What Strangers Think of Us. T. F. Finerty, the graphic correspondent of this live, go-ahead, wide-awake and energetic newspaper the Chicago Times, during his visit to this country, wrote us up with a sharp pen.

The Epidemic. Although our own city is free from the epidemic which is raging over a great portion of the country, there is yet a possibility that it may visit us, and therefore for the good of all the STATESMAN publishes an account of its origin and symptoms taken from the work on "Diseases of the Skin," by the world-renowned Erasmus Wilson, F. R. S.

A Letter to Liverpool. PORTLAND, ORE., Nov. 11, 1881. To the Editor of the Liverpool Mercury: For the future guidance of ship-owners and masters coming to this port we request you will be kind enough to insert this letter in your paper.

Matter Calling for the Consideration of the Board of the Cascades. From the Mountaineer: A leader in the WALLA WALLA STATESMAN of the 29th of October details facts of great importance to the people east of the mountains, and ought to call for their united attention and action in securing those privileges for free navigation, and for the transfer of their grain and other products in such a manner and upon such terms as shall encourage the farmer and leave him a reward for his labor.

Let it be Tested. Reports are still being industriously circulated that the small pox is raging in this city and that several are lying dead with it. This is calculated to injure the business interests of the city, and the STATESMAN takes the opportunity of stating that with the exception of the doubtful case placed in the past-house a month ago and now at liberty cured, no cases of that disease exist in this city or in its immediate vicinity.

NEW STOCK. I AM NOW RECEIVING MY FALL AND WINTER STOCKS! Of Goods of every kind and description. LADIES DRESS GOODS! Hats, Underwear, Hosiery, CLOAKS, SCARFS, CHILDRENS WEAR COMPLETE. GENTS CLOTHING. Hats, Caps, Boots & Shoes. Rubber Goods of all kinds!

RAILROAD DIVISION. Trains leave the Depot in Walla Walla every day, except Saturday, at 7:30 P. M., arriving at The Dalles the next morning in time to connect with the boat for Portland.

What Strangers Think of Us. The principal wheat farm around Walla Walla is that known as the Baker claim, which is about 15 miles wide, including the slope of the ridge, and perhaps 100 miles in extent, principally trending eastward, but not of even width all through.

The Epidemic. At the earliest moment of eruption it is impossible to establish a distinction, since both affections are developed in the form of red spots with central stigmata. Causes—Variola originates in the varicellous contagion, and frequently precedes or follows an epidemic of small-pox.

A Letter to Liverpool. Another very serious matter is that vessels consigned to Portland with only a very ordinary draught cannot be completely loaded there, and even then are frequently stuck on the river banks, the steamer charges still continuing at the rate of eight dollars per hour for detention.

Let it be Tested. "See here," and the girl's eyes gleamed with earnestness, "you're the first fellow I've had, and you've got to put down that hat and sit up and court me in good shape. I'm homesick, I know, but I can build better bread, iron a bosom-shirt, make a pair of stockings quicker and knit \$1.50 further than any girl in the village. There's my recommendation."

Let it be Tested. "That suits me exactly," and his hat went back into the corner, and that evening the details of the wedding were all arranged. He depended on a girl as smart as that to get the best of the old folks.

THE NOVEMBER ELECTIONS.

NEW YORK, Nov. 9.—Reports up to midnight show small democratic gains in New York. Virginia probably goes for Readjusters.

The Washington Star publishes an account of a very lively cabinet meeting on the subject of the prosecution of Gilliland. The attorney-general said that he did not consider it any part of his business to give attention to criminal prosecutions...

The President then quickly and somewhat angrily asked MacVeagh how it had been in the Aaron Burr trial. "Oh, but that was a trial for treason," MacVeagh replied.

The returns from the election are incomplete. The state is undoubtedly republican by a large majority, and most of the counties are believed to be carried also by the republicans.

Lord Mayor's Day. Wednesday being Lord Mayor's day and also the birthday of the Prince of Wales, the new Lord Mayor went in state to Guildhall with all the old members of the corporation...

New York.—145 election districts in this city give Parcell (dem.) for secretary of state, 19,232 votes; Carr (rep.), 11,328.

150 election districts give Parcell, 27,713; Carr, 11,523. 132 districts give Maxwell 18,634; Husted, 9,066.

Correct figures of the vote of Boston give Long (rep.) 15,429; Thompson (dem.) 11,325. The senate will stand about 37 republicans and 23 democrats.

NEW YORK.

Returns received thus far indicate the following as the political standing of the next legislature: Senate—republicans 13, democrats 30; gain of 3.

Wisconsin Revisited. 191 towns and cities, including Milwaukee, and embracing two-fifths of the state, with interior republican precincts to hear from, give a net democratic gain of 8,298.

