1 Document that should be Real by Every Tax-payer in the City of Walla Walla.

CITY OF WALLA WALLA, July 27th, 1883. Gentlemen of the Council.—In ent ing upon my duties as your executive of-ficer, I am not unmindful of the difficulwhich surround a new and untried field of labor. It will be my earnest and conscientious endeavor to discharge those neid of labor. It will be my earness and conscientious endeavor to discharge those several duties in full compliance with the expressed and implied requirements of my eath of office. A life of action has its tendencies towards unfitting one for that deliberation in thought which should ever precede executive decision. May I there-fore ask of you gentlemen, fellow laborera for the good of our city; some leniency, if at any time, I seem carried beyond the if at any time, t seem carried coyona the limited powers of my office, in my great desire to see our city progress and im-prove. I trust with your assistance, or rather, in seconding your efforts, we may by unity, guided by right motives, do

all alike. Let it be said of us gentlemen, are our great and only reward, "Walls has an honest City Government." Immunity from disease can only be secured by cleanliness and the recognition of the true central position of importance, to which she is entitled, in consideration of her resources, point of location, moral and social culture. Then and only then, will each of us have done our whole duty. Let us meet all influences and reports to the injury of our city with as much pride of the remedy and prevention. Therein the duties of your Mayor, Health of the city as a whole, and to tie the injury of our city with as much pride officer, and Marshal are clearly defined. and social culture. Then and only then, will each of us have done our whole duty. Let us meet all induences and reports to the injury of our city with as much pride and spirit as we would evince in progres-

Doring the limit allowed in succession During the limit affected in succession of office I have not been able to arrive accurately at the true revenue or indebt-schools of the city. Feeling that the financial status of all incorporate bodies, should be well known to those bearing the burden of taxation or assessment; would recommend that finance committee publish a full report, showing all facts connected ommend that linance committee publish a full report, showing all facts connected with the revenue of the city, in detailed form. The amended city charter of Walla Walla approved, Nov. 1879, limits the debt of the city to \$20,000, (Sec. 23.) form. The amended city charter of Walla Walla approved, Nov. 1879, limits the debt of the city to \$20,000, (Sec. 23.) At that date your city was, in comparison with her present, a village. The use of the latent resources, (surrounding us as a girdle of gold) the advent of railroad lines, increase in population and wealth, have made the Walla Walla of 1883. To fully and progressively meet this growth we are unable, until the city is authorized to carry a proportionate debt. We must therefore as public servants husband all we have, a task that will tax your business powers. We must not however stop in growth or enterprise whilst feeling the tightness of outgrown garments.

The burdens of direct and special taxation are seldom equally distributed. Under this class can be placed all privilege taxes. Ordinance No. 68, with its followers, calls for special or license taxation, to create revenue. An examination of this ordinance show in its bearing upon merchants, hotels, hack owners and many others, engaged in business, and acute the protection, a classification and many others, engaged in blankess, under city protection, a classification based upon business done (or i's measure) the capital invested and used. This clasafficiation carries with it the intent and garb of equity. I can see n: equitable reason why, this principle should not be enting to J. Kirkiand, Alfred John H. Harer, decelerate this court, setting forth that efficiency included to each and every business or privilege. That evil flows from the sale of intoxicating liquors, and that, the cost sification carries with it the intent an privilege. That evil flows from the sale of intoxicating liquors, and that, the cost of maintaining good order is thereby increased, none will deny. There remains the fact in question; should not the privilege be taxed in proportion to its usefulnes, express wagons, drays etc., used in the fact in question; should not the privilege be taxed in proportion to its usefulnes, express wagons, drays etc., used in the confidence in the confidence in the confidence in the completion of the completion sing. This exception prevals is few incorporated cities. This question of license on purveleges is one on which langes the power, good order, health, meral and general reputation of Walla Walla. The general reputation of Walla Walla. The limit of pelice jurisdiction being confined in connection with matters that aftered in connection with matters that after the general presperity of the city and its good name abroad. The endeavor to its good name abroad. The endeavor to these officers be increased to \$80 per mouth; and that all fives by them its good name abroad. The enteavor to control the sale of intexicating liquors by them control the sale of intexicating liquors by moral sentiments, has thus far proved abortive. Suppose weeks prior to said August 1888. W. H. June 1889. Beginshing unsupported by moral sentiments, has thus far proved abortive. Suppose weeks prior to said August 1889. Beginshing and the said control that the same of the said of intexicating liquors by legislation are not pressure and oppressive legislation are not one in effect. The first tends to control is the said of intexicating liquors by legislation are not one in effect. The first tends to control is the said pressing needs. Extended areas of our and individualize responsibility. The latter more often recoils upon its project ors and for a season buries the right from the said consideration. That I may at the onisct be understood upon this important question, it is right that you gentlemen, the said of control the sale of intexicating liquors by more injury than others in a full year. To admit that it is needful to prohibit by

