**WASHINGTON.**  
WASHINGTON, Dec. 31.—The committee of the Garfield memorial hospital has received \$400 from the khedive of Egypt, through consul-general Wolf, who writes that he expects to supplement this with a further subscription to the amount of \$1000. Minister Morton, of Paris, the American exchange of London, and the American consul at Amsterdam, and elsewhere are also receiving subscriptions for this object.  
The Russian minister called upon the president to take leave before starting for Russia.  
The following named ladies have been invited by President Arthur, who will assist him at the New Year's reception at the White House Monday—Mrs. Logan, Cameron, Pendleton, Jones, James, Miller, Pierson and Robinson.  
WASHINGTON, Jan. 2.—Postal changes for the Pacific coast are as follows: Established—Lee, Yakima county, W. T., with Daniel E. Lesh as postmaster. Discontinued—Cedar Mill, Washington county, Ogn.; Greenwood, Spokane county, W. T.  
The arrival of the new year and the throwing open of the white house, has broken the season of universal mourning in Washington society over President Garfield, which everyone has disliked to break, and sociability will resume its sway now.  
**Highland Farming.**  
We copy from the Willamette Farmer a portion of a letter from Mr. Robert Bruce, from Umatilla county which can but be interesting to our farmers. We wish farmers in Spokane county would more generally make public their observations. Mr. Bruce is an observing man, and the following statements are of value: I take the stand that if there were numerous streams running through our bunch grass, we never could raise the quality of wheat that is grown here. You might raise as much or more to the acre. Why is it that Byers & Co., of Pendleton, have such a demand for their flour; yes, from Fort Hall, in Idaho, to San Francisco and in England! It is because the wheat is raised upon the high, upland of Eastern Oregon, where not a drop of water is seen on the surface for miles and miles; and we only want what our wells will supply for home use and stock. Another feature is, the higher the land, the better for orchard or garden. I have 160 acres northeast of Pendleton, and I have three lots on the river bottom in the town of Pendleton. The water in my well on the river bottom is eight feet from the surface in the middle of August, but measure the depth of the moisture in the garden on the farm, that has 500 feet higher altitude, and you will find that when the town garden is dried up the moisture in the farm garden is only two or three inches below the surface. I have grown trees, as have lots of other settlers here, from the seed, one to five feet in one season. The yield of vegetables is simply incredible, with no water, except from the dew in the atmosphere.  
**Origin of Names Again.**  
The trading post of the Hudson Bay company, located on the Columbia river, a short distance above Kettle Falls, was named after Mr. Colville, a gentlemanly officer of said company. The orthography of the post was written Fort Colville. During many years Archibald McDonald, Esq., had charge of the said post. He was familiar with the early doings of the Hudson's Bay

Company in the Columbia river country. From full knowledge he made statements to me relating to the first trading post built by the Hudson's Bay Company west of the Rocky Mountains in the year 1811 at the junction of the two Spokane rivers. I first met Mr. McDonald at Fort Colville Sept. 17, 1838. During several succeeding years I was favored with frequent personal interviews with the well informed gentleman. Additional statements were made to me in his fort. Mr. McDonald said to me that their early traders observed the Indians designated Cour d'Alene were sharp in trading. To no other of these Indians in trade will pierce you," thus implying that they had a disposition to cheat to trick, were painstaking, had a heart like an awl. "That," said my informant, was the origin of the name Cour d'Alene." The aforementioned gentleman in writing made statements that the Indians residing near the Pen d'Oreille bay were large ear drops of bone, hence by the traders, who used chiefly the French language, they were called Pendit d'Oreille, or by construction Pen d'Oreille. In the Indian language the location or the people of the place are designated by Kallspeel or Kallsipal.

**CUSHING EELLS**  
**Coal Railroad.**  
The Seattle Post-Intelligencer says orders have been received from headquarters directing surveying parties to be put in the field at once to survey a line of road from the vast bituminous coal field lying about thirty miles from Renton, between Green and Cedar rivers in King county. Parties are now being formed to do this work. The lines will be run and grades established during the present winter, and the work of grading and construction will be commenced in the early spring, and be pushed rapidly ahead as fast as men and money can be obtained. The entire thirty miles order to be completed and in running order before the close of 1882. This road will tap one of the richest bituminous coal fields of the Pacific coast, which has recently been discovered and secured by the Villard people. The coal is of a superior quality, and will find ready sale at top prices in the markets of the world. The determination of Villard and his people to extend their road this distance, thus opening up a rich section of the country heretofore comparatively unknown, will be a big lift for Seattle and King county, and this announcement of their determination will be hailed with joy by all who have the interest of the county at heart.

