Dallas City, Oregon, February 22d/1867. 10-ly

## How Old Art Thou?

By things that fall away and die; By sickled fields of autumn prime, Summer's last bloom, or winter's sky.

Age, from its span, its gliding takes. The cheek forgets its rosy glow, The form its grace, the hair its hue, The brow its beauty—let it go.

But the true heart can ne'er grow old; Its eyes are bright when youth has fled; Its ear is never dull to sound; Its lips can speak though speech be dead.

By prayer, by alms, by written pages, By planting words of holy trust, It quickeneth love from age to age, It liveth when the frame is dust.

So count thou not thy age by years, Or smiles of fortune's fickle ray, Nor say how old thou art in years Of waste, and folly, and decay.

But ever with a steadfast eye On him from whom thy life proceeds, Nor seek to change the order of thy soul, And tell thy elder by deeds.

## Idleness.

Idleness is the nurse of all vices. It moves so slowly that they all overtake it. The Germans and Italians say, proverbially, that "Idleness is the Devil's pillow." Some affect to excuse this hydra-headed habit by asking what harm can a person do when he does nothing? The reply is ready and plain: "He who is passive in allowing decay is himself a destroyer." While standing still and refusing to help, he obstructs the progress of others. We are told in holy writ: "By much slothfulness the building decayeth and through idleness of the hands the house droppeth through." And again it is said: "I went to the field of the slothful and by the man I found he was asleep. He was standing with thorns and nettles which covered the face thereof, and the stone wall thereof was broken down." The words of Cato, the elder, are in the proverb, that "he who does nothing learns to do evil." Idleness has been described to be a moral leprosy, which soon eats its way into the heart and corrodes our happiness, while it undermines our health. Idleness is costly, without being a luxury. Montaigne always would reckon the year's account of his expenses with the following entry: "Item—for my abominable habit of idleness, a thousand lives." We toil for leisure only to discover, when we have succeeded in our object, that leisure is a great evil. How quickly would the working class be reconciled to what they may call hardships of compulsory idleness. They would quickly find that it is much better to wear out than to rust out. The idle man is at mercy of all vices. The working man on the contrary, finds a safeguard against all dangers of temptation, and temptations nor desire to yield to them. It was well said, by the oldest of the Greek poets, that "the laborer is the sentinel of virtue."

HITS TO HUSBANDS.—Do not jest with your wife upon a subject in which there is danger of wounding her feelings. Remember that she treasures every word you utter, though you may never think of them again. Do not speak of some virtue in another man's wife to remind your own of a fault. Do not reproach your wife with a personal defect, for if she has sensibility, you inflict a wound difficult to heal. Do not treat your wife with inattention in company; it touches her pride, and she will not respect you more, or love you any the better for it. Do not upbraid your wife in the presence of a third person. The sense of disregard for feeling will prevent her from acknowledging her fault. Do not entertain your wife with prating the beauty and accomplishments of other women. Do not, too often, invite your friends out to ride for the sake of your wife at home. She might suspect that you esteem other more companionable than herself. If you have a pleasant home and a cheerful wife, pass your evenings under your roof. Do not be stern and silent in your own house, and remark upon her conduct elsewhere. Remember that your wife has as much need of recreation as yourself, and devote a portion, at least, of your leisure hours to such society and amusements as may join. By so doing, you will secure and increase her affection. Do not, by being too exact in pecuniary matters, make your wife feel her dependence on your bounty. Remember that her dignity of character, and does not increase her esteem for you. If she is a sensible woman, she would be acquainted with your business, and know your income, that she may regulate her household accordingly. Be it remembered that pecuniary affairs cause more difficulties than any other cause. Your wife has an equal right with yourself to all your possessions in the world; therefore she should be made acquainted with that which is of great importance to both.

A MINE'S LOCK.—The St. Paul Press notices the arrival in Montana of Mr. J. B. Getchell, for 12 years a resident of St. Cloud, Minn., who has been in the gold fields of Montana for two years past. Up to last September he had not made a dollar. Becoming discouraged finally, he decided to work one more day and if unsuccessful he struck that mine's lock in pocket, which is a small cavity in a rock where the metal finds a solid base to check its downward flow. Here to utter astonishment, he found a large quantity of the pure metal deposited in "chunks." There was scarcely \$5 worth of dust in the whole pocket, but the quantity of the pure metal was very large. He immediately removed all the gold to safe quarters and continued his examination. Seeing no further evidence of gold he pulled up stakes and started home, coming by way of the Missouri River. He expressed the main bulk of his gold to the mint at Philadelphia, to have it assayed and coined. They have notified him that it will yield him \$90,000. He has some handsomely mounted with him. One of them weighs 13 ozs., and is almost pure gold. The chunk alone is worth \$240. It is a rough, irregular formed fragment, and looks as though it had been in a molten state and had run into a fissure and then cooled.