No single proposition can be presented for the consideration and action of your body more vital in its interests and effects than the Public Schools of our city. This than the Public Schools of our city. This trust we must as citizens and public servants hold sacred, and untrammeled by political or sectarian influences. The brilliant point on the sphere of taxation is the Public School. It stands casting the rays of intetligence to all classes, guiding them from the wrong, into the paths of right that still carry our future citizens spart from our publs, courts, above houses correction institutions. The tax paid by both rich and poor in support of our schools is returned one hundred fold. Recognizing this worth our people have a micral, religious and parental right to expect from you as their representatives, the most full and earnest attention to all that will improve our city system of education. will improve our city system of education. Personally if will give me pleasure gentlemen to act with your body collectively, or as individuals, in all measures and acts that will make Walla Walla an educational center: our schools second to none. center; our schools second to none. We can, by frequent visits to our schools, in-spection of buildings and general expres-sion of strong interest do great good. Looking upon the components of this council, I as a mere executive officer feel ences. Parents should be encouraged to visit our schools, and in every way second official sction. This I believe they will do, meeting us more than half way in ef-fort.

guided by right motives, do for our city irrespective of localor person. To this end, and ripose are we here in an official To carry with us in every act chit the safe axiom of governThe greatest good to the greatest No one citizen or taxpayer in to ask at our hands, any measure upon its healthfulness. The recurrence of disease in epidemic or containing to the public health of the properties of the public health of the properties of the public health. The good or bad mame of our city depends in no small measure upon its healthfulness. The recurrence of disease in epidemic or containing the properties of the properties of the public health or the properties of disease in epidemic or containing the properties of the prop officer and Marshal are clearly defined.
The weathy and more fortunate citizens can surround himself with many factors in the equation of health. The children of the poor forced to live in close proximity to the germs of disease are no less dear in parental eyes than the children of ity to the germs of disease are no less dear in parental eyes than the children of wealth. This city is responsible for its sanitary condition. It will be your daily and mine to guard well the health of the city, as chairman of the Board of Health I shall not heaitate to ask at your hands the removal of any officer who neglects his duly touching sanitary matters. The enforcement of health ordinances calls for no addition to rate of taxation. The streets and alleys should be cleaned now, in advance of the rainy season. I recommend that this work be at once entered upon. That the health ordinances be printed and posted throughout the city. This done note can plead ignorance of the law.

