**Gov. Watson C. Squire's Report.**

## THE COLUMBUS CENTENNIAL

**Funeral of Vice-President Hendricks.**

**DEMOCRATS OPPOSED TO LOGAN AND SHERMAN.**

**Increase in the National Debt for November.**

**[SPECIAL DISPATCHES TO THE REVIEW.]**

**Out.**  
NEW YORK, Dec. 1.—At 5 o'clock this morning the first volume of Grant's book was ordered. Actual orders to date, 325,000.

**His Birthday.**  
NEW YORK, Dec. 1.—Yesterday was Mark Twain's fifty-fifth birthday. In honor of which Oliver Wendell Holmes has written some characteristic verses and Charles D. Warner J. Harris and Frank R. Stockton have also sent Mark some complimentary prose notice which will appear in the *Critic*.

**Don't Want Him.**  
WASHINGTON, Dec. 1.—The democrats are radically opposed to any one for president of the senate except Edmunds. They oppose Logan and Sherman on account of their partisanship, and therefore they will favor the republicans every way.

**Signal Service.**  
WASHINGTON, Dec. 1.—In regard to the signal service on the Pacific coast, the signal officer says, that the officer on duty at San Francisco has been relieved, but the place is to be immediately filled with another. The suspension is only temporary. Applications will be made from this office until the arrival of the new officer at San Francisco, when instructions will be made at San Francisco as heretofore.

**Appointments.**  
WASHINGTON, Dec. 1.—The president has made the following appointments: C. Thompson, of Harrodsburg, Ky., surveyor general of Wyoming, vice John W. Weldrum, resigned. Registers of land offices, David Webb, of Covington, Indiana, at Salt Lake city; Frederic A. McDonald, of Oregon, at The Dalles, Oregon, receiver of public moneys; William Yarnard, of Laurencetown, at Cheyenne.

**One to the Dogs.**  
CHICAGO, Dec. 1.—Dr. Thomas Bradley, who became insane from the use of cocaine, was taken from Washington to his home in this city yesterday. He is a physical and mental wreck. He is the chemical use of the drug last May, and so great was its influence over him that he mortgaged all his property, even to his horse and buggy, in order to get the drug. He even performed experiments with the drug upon his own family and has wrecked the health of some of them.

**Silver Question.**  
WASHINGTON, Dec. 1.—Great danger seems to lie before the silver men in the fact that they are allowing themselves to be split into factions, some advocating one thing and others another. They should hold a caucus and agree upon some plan of combined action, and then follow out that plan to the letter. The anti-silver men are beginning to chuckle over this division. One gold advocate said a congressman had written to him suggesting that the compulsory part of the Bland mortgage law, another suggestion that it would be a good thing to suspend coinage temporarily. This is decidedly all wrong. The silver men should have some plan for working and then stand to it.

**Natural Gas.**  
LITCHFIELD, Ills., Dec. 1.—Four miles of pipe from natural gas wells have been laid to this city during the past ten days by G. H. and L. C. Vanleek, of Buffalo, N. Y., who some months since secured the franchise giving them the exclusive right to light the city in this manner. The gas flows from a well of mile from the center of this city, in a territory where natural lubricating oil was found in connection with the gas at a depth of 600 feet. The gas at present is found in large quantities and no fears are entertained that the supply will be sufficient to light the streets and furnish heat and illumination to the stores, private residences and factories of the city.

**Gov. Squire's Report.**  
WASHINGTON, Dec. 1.—Gov. Watson C. Squire, of Washington territory, in his report to Secretary Lamar, gives the population of the ter-

ritory at 129,488, an increase of 36,000 in two years. The assessed valuation of the territory is \$50,484,437. There is yet 23,000,000 acres of public lands unsurveyed, of which 14,000,000 are good agricultural and timber land. The governor states that by the territorial census of 1885 there were 3276 Chinese residents in the territory. He says that the recent attacks on Chinese in the territory have grown out of the fact that Chinamen are continually coming into the territory across the border from British Columbia, in violation of the restriction act. The governor suggests an increased customs force on the border, a revision of the restriction act and a revision or abrogation of the Burlingame treaty as necessary for tranquility in the territory.

