The election for councilman in the First ward on Monday, to fill the vaney made by the resignation of R. W. Forrest, Esq., who believed that he could not justly represent one sub-division of the city while resid-ing in another, was devoid of all the sual excitement usually attending usual excitement usually attending the choosing of men to take part in local government. Only some 32 votes were polited, which in fiself is a fair Indication of the Interest manifested, the ward containing over 200 voters. No opposition was developed against Judge Hoover and that gentleman was elected to fill the vareancy existing in the council. Mr. Hoover is a progressive citizen and one loyally true to the Falls, and we do not believe the people of his ward will ever have cause to regret their will ever have cause to regret their choice. He will take his sent as a full-fledged alderman to-morrow

Reilly made a trip to San Francisc rrived in this city on Monday and ing it on wagons to be immediately conveyed to its destination. The machine is of ponderous dimensions and includes an engine and boiler for operating purposes. This is the first mill that goes into the new gold field and it is sincerely to be hoped that its operation will prove that the purchase was a wise one. All the necessary work for setting the mill up has been completed and it will not be long until the huge stamps are at work pulverizing ore. This in another sign of the prosperity of the camp. ing it on wagons to be immediately

News of a local nature has been decidedly scarce for several days.

 Bishop Tuttle, of Utab, is expected to visit this city soon.

The appearance of our streets for the past few days and the seene of busy activity about the Echomill, C. and C. mill, Post's mill, N. P. elevator, Loewenberg's warchouse and several other warchouses at which grain is being taken, is evidence that Spokane Falls is surely gaining a leading prestige as a grain market. In former years, when there were but a limited number of buyers, and but little storage room, all the other points along the road took precedence over our city as grain marks, but a demand has been creeted here for cereals, and the farmer not only A Wheat Market. but a demand has been crevited nere for cereals, and the farmer not only finds a ready sate for grain at the very highest cash market rates, but he also has the satisfaction of being able to select the wares that he is compelled to purchase from gligantic stocks, carried by our merchants, where he is taken completely by surprise at the remarkably low pri-ces. It is seldom that to a place takes such a prominent posi-

a place taxes such a prominent posi-tion as a grain market as has Spo-kane Falls this year. We do not as-sert that more grain is sold here than at any other point on the line of the Northern Pacific road, but we are satisfied with the present outlook, and commoner, the new democratic organ established at Colfax. In a card written by the editor the new paper promises to do battle for reform, and will try to work great changes in the body politic. Of course it backs Lord Charles Voorhees, and lauds that poor, unfortunate, addle-pated individual to the very heavens. Voorhees christened the paper Commoner. If they had desired to get something awful common the paper should have been named Voorhees. But putting aside its politics the new sheet presents a neat appearance, shows signs of being well patronized on the start, and the parties doing the editorial work are capable men. We presume those who hunched the craft supposed they were called to fill a mission and will endeavor to fill it. satisfied with the present outlook, and if the sales increase in the following years at the same ratio, it will require scores of warehouses to handle the grain that will be sold here two years hence. It is claimed that the marketing of grain has just commenced and that it will be several weeks before it will be at its full height. If that is the case it is hard to imaging what the jam will be when the farmers commence to baul to market in earnest. Yesterday was an astonisher in the quantity of wheat delivered. There must Arrived. The ten stamp mill to be used on the gold bearing quartz, recently discovered some miles from Colville, and for which Al. Benoist and Prof. the Falls will ever monopolize the wheat trade of this section, there be-

chants treat the visitors with that fairness and courtesy due in the intersecurse of trude, and friends for the city are made that will continue for all time to come. The past few days has settled the question as to this being a grain shipping point. Thousands of bushels have been received already and the promise looks flattering for many thousands more before the advent of winter puts a period to the hauling in of gaain. Venison is becoming a common uxury in this market.

- Harry McCartney is off on a trip north, looking up business in terests.

