Letter from Touchet. TOUCHET RIVER, July 20, 1863.

ESQ. STATESMAN.—A condensed letter, embodying certain general items incident to "The Touchet," may prove acceptable for next Friday's issue—and first, as to

THE CROPS. The farmers resident on this creek, for a distance of some 35 miles, are now in the thickest of their harvesting; some of them prefer the "Reaper," while others are using the "Crabtree" as of old; two or three neighbors will "pitch in" and assist the fourth man, and vice versa.—This as it should be. The crops look first rate, and there will be an abundant yield of wheat, oats and barley; every one, therefore, is wearing a smiling face the "old man" the homeward, and the "little ones" around. The vegetable garden, too, look verdant and prosperous, and here are raised all the ordinary succulent vegetables to as great a perfection as obtains in the Atlantic States.

AGRICULTURE. A few days since, your humble servant had the pleasure of visiting the beautiful and charming orchard of Mr. Irvine, on this creek; the evidences of hard work and industry here displayed, reflect special credit upon that popular and intelligent gentleman. The goose, straw, and Lewiston black-berry are raised in abundance.

SCHOOL MATTERS. On Saturday last, I was present at the "Exhibition" of the School, situated some three miles above "Mullin's Bridge," and kept by J. W. Garrett, Esq. The occasion was the termination of the last quarter of the School—when a vacation will ensue till about the 1st of September next. There were 30 pupils in attendance, and I never saw brighter faces among any set of children in the Eastern States. The pupils spoke pieces from some of the standard authors. Premiums were awarded to the ones who had made the most improvement in orthography, reading, writing, etc. I regret being unable to furnish a list of the names of the successful recipients of the premiums. Mr. G. merits the thanks of the parents for the children to have bestowed and attended to during the past session. As I looked around and beheld the intellectual faces of many of the boys, I couldn't resist the thought that our Delegate in Congress might very becomingly select his own appointees to West Point and the Naval Academy, respectively, from this School. Then, let me just point out a few things that our Delegate should receive the appointments next year; this feature constitutes a heartful element of my Democracy.

I am advised that there is much confusion and mixture relative to the proper distribution of the School funds. It occurs to me that there is a "grove loose" somewhere. It is high time that there were inaugurated some permanent, systematic basis relative to the conduct of our public schools; and I fear very much that there exists too much of the shadow and not enough of the substance in carrying out the provisions of the act. In a future communication, the writer may take occasion to present his own views at length relative to the proper mode of organizing and teaching the public schools of this valley.

A PUBLIC ROAD NEEDED. The citizens living on the "Lower Touchet" experience no little inconvenience in going thence to the City of Walla Walla, by reason of the blocking up of the road where it crosses Dry Creek, at the farm of Mr. Esther. A petition will be laid before the Honorable Board of County Commissioners, at their next meeting asking that a Public Road be located from some point between the Ranches of Messrs. Manyon and Hardie, to the City.

BACK TRAINS. Day after day, quite a number of pack-trains well laden with goods for the Kootenai, encamp on this creek, en route for the two ferries on Snake river.

A DISSEMINATOR. It is thought that a general Dry Goods and Grocery Store would do well on this creek.—We have a community here of not far from one thousand persons, all of whom must be clothed and fed.

SANITARY. The general health of the community may be rated as good, yet conspicuous, beef is in greater demand than physic.

THEY "TAKE THE PAPERS." It is gratifying to be able to report that among other laudable social virtues, inseparable from the good people of the Touchet, they are a reading people; the Holy Scriptures, etc., are met with in not a few families; and the Eastern, California and Oregon Journals are found among the rest. I also observe that your paper is duly appreciated and taken.

From time to time, I shall endeavor to keep you "posted" regarding the current events on the Touchet. Yours, &c., OBSERVER.