There is prospect for a very arduous revival of activity on the Pacific Coast as a result of speculation at the east, and interior grain operators have been putting up the price of wheat mainly for the benefit of Russian and California markets.

THE NEWS SEND-OFF

Given the Local Happenings of the Day by Reporters for 'The Statesman.'

T. S. Mabry has returned from Portland. The court docket bids fair to be very large this term.

S. H. Massam has built a picket fence in front of his residence.

The high schools of Minnesota receive \$400 yearly from the state.

Dr. Corcoran has returned and finds many amount of horses waiting to be attended to.

The front of Tiger Engine House has received a coat of paint, adding much to its appearance.

What relies a country postmistress is to have a letter come to the office written in French.

George Magaña has returned home for the winter from Pen d'Oreille. He looks as handsome as ever.

Hon. B. L. Sharpstein and wife are expected home from Olympia on Saturday morning next.

The county commissioners are nearly through with their session and probably this will be the last day.

Like sensible men the County Commissioners have cut down the fees of the doctors one-half of their demands.

November term of the U. S. district court for Walla Walla will commence on Monday next. The docket is pretty large.

Herman Metzger, Esq., accompanied by his sister, are on a visit to Portland and will remain until Christmas.

It is reported that the Rev. I. M. Wells is about to leave this city. We sincerely hope that such is not the case.

Hon. J. M. Cornwall has so far recovered his health that he returned to the Legislative halls on Wednesday evening's train.

A young lady in Kenkuk who is soon to be married, is six feet four inches in height. She will be a wife who can be looked up to.

Some rascal burgled W. S. McCallie's room on Wednesday night and carried off his gun-to meeting clothes, boots and revolver.

There have been thirteen deaths so far this year from not knowing it was loaded, and several old shot-guns yet to hear from.

The are putting in their big bids on the pile driver. Don Keefe is superintending the job so that we may now expect less trouble than of high water.

Sixty-two dollars and fifty cents is a great deal of money for the country to pay for the privilege of allowing three doctors to examine a man in the post house through a telescope.

Pile-driving is going on by the Opera House and it sends a chill through the human frame to see the men up to their middle working in water.

A. Reeves Ayres is the first one to start moving into the new Court House.

Some grand exodus from the old familiar place will commence on Monday next.

A piece of zinc placed on the live coals in a hot stove, it is said, effectually cures out a stovepipe, the vapors produced carrying off soot by chemical decomposition.

The Seattle Chronicle makes note of a little three-card monte game over in that section recently, in which a man named Wilson, from Kansas, was relieved of \$1080.

The experiment of electing women superintendents of schools in Iowa has succeeded successfully. Under their administration the schools have improved and the expenses have been reduced.

Mr. Conly, who was sent to the Hawaiian Islands for the benefit of his health, by Mr. Hayes, four years ago, desires another term. The salary is \$7,000, and the duties consist in inspecting for fish.

A witness was charged at Union during the week to Mr. Charles Phillips of Walla Walla and Miss Nellie Rockefeller of the toll gate on the Meacham road, granting them the privilege of uniting their hands in matrimony.

The game law was defeated by the members from Columbia and Whitman counties. It is a poor policy for neighboring counties to act adversely to the interests of one adjoining. Game cannot be preserved without joint effort by all neighboring counties.

D. J. Schneck, Esq., is in the city after a long absence in Kittitas valley. We are pleased to hear of the increase in his flocks and herds in that portion of Yakima county.

Mr. S. is enjoying remarkably good health, and cannot speak too highly of the purity of the climate over there.

That little game to break up the STATESMAN is turning out like the fellow's story he told about his fight. "Yes," he said, "I pulled Bill down on top of me and held him there till I told him to get off, and you bet I licked him good. I'm going to give him some more some day. Is my eye much black?"

Another hundred dollars is to be added to the already large bill put in for examining that alleged small-pox patient which makes for nurses, lack of hire and doctors no less than \$267.50. Our citizens are getting interested in this business, especially as the bill against the city is yet to be put in. A messy patient is a boon to half-starved doctors.

After missing for two succeeding days a big overland mail arriving on Tuesday night. The roads in the mountains on the toll road are so bad that the entire population of Unadilla county were to turn out and try to destroy them they could not make them any worse.

The following touching tombstone inscription appeared in a recent number of the Chicago News:

Here Lies Little Tommy Jones, Aged 7 years and 3 months. He had bought his little sister 15 cents worth of a daisy instead of investing his money in a Toy Pistol. He would be playing innocently per in the back yard when the shot of a Fitzgibbon to-day. We hope to meet him there are no fire-works.

ASSESSMENT WORK.—Inquiries are constantly being made relative to the assessment work required on claims, and how long work will hold the claim from being subject to relocation. The question has been answered a number of times, but the following letter from the Commissioner of the General Land Office should be conclusive to the vexed question relative to assessment work, when it expresses and claims are subject to relocation.