### THE COLVILLE COUNTRY.

Mining Matters and Miscellaneo Melange.

was laid up nearly four weeks. She will make at least two more trips yet this fall and more if necessary. This yet this fall and more if necessary. The disablement of the boat, even for a short period, was keenly felt by the residents of this valley, who have a market for their surplus farm and garden produce while she is running.

The weather in this valley continues very pleasant. The grass has started up afresh, making the landscape more beautiful than ever to look upon and the almost unlimited quartz.

here two years hence. It is claimed that the marketing of grain has just commenced and that it will be severell weeks before it will be at its full height. If that is the case it is hard to imaging what the jam will be when the farmers commence to haul to market in carnest. Yesterday was an astonisher in the quantity of wheat delivered. There must have been upwards of two hundred teams in during the day, which, averaging a load at forty bushels, would give a grand total of 6000 bushels. Quite a healthy dab of grain! While we have no idea that the Falls will ever monopolize the wheat trade of this section, there be

The Kluxton creek mines are the latest discoveries and bid fair to fully equal or excel anything yet discovered in this region. The contact is between slate and crystallized limestone, and has been traced for miles. The ores are generally low grade but exist in large quantities-These mines are about sixteen miles from Colville, in a north-easterly di-

ection.
Al. Benoist is showing a party of capitalists around the country. They are favorably impressed with its grand mining and agricultural re-

world-wide reputation for the Ste-ens county mineral fields, and it nomises to make a bulky fortune or the owners. They have a good

shipments practical men have tangi-ble proofs of the existence of the raw

rapidly in Stevens county and many of the claims worked to advantage.

Almost a Fire. Almost a Fire.

After just two months to a day from the date of the last fire Spokane came in an ace Monday night of suffering heavy loss from a disastrous conflagration, or at least from a good, rollicking excitement, and all through the hands of the victous incendary. The property that their claim a source of wealth by the laborious means of shipping the ore to Omaha, or any other foreign point where smelters are located. The same ment of eight tons of sacked ore arrived in the city and will be shipped east. It has every appearance of being as rich as that aiready shipped and the result will be several thousand dollars to the bank accounts of the proprietors. It is a nighty nice piece of property to own and there is no limit to the money it will eventually turn out. The Old Dominson is the only claim from which ore has yet been shipped, and there is no itselling yet what there really is to the country. It stands to reason that if one claim can produce ore up, on which there is a big profit at shipping it thundreds of miles, there are of the country in the same neighborhood are others in the same neighborhood are couple of palls full extinguished to the inclient blaze. The marks of others in the same neighborhood that will pay big to work. This northern mineral field is yet in its very infancy and will stand much development. We believe that the country will eventually be one of the best silver mining sections on this coast. Every experienced miner who visits the locality expresses the same belief. And these ore shipments from the Old Dominion will do more to attract attention to the mines than all the rewspaper articles that can be written. In these shipments practical men have tangisuch a start in a moment or two that those in the saloon could not control it. The buildings are of frame and the fire was started in a narrow passage way, between two sheds, so that with five minutes start the flames would have gained such headway, that nothing but the entire department could have checked the biaze and prevented it from spreading to the adjoining property. It was a narrow escape and he guilty was a narrow escape and he guilty was a narrow escape and he guilt be dealt with severely, and he fould be dealt with severely after long is a serious adjunct to the population.

Let every one of our cliffens

[From Our Regular Correspondent.]
Various rumors have been rife, in the past few days regarding the steam or Kootenal. The truth of the matter is: it was displaced from its dangeraus position and arrived at the Little Dalles on Thursday morning, October 1st. The breaches in the bottom were easily repaired and it is expected that she will start on the up trip to-morrow, loaded principally with po'atoes, onions and other vegetables and necessaries of life that the people of Farwell are greatly in need of. The explosives with which the steamer was loaded when when she was stranded were taken off at the Little Dalles, and stored, word having been sent, we are informed, that the powder having been delayed so long would not be needed until spring. The steamer was laid up nearly four weeks. She will make at least two more trips yet this fall and more if necessary. The disablement of the boat, even for a short period, was keenly felt by the residents of the valley, who

COLVILLE, Oct. 2, 1885.