**The Office-Seeker.**  
A correspondent has the following significant statements, somewhat racy, but true:  
There is considerable magic in the name of Washington. I don't mean the Father of his Country, but Washington city, with its magnificent buildings, ugly women and beautiful streets. So thinks the office-seeker when he first greets the town with his small roll of greenbacks, the savings, perhaps of his aged parents from the sale of eggs, socks, and onions during a long series of years. They have fixed him up for Washington and an office; and, being tired of knocking the cloths of his native hearth, and tilling from morn till dewy eve in planting or resurrecting potatoes, or skimming the stately cabbage with his grand hoe, he has resolved to live at the capital of his country, to obtain an office, to bid farewell to his yarn socks and heavy brown brogans, to visit the theaters, and witness the fairy-like motions of fair damsels in tight and paints. For this is the picture that fancy paints for the countryman; but, alas! the office-seeker soon finds that "all that glitters is not gold," and while his money fades away, so the office recedes in the distance, and he joins the noble, patriotic band of generals, colonels, majors and judges (titles by courtesy) etc.  
It is surprising to see the number of generals, colonels, etc., in Washington. Their noses blossom as the rose, and their names are enrolled on a black list as suspicious characters without visible means of support. The state of Virginia is best represented among the class. Their battles are over now, "and instead of mounting warlike steeds to fight the souls of fearful adversaries," they charge to the bar-room on that soul-stirring air of "Let's take a drink."

**The 20-foot lot in the Times Block** just west of Joseph Hersner's furniture establishment was recently sold for \$500. A carpenter shop is being erected on a back portion of said lot, and a fine business house fronting on Riverside avenue is spoken of for next spring.

The Spokan Times.

Edited by Francis H. Cook

SPOKAN FALLS, SATURDAY, Jan. 7.

NEWS OF THE WORLD BY TELEGRAPH

Expressly to the Daily Evening Times.

NOTE.—Our regular Telegrams from Europe and other foreign countries, and from most all important points in the United States, are received over the Atlantic cable and Western Union line; those from Colfax, Dayton, Lewiston, Camar d'Alene, Missoula, Deer Lodge, &c., over the U. S. Military Tel. line. Our telegraphic correspondents are numbered among the most reliable literary men of the land.

Guiteau's Trial.

WASHINGTON, Jan. 6.—No new developments in the Guiteau case. Judge Cox is engaged in the preparation of rulings upon law points. Davidge will then be ready to proceed at once with the opening argument for the prosecution. It is thought an adjournment will be taken until Monday. Prayers of defense have been subject of general discussion with the legal fraternity, particularly the twelfth, which sets forth that "if the jury shall believe from the evidence that the prisoner is of sound mind, or not so insane as to be irresponsible for the act at the time of the shooting of the president, that he then unlawfully and willfully, but without malice in fact, in the District of Columbia, shot and thereby injured the president, of which shooting and injury the person so injured subsequently died in the state of New Jersey, and within the United States; then the prisoner is guilty of the crime of manslaughter, and the jury should so find." This is looked upon as the last resort the defense claim, as the shooting occurred in the District of Columbia and death in New Jersey. Of the crime of manslaughter section 5220 of statutes says—"If a person unlawfully and willfully, but without malice, stabs, wounds or shoots at or otherwise injures another, of which striking, stabbing, wounding, shooting or other injuries, such other person dies either on land or sea, within or without the United States, is guilty of the crime of manslaughter." As the absence of malice must be shown to remove Guiteau's crime from the murder class, it is not believed Judge Cox can rule favorably upon this prayer.