**Figuring on President.**  
WASHINGTON, Dec. 1.—Gen. John A. Logan cannot be elected president *pro tem* of the senate, said a democratic leader to-day. He is not eligible because he has not yet taken the oath of office. Section 28 of the revised statutes says that the oath of office shall be administered by the president of the senate to each senator before taking his seat. This means that the president of the senate must be in the chair before new senators are sworn in. Gen. Logan cannot be sworn in until there is a president of the senate to administer the oath. This was settled at the extra session in 1881. It was then decided that the president *pro tem* must be elected before the new senators can be sworn in. Of course the republicans can elect a man temporarily and after he is sworn in make him give way to Logan.

**The Funeral.**  
INDIANAPOLIS, Ind., Dec. 1.—The funeral of the late Vice-President, Thomas A. Hendricks, took place in this city yesterday. Many distinguished and prominent persons of the nation were present, among whom were ex-president Hayes, Gen. Sherman, Senator Dughey, the cabinet, Senator Edmunds, most of the members of both the senate and house were present. Mrs. Hendricks insisted on a photograph of the deceased being taken at the last moment. Her request was complied with. Her grief was very touching. The floral decorations were profuse and very beautiful. All the trains entering the city were crowded with people from far and near to attend the funeral. President Cleveland is said to be very much depressed. The relations between himself and the deceased were of the most pleasant nature.

**Exposition.**  
SPRINGFIELD, Ill., Dec. 1.—The Chicago Columbus Centennial World's Fair and Exposition Company has been incorporated by the secretary of the state, with a capital of \$1,000,000, divided into 10,000 shares. The incorporators are Chas. W. Zarembka, Emil C. Becker and Oscar Becker, of Chicago. The object of the association is to hold an international exposition at Chicago in 1892, to celebrate the fourth centennial discovery of America. They will build an exposition building for the purpose and erect a colossal statue of Columbus on a volcanic pedestal.

**Will He?**  
WASHINGTON, Dec. 1.—The democratic members of the senate hope that Senator Mitchell will vote for a democratic president *pro tem* of the senate, thus proving the assertion that he obligated himself to support them. The republicans entertain no fears that he will do so.

**Good Report.**  
NEW YORK, Dec. 1.—The financial *Chronicle* says that the outlook is very bright and the only danger is too much haste in Northern Pacific, which is now maintaining its gains in net earnings. This has characterized all the monthly returns of the new fiscal year.

**Captured.**  
PORTLAND, Dec. 1.—W. D. Morgan, who killed Fred Hanning in Beaverhead county, Montana, and afterwards fled to British Columbia, was recently captured and passed through this city to-day en route for Montana.

**Treasury Matters.**  
WASHINGTON, Dec. 1.—It is said at the treasury headquarters that there is an increase instead of a decrease in the public debt for November. Receipts have been light and disbursements unusually heavy. The payment of pensions alone amounted to over \$11,000,000. The department statement will be issued to-morrow.

**After Them.**  
SAN FRANCISCO, Dec. 1.—The movement to dislodge Mongolian cigar makers is gaining ground every day. Several other large manufacturers have agreed to employ only white men in the future.

**Some Mercantile Throwing a Rock and broke the glass globe of the electric light at the corner of Main and Howard streets last evening. Officer Rank was close at hand and made a diligent search for the culprit, but unluckily failed to hunt him up.**

