

WORKMEN'S VICTORY.—California elected delegates to a convention to revise the state constitution, as ordered by the popular vote in the last state election.

FOREIGN AFFAIRS.—A Washington correspondent of the New York Tribune says that if the coming election in South Carolina be free there will be three republican congressmen elected.

THE PEACE CONGRESS.—Gradually the Berlin congress is getting down to the real struggle before it—the attempt to agree upon the disposition to be made of Bulgaria and Roumania.

PARDONS.—Really, this pardoning business is getting so extensive that our criminal courts ought all to be abolished. Early in March last the Boston Herald published a letter from Columbus, exhibiting the amazing fact that President Hayes, during the five years that he was governor of Ohio, had pardoned three hundred and eleven convicts.

OHIO DEMOCRATS.—John G. Thompson is again installed as commander-in-chief of the Ohio democrats. There are two classes of political leaders—one who shape policies, and one who fight battles for policies as shaped.

THE PRESIDENT'S ORDER.—It is solemnly stated that, contrary to the somewhat general understanding, the president's civil service order has not been retracted, and will be enforced with sturdy reservations.

The Indian Excitement.

Pendleton is at present pretty lively; some 700 families help count its population; families from down the river—Meadows and Happy canyon, Butter creek, Willow creek and in fact all through this north-west and west country they have all cleared out, leaving their Indian and sheep to the mercy of the Indian and wolf, the pigs and calves in the pen and corral, having had no time it seems, but to make haste for Pendleton and Walla Walla.

The Indian excitement has been at fever heat for several days. Several families left for Walla Walla and other places. On Tuesday Maj. Conroy, who had gone out on north fork of John Days to take his Indians to camp, found them fighting the hostiles and holding them in check.

A company was immediately formed and what was called had placed in their hands. Ten men thus armed started to the assistance of our brave Indians who were holding the hostiles in check.

Another company was formed at Pilot Rock, some ten or twelve of whom also went immediately to the front. The settlers from Birch creek and the Unatilla nearly all came to town during the night. Another company was formed to patrol the town and a violent fight kept up during the night.

J. A. Robbins showed us a letter written by Sam Parrish to Henry McCann, dated July 1st, stating that the Indians had been in John Days valley—came down the north fork—were within 20 miles of Canyon city. Jim Clark, Burman, J. Coombs and others went out after them and were surrounded. Clark's horse was shot and fell on him, while the others were trying to pull the horse off him.

THE INDIAN OUTBREAK.

Letter from Governor Ferry. OLYMPIA, June 28, 1878. Hon. Jas. W. O'Connell—Dear Sir: Your favor of the 21st instant, was received last evening. Indian matters east of the mountains have occupied my special attention during the past few weeks.

CAUTION AND CIRCUMSPECTION are commendable, and should be exercised, but rumors should not be distorted and magnified, and then received and believed, and acted upon as demonstrated facts.

A TOWN WITH A BRIGHT FUTURE.—White's Ferry is the name of a young town situated on the rail route from Walla Walla to Lewiston, and six miles from the latter place. Mr. D. M. White, the town proprietor, is one of the earliest pioneers of the Palouse country, having come here sixteen years ago, when but a boy.

CONSTITUTIONAL CONVENTION.

seventeenth day. SATURDAY, June 29, 1878.

The committee met at two o'clock, P. M. Mr. President in the chair. Roll called and absentees noted as follows: Messrs. Steward and Wait.

Journal of yesterday read and approved. Mr. Dennison offered the following SEPARATE ARTICLES.

At the time of the submission of this constitution to the voters, the territory for their adoption or rejection, shall be situated, as separate articles, the following: No. 1.—No person who is otherwise a qualified elector, shall be denied the right to vote in this state on account of sex, anything in this constitution to the contrary notwithstanding.

Twentieth day. WEDNESDAY, July 3. Mr. Dennison, from committee No. 1, reported an article entitled THE JUDICIARY.

Sec. 1. Provides that the court for the trial of impeachments shall be composed of the senate. A majority of all the members of the house of representatives shall concur in an impeachment.