METHODIST COLLEGE. The adjourned meeting of the committee will be held at Farmington next Tuesday evening, on which occasion the location of a very important school will be settled upon. Therefore, we would repeat what we have heretofore published: The time is approaching when the committee on behalf of the Methodist Church will be called upon to decide where to locate their educational establishment north of Snake river. With due deference to the reasonable claims of all our sister towns, we can very easily see that there are many good reasons why such a college should be located in Spokan Falls. Beyond the possibility of a doubt, this city is the most proper location, as it is centrally, delightfully, and healthfully located. Besides these facts, this city is on the main line between the Atlantic and the Pacific. It will be the center of local railroads; is already the great center for stage lines, and will ever be the commercial center for Northeastern Washington and Northwestern Idaho. That Spokan Falls will be the educational center, eminent scholars already admit. The fact is made emphatic by the successful efforts of other denominations to establish their main schools here. Our Methodist friends cannot act more wisely than to locate their college at Spokan Falls. An ample donation of coin and available lands has already been made here.

How to Stop Mormonism. NEW YORK, Jan. 6.—The Herald's Washington dispatch says delegate Maginnis, of Montana, proposes an excellent way to put a stop to political power in Utah of polygamy and place polygamous mormons under proper control of law. His proposition is to let Congress divide the territory of Utah, incorporating the western part with Nevada; the southeastern part with Colorado; and a small northern part with Idaho and Wyoming. Congress has abundant power to do this; and it is evident that when it is done mormon power will be broken. Part of the mormon population will be then citizens of Nevada, and will be there only a minority of the whole state. Part will become citizens of Colorado and be in the minority. The main portion of mormon population would thus become citizens of states which have already established constitutions and laws to which mormons would of course be amenable. Maginnis remarks

that such a division of Utah and the distribution of its parts would not only be perfectly legal and proper, but would have the advantage of new boundaries which would be natural instead of artificial.

Accidentally Poisoned. SAN FRANCISCO, Jan. 6.—Rev. Jas. Cameron, pastor of the Second Presbyterian Church of Oakland, was accidentally poisoned this afternoon by a dose of carbolic acid administered through mistake by his wife. The fatal mistake was discovered at once, and medical aid was summoned immediately, but of no avail, Cameron dying within fifteen minutes after swallowing the drug. Deceased was 65 years of age, a native of Scotland, and greatly beloved by a large congregation; and the most devoted affection existed between him and his wife, who is completely prostrated over the terrible affair.

George's Seat Contested. NEW YORK, Jan. 6.—The Post's Washington special says the committee on elections have one singular contest before it. A man named McDowell has filed papers to contest the election of Congressman George, of Oregon. It appears he received but four ballots, but claims his constituents were intimidated from voting for him, and that prevented his election. It is shown also that he ran on the ticket for state senator, as well as congressman, spelling his name in various ways. The contest is not regarded as a very serious matter, although the papers have been filed in due form. George will probably not respond.

Prolonged Suicide. WASHINGTON, Jan. 6.—Cheve Ann Violet died to-day, after a fast of 43 days. Her delusion was that God commanded her to commit suicide by fasting.

Osage City, Kan., Jan. 6.—Danford, president of the defunct Caldwell bank, has brought suit for \$100,000 against S. S. Richmond, the leader of the mob which threatened his life.

Exciting Race. VANCEBURG, Ky., Jan. 5.—The steamer Mountain Boy, with Ashland friends aboard, and the steamer Mountain Girl, with 500 determined regulators aboard, had quite an exciting race to-day. Word was received that a train load of lynchers had started for this place, and the sheriff took the crew of the Mountain Girl to get up steam. Before he had sufficient steam the train dashed into the depot with 500 men on board. The sheriff took the prisoners on board the ferry boat and started down the river, while the lynchers boarded the Mountain Girl and started in pursuit and almost overhauled her when met by the steamer Mountain Boy. The prisoners were transferred to her, and she being the faster boat, was soon out of sight.

WANTED. At the Spokan Falls Flouring Mill, WHEAT. We will pay for White Winter Wheat, \$1.50 per 100 lbs. No. 1. Spring Wheat, 1.10 " No. 2 " " 1.05 "

New Presses, New Type, Newest Styles!

