SHEEP RAISING.

Upon this important branch of industry the Walla Walla Statesman publishes an article which we copy below and which contains suggestions that are valuable to the farmer of this section.

"As paving the way to the erection of a woolen factory, an enterprise which by the way is only a matter of time, our farmers should give increased attention to the raising of sheep and wool.

Each would be better for the presence of the other, and both moving along harmoniously would greatly tend to remove the shameful indifference which prevails in this community on the subject of school improvement and general education.

EDUCATION.

ATTEMPTED SWINDLE.

It appears that a gentleman from the lower country shipped a drove of hogs, giving their number as one hundred and eighty. At the portage of the Cascades the fraud was easily detected.

CLARKE COUNTY WOOLEN MANUFACTURING CO.

This is the corporate name of a company, which filed their articles of incorporation in the Auditor's office of Clarke County on March 15th.

ACCIDENT.

On Thursday, the 14th ult., says the Corvallis Gazette, a daughter of John Lawrence, aged nine years, met with an accident that proved fatal.

DISASTER AT CAPE GREGORY.

From a private letter from Cape Gregory, mouth of the Umpqua river, we learn that on the 19th of February the schooner Yaguna, Capt. Jackson, from Crescent City, ran in under the lee of the island and hoisted her colors.

UNION CONVENTION.

The Union voters of Clarke County are requested to meet in their respective precincts on Saturday, March 30th 1867.

To elect delegates to represent them in a County Convention to be held at Vancouver, on Monday April 8th, 1867, at 10 o'clock A. M.

The several precincts are entitled to Delegates as follows: Vancouver, 10; Lakemont, 3; Washington, 3; Preston, 3; Paterson, 3; Pollock, 3; Leavenworth, 3; Fern Prairie, 3.

H. COCHRAN, Chairman of Clarke Co. Union Central Com.

S. R. WHIFFLE, J. COM. S. W. BROWN, J. COM.

The communication from a farmer on the diseases of sheep is unavoidably crowded out but will appear next week.

Washington Territory Items.

A SHOOTING AFFAIR.—Our usually quiet citizens were treated to a shooting affair, on Wednesday morning last, but no serious damage resulted, however.

Messrs. Phillips & Co. have completed the erection of their new foundry and machine shop, located at the lower end of Main street.

The price or rate of license for hardy gurdy fandango or dance-houses, in Walla Walla have been fixed at one thousand dollars per quarter or three hundred and thirty three dollars per month.—Id.

The ship Mary Glover went ashore near Squim Bay, on Sunday night last, during a heavy snow storm, but was got off without any serious damage.

A correspondent writes us from Chehalis Point, stating that about the 1st of February, ult., a top sail schooner drifted ashore above the mouth of Quinault river, badly wrecked.

THE "NEW WORLD."—This magnificent steamer arrived at her wharf on Saturday afternoon last, after an extraordinary short run from the Columbia river.

CLARKE COUNTY WOOLEN MANUFACTURING CO.—This is the corporate name of a company, which filed their articles of incorporation in the Auditor's office of Clarke County on March 15th.

ACCIDENT.—On Thursday, the 14th ult., says the Corvallis Gazette, a daughter of John Lawrence, aged nine years, met with an accident that proved fatal.

DISASTER AT CAPE GREGORY.—From a private letter from Cape Gregory, mouth of the Umpqua river, we learn that on the 19th of February the schooner Yaguna, Capt. Jackson, from Crescent City, ran in under the lee of the island and hoisted her colors.

ANOTHER CONVENTION.—We are furnished by our old ubiquitous friend Shandy with the proceedings of a Convention, which was held last week for the purpose of nominating a candidate for the office of County Auditor.

FIRE INSURANCE.—In our columns this week appears the advertisement of the Phoenix Insurance Co., who have recently established an agency at this place and have appointed Jos. M. Fletcher, Esq., as their agent.

AGROUND.—The waters of the "Creek" have again receded and consequently the steamers Ajax and Idaho ran aground on Swan Island and stuck for several hours.

A general Court Martial has been ordered to convene at Fort Steilacoom next week for the trial of general prisoners.

UNION CONVENTION.—The Union Central Committee of this county, have appointed the primary election to be held on March 30th and the County Convention is to meet on Monday the 8th day of April.

