RECATTURE OF THE TRIRITORIAL PRISOFERS—
DUNN KILEED.—We are pleased to state that all the prisoners but one who escaped from the Boise county jail a few weeks ago have been recaptured, and he will probably be taken within the next twenty-four hours. It appears that about ten days ago they came over from Dry creek to the Boise river, and made a raft and crossed the river about four miles below Boise City. Their raft went to pieces, by which means they lost their guns and got their blankets wet. They then west down the Boise to the mouth, supposing that the Boise Ferry was above the mouth of the Boise river. Disappointed in not being able to cross the Snake, they came up the Boise a few miles and separated after cooking and dividing what previsions they had. They were encamped in an old deserted log cabin. Bowley and Kurtz staid there over night and Dann and Dial left. Next day a man came acress the Boise with a skiff, professedly looking out for Judisus, and decoyed them across the river, whereupon a party of citizens captured them. Word being sent up to Boise, Deputy Rowe from Idaho City west down and brought Bowley up and lodged him jail. Kurtz was brought up Sunday morning by Constable Wyatt. The other two, Dunn and Dial, stole some saddles and a house from Chas. Madden, and started for the Owyhae Ferry last Friday. Raising a party of his neighbors Maden followed and overtook them about seven miles beyond Fruit's ferry, near the spot where the stage was attaked by Indians recently. They were ordered by the party to surrender, but Duni drew his pistol from his belt, when one of the men shot him with a ride. He lived only about five minutes, and was buried on the spot. Dial got away, but Sheriffs Duvall and Crutcher are on his tracks so close that they are almost certain to take him.—Boise Statesmen.

Many a person has seen a pet canary or other bird in a state of perturbation, plucking at himself continually, his feathers standing will wrong. In vain is his food changed, and in vain is a saucer of clean water always kept in his cage. The cause of his wrotchedness has not been found out. If the owner of a pet in such difficulties will take down the eage and look up to the roof thereot, there will most likely be difficulties will take down the eage and look up to the roof thereof, there will most likely be seen a mess of stuff like red rust. That red rust is nothing more or less than myriads of parasites infesting the bird, and for which water is no remedy. By procuring a lighted candle and holding it under every particle of the top of the cage till all chance of anything being left alive is gone, the remedy is complete. The pet will seen brighten up again after his "house warm lag."

MANNERS.—Young folks should be mannerly; but how to be so is the question. Many good boys and girls feel that they cannot behave to suit themselves in the presence of company. They are awkward, clownish, rough. They feel timid, bashful, and self distrustful, the moment they are addressed by a stranger, or appear in company. There is but one way to cure this feeling and to acquire easy sind graces ful manners, and that is, to do the best they can at home as well as shound. We must be courteous, agreeable, civil, kind, gentlemanly and manly at home, and then it will become a kind of second nature everywhere. A coarse, rough manner at home begets a habit of roughness which we cannot lay off if we try when we go among strangers. The most agreeable at home. Home is the best school for all the best thinge. RELIGIOUS BELIEF.—Sir Humphrey Davy said 'I envy no quality of the mind or intellect o sthers, be it genius, power, wit or fancy; but i could choose what would be most delightful and I believe most useful to me, I should prefer and I believe most useful to me. I should prefer a firm religious belief to any other blessing; for it makes life a discipline of goodness; creates new hopes, when all earthly hopes vanish; it throws over the decay, the destruction of existence, the most gorgeous of all lights; awakens life aven to death, and from destruction and decay calls up beauty and divinity; it makes an instrument of forture and shame the ladder of ascent to Paradise; and, far above all combinations of earthly hopes, calls up the most delightful visions of paims and amarants, the gardens of the blest, the security of everlasting joys, where the sensualist and the skeptic view only gloom, decay and despair."

These was an immersion to take place on the banks of a certain river. Several colored converts had already been baptized when the officiating elegyman led another, into the water. Moving cautiously into the stream for a suitable depth, it happened unfortunately that the "stepping-off-place" miscalculated, and all at oncominister and convert were floundering in the water, fifteen or twenty feet deep. The preacher succeeded in clambering back on the ledge of rocks without much trouble, but the darkey, frightened out of his wite, strack wildly across the stream. Arriving at the opposite shore, he crawfed out, heavy and weary, and shaking himself like a wet dog, and booking back with intense diagnat he archained. "Some white man's gwins to loss a nigger by dis foolishness, yet?"