THE GREAT CARRIAGE MANUFACTURING HOUSE OF THE WORLD. EMERSON, FISHER & CO., CINCINNATI, OHIO. Top Buggies and Phaetons. Best material, good workmanship, handsome style, strong, durable vehicles in every respect. 70,000 CARRIAGES. Manufactured by EMERSON, FISHER & CO., are now in use in every part of the American Continent.

They give unflinching satisfaction. All their work is warranted. They have received testimonials from all parts of the country of purport similar to the following, hundreds of which are on file, subject to inspection: Messrs. EMERSON, FISHER & Co.: GALL, Ill., July 16, 1878. I have used one of your Top Buggies three years, and three of them two years in my stable, and they have given me perfect satisfaction and are in constant use. G. W. GIBBS, Newberry, S. C., July 11, 1878. Messrs. CORPSEY & JOHNSON: Dear Sirs:—I have been using the Emerson & Fisher Buggy I bought from you as people indicate and myself in the buggy, and it is to-day worth all the money I paid for it. I say the Emerson & Fisher Buggies will do. A. M. LAUGHE, Portland, Me. The favorable reputation the Carriages have made in localities where they have been used for several years by Livermen, Physicians, Farmers and others requiring hard and constant use, has led to an increased demand from those localities, to meet which the manufacturing facilities of their manufacturing establishment have been extended, enabling them to turn out in good style. EMERSON, FISHER & CO.'S CARRIAGES ARE THE BEST

Spokane Times

Newspaper for Spokane County

The readers of THE TIMES are respectfully invited to furnish us with brief notices of public events, deaths, marriages, parties, excursions, accidents, coming events, or any other items which may be of interest to the readers of this paper.

LOCAL INTELLIGENCE

Masonic Lodge meets every third Saturday night of each month.

From Tuesday's Daily

See partnership notice of dissolution and the changing of the Dray and Express advertisement.

The proposition to bring spring water into this city was again laid over till the next regular meeting by the city council last night.

MARRIED.—At the residence of the bride's parents, on Rock Creek, Dec. 27, 1881, by J. W. Range, J. P., Mr. M. Wilkins, Spangle, and Miss Clara M. Wentworth, all of Spokane county.

Having fairly entered into the first month of the new year, we can look back and say the past winter month has truly been one of such a mild nature as to be enjoyable. Present indications are favorable to a pleasant winter.

The patronage at F. M. Dodge's Delmonico Restaurant having increased very materially, he has found it necessary to rent the entire Times Building except that portion occupied by THE TIMES office. His rooms on the second floor will be devoted to accommodations for lodgers.

By reference to our advertising columns it will be seen that Mr. H. O. Brown of this city is dealer in first-class pianos and organs. He has already received some instruments which indicate that he is prepared to furnish only the best in the market. He deals directly with the manufacturers, and is enabled to sell at low rates the best instruments, warranted for five years.

MARBLE QUARRY.—G. W. Dawson is just down from the front and reports the discovery of a rich quarry of an excellent quality of white marble, the largest of which is from 10 to 15 feet in width. It is situated eight miles below Steamboat Landing in Kootenai county, I. T. Mr. George Dawson discovered this claim, and Mr. E. D. Thora discovered another near the Dawson ledge. Marble men pronounce it of a quality equal to any that comes from Portland—the quarry is believed to be almost inexhaustible.

THE PENALTY FOR CRIMINALITY.—Private Henry H. Franklin, Company I, First Cavalry, acting as hospital steward, third class, has been tried at Fort Walla Walla, W. T., by general court-martial for conduct prejudicial to good order and military discipline; the allegation being that he wrote and sent to the editor for publication in the New York Witness of July 21 last, a letter advising all respectable young men to keep out of the army, as it is a world of iniquity, spreading vice and crime all around it; that the men are deep in depravity, vice, degradation and shame; that every precaution is taken to hinder men from attending divine services, the chaplains being worthless men, and that the whole army was rotten to the core. He was found guilty and sentenced by the court to confinement and hard labor in charge of the guard for seven months, and forfeiture of \$10 per month for the same period. Gen. Miles, commanding the department of Columbia, approved the sentence and directed that it be duly executed.

From Wednesday's Daily

The Lakeside Leader, a bright little weekly paper, has been started at Ft. Coeur d'Alene, by Sturtevant & Schew.

