Now is the Time for Action.

Our citizens apparently have awakened to the fact that if this city is to retain the pre-eminence she has worked so hard to gain we must keep up with the times and assist those who are only too ready to help us assure our future.

Every man interested in this town must in the future, from now on, be wide-awake, up and doing, and the few public-spirited citizens who have in the past carried the burdens of the whole community in every enterprise, must have their burdens shared by those who have, until now, stayed steadily in the background.

The School Tax Vote.

The STATESMAN heartily congratulates the tax-payers and all others interested in the welfare of the city at the result of the vote cast on Saturday.

Labor Lost.

On Saturday, the tax-paying voters of this city did just what every sensible and thoughtful citizen expected they would do. They gave an expression of their sentiments in a manner that there is no earthly doubt the school directors will heed.

Mr. R. B. HAYES has had a sudden attack of enlargement of the heart, and has donated \$50 of Mr. Tilden's money to the Garfield monument fund.

Land Remote from Railroads.

Farmers appreciate railroads better than they appear to when they are heard abusing the way in which many of them are managed. Their estimate of the value of railroads is shown by their willingness to pay two prices for the land in the vicinity of one. The alternate sections of government land contained within the limits of a railroad grant have been sold for twice the sum asked for the same quality located outside.

In many parts of the west railroads were made in advance of the settlement of the country. The roads were made by land grant companies on the plea that it was necessary to develop the country.

It is evident that all farmers cannot live in the immediate vicinity of a railroad, for there is a limit to the number of roads that can be profitably operated. It is also evident that there are some advantages in living at considerable distance from a town.

The School Tax Vote.

The STATESMAN heartily congratulates the tax-payers and all others interested in the welfare of the city at the result of the vote cast on Saturday.

On Saturday, the tax-paying voters of this city did just what every sensible and thoughtful citizen expected they would do. They gave an expression of their sentiments in a manner that there is no earthly doubt the school directors will heed.

Mr. R. B. HAYES has had a sudden attack of enlargement of the heart, and has donated \$50 of Mr. Tilden's money to the Garfield monument fund.

TELEGRAPHIC.

Earthquake at Portland.

A Portland dispatch of May 1st says: At 12 minutes to 11 o'clock last night a slight earthquake shock was felt, lasting probably two seconds. This was followed about three seconds later by a more severe shock, accompanied by a low rumbling, which lasted from five to seven seconds.

Wildfire in America.

NEW YORK, April 29.—A dastardly attempt was made to-day on the lives of Wm. H. Vanderbilt and Cyrus W. Field by sending them explosives through the mails. Fortunately the dangerous character of the packages was discovered en route to the postoffice station.

Gov. Crittenden, of Missouri.

Is down on horse thieves. A petition was presented to him for the pardon from the state prison of one of these fraternity, to which he made this terse reply: "I will not pardon a horse thief."

County Commissioners Court.

Elegant Designs in Ladies' and Childrens' Hosiery, New Spring Wraps, Linen Dusters, Buttons, Fringes and Gimps, Ladies Muslin Underwear and Corsets. Our present Assortment of Mens' Underwear and Hats is the most Extensive and Complete Ever Exhibited in Washington Territory.

OUR PRICES

A visit and inspection is all we ask, that is all that is needed, our prices will strike the public mind in language more eloquent and convincing than any words we could express.

ALL GOODS MARKED IN PLAIN FIGURES!

When we inaugurated this system the people knew that it was the only upright and just method of carrying on business. They at first doubted our assertions, but as time wore on we knew that they were convinced of the truth of our advertisements, and our assertions now are the same as they were then and that is, that these rules will be carried out with the same sacred certainty that night succeeds day.

GOODS SOLD ONLY FOR CASH

This is the great rule which forms the foundation of our business. Consider for a moment what this rule enables us to do. We purchase our goods from the manufacturers for cash, and we mark them in plain figures at the lowest living rate of profit, but we mark them only to sell for cash, we give no credit, we have no book accounts, and we don't propose to have any, we don't believe in asking a cash customer to pay some one else's bad book accounts. In marking our goods we charge no percentage to make up for doubtful book debts because we have none. Our theory is, if we sell a lady fifty dollars worth of goods very cheap for cash, that we gain as much as the lady, the lady saves probably fifteen dollars, but that lady ever afterwards in reason recommends us to her friends and we believe we ultimately gain as much by that means as the lady. We are well aware other houses think differently but that is our idea and we believe it is right.

COUNTRY ORDERS!

Any lady residing at a distance can purchase goods by letter as if she were present in person. It's our interest to convince every lady of the truth of this fact. We send samples free on application, and when an order is entrusted to us we consider this as powerful auxiliary and most patient aid to our business to execute it in a manner that will convince that lady that whether personally present or by letter the advantage is the same. "We do unto others as we would wish them to do to us."

DOHENY & MARUM,

CORNER MAIN & SECOND STREETS, Walla Walla, W. T.

REES, WINANS & CO

Successors to

JOHNSON, REES & WINANS.

Are now receiving their

Spring and Summer Goods.

FIFTY PER CENT SAVED BY HAVING your job printing done at the STATESMAN OFFICE. Call for estimate samples.

THE LOCAL LINE.