[From dispatches to the Daily Oregonian.]

WASHINGTON, March 10th.—Senator Wilson's bill supplementary to an act to provide for the more efficient government of the rebel States by providing for the registration of every voter in each military district, through the military commander, also provides for calling Constitutional conventions and for the arrangements preparatory to the admission of representatives from the Southern States.

The French minister under date of Paris, Feb. 19th, writes to Secretary Seward expressing good feeling towards the United States. The following is the translation of the dispatch relating to Mexico:

"We need not recur at this time to the necessity which led us to undertake the expedition to Mexico. We sought redress for grievances of every description, and injustice from which our people had suffered many years, and animated by that generous sentiment which will always induce France to render her intervention useful when she shall be led to carry her arms into a foreign country, we did not refuse terms by which all interests would have profited; but in lending co-operation to the work of government, the Emperor had assigned before hand limits to its success.

New York, March 10th.—The Fenian excitement is unabated. Numerous donations have been accepted, but owing to the largeness of the funds hundreds who offered to volunteer have been refused.

Senator Wilson's propositions about the reconstruction act have been approved by the Judiciary Committee of both houses, and the bill will probably pass.

A prominent Senator has real positive information from three Southern States that they will immediately proceed to organize State governments under the new act, and it is confidently asserted that all the Southern States will be re-organized under its provisions and be admitted to their former relations by the 1st of July, 1868.

Accounts from Alabama and Georgia represent the destitution of the people as greater than heretofore stated. Deaths from starvation are reported in Alabama, while a leading paper in Georgia estimates the total number of the starving at 50,000.

A. F. Leo, the Treasury clerk who absconded with \$18,000 in treasury bonds, has been brought to Washington and made a full confession, avowing that the theft was not premeditated, but that he committed it while drinking. All the money has been recovered except \$900.

Senator Morton, of Indiana, in a speech last night in response to a resolution, spoken in favor of the military reconstruction act.

Speaker Colfax, upon being called for, endorsed what Senator Morton had said about reconstruction. Congress had opened a door to restore the Southern States civil and political power, but congress had said to them, "you shall come back clothed in new robes of liberty and justice. You shall be led by faithful men into the Union which was denied in the fancied reconstruction of a miserable confederacy."

A special dispatch from New Orleans to the Herald, says that the Louisiana House of Representatives concurred in the senate resolution appointing a committee to protest against the reconstruction act.

New Orleans, March 10th.—Trouble being apprehended in case the Municipal election is allowed to be held on Monday, General Sheridan has issued orders that no polls be opened, and that the day of the election be postponed till a district commander, under the law, be appointed, or till special instructions be received concerning the case.

New York, March 11th.—The Tribune and Times' special dispatch says that the municipal election is the supposed immediate cause of there being a conflict between municipal and State authorities.

Later.—Since the above information was received, Gen. Sheridan has issued orders that no polls be opened, and that the election be postponed until a military commander is appointed, or special instructions received. Gen. Sheridan has four regiments and two bat-

teries, and a battalion of cavalry in the city, with Gen. Baldy Smith, Mower and Kautz. The Judiciary Committee of the house will tomorrow introduce a bill to provide for enforcement of the reconstruction law in the South, designating who shall call the election, and providing for a general registration of voters and issuing certificates of election.

Europe.—The steamer Africa, from Southampton, has arrived. In the House of Lords Feb. 25, Lord Derby moved the second reading of the bill to continue the suspension of the Habeas corpus in Ireland.

Two Irish-American Fenians were arrested on board a vessel from Cardiff, at Cork. Both were recently at Chester.

The Rev. Sydney Smith observes that "the real object of education is to give children resources that will endure as long as life endures; habits that time will ameliorate, not destroy; occupations that will render sickness tolerable, solitude pleasant, age venerable, life more dignified and useful, and death less terrible."

There are at this time, over seven hundred patients in the Stockton Insane Asylum, the greatest number ever in that institution, and an increase of seventy or eighty over last year.

HEALTH OF WOMEN.—It is estimated that the health of American women has improved 25 per cent since they commenced wearing thick shoes and warm under-clothing.

Russia is rapidly extending her territorial limits over Asia, and is quietly but firmly absorbing many of the hitherto independent provinces of the central portions of that continent.

