Who is to Count the Electoral Vote?

The two committees upon the question of counting the electoral vote will no doubt look at all the precedents.

A QUESTION ANSWERED.

The New York Journal of Commerce answers an important question raised in the minds of many people.

How THEY DO IT.

The New York Herald says: When a Californian gets rich he buys grotesque Chinese bronzes and decks his wife out in gaudy red and yellows.

BROWN'S MATRIMONIAL METHOD.

"Brown, I don't see how it is that your girls all marry off as soon as they get old enough, while none of mine can marry." "Oh that's simple enough. I marry my girls off on the buckwheat straw principle."

AN EXPRESSIVE DINNER.

The most expensive dinner served on Thanksgiving day was eaten at San Francisco, if the News Letter be veracious.

WHAT IS A TEASPOONFUL?

When a tea-spoonful of any medicine is prescribed by physicians it should be borne in mind that the quantity meant is equal in volume to 45 drops of pure water.

QUESTIONS OF REMOVAL.

The agitation in Philadelphia about removing the State capital from Harrisburg to that place, has reminded several of the populous cities in other States that they have like claims which should be respected.

CONSCIENCE IS A CLOCK.

Conscience is a clock, which in one man strikes aloud and gives warning; in another the hand points silently to the figure, but strikes not; meantime hours pass away, and death hastens, and after death comes judgment.

It is an extraordinary fact that when people come to what is commonly called high words, they generally use low language.

Senator Conkling has spoken, but neither the hopes of his opponents nor the fears of his political friends have been set at rest. The speech, however, although somewhat non-committal, compared to Conkling's former definitions of his position, justified the expectation that Conkling would rise superior to party considerations in arriving at a settlement of the Presidential question.

The Louisiana Fraud.

(From Harper's Weekly.)

The real result of the Presidential election is so doubtful that the duty of the committee of the two Houses of Congress to provide a harmonious method of declaring it is most imperative. The republican leaders in Congress must not misapprehend the sentiments of the country.

POWERS of the Vice President.

In 1841, 1845, 1849, 1853, 1857, 1861, 1865, 1869 and 1873, and in every Presidential election since 1797, and including that of 1800, the Vice President, as the official record states, "the two houses of Congress, assembled, the certificates of the electors of the several States for President and Vice President were in their presence opened by the Vice President and delivered to the tellers, who, having read and ascertained the number of votes, presented to the Vice President a list thereof."

THE REVIVAL MEETING at Dr. Eagan's church is still progressing and sinners are being stirred up at a fearful rate.

JOE WOLFSTEIN, for many years salesman for Messrs. Dusenbery Bros., is about to open a store at Dayton.

WESTON, our neighboring town in Oregon, is reported as making steady gains, and is in all respects a prosperous town.

PENDLETON, the county seat for Umatilla county, is destined to be an important town, but at present its growth is retarded by reason of its proximity to the Indian reservation.

DIPHTHERIA.—We learn that Dr. Baker's children are suffering greatly from diphtheria. In the early part of the week one of his little daughters was so low as to cause serious apprehensions.

OUR OF TIME.—An accepted authority says "there is a time for all things." But it by no means follows that during the hours of business young ladies should be expected to receive the visits of their admirers.

MILWAU.—The vaults erected for the use of the county officials seem to be imperfect in their construction, and as a result the books and papers are already coated with mildew.

HARDLY THE THING.—We hear of a brace of young men who came in from the country one night last week, and after investing at the rate of \$2.50 each in a ball, then started out to hunt a 2-bit supper.

COUNTRY SCHOOLS.—A gentleman who has made it his business to visit the schools throughout the county informs us that instruction is much more thorough in the country schools than in the city, and that the general progress made by the scholars is in advance of those attending the city schools.

PRIMARY SCHOOL.—The United Brethren Church has been leased by the directors of district No. 34, and will be opened on Monday next as a primary school.

A LULL IN BUSINESS.—For some reason or other it so happens that when the boats suspend their trips for the season a stagnation in business uniformly follows.

DISTRICT NO. 1.—The directors of School District No. 1 have determined to employ an additional teacher. The school will now be divided into primary, intermediate and grammar departments.

THE STANDARD MILL, A. McCalley & Son, proprietors, is running day and night, manufacturing flour at the rate of 125 barrels per day.

GOOD SHOWING.—We are very creditably informed that during the last year, nearly, or quite, twenty-one thousand tons of freight passed down the Columbia river from Wallula.

SNOW FALL.—Thursday morning snow fell in this valley to the depth of three or four inches. Weather warm and snow melted almost as fast as it fell.

PROSPEROUS.—The little town of Dayton is constantly gaining ground and is now one of the most prosperous settlements on the Pacific coast.

THE PLEASANT WEATHER still continues, and our farmer friends all over the valley are busy turning up the ground. Let them continue the good work. This valley cannot produce too much grain.

NUISANCES.—In most large cities ordinances have been passed prohibiting the erection of stables on front streets, and restricting them to back alleys.

A CONTRAST.—From all parts of the Atlantic slope we hear of deep snows and intensely cold weather. In Illinois, Iowa, Wisconsin and the whole tier of Western States, the winter has been very severe.

AGRICULTURAL MACHINERY.—During last season over one hundred thousand dollars' worth of agricultural machinery was sold to the farmers in Walla Walla, Columbia and Whitman counties, and many remarked that the country was getting overstocked.

FREIGHT.—It is now estimated that over one thousand tons of flour, wheat and bacon will be ready to go forward by the first of February.

INCREASE OF TRADE.—The great increase of population during the last six months in Whitman county, which was nearly two hundred families, has caused several new trading posts to be established in that section of country.

PROSPEROUS.—The little town of Dayton is constantly gaining ground and is now one of the most prosperous settlements on the Pacific coast.

SACRAMENTO UNION, a well known woman of the town, formerly a resident of Walla Walla, died quite recently in San Francisco.

CIDER.—Frank Orsell has manufactured a very superior article of cider, which customers can obtain in quantities to suit.

MISSING ITEM.—A private letter, dated Yakima City, Jan. 24th, 1877, to Mr. George W. Goodwin, now at Walla Walla, has the following in relation to the Palastia mines:

Should send a piece of quartz that came out of the tunnel to San Francisco, to be assayed. He has just got the following returns:

Total per ton \$1068 12 How is this for high? Almost a FINE.—Wednesday morning, about 10 o'clock, the District Clerk's office, in the county building, was filled with smoke.

REPORTED DEATH.—A report is current that the former wife of John Hancock, who went off with a discharged soldier, died on the voyage between Portland and San Francisco.

DIXIE GRANGER.—The following are the names of the officers for the ensuing year, installed on the 13th inst.: Master, W. T. Barnes; Overseer, J. Bryant; Lecturer, P. Jennings; S. A. Evans; A. S. Oron Demaris; T. A. Pitts; Chaplain, J. M. Lamb; Sec. M. Evans; G. C. Schumaker; C. Mrs. E. Gilliam; P. Mrs. S. Pitts; F. Mrs. Corwell; L. A. S. Mrs. L. E. Corwell; Finance Committee, W. S. Gilliam, N. Albrecht and M. Corwell.

COL. KEENEY, superintendent of the N. W. Stage Co., is in town and is a guest of the Stone House. Some months since Col. Keeneey had the misfortune to break his leg.

POGERS & KENISON, Agents for Eastern Washers and Oregon, have now on hand a full supply of the

Lovell Washing Machines.

These Machines are admirably adapted to the purpose designed, and preferable to the more

Cumbersome Washing Machines.

Housewives and fathers will make their wives and daughters happy by investing in these Washers.