"JUST AS WE PROVED."—A Correspondent of the Oregonian writes from this place, says a Union League is reported to be in existence in this neighborhood.—We have reason to believe "at the Correspondent is himself one of these 'lovers' and that he knows there is such a league in existence here. We are quite positive that some three or four persons have banded themselves together in the neighborhood, styling their organization a "Loyal League." We are further convinced of the existence of such an organization by some 1664 complaints of stolen chickens from persons living at the upper end of town—accompanied with divers threats of chastisement on those who attempt to "rule the roost" at the hour of midnight.—We predicted that chicken-stealing would follow the organization of such a league here, and the prediction has been verified. It must not be supposed that any of the leaguers would make midnight raids upon defenseless hen-coops to disturb the quietly slumbering "feathered-tribe," or with remorseless hand and bloody intent separate the tender brood from the old cock-a-doodle-do and his venerable female chaperon-ster, for they are honorable men—all honorable men, else why do they assemble at the dead hour of night and with secret-bound oath pledge themselves to plot in every conceivable manner to elect their political serubs at the next election. No, such men would not engage in robbing hen-roosts; it must be "some other Chinamen."

The U. S. Inspector of Steamboats for this coast, paid our city a visit this week, and towed the war vessel Lily Dale up and down Main Street, to the immense gratification of the admirers of that jaunty craft. The Lily, it will be remembered, had a pistol engagement on Main street here five or six weeks ago, and though uninjured by the enemy in the contest, was so disabled by the shock given her timbers from her own guns that she was hauled on in a sinking condition by our gallant City Commanders. The Inspector will probably give Uncle Sam the benefit of the statement that she is again in war trim.

RICH QUARTZ FROM ROCKFELLOW'S.—Mr. W. H. Rockfellow brought in this week some specimens from the Rockfellow lode that surpass in richness anything that we have before seen from any of the quartz ledges of the upper country. The gold did not appear in the quartz in solid lumps, which is usually the case, but was distributed through the rock in fine particles and apparently in almost equal proportions to the quartz. These specimens were taken from the heart of the ledge, about 80 feet from the surface, which is the depth to which the ledge has been worked. As they descend in the ledge the prospects grow much richer, and quartz miners pronounce the Rockfellow lode the best in the upper country. From 1500 pounds of rock crushed with an arrastra there a couple of weeks ago they obtained sixty ounces of dust. Capt. Farnham left here to-day to superintend the erection of the new mill now on the way to the lode.

BIG LUMPS FROM KOOTENAI.—"Mose" of the Kootenai express, brought down on Friday last some of the "big lumps" that every one interested in the Kootenai mines has read about. The largest was the \$78 piece—a beautiful specimen, entirely free from quartz, and resembling somewhat the Cariboo gold, though not quite so lustrous in shade. The other lumps—four in number—weighed from \$18 to \$32 each. Mose brought down also a small lot of the Kootenai dust, the average of which consists of particles weighing from five to fifty cents. He states that pieces weighing from five to thirty dollars are quite numerous in the mines, though they constitute the exception rather than the rule of the kind of gold taken out there. On his way down he learned from a party of miners that diggings had been discovered in the St. Mary's basin, about one hundred miles west of what is known as the Kootenai mines. A general stampede had taken place for the scene of the new discovery among persons going up and coming down upon the road.

The Oregonian affects to believe that the rebel Gen. Price may be induced to come over and elect the next set of officers and delegates in this Territory, and then adds, by way of a "chinker,"—and it is by no means certain that our neighbors would be much wiser off than now. You will have enough to grieve about, neighbor, when that woolly menagerie of your State opens at Salem. Don't "borrow trouble" so far fetched, it's all a part of you and you will have plenty of trouble at home when that fanatical delegation of yours get at loggerheads.

RISE.—There are fifteen gulches in the new mines on Eagle creek which prospect from five cents to five dollars to the pit. The paying claims, so far as discovered, are all occupied. At present there is no water to work the mines, but a company has been organized to complete a ditch into them. This work will be completed in six or eight weeks, after which those who have prospected there say the diggings will show a richer field than any that have ever been worked at Boise. These mines are only about 125 miles distant from this city.