The eight on flour from San Francisco to New York, via Panama, is about three dollars per barrel. Wheat, in sacks, about one and a half cents per pound.

A Frenchman, who has been in India speaking of tiger hunts, pleasantly remarks "When a Frenchman hunts a tiger, and he sports grand, magnificent! but, when he tigers hunt a Frenchman, out! zero is deo! to pay!"

An absent minded professor going out of the gateway of his college, ran against a cow. In the confusion of the moment, he raised his hat and exclaimed, "I beg your pardon ma'am." Soon after he stumbled against a lady in the street; in sudden recollection of his former mishap, he called out, "is that you again, you brute?"

A stray contraband from down South was lately inspecting a horse power in operation, when he broke out thus: "I've seen traps of things in my life, but I never before saw a horse do his own work and ride too."

THE FIRST FORGERY OF BANK NOTES.—The Bank of England had been established for sixty-six years without an attempt at the forgery of its notes, when Richard Vaughan, a non draper, of Stafford, took it into his head in 1788 to counterfeit the bank paper.

There will be a Mass Meeting of the Friends of Ireland at Metropolitan Hall, on Wednesday evening, March 20th, for the purpose of redeeming that oppressed country from the bondage of British tyranny.

YOUNG AMERICA. SPECIAL NOTICE. This is to notify all persons indebted to me, that I have closed up all book accounts and must insist upon the payment of the several accounts due me before the 15th day of March A. D. 1867. All accounts unpaid at that time, will be advertised and sold publicly to the highest bidder for cash. P. O'BRIEN, Vancouver, Feb. 16, 1867.

**Good Matters.**  
Ratonsa Nerve.—There will be services at the M. E. Church next Sabbath, at 11 o'clock a. m., Rev. O. S. Framboe, or Rev. T. A. Wood, of Portland officiating.

**Fire.**—On Saturday night last Mr. Love's saw-mill below town was discovered to be on fire. The alarm was immediately given and the Fire Department turned out promptly and soon succeeded in the extinguishment of the fire. The damage was not very great. The fire was undoubtedly the work of an incendiary, the mill not having been occupied or used for some time past. In this connection we may state, that we have been requested by Mr. Love, the proprietor, to return his sincere thanks to the Fire Department and to the citizens generally for their efforts to preserve his property from destruction.

**Cemetery.**—General Elliot, commanding the post, has detailed a squad of men under his command to improve the cemetery. The work is being trimmed neatly, the undergrowth cut out, shrubbery planted, convenient walks and graveled paths laid out and many other improvements are made, which greatly adorn and beautify the place. The work is being done under the supervision of a practical and experienced man, who exhibits a great deal of taste and judgment in the work.

**Gay and Festive.**—We are informed that no less than 68 prisoners are now confined at the guard-house at this post charged with the commission of various offenses. This number comprises nearly one-half of the number of soldiers stationed at this post. They are kept at labor, but it seems that they are not very well satisfied with their condition, a majority of them having reported themselves sick and unable to do work. The Doctor however, couldn't see it in that light, but recommended them to the guard house.

**County Commissioners Court.**—This body held a special session last week. Sheriff Now presented a new bond in the sum of five thousand dollars, with J. Lovelace, C. G. Siles and John Powell as sureties, which bond was duly approved by the board. The county was divided into convenient road districts each district to be under the charge of a road Supervisor to be elected by the people in April next. The road districts as divided now are the same that existed in 1864, and prior to the passage of the law consolidating the county into one district under general charge of one superintendent. The re-establishment of the old law seems to meet the approval of everybody.

**Private School.**—Messrs. Spink and Hathaway, who have been teaching the public school for some time past contemplate opening a private school in a few weeks. The gentlemen seem to have given general satisfaction in the management of the public school and are therefore deserving of the patronage of the public generally. See their advertisement in another column.

**Returned.**—Captain Eckerson, A. Q. M., who for some time past has been stationed at Fort Boise, returned on Wednesday to his old home at Vancouver. The Captain and his lady have many warm friends residing here, who gladly greet their return.

**District Court.**—Owing to the indisposition of Judge Hewitt but little business was transacted at Court. The Grand Jury was empanelled on Tuesday and is busy at work. The Petit Jury was discharged until Tuesday next, with the view of making up the issues in the several cases by that time.