ANOTHER BLAZE.—Wendell Phillips is after Congress with his usual discipline, and gives them an awful blasting and does not forget Johnson either. He says the Fortieth Congress was elected expressly to impeach Johnson, and it has been engaged in child's play or the President has committed grave crimes and no minority report can wash it out. But they skulk out of the business, and allow Johnson to threaten them, if they dared, to do it. They crawl out of it virtually, acknowledging themselves cowed. They have tried to cripple him by spider web legislation, and he has trampled all their nonsense under foot. Their legislation has been waste paper! And the laws they have enacted over his veto, he disobeys, and says he shall continue to do so. "This Congress," says Phillips, "has betrayed its trust. It has sold out in the hope to buy an empty triumph for the republicans' names. Johnson is guilty and ought to be impeached, it declares, on the ground that he is too strong for the party. Where a monkey is the God, what must be the priests?"

In fifteen years sheep have increased in Ireland over two millions.

## Stains and Destiny of the Negro.

The negro could not have descended from Adam on a spot of his liberal posterity, without violating the immutable decrees of God, that every living thing shall bring forth after its kind.

There were but eight persons (Noah and his wife, and his three sons, Shem, Ham, and Japheth, and their wives) who went into Noah's ark as a human being. There are five distinct races of the human species, if we include the negro, Noah, and his three sons can only be the representative heads of them; and as the negro is so nearly allied, in resemblance, to the gorilla, chimpanzee, and orang outang, he was probably taken into the ark with them as a part of the brute creation, although we believe, from his having the power of speech and of reason, to a certain extent, that he ought to be ranked with the genus homo or man, as the lower order of the human species, and the connecting link between it and the monkey tribe; and, being the inferior race, it is due to him from his superior race, that he should be treated as a brute.

The effect of climate cannot govern the complexion and change white to black or black to white. Messrs. Park, Baker, Speke, Grant, Livingston and DuChailu were a long time in Africa as explorers, and returned to their native northern climate without any change of complexion; and, on the other hand, the negroes, who have been in this country for many years, are as black now as when the first cargo of them landed on our shores; and we say, moreover, that if climate controls the complexion, everybody in the same climate would have the same complexion. From the result of scientific investigation, it has been ascertained that there is a stratum of black mucous matter underlying the scarf skin of the negro, called by anatomists *rete mucosum*, which gives to his skin color, to shield him from the scorching rays of the sun in his native hot climate, and that his color is therefore coeval with his creation. We give the following table of facial angles, showing the elevation and depression of the human species, and also of the orang outang, viz:

In the Caucasian or white man 85 degrees.

do. Mongolian or yellow man 75 do.

do. American or red man 73 do.

do. Malayan or red man 73 do.

do. Ethiopian or black man 70 do.

do. Orang outang or black ape 50 do.

and in the Gorilla it is about 60 do.

which brings the cranial formation of the negro nearer to the gorilla than to the white man.

The biblical account that God "hath made of one blood all nations of men to dwell on the face of the earth," &c., was intended to apply to the respective nations, and not to a man in his popular or aggregate capacity.

It is a well known fact that sometimes after the third, and always after the fourth crossing between the white and black races, further procreation ceases, and, if Mr. Wendell Phillips' long and arduous travels in the tropics be true, it would end in the extinction of both races, which would be in violation of the mandate of our creator to multiply and replenish the earth with our species.

From a phenological comparison of the quantity and locality of the brain of the negro with that of the white man, the negro is intellectually inferior to the white man, and is governed more by animal passion than by reason; although his battle he may make a vigorous and free, he cannot stand long under fire, like the white man, and is, therefore, unreliable where steady courage is required.

He is capable of learning to make a tolerably good stump speech, or preach a pretty good sermon, but he can never be eminent in the higher branches of science or letters; he is the slave of the mind, and he has none of the higher and useful inventive faculties of the white man—who has drawn the lightning from the clouds, applied steam to ships and machinery, and given to electricity the power of expressing thoughts winged with the electricity of lightning. He has existed as long as the white man, in a country to which nature has been more bountiful than to any country ever yet inhabited by the white man; and, with all his natural advantages, he has made no advances in the arts and sciences, and, with trifling exceptions, not even in civilization, but still remains a barbarous cannibal.

Let us institute a comparison between the white man, the negro, and the orang outang; although the gorilla bears a closer resemblance to the negro than the orang outang; but not having an accurate anatomical description of the gorilla, we take the other, as the next nearest approximation to the negro, viz:

The negro's forehead is lower than the white man's; so is the orang outang's.

The negro's skull is much thicker than the white man's; so is the orang outang's.

The negro's brain is much smaller than the white man's; so is the orang outang's. (Professor Morton, of Philadelphia, says it is fourteen cubic inches smaller in bulk than the white man's.)

The bulk of the white man's brain is located in front and the negro's in the back of his head; so is the orang outang's.