Twelve years ago last week the steamer of the O. S. N. Co. plying between Wallula and Celilo "laid up" for the winter. There was no ice in the river, but the reason, as given in the Union of Jan. 1st for drawing off the boats was a "dullness of business in the freight and passenger line." Not so this winter. Although there is no ice in the river, the locomotives and steamboats between Portland and Walla Walla have more grain than they can handle this winter.

A REMINISCENCE, apropos of the present time. On Monday, January 1, 1872, the DAILY COURIER made its first appearance. On the day four persons were at work in the office—L. P. Beach, Jules Dickens, Francis H. Cook and Brad. W. Davis. The first named was laid away in the cemetery near Olympia, scarcely more than a year later. The second also "went over the average," several years ago. F. H. Cook has been connected with several newspapers since that time and is now publishing the SPOKANE TIMES.

From Friday's Daily

Express wagons are numerous. Len Curtis is now conductor on the Northern Pacific train running from Cheney to the front.

Then and Now

In looking over the files of the Union for 1869-70, we find the winter to correspond so far with this one. The record of the month of December showed a mean temperature of 33 1/2 degrees, the coldest being 17 degrees above zero. The Union of January 1st contained this item: "All those who are gifted with second sight have been prophesying that we should have a hard winter, but this far we have had it very fine, not over half an inch of snow at any time, and ice not strong enough for skating for more than a day or two, while for the last week the weather has been warm, dry and pleasant." On the 22d of January, 1870, the Union announced that "the late cold snap has enabled our citizens to fill their ice houses. The ice is not quite four inches thick. There is about four inches of snow in the valley which is the deepest we have had this winter."

MILITARY AND PERSONAL

Lakeside Leader, Coeur d'Alene ] Company "A" placed a new clock in their quarters yesterday evening, the proceeds of an assessment collected by our friend Frank Gray.

The 2d infantry has been highly praised by Brig. Gen. Miles, commanding the department, for their proficiency in the use of the rifle.

A gold regimental medal worth about \$150, is soon to be purchased by the officers of the 2d infantry, to be held by the best shot of the regiment.

A grand party was given at the residence of C. W. Rowell, on Christmas eve. Many invited guests were present and enjoyed a pleasant evening.

A social party was held last evening at the residence of Gen. Wheaton. Capt. A. S. Daggett has returned to his post at Fort Colville.

From Thursday's Daily

Christmas goods are still coming in by mail.

Moacoff offers the Methodist academy \$2,800 and Farmington \$3,000, so it is reported.

Mr. A. J. McLellan and Prof. Grubb are preparing to remove their office to Sprague. These upright gentlemen will be missed from our presence.

The city marshal and his assistant receive, respectively, \$75 and \$40 per month. The former patrols the streets from noon till midnight, the latter, from midnight till noon.

The New York Tribune says: "T. F. Oakes, Vice-President of the Northern Pacific Company, and H. Villard's man of action, has one of the shrewdest heads upon a young pair of shoulders of all the railroad men of the country, and is fast going to the top most of the ladder."

Victor's Floral Guide

This work is before us, and those who send 10 cents to JAMES VICK, Rochester, N. Y., for it will be disappointed. Instead of getting a cheap thing, as the price would seem to indicate, they will receive a very handsome work of 130 pages, and perhaps 1000 illustrations—not cheap, but elegant illustrations on the very best of colored paper, and as a set off to the whole, two beautiful Colored Plates that are worth twice the price of the book.

Nez Percés Industries

The following are the statistics of industry among the Nez Percés at Lapwai reservation, Idaho: The population of the tribe is 1298, comprising 237 farmers. The dwelling place on the reserve comprises 48 frame buildings, 128 log houses, and 72 cloth, 18 skin, and 12 bark lodges. There are 4713 acres in cultivation. Of domestic animals the Indians possess 12,998 horses, 870 cows, 10 oxen, 1000 other cattle, 675 swine, and 1200 domestic fowls. The solitary item under the head of manufactured products is 300 yards of cloth or matting.