**To Prison.**—A lot of military prisoners who were lately convicted of military offenses and sentenced to hard labor upon the fortifications, were yesterday sent to Fort Stevens in the charge of an officer, to work out their sentence.

**Admitted.**—On Wednesday last, Messrs. Lafayette Lane, W. Laswell and J. C. Moreland, were admitted to practice as Attorneys at law by the District Court now in session, after having been duly examined under the direction of the court touching their qualifications for legal learning and ability.

**Indicted.**—The Grand Jury on Thursday returned into Court an indictment against the notorious Tom Wilson for highway robbery. He will be probably put on trial some time next week.

**Thief.**—This neighborhood seems to be infested with a band of organized thieves. Complaints reach our ears almost daily concerning petty depredations and thefts committed in the vicinity. Some of the officers are on the look-out and it is more than likely that some of them will be caught.

**Race.**—Our readers will bear in mind, that the horse race will come off this (Saturday) afternoon at the Fourth Plain race track.

**PROPOSALS.**  
OFFICE DEPUTY CHIEF ENGINEER,  
Fort Vancouver, W. T., March 15, 1867.

Farm and Household

A Hint in Breeding.—Mr. Torr, the well known breeder of Short Horn cattle and Leicester sheep, in the course of some remarks at the recent meeting of the latter, touching of breeding in general, said: "The way to establish uniform likeness is to begin by putting the best female, and to continue to put the best;" secondly, "not to put opposite characters together, or traits of both will be lost; but if any fresh characteristic is required to be imparted to the issue of present stock animals, this must be done by degrees, or by that discreet selection which will yield a little more wool, or size and substance, the first year, and a little more and more in the second and third generations, and so on."

Farmers at the North often complain seriously that the seasons are too short for the execution of all their work and the ripening of their crops. A cure for this evil has been found in under draining. Instead of waiting several weeks for the soil to become dry they are enabled to plow well drained land at once, to take time by the furrow, and to get through the work without hurrying, before others have begun. It also enables them to work more economically by not being required to hire extra labor in a hurried season. Dry lands being less liable to frost in autumn, the crops may continue to grow later. The editor of the New England Farmer estimates, from his own experiments, that he has lengthened the season five weeks.—Rural Annual.

CAUTION FOR FRUIT TREES.—A gentleman of this city was lately in Saratoga county, and was there shown an apple tree in fine healthy condition, which had been ill, subjected to treatment with calomel, and thoroughly cured. The tree was afflicted with insects, which were destroying it, and rendering it unproductive. A hole was bored into the body of the tree, nearly through the sap, and two grains of calomel inserted. As soon as the calomel was taken by the sap, the vermin on the tree died, and it began to bear fruit, and has done so for three years, to the entire satisfaction of the owner. We are told that sulphur may be mixed with the calomel with good effect. It may not be new to them, but it is new to us, Homopaths and treatment may object to the calomel method, but if they do not like it, they may find among the sugar pills of lobelia and red pepper a substitute.

THE HOUR OF DEPARTURE.—The hour is coming, and it is a fearful and solemn hour, even to the wisest and best—the hour is coming when we must bid adieu to the scenes which please us, to the families we love, to the friends we esteem. Whether we think or whether we do not, this body which is now warm and active with life, shall be cold and motionless with death. The countenance will be pale, the eye must be closed, the voice must be silenced, the senses must be destroyed, the whole appearance must be changed by the remorseless hand of our last enemy. We may banish the remembrance of the weakness of our human nature, but our reluctance to reflect upon it, and our attempts to drive it from our recollection, are in vain. We know that we are sentenced to die, and though we may succeed in casting off for a season the conviction of this unwelcome truth, we can never entirely remove it. The reflection haunts us in solitude, or follows us into society; it lies down with us at night, it awakens with us in the morning. The irreparable doom has passed upon us, and too well do we know it: "Dust thou art and unto dust thou shalt return."