STREETS, CROSSINGS AND SIDE-WALKS. Under this caption, the duty of the city and property owners are complex, yet clearly defined by ordinance. It is enough to know that much is required and the meeting of appropriations involves financial inability to some extent. The uniform enforcement of ordiextent. The uniform would soon ommend such measures as he may deem nance relative to construction would soon ommend such measures as he may deem nance relative to construction would soon ommend such measures as he may deem nance relative to construction would soon ommend such measures as he may deem nance relative to construction would soon ommend such measures as he may deem nance relative to construction would soon ommend such measures as he may deem nance relative to construction would soon of the construction would be constructed by the construction would be constructed by the construction would be constructed by the construction of the construction would be constructed by the construction of the construction would be constructed by the construction of the construction would be constructed by the construction of the constru tions from time to time. This single sections from the part of some citizens, or attention on the part of some citizens, or attention on the part of the Street Cehmissioner, one finds legal sidewalks in front of one piece of property and none or worsethan none, required of adjoining owner. Many waits are in a dangerous condition, for which the city is responsible. It is gentlemen, a question you can alone decide by enforcement of ordinances. The double to turn of the several duties of your City. In conclusion I can only assure you that my time, thought, energy and limited ability shalf be devoted to the work upon which we enter. I count upon your cordinance of the several duties of your City. the part of the Street Commissioner, one finds legal sidewalks in front of one piece of property and none or worsethan none, required of adjoiring owner. Many ealts are in a dangerous condition, for which the city is responsible. It is gentlemen, a question you can alone decide by enforcement of ordinances. The double nature of the several duties of your City Marshal and Street Commissioner, touching the sanitary condition of the city, leads to the suggestive thought, that the duties of the Street Commissioner might be placed in hands of City Marshal, an additional patrolsian added to the police

our police force is dangerously small, con sisting virtually of a Marshal, deputy an swirn by City Marshal and ponce, that salary of these officers be increased to \$80 per month; and that all fines by them collected be turned into City Treasury.

Under this heading we meet important and pressing needs. Extended areas of of our city proper are without the supply of water needed for fire purposes. With the growth of the city the need of some attention to supply of water, and system of sewerage has become imperative. With a limited intufficient revenue, we can do little more than arrange for and decide upon some future plan, as early as possible it is my wish to act with your proper committee in examining the present constitution of the city as to these wants thing for the ordinary aummer complaints, colic, diarrhos, dysentery, &c., and definite in expression, not only giving the city full and complete power touching supply of water, but recognizing and granting to the city riparian rights to a limit of five miles beyond city limits. Section 16, Ordinance 33 recognizes fully the power given by Territorial enactment, when it directs that. "It shall be the duty of the Board of Health of the city to cause Mill Creek to be examined from time to time, for five miles above the city limits, and in its course through the city, and to cause all unwholesome substances removed therefrom, and to see that all persons guilty of throwing or discharging unwholesome substances therein are punished." This ordinance will receive capecial attention.

ted, houses of prostitution are allowed undisturbed by the police. It is well known that intoxicating liquors are sold in all such resorts; yet no license for the sale of liquor by these propristors is required. This evil should be confined to localities, not allowed to spread to the injury of good morals and the property of our citizens. Power is needed from thelegislature to licenses and tax this evil. Until then, it should not be connected with the sale of liquors, whilst you tax this privilege as a separate and much less conneaded business. I most respectfully recommend a revision of Ordinance No. 68, with the view of increasing the revenue of the city by an equitable tax on all privileges property taxable.

PUBLIC SCHOOLS.

I ured by its efficiency, is one of which our people are justly proud. It is essential that the city gordinate has the property of the city good means foster this security to life and investment. As early as it can properly them invested in city fire apparatus. It extending damages and costs. I would recommend that the new vacent position of Fire Warden be filled by delegating the powers of the office to the City Marshal, are all addition to that officer's salvary. Your Marshal in the ordinary discharge of his duty is made cognizant of violations of Ordinance No. 18, defining duties of Fire Warden

LIVE STOCK IN STREETS. It can hardly be expected that our citi-It can hardly be expected that our citizens will evince much public spirit in orangementing our city and in building side walks, so long as herses and cattle are allowed to run at large, break down trees and walks, and fouling streets, walks and allers. If the streets maintained by the city are to be used as a town pasture; I say a subject to the city Treasury to compensate for the city Treasury to compensate for the impury to sidewalks and sanitary requirements. So far as personal observation has instructed me, I learn that in general these privileged cows are owned by poohas instructed me, I tearn that ingeneral these privileged cows are owned by peo-ple well able to pasture or feed them. We cannot, gentlemen, have a clean city or expect much from property owners until this evil, seldom allowed in country villages, is removed by ordinan Your existing Ordinances grant u