THE FIRST MELON.—Mr. Philip Ritz took us by surprise on Thursday evening by presenting us with a luscious, ripe water-melon—the first of the season. This, we believe is several days earlier than any melon, not produced in a hot bed, has ever before been raised in this valley. In a few more days, Mr. R. says, ripe melons will be plenty in our market.

KOOTENAI EXPRESS.—"Mose," the expressman, who has recently made one of two trips from Lewiston to Kootenai, has established an express between this city and the new mines. He will make semi-monthly trips, leaving here about the 1st and 15th of each month. He arrived here direct from the mines on Friday last and left again for the diggings on Monday. He is sanguine that the mines will prove to be very rich.

A GOOD APPOINTMENT.—Lieut. J. G. Cabanus has been appointed by the Quartermaster General, to the position of Superintendent Quartermaster for the District of Oregon and Washington. The property of the Government could not be entrusted in more honest hands than Lieut. Cabanus's.

CHANGED HANDS.—The well known saloon of Ball & Stone in this city has changed hands—the former proprietors retiring from the business. Messrs John J. Ryan and John Green are the new proprietors.

HUNG.—A half-breed named Greenwood was hung last week between Burnt river and Eagle creek. His offense was shooting the toll-keeper on the Burnt river toll-road, without any provocation, and wounding another man at the Express ranch, who interfered with him for offering violence to a lady. He was caught by a mob, hung up and left hanging for 26 hours.

Some of the Democrats in Boise county, Idaho, have nominated E. D. Holbrook as their candidate for Delegate to Congress. Other counties in the Territory were not represented in the nominating Convention.

INDIAN MEMBERS AT OYEWEE.—From Mr. John J. Ryan, dated this week from Boise, we learn that a party of packers, some four or five in number, from Red Bluff, Cal., are supposed to have been murdered by the Indians at Owyhee. The motive and cause belonging to the packers were stolen by the Indians when upon the packers started in pursuit of them. Not returning, after several days had passed, it became apparent that they had been killed or captured by the Indians, and a party of miners and others, under the leadership of Mr. Jack Jordan, went out in quest of them. They had proceeded but a short distance when they suddenly came upon the Indians at the mouth of a canyon. They were first made aware of the presence of the Indians by a volley being fired amongst them. Mr. Jordan was instantly killed, and the balance of the party, discovering that the Indians largely outnumbered them, fled and returned to the town. Some six or seven others of the party are reported to have been killed. Mr. Jordan was one of the original discoverers of the Owyhee mines, and Jordan's creek, on which a portion of the diggings are located, was named after him.

CATTLE.—Messrs. Johnson & Calvin arrived in this valley week before last with a drove of 437 cattle which they drove up from Umpqua valley, Oregon. They intend to winter them here and have them ready for market in the spring.

IN OPERATION.—Mr. Linton has had his saw-mill in operation at the new site on Mill creek since Saturday last.

"It did not exhibit any great degree of good taste or loyalty on the part of the judges to allow a professed traitor in arms to vote, even if there was no law to prevent him.—Oregonian.

"A professed traitor in arms!" What a perversion of the case! The man whose vote was challenged at Upper Touchet precinct, is not a professed traitor, and besides he was not "in arms" as the Oregonian would have its readers believe. The fact is, the Oregonian would like to find some excuse to set aside the law and so it tells a falsehood to make such a course appear warranted. If you would disregard the law, so recklessly, Mr. Editor, and set up your own will instead, how much better are you than the rebels at the South? If you go on insidiously instigating opposition to the laws of the country, how long will it be until you become a "professed traitor in arms?" Can you answer these plain questions, Mr. Editor?

A correspondent asks, in the simplicity of his heart, (confiding soul) why we do not put "Lincoln and Johnson's names" at the head of our columns like the rest of the papers? The reason is obvious; "we don't want any of it in ours."

CHANGE OF TIME. FROM AND AFTER THIS DATE, UNTIL FURTHER NOTICE.