Let every one of our citizens invest in a ticket for the firements hall that comes off on the 22nd of this month. The small sun thus contributed goes toward supporting and encouraging an organization that is of the greatest value to the community, besides giving the buyers an opportunity to attend one of the largest balls ever given in this city.

J. F. Conkling, who was over roun Carbon district at the head of Beaver creek on Monday, stated to a Sun reporter that the cross-cut in the face of the 85-foot tunnel on the Tough Nut had passed through the Tough Nat had passed through the vein, which was found to be 10 feet wide of almost solid ore. The owners of the claim, S. Happenstall, J. P. Comkling and H. G. Lougce, are highly clated in consequence of the strike, and labor under the impression that they have the bonanza of the camp.

Some of the adjoining properties are also reported to be in a promising condition.

The Silver Tip, owned by William Williams, and Chas. Teole, shows a 7-2.12 vein of ore that gives assays as high as \$53 to the ton with 60 per

The Hopeful, owned by J. F. Conkling, a gold-bearing property, shows a vein of from 5 to 10 feet in

The Way Up, owned by E. Kelly, is a location between the Hopeful and Tough Nut and shows a tenfoot vein of galena. It is being tun reled.
There are a large number of other

locations, and the district is expect ed to rival Canyon creek and Nigge prairie next year.

The statement has been repeatedly made that one drawback to secur-ing the trade in the vicinity of Spanthe Falls will ever monopolize the wheat trade of this section, there be ling too many points on the road where a market is presented, and it would be impossible for one place to handle all the grain grown in this immediate neighborhood, yet our city will never suffer for the want of this staple production of the soil. Besides, as the Falls grows, it presents not only a popular market bound to draw the people of the country to ward it. Let the farmer know that he has an arreket at the Falls that he can depend on at all times, and furthermore let our dealers and merchants treat the visitors with that fairness and courtesy due in the interceurse of trade, and friends for the call was and courtesy due in the interceurse of trade, and friends for the call was and courtesy due in the interceurse of trade, and friends for the call that peaks and courtesy due in the interceurse of trade, and friends for the city are made that will continue to receive the community. The returned home can be a supported advantage to the farmers of that section. It is in the farmers of that section. the morning. He returned home the same day making the round trip with the greatest case. The new roud is a grand advantage to the farmers of that section. It is in good condition and a load can be hauted over it without any trouble. Our people did admirable work when they interested themselves in constructing this highway.

In the City.

In the City.

We had a brief but pleasant call
Monday from Hon. S. A. Wells, the
leading merchant of Ritzville, joint
representative elect from Whitman,
Columbia, Adams and Franklin
countles. Mr. Wells is a young
man in years, but an old one in business experience and party work. He
is a bright, intelligent gentleman, a
true-blue republican, and one who
will sitck to his principles in spite of
hypocritical demagoguery. The dishypocritical demagoguery. The dis-trict from which he was elected to trict from which he was elected to the important office will be intelli-gently represented by Mr. Wells In the next session of the territorial legislature. We understood that Mr. Wells and J. B. Whittlesy have purchased the material of the Adams County Record, and will continue the publication of that paper. We wish the gentlemen every success in this venture that will prove a paying investment in time.

— By the Sentinet we see that the grand lury has found true bills against Carter, for murder, Swarts, for grand larceny, the cow stealing case, and the party who stole a watch in this city.

Good Showing.

Our readers may entertain an idea
that no business is done in our city
in the agrigutural line, but figures
prove that such is a mistake. Spokane Falls is a distributing point for
a vast region of country and many
thousands of dollars are annually
spent in this city for supplies. As a
sample of the extent of business we
have the fleures of the sales made have the figures of the sales made by G. P. Dart for the two months of August and September alone. Mr. Dart is agent for the Westinghouse company machinery and also has a small saw mill a short distance from this city. The gentleman is only one of the many others engaged in this branch of business in our city, and blacehouse probability. and his sales are an indication of th

Ayer's Sarsaparilla,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

January (18. N. Tarbane.)

