Photographers, Main St., Near the Bridge.

Having engaged the services of one of the very best retouchers on the Pacific coast, lately employed by J. W. Taber, the leading photographer of San Francisco, we are now enabled to produce all classes of work connected with photography in a manner superior to any photograph gallery on the Pacific northwest. We have also engaged an artist in India ink, crayon, water and oil colors, and are prepared to copy all kinds of pictures and relarge the same to any size desired, and finish the same in a style superior to any heretofore made. Our reputation as artists is a guarantee that all work leaving this gallery will be first-class and satisfactory. With our improved instruments and facilities photographs can be taken in cloudg as well as in clear weather. Give us a BRODECK & CO., M. in street near the bridge, Walla Walla, W. T.

ST. PAUL'S SCHOOL.

The question is sometimes asked why our charges are more than at any other school. They are not. The mistake arises bacause we give the price of tuition for double the length of time. The school year consists of forty weeks. We, in common with most Boarding Schools, divide the school year into two terms of twenty weeks each; thinking a continuous term of twenty weeks of more than double advantage to the pupil over a quarter of ten weeks. The

THE SECOND OR EASTSR TERM. opens on Thursday, January 20, 1880. For admission apply to the Principal. 3r Mrs Lemuel H. Wells. NOTICE TO TEACHERS.

NOTICE TO TEACHERS.

A REMARKABLE POEM

Cling to the Mighty One,
Cling in thy grief.
Cling to the Holy One,
He gives relief;
Cling to the Gracious One,
Cling in thy pain;
Cling to the Faithful One,
He will sustain.

Cling to the Living One, Cling to the Living One, Cling to the Living One, Through all below; Cling to the pardoning One, He speaketh peace; Cling to the Healing One, Anguish shall cease.

Cling to the Bleeding One, Cling to His side; Cling to the Rising One, In Him abode; Cling to the Coming One,

Hope shall arise; Cling to the Reigning One, Joy lights thine eyes.

The office of train master has been abolish

A 54 span Queen truss bridge was eek in one-half day. This

over Dry creek in bridge building. We are informed that ties will be tra

ed to the Dayton extension line. One train makes its trip in the day time and the other in the night. The foundation for the new depot has been laid. Much of the finishings such as brac-kers, etc., are lying at the new depot ready to be put up.

Track laying on the Dayton extension

completed to about one mile beyond Dry Creek. Work is progressing at about one The plans for the 106 foot span Howe truss bridge across the Touchet is now in the hands of the draughtsman in the engineer's office in this city.

The foundation of the new depot has bee

laid. Work on raising the building will beginimmedately. The building will be com-pl ted in about four weeks. The Blalock Flume has entirely give probably on account of a lack of water. This will have a tendency of delaying the work of the Dayton and Grange City division The graders on the Baker City line now on a "thorough cut" of basaltic r The cut is 52 feet deep and several hun

feet long, and it is estimated that two months will be spent getting through the f activity as the flume abuts here in a ozen "V" branches, with tracks between ach branch. This is done in order to dis

tribute the ties, etc., over the companie

each branch.

Thos. A. Porter, assistant engineer on the Oregon Railway & Navigation company's steamer Oregon, has been promoted to be chief engineer, and has gone to bring out the company's new steamer Walla Walla, which will be due here about the first of October. Twenty-two bridges have already been built on the Dayton extension. Two 110 foot span Howe truss bridges will have to be built across the Touohet, but this will not delay track laying as false works will be built to allow trains to pass. There will be no delay occasioned by the bridge builders.

Mr. Spencer, a diver, is now engaged div-ing in the Snake river near Grange City, preparing the foundation for the building of piers. The bridge will be an immense struc-CHENEY, MEDICAL LAKE, piers. The bridge will be an immense struc-ture, consisting of ten spans besides the draw, which is to be made of iron by some eastern builders. The piers are to be of solid masonry.

Railroads and cattle are too things they know the ropes. Some time ago two cattle guards were erected at the depot— the same guards are in use throughout Texas with success—but somehow they didn't work with success—tut somehow they dint it work here. The cattle by some means or other passed by. Watch was kept on the animals and to the surprise of all they were seen to walk the track. This little story is going the rounds of the engineer's office.