Creditable Showing of the News of the Day in the Columns of "The Statesman."

Ethelistic is played out. Tinted photographs are becoming all the rage. Mr and Mrs. Prather, of Dayton, is in the city. Don Knapp, of Wallburg, is in town looking first-rate. Walla Walla can boast of several "girls of the period."

Water pipes are being laid from East Main along Spokane street. We feel tempted to publish the details of the late terrible scandal. Our jovial friend Schwartz has put up a magnificent French mirror in his saloon. Jimmy Gray, now of Dayton, is in the city on a visit; he is as pleasant as ever.

Confirmation services will be held in St. Paul's Church on Wednesday, May 10th. Uneasy lies the head that wears a (official) crown. They come like shadows, so depart. R. M. Washburne, the man who makes the Dayton Chronicle look so pretty and nice, is in town on business.

Roadmaster Shaw is improving the grounds around the depot by planting shade trees around the buildings. We are sorry to see Ed. Short limping along the street. He is suffering from an enlargement of the knee cap. W. F. Kettelbach, Esq., of Lewiston, and one of its most enterprising citizens, is in the city on court business.

Clement Bergevin was admitted to citizenship upon the evidence of Geo. F. Thomas and W. R. Thompson. Some little stir was occasioned on Monday when it was discovered that the lowest bidder for grading Second street was an outsider. Upon motion of Hon. N. T. Cato, J. H. Budd was on Monday admitted to practice law in all the courts of this territory.

A. F. Parker, of the Lewiston News, passed through the city for Umatilla county to attend to a section of land he owns over there. We can now arrive at Dayton at 9 A. M., do a good day's business and return to Walla Walla by 7 P. M. Darn the railroads. We direct the attention of our horse raisers to Montana; at Fort Benton two hundred dollars are asked for a team of scrubby cayuses.

Mr. R. B. Hayes most greatly relish the reputation of the western press over the re-appearance of Pat Dowling to the Toledo post-office. Warren Wither recently informed us that cattle never looked better or more thriving than now. "Why," says he, "even the steers have calves this year."

One of the deserters brought up from The Dalles by Sgt. Jimmy Holland, had \$700 in his possession, and was engaged to be married on the first day of May. We see by an editorial in the Chicago Times that President Arthur has reinstated Pat Dowling in the Toledo postoffice. And, by the way, this same editorial is mighty interesting reading.

Property in Dayton has increased amazingly in price since the fire; there is a grand future before that city, and town lots on Main street will become very valuable. How much is 90 feet front worth, Burk? Under the new Crow treaty bill 1,000,000 acres have been restored to the public domain in Montana. The released section embraces the Clark's Fork mines, discovered in 1872, which are said to be fabulously rich.

Warren Wither, of Rock creek, now in town, is one of our old-time citizens and one of the most energetic movers in the whole county. Every one is glad to know of his prosperity, for no man better deserves it. The city has won the case for the removal of that old slant on the corner of Second street, and now it is to be hoped that it will be shortly removed. However, Charley Davis is all right and that is as much as any care about.

The handsome, well-dressed young men, who were so numerous here a year ago, are evidently gone where the woodline twineeth. Fashionable society of this city has very little use for a young man without a bank account. A drink called Zoolone has been more extensively advertised than any other beverage, on Monday in company with a friend we tried it and found it to be very moderately pleasant but similar to a weak decoction of ginger ale.

Sprague Items.

Joe Steiner has opened the Senate restaurant and with his good reputation for caring for the wants of the inner man will do well. Dr. Olds' office is on Main street and but for the health of the country would have a large practice for the citizens like him. Billy Singleton is in the saloon business and has a very large run of custom. Eddy King is the boss druggist in Sprague.

E. M. Kinnear has entered his new store with a fine lot of goods; he is a live man and just the kind a new country requires. Town lots are going off like hot cakes and will be more valuable as the country gets older and more settled. The removal of the county seat of Spokane county to Sprague is the next move. J. J. Burns the enterprising post-master keeps a choice lot of literature; copies of the STATESMAN can always be found there. Go to Sprague.

Messrs. Sprague and Fairweather's new store 65530 open to the public and goods are constantly arriving; they will carry a large and good stock as any form in the upper country. Fourteen more stalls are to be made for the round house. Some of the streets have been gravelled by private enterprise and are much improved. Seventy-five miles of agricultural country pay tribute to Sprague.

Sprague is a fixture, and whatever its enemies say, the machine shops, round house and head quarters are there to stay. J. J. McAniff well known all over the country is occupying a very responsible position with the railroad company, he is the right man in the right place for he knows his business and how to do it in a pleasant manner. W. T. Brewer is one of the solid men of Sprague and we hope will yet become a millionaire.

Sir Patrick Wallace is the father of Sprague; he dug up seven acres of land there eleven years since and by his liberality in donating land to the company was one of the causes of the large shops being erected there. Snake River Items. The weather on the river for the past few days has been almost tropical.

The steamers remove 40 tons of grain per day from points between Lewiston and Texas. The amount now stored in the different warehouses will not exceed 2,000 tons. Twelve of the workmen employed at Granite Point struck for higher wages last Monday and received the grand bonus. Thirty men are still quarrying there. The Northern Pacific are building another large scow at Texas, 150 feet long, to haul rock from Granite Point to Amosworth.