power of Charter the bestowal of special privileges such as use of streets for Rail-ways, Gas companies etc. In cases your council have restricted within limits the council navo restricted water and many use of privileges granted, this is right. To accord to any person or corporation privileges ad infantum is simply throwing away advantages. With the growth that must come to our city if we seize upon must come to our city if we seize upon and improve upon what nature has bestowed, not one but many will be knocking at our door for special privileges within the power of the city government to grant or refuse. The granting of privileges to use our streets for railways, gas pipe lines, telephones etc., should be met with a progressive spirit, yet we must watch carefully the future of privileges asked, to whom this power is given and guard it well, by limitation as to use. The certain future of Walla Walla bears this upon its face. If privileges are granted the granted seamot wait until the growth of the city makes the privileges of granted the grantee cannot wait until the growth of the city makes the privileges of great value. I recommend that an order out on snow-shoes over three from the passed that all privileges thus within proper limit as to time and proper notice given of such enactment.
amended charter would meet many err amenaes charter would meet many errors in this respect. If privileges are granted it is with a view to their use to the benefit of the city as a whole, and to the up privileges under a broad grant is an abuse of power which will speedily return evil, not good. Most contist helf way, but do not power which will speedily return evil, not good. Meet capital half way but do not give at control to the exercise of oppreasive and burdenseme power over the city and its people. We have the means and I trust the active power to improve upon our growth as it presents itself. Whilst we invite and accord to others the privileges to introduce all elements of wealth and improvement. Walla Walla is by position and self power in no need of sacrificing her privileges and corporate rights. If special charter rights are accorded they should be limited by speedy use, not be-

fixing her privileges and corporate rights. If special charter rights are accorded they should be limited by speedy use, not become a lien upon the property of the city. Would recommend that city ordinances, commencing with No. 124 and ending with fiscal year, be printed in form of supplement to amended charter, also that city clerk prepare and publish quarterly a list of merchants and others paying a license on privilege tax, giving in each case the classification and amount of privilege tax paid. These recommendations and suggestions made with the single view of growth, improvement and prosperity, I ask you to the province of the commendation of the commen

ing. Sec. 54, of amended charter makes it the duty of the Mayor, to communicate by message a statement of the condition and affairs of the corporation, and to rec-ommend such measures as he may deem dial hearty co-operation. An execution officer fearing to act upon his own response Marshal and Street Cemmissioner, touching the sanitary condition of the city, leads to the suggestive thought, that the dates of the Street Commissioner might be placed in hands of City Marshal, an additional patrolnan added to the police force, suburban portions of the city be under police regulatious and surveillance and no addition made to salaried account agains the city.

MARSHAL AND FOLICE FEECS. of each member of the city government, looking to the amount of good that can be done, rather than the smallest amount of injury that can be made to follow violators of the law. Respectfully,

T. R. TANNATT,

Mayor of Walla Walla.

Now that it has been accertained that the cholers which has appeared in Egypt is the genuine Asiatic article from which the worst is to be feared should its march eastward not be stayed by strict quarantime regulations, cholera prescriptions are in great demand by correspondents, who write to the editor as if he were a personal friend and the family physician. For more than forty years what is known as "The Sun cholera medicine" has stood the test of experience as the best remody for looseness of the bowels ever yet devised. As was once vouched for by the New York Journal of Commerce, "no one who has this by him and takes it in time will ever have the cholera." Even when no cholera is anticipated it is an excellent thing for the ordinary summer complaints, colie, diarrhoen, dysentery, &c.,

privilege of exemption from service in the militia hither to be enjoyed by pupils at religious seminaries and matitutious for

tain, which is at once graphic and interest Missocia. June 17. -By 9 o'clock th morning the road between "Marent's Gulch" and this place was lined with earriages and horsemen, bent on seeing the first train pas over the largest wooden bridge in the world, and i w people not having seen this im piece of engineering skill, can fully appre-ciate it. The bridge is built on bents 214 feet high, resting on solid rock set into the ground ten feet. Then comes the "Howe Truss," which is twelve feet high, making the bridge two hundred and twenty-six feet from the base to top of trustle. The bents or towers are placed fifty feet apart and There are but two bridges in the world

There are but two bridges in the world which are any higher than this.