"In case of fire carry me out," is painted in large yellow letters on a cumberous and valuable-looking chest in a Chatham street shop. The shop keeper, as if happily conscious. It is a subject of the country of the shop keeper, as if happily conscious. It is a subject of the country of the shop keeper, as if happily conscious. It is a subject of the shop keeper, as if happily conscious. It is a subject of the shop keeper, as if happily conscious is a subject of the shop keeper, as if happily conscious is a subject of the shop in the store and stopped to gaze at the queer-looking letters on the chest. Then, as if propelled forward by some diabolical motive, he rushed in the store and began to lift the chest with all his might. "Git out there! vat you went?" excitedly exclaimed the proprietor rushing forward. "What fire?"

"Why, sir, I's doin' jist as that box said. I seed this sign and that fire..."

"Why, that fire?"

"Why, that fire there," and hop inted to where the eigar of the excited man which he had dropped in his hurry, was burning a holo in the carpet. With one stamp of his shoe it was extinguished. But the tramp still lingered.

No department of church work is attracting such general attention throughout the christian world as the Sunday school, and through that, more attention is directed to Biblie study and biblical research than in any other way. The pastor of the Methodist church has proposed, and the church atopted, the pian of devoting one entire day each quarter to this most important cause. The first of these will be observed next Sabbath, October 11th, and a special effort is being made to insure its being attractive and interesting, and to stir up a zeal in the church, in view of the near approach of the county Sunday school convention. Each service will be spirited and instructive and the Joyful music, interspersed throughout, will be one of the most happy and attractive features of the occasion. A general and hearty invitation is extended to overshody to attend these services. They will be of special interest to those actively engaged in the Sunday school work and who desire to No department of church work is those actively engaged in the Sunday school work and who desire to have their "pure minds stirred up

The Bedreck Flume.

I Marmy Sun.!

A reporter of the Sun rode over the bettrock flume yesterday. The work is being pushed without stint of means or men, and as fast as the work progresses and room ix made the force is increased. There are 225 on the rolls to-day, and by Monday there will be over 300. The ax-men, clearing the right of way, are this side of Eagle and behind them, stretching in a long and busy line of more than a mile in length, are the graders, working in couples with about 30 feet interval to each pair, pulling up stumps and digging the flume w.y to its bed. Behind these again is a force of men leveling the way for the reception of the sills, and at this writing about a mile of work is tinished and ready for the boxes. A section of these flume boxes is now completed at Eagle, and gives one rather a startling idea of the luxinensity of the undertaking. There are two working boxes, side by side, each 5 feet in hight and with that will be riffled throughout the line with railroad iron, and next to these a clear water box of the same hight as the others and 4 feet in width for supplying the engines and pipes—all built together of 2-linch planking, with double partitions between the boxes and in sections of 16 feet each for convenione in handling. The sections are to be made at the sammills, one of which will be placed at Eagle and one-possibly two-below. The first engine is a present and in sections of the same faced at Eagle and one-possibly two-below. The first engine is a present and in sections of the same faced at Eagle and one-possibly two-below. The first engine is a proper of the same and in sections of the same faced at Eagle and one-possibly two-below. The first engine is a proper of the same and in sections of the booken glass. When the police finally forced a passage and removed the dead and injured, they found that alghieen persons had been killed in the rash. Most of these were women. Many people are believed to have been seriously injured early in the pante by being trampled under that set of horses. A prominent stitusen was separated from his two daughters, aged 10 and 12 years. He streamy found their bothes trampled almost beyond recogition. A woman excitedly searching for her shill, broke into loud cries on seeing one of them a corpes. It was found that she had gone mad. The police, numbering 200, were utterly powerless to prevent accident or govern the crowd.

once hastened to the scene, and the dead and wounded were brought to this place.

