A STEAMBOAT EXPLOSION.

Six Men Killed and Seven Injured--Full Particulars of the Fearful Catastrophe. At 15 minutes to 3 o'clock yesterday afternoon, a terrific explosion which shook the foundation of every building in Portland, startled our citizens.

A DYING CITY.

Senator Morton is reported as saying to the reporter of a Western newspaper that New Orleans is a dead city; that it has lost its opportunity; that St. Louis, Galveston and even Chicago have reached out and robbed it of its former trade privileges.

THE WHECKED STEAMER.

Continued to drift down the river, partially submerged, until reaching a point opposite the east side depot, where it was drawn up and beached at a shallow place at the wharf.

THOSE KILLED.

Following the explosion was fearful to contemplate. The pilot-house was blown about 75 feet up in the air, and fell a long distance out in the stream.

THOSE INJURED.

The following persons were injured by the explosion: Charles Lyons, a deck hand, was slightly injured on one side of his face, caused by a fragment of the fire-box striking him as it was blown over.

The Tax Fend.

A contemporary has an article on the tax question which with a few modifications is applicable to our own locality. Every person who is not a pauper contributes to the support of the national, territorial and city government.

The Methodist Mission Claim.

EDITOR STATESMAN:—In your issue of May 10, 1875, an article appears copied from the New York Methodist, purporting to be a brief history of the early settlement of Oregon and Washington Territory...

The Cost of Government.

It will scarcely be credited by the people of this country, says an exchange, that the expenses of supporting their National Government in 1874 were almost as great as those of England.

Dayton Letter.

EDITOR STATESMAN:—The certainty of a certain cash market for wheat and other products of the valley induces our farmers from many apprehensions of financial distress during the coming season.

The Shyster's Pamphlet.

It is difficult to ascertain just who is the author of the pamphlet purporting to be issued under the auspices of the immigrant board. Its general lack of force and uniform insipidity indicates Baldy Ross as the probable writer but it is understood to repudiate the ranting. Public opinion next pointed to Capt. P. B. Johnson as having done the pen-writing—no brains were required—but he pleads guilty only to the "Yakima county" article, and says that was written for another purpose, and subsequently stolen from him by the compiler of the pamphlet.

JAMES MONAGHAN, Esq., is down from Colville. He has no special news to report. Stock owners suffered heavily during the winter, and estimate their loss at about one-half their hands.

MESSRS. HICKS AND SPENCER are going to the Kootenai lake to meet their partners, who have struck what they consider a fair prospect. They will give it a thorough test before they return. Walla Walla is interested should it prove as anticipated.

THE COUNTY BOARD has been in session all week acting as a Board of Equalization. The work of going over the assessment roll for a county like Walla Walla is no small job, but the members have applied themselves diligently to the task, and expect to complete it in time to adjourn today.

RELIGIOUS NOTICE.—The annual meeting of the Christian Church will be held at Walla Walla, Walla Walla county, Washington Territory, commencing on Friday, 22nd inst., before the second Sunday in June, 1875. Messrs. H. M. Waller and John M. Harris will be at the meeting.

WORK FOR ALL.—With the bright and glorious weather, everything seems to have gained new life, and as a result our mechanics and workmen find full employment at remunerative wages. All are busy, and the blacksmiths especially seem to be run down with work. Certainly the prospect opens brightly for the future of our town.

IRON TRAINS.—Although pack trains are not loading on the streets, it is a sight to see our friend Frank McMahon's lead for Kootenai—a combined mule and maverick, with plow, &c. Other trains are hauling various products. The amount of goods shipped by Messrs. Schwabacher Bros. and Adams Bros. to other points is astonishing, and forms a large item in their business.

FOR KOOTENAI.—Our friend J. W. Galbraith, Esq., who has spent several months at Walla Walla for the purpose of recruiting his health, has so far recovered that he is about to take himself a wife, and with tomorrow's sun will start for his home far up in the mountains. Mr. Galbraith and lady will bear with them the best wishes of a host of friends for health and unbounded prosperity.