The white man's hair and eyes are of various colors; the negro's are uniformly black; so are the orang outang's.

The negro's eyes stand further out than the white man's; so do the orang outang's.

The skin of the white man is white; the negro's is black—so is the orang outang's.

The nose of the white man stands up; the negro's is flat—so is the orang outang's.

The teeth of the white man meet each other perpendicularly; the negro's meet at an angle—so do the orang outang's.

The jaws of the negro project farther forward than the white man's—so do the orang outang's.

The arms of the negro are longer than the white man's—so are the orang outang's.

The feet of the negro are flatter than the white man's—so are the orang outang's.

The white man is free from offensive odor; the negro has a very offensive odor—so do the orang outang's.

The hair of the white man is straight and angular; the negro is curly and oval.

The hips of the negro are proportionately larger than the white man's.

The shin bone of the negro stands more in the middle of the muscle of his legs than the white man's.

The beels and head of the negro project farther back than the white man's.

The foot of the negro is broader and flatter than the white man's.

The blood of the negro and the liquid of his gall are darker than the white man's.

The lungs of the negro are much smaller than the white man's.

The liver of the negro is much larger than the white man's.

The fibres of the negro's muscles are coarser, and his muscles are more grossly developed than the white man's.

The structure of the negro's skull, and his bones, cartilages, etc., differ from the white man's.

White the hair, eyes and skin of domestic animals, such as the dog, cat, rabbit, horse, cow and goat, and the white man, so far as relates to his hair and eyes, are of various colors, each variety of the wild animals and the negro

has but one uniform color of the features peculiar to itself.

Their animal passions are not restrained by high moral sentiments, or those tender affections of divine inspiration, like the white man's; and like the monkey tribe, their lecherous propensities are inordinate, and, judging from the newspaper accounts, it is not safe, since their emancipation, for white ladies, whose charms are especially fascinating to them, to visit lonely places, either in cities, towns or country, for the fear of being waylaid and having their persons violated. As a proof that their lustful passions are merely animal, during the massacre at St. Domingo they violated the persons of white females, and, immediately after satisfying their brutal lusts, they seized their knives and deliberately cut their throats.

In their own country they have no general government, but are divided into tribes, which are continually warring with each other; and, when they mix with other races, they become jealous of caste.

In St. Domingo they rebelled against the government of the white man, and massacred all the white inhabitants of every age and sex, and Touissant L. Oute, who headed the rebellion, carried in public procession the head of a white child on the point of his spear, as a trophy of his bloody cruelty; and yet, Mr. Wendell Phillips, the great apostle of misregeneration, stated in a lecture in the Smithsonian Institute, in Washington City—which city was named in honor of the great and good Washington—that this negro (Touissant L. Oute) was a greater man than either Bonaparte, Wellington, or our own Washington!

While it is the desire of the negro to enforce negro equality—social as well as political—his enforcement would be fatal to the interests of the white man to recognize either, as it would inevitably culminate in a mixture of races, and the case in other countries; and the white man, ennobled by his Creator, above all other races, and who ranks in intelligence next to his God, and who is now approaching the zenith of the progressive age of improvement in the arts and sciences would be dragged from his high position to the degrading level of a race who has scarcely emerged beyond the horizon of bestiality

Agricultural Matters.

A correspondent of the STATESMAN throws out some excellent hints upon the subject of agriculture this week. Like our correspondent, we deem this subject one of great, if not of paramount importance to the farming population.

To acquire this knowledge and the almost certain affluence which results from its practical application, requires that a farmer should closely study the subject in all its bearings and systematize the occupation as nearly as possible.

HELL!—"Hell on the Washah," some years ago, was an exclamation frequently indulged in. That saying has become obsolete, and a new one has taken its place—"Hell at Washington."

A HEALTHY SICK.—Our Helms republican, in good standing, informs us that the La Crosse Democrat has now one hundred and fifty subscribers who get the paper at the Walla Walla post-office.

THE UMATILLA PRESS gives notice that that paper will be issued only once in every two weeks, instead of weekly as heretofore. A dearth of news, an overplus of cold weather, a scarcity of the wherewithal to lubricate the machine, and the stoppage of river navigation, are assigned as reasons for the change.

A PAYMASTER ABROAD.—Paymaster, Arthur Haine, we learn, started from Vancouver, overland, a few days since on his way to Lapwai, for the purpose of paying off the troops stationed there.

BOGUS DUST.—Our Helms exchanges state that a new imitation of gold dust has recently made its appearance in that section. The bogus stuff is made of brass, resembles retorted gold, and is said to be well calculated to deceive.

A TRI-WEEKLY.—The Columbia Press says there will hereafter be tri-weekly overland mail service between Umatilla and Dalles—that is, "the stages will go down one week and try to get back the next."

MOSQUITOES ABROAD.—The Helena Herald of Dec. 26th says: "We yesterday visited the Hot Springs and found flies and mosquitoes hovering about them, the same as in mid-summer. Who says Montana can't beat the world for phenomena?"