The Oregon Steam Navigation Co's STEAMER YAKIMA

The bid must be accompanied by a check or cash for the amount of the bid, and must be in the hands of the Quartermaster at the time of the opening of bids. Bidders are invited to present at the opening of bids. Bids should be addressed to the A. Q. M., Fort Walla Walla, W. T., and proposals for Bait, Oats, Wood, as the case may be. The A. Q. M. will not be held responsible for any or all bids that may be deemed unreasonable. J. W. CLAWSON, Quartermaster, U. S. A. Q. M., July 15, 1864.

Certificate. WALLA WALLA, W. T., May 15, 1864. THIS is to certify that Dr. Jim is the most successful doctor that has been known on this coast in an epidemic. I know his medicine can be taken with all safety. I have been afflicted for a number of years with disease of the lungs, and when all other doctors failed I took seven doses of Dr. Jim's medicine and in three weeks I was able to walk and attend to my business. If no other are cured, I will give him a testimonial. Also, my daughter, who has been sick from her birth, and given up by all other doctors, has been cured by taking five doses of his medicine. She is now healthy and her cheeks which were pale are now blooming as a rose. Likewise my youngest son, who was taken with scurvy fever and on for some time, and every person said that death had struck him and he was bound to die. We called on Dr. Jim, and he cured him in three weeks. I will give him a testimonial. After a long time he recovered and is now in good health. I do not know of any other cases when all other doctors have failed they have called on Dr. Jim. He never fails. Mrs. Mary McLean.

WALLA WALLA, CITY, May 15, 1864. I do certify that Dr. James Chinamen is the most expert in medicine of any doctor that I ever saw. He has never failed in any case, and I can recommend him to you. If any doctor can save my life he can. There is no danger in taking his medicine. Witness—James Congraher, Milton McKee, John Mathews, Jesse Clark, Edward Melvin, John Ross, Mary Ann, Mary Ross, Ellen Melvin. July 15, 1864.

Ho! For Kootenai! INFORMATION FOR ALL WHOM IT MAY CONCERN. P. REMISSION CLAIMANTS CAN ARRANGE with me so as to complete their titles without going to Vancouver. In proof, read the following extract from a letter to me, written by the Register of the Land Office, Vancouver, W. T., December 18, 1863.

"I PARKER, Walla Walla, Dec. 18, 1863. If there is business enough, we might come to Walla Walla next spring, when settlers can make a lawful change they desire."

JOSEPH M. FLETCHER, Register. I have since I received the above letter, arranged with the Register and Receiver about the same as referred to in the following re-published card:

"I have heard a report on the street that I have made an arrangement with the Register and Receiver to come to Walla Walla for the purpose of allowing the people to enter their lands, (they having obtained permission of the Department to do so) and agreed that these officers should sit on the street to say the people's expenses, as the Department required, I would pay them myself. In consequence of the slowness of the time in making public sales, it is not to say the least, a matter of great doubt whether they would have come to Walla Walla at this time if it had not been for the above arrangement. These arrangements were not made to secure any political interest."

"No certainty that the above as related to the arrangement made by Mr. Parker with me is substantially true."

J. M. FLETCHER, Register. I have other letters from the Register in relation to the above, which parties interested can see by calling on me, at the New York and Variety Store, above the Hotel and New York and Variety Store, so that I have no need to state that with me as a consequence of the Department required, I would pay them myself. In consequence of the slowness of the time in making public sales, it is not to say the least, a matter of great doubt whether they would have come to Walla Walla at this time if it had not been for the above arrangement. These arrangements were not made to secure any political interest."

J. M. FLETCHER, Register. I have other letters from the Register in relation to the above, which parties interested can see by calling on me, at the New York and Variety Store, above the Hotel and New York and Variety Store, so that I have no need to state that with me as a consequence of the Department required, I would pay them myself. In consequence of the slowness of the time in making public sales, it is not to say the least, a matter of great doubt whether they would have come to Walla Walla at this time if it had not been for the above arrangement. These arrangements were not made to secure any political interest."

"No certainty that the above as related to the arrangement made by Mr. Parker with me is substantially true."