Sec. 2. The judicial power shall be vested in a supreme court; circuit courts; probate courts; justices of the peace and such other inferior courts as may be provided by law.

Sec. 3. The supreme court shall have appellate jurisdiction in all chancery cases, and jurisdiction in all cases at law, civil and criminal, upon writs of error, but in no case removed to the supreme court shall a trial by jury be allowed.

Sec. 4. The judges of the several circuit courts are to serve for a term of four years, and are ex-officio judges of the supreme court. At the expiration of four years the legislature will have power to create a separate supreme court, to be composed of a chief justice and two associates.

Sec. 5. The state is to be divided into three judicial districts. The districts are divided as follows: Sec. 6. The legislature may alter the limit or increase the number of circuits, but no such alteration or increase shall have the effect to remove a judge from office.

Sec. 7. At the first election under the constitution judges shall be elected for the respective districts and shall hold for a term of four years.

Sec. 8. All cases submitted to the supreme court, and in all cases tried before the circuit court without the intervention of a jury, the judgment or decree shall be rendered at the same term at which the cases are submitted.

Sec. 9. The circuit court shall have original jurisdiction in all matters, civil and criminal, and appellate jurisdiction from all inferior courts and tribunals, and a supervisory control over the same.

Sec. 10. The clerk of the supreme court is to be appointed by the judges thereof, and hold office during the pleasure of the judges. Sec. 11. There is to be a clerk for the circuit court in each county, to be appointed by the judge of the circuit.

to Lewiston. The invitation was accepted with thanks. The convention resumed consideration of the article entitled "legislative."

On motion of Mr. Eldridge, the article was laid on the table. On motion of Mr. Henry, took from the table the article entitled "administrative."

A number of amendments were reported from the committee of the whole, and being concurred in by the convention, the articles on motion of Mr. Lacy, were ordered to be engrossed for a third reading.

On motion of Mr. Larabee, the convention went into committee to consider the article entitled "Officers," and after a short time spent therein, rose and reported progress and asked leave to sit again.

On motion of Mr. Andrews, the convention adjourned. Twentieth day. WEDNESDAY, July 3. Mr. Dennison, from committee No. 1, reported an article entitled THE JUDICIARY.

Sec. 1. Provides that the court for the trial of impeachments shall be composed of the senate. A majority of all the members of the house of representatives shall concur in an impeachment.

Sec. 2. The judicial power shall be vested in a supreme court; circuit courts; probate courts; justices of the peace and such other inferior courts as may be provided by law.

Sec. 3. The supreme court shall have appellate jurisdiction in all chancery cases, and jurisdiction in all cases at law, civil and criminal, upon writs of error, but in no case removed to the supreme court shall a trial by jury be allowed.

Sec. 4. The judges of the several circuit courts are to serve for a term of four years, and are ex-officio judges of the supreme court. At the expiration of four years the legislature will have power to create a separate supreme court, to be composed of a chief justice and two associates.

Magic Pump!

WE SIMPLY WANT TO SAY THAT there are 210 RUBBER BUCKET PUMPS in use in the Willamett valley, and 165 in this vicinity. Of these pumps 35 had not expanded but common Rubber Buckets, and have now been in wells 22 months.

We believe the MAGIC PUMP, manufactured by H. B. Middaugh, to be the most perfect in the country, from the fact that it removes all poisonous gases from the well, purifies the water by agitation and by a circulation of pure air to the bottom of the well, making the water in every respect equal, if not superior to that drawn by the Old Oakum Bucket.

We have used the Rubber Bucket Pump for one year, and find it superior to any pump we have seen. It purifies the water and improves any well which it is used in. If you want good health, use pure water, such as is furnished by the Magic Pump.

Have lived in Oregon about 32 years; have tried nearly all the different pumps in use; had rather use the Magic Pump than all the rest combined. It works like a charm, gives a supply of good, pure water. Believe they are more durable than any pump used.

Food and Poisonous Cases are quickly removed by this MAGIC PUMP. It is known the use of impure water causes more sickness and death than all other causes combined. We challenge the world to produce a pump that is equal to our EXPANDING RUBBER BUCKET PUMP. And, also, to one from gentlemen living in Walla Walla and the surrounding country, who have our MAGIC PUMPS, THE EXPANDING RUBBER BUCKET PUMP in use at the present time.