DEALING WITH THE STAR ROUTE MEN

WASHINGTON, June 3 .- It has already been shown how Garfield deliberately se to work to obtain aid and comfort from the Star route thieves: for the fact is indisputable that the "My Dear Hubbell" letter had just this significance. Blaine it is alleged, sought to help at an earliday in the same quarter, for the purpose of procuring his nomination. Garfield obtained the nomination by another pro-cess, which John Sherman could, if he

would more particularly explain. It is not impossible that others still did the same thing.

There are also those who beheve that power of this description was exerted in the Cincinnati Convention. Whether this be true or false, it is now evident that the Star route influence, as well as its purpose, was sufficiently apprehensive. In regard to this, should a leading case ever come into court, much is expected to be shown. I say, should a case ever come into court; for it is now said, there may be some doubt about the finding of indictments. In this matter Mr. Cook of Walla as soon as the road is completed. Washington, the somewhat celebrated criminal lawyer, has been appointed Assistant Attorney General, and he will have other assistance It would seem, therefore, that neither Mr. MacVeagh nor Solicitor-General Philips will take

charge of the case in court.

It now looks very much as though President Garfield means that the Star route investigation shall never come to anything. He means to squelch it and save the things.

ANTI-FAT.—For those people whose embon-point is a matter of solicitude, whether it is uncomfortable or unfashionable, the follow-ing diet is proposed by Dr. George Johnson in the Practitioneer:

he Practitioneer:
May eat—Lean mutton and beef, veal and lamb, soups not thickened, beef tea and broth; poultry, game, fish and eggs, bread m moderation; greens, cresses, lettuce, etc., green peas, cabbage, califlower, enions; fresh fruit without sugar.

May not eat—Fat meat, tacon or ham, larger cream shear on tham, larger cream shear on that was carried to the control of th

R ading to this city. The latter road is owned by the Northern Pacific, and it is understood, will be operated by it. From Granger, on the Union Pacific, a connecting line is expected to run through Granger, on the Union Pacific, a connecting line is expected to run through Baker City to Umatella. It is estimated that \$40,000,600 will be expended in complete and conjugate and conjugate road. The next year the national run bill was a posture; she waves genly blass by £5,000,000, and in 1878 it was still.

To regal the story of the transless on a thousand straiged atom among the grasses of the field. \$50,000,000. The company has rich grants of land all along the route, having over 2,009,000 acres of agricultural and timber lands in Western Was sington timber lands in Western Was angton alone. The greater part of the road runs through the famous wheat belt, and without the severe snows, little trouble is anticipated from winter storms. The engineering difficulties are few, and the grades at no point approach those of the Central Pacific. Next spring the work will be prosecuted with great vigor from this end, and during the summer and fall it is expected to make great headway.

Case Mille Failthe .- The Walla Walls and

coming nigher, ares at one that nods and winks behind a slowly-dying fire." Last Sunday evening a rousing and enthusiastic meeting was held at St. Patrick's School House in aid of the Irish Land League by our Irish fellow citizens to assist the movement for justice to Ireland. It was moved and seconded that Mr. John Single-Don Stewart was elected 1st Vice President Dr. Corcoran, 21 Vice President; Chris Ennis was appointed Treasurer and Mc-

Carthy Secretary, J. Wood Assistant Secre-

tery. The constitution of the Irish Nation al Land League was adopted and committees appointed for the purpose of organizing granches to be known as the Walla Walla and Parnell National Land League Society. and Parnell National Land League Society. months.

The meeting was well attended by many enthusiastic citizens and the move per se is a good one. Every city of note in the Union have organized Leagues and we are glad that our own Walla Walla is not behind hand in

over own Walla Walla is not behind hand in extending the right hand of sympathy and help to our down troiden and oppressed brothren in that green is e of the sea, which has been and always , will be the home of brave and true patriots, statesmen and poets. At the present time it may be said that the country is a smonthering volcano; the pool discase known to the veterinary profession. has been and always will be the home of brave and true patriots, states one and poets. At the present time it may be said that the country is a smouldering volcano; the peo-ple are ready for action and but await the word to arise in their might to die in defense of the homes from which they are being so cruelly and wantonly evicted. The time has arrived when only the most strigent measures will avail; the Irish people have tried for centuries to obtain the instice which tried for centuries to obtain the justic has been denied them by the British Parlia

ment; the parellel of grasping a nettle boldly is now being tried by the Irish Land Tender handed stroke a nettle, Tender handed stroke a nettle,
And it stings you for your pains;
Grasp it like a man of mettle.
And it soft as silk remains.
Tis the same with common natures:
Use 'em kindly, they rebei;
But be rough as nutmeg graters,
And the regues obey you well.

