This is a good time to suggest to towns unprovided with means for extinguishing fire that it is a very wise policy to have some organization perfected. A hose playing on Rowland & Powell's drug store would probably have saved all east of Franklin street, nearly one-half of the whole loss. Miss Lou Reynolds saved her entire stock

[FROM OUR REGULAR CORRESPONDENT.] Washington, October 6th, 1883. The near approach of the session of Congress has not all the politicians present in Washington, and all the officials, clerks, and others directly interested in for Sim Barnes who rushed in and carried Party complications to goes pping over the immediate probabilities. The question which is discussed most in the office produced by the crashing and trembling of meet, is as to who will be Speaker. The proceeds of a bail, competitive drill and other canvass for this important post, doubly important because a Presidential election Templars. Of the balance of \$6000 or \$7000 will occur during its incumbency, is now very active, though it has been going on in the way of a still hunt ever since the result of the last election showed a Democratic vict ry. Raudall, Carlisle, Cox and a perfect herd of others, are in the field as candidates and the excitement is becoming intense. The chances of each fa vorice is excitedly figured up, and according to the prejudices of the taker this for attendance during his confinement to his one or that one is sure of a majority of bed, caused by a troken leg and other injuvotes. Mr. Randall and Mr. Cox are already here, and have selected their headquarters at different hotels, where they keep "open house" until the canvass is panse. It has been suggested that the rethey will probably be met at the tram and informed that their expenses are all paid, including the bar, and all they have to de is to put up at the hotel where Mr. Randall or Mr. Cox or Carlisle is located and order what they want, and have it charged to the candidates bill. It is even said that Mr. Cox with characteristic ingenuity is ters for him, whether it will be in the nature of a chromo, or a cake of soap, it remains to be seen. But undoubtedly i wili b. a novelty. There is no belief that Mr. Cox will be elected. He has part of the New York delegation in his favor, and if the South breaks up as it is said it may do he may get a large vote from there. But his chief expectation is to secure the Chairmanship of the leading committee in exchange for his support to the win ning man. Talking with a well informed official of the House, the latter said that Carlis'e was sure of 191 votes on the first ballot. He had been assured of this fact

-WILL PRESENT TO THE PUBLIC ON-

MONDAY, OCTOBER 8th, 1883,

Their Inaugural Display of Fall Novelties!

For the past month we have been receiving day after day immense quantities of goods from New York and Eastern Points by the Northern Pacific railroad, and to-day we are ready to demonstrate to the people, both in styles and in prices, the incalculable advantages of Eastern connection.

Dress Goods and Silks, Trimming ocds and Buttons. Dolmans and Cloaks, Hosiery, Gloves, Laces, Ribbons, Fancy oods, Etc.

In these departments we are specially prepared to introduce to the ladies of Walla Walla fabrics and styles heretofore unknown in the Territory. Untrammeled by delays, and face to face with the metropolis of the country, we are now enabled to place before the people the same styles and the same prices as New York or Chicago retail establishments.

ON MONDAY, OCTOBER 8, 1883, we will be ready to prove this fact. We make no claim to impossibilities; the record of our assertions is in the past, and the people know We believe that every lady in the Territory is convinced of the fact that whatever we asserted we proved.

Blankets, Flannels, Sheetings, Table Linens, Towels, Underwear, Ladies and Children's Shoes, &c.

Our assortment of these staple goods is at present vastly superior to any former selection we were enabled to offer the public. Receiving those goods direct from the factories, it will be now in our power to offer them for sale at prices very much lower than it has ever been possible heretofore.

OUR PAST AND PRESENT PRICES!

It is morally impossible for any house doing a credit business to sell goods at low prices. This fact is so well established in the business world that any controversy on that subject would be a waste of time. We are the only exclusively cash house in Washington Territory, and it stands to reason that we can sell goods lower than any other house in the city. The public knew that our prices during the past three years have always been lower than any other house, and the reason is because we sell for cash. The great distance and length of time from New York have always been a terrible barrier against our selling goods cheap, but to-day that obstacle is swept away and nothing prevents us, if we feel disposed, selling goods as low as in New York or Chicago. The difference in the expense of doing business in Walla Walla and New York or Chicago more than counterbalances the freight, and because we sell for each we claim that henceforth we can sell goods as low as any eastern retail house. This is a bold assertion, but we have often made holder ones and the people KNOW that we have always PROVEN their truth.

THE ADVANTAGE OF GOOD LIGHT!

It is perfectly needless for us to tell any lady that good light is a most supreme necessity in selecting goods. We ask is there a lady in Walla Walla who hasn't frequently commented on the very poor and insufficient light in most all of the stores in this city? Ladies do not like to buy dress goods or silks in the dark, they like to see the color-if they buy black they don't like to find that it is green when they get home. Of course it is a great misfortune to be blind, but a blind person has just as good a chance in a dark store as any one else. This is a great advantage to a store-keeper who wants to work off poor goods, but to the purchaser it is just the same as buying in a lottery. The light in the center of Main street and in the center of our store is precisely the same-just as good in the store as on the street. You can see exactly the color and quality of what you are getting, and you do not need to trust altogether to feeling with your

ONE PRICE--All Goods Marked in Plain Figures.

When we commenced business on this basis three years ago most houses in this city said such an idea was absurd But the public thought otherwise, and the houses that at first ridiculed it are now compelled to pretend to adopt it. The public know that with us these rules have been invulnerable bulwarks against misrepresentation and have made our establishment a household word in every house in the Territory. An inspection respectfully solicited.

Important Rumor.

A rumor, important if true, has been circalating in Portland for several days past to the effect that a consolidation is pending between the Union Pacific and Oregon Railway & Navigation Companies' lines, whereby the former will build a road from Walla Walls to Puget Sound. There is nothing at bounds of possibilities that it is a part of the recent stock war, and besides, the scheme is highly practicable, and taking into consideration the fact the Union Pacific has practically no outlet now the southern route has taken the greater part of the traffic there

It is open to one objection: The water would get as where, Mr. Kuhu was timid enough to suggest a legal opinion, as to the relationship between the county-seat and the courts. This was too much for Mr. Brining, who thought there was a " nigger on the fence," Saturday reports were rife that Senator and he forthwith proceeded to deliver a des-Dulph, of Oregon, and other large owners sertation upon court houses and courts in general, which so mystified the wisdom of

the House, that Cassius (Shaw) took a fresh present no such assignments have been made. There is a general "tug-of-war" going on in Wall street, and should the present state of things continuo we would not be surprised to hear very startling news.

Young Mr. Brooks sent out a little feeler "that the court shall be held at Pomeroy, the county-seat of Garfield county." Mark Antony (Brining) arese again and said "the people of Garfield county were his friends," which information staggered the gravity

The game law, as published in to-day's STATESMAN, has created considerable comment among our local sportsmen. It is a fact that if the new law, as proposed but not yet a law, should go into effect, in a year or two prairie chickens wended be scarcer than ever. Under the old law which prevented the killing of these birds from the 5th day of December to the 15th day of August, prairie chickens have increased in number, and the law had the desired end—that of preventing the utter destruction of these birds.