MEAT AT BREAKFAST.—A recent writer expresses his belief that meat should be taken for the morning meal, and that gives his reasons: It may not be digested as quickly as some starch substance, but, as a rule, it is digested easily, and it certainly satisfies the system, and carries us farther in our work than vegetables alone. At this time meat should be taken in a palatable and easily digested form—stewed, with the nutriment judiciously saved in the sauces, and the aromatic principles developed by the heat; or better than all, broiled, for here the juices are retained in the essence, and the flavor is developed by the hardening and caramelization, as it were of the exterior. Above all avoid the abomination of frying fresh meat, not alone as a matter of taste, but as a violation of scientific laws. A fresh animal tissue, which has soaked up a mass of seething fat, is not in a proper condition to be taken into the system. Salted articles, which are generally as hardened that they will not readily absorb the fat, as fish, and articles which are exposed but a short time to a very high temperature to which all fried articles subjected, may be cooked in this way, but never good fresh beef.

VALUE OF OLD ROPE.—Among the numerous worn out and often considered worthless materials, which the ingenuity of man has discovered means of re-manufacturing, and rendering of equal value with the original substance, are old tarred ropes, which have long been in use at the coal pits. Our readers will be surprised when we inform them that out of this dirty and apparently unbleachable substance is produced a tissue paper of the most beautiful fabric, even of surface and delicacy of color, a team of which, with wrappings and strings, weighs two and a half pounds. It is principally used in the potteries for transferring the various patterns to the earthenware, and is found superior to any substance yet known for that purpose. It is so tenacious that a sheet of it twisted by the hand in the form of a rope will support upward of one hundred weight. Truly we live in an age of invention.

Give your children plenty of fresh air. Let them snuff it up until it sends the very current of life dancing joyfully to the temples. Air is so cheap and good, and so necessary, that every child should have free access to it. To put children on a short allowance of fresh air is as foolish as it would have been for Noah, during the deluge, to have put his family on a short allowance of water.

TO EXTRACT GREASE FROM CLOTH.—The cheapest and most effectual preparation for extracting grease from cloth may be made of one part of liquid ammonia and four parts of alcohol mixed with an equal quantity of water. If kept on hand, it should be placed in a glass-stoppered bottle, and with a piece of sponge, soaking the cloth thoroughly when the grease has remained any considerable time in the fabric.

TO CLEAN A HAIR BRUSH.—Put a tablespoonful of spirits of hartshorn in a pint of water and wash the brush in it. It will very quickly make the brush clean as new.

"Robinson Crusoe," the title of a new three act opera, is about to be produced in Paris.

FLORENCE SEWING MACHINE COMPANY, Y.

Florence, - Massachusetts, MANUFACTURERS OF THE CELEBRATED REVERSIBLE FEED SEWING MACHINES! Making Four Distinct Nitches. WHILE a large number of Machines have been offered to the Public, some of which possess points of excellence and acknowledged merit, we have long felt that others have experienced, the use of a Machine more perfect in its mechanical structure, combining in the highest degree simplicity with durability, and while capable of doing a greater range of work, one that could be easily understood and comprehended by all. To supply a Sewing Machine free from the objections attaching to others, has been our aim; for we had not only to surmount others as they appeared years ago, but also to improve from time to time, by more recent experience. This we claim has been accomplished by the liberal expenditure of capital, and the patient, untiring labor of years; and in presenting our Machine to the public, we shall make strong assertions respecting its merits, which are prepared to substantiate in every particular. Discarding the Chain and Loop, or Knit-stitches, we adopt the Lock Stitch, (also on both sides of the fabric,) which is regarded by the masses as best suited to all kinds of work. But to meet other objections urged against this favorite stitch, we have added the Foot, Double Lock and Double Foot, either of which is stronger and more elastic than the Lock; thus enabling the operator to select a stitch perfectly suited to every grade of fabric, and where necessary very strong much stronger than it is possible to do by hand. The FLORENCE makes four different stitches with as much ease as ordinary Machines make one, and with as little machinery. The results of repeated tests has been all we could desire, and from its first introduction the FLORENCE has gained the hearts of friends, and been regarded a household necessity; proving that the public fully appreciate the utility, beauty, and economy combined in the FLORENCE Machine. We claim for the FLORENCE the following advantages over any and all Sewing Machines: 1st—It makes four different stitches, Lock, Knit, Double Lock, and Double Foot, on one and the same Machine. Each stitch being alike on both sides of the fabric. 2d—It makes the work finer, and the fabric stronger and more elastic than the Lock; thus enabling the operator to select a stitch perfectly suited to every grade of fabric, and where necessary very strong much stronger than it is possible to do by hand. 3d—Changing the length of stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion. 4th—It is almost noiseless, and can be used where quiet is necessary. 5th—Its motions are all positive; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it. 6th—It does not require finer thread on the under than the upper side, and will sew across the hardest seams, of needle, thread, or breaking thread. 7th—The hammer is easily adjusted and will turn any width of hem desired. 8th—No other Machine will do so great a range of work as the FLORENCE. 9th—It will sew, gather, fall, bind, brood, quilt, and gather and sew on a ruff at the same time. The taking up of the slack thread is not performed by the irregular contraction of a wire cord or uncertain operation of wire levers. The precision and accuracy with which the FLORENCE draws the thread into the fabric, is unexcelled in any Sewing Machine hitherto offered in the market. We furnish each Machine with "Boswell's Self Sewer," which guides the work itself, and is of incalculable value, especially to inexperienced operators. 10th—It is fully protected and licensed by Elias Howe, Jr., and his associates, and our own Letters Patent. While possessing the above and many other advantages, the Florence is sold at corresponding prices with other first class Machines, and a careful examination will fully substantiate all that we have claimed for it, and justify the assertion we now make, that it is the best Sewing Machine in the world. We warrant every Machine to be all that we claim for it, and will give a written warranty. Further reference may be had by addressing J. L. FARRIS & Co., 14 Agents, Portland, Oregon. PROVIDENCE SCHOOL For Young Ladies, CONDUCTED BY THE SISTERS OF CHARITY, VANCOUVER, W. T.