gainst the star-route thieves, but forare others who feel grievances. Buell, of the Washington Capital, is one of these. Noticing that Gibson was appointed with the full knowledge and consent of the president to undertake [specially a work wither road or in other words withdraws the entire case. The most astonising thing thout this is, French made no official eport to the Department, and has not given the Aitorney General the slightest information upon the subject. Instead the teper's to the Central Pacific, as if he were its paid creature, and eath his worm werds, uttered last winter with a satisfaction that calls his motives most teniously into questi n. The Attorney General is reported as having been very wantonly maligned him. The open letter says: "We therefore assert absolutely, as a matter of our own knowledge, that A. M. Gibson has not once, but repeated-A. M. Gitson has not once, but repeatedly, and with membronous iteration and reiteration, denounced and branded you, Mr. President, in the columns of a widely-circulated journal, as a bribe-taker, a thief, a perjurer, a liar, and a suborner of perjury and forcery, during a space of nine years, well-nigh without intermission." This sort of attack does not seem the light of the property of the pro sion. This sort of attack does not seem to disturb the white house, and is an evidence that the president puts the period of these Credit-Mobilier charges behind him as something dead and buried, and that he will let such talk as

Buell's pass him by as the idle wind. Superstitions.—Mayor Grace is very aperstitions about putting his right shoe on his left foot, although he takes no

Is it a steat.

CHICAGO, June 23.—The Times' Washington spec al says that George Taylor, of this city, who is reputed to be worth something in the neighborhood of \$31,400,000, was formerly a member of there very poor, several years ago, and acquired weath with astonishing rapidacquired weath with astonishing rapid-ity. This he somehow achieved by a knowledge of the devious ways that money in the U. S. Treasury is reached through official mesmonagement and through official m-smanag-ment and wrong doing. Tayl or at present is worthy of special attention, from the fact that h by this country before the French-American claims commission. Taylor was largely instrumental in securing the passage of the bill establishing the Commission, and before so doing had secured a majority of the claims, which has been boastfully stated by himself. The fact of his being the principal claimant be-

fore the commission, makes the decision of the U.S. claims just given of great interest to the members of that Com-musion and the country. In this de-cision George Taylor is shown up as the shape of stock or direct donation. One person may take, not to exceed forty shares, at \$5 p r share, nor can they be assessed beyond their stock subscribed. It lieving in its honesty, awarded the 1. lieving in its honesty, awarded the that the building when completed will pay sum of \$295,664, which was paid to Taylor for the syndicate represented by him-fle court afterward reviewed the case, when it was too late to save the money, and it now solemnly avers that it is the first time in the history of the governnent when so large a sum has been wrested from the treasury upon a case wholly fict time. The patition was fired Nation & Co. What led to this fina-action of the court was the investigation by Louisiana authorities, four years after the successful frau of 1878. The Grand Jury mystigated the case carefully, and moleted Taylor, the a torney of record as savagely denounced in the decision

Respectfully, J. E. BINGHAM.

Walla Walla, Juna 24, 1881.

The growth and prosperity of the city of Walla Walla, W. T., now requires and eeds a building large enough and suitable for public meetings, concerts, theatres, etc. It is a fact that the city has no suitable room for such purposes, and it is ornament to our city, and be of great convenience. Every property holder, and especially every business house should aid

n i's immediate construction.
The Walla Walla Agricultural Society have purchased a lot and contemplate the erection of a suitable building thereon to be used for agricultural and mechanical fairs, and for the purposes hereinabove mentioned. The designs and plans of the said building may be seen at the office of J. D. Laman, Secretary of the Agricultural Society. The size of the building is 50x90 feet; estimated cost, \$4.500.

This society now asks the people to aid in erecting the building, so as to have the same ready for the annual fair in September, 1881. This aid we ask in the shape of stock or direct donation.

The committee will start out to-morrow to c-lect sub-criptions and sell stock in the undertaking and we hope that the people of Walla Walla will fully realize the importance of such an enter-

WHO MAY BE SUFFERING FROM the effects of youthful follies and in-discretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. Dr. SPINNEY will guarantee to forfeit \$200 for every case of Sem-inal Weakness or private disease of any kind or character which he undertakes and fails to

MIDDLE-AGED MEN

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the Bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish appear, or the color will be of a thin mikinsh hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. Spinney will guarantee a perfect cure in all such cases, and a healthy restoration of the penito-

urinary organs.