Walla Walla, April 4, 1878. We, the undersigned citizens of Walla Walla and Dayton, have used the Rubber Bucket Magic Pump, and find it to be superior to any pump we have used or seen:

MONOTONOUS.—For the past week our citizens have been kept in a fever of excitement over reports of Indian outrages. To listen to the rumors, the Indians were gradually forming a circle, and it was difficult to tell when the circle of Walla Walla would be brought within the circle of their operations. In the language of a great humorist, "this thing is becoming monotonous." In early days, with but a mere handful of men, Col. Wright made his memorable Spokane campaign, and in less than a month subdued the confederated tribes, at that time vastly outnumbering the Indians now in the field. At that time we had no humberging in our management of Indian affairs. Col. Wright meant to give the country peace and security, and when he caught bad Indians he had them hung without ceremony. For years the name of Col. Wright sent a thrill through every Indian, and if we had some such man at the head of affairs just now, this whole Indian outbreak could be brought to a close before the end of the month. To be kept in a perpetual state of alarm is unbearable, and at times we almost wish that the red devils would enter this valley. Right here in Walla Walla we have enough of old Indian fighters to take the field and rid the country of every hostile Indian, and if the military continue to repeat their failures, it is not impossible that these old pioneers will cut red tape and take the task in hand of pacifying the country. Better take every able-bodied man in the country and place him in the field, rather than this perpetual succession of alarms that paralyze all business and leaves us "hanging on the ragged edge of despair." A quick, sharp movement now will give the country peace, and this is what it must have at any sacrifice. No more shuffling and palming slings over hostile Indians, but "war to the knife and the knife to the hilt."

POWER OF JULY CELEBRATION.—As usual no general preparations had been made for the observance of the 4th, and as a consequence the celebration was scarcely up to what might be expected. As it was the women took the matter in hand and in a measure made up for the shortcomings of the general public. Gen. James McAdill acted as grand marshal, and Capt. W. Pender was chairman of the committee of arrangements. Under their management, seconded by the exertions of the firmen, we had a procession that included the usual display and was altogether creditable. The liberality of the firmen, and the call forth many expressions of admiration. Owing to late rains, the streets were in a bad condition, and so the march was held on the county lot, adjoining the jail, and included the reading of the declaration, and an oration by Hon. Thos. H. Freese, pronounced by those who heard it both elegant and instructive. After the ceremony at the square, the crowd was dismissed, and soon Main street about its whole length was a dense mass of men, women and children, who seemed to amuse themselves by walking about and looking into the stores, early shops, etc. All done a thriving business, and certainly the city was never more crowded on a similar occasion. In the evening the "play girls" paraded, much to the amusement of our country cousins. The whole celebration wound up at night with a "grand display of fireworks." The latter scarcely a success. We had the regular number of dummies in a row, and a few of the "fourth of July" kind, but all passed off without any serious accident, and on the whole the celebration was creditable.

THE INDIAN SCAM.—The Hon. Thos. H. Freese, of Unatilla county, has just received a letter from his son, and which may be regarded as entirely reliable. It is dated at Fort Rock, July 30, 1878. Dear Father:—Everything is all right here; the news has in my opinion been a grand landing. Major Crocker was frightened himself and in his scare alarmed all the people on the Snake. The Indians he supposed were fighting the soldiers, and the priest told me that there is no truth in the reports which Major Crocker brought in yesterday. The Indians told him that all they saw was a few Snakes out on the John Day, and they tried to take some of their horses, or rather steal them, and there was a few shots fired at long range by the Snakes, and the Unatilla Indians run this way and they separated. I think the Snakes did this. I wish you would tell the people to rest easy, for there is not the least danger. The soldiers who had flocked in here are getting over their scare and returning to their homes. About 20 men have passed here going to Camas Prairie to scout, and see if there is any danger, but I think they will all be back this evening or in the morning saying, "Hunting!" (Signed) W. H. Fletcher.