A LADY writes to ask us whether her husband who is a cobblet, is justified in sitting up al night in the exercise of his vocation. He can as all event; put is a preverbially philosophica pea—that it is never too late to mend.

"Tun times are so hard. I can hardly keep my head above water, said shushand the other night to his wife, who was importuning him for a new dress. "No," she coulded still some ar-perity. "but you can keep it above brand; and water easy enough."

The Alia, is discussing this matter, and speaking of the climate and the sterility of the soil, \$875:

"At Bitka, where the climate may be considered aslmest, if not quite, the most favorable of any portion of the country, the natives raise a few potatoes, not exceeding hickorg nuts in size, and occasionally a few Lapland turnips; but it has been found impossible, from want of grass as well as from climatic causes, to breed cattle sufficient to supply the wants of even, this small town. We have it on the authority of the Director of the Russian American Company stationed at that point, who says that the experition of cattle from Russia, but without success. Above the line of the Aleutian Islands, which will embrace the greater portion of the country, we have it, upon the authority of explorers of the Russian American Telegraph Company, that the ground never thaws to a greater depth than from nine to tweer inches. Agriculturists can readily judge how favorable such as soil is to the growth of grains and grasses. Of the interior, almost nothing is known, but we cannot expect to find it less rugged or more accessible than British Columbia, lying immediately to the south of it."

If Rassian America was worth purchasing, the Government must be in possession of knowledge establishing its mineral richness. There are many reasons to believe that the country is rich in coal, copper, gold and silver, and it is possible that the Government has gained positive information through the scientific gratiennen sent out from the Smithsonian Institute, in connection with the Western Union Telegraph Company. These agents of our Government have been exploring the country the past year, and it is reasonable to believe that their reports have led to the recent purchase. When the project was first announced, the Senate was unanimously against the purchase. It was hooted at as visionary. It was hooted to be in haste to effect, that the public will be gratified with such news as to the mineral wealth of this Rassian territory, as to fully explain why we so unddenly coveted these frozen regions of the North.—Maryseille Appeal.

OPERATIONS AGAINST THE INDIANS. A late dispatch from Fort Leavenworth informs us that Gen. Hancock's Expedition is at Fort Larned and is unable to move owing to the exhaustion of forage. 11,000 warriors are encamped on Tongue river, be-tween Forts Phil Kearney and C. F. Smith, warriors are tween Forts Phil Kearney and C. F. Smith, waiting for grass, before commencing hostilities. Gen. Augur will soon move from Fort Phil Kearney with a strong force. Gen. Sherman arrived there on the 20th of April. The council between Hancock and the Cheyonnes was held on the 15th. The Chiefs gave equivocal replies. Next day Hancock moved towards the village and was met by 340 Chiefs and warriors, who proposed peace, but at night the whole tribe left. South Station, nearly 300 miles east of Denver was destroyed by Cheyennes on Monday, the 22d. Three employees of the United States Telegraph Company were scalped. The cavalry under Custar were sent in pursuit. The indications are in favor of warlike confederations: between the Cheyennes and federations between the Cheyennes and Sionx. Hanco yenne village. Hancock intended to burn the Ches