PUBLIC ENTERTAINMENT.—The friends of Gen. Wheaton gave him a public entertainment at the Stone House, Tuesday evening. The attendance was quite large, the supper splendid, the music excellent, and the dancing delightful. The occasion of the entertainment was the withdrawal of Gen. Wheaton from this military post, he being under orders to join his regiment at Atlanta, Georgia.

U. S. MARSHAL.—We have a report that Capt. Hopkins, of this city, has been appointed U. S. Marshal, vice E. S. Kearney, resigned. Nothing positive is known as to the appointment, but the report is credited by those who are likely to be well informed. Capt. Hopkins was in the volunteer service all through the war of the rebellion, and is by education and habits of life fitted to discharge the duties of the office. Under all the circumstances his appointment is eminently fit and proper.

OUR PROSPECTS.—The late heavy rains tend to certain that the crop in the counties east of the mountains will be heavy. In this county a largely increased acreage has been sown this year and there is the most favorable outlook for more than an average yield. The prospects for obtaining a fair price are also bright. In California, taking the State through, there will not be to exceed one-half of the ordinary crop of a favorable season. We believe from present indications that the cry of "hard times" will cease with the coming harvest.

THE FIRST TRIP.—The passengers who came up by the boat, Sunday last, were invited to make a trial trip over the railroad. An invitation to this effect had been telegraphed to Umatilla, where it was known that Hon. E. S. Kearney and a party of his friends were on the way up. The arrival of the boat found a train of cars in readiness, and with full steam up, the party started over the road, making nine miles—the distance completed—in forty minutes. All who participated in the trial trip speak well of the road, and say that the cars run easy and free from the jolting incident to new roads. We are pleased to have this favorable report, and trust that the remaining portion of the road may be built in a like substantial manner.

THE LOCAL RAILROAD.—Dr. Baker informs us that at the rate the work is progressing, he expects to have the railroad completed to Touchet Station by Tuesday of next week. Should this expectation be realized, an experimental trip will be made over the road that day. A number of invitations have already been extended to leading citizens asking them to honor the occasion by their presence, and we doubt not a large party will be in attendance. With the progress made, the completion of the road in time to meet the requirements of the fall trade may be regarded as a fixed fact. The building of this road marks an epoch in the history of this country, and from this time forward we feel quite sure Walla Walla Valley will enter upon a new era of prosperity.

U. S. DISTRICT COURT.—At 11 o'clock, Monday morning, Judge S. C. Wingard called the U. S. District Court to order, that being his first appearance on the bench. The position—always trying—was met coolly and calmly, and at once the spectators made up their minds that Judge Lewis had not unworthily succeeded. From time to time during the week we have been present in the Court room, and have uniformly found business progressing quietly and calmly, and as befits a Court of justice. As a matter of course, the business is new to Judge Wingard, but with experience we feel quite certain that he will acquit himself an able Judge and an acceptable minister of the law. The position of a District Judge is always trying, and it is the duty of all good citizens to give him that moral support without which he is shorn of half his influence. It is in this spirit that a Judge should be met and sustained, and we feel satisfied that the better class of our citizens understand their duty in this regard.