The steamboat ways at Texas are nearly completed. The levee built to protect the end of track at Texas is being fortified by placing large boulders on the surface exposed to high water. High water is predicted next June. The D. S. Baker has had her broken machinery replaced and is now making regular trips to Lewiston in connection with the John Gates and Almota. The Annie Faxon is exclusively engaged in hauling rock and towing scows from Granite Point. All the Snake river towns are very dull.

GEN. TANNATT IN SEATTLE.—General T. R. Tannatt, general agent of the Oregon Improvement Company, accompanied by his wife, arrived in Seattle Friday evening, and are stopping at the Arlington. The General was here eighteen months ago, and negotiating for the purchase of the Seattle and Walla Walla railroad and the Seattle coal mines. He expresses himself as greatly surprised at the growth of the town since his last visit, both as to the increase of business houses and residences. The general expresses it as his opinion that the line of railroad from Seattle will connect with the Northern Pacific south of Tacoma, somewhere on the Yelm prairie. He indorses the action of our citizens in organizing the Seattle, Walla Walla and Baker City Railroad Company, and says it is a step in the right direction. He says the time is not very far distant when a railroad will be built across the mountains to Puget Sound. The surplus grain yield of Eastern Washington and Eastern Oregon last year amounted to 290,000 tons, and the General estimates that the increase this year over last will be at least 40 per cent. At this rate in a very short time the road down the Columbia will be unable to do the carrying for that immense source of fertile country, thus making a road across the mountains almost a necessity. The Oregon Short Line is heading in this direction and must find an outlet somewhere, "and why," said the General, "should they go to Portland, where the field is occupied in preference to going to a more available point on Puget Sound, where the field is not already taken up?" General Tannatt's trip is purely one of pleasure and recreation. He will start on his return trip to Walla Walla, his present home, to-day.—Post-Intelligencer.

A MEETING THAT MAKES AMENDS.—Late on Wednesday evening a few citizens were invited to be at the offices of the Oregon Improvement Co., to meet Messrs Buckley, assistant manager; H. M. Thielsen, assistant chief engineer; J. M. Fillmore, railroad superintendent; and George Wright, assistant chief engineer of the O. R. & N. Co. The meeting was a very pleasant one and will no doubt result in much good to the country around us in general and our city in particular; some very sensible talk was had and conclusions arrived at that, it was to the benefit of the people and the company to work hand in hand for the general welfare. Sapper was served in the Delmonico in Chilberg's inimitable style after which the company adjourned up stairs and several speeches were made; the happiest feeling prevailed mutual wishes for the success and prosperity of the company and this city were freely expressed. It was after midnight when the party broke up.

RAILROAD ORGANIZATION.—We understand that one or more railroad companies will be organized in this city the present week with the idea of locating roads and obtaining rights of way to and from this city but all centering here. This is well but in turning the route over to any corporation the greatest care should be taken not to throw the right of way into speculative hands. NEW SUPERINTENDENT.—By a circular recently issued we learn that Mr. J. M. Fillmore is appointed superintendent of the railroad division of the O. R. & N. Co., with office in Portland. Mr. Fillmore occupied this position on the Oregonian Railway narrow gauge for some time and is very highly spoken of in railroad circles and is withal a very pleasant gentleman.

NOTICE TO ADVERTISERS.—All advertisers are hereby notified that changes for the weekly STATESMAN must be brought to the office not later than Wednesday afternoon by 4 o'clock in order to ensure insertion. The very large circulation of the weekly edition necessitates going to press much earlier than ever before hence this rule will strictly be enforced.

DISTRICT COURT—MAY TERM.

FIRST JUDICIAL DISTRICT, MONDAY, MAY 1. Present, Hon. S. C. Wingard, Judge; J. B. Allen, U. S. Attorney; Geo. T. Thompson, Prosecuting Attorney, and Jas. B. Thompson, Sheriff. Officers of the court appointed and sworn, J. P. Thompson, clerk; F. Goodhue, G. F. Thomas, W. R. Thompson and Geo. Smalin, bailiffs. James H. Budd, on motion of N. T. Cato, admitted as an attorney. Application of Clement Bergevin, of Canada, to become a citizen, heard and granted. Mary A. Harragan vs Patrick Harragan; divorce granted. Baker & Boyer vs Alfred Babcock; judgment. Mary A. Everts vs Wm. Everts; divorce granted. Hawley & Doid vs John O'Donnell; continued for the term. Hawley & Wallace vs John Welch same. Osborn & Morrison vs Ireland & Estler; dismissed. Marion; judgment withdrawn; judgment rendered by consent.

