The Democratic County Convention met in Walla Walla, May 18th, pursuant to call, at Messrs. Ball & Stone's Hall. I. P. Reese was called to the Chair and W. P. Horton elected Secretary...

The Committee on Resolutions submitted the following preamble and resolutions, which were unanimously adopted by the Convention as the Platform of the Democracy of Walla Walla County:

ANOTHER TICKET.—Another ticket, headed "Unconditional Union" was handed to us for publication, on Friday forenoon. It will be found in another part of our paper. By whom it was gotten up, when, or how, we "know nothing." The ticket contains the names of some old-line Republicans and some that are not so old-line. No platform or declaration of principles accompanies the ticket, and we are left entirely in the dark upon this vital point. We hope that those who have put the ticket in the field will yet prepare a platform setting forth their views upon the national questions of the day, and let it be submitted to the voters of the county. People are not apt to "go it blind" in these matters. So, gentlemen, don't hide your light under a bushel. Everybody will be anxious to see your platform and we would like to publish and leave it open to criticism. Come out with it, who's afraid?

This much we say for the candidates on both tickets: They are generally good men, and competent for the positions for which they have been put in nomination.

In the San Francisco telegraphic news the statement is made that the Chamber of Commerce had held a meeting and drafted a memorial to Congress against the taxation of the mines. The dispatch also says that the Union Republicans have so far nominated no municipal ticket, and are not likely to do so. The Democrats had put a full ticket in nomination. What's up now, has the "State of San Francisco" got her back up on the mine-tax question and concluded to go Democratic from sheer indignation?

It looks that way. Perhaps the Chamber of Commerce and other influential bodies in that State have only been waiting for a justifiable excuse to throw their weight on the side of the Democracy. We shall see.

We made the statement last week, based upon the statements of madam raucor, that the late fire in this city originated in a building occupied by a Spanish courtizan. We are now authorized to state that the former statement was incorrect, and to further say that there had been no lighted lamp nor fire of any description in the building on the day the fire occurred. The Spanish woman, we are told, is of the opinion that the fire occurred from the heat in the chimney of the adjoining blacksmith's shop; that the fire was seen first to emerge from between and some distance up the sides of those buildings.

PACK TRAINS FOR KOOTENAI.—Two pack trains, numbering about forty animals each, loaded up this week, at Wallula, with merchandise for the Kootenai mines. Another train of fifty animals will leave Wallula to-morrow or the first of next week.

INFORMATION has been received here that the owner of the first small train, who left here several weeks ago for Kootenai, sold out his flour in the mines at \$1.75 per lb. Several cases of small-pox have appeared at different places along the road to Boise. One man, a packer, whose name we did not learn, died of the disease near Miller's ranch last week.

HOMESTEADS.—By a late law of Congress, persons desiring to take up homestead claims can do so without appearing in person at the land office. Applications in this county can be made to Mr. W. W. Johnson, at his office in this city.

WE give up the most of our space this week to the late Eastern news, which the reader will find deeply interesting.

WIDENING.—The breach in the Republican, or Union party is every day widening, and as surely as the signs of the times indicate that Mr. Lincoln will be the nominee of the Baltimore convention so surely do they point to the fact there will be a more radical candidate nominated in opposition to him. Our dispatches this week state that a convention of those favorable to the one-term principle has been called to meet at Cleveland, Ohio, on the 31st inst., to take the Presidential question into consideration, and that "the subscribers don't recognize in the Baltimore Convention the precedent conditions of a truly national convention."

The radical German party, composing alone about four hundred thousand votes, is every where holding meetings and passing resolutions in which they pledge themselves not, in any event, to vote for Mr. Lincoln for President. Under the lead of such men as Groely, Baehrer, Sumner, Wilson and scores of others of that ilk, the party is rapidly gaining ground, and, if their organs are to be believed, contains a majority of the votes of the original Republican party. The following resolutions, adopted at a convention in Detroit, Michigan, is a sample of the kind adopted at their meetings:

WHEREAS, The Administration of Abraham Lincoln has neither shown sufficient capacity nor honest desire to guide the destinies of this Republic in accordance with a dignified and proper foreign policy,

on such principles as are laid down in the Cleveland Platform, therefore, be it Resolved, While we will support the present Administration in its efforts to prevent the rebellion with all the means at our command, we at the same time protest against the nomination of Abraham Lincoln as a candidate for the Presidency. Though our first choice is Fremont or Butler, we are nevertheless inclined to unite upon another candidate, Chase, Morton, &c., if it should appear necessary at the next convention. If nevertheless, A. Lincoln should receive the nomination of the Republican party, we are resolved not to vote for him.