EDITOR STATESMAN.—The paramount influence of agriculture upon all other branches of business, is, perhaps, less appreciated than any other subject, which is so closely allied to the vitality of each and every individual's personal success and pecuniary advancement.

Take a man of business (I care not what his occupation may be) and nine times out of ten he is an ardent advocate of some particular scheme for progress; and if a man of public enterprise you will hear him on all occasions advocating his hobby, and spending his time and means in propagating his ideas and promoting his scheme.

Now, if this be true of agriculture, and no one will gainsay it, the conclusion is inevitable that, it is the duty, the paramount duty, of every individual to encourage the farmer; and these facts should give the farmer new faith and cause him to redouble his diligence, being made sensible of what devolves upon him; and the fact that the influence of his labor is inestimable, unending, and not to be dispensed with, should cause him to hold up his honest head and demand a consideration of himself by the whole human family.

But, brother farmers, all these praises and honors being accorded to us, who is to ask, demand, sue for and obtain for us the same at the bar of public opinion? Do not expect the lawyer, the physician, the merchant or even the mechanic to do it; they all have their legitimate business to pursue, and consequently if left to them will be neglected, and the next year, the next generation will find us in the same state.

Mr. Editor, if the foregoing is deemed worthy a place in your columns, and you desire it, I will continue the subject.

Walla Walla, Jan. 15, 1868.

A FACT.—The flouring mills in this Valley have not been stopped in consequence of the existing cold weather. The reason of this is, that the water in our creeks is made up in a great measure from warm springs. It is very rare indeed that the streams are frozen over.

BACKING DOWN.—We are informed that some, probably all, of the merchants in town who created such a sensation recently by selling out at and below cost, have concluded to "don't" awhile. Per consequence, business begins to lag in that line.

A radical acquaintance says we get too much politics in the paper. If it could be filled with radical politics, he would certainly be the last man to say "too much." Friend read, the article about your "man and a brother" on the first page.

MORE GROUND SWELL.—At the municipal election held at Boise City, on the 6th inst., the democrats gained a complete victory as will be seen by the following statement copied from the Boise Statesman. The opposition we believe was styled "citizen's ticket."

The Snake River Route.

It is perhaps, not generally known that the country from Walla Walla or Umatilla to Salt Lake is much easier traveled during the winter season than the roads and railroad routes are leading from California eastward across the Sierra Nevada mountains, upon this subject the Idaho Statesman of a late date says:

It is not a little remarkable but it is quite true that the shortest route for a railroad to connect the Union Pacific with the Pacific ocean, and the only one that is never obstructed by storms and deep snows—namely, the one through Southern Idaho and Eastern Oregon—is the only one that has never been surveyed. Not even a preliminary reconnaissance has been made of the country to note its characteristics or learn whether such a scheme is practicable.

WEATHER, AND AMUSEMENTS AT THE DALLES.—The Mountaineer of the 11th inst, has the following: "For the past week, the people of the Dalles have been amusing themselves with sleighing and skating. The sleighing is excellent, never was better. The skating, along the shore of the river, is very good, but would be better were the ice not covered with a small coating of snow.

DEVELOPMENT OF KANSAS.—No one of the United States has enjoyed such a wonderful growth and development as Kansas. Though seven years have scarcely elapsed since it was admitted into the Union, this State now has a population of 300,000, and 2,000,000 acres of land improved and under cultivation.

JOHNSON'S PLAN.—It will be noticed by reading the Eastern news, that President Johnson has made a few more changes, by removing radical commanders from the Southern departments and placing good men, of the tancock stripe in their stead.

FROM CANYON CITY.—The stage from Canyon City, owing to the snow blocking up the road, did not arrive last week until Saturday. Mr. F. McBean had his feet slightly frozen. The following are a few items that we have been able to pick up from that locality:

Good reports continue to be received from Willow creek; new discoveries being made every day. The country has purchased the building in the rear of the French hotel for Court House and county offices. Price, \$2,700.—Mountaineer.

HELENA MARKET.—The Herald of the 26th ult. says: No special change in our market report with the exception of flour and coal oil—Salt Lake flour having advanced from \$8@9 per sack to 10@11, with St. Louis flour at \$11@13, and a corresponding advance in Self Raising. Coal oil has advanced from \$3 per gallon during the past week, and is now held firm at from \$5 to \$6. Business during the past week has been about the same as during the week preceding.

THE new mines on Willow Creek, Oregon, are just attracting considerable attention, and parties hereabouts contemplate trying their luck in the mines next spring.

EASTERN NEWS.

Washington, Dec. 29.—Grant has issued orders to day, by direction of the President, removing Gen. Ord, who is directed to turn over his command to Gen. Gilmore and proceed to San Francisco to take command of the District of Columbia. Gen. McDowell is ordered to assume Ord's recent command as soon as relieved. Gen. Pope has been relieved and ordered to report to head quarters of the army. Gen. Meade has been appointed Pope's successor. General Swayne has been removed from the Freedmen's Bureau and ordered to resign his regiment.