The work of removing the men from the debris was a sorry task. A man alive and uniqured was taken from under two dead ones, and it was simply a miracle that he escaped. Following is the list of the dead: George Krause, Cincinnati; Roberts, first name unknown, Dakota; Chas. Wallace, Joined at Portland, Or., antecedents unknown; James Wallson,

Through the efforts of the W. C.
T. U. a Band of Hope has been successfully organized in our midst, and which promises to be a success, in point of numbers, socially and morally. The following officers were elected; Mrs. Wm. Murphy supt., Mrs. E. Gavett asst. supt., Herman Toll sec'y, Mauda, Justice asst, sec'y, Frank Morris librarian, Anna Rudd treasurer, Mrs. A. J. Connell chorister and organist.

Messra. Wm. Saunders and E. M. Downlug, of Spangle, have returned from the east, where they had taken horses for sale, the former going to Devul's Lake, D. T., and the latter to Chicago. Unfortunately, Mr. Downlug, shorses were in poor condition for market, they having contracted distemper, lung fever and pinkeye. He lost heavily on the venture, but contemplates gathering up a band of ponies to take east. He starte east last March with a band of 74 ponies and was financially very auccessful.

A reporter of the Sun rode over the beptrock flame yesterday. The work is being pushed without stint of means or men, and as fast as the time of the sun round and hault the manufactured and the proposition. The major claimed that it would be cheaper to hault the reduced water to this city and work it up than it is to haul the grease and other materials to Medical Lake, and then turn round and hoult the manufactured articles to this city for shipmen.

this city for shipment. New Company.

New Company.

Several skilled workmen in wood in our city have combined together, and, under the name of the Spokane manufacturing company, have opened out business in the row of frame ed out business in the row of frame buildings on Post street, between Sprague and First streets. The one chief article now made is a fanning mill for the cleaning of grain. The firm has started in to make a mill that will compete, in points of excellence, with any mill of the kind made, and besides at prices at which the eastern manufactured article cannot be sold. Our farmers have long felt the want of a cheap and serviceable fanning mill. It is an article that is almost indispensable on a farm, but, on account of the on a farm, but, on account of the high figures they have been held at heretofore, very few mills are around in the country. The Coeur d'Alene Water and Sup-ply company is the title given to the organization constructing what was formerly known as the Coulter ca-nal at the head of Prichard creek, and which is intended to furnish water to our town and hillsides, and mining timbers, lumber and fuel wherever needed along its course. Mr. Coulter, the superintendent, in-formed the Sun reporter on Tuesday that fifty men were employed about the company's saw mill at Raven and formed the Star reporter on Tuesday that fifty near were employed about the company's aw mill at Raven and on the canal, and that the work was being urged forward with all the expedition possible under the circumstances. The mill was sawing lumber up to its fullest capacity and eight teams were kept beay hauling it to the points required up, the gulch, Eight thousand, feat a day were being moved and every effort was made to acquire a surplus to give the carpenters uninterrupted work. The recent contract for 100, 100 feet of saw logs was finished last week. Mr. Coulter assured the reporter that the canal would naw be completed without any further deiny. The company having it in hand is said to be a powerful one financially, and all the funds required will be promptly forthcoming. It is probable that before the snow is deep on the ground the advance. deep on the ground the advance force will be this side of Butte creek.

force will be this side of Butte creek.

— The Sprague Journal is always making some new and startling discoveries. This is among the latest: "Spokane merchants have their drummers in the city and on the road everywhere in the city and on the road everywhere in the trude that is intended and should come to this place. It is time our merchants should open their eyes to this fact, and have some one tell the truth it apposition to the stories of the drummers of our neighboring city, who must be given credit of being not only smooth-tongued but shrewd talkers."

SITUATED on Old Cottonwood Read,
Statecan miles morth of spokane Fails,
the Nituates and Boar rand between typetime Nituates and State and State State
Little Dalles and the mining camps of
Statema countying place for travelers, and
has good accommodations for man and beast
Charges reasonable.