WASHINGTON, Oct. 19th, 1881. EDITOR.—Referring to your letter of Oct. 11, 1881, I beg to state that the Act of Congress, approved January 22, 1881, provided that the period within which the work on a claim should be done annually on all lands subject to relocation, should be on the 1st day of January succeeding the date of location of such claim.

The following claim located on the 1st day of January, 1881, will not, therefore, be subject to relocation, by reason of non-performance of the required annual labor, until the 1st day of January, 1882.

Very Respectfully, N. C. McFARLAND, Commissioner.

GRIPPING INTERESTS

As considerable comment has been excited in regard to distribution of cars, and as a feeling exists among some shippers that an unjust discrimination has been made in favor of through shipments to San Francisco, we are requested to make the following statement of facts.

The O. R. & N. Co., as is well known, has a line of steamships plying between Portland and San Francisco, the tonnage capacity being about 7,500 tons per month, one-third of which, viz., 2,500 tons, is required for local business originating at and about Portland, leaving 5,000 tons chiefly sent to the Cascade mountains. As it is desirable to fill these ships to their full capacity, the wheat and flour for San Francisco has been taken down in lots to suit the wants of the ships; but in no single month has the quantity exceeded the amount stated, viz., 5,000 tons, which is only one-quarter the carrying capacity of the O. R. & N. Co.'s cars, thus leaving a capacity for 15,000 tons per month to Portland.

A uniform rate of \$10 per ton of 2,000 pounds has been made on the through wheat shipments from points east of the Cascade mountains to San Francisco, while the rate to Portland is \$9 per ton. Either of these rates is open to any shipper who wishes to avail himself of special rates, and no preference is given to any one shipper, but an equal and just distribution of the cars will be made as far as practicable, 25 per cent being for San Francisco and 75 per cent for Portland.

Shippers should bear in mind that they are now piled up at the different railroad stations in and about the Walla Walla valley, no less than 40,000 tons of wheat, all of it sold and all awaiting carriage to market. It is unreasonable to expect any transportation company can move this immense amount of grain at once, or in one month. The capacity required for such a movement would only be justified by a line doing three times the amount of business done by the O. R. & N. Co. The company has all the rolling stock required for the business offered, and when grain cannot be taken away at once, from points where it has been exposed to inclement weather, the company has provided lumber free of charge, to protect it until it can be removed.

Some preference has been given in removing grain piled on small unprotected platforms where lumber has not been furnished.

The division of transportation facilities as stated above is certainly all that could be reasonably asked.

LACY'S THEATRE

John Jordan took a front seat this morning, and at the request of "His Honor" came forward and took the mark. John was arrested charged with purloining a pair of government blankets from a Chinaman.

"What do you plead to the charge?" inquired "His Honor."

"I plead my inability to pay. Didn't know there was any charge. I invariably make it a rule to pay cash down, but I guess I must have told you to charge it, if you've got it down. How much is it?"

"Do you propose to enter a plea?"

"Why, of course, as I said before, you've got the charge and I suppose I must pay the bill, though I'm a little short at present. Thought I'd economize a little this fall, but I see I'm running the credit business as bad as ever. Sorry I told you to charge. Guess I must have been drunk."

"So you are willing to acknowledge you were drunk?"

"Guess I was."

"Well the bill is \$25 or twenty dollars in jail. You pay your money and you take your choice."

"Thank you, Judge, thank you. Didn't expect so much time in which to liquidate the amount. Guess I can pay it that time. Rather it a little more clemency that I expected to get, taking into consideration the fact that almost everything is 'O. O. D.' now days. Good Bye."

And he walked off with the marinal, while the boys struck up the ditty:

"You've a hard road to travel Mr. Jordan, I believe."

STILL WE DREAM

A large Immigration Com. Some weeks since Walla Walla received a visit from a gentleman who was a representative of untold capital; he viewed the country and was well pleased. He paid many visits to the STATESMAN office and acquired much valuable information.

On Wednesday the letter, of which the following is an extract was received by the editor of the STATESMAN which speaks for itself:

The more I think of the country I visited the more enthusiastic I become. It would have done you good to have seen some of the New Jersey farmers as I related what I had seen and I never could have made them believe that 54 bushels to the acre was raised, had I not brought home several boxes of "club wheat."

I want several copies of your new pamphlet, the advance sheet you kindly furnished me sent to Allentown by first mail—that is the best document I have yet seen on Washington Territory, and if you will forward me detailed information of the Grand Round county as to timber, agricultural and mineral resources at once, you will oblige me and forward the interests of your section.

We are in working order have already made an offer to the N. P. for a tract in W. T. of 400,000 acres and are ready to take it and pay for it as soon as the contract is signed.

I have been in consultation with Senator Sluder about the Grand Round, and we shall move in that direction at once. Do not fail to send me the information at once, and write me all other things you can in any shape or form.