New York, Dec. 24.—The Commercial says that Adams, the American, United States, Merchants' Union Express Co.'s have entered into an arrangement, to take effect January 1st, whereby the earnings of the four companies will be consolidated and divided as follows: Adams 20 per cent.; American and Merchants' Union 25 per cent. each; United States 18 per cent.

Portland, Me., Dec. 26.—The schooner Squirrel was burned near this city. It is reported that the mate and crew were lost. The schooner was carrying a cargo of lumber, and was bound for New York. The vessel was valued at \$350,000 to \$400,000. The vessel was worth \$175,000.

New Orleans, Dec. 28.—Serious breaks have occurred in the levee. One below Plaquemines submerged the country to the Jackson railroad. A large force has been sent to repair damages. Hancock has telegraphed for authority to place the starving negro population at work on the levee.

Washington, Dec. 29.—A private letter from Senator Romero says the prospects continue satisfactory. He thinks Mexico will now have permanent peace.

Chicago, Dec. 30.—The Times' special says Ord is relieved of his own request. The Tribune's special says he is relieved at the request of Gen. Grant, who was not satisfied with his administration of affairs. Ord proceeds immediately to California to relieve McDowell.

New Orleans, Dec. 31.—The Convention has adopted seven articles of a constitution. Article three prohibits slavery. Article four declares the right of the people peaceably to assemble to petition the government shall never be abridged. Articles six and seven rehearse the common law punishment for crime and provide that the writ of habeas corpus shall not be suspended.

London, Dec. 31.—Doctor Livingstone is alive and well. Positive advices have been received that he is living. There is no further doubt of his safety.

Nine of the government camels, imported at a heavy expense a few years ago for beasts of burden, have been sold to a manager.

All Sorts.

Indiana is the abode of feminine horse thieves. It is said that three Irishmen are in the Pontifical army. A. T. Stewart brought from Paris a \$7,000 carpet for his new house. Garibaldi, in 1850, was making caudins on Staten Island.

There are still three hundred and thirty-four deer parks in England, in thirty-six of which the famous red deer are kept. Ceylon has a fig tree 2,155 years old. There is documentary evidence that it was planted 288 years before Christ.

An Indian seeing a gentleman with a wig and spectacles, exclaimed in amazement: "Him two scalps, four eyes, by golly!" Crosses are erected, candles are kept burning, and flowers are daily strewn, on the spot in Quercetaro where Maximilian was executed.

A machine for removing the stones from cherries at the rate of one hundred a minute, is noticed as a recent invention. Adam, according to a learned Frenchman, stood 128 inches in his stockings,—if he had any. Eve was 118 inches long.

Black satin is the great fashion in Paris now for visiting robes. They are slightly wadded when worn for walking costumes. The Treasury Department has in its possession the electrolyte plates of the bogus 20s and 100s, and those of part of the 1,000 seven-thirties.

A Washington dispatch says that it has been proved that the counterfeit 7-30s were made from casts of genuine plates in the Treasury Department. C. V. Culver's Reno, Oil Creek and Pit-hole Railroad, in Venango county, Pa., has been sold at auction for the sum of \$121,000 cash.

A poor seamstress in New York, who makes pantaloons for eight cents a pair, was kicked out of doors by her brutal employer, because she refused to take twenty-five cents for four pairs.

Mr. and Mrs. Wm. Boyd, of Kentucky, claim to be the oldest couple in the country. They are respectively 110 and 107, and have a boy of 90. The official register of the fallen angels in Berlin contains fifty-five names of all nationalities. The register in Hamburg contains upward of four thousand.

A roll of female hair, measuring six feet long, and weighing twelve ounces, is in the hands of a London dealer in human hair. A Divan piano, exposed at the Paris exhibition, is one of the marvels of the age. It can be used as a bed, bureau, bookstand, and toilet table; the stool also being fitted with drawers, looking glass, work-box and writing desk.

ON WITH THE DANCE.

As people—that is, all people—don't know the exact modus operandi of running the Hurdies' the Owyhee Avalanche has concluded to throw some light upon the subject, which it does in this graphic way, so far as the burdies at Owyhee are concerned:—"It is an easy matter to find out where they hold forth—watch the crowds of suffering manhood as they emerge from cabins along the creek in the dusky twilight, or silently wend their way, in Indian file, down the mountain side; their steps are directed to Gabriel's large building, corner of Jordan and Second Sts., where seated on a bench at one side of the spacious hall, are four coy and blushing damsels. Wait a moment—soon the fellow who scrapes the catgut says 'set 'em up boys!'