TRUE ENOUGH .- Somebody says there is TRUE ENOUGH.—Somebody says there is no little circumstance quite so annoying as to knock at a neighbor's door, and, upon its being opened by some blooming lass with rosy checks, and eyes that act upon one's heart like a volley of shot among a flock of wild ducks, to have a malicious and spireful little dog rush out-of the hall, snapping activation of the hall of the snalling beauty, and infernal imps sitting before the gates of Tophet. A GAME OF EUCHIEE—Several years ago a young man arrived in California from one of the down eastern ports, and not being able to find employment in San Francisco suited to his peculiar taste, was consequently a long time idle, and being of a feetive disposition, at length found himself reduced to his last fivedollar coin. He then proceeded to Stockton (to a certain institution at which to Stockton (to a certain institution at which place he should have been forwarded some place he should have been forwarded some time before, free of expense) and being still unsuccessful in his search for work, con-cluded to solace himself with a few glasses of whicky, which he obtained by selling a piece of cithing. He became noisy, was arrested for drunkenness, and sentenced to piece of cioting. He became noisy, was arrested for drunkonness, and sentenced to the county jail. In the same cell with him was a man under sentence of death for murder, and from whom he learned the mysteries of the game of euchre—in fact, learned so well as to be able finally to beat his teacher in every game. On Wednesday last, after various ups and downs for so many years, he walked into this city to look for news from home. He had traveled all the way from Virginia City on foot to see a friend who had offered him the means with which to pay his passage home. Ho received the money—\$150—met a talkative individual at the ——botel, accompanied him tha vacant building on the levee, and indulged in what his friend called a "nice little game of euchre." This morning the foolish young man started on foot for Sacramento, without as much as a ten cent piece in his pocket, and without his coat, which had at staked as a last resort.—Marysville Californian.

Californian. I LEARNED A good lesson when I was a little girl, said a lady. One frosty morning I was looking out of my father's barn-yard, where stood many cown, oxen and horses waiting to drink. The cattle stood very still and meek till one of the cows in attempting to turn round a consense to bit her next anighbor: wheremon till one of the cows in attempting to the value happened to hit her next neighbor; whereupon the neighbor kicked another. In five minutes the whole herd were kicking each other in grand fury. My mother laughed and said—"See what comes of kicking when you are hit. Just so I have seen one cross word set a whale family by the ears some frosty morning." Afterwards, if my brothers or myself were a little irritable, she would say—"Take care, my children; remember how the fight in the barn-yarn began.

Bagley, formerly a Missionary to Indis, visited Jefferson Davis to induce him to make

ADVERTISING.—A celebrated wholesale merchant in London, England, has presented the proprietors of the Telegraph with a printing press which cost \$25,000, as a token of approbation. In doing so he accompanied the gift by a letter, which said:

"By judicious advertising in your paper I have amassed the fortune which enables me have amassed the fortune which enables me to effer this testimony of regard and good will."

He then went away again; and the bag, being left to itself as before, again be, gan to rise or inflate, but this time, as if some animal like a cat were inside of it. In fact, I could see where there appeared to be legs; and then, to my utter amazement, I may almost say horror, it began to move toward me, as if impelled by the unknown something in it! I do not think I am a coward—my worst enemy has never accoused me of being one, at least—but I confess that en this occasion my nerves would not let me remain passive, and I retreated from the advancing mystery, and informed meaning as the state of the some manifested from an early age, was opposed to the marriage. The son, whose evil instincts had been manifested from a early age, was opposed to the marriage, and was resolved to prevent it by murdering the woman on the very day before that on which it was to be solemnized. He had been, up to the last moment, apparently on friendly terms with the widow Bainville. On the vening of the 20th of December he called to see her in her apartment, where she was employed in her usual occupation, in company with her daughter and three young girls, her assistants. He told her he had a message from his father, and on gotting her down stairs into another room, the door of to see her in her apartment, where she was employed in her usual occupation, in company with her daughter and three young girls, her assistants. He told her he had a message from his father, and on getting her down stairs into another room, the door of which he shut, he threw a cord round her neck, which he had previously tied to a book fastened in the wall for that purpose. She resisted and got her hand between her neck and the cord, when Lemaire took a knife, which he had previously bought and ground so as to make it a two-eiged weapon, and stabbed her in the face, the neck, the breast, the back, and other parts of the body. The daughter, who heard her mother's shrieks, rushed down stairs, and she and the porter of the house found the door fastened on the inside. They then forced it open, porter of the house found the door fastened on the inside. They then forced it open, when they saw the unfortunate woman lean-ing against the wall, covered all over with wounds, and literally bathed in blood She threw herself into her daughter's arms, and then fell dead. Behind her stood the murderer with his shirt sleeres tucked up, a long

HEMORRHAGE IN EXTRACTING TEETH.

—Hemorrhage from extracting teeth is not a very frequent occurrence; yet there are cases when bleeding continues after extracting a tooth, for one, two, and even three days, causing much anxiety and suffering. It is rare, however, that a case ever proves fatal; yet it might possibly occur, and it is necessary that every person should know how to treat a case if it should come under their observation. The remedies are few and simple, and can be had in every family. The first remedy is to use freely of cold—

This, in many cases, will be sufficient; yet there are instances wheat his will not answer. In such a case, take a piece of cotton or lint, well soaked in a strong solution of alum water, rolled up in a small, hard wad, and press it firmly up the cavity of the tooth, so as to reach the mouth of the bleeding vessel, and at the same time of the bleeding vessel, and at the same time of the bleeding vessel, and at the same time close your teeth upon and compress it, so at to retain it in that position, where it should be kept from two to twelve hours without being removed. This remedy we have never known to fail. It is simple, easily applied, and within the reach of every person.

An attoracy who wished to show his smartness by quizzing an old farmer at an election dinner, began by asking him if there were many girls is his neighborhood. "Yes, there's a dreafful sight of 'em," replied the old man, "so many that there ain't half enough respectable husbands for 'em all, and some of 'em are beginning to take up with the lawyers!" The attorney didn't follow up the subject.

Democratic County Convention Elsewhere we give place to the official report of the proceedings of the Democratic County Convention. As a whole, the Convention was harmonious, and as the list of members will' show, the Convention was composed of the test men in the countymen who have property and interests at stake, and who acted with a single eye to the public welfare. Of the gentlemen p in nomination-with the exception of the Councilman-we can truly say that they are fair representatives of our people, and that if elected, they will well and faithfully discharge the duties that pertain to their respective positions. On the county ticket appear the names of several gentlemen who have already been tried and found faithful public servants. Mr. Blewett has filled the position of Auditor for the term of two years, and his nomination by acclamation for a second term is the highest evidence of the faithtulness and ability he has exhibited in the office. Mr. McAuliff has been the custodian of the county funds for some five years, and in that capacity has so discharged his duties as to wring from both friend and foe the admission of his unquestioned hopesty. His competitor for the nomination was a gentleman who is highly esteemed. but under all the circumstances the Convention was unwilling to displace a faithful officer in order to make way for an aspirant whom they all respected. At the head of the list of candidates for County Commissioners stands the name of D. M. Jesse, the present President of the Board, under whose macagement the county indebtedness has been agement the county indebtedness has been ner; 11, Surveyor; 12, Superintendent of Schools; 13, County Commissioners.

After debate, the report was adopted. head of the Board, sided by competent and efficient colleagues, such as Mr. Barnes and Mr. McGhee, tax payers have the as-surance that the finances of the county will be managed with a strict regard to economy, and that at an early day the entire debt of the county will be extinguished. Of the remaining gentlemen placed in nomination for county offices, we have not space to speak in detail. This, however, we can say, that they are all gentlemen of good repute, and that, in every instance, nominations were made solely with a view to fitness and capacity. As a matter of course, the action of the convention disappointed the expectations of possibly a score of aspirants who estimated their claims at a high figure, and being disappointed, seek to raise a hue and cry. These latter gentlemen belong to a class familiarly known as "sore heads," and after they have made themselves ridiculous by the exhibition of their soreness, most likely will subside. On more than one occasion we have endeavored to impress upon our readers the idea that politics is a lottery in which the blanks greatly outnumber the prises, and that as a consequence all who venture into the "filthy pool" should be pre-

A SILLY ARGUMENT .-- We notice that the fact that Hon. Frank Clark was at one time employed as counsel for the Hudson Bay Company is being used against him in the canvass. There may be point in this argument, but if so, we fail to see it. The business of an attorney is to defend all cases in which he may be employed, and unless Mr. C., in the capacity of attorney did some, thing outside of his duty, he certainly is not amenable to censure. The Hudson Bay Company, like other corporations, as individuals, have legal rights, which it is their privilege to defend; and in doing this, if they thought fit to employ Frank Clark, it only goes to show that he is a good lawyer, and by no means proves that he is unfit to represent the Territory in Congress.

THE SHERIFFALTY .- The office of Sheriff must be the great prize in this county. At pirants for the place. The democrats have placed Mr. Hodgis in nomination for the position; Mr. Seitel, the prezent incumbent, is a candidate for re-election; and now a third Richmond enters the field in the person of Dock Thompkins, who announces himself as an independent candidate. In addition to all these, it is understood that the republicans will nominate a candidate, thus making four entries for the Sheriff's purse. Certainly, there is no lack of patriotic citisens who are willing to sacrifice themselves for the public good.

THE CANVASS .- Messrs. Clark and Flanders, opposing candidates for the Delegate. ship are busily engaged in canvassing the Territory. They commenced the canvass at Whatcom, on Tuesday, April 30th, and have appointments to fill at all the more important points in the Territory. They will speak at Wallula on Thursday, May 23d; Walla Walla, Saturday, May 25th; Waits. burg, Monday, May 27th; and at Pinckney City, on Saturday, June 1st. Mr. Garfielde accompanies the candidates and takes part in the discussion

On motion, the Vancouver platform and de claration of principles was adopted as the plat-form of the democrats of Walla Walla county. DEMOCRATIC PLATFORM.

ISL Remired That those lately in insurrection against the Federal Government, having laid down their arms and fully resumed their dates as citizens of the Usited States, there is no other obstacle in the way of the harmonious rorking of our republican institutions are the factious course of a mutilated Congress, who have isangurated a new revolution and are determined to rule the country in violation of the Constitution and to establish their wild and fanatical will, as a substitute for the Usion framed by the fathers of the Republic.

and to establish their wild and fanatical will, as a substitute for the Union framed by the fathers of the Republic.

2d. Resolved, That the only way in which peace and concord can be re-established is by conforming to the requirements of the Constitution and defeating the Radical party, who aparn its provisions and imperil the Union by their mad and seditious course.

Resolved, That to effect this object we solumnly pledge our most untiring efforts; that the accomplishment of this end is the grand question now pending, transcending all others in importance, and that the present imminent perils of the country demand the union of all conservative bearts and hands, irrespective of former or present party names, in a vigoreus effort to maintain the Federal Constitution in its integrity and secure its operation according to the spirit and intent of the United States of those rights always possessed by them since the days of 1776 of disfranchising their people, is so absolutely opposed not only to the dearest provisions of the Federal Constitution, but to every sound idea of practical statesmanship, is so thoroughly antagonistic to those principles of reserved wights and of municipal governments regulating their own domestic affairs, that underlies our republican system, that it is the duty of the people of Washington Territody, regardless of past political divisions, to pronounce their condemnation of the Radical party by electing year who love and are determined to preserve the American Constitution and the American Union.

7th. Resolved, That we are unconditionally op-posed to the late law of Congress, called the Reconstruction bill, and the supplement thereto, believing that the intention and tendency of such legislation is to make the whole power of the United States subordinate to the military.

believing that the intention and tendency of such legislation is to make the whole power of the United States subordinate to the military, contrary to the true intent, spirit and meaning of the Constitution.

Stb. Resolved, That we believe this is a white man's Government, made by white men, and that none but white have a right to administer or control it, and we are therefore opposed to the principles of the late laws of Congress conferring the rights of cliticenship—the elective franchise—and theright to occupy and hold the public domain, upon all persons, without regard to sace or color, and that we shall expect or require our delegate in Congress to use his best endeavors to procure a repeal of said laws. 9th. Resolved, That we are in favor of the repeal of the laws of Cangress unjustly exempting the United States boads from taxalion—of returning to the most rigid economy in the administration of the general government—to the end that the people may be relieved as far as possible from the burdens of taxalion with which they are now oppressed.

Dalles Correspondence.

Dalles, April 29, 1867. PROR OWTERS.

EDITOR STATESMAN: -A gentleman writes rom Ruby City, Owyhee, that trade is still very dell in that section. The snow is now rapidly disappearing, and Chinamen are preparing to mine extensively on the banks of Jordan. A wrong impression throughout the country ha been created in relation to surface diggings in Oxybee, and our miners have left the field to John Chinamen. It is estimated that over five bundred celestials will work on Jordan Creek the ensuing season. The mill companies are all getting ready for a vigorous spring campaign, and the presumption is that the first day of May will witness the whistle of all the quartz mills. Once in operation again, the world will be as tonished at the yield of gold and silver from that country. The failure of Moore & Fogus is accountable for the late depression of business in that locality; but the people are getting bravely over their heavy losses. Mr. Whibridge is appointed agent by the creditors of Moore & Fogus to dispose of the Oro Fino mines. This gentleman intends to organise a company in Burope for the purpose of working these mines, and will shortly proceed to England. While on a late trip to the East, Collier Robbins, Esq., was very successful in organizing companies for the purpose of tunneling and developing the Owyhee country. It is useless to disguise the fact that we are rapidly losing our supremacy o the Owyhee trade, and that we had better take some steps which will bring back that trade to our town. The people of Walla Walla are heavily interested in this question, as, owing to the lack of agricultural country in Gwybee, Walla Walla produce will find a good market in that section.

A HINT TO PORTLAND.

A HIRT TO FORTLAND.

This country requires some radical changes.

Disguise the fact as you may, the Chico and
Humboldt reads are taking over fifty per cent,
of our travel and freights. The O. S. N. Company's charges are entirely too exorbitant. Complaints to that effect reach us from all quarters interested. The Company, if wise, will at once yield to the just demand of its supporters; or else, when too late, they may be made to feel that they have been entertaining them selves with false delusions. Portland, too, claiming to be the emporium of this northern northern country, ought to bestir herself. She certainly has men of means, and three-fourths of the capital of the State is controlled in that city. In addition to this, she possesses great business houses; but, unfortunately for the whole country, instead of drawing their supplies of goods from the Eastern market, they are content to play second fiddle to San Francisco. At a time when California makes great efforts to wrest a trade from us which is legitimately ours, it becomes our duty to look for some measure which will have the tendency to repulse our rival. The merchants of Portland should at once inaugurate a system of direct importation. This would fall like a thunderolt on the people of California. Idaho merchants would find it greatly to their advantage to procure their stock of merchandise in our market; the O. S. N. Co. would regain their carrying trade, and the towns on the Columbia would be equally benefitted. The time has approached when rivalfy must cease at home, as we are all in duty bound to co-operate for the purpose of fighting our California rivals. We of the Columbia will gladly half Portland as the emporium, providing her citizens effect such arrangements as will relieve us from our present dependence upon San Francisco.

ITEMS FROM THE JOHN DAY COUNTRY. By Buchanan & Co's express, which arrived Saturday last, I received the following items : Trade is improving at Canyon City and vicinity. The miners are getting ready to sluice, and they expect to "strike it big" during the coming beason. The Indians are on the rampage again. A considerable amount of stock has lately been nation, the Convention proceeded with the laigns of depredations have been noticed on the

Canyon road. Whilst engaged in taking a load of passengers to Canyon City, the driver, Mr. Clark, noticed " Lo " with a goodly let of fine American stock, driving northward. Mr. Clark, American stock, driving northward. Mr. Clark, in company with several passengers, started in pursuit of the rascals, and succeeded in recapturing the stock and killing four Snakes. One of the scalps has been sent to the Dalles, and was to be seen at Harry Kerrison's saloon.

During his term of office Mr. Brooks has been the means of throw ing open to settlement several fine districts, ou nail facilities are complete, and thanks are the enterprising gentleman.

DALLES AND UMATILLA STAGE LINE. Mr. Ward's stage line is managed with great regularity. The traveling public, in recognition of the gentleman's exertions to establish an excellent stage line, and in consequence of low charges, crowd the stages to excess. So important has the travel already become, that Ward will soon see the necessity of dispatching two concord stages per day. Sam. Brooks, Esq., is the resident agent of the line at the Dalles, and Sam. knows how to "run the machine." I have received a communication from a passenger, who requested me to publish his note in the Statesman. The gentleman is delighted with the trip, and says "that the accommodations are such as is seldom displayed on the access. DALLES.

Ratification Meeting

A large and enthusiastic meeting of the lemocrats of Walla Walla county assembled at the Court House, in the city of Walla Walla, on the evening of Wednesday, May 1st, for the purpose of ratifying the nomina tion of Hon. COMPILED FROM THE DAILY OREGONIAN CONGRESSIONAL

Washington, April 20 .- In the Senate, Sumne Washington, April 20.—In the Senate, Sumner offered a resolution tendering the offices of the United States to Mexico, to aid in the establishment of a republican government. Henderson offered a substitute, declaring that Maximilian should have humane treatment. Both were laid on the table. Cole, of California, offered a resolution providing for American mediation between France and Prussia, on the Luxemburg question. Laid over. The Senate confirmed M. F. Moore for Governor of Washington Territory. Adjourned sine die.

Washington Covernor of Washington Territory. Adjourned sine die.

Washington, April II.—The resolution offered in the Senata in favor of mediation in Mexico caused debate. A substitute was offered to the effect that the Mexican people are able to expel the foreign invader, and, consequently, mediation is unnecessary. The majority favoring substitute, the resolution was withdrawn.

The World's special dispatch says that the counsel engaged in the injunction cases have held a consultation and agreed that O'Connor shall address the Court for both Georgis and Mississippi. The arguments will be heard on the 20th December. It is expected that a decision will be given on Monday, April 29th.

Washington, April 26—In the Supreme Court tooday arguments were heard on the Gergia and Mississippi cases. Stansbury argued that it being a political question, the Court had no jurisdiction; Mr. O'Connor, on behalf of Georgia, argued that. Next Friday, Walker will argue on behalf of Mississippi, and the case will be closed by Stansbury on behalf of the Covernment.

Washington, April 21.—The Senate yesterday had dwindled to less than a quorum, and adjourned without filling all vacancies, which with two viceptions, are in the West. There are sinc offices without postmasters in Illinois, one in Pensylvania and four of five vacancies in the Internal Herenue offices in Indiana, Illinois and Wisconsin. No nomination for Consul at Panama was confirmed, and under the tenure of office act vacancies cannot be filed by the President during the recess of Congress.

The following resolution was offered on Sat urday evening by Johnson, of Maryland, and laid on the table:

"Wennas, The United States refused in any way to acknowledge the Imperial Government of which Maximilian was head, but continued to recognize the Republican as the only legitimate Government of Maxico; it is the opinion of the Senate that the United States should adopt water measure to avoid the unnecessary effusion of blood and restore peace to Maxico; that the President be requested to offer to the contending

earties the friendly mediation of the United States to bring the civil war to a termination, parties the friendly mediation of the United States to bring the civil war to a termination, on terms honorable to both, and to secure to Maximilian and all foreigners the benefit of the rules of civilized warfare. It being understood, however, that Maximilian aball abdicate, and, with the foreign troops, leave the country."

The Chronical, of to-day, says that when the Senate adjourned lest night, the impression seemed to be almost unanimous that there would not be a quorum in either house on the 2d of July. The feeling between Senators and the President is comparatively cordial, and intelligence from the South promises submission to the reconstruction act.

Washington, April 24.—A lighthouse district has been established, with headquarters at Astoria, Oregon. The commander is inspector.

SENATION WILSON SPEAKS AT RICHMOND.

RICHMOND. APRIL 21.—Senator Wilson, of Massachusetts, addressed a large mass meeting at the Court House, on Saturany, April 20th. His subject was reconstruction and events of the war. He claimed that after the war the North had no ill feeling, and he laid the blame of the present dissatisfaction upon the policy of President Johnson. He defended Congress from the charge of violating the Constitution. Major J. H. Lee replied to Wilson, charging the tutroduction of slavery upon the North. He said Lincoln did not intend at first to liberate the slaves, and claimed that Southern men were the slaves, and claimed that Southern men were the best friends of black men.

A RUROPSAN WAR IMEVITABLE.

New York, April 27—The Tribune's special dispatch says the Department of State has received by mail revoluminous dispatches from our Ministers to France and England which show couclusively that a general European war can scarcely be avoided. Napoleon, for a month past, has been making extensive military preparations. The war feeling among the French is almost beyond Napoleon's control.

'Mailakoff' writes to the Times under date of Paris, April 12th: The people are excited to such a point that all serious business transactions have been arrested. No large orders are given for manufactures. The exasperation extends further back than the Luxemburg question and was caused by the anti-French sprit per-

given for manufactures. To exasperation extends further back than the Luxemburg question
and was caused by the anti-French spirit pervading Germany. This was understood by the
French previous to the late war. They are enraged at the failure of the Government to take
timely action. The opposition members of the
French Chamber are humiliated at the position
of France, and while willing to fight their way
out, are at the same time organising for revolation. They think the Republic could fight
Europe combined.

New York, April 26—The London Times' Paris correspondent, writing under date of April 12th, says: Experiments have been made at Vincennes with a new cannon of the Emperor's invention. The result was carefully concealed from the public and the soldiery; the officers only practiced 12 or 16 shots a minute. It is the needle gun system applied to artillery. It is positively stated that in case of war with Prussia, Italy will join France; Barsria and Baden will be told that if they take part with Prussia, their territory will be made the battle-ground. Captain 33d Infantry, and A. C. S.

JUDGE WYCHE, we understand, propos to give his views on questions of public interest, at the Court House, on Monday next, the 6th of May, at 7 th P. M.

AT Home.-We notice that H. Parker. Dr. Baker, and all the other gentlemen from this county who figured in the Vancouver Convention, are again at home.

HENON CONVENTION .- The Union Con vention for Walla Walla county will meet on Saturday, May 11th, for the purpose of mominating a legislative and county ticket.

Pic-Nic .- The young ladies attending the Catholic Seminary will have a pic-nic, on Monday next, the 6th inst. Parents, and friends of the school are invited to attend.

CROWDED .- The pressure of advertisements is very great, and, as a consequence, we are compelled to omit the publication of quite a number of business cards. We trust our patrons will excuse the omission.

DISTRICT COURT.—The May term of the District Court, Judge Wyche presiding, will commence on Monday next, May 6th Jurors and witnesses shou'd be prompt in their attendance.

CONTRACTORS will read the advertisement of Lieut. Manning, Quartermaster, Fort Walla Walla, inviting proposals for supplies of oats, barley, straw, wood and charcoal, for the use of the post.

RIGHT.—Our merchants have unanimous ly agreed to close their respective places of business on Sundays, after 3 P. M. This arrangement will afford much needed recreation, and, at the same time, give purchasers every reasonable convenience.

ARMY SUPPLIES .- It will be seen that Capt. Haskell, Commissary of Subsistance, advertises for four hundred barrels of flour, to be delivered at Fort Boise, and five hundred and twenty barrels, to be delivered at Fort Walla Walla. Our millers here have a chance to get rid of a portion of their sur-

RUMOR.-For several days, a rumor was current that the steamer Mary Moody, plying upon Pen d'Oreille Lake, had met with a terrible accident. The mail carrier just in from the Lake, sets this rumor at rest, and says that the steamer met with a slight accident to her machinery which detained her but one day. The steamer has been repaired, and is now making her regular trips.

MAY FESTIVAL -On Wednesday, May 1st, the children attached to the Walla Walla Public School celebrated the advent of May by a pic nic. The beautiful grove just below the garrison was selected for the occasion, and those who were there, inform us that the children had a delightful time The school is under the charge of Professor Moore, and, we are pleased to say, is in a flourishing condition

#### The Freight Question.

A meeting of the merchants was held at the City Hall on Tuesday evening, April 30th, at 7 P. M., for the purpose of considering the proposition made by the teamsters, to transport freight by land from the Dalles to Walla Walla. After arranging preliminaries the meeting adjourned, to meet on Tuesday evening, May 7th, at 7 o'clock. A full attendance of the merchants and teamsters is requested.

J. D. Cook, Secretary.

To the Democracy of Walla Walla.

I am painfully surprised to learn that it is intended to bring before the people an Independent Democratic Ticket for county of fices. Although of the opinion that a part of the proceedings of the late Convention were irregular, still I cannot think that this course is a wise one, and I know that it is contrary to the true principles of Democracy.

All will no doubt concede that I have good cause to complain of the action of the Convention, yet, I shall always be ready and willing to accept the "post of honor." for the purpose of promoting harmony afd good feeling. As for side issues, I know of noue. Henni M. Chase.

FROM PIONEER.—A private letter from Pioner City, April 21st. speaks as follows concerning the "King" quartz mine of that place: "We have just finished crashing swenty-five tous, and cleaned up last Thursday \$2,600—taken eut of the King lead. Everything is working facely. The tunnel is in 225 feet and in good order. They are taking out more ore. We are short of provisions, and it will be a month before we can get more, as the snew is ten feet deep at the steam mill and also at the mine.—Idaho Statesman.