Your truly, J. H. ROBBINS.

MARRIED

WASHINGTON, Nov. 11th. At the residence of the bride's parents, Nov. 11th, by Rev. R. E. Prather, all of this city.

The STATESMAN publishes the receipt of a beautiful supply of cake from the young bride and groom. Washington is a pioneer in the profession, and the printer, and also who has this opportunity, and also his young bride, makes the boys all feel good, may you "quins" always plenty, so that you may be able to purchase not only "small caps" when necessary, but also "blankets" by the ear-bush.

The Benton Record says: A genuine earthquake shock, which has been before chronicled, occurred some weeks since in the Belt mountains in the Montana District. Near the mountain "Old Baldy," it was strong enough to badly shake up four occupants of a cabin, one of whom is our informant, and who was himself nearly thrown out of bed. Immediately after the shock thousands of tons of rocks and earth slipped down the mountain and about four acres of ground was cracked and smashed by the movement. This was the second earthquake that has been known in this vicinity within the year.

It is stated that the directors of the Northern Pacific have offered the position of general manager of the company's lines to Mr. Payson Tucker, now superintendent of the Maine Central.

LETTER FROM THE CAPITAL

OLYMPIA, Nov. 6, 1881.

EDITOR STATESMAN.—The long, tiresome walk up the hill to the Capitol is a daily task that must be performed by the members here that he make his residence in the town. When we consider that the Capitol of Washington was built before Walla Walla was born, and when Portland was a baby, and San Francisco and Chicago were just budding into cities of magnificent proportions, it does seem strange that the advance of this place has been so slow; for it has been the continuous home of editors, governors, members of Congress, legislators, secretaries, judges, generals, colonels, majors and captains of all grades and political complexes through all the years of its existence. But with all this there is not a street car nor even a coaching business for a line of coaches or conveyance passengers to and from the legislative building during the sessions of the legislature. The announcement of a race to be run over Mr. Collins' track at Walla Walla will line the streets of the town and the road to and from the track with harnaches, landsteds, phaetons, coaches and hacks, and the proprietors reap a bountiful harvest from such use of their vehicles. The conveying of legislators in most places is the signal for the lightening of all the social claim from convenient distances and the citizens of such places usually compose a large part of the audiences of the galleries and lobbies at the sessions. Here the legislature frequently sits for days and not a face beams in upon the assembled wisdom from the lobbies except the officers of the houses. A few stragglers visit the town and the more daring—those insured to the misty peculiarities of the climate, and endowed with the natural force that make them superior pedestrians—stay out upon the hill and look in at the capitol.

THE WOMAN SUFFRAGE QUESTION.—Today the usual order was for an hour reversed. Yesterday the members of the house, unexpectedly to themselves, and regardless of what their constituents might say, had the bravery to "speak out in meet-in'" and actually betrayed their true inward by voting the passage of an act to confer the right of suffrage upon "woman citizens" as the bill in homely phrase expresses it. This bill was made the special order for the council at 2 o'clock this a. m., and was the signal for a grand rush of "man citizens" to the senate hall. But the Solons of that body had had time to fortify themselves, and two bachelors and live husbands therein made up the majority of two who by deferring the action for another day said they were unwilling that their ignorance should ever be offset at the polls by the superior intelligence of their wives. The bachelor chairman of the territorial democratic committee who is a house member, and whose intentions are more unerring than those of these legislators, that he voted for the measure knowing that the girls will vote and when they do they will vindicate him every time for their selection but will send him every time as their representative.

THE PRESIDENTIAL.—Walla Walla's chief representatives at the presidential election are located at Seattle, about 15 miles from this place, on the road to Portland, are McAllister and Holman, the former incarcerated years ago for the killing of Charles Ward, and the latter a short time subsequently for attempting to take the life of his wife. McAllister has literally grown gray in the service. He is white haired and decrepit, having become partially paralyzed. This seems to have had a subduing influence upon the spirit, which, during the earlier years of his confinement, never spoke the admission of having done a wrong, and breathed only revenge against those who he designated as the authors of his misfortune and the robbers of his estate. His chief occupation seems to be the manufacture of staves, and he yet lives in the hope of breathing the free air of the outer world. If he lives to serve the time for which he was sentenced he will have nearly attained his three score years and ten. Holman, some two years ago, indulged his characteristics of running from the guard.

A SURGICAL OPERATION.—In the capture his arm was broken and shattered between the elbow and shoulder by a ball from the rifle of one of the guards. Dr. Herndon, the surgeon, performed the difficult operation of sewing off the ends of the bones, taking off three or four inches therefrom, and succeeded in effecting a union so that he now has a good short arm, better than a thousand amputated ones. He has addressed letters to some of the members in which he earnestly entreats them to advance measures for his pardon, claiming as reasons that he is crippled, failing in health, and that he has a dependent family. To those acquainted with the cause of his incarceration, the effort to shoot his wife out of existence, his latter plea seems a peculiar one.

