No Confederacy.

So much has been said and written about Jeff. Davis' Confederacy, that the people of the United States almost recognize such a government. But if we reflect a moment, we will readily perceive that there is no such a government. But if we reflect a moment, we will readily perceive that there is no such a government. There is a sort of military despotism established at the South, whose head is said to be at Richmond, and Jeff Davis is the Autocrat thereof. The secessionists call it a Confederacy, but the Government of the United States has never recognized it, nor has any other Government on carth.

In the re-construction of the Union, this so called Confederacy is of no more consideration than the man in the moon. Wa know Jeff Davis as a citizen of Mississippi and we recognize Richmond as the capital of the State of Virginia. We show recognize the State of South Carolina, Louisiana, Virginia, Gorgia, Mississippi, Alabama, Fiorda, Texas, Arkansas, and North Carolina, as in a state of rebellion, and as such, to be reconstructed into the Union. A late number of the New York Times had an article on the subject, from which we extract the following:

"The idea entertained by many that it is the Confederacy which must asbanit before the rebellion closes, is completely wrong. Our Government has never expected any such submission; and, indeed, could not accept even if it were offered, oxexcept as a submission of individuals. It don't know the Confederacy. The thing called by that name it has never recognized in its living days, and most assured in the subject of the political separation."

In consenting to negotiation with the Confederacy when disposition they sent their accredited Commissioners to Washington. Mr. Forsyth and dr. Crawford, in the way to a speedy adjustment of all questions growing out of the political reparation."

In consenting to negotiation with this rebellion they s

When the States all return to their tree allegiance by their own Legislatures, where shall we look for the Confederacy? Is will be no more weak then than to-day, but its undedness will be exposed to view, and its deformity open to public gaze.

The work of reconstruction is going steadily so to-day. Kentucky and Missouri are sometiment of the Confederacy of the Victorian and Victorian and

IMPARTALITY OF THE DRAFT.—The writing about the operations of the draft

writing about the operations of the draft in the Quaker City, says:

It walked into the pulpit, invaded the arena of law, called on the physician, plunged into factories, visited the owners of palaces, booked into the hovels of the poor, stepped into the schools and colleges, waited on the merchaut princes, summoused the bankers—addressed, in fine, the high and the low, the rich and the poor—all classes and conditions that came within the sweep of its provisions,

food and raiment, or in locking after their mental education.

Although playing a part in the system less important to the harmonious working of the whole than other organs and functions, and though not so highly vitalized as other parts, nevertheless the Teeth possess a vitality, and nervous arrangement preculiar to themselves; and while, for example, a gangrenous ulcer or a necrosed (dead) bone, in its progress, euperadds new discords to the original, just so surely does a decayed or carious tooth bring in its course certain complications—for instance, gum beil, facial neuralgia, fetid breath, tooth-ache, scurvey gums, and the like.

It requires no words to convince that the services of an intelligent, competent Dentist shou'd be at once sought by all who have "cavities" to "fill," in order that what is not perfect may be at least amelion rated by the resources of art; while perfect may be at least amelion rated by the resources of art; while perfectly decayed oncs should be immediately extracted, thas correcting the condition of the mouth and stomach, improving articulation, and adding to the general comfort and feelings of the patient, who perchanges of the patient of the mouth and stomach, improving articulation, and adding to the general comfort and feelings of the patient, who perchanges of the patient, who perchanges of the patient of the mouth and stomach, improving articulation, and adding to the general comfort and feeling

monstrance to the ladies of England:

LADIES:—The Queen has commanded me to express the pair with which Her Majesty reads the account of daily accidents arrising from the wearing of the indelicate, expensive, dangerous and hideous article called ermoine. Her Majesty caunot refrain from making known to you her extreme displeasure that educated women should by example encourage the wearing of a dress which can be pleasing only to a demoralized taste. For the miserable idious who abjectly copy the habits of those conventionally termed their betters, it il impossible to entertain anything but pity. But to the ladies of England this appears to abandon the present degrading, dangerous and disgusting fashion is made in the belief that they will show themselves the rational and decoious persons whom they are supposed to be. I have the honor to be, ladies, your most obedient and humle servant.

There is certainly no impropriety or bad taste, in occasionally informing the public regarding those general lawe of health in which their physical and mental bappines, nay, their very existence is so vitally concerned.

The Kootenai Mines.

The Kootenai mines are beginning to be talked of as a matter of fact, and speculatalked of as a matter of fact, and speculators and "prophets" are looking to that

For the past, seven or eight years much
speculation has been indulged in in regard to

"Some Half-breed Indians came into Hellgate a short, time before Mr. Frush left and reported that they find obtained as high as 50 and 75 cents to the pan on Kootenai, or Flat Head lake, and quite a number of man were at work there and all doing well. These diggings are 75 miles north of Hellgate, and ahout 350 miles from here, via Coeur of Alene Mission. Fremont for President.

A correspondent of the Alta California writes to that journal as follows concerning Fremont's prospects for the next Presiden-

"Yesterday I cut from the N. Y. Herald, and forwarded to the Alta, a summary of the claims upon which the friends of General Fremont are urging his nomi-nation by the Republican party as a candidate for the Presidency The movement has not assumed a formidable shape. The war still controls the Presidency and may even control the nomination. Yet the movement in favor of Fremont has many elements which make it formidable. First and foremost is the German ele-ment of the Republican party.— Several German papers in the West fly Gen. Fremont's name from their editorial mast-heads, and the pathfinder is the undoubted favorite of the German population. The Radical press of the country, including such papers as the N. Y. Tribune, St. Louis Dem-ocrat, Cincinnati Gazette, Phila-delphia Press, Cleveland Herald, delphia Press, Cleveland Herald, Buffalo Express, and a host of smaller fry among the English papers, are on his side. The Chicago Tribune, (an intensely Radical) favors Fremont's political platform, and would, probably, support him gladly, though admitting his failure as a military man. The "California gang" are, of course Fremont men, and if of course Fremont men, and if he is nominated, he will have, in he is nominated, he will have, in place of Palmer, Cook & Co., the firm of Samuel, Hallet & Co., of New York, for his bankers. The "California gang" are old pipelayers and wire-pullers, and seem to be trimming their sails already for 1854. for 1854.

ST. PAUL'S PERSON .- How little stress is laid on personal ap-pearance. The prince of apos-tles seems to hint concerning himself that his bodily presence was not calculated to command respect. St. Chrysostom de-scribes him as a little man about three cubits, or four and a half feet high. But Necipherous has given us the most substantial ac-count of Paul's person. St. Paul was of small stature, stooping, and rather inclined to crooked-ness, pale-faced, of an elderly look, and bald on the head. His look, and baid on the head. His shaded in part by his eyebrows, which hung a little over. His nose rather long and not ungracefully bent. His beard pretty thick and of a sufficient length, and like his locks interspersed with gray.

"The ass knoweth his master's crib." The Chillicothe Union says: The radical abolitionists not only usurped our stand and place of meeting, but took the liberty of altering our bills posted around the streets, and made it to suit a call for themselves. Our bill read. "Grand Union Mass to suit a call for themselves. Our bill read, "Grand Union Mass Meeting," but they, poor fellows, not able to pay the printer, or fol-lowing out the practical work-ings of their doctrine, that of ap-propriating other people's proper-ty to their own use, altered the bills to read "Grand Union Ass " and met in accordance to the call.