KOOTENAI ITEMS.—From two gentlemen direct from these mines, we gather the following: The winter has been the most severe ever experienced for cold, although the snow did not fall over the average of former winters. Messrs. Milby & Hicks lost over 80 head of cattle at their ranch, and from rumors Milby & Shaw lost over half their band, at the Columbia lakes. The Indians lost 11 head. William Maus lost none that was heard of. Galbraith, 2. The shaft on the Wild Horse Creek was sunk to the depth of 90 feet without bed rock; the machinery entirely failed at this depth. Every indication was favorable, and the shaft will be resumed as soon as machinery of sufficient capacity can be prepared. Several men are leaving for the Cassiar Diggings. While a few are leaving, a great many are coming in from Montana, and intend to thoroughly test the late strike at Quartz Creek, on the Columbia River. The Indians report terrific loss amongst the buffalo; they used no powder to get their meat; shot them down on foot with bow and arrow, or speared them; thousands lay dead on the plains, around creeks and along the foot hills. Mountain sheep and elk left their lofty homes among the cliffs, and were killed along the low foot hills. Canadian troops are expected early to occupy the new forts along the forty-ninth parallel. The Canadian mounted police have put an effectual stop to the whiskey trade. The Jesuits are established missions among the Black Feet. Four have already been established, namely Bow River, Chesterfield house, Belly river and Devil's lake. The prospects for Kootenai are bright—working men can have a good chance. Mr. Fernie has again been appointed by the Land and Work's Department to repair the roads of the District. Decker's pack train was en route for the diggings. It is asserted that martin skins caught last winter are far superior in quality of fur to former winters.

GEN. WHEATON, in his speech at the entertainment given in his honor, spoke strongly in favor of Walla Walla as a military post, and stated that the troops were subsisted here at a less cost than any other station in the country. The regular allowance for subsisting a soldier is 20 cents a day. At Fort Walla Walla for the last year the average cost for subsisting the soldiers was at the rate of 13 cents each per day, or 17 cents less than the regular allowance. The lowest figure at any other post in the United States for a corresponding period was 20 cents a head, or full one-half more than at this post. What was said of the soldiers applies with equal force to the officers. They can all live cheaper here than elsewhere, and for that reason an assignment to Fort Walla Walla is regarded as a great favor. Gen. Wheaton expressed great regret at leaving, and said he would be glad to have the headquarters of his regiment established at this place. His conclusion was may add, that Gen. Wheaton bears with him the kindest wishes of our people, and should those in authority send him back here, he is sure of a warm reception.

DROWNED.—The body of an old settler named John Cartwright, was found on the banks of the Columbia River, a few days since, under circumstances that indicated drowning. He had been missing for a couple of weeks, and his body when found had every appearance of having been in the water for a long time. The deceased had lived near the mouth of the Yakima river for several years, and had been over on this side for the purpose of getting supplies. On his way he lost a package of tobacco, and returned for the purpose of finding the lost package. After that time nothing was known of him until his body was found as above described. His clothes were found on the bank of the river, and it is supposed that he went in for the purpose of bathing. His money was found all safe, and nothing to indicate foul play. Deceased was an old bachelor who lived entirely by himself, but being of a kindly disposition was greatly esteemed by his neighbors.

FATAL ACCIDENT.—We are again called upon to record a most distressing accident, on Saturday last, Mr. John Seng, a farmer living on Yellow Hawk Creek, a few miles from town, while engaged in removing a shed, which had been used as a henhouse, was instantly killed by the structure falling upon him. It appears that the shed had been in use for a long time, the posts were rotten, and the roof being covered with snow, which the rain had rendered heavy, it fell with Mr. Seng inside. When discovered, a heavy log was lying across his back, and upon examination it was found that his neck and spine were broken. Mr. Seng was an old settler, very unassuming, conscientious, industrious and well liked. He was married, and had three small children to mourn his untimely death. His funeral took place on Sunday under the auspices of the Catholic Church, Rev. Father Jurek officiating.

MISSING CATTLE.—Mr. W. S. Malloy, who wintered a large band of cattle on the north side of the Snake River, has returned from a general tour of observation in that section of country. His purpose was to look up missing cattle, and he reports that his band stood the hard winter better than he expected. He estimates the average loss of cattle from the severe weather at one-half. Those who had fed, of course, suffered less, but taking one owner with another the loss is fully up to his estimate.

LETTER LIST.—List of advertised letters remaining in the Post Office for the week ending May 14th, 1875: Henry G. Blanchard, James H. Jackson, Hank Blanchard, Allen E. Hubbard, S. N. DeFries, W. W. Lewis, Miss Jane Derrick, Miss Ella Moss, P. Flanagan, T. F. Parker, J. H. Fletcher, J. D. Lamson, Mrs. Henry, E. L. Wood.