CRUEL TREATMENT.—You have read much about the kind of shackles used at this institution. They are riveted on the prisoner at the time he enters the prison, and only in exceptional cases are they ever removed except upon his release by expiration of sentence or death. This is simply barbarous. Other legislatures have denounced this proceeding without adopting measures to prevent it. It remains to be seen whether this one will provide means for their own more humane treatment when they ascend the ladder of fame one step higher. Think of the horror of working all day in the rain of this climate, as many of these prisoners must do, and then going home at night to lie down in their wet garments to dream of the freedom that such wretches must be perpetually craving, and to be awakened at every turn upon the pangs of the clanking of chains or by the twinges of pain that must rack the limbs that are thus forever bound!

COUNTY COMMISSIONERS.—Among the acts thus far passed in which our people will take an interest are, an act conferring upon county commissioners the capacity as corporate bodies; to make such contracts and to pay for the same; to survey and to do all other necessary acts in relation to all property of the county. Another act says that in assessing all lands within Walla Walla county, one may set aside \$7,000 per annum to be used in the repairing of roads and bridges. These acts have been a long felt necessity, and while they will naturally aid commissioners in the transaction of county business, they will do away with the necessity of such special legislation. Hereafter the office of county commissioner has been the position of agent without the power of attorney to legalize their acts.

AN ACT CONFERRING UPON JUDGES OF the district courts the right to try certain cases in chambers which do not require juries will greatly shorten the regular terms and be the cause of much saving to the counties in the matter of retaining juries while such cases are being tried at regular terms.

AN ACT EMPOWERING THE CLERKS OF courts to adjourn court for six consecutive days in case the judges for sickness or other causes are prevented from being present upon the first days of the term will prevent repetitions of the failures to hold courts that occurred in Spokane and Whitman counties last year.

An act making unnecessary delay in the payment of debts sufficient cause for attachment in all cases of debt where the creditor may desire security for such payment, places it among the possibilities for a creditor to secure an account without almost committing perjury, before a debtor has run away from the country.

Every community has its class of people who will have their red rag. Down here it is temperance, just because there is no big bovine man, full of valor and panting for glory to lead his Sancho Panza on a quixotic attack upon any other Pizarro. It would seem from the tone of a petition just published at Walla Walla that the canine streamer now flung to the breeze by some one at that place is "monopoly." The idea set forth in that petition about officers "which" control railroad freight entering into combinations, &c., is as striking as a lightning bolt at sophistical composition as it is of financial common sense. Some of the charges set forth in the document would need explanation at this distance from the ensanguined field to induce one to run without fear of the legal consequences of a "which" control railroad freight entering into combinations, &c., is as striking as a lightning bolt at sophistical composition as it is of financial common sense. WM. STINE, P. M.

A FINE Hair Dressing.

Coarse dress the hair perfectly, and also preparation unequalled for the eradication of dandruff. The superiority of Burnett's Flawless Extracts counts in their purity and great strength.

H. E. LITT.

The reliable and largest manufacturer of ladies dresses, will open this morning. He will remain here a week. Ladies can depend upon honest dealing, as no one man on the Pacific Coast can boast of building up a trade as this gentleman has. Three years ago he commenced with two hands and Mrs Litt; this day 60 hands are daily employed making up dresses and cloaks. Many wholesale and retail houses in Portland use Mr. Litt's extract and perfume. At the Mediana's Pavilion this gentleman received the 1st and 2nd premiums, and not only ladies but gentlemen also were astonished at his great display. He will remain one week at Mrs. Schermer's.

SPORTS.—Sport, no matter whether fish, fish, or foot, will always command a space in the STATESMAN. Our Territory is famous for game. Therefore any of our hunters, sportsmen or otherwise, who have the result of their labors to this paper, may depend that their articles will be carefully inserted.

Mr. Limer, a Mississippian, who last week killed the snake of his wife, has been acquitted of murder, and in declaring him Judge Valliant said, "It is my opinion that he be put just as I fancy other than of the prisoner, and bid him go home without delay."

The late secretary of Idaho has opened a boarding house in Boise City.

Slaves in California Fruit Salt

Is prepared from some ripe California Fruit by an experienced analytical chemist, who has his preparation in its preparation. It is manufactured by a special process known only to the proprietor. This preparation is a safe, simple and effective remedy for purifying the action of the stomach, liver and kidneys. It is particularly recommended for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Habitual Constipation, Nausea, Sea Sickness, Kidney and Liver Troubles, over indulgence either in eating or drinking, etc. As a purifier of the blood in all serious affections, it has no equal. It removes all eruptions from the skin, and has a cooling and invigorating effect upon the system. The Fruit Salt is entirely different from any of the effervescent salts or Seditz preparations in the market, being manufactured from fruit. For sale by all druggists.