The grand jury was sworn as follows: F. P. Adams, J. W. Armstrong, John Manion, J. M. Hill, Thomas Paul, S. F. Anderson, J. M. Gose, B. B. Hayward, J. W. Cornwell, P. R. Fields, M. J. Loundagin, Chris Sturms, N. S. Ghoslen, Clement Bergevin, W. T. Barnes, Wm. F. Gwin. Being fully charged by the court the grand jury retired to deliberate. SECOND JUDICIAL DISTRICT. Court met at 9 A. M. A. J. Fancher was appointed and sworn bailiff. E. K. Hanna was admitted to practice as an attorney on report of a committee. In the case of the city of Walla Walla vs M. C. Moore and Chas. Davis; demurrer and motion to strike out argued and sustained. Leave to amend given and exceptions allowed. Mahala Jessup vs Napoleon White; judgment. Hawley, Doid & Co. vs John Gray; a change of venue granted. Same vs M. D. Wright; same. Taylor & Taylor vs O. R. & N. Co.; motion to strike out confessed and leave to file amended complaint given. Grand Jury in case of Territory vs James Lawler, returned not a true bill. Same vs George Bowser and Jos. Moore; not true bills. Same vs G. E. Spurbek; grand larceny; true bill. Defendant defaulted and bond of \$500 forfeited. Same vs John Haily; grand larceny; true bill and defendant arraigned. Same vs Chris Johnson; same. Same vs T. Smith and T. Greenwood; burglary; true bills and defendants arraigned. All parties indicted and arraigned to plead to-day.

N. Ford vs Hawley, Doid & Co. and Jno Mustard; motion to strike case from docket sustained. A. Daggert vs T. W. McCormick; motion to strike paper from file granted. John E. Budd vs Peter Huff; motion to strike from answer sustained in part. THIRD DAY. Court met at 9 A. M. The petit jury was called, and consists of the following gentlemen: Dion Keefe, E. Goldman, W. T. Arbery, L. P. Krumer, J. B. Haskins, E. G. Roberts, James Cummins, Jonathan Grant, Pat. Russell, W. P. Wells, Ed. Colwell, G. W. Smith, John Mackin, W. J. Scott, A. C. Dickinson, O. B. Logan, James McFarroe, James Gilbreth, John Gaston, Miles L. Duff, A. C. Loyl, T. W. Henderson, Chas. Lee, C. Kessner. In the case of J. Chetham vs J. Harris; appeal; motion to dismiss was granted. Donovan & Murphy vs Barnes; appeal; same as above. James McInroe vs H. Watson et al; jury called and discharged, and judgment given by consent. The grand jury came into court, and in Territory vs M. A. Bern returned "not a true bill"; also one true bill, and retired to deliberate. Chas. L. Kuhn vs J. B. Thompson and S. A. Nahon; jury trial; jury out.

The Umatilla County Election. Division of the county is the war cry in Umatilla county and we see no reason why at this time it should not be accomplished. Last year the people were betrayed by not having their desires in this respect considered; as by every right, they should have been. As usual the Democratic convention have made their usual mistake in nominating men for the Legislature whose ideas on the all important question of division are in direct antagonism to that of the people. In such a case where it is likely the wishes of the people will be ignored it is better to have one alternative and that is simply for all interested to vote only for the men upon whom they can place implicit reliance. No matter what cry may be raised in their behalf and make them vote "divisary" first, last and all the time; it is of material benefit to Walla Walla as well as to Weston, Centerville and Milton that the unenvied county of Umatilla should be divided, hence irrespective of party we advocate the principle of the greatest good to the greatest number.

AN OLD TIMER LEAVES US.—On Tuesday evening a large party of old time hillbills of Ed. Jordan proceeded with him to the depot to give him a good send off as he was leaving for Missoula. Ed had been a pioneer from a very early day and we have lost a man on whom we could always draw for old time reminiscences. He has been in the saloon business in this city for many years and will be sadly missed; he is a good tempered, honest man and we wish him success in life wherever he may in future plant his stakes.

Escaped from Jail. DAYTON, May 4.—H. A. Blanchard, who attempted to shoot Ben. Hirsch, of Pomeroy, a few weeks since, escaped from the Dayton jail last night. A reward of \$100 is offered for his recapture. Description—about 28 years old, five feet eight inches high, weighs about 170, light complexion, light hair, grey eyes, sharp features, long and heavy, sandy moustache, thin finger nails of left hand hooked over the ends, some of his front teeth filled with gold, had on when he escaped, a dark suit of clothes, long buckle shoes and narrow rimmed, dark hat.

A STRAW TO SHOW THE WIND.—As a mere straw to show the outside influence of the STATESMAN we modestly mention the fact that this newspaper, although published in a territory and democratic, is authorized to publish the Oregon republican State ticket for all a good hotel the STATESMAN is open for all and the people at large evidently know where to obtain the best for their money.

OUR THANKS.—We have received and thank the committee for their great kindness in sending us a copy of the annual report of the Portland Library Association. The plot is everything that could be desired and brings tears into the eyes of all who read it.

NEW HOTEL.—The O. R. & N. Co., have 20,000 feet of lumber on the ground at South Texas for a new hotel which they have designed for the accommodation of 200 guests. This is a long felt want.

OREGON REPUBLICAN STATE TICKET.