PERSONS CALLING FOR THE ABOVE LETTERS will please say "Advertised." A. W. Lane, M. D. Kenyon, A. F. Hunter, C. T. Smith, T. M.

FROZE OUT.—A Montana paper says that most of the wheat sown in that Territory last fall was froze out by the extreme cold of the winter. It is doubtful if the yield will be equal to the seed sown. We had very cold weather in this section of country, but notwithstanding wheat sown in the fall looks splendid, and promises a large crop.

SCHWABACHER BROS. present their new card this week, and offer their compliments to the public. We have taken the trouble to look through their store, and can say that all they promise they are prepared to carry out. The wonder is, that in a country like this they can afford to carry such a stock of goods, but this is a matter for the owners to consider, the public having the benefit of the immense stock.

Grand Jury Report. To the Honorable District Court of the First Judicial District, Washington Territory.—We, the Grand Jury, having completed our labors, beg leave to submit the following report:

We have examined two witnesses on the part of the United States and returned one indictment. On the part of the Territory, we examined fourteen witnesses and made three indictments. The County Auditor, by request, brought his records before the Grand Jury for examination. We found the records of the county kept in a business like manner and all in good order, but on demanding his fee book, he informed us that he kept none.

We find the county expenses of the year ending April 30th, 1875, to be \$6920 90 more than the previous year. But we find \$1400 of this amount to have accrued by having a transcript of the surveys of the county made from the land office at Olympia for the use of the county, which cost \$846 90. Also the expenses of the regular election, which cost \$500.

We also examined the Auditor's account with the Treasurer of the county, and find that there should be on hand funds to the amount of \$4170 85. On examining the Treasurer's books and counting the funds, we found this amount on hand. The Treasurer's books are all in good condition.

We examined the books and records of the Probate Judge, and found them all satisfactory and his fee book kept in accordance with the statutes. We examined the books and records of the different justices of the peace, of this city and find the fees charged correct, but find that they keep no fee books separate from their docket.

We also examined the Sheriff's fee book, and find it kept in excellent order. The fee book of the Clerk of the District Court was brought before us for examination. We found it in excellent condition, and all the fees charged in accordance with law.

We next proceeded in body to examine the county and city jails. We found both well kept and in as neat and clean condition as could be expected under the circumstances. The prisoners appear to be all healthy, excepting an Indian, and all well cared for. There are at present ten prisoners confined in the county jail, eight of whose periods of time run from a few months to four years, the other two are awaiting trial.

We recommend that the county jail be plank on the outside as high as the tops of the cells with good one-and-a-half inch plank, put on treecled and well spiked, as a protection not only to the building but as an additional security to the cells. We recommend that the county jail and fences be all whitewashed inside and out. H. M. HOWES, Foreman. PHILIP RITZ, Clerk.

DISTRICT COURT PROCEEDINGS. The U. S. District Court, Judge Wingard presiding, has been in session daily since Monday morning. The Grand Jury found true bills in the following cases: Territory vs. John Hall; burglary. Territory vs. J. P. McCormick; assault and battery. Territory vs. James W. George; grand larceny. Territory vs. John W. Hand; larceny.

ADAMS BROS. are worked to death in getting in and arranging their mammoth stock of spring and summer goods. But notwithstanding the rush they always find time to wait upon customers, and as heretofore invariably give satisfaction. The stock they are now getting in is unprecedentedly large, and embraces every article that it is all likely to be called for. Their stock of clothing, dress goods, and ladies' wear, is particularly fine, and well worth attention. To sum up, the Adams Bros. are in the field with a full and well selected stock of goods, and are prepared to sell at prices that defy competition. Let the bull roar.

