14,000 up to that date, value \$18 an ounce in Sam Francisco. There are good opportunities for capital now, and will be in the mear future. I have seen lots of free gold in quartz found of work done I think that the country shows up swell. If I had about \$1,000 or up wards per month. A dead sure thing,"

SELL GROCERIES SO CHEAP? FIRST--WE BUY and SELL STRICTLY FOR CASH.

Second--We are the only UNION BLOCK, SPOKANE FALLS, W. T. merchants in Spokane Falls that import exclusively and FORSTER BOOGE directly from Eastern and manufacturers. European thereby saving the San Francisco and Portland Jobbers profit while our competitors are unable to do owing to the small quantities handled by them.

> Third--We have a resident New York buyer continually in the market picking up all of the Latest and Newest Styles and Novelties, taking advantage of all bargains and inducements offered.

> Fourth--We do not buy for one house, but for a number of our brance establishments throughout the Territory. We are therefore enabled to handle Cases and Bales, where small dealers can only handle pieces and yards. And it is a well authenticated fact, that the dealer handling goods in the bulk, can always buy from 10 to 25 per cent. less than the one buying from broken packages.

Fifth--We conduct our business on the Square Dealing principle, offering no baits. Believing that every article we sell should bear a living profit.

Spokane Falls that is as free from taxation. Municipal taxation is a axation. Municipal taxation is a necessary impost upon a community, and most towns and elities not only impose bnerous taxes upon their citizens, but from extravagant expenditures of public moneys have heavy debts hunging over them, the interest of which is one of the largest items of the year's expenditures. In this city the people have never since the first year of incorporation been directly taxed, and no indebtedness has been incurred, thanks tethe careful manner in which the receipts have been appropriated. At a recent meeting of the City Council it was decided that no tax should be ccipts have been appropriated. At a recent meeting of the City Council it was decided that no tax should be levied this year. This will be a piece of good news to the public, and will surprise those at a distance. The authorities are to depend entirely upon licenses, fines, etc., for means to run the government through the year. This is highly creditable to the place, and shows that the disbursement of funds has been conducted judiciously. When it is considered that the city is new, and many internal improvements are absolutely necessary, that streets must be kept in repair, sprinkled and cleaned, a force of four or fave officers paid and many other hills met, it is really astonishing that a place of 3,000 or 4,000 inhabitants can be run without a tax levy. Such careful management of public affairs is another attraction for the eastern man who comes west to find a home, and tends, to add fresh importance. careful management of public affairs is another attraction for the eastern man who comes west to find a home, and tends to add fresh importance to the Gen City of the Northwest. Here is offered to the stranger a home in a beautiful city, proverbial for its healthfulness, a climate unexcelled, noted for the refinement and intelligence of its people, active in its growth yet remarkably orderly, with the very best of educational facilities, almost every church denomination represented, and free from taxation. With such attractions it is not to be wondered at that Spokane Palls has now a name and fame all over the broad land, that its growth is and has been phenominal, and that it is to-day almost the only place west of the mountains not effected by "hard times."