The "Government" to be consistent with himself, should at once go to work and suppress this party.

A Card.
Considerable surprise having been expressed that no mention was made of the services rendered by citizens at the late fire, in the vote of thanks passed by the City Council on the 10th inst., I, as City Clerk, wish to correct this impression by stating that the citizens were included in said vote, as may be seen by a reference to the Council proceedings published in this week's STATESMAN, which, from a pressure of business consequent upon the fire, I was unable to prepare in time for last week's issue.

A. L. BROWN.
John G. McWynn, of Wisconsin, has been appointed Superintendent of Indian affairs for Washington Territory, vice C. H. Hale, removed.

Refreshing rains have fallen during the week and the grain crops, which in some localities had begun to die on account of continued drought, again look full of promise for an abundant harvest.

George F. Thomas & Co.'s line of swift and comfortable stages to and from Boise mines continue to receive the patronage of the traveling public, notwithstanding the lines retained at Umatilla city about the small pack depopulating this place.

Brown's Bronchial Troches.
"I have never changed my mind respecting them from the first excepting to think yet better of that which I began thinking well of."

Prof. Edward North, Pres. Hamilton College, Clinton, N. Y. "For throat troubles they are a specific."

Rev. A. C. Eggleston, N. Y. "Too favorably known to need commendation."

Prof. Mass. Senate. "Contains no opinion nor anything injurious."

Dr. A. A. Hayes, Canton, Boston. "An elegant combination for coughs."

Dr. G. F. Brocklow, Boston. "I recommend their use to Public Speakers."

Rev. E. H. Charns. "Most salutary relief in Bronchitis."

Rev. H. Shonover, Morristown, Ohio. "Very beneficial when suffering from Colds."

Rev. S. J. P. Anderson, St. Louis. "Almost instant relief in the distressing labor of breathing peculiar to Asthma."

Rev. A. C. Eggleston, N. Y. "They have suited my case exactly, relieving my throat so that I could sing with ease."

T. DeCanabe, Chorister French Parish Church Montreal. "Where are limitations, be sure to obtain the genuine."

Scrofula Cured.
NEW ALBANY, IND., September 16th, 1859.
Messrs. A. L. Sewell & Co.—Gents—In answer to your inquiry about the cure of my son, I will say that he is now ten years old, and has been scrofulous from infancy, although under the care of one of the best physicians, who said that he could cure him. In the first place, the disease made its appearance in small knots upon the glands of his neck, and finally, they enlarged and formed running sores, which reduced him almost to a skeleton. He lost his appetite, and we gave him up, and thought that he could not be cured. I got Dr. Mott's Liver Pills, following the directions. He had used them but a short time before he was greatly relieved, and now is entirely well.

More Evidence.
INDIANAPOLIS, June 29, 1862.
Dr. O. R. BAKER.—Dear Sir:—This is to certify that while I was travelling through Marion county, and was about to cross the railroad, my horse was frightened at the locomotive and cars which came rushing on the wood suddenly upon us, and at the same time blowing its whistle, which terribly frightened my horse, and it dashed suddenly around, captured the buggy, and smashed it to pieces, and I was thrown headlong between the fill and the horse's feet; how I escaped instant death I do not know.

I was picked up insensible, badly mangled and bruised, and I received a gash in my head and face. I was literally trampled and mangled from head to foot and I thought one of my limbs dislocated at first, as it through I suffered severely, I was soon relieved of all pain and soreness by bathing the parts freely with your Pain Panacea, and in a few days was able to resume my business as usual, and am at this time entirely cured, having but slight scars instead of the bruises and gashes. Yours with regard,
R. WATTS.

1864. HARVEST MACHINES. K NAPP, BURRELL & CO., IMPORTERS and Dealers in Agricultural Implements, have now on hand and to arrive in the next sixty days, the largest and best selected stock of Agricultural Goods ever brought to Oregon. Having had seven years experience, we are enabled to select good and well-made machines, suited to the wants of farmers, and buying as we now do, direct from the manufacturers, we can and will sell for cash, at rates that defy competition. Below, we append a partial list of the best machines.

REAPERS AND MOWERS. New York Reaper, (California Giant) and New York York Combined Reaper and Mower, with improvements for 1864, strong, durable and effective machines; cut 6 to 7 1/2 feet, and capable of cutting from 10 to 25 acres per day. Over 300 in use on this coast. Send for our newly illustrated and descriptive pamphlet for 1864.