J. S. COX DEALER IN CALIFORNIA DOORS WINDOWS, NEW AND SECOND-HAND FURNITURE! Hardware, Crockery, Lamps, Tents, and Wagon Covers, Cedar Shingles and Flooring. Cash paid for all kinds of second-hand property. HARNES SHOP.—In this department we keep all kinds of cheap harness, saddles and whips. Mending a specialty. Cash paid for second-hand harness and saddles or exchanged. Cash paid for hides or taken in exchange for harness work. MAIN ST., opp. ODD FELLOW'S TEMPLE. Congressmen, HON. M. C. GEORGE, Of Maltonomah. Supreme Judge, W. P. LORD, Of Marion. Governor, Z. F. MOODY, Of Wasco. Secretary of State, R. P. EARNHART, Of Maltonomah. Treasurer, EDWARD HIRSCH, Of Marion. Supt. of Public Institutions, E. B. MCELROY, Of Benton. State Printer, W. H. BYARS, Of Douglas. For Judge, R. S. BEAN, Of Lane. District Attorney, E. C. HURSH, Of Douglas. CONDITION AND PROSPECTS. Report of the Pacific Mutual Life Insurance Company of California.

The undersigned committee, representing the policy holders of the Pacific Mutual Life Insurance Co., of California, resident in Oregon and Washington territory, respectfully report that they have completed a careful examination of the business affairs and assets of said company, and find the assets to be correctly set forth in their annual statement of date, December 31, 1881. As to the liabilities, the committee accept as correct the valuation of the policy reserve made by the insurance commissioner of the State of California. During the year 1881, the company availed itself of the advantage offered by the amendment to the law under which it was organized, providing for the retirement of the unsecured notes constituting its guarantee fund, and retired all those notes to their makers, thereby relieving itself of all liability accruing under said notes, without in any manner reducing the admitted assets or impairing the responsibility of the corporation.

The company, in October last, removed its principal office from the city of Sacramento to the city of San Francisco, and now occupies commodious quarters at 418 California street, in said last mentioned place. The change of location, though greatly to the advantage of the corporation, has been accomplished without any increase of expense; and, in fact, the office expense of the company are now materially less than before the removal. We met most of the directors of the company, and were present at one session of its executive committee, and found the gentlemen controlling the corporation to be among the most substantial, successful and capable business men of San Francisco. Every facility and courtesy possible was extended to enable us to arrive at an exact understanding of the condition of the company, its mode of doing business, the character of its securities, its system of accounts and checks—one department and office upon another.

From our examination, we feel justified in saying that the company is upon a sound and enduring basis, its affairs managed honestly, and with prudence and energy, and that there is every reason to expect that from the present time its growth will be as rapid as its friends could wish. In conclusion, we say that we are well satisfied with our insurance in the Pacific Mutual, and have no hesitation in commending it to such of our citizens as desire to effect insurance upon their lives.

WM. P. WINANS, J. W. GEORGE, J. McCRAKEN, Committee. SAN FRANCISCO, Cal., Feb. 27, 1882. OFFICE OF INSURANCE COMMISSIONER, SAN FRANCISCO, March 20, 1882. Dr. Geo. A. Moore, President Pacific Mutual Life Insurance Co., San Francisco: DEAR SIR:—Herewith you will find the certificate of this office of the capital, assets and liabilities of your company for the year ending December 31, 1881; in forwarding which I hold it to be due to you to congratulate you upon the wise retention by authority of law, of the guarantee notes which, since the organization of the company, have nominally been a part of its assets, whereas in fact, in my judgment, they were an element of annoyance, and a source of outlay entirely beyond any possible good they could ever be to either the policy holder or company. The assets now are real, tangible and good, which constitute, I may exclaimably add, is due to intelligent, judicious management, of the company's affairs. Life insurance, of late years in this state, has been conducted upon a more legitimate basis than formerly; the companies admitted to do business here exercising prudential caution in incurring risks and meeting their losses in an honest, business-like way, so one of the number exclaiming their own in those respects. Very truly yours, J. C. MAYNARD, Insurance Commissioner.

MARRIED. At the residence of the bride's parents in this city, May 1st, 1882, by Rev. H. W. Eagan, James W. Miller and Miss Florence Sheets. No cards. [The STATESMAN extends its good wishes to the happy couple and wishes them a long life of unimpeded prosperity.]

LOCAL JOTTINGS

Judge Landford opens a new plug hat. R. M. Smith, of Alwata, is in the city. May day party at the Opera House tonight.

Harry LaBoitans is going to Spruce to settle. He is a good workman and will do well there.

Ed. Williams' double fire proof safe recently imported from Cincinnati, is one of the finest in the city.

The largest score made in shooting at a target was made by C. Schmecher who made six bulls eyes in succession.

We are glad to notice the improved typographical appearance of the Nez Perce News. It is an independent, outspoken and honest as a newspaper can be.

Frank Porter, the young man who was arrested near Dayton charged with murder, has been released on bail, and it is said that his bail is only a matter of time.

Robert Griffith, an old timer well known in this valley, was married on Sunday to a young emigrant lady. "Better late than never." Bob, marriage is a blessing—some think.

Girls should be careful how they are vaccinated with virus taken from a horse's arm. One at St. Paul's has taken to swarming, sitting cross-legged and smoking a briar root pipe.

Copier & Schmecher's old mill building has arrived on the ground near the new building, and will soon be placed alongside where it is to remain permanently. The new building is fast nearing completion.

The present grand jury is one of the most efficient that ever convened in the county. It embraces some excellent men, and every thing coming before them will no doubt be attended to in a proper manner.