All of the engineers on the Missoula division, headed by Division Engineer Weeks, were in attendance with ladies.

At ten 4 clock, everything being ready, the engineer party started for the scene of work, accompanied by officers and ladies from Fort Missoula. Arriving at the bridge they were met by Supt. Wallace and his most hospitable wife, who attended most

ntain to witness the laying of the track. A busy acone is presented to the eye. Two hundred mes up laying track at a rate hard to be equaled. The iron is second to the time as fast as the mon can lay it down, and it is nearing the bridge apparatus.

steel rails draws near the bridge. When we mid-air. Below us is one deep chasm, in low us look like little wooden toy men and watching the bridge to see its deflection, and passengers watch his slightest movements. Now we are nearing the old mother earti

ties down the whistle and the mountain proclaim that the first train to go over the —the prospector—first penetrated the Bit-greatest wooden structure in the world has ter Root range on the south and struck the de the trip with perfect seccesa.

The following are the names of the perties who first crossed the Coriacan defile: Of the railroad men there were Division Eugineer I. S. P. Weeks, Assistant Engineer the citizens there were Mayor Woody, W. J. McCormick, Frank Worden, C. W. Penthe editor of the Missoula County Times Miss Freeman, of Missoula, was the first and only lady passenger, being on the enning the first train over the bridge. Mr. Chase is a native of this Territory, being born and raised in the Bitter Root Valley. The day was perfect and one to be long

membered by all Montanians who were present. Now let the prople of Misscula arn out in force to greet the Nerthern Pacific on its arrival into Missoula on the 27th

The Pope is suffering from rheumatism eartly brought about by the capricious haracter of the climate in Italy. He is also hurt by the constant tension of super intending every report sent out from Vatican, and anxiety about the state of Catholic affairs in France and Ireland. The seclusion to which Leo XIII has been condemned has contributed to his neryous susceptibility, and the modical attendants order a tev weeks change of an The difficulty of removal is great. He will not leave the Vatican for any place in Italy. The proposition of a contract with to have been made by Alexander II, the hame their own terms, which they did, and was brought to the Pope by the Grand Duke Viadimur, who immediately appointed a representative to the corona

austion of the sea fisheries. In his address at the International Fisheries Exhibition he said that an acre of good fishing ground will yield more food in a week an an acre of the best, land in a year. Ha drew a vivid picture of the moving the time when the railroad became a pos in height, which for two months in every year moves westward and southward past amidst the greatest rejoicing. I was intro the Norwegian coast. Every square mile duced to the last demijohn to-day, and i of this colossal column of fish contains 120,000,000 of fish, consuming every seek, when on short rations, no fewer present to him until it was found out that than 840,000,000 of herrings. The whole catch of the Norwegian fisheries never excoods in a year more than half a square mile of this "cod mountain," and one week's supply of the herrings are needed to keep that area of cod from starving. London might be victua led with herring for a year on one day's consumption of Hammond & Co. do a trade amounting to

As a stopping place, Missoula has many adare myriads of trout in a the & Anderson. Everybody knows Sam Arthur who ever traveled along the N. P. line; he uation, for he knows how to run a ho puffs, as my readers well know, but when I pepsia, I always do it, by mentioning a good place to obtain a meal. There are several old timers here, and they "keep their end up" with the rest. Among others who have to the civilization the country now enjoys, frontier nearly thirty years. He is practic ing his profession of lawyer here a good practice. In course of conversation with these old timers we gather much strange information respecting men and things, that reflect credit upon the actors, and should not be forgotten.