Head and be convinced. The piles are driven for the Fourth street bridge. Lots on the installment plan at Ferd Metzger's. Up at Lewiston the boys call it "cotton varnish."

Maj. Traux left Sunday evening for Portland on a brief business visit. Shaw & Stearns are painting a very hand-some triangular sign for Leslie Bros.

It is dangerous to steal wood from the wood yard. A man was shot at the night before last. Mrs. George Thomas has returned home much improved in health from the pure country air.

A life like model of Umas, the last of the Mohicans, is to be seen at the cigar store of I. K. G. Smith. The Third street pile driving is finished, and work has commenced at Stahl's near the Main street bridge.

H. L. Lacy, son of O. P. Lacy, Esq., has taken a responsible position in Wells Fargo's express office. It is a chap of the old block.

While the Oregonian denies that it is for sale it takes good care not to state that it cannot be bought. Everybody knows to the contrary.

We are pleased to hear that Robt. McCally, who has been seriously and dangerously ill in Portland, is now much better and out of danger. It is on the cards that a wedding in high life between a gallant young military officer and a highly accomplished young lady will soon take place.

Jack Powers, who has been tried and found guilty for the murder of Ben Cornelius, is denied a new trial and is sentenced to be hanged Dec. 23d.

John Dudley, of the well known firm of Dudley & Kirkman, of this city, left on Sunday's train for Portland. He expects to return in about two weeks.

J. C. Arnold and family of eight children arrived here from Melean county, Illinois, a day or so ago. He expresses himself as well pleased with this country so far, which is the case with all who visit the Walla Walla country.

A large number of teams belonging to the Oregon Improvement Co. started from the Columbia House Sunday for the Palouse country. The street was blockaded for a while, and reminded one of an old-fashioned political mass meeting.

Mustard color threatens to continue to be worn this winter. Polonaises of that hue with petticoats of green, or garnet plush, suggest to some persons pickles, or rare roast beef with condiments.

As a newspaper the STATESMAN is a stalwart, and while it may not give a quarter, it takes nothing better than to see the black flag with skull and cross bones flying at the enemy's main head.

As too much cannot be said at the present time on the subject of shipping grain from east of the mountains direct to Puget Sound, to-day is published a recent article from The Dalles Mountaineer on that important question.

Mrs. Hand has sold The Dalles Mountaineer to an association of gentlemen for \$2,000.

Gentlemen, eh? Let the good work go on. The profession may now possibly be ultimately relieved.

PICKLES.

The man's successful and his wife who's smart enough to advertise. And not afraid of the expense.

Men "bust" sometimes for want of sense. Folks read a paper—they can tell who don't, and who have goods to sell. And if our people advertised.

They'd find that they had realized a trade increasing that would pay. And which they'd get no other way.

"The operation was successful, but the patient died." As an evidence that Deer Lodge is putting on Metropolis airs the News Northwest states that they had a log there last week that would have done credit to London.

"My Love is Gone," is the title of the latest song written by a young man in Boston. Oh course that is rough, but "the absent girl can't stop."

While stockings are totally out of fashion, but they needn't be wasted, however. The girls can sew for on them and present them to their lovers for ear muffs.

That play of "Charity" at the Opera House Friday night was very appropriate. We metaphors you yearned for some of it. Cause why; that \$10 a day job didn't last long. Patient too healthy.

"Looking down from his perch, the squirrel laughs at the dog barking up the wrong tree." Morning Mortgage.

Exactly, and the height that squirrel has attained and the manner in which it has tail curled over its back, makes a very kind-hearted individual wish that some one would take the poor animal down and place it out of sight for a short time for decency's sake. Selah!

The lunatic-to-morrow morning will contain a whole lot of thanks of people who are "under obligations" to the doctors for the number one which they rid the town of the nuisance. We suppose it alludes to the way the poor hospital patient was fired out of town in order that the STATESMAN could not see him and get a statement. If so the ridding of the disease was a success!

Respectfully referred to the fellow who sters the shears and paste pot on the Morning Mortgage. "He who wishes to exert a useful influence must be careful to insult nothing." Let him not be troubled by what seems absurd, but let him consecrate his energies to the creation of what is good. He must not demoralize, but build. He must raise temples where gnomes can live, and make the pastures of pleasure. —Globe.

