TURN THEM OFF.
(From the Salem Citizen.)
The Federal office-holders of Washington Territory without a single exception, as far as we have learned, did everything in their power to defeat Mr. Garfield. Their ostensible objection to the Republican candidate was his political record, which is consistency and purity when compared with the timeserving court of subsidized knaves who opposed him.

A FARE FOR THE BIRD.—The following article, taken from the Baltimore Sun, was commended to the especial attention of those who, in their great love of sport, deem everything with feathers "fair game." It is a large or small?—We think it would be conducive to the benefit of the entire community, if the country press throughout the State would unite in condemning this practice of shooting small birds.

Bishop Morris appears to be a man of refinement, yet not aristocratic; dignified, yet not overbearing—a man of energy and business tact, and devoted to, and well qualified for, his laboratory work.

The Bishop, as a hearing school for girls in Portland. The "Bishop School property" has been purchased for the school and the Bishop's residence.

Experienced teachers were secured in the East, and accompanied the Bishop to Portland. The school property on the corner of the best on the coast.

The Bishop is also interested in Parish schools within his jurisdiction, and will aid them as far as he can.

We learn that he has promised to make the Parish school of St. Luke's Church. E. indicates that they may congratulate themselves that they have a shepherd so competent to lead that flock.

Before the City Council, last meeting, an effort was made by Mr. Wintler to get a bill passed to stop the city from taking water into the cisterns, after the city had been in the expense of laying them.

This was probably done out of private spite. The Company, seeing the action of the City Council, and not being patronized, as they ought to be, by private citizens, have concluded to lay on more pipe, and to fill up the ditch already dug.

Whenever upon improvements for the public benefit and health, ought to be turned with that dead Indian, whose eyes, lately exhumed, are a fit type of the society in which they are fit to live.

It is reported in Vancouver that J. D. Putter of that place has been appointed Chief Justice of Washington Territory, vice Dennison, removed.—Oregonian

EXEMPT FROM EXECUTION!!!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates are required for transferring cash to Europe.

Thirty days usually sufficient to pay all premiums.

After two annual payments the Company will, two years after the last payment, issue a paid up Policy for the proportion of the Premiums received, or pay the equivalent in cash.

The rate at which we have been sending money here for Life Assurance will amount with interest to at least Ten Million Dollars by January 1, 1870. This sum, as shown in our prospectus, is being equipped by the stockholders of the company.

Of this large sum it is estimated that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash.

If California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.