Among other incidents related Woody was a graphic account of the first trip made by wagons from Salt Lake City to the Bitter Root Valley and where, at Fort Owen, he found our fellow citizen Mr. imagine the dangers and privations our early settlers endured for the benefit of posterity; but those who have the ceived some little experience fully under-stand, and understanding, naturally appre-

I find several Walla Walla m among others, Ed. Jurden and Pat Ma-honey. The former is running a saloon and the latter is a capitalist, owning some of the best town property in the place. He is coming to visit our city in a few weeks and will find many friends to welcome him and man just entering into life is doing very well and is liked by and enjoys the confidence of the community. James Crooks, of Camas Prairie and Frank Holt of Lewiston are also here with a big band of horses they are taking to Helena for the Eastern ma ket, and altogether Eastern Washing old Idaho are well represented here. I also will extend his circuit to Portland and will take in Walla Walla every time he has st perior attractions to place on the boards.

Missoula possesses a nice enough court allow their valuable county records to be at the mercy of any incendiarian that may see fit to set it on fire; for there is not a single fireproof safe or vault in the building. Some of these days the documents now placed in pigeon holes in a wooden building will be destroyed and much trouble and expense en tailed upon the citizens of the county.

"It was on my trip to Pittsburg, up the Ohio, that I played my last game cards," said Colonel Dan Rice. "It was in '49, on board the steamer Revolution, and I have never turned a card for pleasure or profit since. I don't think I ever 'old this circumstance before. I used to be terribly fond of poker. It was a great game in the old days, and is yet, I guess. I had about four hundred thousand dollars with me in money and property, and I owned the steamboat on which we were traveling. My ring-master, Canada Bill, the famous gambler, who died in Reading, Pa, a couple of years ago, a young blood the party at poker that night. When we quit I was \$182,000 ahead."

"You must have held some remarkable hands during the game, Colonel," sug-"No, sir : it wasn't that so much so it

was I had more money than they. They put up their watches and diam knew I played cards. I gave them their jewelry back, but kept the cash. Canada lars and the Wheeling chap about eighty torious gambler and played high, but that they called him, taught me to play cards. From that night on the boat to this day

SATURDAY, AUGUST 4, 1883.

More than \$72,000 was found lately in the room of a man in Paris who had for 25 years lived miserly, and who died in a charity hospital.

The earthquake in Italy is more serious

The story goes in London that Patti's appearance at the last Queen's concert, at sets, just so sure is it that the greater Backingham Palace, for which she was proportion of business will eventually engaged.

The new high Leense Lquor law in Ohio will yield nearly \$2,000,000 to the State in its first year. It is thought that there will be a falling off in this revenue, as mary of the groggeries cannot stand the tax, and thousands of small dealers will be driver out of the business.

The law torbuiding the sale of cigarettes to boys under sixteen years, which went into operation in New Jersey on July 4 h, is working effectively. Though the law reduces their sides, dealers generally approve of it and obey it cheerfully.

We shall have Shakespeare in plenty on the stage next winter. Irving and Booth and number many denominations. Farmwill deal largely with Shakespearean parts, and so will McCullough, if he recover sufficient strength to play at all, besides Barrett, Mayo, Keene, Edgar, and several fresh aspirants.

The proprietor of the STATESMAN has re arned from an extended tour of observarion along the line of the Northern Pa- have greatly assisted in making the Northe.fic, and the Palouse country, and will ern Pacific possible by developing our reshortly give his ideas to his readers in this c lumn. For the present we will say than that of a tull hundred of the citizens hat there is no place like Walla Walla.

The members of the Massachusetts Logislature are paid \$500 a year each. A maj rity of the House thought it was worth 8700 to work seven months for the State in Boston, and board themselves; and they passed a bill to that effect. The value on their services and rejected the

The death of Sir Edward Sardine, President of the Royal Society, is announced. Born in 1786, when George III. had not completed the first half of his sixty-year reign, and Washington had not been elected President of the United States, he was an exemplification of the truth enforced by Thackery, who said to a mediod friend. "There is not in the whole of your pharmacopæia so sovereign a remedy as hard work.