By a late riding of Frank Hatton, First Assistant Postmaster General, a postmaster of a city can hold any city office so long as it does not affect his postal business. Mr. Stine, the citizens of Walla Walla will shortly vote you into any city position you may choose.

Heretofore the mails for Portland and points west of here, and on the N.P., will close at 4:05 o'clock each evening. All mail matter destined for Portland, Puget Sound and California must be in the post-office at the time mentioned, or it will lay over 24 hours.

On Saturday the voters assembled at the engine house to give an expression of their opinions as to where the money they intended to vote for the erection of a good school house should be expended and also to vote for or against the \$12,000 tax. On the first proposition the votes stood as follows:

Table with 2 columns: Item and Amount. Includes Purchase of Abbott lots, Central school house, Building school house on old grounds, etc.

The big majority for building the new school house on the grounds now owned by the city proves unmistakably that the cut and dried resolutions adopted at a meeting not long since were condemned by the mass of the people. The central school house plan had but few adherents and they lived in the immediate vicinity of the more central but not so popular as other parts of the city. The election went off very good humoredly and every one appeared to be satisfied.

At it AGAIN.—Not long since we made mention of some drunken Indians appearing on the street in this city. We take the following from the Weston Leader: "One day this week three Indians, under the influence of 'fire-water,' went to the house of Mr. Stillwell, who lives at the mouth of Lamar Gulch, and ordered something to eat. The lady of the house set food before them, but soon they began to complain that it was not good enough, and drawing their knives and pistols proceeded to run the folks out of the house. Several pistol shots were fired during the melee Mr. Stillwell succeeded in getting a revolver away from one of the drunken swashes. In the meantime Mrs. Stillwell had run for safety to the house of Mr. McGrew, who boys hurried to the seat of war; but the Indians noticing their approach, mounted their cayuses and fled. They were unarmed, and came from the direction of Walla Walla. A good party tried to keep his pets at home or be responsible for their actions."

A WORTHY EXAMPLE.—An illustration of what can be done in farming in the newly settled portions of Washington territory is furnished by Charles Newell, who went in to Kitchikan county five years ago with \$8 in money and 15 horses. If he had been a slow-going, sleepy-headed chap, by this time he would have been dead broke, grumbling and anxious to leave the country; happy in fact he is more independent and whippier than a king, is to-day well off and his worldly goods are fast increasing. In the Pleasant valley section, near the headwaters of Rock creek, he has under fence over 7000 acres of land. He has recently bought the Dunn band of horses, which have for several years been in charge of Thomas Butler. There are fully 60 of them, which added to the number already owned by him makes quite a respectable band. He expects his mare this year to foal fully 120 colts. No ranch in the country is better adapted to stock-raising, and he is also doing something in the hog line. This season Mr. Newell will raise about 200 acres of grain.

FROM THE DEADMAN COUNTY.—Max Baumeister who arrived home from the Deadman country on Sunday, informs us that the country would not be so the improvements were so great; he says the whole face of the country is changed there. The crops look magnificently and promise a larger yield than ever before. Mr. Baumeister has a very large tract of land there, and now has 34 horses busy ploughing and would employ more if they could be obtained.

A LIVE MAN.—R. M. Green of Syrup of Figs fame which is now becoming so famous in the city in the interest of the California Fig Syrup Co. Mr. Green is from Ohio and is one of the jolliest fellows and best business men we ever had any dealings with. It may be as well to state that this gentleman although from the Rocky state, has no designs upon the State Senatorship, the position of Governor, or State Printer. He means business every hour out of the 24, and his success is commensurate with his energy.

EAST INDIA GRAIN.—The S. F. Aho says: It is reported that 45,000,000 bushels of grain are to be shipped from East India ports during the coming season. This will give employment to a large amount of shipping, and it will require about 1,000,000 tons to move it. Already indications are given that some of the British steam tonnage that come to the country will be sent to India to meet the demand which will probably arise for vessels.

INTERESTING MEN

Items Gathered from the Mountains to the Sea

Major Conroy has returned home from his recent trip to Oregon.

Capt. Max Wessendorf is home again from the shores of the Lower Columbia.

Billy Myers, at the "Congress" in Portland, holds a levee for Walla Wallians every day. His friends will be pleased to hear that he is getting along famously, and sets the fashions among the saloon swells of Portland. He is most gorgeous on a Sunday, when his beautiful white silk "dicer," the present of his friend James Gagn, shines resplendently.

Mr. A. Mathiot is home again from Portland on the Willamette. While absent he made preparations to purchase two-thirds of this year's wheat crop of the Walla Walla valley.

The most popular hotel clerk in Portland is Marion Wilcox of the Clarendon. Civil, courteous, intelligent and gentlemanly, with a constant look out to the comfort and welfare of guests of that universal resort of "bonhomagers" he makes friends of all and does much to add to its great popularity.

J. N. Fordyce, who has long been one of the most trusted and useful of the old and new company, is promoted to take charge of the construction department of the Northern Pacific which present headquarters at Sandy Point. The O. R. & N. Co. have retained all the efficient aids from the old company, and herein have made many friends.