And four brave and stalwart youths with sixshooters and bowie knives hung to their quarters, rush forward, resolutely offer their hands to the timid maidens and lead them to the center of the floor—the music begins—'hoors to partners,' and then the chap that can twist his gal into the greatest number of shapes, play leap-frog the best, cut up the greatest number of antics after the 'essence of Old Virginia,' style, is the 'big dog with the brass collar.' After performing thus for about five minutes they all retire from the ring, walk up to the counter, the 'Bar Keep' sets out the bottles, glasses are filled, each chap hob a nob with his gal, and repeats. Go in boys, it only costs a dollar greenbacks a trip. If you're bound to spend your money, you may as well do it that way as any other."

STANTON.—Stanton, the liberty-strangler, according to Salt Lake dispatches of Jan. 2d, is to be reinstated Secretary of War. If this news shall prove correct, we may look out for another reign of terror, and bloody times ahead.

IN PROBATE COURT, WALLA WALLA CO., W. T. Estate of Joseph Raimo, Deceased. TO FRANK STONE, Administrator of said Estate, and all others concerned: You are hereby notified that Gilbert Giroux has filed his petition in said Court praying that his share of said estate may be paid to him by virtue of his law-ship, upon his giving bonds as required by law, and you will take notice that said application will be heard at my office, in Walla Walla, W. T., on Friday, Jan. 31st, 1868, at 1 o'clock, P. M., and decree entered accordingly.

H. M. CHASE, Probate Judge.

Walla Walla Statesman.

FRIDAY EVENING, January 17, 1908.

CLIPPING HORSES.—Mr. Henry Bergh, the president of the American society for the prevention of cruelty to animals, of New York, has lately issued a letter in which he condemns the practice of clipping horses, and announces his intention of prosecuting any one guilty of this phase of cruelty.

HELP ONE ANOTHER.—A poor lame boy was walking along one of the muddy streets of the city, trying to find a suitable place to cross. The heavy rains had fallen, and the streets were unusually deep with mud and water.

Some wag gets off the following squib on the manner of weighing hogs in Kansas: The way they weigh hogs in Kansas is as follows: They first tie the hogs to one end of a rail, balance the rail on a fence, with rocks tied to the other end, and then guess how much the rocks weigh.

HOW HE GOT THEM.—I say, Sambo, where you get de shirt studs? 'In de shop, to be sure. 'Yah, you just told me you had no money. 'Dat's right.

WILL SMOOTH IT.—You are writing my bill on a very rough paper, said a client to his solicitor. 'Oh, never mind, sir, it has to be filed before it comes into court, was the reply.

HEAVY ON DOCTORS.—When Rabelais was on his death-bed, a consultation of physicians was called. 'Dear gentlemen,' said the wit to the doctors, raising his languid head, 'let me die a natural death.

A HARD WINTER.—The Indians in British Columbia, prognosticate a hard winter—hiyou rain and snow. The natives are quick nunes in the matter of weather, and their opinion is seldom doubted.

DETERMINED.—'I will have order!' Shouted the captain of a down east schooner to his refractory cook, 'If you won't cook the dinner I'll—do it myself. 'I will have discipline aboard of this ere vessel!

A PROMISE.—'I'll pay your bill at sight,' as the blind man said to the doctor, who had in vain attempted to cure him of blindness.

BECAUSE.—Woman are called the 'softer sex' because they are so easily humbugged out of one hundred girls, ninety-five would prefer ostentation to happiness—a dandy husband to a mechanic.

Never speak to deceive, nor listen to betray. A wise man is never less alone than when he is alone.

Calmsness under contradiction is demonstrative of great stupidity, or strong intellect. Be not too brief in conversation, lest you be not understood, nor too diffuse, lest you be troublesome.

To decide between the interfering claims of duty and inclination, is the moral arithmetic of human life. Storms generally are a mystery, but you can always see the drift of a snowstorm.

Of all the Percy family, the noblest is Percy Vere (persevere); and the most cruel, Percy Cute (persecute). If you want to please a man make a short call, if a woman a long one. She can stand more nonsense.

An exchange wants to know if, when young women blush and weep, they can be said to raise a hue and cry. A dismal mon says that if the rebels do not actually capture the Chinese capital, they are at least going to peek in.

Horace Greely says he fell in love while he and the object of his adoration were eating Graham bread. The best adhesive label you can put on your baggage is to stick to it yourself.

Talent alone avails our lawyers, and an humble origin is no bar to the bench. Don't put your watch under your pillow; a man should never 'sleep upon his watch.'

Laziness will cover your garden with weeds. Hard drinking, if you keep it up, will cover your wife with weed. It costs you more to be miser than to be happy; how cheap and easy is the service of virtue, and how dear do we pay for our vices.

A storm following storm and wave succeeding wave, give additional hardness to the shell that encloses the pearl, so do the storms and waves of life add force to the character of man.

Blackfoot & Kootenai.

SPOKANE PRAIRIE STORE, opposite Lee's Bridge Toll House. 1847 MANSFIELD & THEODORE.