AN OLD PIONEER. On Thursday we met in this city Mr. David B. King, an old timer, and well known citizen of this section, who formerly lived on Mud creek, below here and Dry creek, and now is located about twenty-five miles south of Silver City, on the Winnemucca road. Mr. King informs us that he has 266 acres under lease. Last year on 36 acres he raised 2620 bushels of barley, and this year on 66 acres of meadow land on which he raised 75 tons of top lay hay, nearly all of which he hauled. He has also 640 acres of "desert" land and now has an employed in the mountains getting out posts to fence the same, which will be a fence known as the barbed wire fence. He receives his wire, gate, hinges, etc., from Sacramento direct. Mr. King went on this ranch in 1872 and has succeeded admirably. He has now 135 head of cattle including 63 cows which promises him a grand increase next spring. Mr. King informs us that there is a belt of land south of him and 12 or 14 miles in length and much of it is well adapted to raising grain, and all of it fine for grazing purposes, and well watered. Wood is adjacent to the mountains, ranging from 10 to 18 miles. Mr. King is an old subscriber of the STATESMAN some 12 years—and we are pleased to see him prosper.

ONE OF THE RESULTS.—The Dayton News says: We are informed, and will state right here that our information is that it is hardly possible to be mistaken, that certain points at points below Dayton, especially at Waitsburg and Walla Walla, are doing all in their power to spread the report that the small pox is creating great havoc among our people. Even going so far as to state that there are not well people enough to care for the sick. Persons bound for this place from below, have been approached at these places and warned against coming here, and informed that the town is quarantined, no one allowed to enter or depart therefrom. Some have been heard to say that it was "trough on Dayton, but ducks for their business." Any and all such reports are untrue, and the parties making such statements, instead of malicious lying to benefit themselves by harming others. We hope to see the newspapers of those places correct the false stories that are being spread abroad to our great damage.

GRADED SCHOOLS.—The fellow who accuses the Morning Mortgage, who is evidently one of those who prefer being kicked rather than not noticed at all, tells a lie, in alluding to the publisher of this newspaper as "a fellow who rents type and presses," states that we started around town on Friday to find people opposed to graded schools. Being called a "fellow" is a matter of no consequence, when the source is taken into consideration, but to attempt to make the public believe that the STATESMAN is opposed to graded schools and modern school houses is too ridiculous for a moment's thought. The fellow himself once in a public meeting asked the Rev. J. J. Galvin to explain to him what graded schools were, and that gentleman gave him a most decided reply by saying that he would not insult the intelligence of his audience by doing so. THE STATESMAN is now and ever has been the defender and exponent of the school system, and when the wants of the community require it a better class of schools with all the modern appliances.

A PENITENTIARY OFFENSE.—As the jail keeper was cleaning out a cell occupied by a man named M. Millan, who was recently arrested and committed for opium smoking, he discovered a bottle marked "Moriac Acid," from the drug store of H. E. Holmes. Suspecting something was wrong, he made further search and found a wrench. The bottle was recognized by Mr. Holmes as one he had sold—filled with acid—to Seattle Frank, an old companion of the prisoner, who had evidently passed it in to him with the idea of assisting him to escape, the acid to be used to cut the iron work of the doors. The officers hunted for him last night but the information having got wind the gentleman could not be found.

BEAUTIFUL SOUVENIR.—A few days ago Rev. Father Bonhard, S. J., was the recipient of an exquisite and costly chalice, presented to him as a token of gratitude by the Catholics of The Dalles, on the 25th anniversary of his elevation to the priesthood. It is, undoubtedly, a thoughtful and praiseworthy act on the part of the Catholic congregation at The Dalles, an act by which they wish to duly reverence Father Bonhard as a worthy priest of the Most High, who will, in return, teach the Crier of all good gifts to grant the liberal and kind donors a greater blessing in return.—Scimitar.

GIVE TO SEATTLE.—John Hancock, an old pioneer of 30 years, and one of the men who made this country, has gone to Seattle with his family to reside in future. In losing him this country loses one of its best men and Seattle is a gainer. We believe that a new era is now opening for the Queen City of the Northern Pacific, and trust that our old stand-by will profit by its sure prosperity.

THAT PAPER.—The paper so industriously circulated on Monday evening expressing the unbounded gratitude of the people of Walla Walla to a few of the doctors for keeping the small-pox out of the city "vial a bourn" as it were. The originators had better now circulate a paper asking subscriptions for a net to put around the town to keep the complaint out.

ARTICLES FLOWERS.—Before us as we write is a nice little bouquet of ornamental flowers among which are some sweetly fragrant violets which literally perfume the air. They all grew in the open air with care, which in itself speaks volumes for our climate.

OWNED TO HIS RECORD.

One Writer who had the Candour to Tell his Faults.

The editor was sitting in his revolving chair in the STATESMAN office when a disciple of Esculapius entered, and demanded a retraction of a statement on the streets that he was mean enough to swindle an orphan out of four dollars.

"It's a lie clear through," said the injured man, striking the table with his fist. "I'm as good a man as breathes the air of this section, and don't you forget it."

"Perhaps you are better," said the editor, meekly.