The Clarendon Hotel, at Portland, is to be raised six feet, and this season will be enlarged to the extent of 50 additional rooms and a new front to be put in; the whole cost of the improvements will be nearly \$20,000.

Vice President F. F. Oakes announces that the board of directors have appointed Col. Chas. B. Lamborn, land commissioner, with office at St. Paul, Minnesota. He will enter on duty May 1st, and visit the Pacific coast first week in June.

Paul Schultz and R. W. Mitchell will shortly visit this section in the interests of the Northern Pacific company. Mr. Schultz will proceed north and Mitchell will attend to this section.

Eleven carpenters came up on the last train bound for South Texas to build coops for taking granite to Ainsworth for the piers for the new bridge.

Visitors to Portland should not fail to visit the floral gardens and conservatories of Louis G. Funder. He has the only good collection of plants in the Northwest coast and are visited by hundreds of people; those of our lady friends requiring rare plants for their gardens or conservatories will benefit by sending Mr. Funder their orders in preference to sending away East for plants that are generally dead beyond recovery when they arrive. An order can now, thanks to the railroad, be sent and a return made from Walla Walla to Portland in 24 hours.

The scenery along the Columbia river is particularly beautiful and pleasing at this season of the year.

J. L. Bayler of the firm of Bayler, Carr & Co., of Dayton has been to Portland and laid in a stock of furniture to replace that burned in the late destructive fire.

J. C. Richards of the drug firm of Richards & Co., Dayton, is on his way back from Portland where he has been on business.

Advices from the mountain mining camps inform us that the snow is not very deep, and is going off slowly in which place the approaching high water will not trouble us much. The line to the lower Cascades will soon be open to travel; it is probably as expensive a piece of road as any in the world and will require a whole corps of men for some time to come to attend to it.

Genle Spring is beginning to toddle around. G. S. has been in the lap of old winter a little longer than ordinary.

The Elite Theatre at Portland run by Messrs. Clinton & Egan is one of the sights of the city and the performances given there are in every respect decent and in order. If, as the old adage goes, laughter is the best medicine, then many of the performers are a whole college of physicians in themselves.

The Umatilla County Republican Ticket.

ED. STATESMAN.—Enclosed I send you the Republican ticket nominated at Pendleton.

State Senator, William M. Steen; Representatives, John S. Vincent, Ben. Stanton; Sheriff, Wm. Martin; Clerk, J. P. Bushie; Treasurer, Norman Hendry; Assessor, M. H. Thompson; School Superintendent, F. O. Richards; Commissioners, R. E. Eastland, T. E. Howard; Surveyor, Geo. W. Reading; Coroner, W. C. McKay.

You will see that the ticket is a very strong one; Mr. Steen is too well known to need any praise from me, he having been elected to the House of Representatives once and came within eighteen votes of being elected a second time. The nominees for representatives are both well known citizens. They are both able and honest. Capt. Wm. Martin is the present able and deserving county sheriff. I might go on and describe the entire ticket and say of them truly that they are good competent men and well qualified to fill the respective positions for which they have been placed in nomination.

Respectfully, ONSERVER.

GOOD SHOOTING.—Dr. Corcoran and Capt. Straight, while fishing on Mill creek yesterday, indulged in a little target practice with the pistol by way of a change of amusement. A knot on a tree several yards distant was selected as a target. The captain fired first, the ball striking the knot precisely in the centre. This looked rather discouraging for the doctor, but he determined not to surrender the championship without a struggle, so taking deliberate aim he sent a bullet in the exact spot where the first one penetrated. When out of the two bullets were found to be one solid piece of lead, the second being firmly imbedded in the first. This is about the finest piece of marksmanship we have heard of yet, and the championship between the two gentlemen remains undecided.

A SUNDAY HOLIDAY.—Sunday may be said to have been the first really fine day our citizens have experienced the present spring and as a consequence every one was out enjoying the beautiful and exhilarating sunshine. Every carriage and buggy in town was brought into requisition and a drive into the country demonstrated that the country never looked better than now; in every field the young grain looked well and the newly leaved trees and the many pleasant homes to be seen on every hand spoke volumes for the material prosperity of the country. An observer viewing the landscape from any of the little rolling hills around Russel creek will say that there are few spots on this rolling sphere more beautiful than the Walla Walla valley.

THE BAKER CITY BRANCH.—On the 22d the track layers on the Baker City branch of the O. R. & N. Co., reached the first crossing of the Umatilla river, 23 miles from Pendleton. Piling for the west approach to the river and the west abutment are completed, and the trestle bridge will be up in a few days.

ECLIPSE OF THE SUN.—The total eclipse of the sun of May 17, 1882, is awaited with much anxiety by astronomers, for it is hoped that then the existence of a large planet within the orbit of Mercury may be settled. Prof. Watson believed that he saw such a body during the eclipse of July 29, 1878.

No Machine Shop Here

Dr. Blalock and Major Trux, delegates sent to Portland by the Walla Walla Board of Trade to consult with the managers of the O. R. & N. Co., in regard to the erection of workshops in this city, succeeded in obtaining a positive answer to the petition of our citizens, and further talk about machine shops at this place will only be a waste of words.