Capture of a Big Turtle

The Wilmington Star of North Carolina says: "A gentleman of this city now at May Port, Florida, writing under date of the 20th inst., gives us a description of a monster turtle captured off the entrance of St. John's river on Friday, the 18th inst., by the crew of the schooner Annie E. Stevens, Captain Tico, while lying at anchor waiting for the tide to come in. He weighed between 400 and 500 pounds, and he was six feet in length, two feet six inches in width, and one foot six inches in depth; his fore flippers measured two feet six inches, his hind ones one foot three inches, and his head fourteen inches in length. He was on his back, apparently trying to rid himself of some snakes which had adhered to his shell, and as he drifted by the vessel was shot and stunned and eventually captured by a slip-noose thrown over a fore-flipper, after being shot six times more. His like is said never to have been seen in these parts before. He was sent to Jacksonville and turned over to some scientist there."

The New Market is closed, and yet Wilson & Drumheller continue to sell their excellent beef.

To-Day's News

The city council will hold a regular meeting this evening in Rima's building.

GROVER.—At Fort Walla Walla, Dec. 24, to the wife of Gen. C. Grover, 1st cavalry, a daughter.

The Glad Tidings, the Gospel ship being built at Seattle by Judge Green and others, will be ready for service in a few weeks.

The contract awarded to Messrs. Lynde & Co., on the mountain division of the Northern Pacific, calls for 500,000 ties and 10,000,000 feet of lumber.

The new law regulating divorces and alimony, provides that neither party divorced shall marry within six months from the issuance of the decree, the time allowed for taking an appeal.

We are informed by Postmaster Heath that a postoffice has been established at Ventnor, I.T. This is as it should be. Now we want to see offices established all along the line to the front. Service will probably not be put on between this city and Ventnor for several weeks.

Stocks have been trembling in the New York and Philadelphia markets. On the 20th of Dec. 30,000 shares of Northern Pacific preferred were sold in those markets for from \$77 1/2 to \$78 per share. On the same day O. R. & N. Co. stock sold at \$158 1/2 to \$160. Oregon Transcontinental was quoted at \$80 to \$83.

NOT TIMBER.—It is announced that the Interior department at Washington has decided that Lombardy poplar and balm and cottonwood is not "timber" in the sense that the law relating to timber culture requires. Petitions are being circulated to have the decision amended so as to protect those who have heretofore planted these trees with the belief that they were complying with the law.

The following is a brief summary of the statistics of Yakima county: Total value of property as assessed, \$1,033,469; incumbrances, \$31,578; total amount of taxes, \$15,024.59; amount of real estate in acres, 41,765; number of acres improved, 20,808; value of real estate, \$221,681; value of personal property, \$690,145; number of cattle, 18,720; horses, 4,753; mules, 130; sheep, 7,992; swine, 1,170. There are in the county 8 saw mills, 5 grist mills, 2 quartz mills, 8 threshing machines, 25 reapers and headers, and 100 mowers. There are 15 quartz claims recorded. During 1881, 38 marriage licences were issued in the county.

The surveying parties are being withdrawn from the front, on account of snow and weather. Sheets and Ward's parties arrived here this morning.

Hints for the Month

If it has not been done, have out plenty of manure on the asparagus beds, and scatter all the old sally material you have over the bed, also manure the pie plant roots liberally, as also throw a shovelful around the old plants of raspberry, blackberry, currants, grapes, etc., unless land is rich and such are growing rampant enough. However, if they have borne two or three crops, the manure will help the fruiting another season.

Don't fail to mulch the strawberry beds with coarse material before spring's sudden thawing and freezing come on to them with the feet to mulch can be put on the snow when it is wet or damp.

If snow banks around the fruit trees read around them with the feet to keep mice from working at them under the snow.

Trim trees and plants in open places. Grapevines may also be trimmed now, and the trimmings cut up into cuttings and buried. The same too with currants and gooseberries. Blackberry and red raspberry roots may be dug in open spaces and cut up into small pieces and mixed with sand and put away into the cellar, so they will callous over and be in good condition to plant out by spring.

WEATHER REPORT

SIGNAL SERVICE UNITED STATES ARMY, Division of Telegrams and Reports for the Benefit of Commerce and Agriculture.

Report of observations taken at Spokane Falls, W. T., for the week ending Friday, Jan. 6, 1881:
