FALL AND WINTER STOCK -On the list to San Francisco, we notice the name 1.00 of Fred Adams, of Adams Bro.'s, who goes below to purchase a stock for the fall and winter trade. Mr. Adams is thoroughly acquainted with the wants of this market, and with his return customers may rely upon securing the latest and most fashionable styles of goods.

ORDER AND DECORUM. - We hear many expressions of approval of the dignity and decorum exhibited by Judge Ken nedy to presiding over his Court. Ob-"Indecent words admit of no defense, For want of decency is wint of sense."

IT OUGHT TO KNOW .- The Gold Hill in Washoe who would not believe Sens. tor Stewart under oath. In the case then before him there were abundant reasons for granting the application, but in fu-ture the exercise of the authority with which he was clothed would be used very sparingly, and whatever influence he could exert would be directed against this wholesale system of divorcing. The frequency of these separations was bringing reproach upon our community, and it became all well wishers of society to set their faces against the practice. Words fittly spoken, and we trust that the Judge will resolutely adhere to them.

CITY TRADE - In passing around town yesterday, we found all the business men more or less engaged, with every sign of an active trade. At I. T. Reese's and Jordan & Co.'s all hands were busy. Just at this time. we doubt whether any people on the coast are enjoying the same degree prosperity with which we of Walla Walla are favored; and if this is the case now, what may we not expect when a railroad connection opens to us the markets of the most?

> TIME 1 . CHANGE - During dem ocratio administrations, the expenses of the Government amounted to \$70,000,000 per annum The war closed in April, 1865, since which time the Government has collected over four hundred millions a year from the prople. If the Government had been administered as of yore, a had been administered as of yore, a balance of three hundred and twenty millions per year would have been left to apply on the debt. The debt, however, is three hundred millions greater than at the close of the war. Where have the thirteen or fourteen hundred millions gone? Echo an-awers, where. swers, where.

BEN DUILER, the notorious coward, thief, imp-acher, and we know not what other crimes, has arrived in California. The Overland Railroad Company has much to answer for, but all previous officeres are eclipsed by the single act of bringing the spoon thief to this coast. So far the railroad has been a loosing conthe ratiroad has been a loosing con-cern; it takes away from us our best people and brings nothing in return save such libels upon humanity as Schuyler Colfax and Beast Burler. If this thing is kept up, we shall vote the railr ad a nuisance.

THE RAILROAD PARTY. - The Helena Gazette, of the 2d inst., has the following in relation to the party of gentlemen who are engaged in making a reconnoisance for the North Pacific Railroad It says they have been down to Benton, and to the Maris and Teton; coming back they explored Canotte's pass, and the Deer Lodge and Multate passes they had traversed before. It is not their beiness, as we understand, to locate the route. They are taking general observations in regard not only to the feasibility of a line of road, but of 'the nature and prospects of the country, and the value of the land through which it passes. In return, the Judge has gone for the Governor, and is industriously engaged in hunt-ing up evidence in relation to the cattle trade and other transactions in which the Governor is supposed to have turned an honest penny. So far it is hip and tuck, and at this writing it is difficult to say which of the gentlemen will come out ahead The most that we know, is that the Government was exceedingly unfor-tunate in its cattle arrangements, and that old worn-out oxen were passed off instead of young cattle. The whole transaction, however, was strictly in accordance with radical rule, and only goes to show that the Governor practices upon the princi-ple of "making hay while the sun

A CAPITAL SWINDLE.—The Mon tana papers just now are in a fever of excitement over the question of the location of the Territorial capital. At the late election the question of location was submitted to a vote of the people, and it was believed that duction, and with the exhibition of the expression was in favor of Helena by about 500 majority. In canpetus given to the dairy business in this Valley. Grain we can produce in quantities beyond the wants of the markets, but no one need apprehend everytheting the butter and chose controlling the butter and chose City. The throwing out of this vote, and the action of the canvassers is charged to be fraudulent, and the whole procedure is denounced as a swindle. Early settlers in Oregon will recollect just such a muss grow-ing out of the strife between Salem and Coreallis for the Capital, and they will recollect how severely the then Secretary Harding was denounced for making way with the Jackson county returns. In that case public opinion settled down to the conviction that a swi-dle had been received in two of Salem, and so we hope to see more attractive than practiced in favor of Salem, and so too, judging from the newspaper statements, Virginia City with by

cheating her rival. Washington dispatches assures us that "the moral influence, if not the political power of the Administration" is to be used against-the conservatives in Mississippi. The exact nature of that "moral" influ ence is not decribed, but, the En univer says, if Grant should go down there in person he would possibly take some of it with him in black bottles. Meanwhile, the suspicion gains ground that the petticoat influence of the White House, which years; but on the contrary, that our wives, mothers and daughters will seemething—a contounded deal more substantial and appreciable than the morals of the Boutwelltes and thus show that they feel an interest in whatever contributes to the general prespecty. THE San Francisco Chronicle, a leading radical paper, says that with the "adoption of the Fifteenth Amendment the democrats will have achieved their last victory in Cali-fornia." That the burdens of taxation have been reduced and their weight upon the people lightened I agree, but sound judgement and freedom from bad influences have been brought to exercise an immense power over the Secretary of the Treasury. The business is active, that vigor and industry are bountifully rewarded, that employment is abundant and fairly compensated, that commerce and the prospect thereof are improved, I cannot, as servicely as does our worthy Governor, admit; nor can I turn my face from all questions of Federal politics and look only at State affairs. It ought to be, if it were not, the rule, that schemes for the consolidation of State affairs were left to State management. If Federal exercise an immense power over the the consolidation of State affairs were left to State management. If Federal affairs were kept within the scope of the constitution it would be so, but I cannot pretend to believe what I know to be fairs. I oppose the adoption of the Fifteenth Am adment because it is a material radical change of our Government and destroys the relations between the States and the Federal Union which the constitution established in the government of them, and takes

away from the States, without their consent, that essential attribute of self government, the right to determine who shall exercise the right of sufferage, and because it was intended to and will introduce negro suffrage in Ohio against the will of the peo-ple. Two years ago the people of Ohio, without distinction of party, est implication, the Union confers, not upon Congress but ourselves, on the States, the right to exclude from the ballot persons not of our own the white race, and not because of their nativity, creed, want of ed-ucation or poverty, and prohibits the exclusion of another race only. If the interpretation of Senator Morton and Senator Howard be correct, under this amendment other States may exclude all Catholic and Protestan exclude all Catholic and Protestant or poor men from enjoying the suffrage in Osio; but not the negro or Mongolian. contains the following announcement:

"Hon. J K. Kennedy, the newly appointed Judge for the First Judicial District, arrived as Walla Walla, in the early part of the week, and at once entered upon the discharge of his official duties. Judge Kennedy is extremely radical in politics, but being a courteous, genial gentleman, and withal a thorough trained lawyer, we feel quite sure that he will fill his high office to the satisfaction of the people of the district. A stranger in our midst, we bespeak for him what we know he will receive—a courteous reception."

STILL AFTER HIM .- Private life, like the tomb, has usually been thought to bring exemption from the bitterness of persecution; not so, how ever, with poor Andy Johnson. The ever, with poor Andy Johnson. The radical press is after him with the same old howl of poi-oned invective and villainous denunciation. They have often told the public that he was thrice dead and damoed to etern all infamy in a political sense, and yet in the same breath they devote whole reams of foolscap to a tirade of naucesting abuse. The truth is, however. And is not dwel and thay ever, Andy is not dead, and they know they lie when they say so. Andy will live to celebrate the death and burial of every ism, faction and short-lived party now opposing the principles he is known to advocate.

GREAT SPORT -On Monday, Messrs.

John Justice, Mark Evans, M. Martin, and Messenger, went out on a hunting expedition, and returned yesterday afternoon, bringing with them 423 prairie chickens as trophies of their skill. The chickens were fat and tender, as we nappen to know, having feasted on a baker's dozen of them. For the gentleman fond of sport, we know of go more inviting scene than the scope of country around Wills. LABOR SAVING -Mr. G. W. Somerin dyke, the bag manufacturer, is having a water wheel about four feet in diame ter rigged up, the power from which he intends to apply to the propelling of his sewing machines. The labor of running these machines, when propedled by the foot, is very great, and is said by physicians to be injurious to the health, particularly in the case of women. Mr. Somerindyke's ingenious contrivance will obviate this, and enable him to do a greater amount of work with much less a greater amount of work with much less labor. Wherever possible, sewing nachunes should be driven by power, thus leveing the operator free to devote all his attention to the mere details of sewing. A writer in the Scientific American suggested some months since that the man who would livent some cheap and portable moter for the propelling of sewing machines would be the benefactor of his race, and entitled to the gratified of the sewing women. Mr. S. has antecpated this invention, and got up an arrangement that will materially reduce the sum of his labors.