The managers of the company informed our delegates that Prescott offered better inducements for the erection of machine shops, and that there they would be built. We are not surprised at the result of the conference. Since it is a settled fact that the shops are not to be located here, we have no hesitancy in stating our reasons for not being in any degree surprised at the decision of the O. R. & N. Co. Several weeks ago a contractor on the O. R. & N. Co.'s lines was passing over the road from Portland to Texas Ferry on a train on which were several prominent officers of the O. R. & N. Co. The officers were discussing with him in hearing of the contractor, referred to, the future of the various towns along the road, and especially Walla Walla. Among other things they said that the citizens of Walla Walla had never exhibited a friendly feeling toward the O. R. & N. Co., which they seemed to regard as a grinding monopoly instead of a company which was doing all in its power to develop the country, and which had ever been willing to co-operate with our citizens in any enterprise which would further our interests; our citizens had shown no disposition to encourage them in their efforts to make our city a prominent railway center; they remembered quite distinctly that not long since when the company desired to secure water to be used for machine shop purposes, the favor of the grant of such water was denied by a leading citizen; that they had met with similar opposition on various occasions. They now proposed to reward our enterprising (?) community by making Walla Walla a way station; they would build a mammoth hotel on the banks of the Columbia, and erect their machine shops in an up country town. These facts were stated to a friend of the writer by the gentleman who overheard the conversation; we made no mention of the information at the time, but awaited developments. How well the managers of the company are carrying out their determination is painfully evident. The action of the Board of Trade in sending delegates to confer with the managers of the company showed a disposition to do all that was possible to secure the location of the shops at Walla Walla. The only mistake our citizens made was in not taking active measures in that direction long ago. The location of the shops at Prescott was no doubt agreed upon by the managers of the company long before the Board of Trade thought of sending an embassy to confer with them in regard to the matter. The proposed machine shops would have been a great advantage to our city, and it is a matter of deep regret that our ambassadors were unsuccessful. However, Walla Walla has other advantages which will always render it the leading city of this section, and the action of the O. R. & N. Co., in declining to favor it with the proposed machine shops will have little to do with its continued prosperity and ultimate greatness.

THE MURDERER REDEEMED.—The people of this section know how to sympathize with the citizens of Arizona, who are just now being subjected to all the horrors of Indian massacres. If some of the Eastern sympathizers of the Indian were in Arizona at present, they would probably change their opinion of the "poor Indian"—if they ever lived to get away. The citizens of Tucson held a meeting on Tuesday night, at which the following telegram was directed to be sent to the president and cabinet. It is the best thing we have seen for some time: "During the rejoicings incident to the grand military display announced to take place at Fortson, Missouri, we beg to offer you as a skeleton to sit at your banquet the fact that nearly one hundred of our pioneers have been wantonly murdered in cold blood by the devilish Apaches, whom a cruel and mistaken policy permits to survive their crimes. If some small portion of the expenditure incurred in your grand display could be devoted to such measures as would preclude the possibility of an increase in the list of our murdered dead, we could send you greetings of gratitude and cheer in place of this message of our sorrow and helplessness and our desolation."

PUSHING AHEAD.—A correspondent writing from Ventnor to The Dalles Times says: One feature of the bridge work is that the piling are capped and but little framing put up. This is much better to put in place, as most of it is in the water, and the men work on the rafts of wade about in high rubber boots. Ellis Port is a new place with 53 new buildings, one large saw mill and another in course of completion. The town is of rough board houses, consisting of stores, hotels, washhouses and gin mills. It is surprising to see how many come not to work, but to make money by retailing tarantula juice. There are five "whisky tents" around our camp, and one meets them all along the line. The grade is finished ahead for 15 miles, and they are pushing it along with 1,500 white and 4,000 Chinamen. Our next bridge is on Clark's fork, where there are four miles of bridging or trestling and 3 Howe trusses, where they cross this fork as many times.

THE CANADIAN PACIFIC.—Major Rogers, engineer in charge of the western division of the Canadian Pacific railway, left Portland yesterday morning via Lake Pen d'Oreille for the Kootenay country. His mission is to permanently locate the line from the east slope of the Rocky mountains, through the Kicking Horse pass to the Columbia river valley. This route has been adopted by the directors of the company in preference to the Yellow Head pass, some 200 miles further north, and permission for such change of location has been asked from the Dominion parliament. That the company's request will be granted, there is no reasonable doubt. The line from the east is now 200 miles west of Winnipeg, and will be extended 500 miles by January 1, 1883, the country traversed being unbroken. This will bring the western terminus within 200 miles of the Rocky mountains.

THE LARGEST.—The immigration during 1881 to this country was the largest ever known. The whole number arriving was 600,354. In 1880 the total number of immigrants was 508,703. About 60 per cent of the European immigrants in 1880 and 1881 came from Sweden. Mr. H. J. Jackson, Superintendent of Cattle Garden, estimates that these immigrants bring an average of \$55 per head in money, which would make \$60,000,000 added to the wealth of the country last year from this source. Statistics also estimate that the cash value of each immigrant is over \$1,000; and that the country was enriched last year to the extent of \$720,000,000 with this addition to our population. The present indications are that the immigration will be heavier for 1882 than last year.

ALL PERSONS IN DEBTED TO PAINE