The business of the telegraphers, who The business of the telegraphers, who are trying to obtain better terms of existence, appears to be managed in an ord rly and systematic way. The companies have been made aware of the full extent of their demands, and it will not be denied that some of these demands are just. They are right, for example, when sell what they claim to be R nal B king they say "that man's physical and mental Powder, loose or in buik, without label welfare requires that at least one day in or \*rade-mark. All such powders are seven be accorded him for rest and recre-tion." All such powders are base imitations. Anal sis of huner ds of

The relations between Japan and China to parties asking for Reyal have shown have been delicate for some years, and them all to be largely adulterated, mostly there has repeatedly been danger of a rupture between these two great Ociental comparatively valueless for leavening purpowers. But the statesmen of Japan have | pos s. just shown excellent judgment by refusto enter into a warinke alliance with jurious effect of alum upon the system, to France against China. Nothing could be need further caution against the use of more dangerous to the independence or any baking powders known to be made ruinous to the interests of Japan than to from the drug; but the dealer's assurance be plunged into hostilities through such an aliannee. The people of Japan are in the way of progress, and peace is of uthers importance to them.

751 Market ! treet. SAN FRANCISCO, CAL

IF YOU DO READ THIS!

IT'S A RESUME OF WHAT WE OFFER!

IT PLACES FACTS IN PLAIN WORDS.

IT TELLS WHY WE CAN SELL CHEAP!

Every man, woman and child in the country knows, i they give the subject a little consideration, that an establish ment doing business on a cash basis can afford to sell cheap est, if they want to.

"Doheny & Marum propose to prove to you that it is as much their interest to sell you goods cheap as it is your interest to buy Goods Cheap."

We do business altogether on a different principle from any house in Walla Walla or in the Territory. If a lady enters our establishment and buys a bill of Dry Goods amounting to fity dollars it is our special aim to sell those goods to that lady at least fifteen dollars less than they would cost her anywhere else, for this reason, because we purchase that lady's good wishes and good will, and we consider THAT worth the whole fifty dollars. This will seem a strange doctrine to some merchants, nevertheless its our doctrine and we propose to stand by it. Of course to give a lady fifty dollars worth of goods for thirty-five is an advertisement. That's all right, we know this, but thu's the kind of advertisements the people want. We are not looking for large profits, it wouldn't suit our ideas, its LARGE SALES we are after. No matter how much business we can do we are still selfish enough to do more, and if low prices are going to do it, then it's an accomplished fact.

Remember one Thing

We only Sell for Cash.

If we gave credit thewhole fabric of our system would he broken to pieces right there. For example we sell more clothing than any two houses in Walla Walla, and we only commenced to sell them a few months ago. Mustn't there be a reason for this? (f course there is, its the prices. We buy clothing for cash and we sell them for cash, then we know what we are doing. If we sell a man a suit of clothes for fifteen dollars that costs twenty in other places, its all right, we are perfectly satisfied, because that man knows he has been well treated, and he will tell his friends he has been well treated; tha 's what we're struggling for, the good will of the public- Stores that get big prices don't like this, of course not, but that's none of our business. It's the public we want to please, not competitors. We sell suits of clothes for eleven dollars other stores charge fifteen for the same. Pay fifteen and you may get credit, you can pay us eleven but you must put down the money before the suit leaves the

WHAT WE ARE OFFERIXO NOW!

family and has no equal for fast threshing, perfect separation and cleaning; built from the best of eastern material it is unequalled for durability.

Their thresher engines consisting of Portable, Self-Steering Tractions, and Straw Burning Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly tested in past years to the entire satisfacturing Engines, have all been thoroughly the entire satisfacturing Engines, have all the entire satisfacturing Engines and Engine Engines and Engine Engi already being shipped. We have yet a large surplus of summer goods on hand, but the great bulk of them will be just as suitable for the coming season as for the present. Still all alike, they must be cleared out of our way The most destrable goods have been marked down, and people that visit our store during the next few weeks can well be amazed at the prices they will see. We are stating facts now in plain language, that can be easily proven, that have been often proven before. We do not offer "great slaughter sales," or other such fifthy expressions that grace (?) the newspapers. We simply state that for the next few weeks we will offer DRY Goods, CLOTHING, BOOTS and SHOES, and HATS 20 per cent less than they ever cost previously in this city.