The Richest Man in the World! EXTRACT OF A LETTER FROM BARON SOLOMON ROTHSCHILD.

Paris, 8th April, 1884. 25 Rue Fanny, St. Honore. Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send a bottle of the same, I will forward you the amount through Messrs Belmont & Co., New York.

Baron Solomon Rothschild having recommended to many of his friends Major Lane's Liniment, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT, as a relief or ready aid in all cases of pain, taken inwardly or applied outwardly, has no equal. For the relief and cure of Rheumatic and Neuralgic Affections, Sprains, Bruises, etc., it is unrivaled. It is also most efficacious taken inwardly in the cure of Cholera, Cholera, Cramps, and Pains in the Stomach, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc., etc., and is without exception the most wonderful Panacea the World affords. No family should be without it. Every traveler by land or sea, should have a bottle. Miners and Farmers residing at a distance from a physician should keep it constantly on hand. In case of accidents and sudden attacks of stomach complaints, its value cannot be estimated. Enquire for

MAJOR LANE'S INDIAN LINIMENT, AND TAKE NO OTHER. Price Fifty Cents per Bottle. For sale at wholesale and retail by H. HUDSON & COMPANY, 14 Merchants' Exchange, San Francisco, CAL., General Agents for the Pacific Coast, and by respectable druggists throughout the world. Sole and exclusive agents for the United States, Canada and Mexico, J. T. LANE & CO., Proprietors, 133 Broadway, New York. #2-Send for a circular. 50-3m

Notice to Absent Defendant. TERRITORY OF WASHINGTON, COUNTY OF WALLA WALLA, ss. In the District Court, First Judicial District, in and for said County and Territory, THOMAS K. MCCOY and GEORGE ROOT, vs. GEORGE W. BAILEY.

PERRY DAVIS' Vegetable Pain Killer, The Great Family Medicine of the Age.

Taken Internally, Cures Sudden Colds, coughs, &c., weak stomach, general debility, nursing sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp or pain in the stomach, bowel complaint, painters colic, Asiatic cholera, diarrhoea and dysentery.

Taken Externally, Cures Felons, Boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelling of the joints, ringworm and tetter, broken teats, frost-bite and chilblains, tooth-ache, pain in the face, neuralgia and rheumatism.

The PAIN KILLER is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medicinal preparations. Its instantaneous effect in the entire eradication and extinction of pain in all its various forms incidental to the human family, and the unsolicited written and verbal testimony of the masses in its favor, are its own best advertisements.

The ingredients which enter into the PAIN KILLER, being purely vegetable render it a perfectly safe and efficacious remedy internally as well as for external application, when used according to directions. The slight stain upon linen from its use in external applications, is readily removed by washing in a little alcohol.

This Medicine, justly celebrated for the cure of so many of the afflictions incidental to the human family, has now been before the public over twenty years, and has found its way into almost every corner of the world; and whenever it is used, the same opinion is expressed of its real medicinal properties.

In any attack where prompt action upon the system is required the PAIN KILLER is invaluable. Its almost instantaneous effect in relieving pain is truly wonderful; and when used according to directions is true to its name.

A PAIN KILLER. It is, in truth, a Family Medicine, and should be kept in every family for immediate use. Persons traveling should always have a bottle of this remedy with them. It is not infrequently the case that persons are attacked with disease and before medical aid can be procured the patient is beyond the hope of recovery. Captains of vessels should always supply themselves with a few bottles of this remedy, before leaving port, as by doing so they will be in possession of an invaluable remedy to resort to in case of accident or sudden attacks of sickness. It has been used in SEVERE CASES OF CHOLERA and was thoroughly applied on the first appearance of the symptoms.

To those who have so long used and proved the merits of our article, we will say that we will continue to prepare our PAIN KILLER of the best and purest materials, and that it shall be in every way worthy of their approbation as a family medicine. PERRY DAVIS & SON, Manufacturers and Proprietors, Providence, R. I.

PERRY DAVIS' VEGETABLE PAIN-KILLER IS THE MOST POPULAR REMEDY EXTANT.

THE PAIN KILLER is equally applicable and efficacious to young or old. THE PAIN KILLER is both an Internal and External Remedy. THE PAIN KILLER should be used at the first manifestation of Cold or Cough. THE PAIN KILLER—Don't fail to keep it in the house ready for use.

THE PAIN KILLER is good for Sprains and Bruises. Try it. THE PAIN KILLER cures the Toothache. THE PAIN KILLER is a favorite with all classes. THE PAIN KILLER will cure Chills. THE PAIN KILLER will cure Cholera Morbus. THE PAIN KILLER will cure Dyspepsia. THE PAIN KILLER is the Great Family Medicine of the Age. THE PAIN KILLER can be bought of your Druggist or Grocer. THE PAIN KILLER will cure Painter's Colic. THE PAIN KILLER is good for Scalds and Burns. THE PAIN KILLER has the Verdict of the People in its favor. THE PAIN KILLER Gives Universal Satisfaction. THE PAIN KILLER—Beware of IMITATIONS and COUNTERFEITS.