## THE PHILANTHROPIST UPON US.

In another column of this issue we publish a communication headed "Too good a Joke to Keep," which goes to show the perseverance, enterprise and gall of the people whom the county outside as well as in this city have to fight in this matter of the removal of the county seat. We have nothing whatever to say against circulating a remonstrance within the very citadel of county removal strength, on the contrary we rather admire the immaculate cheek of the absterger liar who could march up to an innocent looking Spokaneite and by representing that a petition he had for signatures was one favoring county seat removal catch the party without a struggle, and against his private convictions. But let this be a warning to others, not to be caught by the same bait nor by the same angle. We have not a particle of doubt but what a sufficient number of names can be secured on a petition for removal to convince our legislators that a removal is desired by a majority of the voters of Spokane county, yet at the same time it is not necessary to throw away any names. Petitions have been circulated with the most astonishing success throughout the county, and precincts that did not cast a vote for Spokane Falls four years ago, are now going to a man for this city. They see the grave mistake made by voting the county seat to Cheney and are now making amends. We believe that it is the desire of a large majority of voters that Spokane Falls should be the county seat, and we have no fears but that it will be so declared in the end.

While on this matter it would be well enough to warn those favoring the removal that they have not only a wily opponent but an unscrupulous one in Cheney. Listen not to the charges that the people of that place trump up in order to awaken support among the farmers. The town of Cheney is in the last ditch and the people thereof do not hesitate a moment to make any assertion if they think by doing so they can influence a single voter. We are told that they are at work, tooth and toe-nail, paying men to circulate a remonstrance throughout the county, and posting officers to the effect that the commissioners are sold to Spokane Falls and sorrow was very touching. The floral decorations were profuse and very beautiful. All the trains entering the city were crowded with people from far and near to attend the funeral. President Cleveland is said to be very much depressed. The relations between himself and the deceased were of the most pleasant nature.

It has been suggested to us that the nine owners of the Colville country should combine together and by offering an individual capitalist, or a syndicate of capitalists an interest in the claims for the outlay of the coin, succeed in securing a smelter. We have no doubt this scheme would work to the mutual advantage of both the miner and the owner of the smelter, if anything the advantage would be on the side of the latter. But it is one thing to suggest such a proposition and another to carry it out. We presume there is hardly a claim owner in the north who does not calculate that the bowels of the earth just under the few square feet that constitute his claim contains a fortune, and it would be difficult to make them all see that a smelter was of sufficient advantage to warrant them in even donating a small portion of their property. Some combination of this kind, however, would not doubt hasten the construction of a smelter, and that is what is wanted.

**Dramatic.**  
After a season of rest from visitations of a dramatic character the people of Spokane Falls are to be treated to a presentation of two strong society dramas in the plays of "Forget-Me-Not" and "Diplomacy," by that superb and justly famous stage artist, Miss Jeffreys-Lewis, who appears at the opera house under the management of Squier & LeRoy, supported by a choice company, on Friday and Saturday evenings, Dec. 1st and 19th. Miss Jeffreys-Lewis is too well known to the theatre goers of this section to need any introduction from us. Her reputation is sufficient to draw a crowd to the opera house on the evenings in question.

**Columbia Livery Stable.**  
The Columbia Livery Stable at Colville, owned and operated by Young & Ide, is prepared to rent saddle horses, vehicles, etc., and board horses by the day, week or month.

## SHOOTING AT COLVILLE.

Chas. H. Montgomery Perforates Thomas Flinn.

From a party who arrived in our city at 10 o'clock Tuesday night we learn the following particulars of a shooting scrape that took place at Colville Sunday night: It seems that not the very best of feeling has existed between Chas. H. Montgomery, the leading merchant of Colville, and Thomas Flinn, who is engaged in the butcher business in the same place, for some time past. The trouble grew out of a case in law in which Mr. Montgomery was a principal. Taking offense at the affidavit made by Mr. Montgomery, Mr. Flinn while on horseback and armed with a revolver, with the apparent intention of doing him great bodily injury. A little while after the shooting commenced, Mr. Flinn was shot through the hip. The wound is not considered dangerous. Of course the shooting caused a great deal of excitement in the town. Both parties are well known in Spokane Falls. Mr. Montgomery from his long residence at Colville, and Mr. Flinn as a former resident of this place.