Esterly's Combined Reaper and Mower—Improved—is now well made, cuts 5 1/2 to 6 feet, is easily and quickly adjusted to cut stubble high or low—can cut 10 to 20 inches high—driving wheels large and high, and gearing simple. This machine does not clog and will work on very rough, stony ground, over dead furrows, and in all kinds of grain, both wet and dry, lodged and tangled. It is unsurpassed for lightness of and freedom from side draft, convenience and thoroughness of work, and with only one pair of horses will easily average 10 to 15 acres per day. In fact, it is the best reaper of horses combined machines.

McCormick's Combined Reaper and Mower, is a new and improved machine, different from the old style. Very strong and serviceable. Ball's "Ohio," the Improved, is a 3-wheeled machine, and the principal objections heretofore urged against that class of Reapers are now removed, as they are well and durably made and will work on rough ground, have a sickle knife, with support for reaping, and a support for other end of reel; cut 6 feet as Reapers and 8 feet 5 inches as Mowers.

KIRBY REAPER AND MOWER. HAINES' ILLINOIS HEADERS. MOWERS: HALL'S "OHIO"—The Improved. "BUCKEYE"—A splendid machine; driving MOLLY SPARK and BAY STATE, 2 driv'g wheels, KETCHUM'S IRON MOWER—strong, durable, and suitable for rough land, and "Blanch Grass"; but for ordinary use not so desirable as the 2-wheeled mowers.

THRESHERS: We are sole agents for Oregon and Washington for the genuine PITTS BUFFALO THRESHER; from 4 to 10-horse power; banded and geared, both of the Pitts and Reamer Pattern, with the "Taper Gears," which places them far ahead of all other machines. These machines are gotten up expressly to our order, and are strong, well made, and extra finished.

HOSE POWERS: PITTS DOUBLE FINION AND PLANET POWERS EXTRA, from 4 to 10 horse.

Harvesting Tools. Such as Grain Cradles, Mowing Scythes, Revolving Horse Rakes, &c., together with a full line of Agricultural Goods, consisting in part of RUBBER MACHINE BELTING of all widths. FLOWS, sower's and kinds, CULTIVATORS, Horse Hoes, Ox Yokes and Bows, Chains, Whistle Trees, Seed-Sowers, Grad Stones, &c., All Fresh & Good.

Grass and Field Seeds. We are prepared to furnish, on two weeks' notice, through our house in San Francisco, any style of machine in that market not kept by us that may be desired, at San Francisco prices, freight added. Orders from the Upper Columbia or other remote districts, accompanied with the CASH, filed at as low rates as the parties were of right entitled to, call and see us before purchasing elsewhere, as we will not be undersold. One from John Runyon, Waverly, Iowa; of his own son.

One from Samuel Legman, Camden, Hillsdale Co., Mich., of a beloved daughter.

One from Dr. A. G. Koon, Bloomfield, Iowa, a physician of twenty years' practice.

God Save the Flag. God save the flag of our native land, From the pine-clad North to the balmy South, The loyal people—the Union hand, Shall repeat the promise from mouth to mouth.

There are three or four papers in the United States that want the war to cease just where it is, with no result whatever. They wish it, like an old bachelor or maid, to "die without issue."

Gen. George W. Biekey claims in his diary to have been the father of the rebellion. We hear nothing about its mother. In truth it never was a worth dam.

During Jeff Davis's late illness a good many of the rebels feared that he would die, and quite as many that he wouldn't.

We have accomplished a great deal in this war, thank God. We have not accomplished one-half of what we should have done, thank the Administration.

Let us fight the rebellion with all our might. A war with no war in it could at least lead to a peace with no peace in it.

Horace Greeley, who has his own end to subserve, prefers Mr. Chase to Mr. Lincoln as the abolition candidate for the Presidency. William Lloyd Garrison, who has no ends to subserve but the ends of abolitionism, prefers Mr. Lincoln to Mr. Chase or anybody else.

The Boston Traveller says that Gen. Halleck, as General-in-Chief, has done things that were very difficult. Pity some of them hadn't been impossible.

Our officials might possibly be forgiven for scattering the Federal money if they didn't scatter the Federal troops so outrageously.

It appears from a late letter of Mr. Chase, that he has declined. But Mr. Lincoln has declined a good deal more than Mr. Chase has.

There is some little meat still in the Confederacy, but the rebels are losing flesh every day.

The Chicago Journal says that disappointed office-seekers are getting up dissent movements against Mr. Lincoln. If all of them go against him, the poor man will have no chance.

As we have more troops in the field than the rebels have, every battle we fight against superior numbers is evidence of unskillful generalship.

Where are we drifting?—Richmond Whig. You and your Confederacy are not drifting at all, Whig. You and it are sinking.

The Administration requires a great deal of swearing from the people, and provokes a vast deal that it doesn't require.

Soldiers sometimes profess to be spoiling for a fight, but, if they fight and get killed, they spoil faster than ever.
