FELLAW CITIERS:—As I have but a few days ago just escaped murder by the hands o a set of cold-blooded assassins, prompted solely by the blackest malice, and egged on by a few superiscipled designing demanques, who, it seems, step at nothing is order to ob-tain political power and place, and who have in the last extremity sought assessination as a means is destroy the vote and influence of one who is openly opposed to their corrupt and selfah political schemes, and who had the minity sources to boildly declare his inolely by the blackest malice, and egged tention to cast his vote and influence in favor of what he believed to be just and right, and for the man who in his opinion had more ability, and could exact more influence of Congress for the good of this. Territory than any other more in ft.

I believe the fundamental priceiples of Democracy to be right, but the party in this county at this time is controled and led by to be a men who are willing to specifie to be in the rest of he men who are willing to specifie grandinesses, and it does seem to me that man of the Democrata in Oregon, and escaledly the capitalists of Portland, are taking of the property seems in the canvass that any previous election held in this Territory. Indeport I would sik why is it? It it is any swered purely upon the score of Democracy I would then ask why those same why those amag inflivingle were so over an rivel to se-our the nomination of Mr. Moore, and why such Each as Latenster, Mediaddee and other sterling Damourate were asked to take back costs? To me the reasons are too plain to need sections. In order to show that I have cases to believe that there was a com-on formed, and that my destruction cameditated, I will mention two signifihis immediate allies, were all armed for the pocasion, and not one of the clique or class who med in becret midnight conclave and ar-maged the Democratic ficket in this county,

him it may seem best, and all who condemn the present course of my political enemies, to do so at the polls on Monday next in a magner shast will not soon be forgotten.

And last of all I would say, if I kney I could not live to know the result of the com-ing station, I would say to my soon, Triends and fellow citizens at large, vote for Salusius Garfields for Delegate to Congress, and could die with a clear c

"RALLY 'ROUND THE PLAG, BOYS !"

HON. J. H. MITCHELL will address the citizens of Clarke County, at Brant's Hall, on Saturday. June 5th, at 7½ r. m., Mr., Mitchell's reputation as a political

speaker is to wide to require any commenda-tion at our hands; his identification with the East side Railrord Company, and familiarity with its business, renders him fully compa-tent to account for the unusual solicitude exwith its business, renders in think compatent to account for the unusual silicitude exhibited by the combination of Portland capdealists in the result of the coming election
for Delegate to Congress. He is a man who
rises above the petty jealousies of rival towns
and looks to a general prosperity for his reward inetsed to the building up of one locality
at the expense of every other. His enlarged,
statesmanlike views will form a striking contrast to the shallow sophistries with which
the Democratic speekers from Oregon have
attempted to cajof the people into voting for
the signet of a grasping moniad aristocracy
who are intempting to monopolite the trade
of the whole northwest. Go and hear him,
and if he doesn't tell you that you are barering away your last hope for material salvation by voting for Moore, then we'll with
hold any further opposition to his election.

The Herald praises Moore for his war-

The Herald praises Moore for his war record, and finds fault with Garfields for being a secessionist. This is a left-handed compliment to those " seconds" who are called upon to shun a man like themselves, and vote for one of those whom they have denominated " Lincoln's hirelings."

GREAT SALT LARS CITY, UTAR, Jan. 28th, 1868.

Mr. H. T. HEMBOLD : Dear Sir: Tour communication requesting our terms of advertising was duly received, but from a prejudice I had farmed against advertising cares for secret disease. It was left unhanswered. Buring anacquicus essention in a Drug Stots the other evening, my mind was changed on the character of your Bucous. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of secretary for the form of the communication of

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Order for their health, experienced and witnessed many surprising and buseficial effects of the Rum there produced upon many of the invalids who were (Ries ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture. and sell it in the United States. The result of his labors was a glorious su the celebrated PLANTATION BITTERS was thus made known to the world. the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply. Motwithstanding the large importation of St. Croix Rum, made expressly for the or pounding of these Bitters, the quantity was inadequate. It therefore became necessar that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utberly "automished the natives." The services of experienced men and natives of the Island were procured, and very soon the proprietors of the FLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Rum needed in manufac-turing the GREAT DYSPEPTIC TONIC AND INVIGORATOR.