GRETNA GREEN - Walls Walls on a small scale is becoming about as famous as Chicago for her divoces, although in this respect we have the promise of a re-form. Latterly we have noticed indications that in addition to her other achievements, Walla Walla is likely to be distinguished as a sort of Gretina Gree for all this section of country. It is known that the laws of Oregon are very strict in all that relates to the marriage ceremony, and that in the case of girls under age it is impossible to marry them without the consent of their parents or guardians first had and obtained. Here in Washington Territory this is readily ob-viated. The practice is to run the girl over the line, and then she is here with out a guardian. Our laws, looking to the welfare of innocent youth, provide that in all such cases a guardian or protector shall be appointed. This is forth with done, and a person ready at hand is appointed, and of course consents to the marriage of his ward. On this assent the Auditor issues his liceuse and sent the Auditor issues his heense and then the ever convenient justice stands ready to perform the ceremony. This is what may be termed "marriage made easy," and we give the imformation for the benefit of love-sick swains across the Ocyan line who may be sighing and souding on account of the obstinate par-ents who stand in the way of their biss

On this day the Hebrews, wherever they may be, are accustomed to meet in their synagogues, and make offerings of money and other valuables, the proceeds of which go to the relief of the poor and afflicted of the congregation. In California, and if we mistake not Oregon and Washington Territory, the offerings of yesterday were to be applied to the reher of the suffering Jews of Poland, who have been surely affected by famine, and hundreds of whom have famished from starvation. In matters of this kind, the Jews, although ever ready to aid all worthy charities, never appeal to their christian friends, but supply whatever is required from their own means. FRIENDLY CALL - We had the pleasure of a call from Dr. Robert Newell, late Indian Agent in charge of the Lapwai Reservation. The Dr. was lately relieve ed by an army officer, and again returns to private life. If any civilians were to be retained in the Indian service, we think Dr. Newell is the man, for certain ly it would be difficult to find an indi-vidual more thoroughly conversant with the Indian character, or better fitted, by the Indian character, or better fitted, by experience to deal with the "untulured wards of the Government." Our old friend informs us that he thinks of procuring a claim and settling down in this Valley, where he has numerous friends and relative.

POSTAL MONEY ORDERS -The mone order system as introduced by the Gov ernment is a great convenience, and is Like other conveniences, however, it has its drawbacks, and will admit of im-provement. Its defect is in not providits drawbacks, and will admit of improvement. Its defect is in not providing a fund for the local offices that will enable them at all times to phy orders as presenced. We know that this is its intention, but in the practical working of the system it is frequently found that the payment of orders is deferred on account of the lack of funds. This defect can be remedied, and with its removal the money order system would be about as near perfect as is possible for any mere human institution.

FUNERAL OF SECRETARY RAWLINS Washington.Sept 9 — Early to day a large number of person were at the War Department, auxious to view the remains of Secretary Rawlins. At 9 o'clock the doors were closed. All the army and navy officers in the district were present. Several members of the Cabinet and the President arrived at 9½, and went immediately to the room where remains lay Mrs. Rawlins, accompanied by her father and small children of the de-ceased, with two brothers of the rather and small children of the de-ceased, with two brothers of the Secretary, and several female rela-tions, formed a weeping group around the catafaque. General Sherman and several army officers, the Justices and several army officers, the Justices of the Supreme Court, members of the Diplomatic Corps, and several Senaters and members of Congress, with other distinguished persons, comprised the attendants. Solemn services were commenced at ten o'clock. Rev Mr. Wilson, pastor of McKendree Chapel, in this city, de livered a brief and impressive address after the preliminary services by other divine.

On the conclusion of these cere-monies the friends of the dec-need slowly passed from the building; Mrs. wawlins, pale and sinking with grief, and supported by General Parker and and supported by General 1-78er and he father, being the first to leave the room. This touching feature of the solemn ceremony intensified, it pselble, the grief every where manifested. The degree other ladies and immediate friends of the deceased followed, when the coffin was strewe with flowers, and removed by a guard of honor, tollowed by distinguished pall bearers. President Grant was much affected during the ceremonies The funeral procession started about eleven o'clock, headed by a limbrine hand followed by a battation of the band followed by a battalion of marines and artitlery on foot, a squad ron-of e-valry, a battery of high artillery, and a line of whicles, two hundred or more, two abreast, exten ding from the Executive Mansien to the Capitol Business was entirely

JOB PRINTING. HAND BILLS, BUSINESS CARDS, &c., neatly

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witne sed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture and sell it in the United States.

The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world. The cabalistic S. T.-1860-X. was a talisman of health, and the demand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were created as if by magic, which atterly "astonished the natives." The services of experienced men and natives of the island were procured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Rum needed in manufacturing the GREAT DYSPEPTIC TONIC AND INVIGORATOR. The above cut represents

the natives crushing the sugar-cans and otherwise preparing it for the stills and presses.

As an antidote to Fever and Ague, Intermittent and Malaricus Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION DITTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adapted to old and young, male and female. They are agreeable in taste, and always produce an immediate beneficial result.