**Another Attempt at Robbery.**  
After a respite of a week from the usual robbery sensation the man of dark deeds again appears on the scene, furnishing trouble for the nervously inclined and a fresh item for the local reporter. About 4 o'clock Tuesday morning a man entered the room of C. O. Squire, on the north side of the river, and while unobserved in obtaining any booty, showed by his actions that his intentions were good. The front of the building consists of three rooms, a parlor on the north side of the house and two bedrooms on the south side, the one on the west, occupied by the daughters, two young ladies about 15 and 17 years of age, and the one to the east by Mrs. Squire. Mr. Squire and his son were on a trip to the Moses reservation, where he is superintending the construction of some buildings. On the south side of the house is a cellar, lanked up until the top is within a few inches of the window of the room occupied by the young ladies. The thief walked into the room, unlocked the door of the cellar, turned up the light and commenced searching the clothing of Mrs. Squire, that were in the room. At this stage of the proceedings the eldest girl entered the room, and noticed the peculiar color, which seemed to oppress her. The thief heard her move, and running to the bedside again applied the light. She felt drowsy, but called, and asked if her mother was in the room twice or three times, when the man leaned over and ordered her to get up. She suddenly realized the situation she gave a scream, and the fellow took a header over the bed, out of the window and fled. Of the thief, who walked along the edge of the bed to the foot, raised into the parlor, turned up the light and commenced searching the clothing of Mrs. Squire, that were in the room. At this stage of the proceedings the eldest girl entered the room, and noticed the peculiar color, which seemed to oppress her. The thief heard her move, and running to the bedside again applied the light. She felt drowsy, but called, and asked if her mother was in the room twice or three times, when the man leaned over and ordered her to get up. She suddenly realized the situation she gave a scream, and the fellow took a header over the bed, out of the window and fled. Of the thief, who walked along the edge of the bed to the foot, raised into the parlor, turned up the light and commenced searching the clothing of Mrs. Squire, that were in the room. At this stage of the proceedings the eldest girl entered the room, and noticed the peculiar color, which seemed to oppress her. The thief heard her move, and running to the bedside again applied the light. She felt drowsy, but called, and asked if her mother was in the room twice or three times, when the man leaned over and ordered her to get up. She suddenly realized the situation she gave a scream, and the fellow took a header over the bed, out of the window and fled. Of the thief, who walked along the edge of the bed to the foot, raised into the parlor, turned up the light and commenced searching the clothing of Mrs. Squire, that were in the room. At this stage of the proceedings the eldest girl entered the room, and noticed the peculiar color, which seemed to oppress her. The thief heard her move, and running to the bedside again applied the light. She felt drowsy, but called, and asked if her mother was in the room twice or three times, when the man leaned over and ordered her to get up. She suddenly realized the situation she gave a scream, and the fellow took a header over the bed, out of the window and fled. THE SPOKANE FALLS  
WEEKLY REVIEW  
County Official Paper.

SATURDAY, DEC. 5, 1885

By actual survey the residence of Geo. Foster, in this city, is exactly in the center of the county. Why should the county seat be located at a point twenty miles south and west of the center of the county?

By resorting to all manner of dirty work the supporters of the petition asking that the question of submitting the re-location of the county seat might get more signatures. But if they cannot succeed by fair representations they would rather lose altogether.

From every part of the county comes cheering reports of the unanimity of the feeling among the people that the question of the re-location of the county seat should be submitted to the voters. Precincts in three years ago did not cast a vote for Spokane Falls are solid for a re-consideration.

FRIENDS of the movement to submit the location of the county seat to the popular vote are voluntarily taking positions out through the county and are impeding with splendid encouragement. All that is wanted is to submit the question to a vote of the people. Their voice decides the contest.

A GENTLEMAN from the south part of the county says: "I have not mixed up in this county seat question, but since the division of the county I see the injustice to a great majority of the tax-payers in continuing the county seat in its present location. I am now earnestly interested in having the question submitted directly to the people." So we ask.

Just to show how the people of the county feel on this matter of voting on the county seat question we give the following, as the returns up to date, of those signing the petition. The signatures are only those of voters: Coulee precinct, 130 out of 142 voters; Deep creek precinct, incomplete, 117; Boone precinct, 127; Richmond precinct, 127; Spring valley precinct, Mr. Fenn's home, 50 out of 64 voters; the eight not on the list were parties who the solicitor was unable to find; Spokane Bridge precinct, 94. Pretty good showing, eh?