LETTER LIST.—List of advertised letters remaining in the Post Office for the week ending May 14th, 1875: Henry G. Blanchard, James H. Jackson, Hank Blanchard, Allen E. Hubbard, S. N. DeFries, W. W. Lewis, Miss Jane Derrick, Miss Ella Moss, P. Flanagan, T. F. Parker, J. H. Fletcher, J. D. Lamson, Mrs. Henry, E. L. Wood.

PERSONS CALLING FOR THE ABOVE LETTERS will please say "Advertised." A. W. Lane, M. D. Kenyon, A. F. Hunter, C. T. Smith, T. M.

FROZE OUT.—A Montana paper says that most of the wheat sown in that Territory last fall was froze out by the extreme cold of the winter. It is doubtful if the yield will be equal to the seed sown. We had very cold weather in this section of country, but notwithstanding wheat sown in the fall looks splendid, and promises a large crop.

SCHWABACHER BROS. present their new card this week, and offer their compliments to the public. We have taken the trouble to look through their store, and can say that all they promise they are prepared to carry out. The wonder is, that in a country like this they can afford to carry such a stock of goods, but this is a matter for the owners to consider, the public having the benefit of the immense stock.

GUILTY AS CHARGED.

One by one, individuals who have become rich by preying upon the public are being made to pay the penalty for their transgressions.

PERSONAL APPEARANCE.—On personal appearance much of our success in life depends. There have been many instances where the soul shining through a maimed or deformed body, has conquered the adverse circumstances.

A BEAUTIFUL WOMAN.—A Washington correspondent of the New Orleans Bulletin draws a charming picture of the wife of Senator Gordon, of Georgia.

A FRENCHMAN HEARD THE PHRASE 'I've got other fish to fry,' very readily learned its application.

DURHAM OR SHORT-HORN CATTLE.

This breed of cattle excel all other breeds of the bovine race in their large, rangy form, full chests, round barrel, length of carcass and depth of ribs.

As food is essential to human subsistence, this class will supply more wants than the diminutive runts grown upon barren pastures and subjected to the rigid frosts of winter without sufficient food or shelter.

The Short horns are deservedly held in high estimation for their generous supply and good quality of beef, one of the leading objects in the production of live stock.

The Durhams have been long a favorite breed in England, where the population is crowded and the grazing land comparatively limited.

Collins, Bates, Booth and other celebrated breeders of Short horns must have reaped a great reward for their labors. Their merits served to enrich England, by being purchased at high prices and shipped to foreign nations.

A WOMAN'S HAND.—Bailey says a man is harder than a woman, except in his hands. When she sees him take his coat tail to hold a stove lighter, she pushes him away in disgust.

The true secret of living at peace with the world is to have an humble opinion of ourselves.

In 1874 we had in these United States 5,830 failures, with liabilities amounting to \$153,233,000.

Do not brave the opinion of the world. You may as well say that you care not for the light of the sun.

At a spelling "Bee" you feel the sting when you step down and out on such a little word as "ecat."

Our thoughts are epochs in our lives; all else is but the journal of the winds that blow while we are here.

Prayer was not invented; it was born with the first sigh, the first joy, the first sorrow of the human heart.

Glory is well enough for a rich man, but it is of very little consequence to a poor man with a large family.

Human glory is not always glorious. The best men have had their calumniators, the worst their panegyrists.

A FORNISH fellow advised a friend not to marry a poor girl, as he would find matrimony with poverty uphill work.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair.

It soon restores fallen or gray hair to its original color, with the gloss and freshness of youth.

Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use.

Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed;

but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced.

Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness.

The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive.

Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it.

If wanted merely for a HAIR DRESSING, nothing else can be found so desirable.

Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS.

Ayer's Cathartic Pills.

For the relief and cure of all derangements in the stomach, liver, and bowels.

They are a mild and agreeable, yet excellent purgative. Being pure and free from mercury or mineral salts, they are safe and reliable.

serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the obstructions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus impurified disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be estimated. Their soothing nature makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution of diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken in moderate quantity to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic, Bilious Hemorrhoids, they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in moderate and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion, and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often administered with no serious derangement effects. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