THIS INSTITUTION, which was commenced in the year 1864, is delightfully situated at Vancouver, on the north bank of the Columbia river. The beauty of the surrounding scenery, and the salubrity of the place cannot be surpassed. The course of studies embraces the various branches of a solid and useful education, and a particular attention is given to form the pupils to household duties and plain and fancy needle work. Parents may rest assured that every care will be paid to the comfort of the young ladies placed at this institution, whilst no pains will be spared to inculcate in them those principles of virtue which alone render education profitable. No undue influence will be exerted over the religious opinions of the pupils; however, for the maintenance of good order, all are required to conform to the external discipline of the house. TERMS FOR BOARDERS: For Board and Tuition, per quarter of 11 weeks, \$40 For Washing, " " 10 For Music and use of Instrument, " " 12 For French, " " 5 For Board during vacation, " " 25 For Washing, " " 10 TERMS FOR DAY SCHOLARS: Per quarter, " " \$5 Payment to be made invariably quarterly in advance. Books, stationery, books and building will form extra charges. Each pupil must be provided with a white muslin and a sky blue de laise dress. Also, with six changes, and a sufficient number of pairs of shoes. The blue de laise to be secured at the establishment. No absence is allowed during the year, except in case of personal illness. Pupils Orphanes from Washington are admitted free. The above institutions are entirely independent of each other. 1-1f

GOOD GRUB AND PLENTY OF IT AT THE BENNETT HOUSE, SALEM, OREGON. L. JAY S. TURNER.

HAVING leased the above named Hotel, is prepared to accommodate the traveling public, in a superior manner, in good style, as my House is the best in the city, and is well situated for business, and as the best and better than any public house in the city. He will soon complete some important improvements, which will add greatly to its appearance and comfort, and intends to remodel and renovate his establishment. He has secured the services of "Charles" (known to be the best cook in Salem, and one of the best in the whole country) and other competent persons to manage the culinary department, and is resolved to set as good a table as can be found anywhere—not in a cheap, pomp and circumstance, but in an abundant supply of the very best market affords. His Bar-room will be kept warm and lighted, and well supplied with newspapers, periodicals and other suitable reading matter, and kept in a manner which will make an agreeable resort. In short, he intends making an effort to please and who stop at the Bennett House. And he most respectfully requests his friends everywhere to give the old and well known stand at least one more trial before concluding they can do as well elsewhere, and promise if they are not well treated, and properly cared for, and of reasonable prices, it will not be the fault of the public's most obedient and most humble servant, L. JAY S. TURNER. N. B.—Furnished rooms, with or without board, by the day, week or month, at the Bennett, charges moderate. L. J. S. Salem, Oregon, Nov