"ETERNAL vigilance is the price of liberty." It is also the price of the county seat and must be exercised if four people expect to win it. The removal of the county seat has suddenly become an all-absorbing question. While we admit that its location at Spokane Falls would be an advantage to the city, yet at the same time it must be taken into consideration that a change of that kind would also be a very great advantage to a majority of the tax-payers of the county. Not a single good reason can be advanced why the county seat should remain where it now is. Cheney is not centrally located either topographically or according to the center of population. The county has little or no money invested in that place, at least in appearance, but when we have an argument against the place is that the town is so uninviting that few people can go into Cheney, nor would they were they not compelled to in order to transact business with the county officers. Removal is what the majority of the people want and it looks as though that is what they propose to have.

Some people have lying reduced to such a science that it seems like a virtue, and their genius in the accomplishment of something to exalt them above their fellow men instead of reflecting upon their character. As we have stated on several occasions those who are opposed to county removal directly through personal motives will resort to all kinds of statements in order to secure a following. We have clearly shown the fallacy of the statements made to the effect that Spokane Falls would insist on the erection of expensive county buildings, and now have to face another charge as absurd coming from the same source. We are told that there is a party from Cheney at Rockford who tells the people that Spokane Falls is employing the surveyors to run the railroad line southward and that is only done for the purpose of influencing voters on the county seat question. This is what we might term a Herculean falsehood, the size of which is sufficient to knock one's breath out of his body. Spokane Falls has no more to do with that survey than has Cheney, and whether the county seat is moved to Spokane Falls or to Spokane Bridge, it matters not, those people paying the surveyors will build the new railroad from that point on the Northern Pacific considered most feasible and the least expensive. Spokane people are pretty liberal, but their purses are not long enough to keep a big band of engineers helping over the country viewing out railroad lines. For a good substantial lie this one overtops anything yet heard of from the returns now in, but it must be a very creditable fool who will swallow it whole.

The Cheney Tribune rings in a new editor every week who shoots off his head at Spokane Falls and falls back to give the next a chance. The last clump who mounts the tripod is the very worst of the bunch. He tells who he knows about railroads, and like the frightened snail hiding from his pursuers, not only fails to hide his identity but displays the largest part of his body to the public gaze.

**Salvaged Agent.**  
"Spokane Falls has sent a salaried agent east to direct capital on immigration to that city and vicinity. The agent is a man of the Falls have more vim and enterprise than any town in Washington territory. The people are a unit in everything they undertake. The leading proprietor, Mr. Cannon, has been exceedingly liberal and to his generosity much of the enterprise of the place is attributed. Naturally there was nothing beside the water power to attract settlement and business. There is no farming country about it. It is surrounded with a scrubby growth of timber and huge piles of rocks in close proximity. The Haveruade addition is nearly a mass of rocks. A more romantic site for a town has no existence in the territory. The citizens have made it what it is. They fought against nature and have built a town that is a credit to its people, and as it is built upon a foundation of adamant it will endure and be a lasting monument to its enterprising proprietors.

The above from the Ellensburg Localizer sounds very well, and we appreciate the credit it gives to our people, but on the face of it it shows that the writer knows very little of Spokane Falls, has an impression formed by a hasty glance, or he withholds his knowledge. When he declares that there is no farming country about it he shows the narrow observations made, if ever in the place, and if he calls the timber of Hanamania and the hills and mountains about us scrubby, his conception of that class of forestry is really surprising. We do not deny the charge that huge piles of rocks did exist in the corporate limits and some are now in existence, but they do not occupy all the townsite by a big majority, and in a couple of years all the balance on hand at the present time will have disappeared to make places for substantial and beautiful homes. There may have been a time when there was nothing here but water-power and wilderness. The power remains to give substantially to our growth; the wilderness has disappeared to give room for a bustling, wide-awake, growing city.