"My record 'll compare favorably with your's!" said the satisfaction seeker with a sneer; "perhaps there are a few little back rackets in your life, sir, that wouldn't bear a microscopic investigation!" and he acted as though he was feeling for a revolver.

"Oh, sir," said the editor visibly agitated; "don't recall the past; I don't deny it. I killed Leonard Hubbard; I backed him all to pieces with a knife just because he came in here to put a head on me for an article I wrote about him taking a mortgage on a poor man's shirt. I blew a man's head off at a log roll in the Cascade range, and bitterly have I repented my folly. I slew a lot of inoffensive citizens of Omaha a short time ago who were criticizing the newspaper business, just because I got excited. Oh, could I but cheat the tomb of the men I have placed in its maw, I would be nappy. But all owing to my high temper. I know that I have been wayward, wicked, and you have a right to come here and recall those unhappy memories, but its confounded mean for all that; nobody with a heart would treat a man like you have me. Don't leave, friend, I'll tell it all. I made the Carl's friends, at Florence, call for a doctor for him once just because I beat him at a little poker game, and he didn't like it. Chopped him all up. I did for a fact; and its its wonder he lived at all. Then I saw a man's head off with an old army saber once because he came in here to whip me for saying that the officers of Indiana were looking for him to arrest him for digging up his grandmother's bones to make dice of and playing chuck-a-luck on her tombstone for the coppers a horse thief had stolen from the eyes of a dead nigger, and—"

"Sweet, pretty too freely by shining," said the man who was looking for an explanation and he went out of doors on the fly and walked away around the corner, while the editor took a fresh cigar, and continued his editorial avocations as quietly as any law-abiding citizen.

"SOME OBSTACLES."—Our Tacoma friends thought when Capt. Gilkey secured a cargo of wheat here to lead his ship, the Dakota, at that place that they were just partially going to keep it up and that the major portion of our wheat would be shipped in future to their port. Their bright visions are not yet to be realized, as will be seen by the following from the Seattle Post-Intelligencer: "The bark Sonoma, now at Tacoma, loaded with railroad material will not load grain, as has been reported. As soon as her cargo is discharged, she will be towed to Port Blakely and undergo extensive repairs, after which she will probably take a load of lumber to some foreign port. An effort was made to charter her for grain, but some obstacle prevented itself, and the scheme fell through."

The above from the Portland Standard may comfort the Portland (Lamp) merchants, but the STATESMAN can inform them that the bark Sonoma is not adapted for grain carrying as is evident from its own statement. It may be news to Mr. Nolmer's orphan but he is informed that none but first-class ships are employed in the grain carrying business, and not lumber drongher's. Try again, Thomas.

We believe that a new era is now opening for the Queen City of the Northern Pacific, and trust that our old stand-by will profit by its sure prosperity.

THAT PAPER.—The paper so industriously circulated on Monday evening expressing the unbounded gratitude of the people of Walla Walla to a few of the doctors for keeping the small-pox out of the city "vial a bourn" as it were. The originators had better now circulate a paper asking subscriptions for a net to put around the town to keep the complaint out.

ARTICLES FLOWERS.—Before us as we write is a nice little bouquet of ornamental flowers among which are some sweetly fragrant violets which literally perfume the air. They all grew in the open air with care, which in itself speaks volumes for our climate.

DR. SPINNEY,

No. 11 Kearney St., San Francisco. Treats All Special and Chronic Diseases.

WHO MAY BE SUFFERING FROM the effects of youthful follies and indiscretion, will do well to avail themselves of this, the greatest boon ever had at the altar of suffering humanity. **DR. SPINNEY'S** will guarantee to forfeit \$200 for every case of Sexual Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight weakness of the system in a manner the patient can not account for. On examining the urinary deposits a rosy and sandy sediment will appear, or the color will be of a thin milky hue, again engaging to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. Spinney will guarantee a perfect cure in all such cases, and a healthy restoration of the venereal system.

THE GREAT ENGLISH REMEDY. Is a never-failing cure for Nervous Debility, Excitement, Headache, Vertigo, Spinal Weakness, Spermatorrhoea, Loss of Memory, Impotency, Paralysis, and all the terrible effects of Self-Abuse, youthful follies, and excesses in mature years—such as Loss of Memory, Lassitude, Nocturnal Emissions, Aversion to society, Dimness of Vision, Noise in the Ears, Headache, and passing unobserved in the urine, and many other diseases that lead to insanity and death. It will cure, or for any lingering impure or injurious fluids in the blood, Dr. Martin's Private Diseases successfully without mercury. Consultation Free. Thorough examination and advice including all the latest and best of our Vital Restorative, \$3.00 a bottle, or four times the quantity, \$10.00; sent to any address upon receipt of price, or C. O. D., accompanied by a check for \$10.00. If desired, by A. E. MINTIE, M. D., 11 Kearney Street, San Francisco, Cal.