THE PAIN KILLER is almost certain cure for CHOLERA, and has, without doubt, been more successful in curing the terrible disease, than any other known remedy, or even the most Eminent or Skilful Physicians, in India, Africa, and China, where this dreadful disease is ever more or less prevalent; the PAIN KILLER is considered by the natives, as well as European residents in those climates, A SURE REMEDY.

THE PAIN KILLER—each Bottle is wrapped with full directions for its use. THE PAIN KILLER is sold by all Druggists and Dealers in Family Medicines.

PERRY DAVIS & SON, Proprietors, 74 High street, Providence, R. I. 380 St. Paul street, Montreal, Canada East. 41) 17 Southampton Row, London, Eng. [5m

Divorce Notice. TERRITORY OF WASHINGTON, ss. ELLEN TERRY, Plaintiff, vs. WM. J. TERRY, Defendant. In the District Court, First Judicial District, THOMAS K. MCCOY and GEORGE ROOT, vs. GEORGE W. BAILEY.

TO WM. J. TERRY, You are hereby notified that ELLEN TERRY has filed a complaint against you in said Court, which will come on to be heard at the first term of the Court, which shall commence more than two months after the 12th day of October, 1907, and unless you appear and answer to it, the same will be taken as confessed, and the prayer thereof granted. The object and prayer of said complaint is to dissolve the bonds of matrimony existing between Plaintiff and Defendant, and the disposition of the two children of Plaintiff and Defendant. And you are further notified that the Plaintiff will apply to the Hon. J. E. WYCHE, Judge of the District, for the relief prayed for in said complaint, after the expiration of thirty days after the 11th day of December, 1907. Complaint filed October 9th, 1907. 43-2m. J. H. LASATER, Atty for Plaintiff.

PRIVATE MEDICAL AID. QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY, PRIVATE MEDICAL AND SURGICAL INSTITUTE, Sacramento Street, Below Montgomery, opposite the Pacific Mail Steamship Company's Office, (Private entrance on Leidesdorff street.) SAN FRANCISCO.

Established Expressly to Afford the Afflicted and Scientific Medical Aid, in the Treatment and Cure of all Private and Chronic Diseases. Cures Secured, and all Sexual Disorders. To the Afflicted.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Stomach and Genito-Urinary Organs, and all Private Diseases, viz: Syphilis, Gleet, Stricture, Gonorrhoea, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhoea, Gleet, Stricture, Gonorrhoea and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most successful and successful remedies against all these diseases, and uses no mercury, charges moderate, treats his patients in a correct and honorable manner, and has the respectability and high standing in society. All persons consulting him by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

To Females. When a female is in trouble, or afflicted with disease, as weakness in the back and limbs, pain in the stomach, nervousness, loss of muscular power, palpitation of the heart, irritability, derangement of the urinary functions, general debility, vaginitis, all diseases of the female, she should go to Dr. W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is a native of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful struggles and premature death. All married ladies, whose delicate health or other circumstances prevent an increase in their families, should visit or call at Dr. W. K. DOHERTY'S Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents. Patients residing in any part of the State, however distant, who may desire the opinion and advice of DR. DOHERTY on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, as respects the cost of their communications, may be held most sacred. DR. DOHERTY takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as soon as possible, if in the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case itself (including the medicines), will be forwarded without delay, and in a manner as to convey no idea of the purpose of the letter or parcel so transmitted.

Spermatorrhoea. DR. DOHERTY has just published an important pamphlet, embodying his own views and experience in relation to Impotence or Virility, being a very Treatise on Spermatorrhoea or Seminal Weakness, Nervousness and Physical Debility, resulting from affection, and other diseases of the sexual organs. This little work contains information of the utmost value to all, whether married or single, and will be sent, free of charge, by mail, on receipt of six cents in postage stamps for return postage.

Consultations—by letter or otherwise—FREE. Permanent cure guaranteed on no return. W. K. DOHERTY, M. D. 45 1/2 Sacramento Street, San Francisco, Cal.

FRED W. COLMAN, DRUGGIST & CHEMIST.

Sign of the Eagle and Mortar, Main st., Walla Walla. WOULD respectfully invite the attention of the public to his new and extensive Stock, consisting of a complete assortment of DRUGS, PATENT MEDICINES, PERFUMERY, FANCY ARTICLES, Hair, Tooth, Nail and Flesh Brushes, Oil Lamps, Lamp Chimneys, Shades, Paints, PAINT AND VARNISH BRUSHES, WINDOW GLASS, PUTTY. And in fact, everything pertaining to a First Class Drug Store. Strict personal attention paid to putting up prescriptions at all hours of the day and night. Sept. 1, 1895. 28ly