EGOOD LIGHT!

People who have purchased goods in a dark store can realize immediately the advantages of good I gat. Darkness like charity covers a multitude of sms and in he handiest thing in the world to have a dark store when poor goods are to be "sorked off." A dark store is a good place to buy dress goods or sites, because all the colors look about the same, but whether you have bought blue or brown or red you don't know until you get home. It's an easy matter to sell a suit of clothes in a dark store, because the purchaser can only get a slight idea of the color, and cutcell at ything at all about whether its faded or snopworn, and as far as the quility he can only judge by the feel. There is no need of its saying anything about our tight, the public know all about it. You can see what you are getting. If you was a suit of black do hes we can't sell you green, but if we hall a dark store you couldn't

### COUNTRY ORDERS.

There is no stronger evidence to our mind that the public are convin There is no stronger evidence to our mind that the public are convinced that we do just what we advertire, than the ever increasing number of Country Orders. This branch of our business has ever received the most scrupulous care and attention and the result could not be different. When the public are satisfied in their belief that we do as well for them by letter, as if they were present, it cannot be wondered at that we do so immense order husiness. We were aware from the first that a large order bus ness was uphill work; because the public had grown into the idea that storre-keepers would silvays take the advantage of the opportunity to get rid of showwarn goods—that was the hardest thing we had to contend with, but we have proven thousands of times that an order will receive the same attention exactly, as if the person was present.

The only known specific for Epileptic Pits. 50 age Also for Spasms and Failing Sickness. 62 age Actualizes germs of dileanse and sickness. Cares nglv blotches and stubborn blood sores. Cleanses blood, quickness sloggish circulation. Eliminates Boils, Carbuncles and Scalds. 62 age Permanently and promptly cures paralysis. Yes, It is a charming and bealthful Aperican. Kills Scrolind and Kings Evil, thin brothers. Changes bad breath to good, removing came. 28 Eouts billiousness and cleans complexion. Charming resolvent and matchies the surface. 62 it drives Sick Headache like the wind. 63 age 13 age 15 ag OUR reporter relates the following remarkable stantial merchants, Dencon Stephen G. Mason Mr. Mason says that from 1869 to 1880 he suffered terribly from frequent very severe attacks of in-finantiatory Kheumatism. The last attack in the inter of '79 and '80 was so sovere as to reader him unable to take a step in four months. His physicians thought that one side of him was paralyzed, and both knees became so still that he ould not bend them. The doctors proceduced Indianes Sick Headach like the wind. The Law Cottains no direction catherine or opiates. Fromptly errors Heamanism by routing it. The Brestores Hieafacts by routing it. The Brestores Hieafacts are reconstituted in the hood. The Restores Hieafacts and opiates fail. The Restores Hieafacts and opiates fail. The Restores of the mind and invigorates the body. Cures dyspepsia or money refunded. The Professor of the Hieafacts of the H his case incurable, leaving him in a terrible con dition. He was then induced to try Hunt's Remedy, by a medical friend who told him that his disease, and convinced Mr. Mason that such was the case, and after taking it six weeks was catirely cured, and is now in such excellent physical condition that neither damp weather nor wet feet affect him disagrecably. Mr. Mason says that his cure is complete, as it is more than two my most remarkable cure salely to Hunt's Rem edy, the Infallible Kidney and Liver Medicine,"

### The Best.

WILLIAM H. WILSON, M.D., Springfield, Effington Co., Ga., says: "I prescribed Hund's Remody in a complicated ease of Bropsy which I had been treating for eight years, and I find Hund's Premedy is the local medicine for Dropsy and the Kidneys I have ever used."

Ann all S. Coles, of Morresci B., Burlington Co., X. d., says: "Fighteen mouths ago I had bropsy around the heart. By physicians and friends despaired of my ever getting well. The first battle of flund's Remody zave me great relief. I feel I care my very existence to Hung's Remody and I are deeply thankful."

Aladein's hung wrought mightly things, but Hung's Remody aways mightler. By it.