JULY RACES.—The July races have been well attended, and the sport excellent. Since the course has come under the charge of Mr. Collins the track has been greatly improved, and is now one of the best race courses on the Pacific coast. The trotting and running races on Tuesday and Thursday showed excellent time, and go to show that Walla Walla is rapidly improving in her breed of horses. Next week we will obtain the names of all the horses entered, the time made, and much other interesting information in relation to the turf.

PROBATE COURT.—The following were the proceedings in the probate court during the week: In the matter of the estate of William C. Gallaher, senior, deceased; residue amounting to \$8717, distributed among the heirs. In the matter of the estate and guardianship of William Orchard Lloyd, a minor; A. G. Lloyd appointed guardian. In the matter of the estate and guardianship of Chas. P. Smith, a minor; James H. Lassiter appointed guardian. In the matter of the estate of Frank R. Howles, deceased; James E. Berryman appointed administrator; bond fixed at \$4000. In the matter of the estate of Edwin Evans, deceased; administrator discharged and bond exonerated.

LIEN.—BAILEY, formerly of Fort Walla Walla, but more recently stationed at Vancouver, passed through town in the early part of the week, on the way to join his company now confronting the hostile savages.

MARRIED.—EYRESE-MULLER.—On July 24, 1878, at the residence of Ed. Bonmaster, by the Rev. McKinstry, Mr. E. W. Eyrese and Miss Caroline Muller, all of Walla Walla. [The happy couple receive our congratulations and best wishes for health and prosperity.]

GILLIAM-REDFORD.—In this city, on the 1st, by J. D. Laman, J. P., Mr. Wm. A. Gilliam to Miss Ella M. Redford, all of this county.

BROWN-TUPPER.—On June 23d, 1878, by Rev. H. W. Eagan, William M. Brown and Melvina Tupper, both of this city.

PALMER-REBEK.—On July 4th, 1878, by Rev. G. W. Shaffer, Frank W. Palmer and Mary Rebek, both of Walla Walla county.

Information Wanted.—ANY PERSON WHO KNOWS ANYTHING in relation to the WILL OF MAURICE FITZGERALD, deceased, or who signed the will as witnesses will inform his brother, MICHAEL FITZGERALD, Dalles City, Wasco county, Oregon.

Mrs. Tilton.—At last an important stage has been reached in the undying scandal of Plymouth church. Mrs. Tilton is excommunicated, and the sisters who cackled pretty freely over her famous last confession are doubtless happier. Perhaps this will be the last the public will hear for a great while of the painful story. Let us hope it may. Even revenge can hardly desire to stir it up indefinitely. The woman now abruptly dropped from the rolls might, if ill advised, carry her case into the courts for the assertion of her rights of membership, but the judgment could scarcely go to the merits of the difference between the parties. Nothing that can be said by human tongues will disturb the confidence of his admirers in Mr. Beecher's defence, and the world that is not made up of his admirers does not care to hear more of it. For Mrs. Tilton further agitation could only bring greater depths of despair and shame.

The chiefs of bureaus in Washington are exceedingly unhappy. At the last session of congress a new bureau to look after the Pacific railroad companies was established, and the salary of its chief is higher than those of his fellow officials; hence their tears. Congress did exceedingly wrong in not making the tails of all its pet faves exactly the same length.

Is the simplest, yet, at the same time, most durable and effective ever invented. Its merits are too well known to require any word of commendation from us.

Buffalo Pitts "Challenger" Thresher!

This machine, combining many improvements, and manufactured expressly to meet the wants of this country, stands at the head of all other machines, and by long experience, in which its reliability has been thoroughly tested, has deservedly earned the title of

KING OF THRESHING MACHINES.

An intelligent farmer, one who has any knowledge of his calling, would not think of purchasing any other. Go anywhere in the Walla Walla Valley, and ask which machine has proved the most durable, the best adapted to the climate and the work to be done, and the universal answer will be the BUFFALO PITTS CHALLENGER.

The new and valuable improvement added to the

Haines' Single Gear Header,

Makes it superior to any now in the market, and purchasers should see that no inferior article is forced upon them, as there are many machines offered, which, when tested, prove to be utterly worthless.
