Oregonian.) Spokan Falls, Aug. 31,'80. While steamships, locomotives nd street cars add importance to the busy streets of Oregon's metropolis, and men go to and fro amid the din and clatter of city life, does it ever seem possible to you, Mr. Editor, that in a country five hundred miles from the sea, and ninety miles from steamboats and cars, people are happy and prosperous, and

the population increases at a re-markable ratio? Such is the case, nevertheless, in the great Spokan-country. Here we find a happy and contented people, living on the results of toil, busi-

ness sagacity, or the earnings of capital well invested. Immigration is populating the Spokan country faster than any other section of Washington Territory or Oregon; yet there are thousands of acres in this 100x150 country which only await the arrived of claimants. With those who are unacquainted with the Spokan country an erroneous impression prevails. They think this is one vast and timberless plain: but such is not the case. Here we have the greatest variety so far as regards the soil, climate and topography. Immigrants are becoming familiar with this fact, and make thorough examination before settling permanently; and when the immigrant wants to be

satisfied, he will at least - be pleased with some portion of Spokan county. The outlook for the Spokan ountry is very bright. With each succeeding month, new industries spring up; new farms are settled upon; additional capital comes from abroad, and our people and country are carried further along on the pleasant road to prosperity. The national resources of this country are sufficient to induce a large immigration; but the building of the North Pacific railroad; and the building of new military posts, have a tendency to settle up the country with unusual rapidity. We are now in communication with the 'civilized world by telegraph. At present, we have a veekly mail from the south with fair prospects for daily com munication soon. A recently established tri-weekly line of stages between Ainsworth and Spokan Falls carries loaded coaches each way; and daily trips will soon be made between this city and the end of the railroad track. This is a large country, which, in the no distant future, will boast of a dozen ounties instead of three; an inand metropolis, with its thousands of inhabitants; a dense population, similar to that in so

dispute national sovereignty. The Olympia Transcript says:
"Our business men are beginning to think they see a gleam of light this place is full of boulders flash through the gloom that has that render the search very difspread over our country for several years. In conversation with some of the shrewdest of them we learn that they feel as if th crisis had passed and that the entire outlook is brightening We have believed this for som time past, and are but confirmed by closer observation. Yet there is much to be done by our own people to assure that prosperity so devoutly coveted by all. Let each one make it a point to produce, in one way or the other, a little more than is consumed, and the end sought is at once obtained. Let all practice that degree of economy which characterizes prudent persons, and hard times, and the cry of FOR COUNTY SURVEYOF hard times will vanish as mist

National Republican Platform.

The following is the platform passed by the Republican convention held at Chicago.

Republican rule has restored upon a sol-Republicant rule has restored upon a solu-ib basis payment in coin, for all the nation-al obligations, and has given us a curren-cy absolutely good and legal and equal in every part of our extended country. It has lifted the credit of the nation from the point where 6 per cent, bonds sold at 86, point where 6 per cent. bonds sold at 86, to that where 4 per cent. bonds are cagerly sought at a premium. Under its administration railways have increased from 81,000 miles in 1880, to more than 82,000 miles in 1880, to more than 82,000 miles in 1879. Our foreign trade has increased from \$700,000,000 to \$1,150,000,000 in the same time, and our exports, which were \$20,000,000 less than our exports in 1.850 were \$20,000,000 less. ports in 1860, were \$264,000,000 mor ban our imports in 1879.

Without resorting to loans it has, since he war closed, defrayed the ordinary exthe war closed, defrayed the ordinary expenses of the government, besides the accruing interest on the public debt.and disbursed annually more than \$30,000,000 for soldiers' pensions. It has paid \$890,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly \$151,000,000 all the shanness of the country have revived, labor is in demand, wages have increased and throughout the entire country there is evidence of a coming prosperity greater than we ever enjoyed.