SPokane Falls is a prolific town for hatching railroads. The people of that wide-awake place built a railroad to the Couer d'Alene mines, on paper, and another they are building one to the Colville quartz mines and one to Palouse city, Farmington and Moscow. When all these prospective railroads have been built, together with the moonshine road through Big Bend via Skagget pass to Puget sound, Spokane Falls will become a great railroad center, and will breathe the grand old spirit of the people and it is not expected that all of their wild schemes will be crowned with success. They are a good set of restlers.

The above item is from the Ellensburg Localizer, and from the general drift of the article we are led to believe that our contemporary has doubts as to the genuineness of the scheme on foot to put a new road from some point on the Northern Pacific southward into the Palouse country, and in fact is rather shaky in his faith in any railroad that has the faintest idea of touching at Spokane Falls in its meanderings through eastern Washington. We take no pleasure in vexing a human being with disappointments, but if the editor of the Localizer will condescend to protect his days of existence just for a year or two he will be overwhelmed with disappointment by seeing a road not only from this city southward into the great wheat country about Spangle, Waverly, Rockford, Farmington, and Palouse city, with its numerous feeders stretching out like the arms of an octopus, but also well equipped and good paying lines of road running into the Colville mining country, and also out into that agricultural paradise, the Big Bend. The demand exists for such roads, and where there is a demand there can always be found capital to go to work and build. The schemes are neither wild nor are they built up by people of this place. Each and every project enumerated above are feasible, practical, and even necessary, and the day is coming, and that not so far off, when the editor of the Localizer will be able to see the lines in operation and he will not be much older than he is now, either.

We are informed by a party just from Cheney that the wire pullers of that burg are doing all in their power to defeat the proposed measure of submitting the location of the county seat to the voters, and are so zealous in their efforts that they halt at no fraud, no matter how great. One of the games they are up to is to first have all those possessing such a thing to sign their given and middle names, and then in order to swell out the list, the proper name is added at another part of the list with the initials attached. This is great leather, but if a few of these slight inaccuracies are pointed out to our representatives it will have a tendency to shake their faith in the honesty of purpose of the Cheney people.

A PRETTY little scheme of some one opposed to the re-location of the county seat is circulating a petition headed in favor of the proposition. When a large number of names have been secured these heads are cut off and a remonstrance head is pasted on. Our legislators should put no trust in such documents. A list of names with a pasted head attached is a pure fraud. Look out for them.

From the way names are rolling in for the petition to submit the re-location of the county seat to the voters of the county we would judge by even the most incomplete canvass fully two-thirds of the legal voters of the county have signified their desire in favor of the proposition.

CHENEY stands alone trying to dictate to a large, wealthy and prosperous county. It is another case of the tall wagging the dog.

**ATTENTION, CITIZENS.**  
There are now a large number of both lady and gentleman voters in our city who have so far failed to sign the petition asking for the submission of the re-location of the county seat to the voters. No one is truly a friend of the city who fails in this duty. In order that none may be missed, the list will be at the postoffice up to 1 o'clock p. m. to-day, and all those who have so far neglected signing the document are requested to call at the postoffice and do so before that hour.

The organs of Cheney have followed a very aggressive course in the present campaign on the proposition to submit the re-location of the county seat to the voters. They have been slinging abuse of individuals and this community in general. It is fortunate really for Spokane Falls that those sheets followed that course instead of taking a manly stand and discussing the matter calmly and dispassionately. We have met a number of gentlemen during the past few weeks who have heretofore been thoroughly disgusted with the local papers of that hamlet that they have entirely changed their sentiments, are not only in favor of submitting the proposition to the people but will work hard for this city. Had the papers of the Falls decided to go into the fight and drag up the shortcomings of our neighbors the job would have been easy, for the crowd down there has many vulnerable points that could have been touched the quick. We want to see this question submitted to the free and independent voters on its merits. If we lose in the fight well and good. That will settle the controversy, but we can feel that we did our best and that we can submit to the decision of the majority.