UFFICE HOURS.—10 to 4, and 6 to 9. Sun days from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5.

GENTLEMAN WHO SUFFERED
A GENTLEMAN WHO SUFFERED
For years from Nervous Debility, Premature Decay, and all the effects of youthful
indiscretion, will for the sake of suffering humanity, send free to all who need it, the recipe
and direction for making the simple remedy
by which he was cured. Sufferers wishing to
profit by the advertiser's experience can do so
by addressing in perfect confidence,
JOHN B. OGDEN.

113-tf 42 Cedar Street, N. Y.

I will mail (free) the recipe for a simple VESTABLE BAIM that will remove TAN FRECKLES, PIMPLES, and ELOTCHES leaving the skin soft, clear and beautiful; also, instructions for producing a luxuriant growth, of hair on a bald head or smooth face. Address inclaims stamp. Rev. Vendell & Co.

MINCELLANEOUS ADVERTISEMENTS.

OFFICE OF THE

PACIFIC MUTUAL Life Insurance Company.

OF CALIFORNIA.

To all Desirous of Securing the Benefits of Late Insurance:—The first consideration with applicants for life insurance is, or at least should be, SAFETY. Will the money paid out for the Folicy be predently favorated? Are the affairs of the Company Benestly nad Efficiently Administered? When the Felicip becomes a Claim, will it be Frampally Fale, and thus the object which induced the payment of the premiums be fully attained? There are queries naturally suggested and the character of the answers determines the course of the questioner and the selection of his Company. In this connection, the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and extense the concerning their Company. ts concerning their Company: sization, A. D. 1868, it has paid 353 death losses on policies of

aggregate to \$305,975.

2. It has paid to Policy Holders, for Matured Endowments, Dividends, and Surrender Values, in Ecund Sumbers, \$1,000,000.

3. Its losses have been paid PROMPTLY AND WITHOUT LITIGATION. No judgment arising from a policy claim has ever been rendered against it, and it has no suits of this character pending.

4. It has repeatedly been examined by SWORN EXPERTS, and most thorough and searching investigations made of its condition and business, and in every case its solvency and trustworthiness have been demonstrated.

5. Its Stockholders and Directors are widely known as among the most capable business men and ablest financiers of the State of California, and the integrity of their management is uncuestioned.

laws of the State, including the constitutional provisions affecting corporations, are ost right character, such as to make the company one of the saftest institutions of its

kind.

Section 3 of Article XII of the New Constitution of the State of California, is as follows Sec. 3. Each stockhelder of a corporation or joint stock association shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder, as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock or shares of the corporation or association. The Directors or Trustees of corporations and joint stock associations shall be jointly and severally liable to the creditors and stockholders for all moneys embezzled or misappropriated by the officers of such or or protection or joint stock association, during the term of office of such Director Trustees.

7. Its policy contracts contain no restrictions upon residence or travel, and its forms of insurance are unusually attractive.

such corporation or joint stock association, during the term of office of such Director or Trustee.

7. Its policy contracts contain no restrictions upon residence or travel, and its forms of insurance are unusually attractive. The Low Rate, Deposit Endowment, and its forms of insurance are unusually attractive. The Low Rate, Deposit Endowment, and Mutual Investment Policies, are peculiar to this Company, and offer advantages to the insured which are not serpassed, if equalled by those of any other Company.

8. When desired, Policies can be registered by the Insurance Commissioners of California, on the payment of a moderate fee; and a policy holder in the PACIFIC MUTUAL LIFE INSURANCE COMPANY OF CALIFORNIA has then the chaolute guarantee of the State of California that the money held by this company against the contingency of his death is secured by bonds and mortgages deposited in the State Treasury. With December 31st, 1879, the Company closed its eleventh year, and in so doing affords the only instance on record in which a life insurance company in the eleventh year of its existence was enabled to pay its death losses from interest receipts; not only was this done but in addition thereto a considerable surplus remained. Believing ourselves entitled to the confidence and business of such as propose affecting insurance upon human life, we solicit their patronage, and pledge ourselves to discharge to the best of our ability the important and sacred trust devolved upon us.