CHENEY people are in a stew and resort to the most desperate means. Recently a post woman was about to move from Cheney to Spokane Falls was solicited to sign a remonstrance. She informed her caller that in the future her interests would be at the Falls and she did not wish to sign a remonstrance. She was approached time and again and still held out. Just before leaving that place for this city she called on a physician to pay a bill she was owing him, or to make arrangements to pay it. He looked pleasant and said there was no bill if she signed a paper he had in his hands. It was a remonstrance. The inference to be drawn was that if the signature failed of the bill would be immense. She succumbed to the force of circumstances.

The most cheering reports are coming in from the country precincts. Everybody seems to want the chance to vote on the re-location of the county seat.

AS FAR as can be ascertained Cheney is the only precinct that objects to putting the county seat question to a vote.

We have yet to hear a single argument against submitting the county seat location to the people.

EVEN the precincts adjoining Cheney favor the proposition to submit the county seat matter to the voters.

**An Anecdote.**  
We are informed that those who are circulating a remonstrance against the removal of the county seat in the eastern part of the county are making the assertion that the commissioners will build a \$75,000 court house if the county seat is moved to Spokane Falls. This can only be used with effect among those not conversant with the law. By referring to sections 2682 and 2683 of the code of Washington territory, it will be seen that desire such a thing the matter rests entirely with the people. For the inclusion of a public building to establish the sections just as they exist: SEC. 2682. The board of county commissioners of the several counties of this territory shall have no power to levy a special tax for county purposes except in the manner hereinafter provided, unless otherwise specially ordered by special laws.

SEC. 2683. When in the opinion of the county commissioners of any county the public good requires a public building, or other county building, they shall estimate the cost thereof and submit the same to the people of their county at the next general election, notice thereof being given at the same time and place as for other elections, when, if a majority of the voters of such county shall vote in favor of such special tax, the commissioners shall assess and cause to be collected such tax in the same manner as other county taxes are collected.

**Promising.**  
While the letter received Tuesday evening by one of our citizens to the effect that a new great strike had been made in the lower shaft of the Old Dominion, it only confirmed the report that reached us a day or two before to the same effect. It seems that a vein of about four feet in thickness had been reached at a depth of sixty feet, and the ore is the finest looking that was ever yet taken out of that wonderful claim. The strike not only gives people greater faith in the country, but it increases the value of that mine and settles beyond controversy that the claim is a bonanza. Furthermore, the find has a corresponding effect on increasing the valuation of the claims in the immediate vicinity, as it hardly stands to reason that all the mineral wealth of that section is concentrated under the few hundred square feet that constitute the Old Dominion.

The coming of Miss Jeffrey-Lewis will be a bright event in the dramatic annals of our city and the lady backed by a world-wide reputation, is sure to meet with a flattering reception through the hands of our people. She is to be here on the 15th and 16th of the present month.

**Masonic Appeal.**  
To the W. M. wardens and brothers of the subordinate lodge of the grand lodge of A. F. & A. M. of Washington territory:  
MY DEAR BRETHREN: On the 13th of November, 1885, the fire devil spread his destructive wings over the fair city of Galveston, Texas, causing distress and suffering most direful, and rendering many brethren of our beloved fraternity and their dear ones homeless and foodless, and leaving them naked and hungry in the rigor and severity of the ruthless elements, which has caused the entire grand master of Texas, and other leading brethren of the stricken city, to issue to the Masonic world the following appeal:

MASONIC TEMPLE, GALVESTON, TEXAS, November 23, 1885.  
To the Masonic Fraternity:  
On the 13th of this month a large portion of Galveston, comprising mainly residences and tenement houses, was laid in ruins by one of the most destructive conflagrations that has ever visited an American city. It has been estimated that over 500 houses were destroyed and nearly 6000 people rendered homeless. The fraternity has suffered in equal proportions with other classes of the community. Systematic steps have been taken by the lodge here to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve. We need funds to ascertain the extent of the loss which has befallen worthy Masons, their widows and orphans, and the result of the investigation has demonstrated that their needs are largely in excess of the ability of the local Masonic bodies or the general citizens' committee to relieve.
