◆ The Soil & Climate, Abundance of Water for Irrigation, Geographical Position, Cash Markets for Produce in All Directions. ◆

The Public is Beginning to Find Out

That Yakima County has some other Resources than Coyotes and Real Estate Agents.

That it is the Home of the Peach, Prune, Plum, Pear, Grape and Apple.

That we grow Six Tons of Alfalfa to the Acre during the Season.

That the choicest Vegetables grown in Washington are raised here.

That it is the Hop-growing section of the State, producing 2000 Pounds to the Acre.

That every Citizen of Yakima County who Rustles and Saves, is Prosperous.

That a Crop is never lost here by Pests.

That Cyclones, Tornadoes and violent Storms are unknown.

That great Irrigation Companies are spending millions of dollars reclaiming our Arid Lands.

That 40 Acres of our Volcanic Ash Soil, well handled, will net more money each year than 160 Acres in the Middle West.

That YAKIMA COUNTY IS TO-DAY THE BANNER AGRICULTURAL COUNTY OF THE STATE!

WITH A MITTEN.
The maid was little, the man tall
And bearded and bronzed like an ocean rover,
But though he was big and the girl was small,
When he made her angry she threw him over.

A PRIZE.
Do I satisfy you, the young wife said,
In all things? "No!" she said,
In all things? "No!" she said,
Not at all!
And the husband answered, you do, my life,
Of that there isn't a doubt:
For you're better far than the ideal wife
That I used to dream about.

TOMMY AND BABY.
I can never scream and tumble
In the hall,
I can never pound my table
Nor the wall,
Never jump up in the window,
Yell and call,
Mamma says we have a treasure,
But I cannot see its value,
I am not allowed to hold it,
I'll squaw,
Papa says it is a brooder,
Not a doll,
But to call such things a "brooder"
—Ain't that gall!

Why We Love the Women.
Who dare dispute Helen Chaffee when she says:
For in this life the pretty things
Are put beside the common;
And that's the reason why a man
Was made to love a woman.

Shaving While Asleep.
In India it is quite common to shave a man while he is asleep, and if he happens to be lying on his back he can have his beard entirely removed without being disturbed. The native barber has a wonderful light hand, and is a adept at shaving without causing a fraction of pain. Europeans and Americans traveling in India soon fall into the indolent habits which prevail, one of which is to be shaved in bed before rising and bathing. It is not considered fashionable to visit a barber shop, the moneyed classes being almost always at home and almost as frequently shaved while in bed.

Remains of Bird Giants.
Bones recently found in New Zealand are estimated to represent 500 specimens of the moa. This immense wingless bird, now extinct, seems to have been hunted and eaten by the early inhabitants of New Zealand, and is believed to have stood at least 10 feet high. Madagascar had another giant wingless bird, whose eggs—10 or 12 inches in diameter, three times the size of the ostrich—have been discovered.

Seattle Telegraph: The farmers of Centerville, Klickitat county, have called a meeting to consider the advisability of sinking an artesian well somewhere in the valley. The artesian wells of the Yakima valley have made that country one of the richest spots in the state, and their success has strongly stimulated the residents in adjoining counties to put forth efforts to obtain more of them.

—A pious reverend claimed recently that hell, pure and unadulterated hell, is located at Oakesdale, to which the Sun answers: "Colfax may have her court house, Palouse City may have her saw mills, Pullman is welcome to her agricultural college and Spokane her water power. Many other towns have the above named industries, but Oakesdale is alone in her glory. There are many other court houses, saw mills, agricultural colleges and water powers, but there is only one hell, and if the reverend gentlemen's words be true, Oakesdale has a 'scoop' on the entire world. All hail Oakesdale, the peerless princess of the world!"

Few smokers realize the full comfort and enjoyment to be derived from the weed until he uses one of the Answers non-nicotine pipes. Mr. W. H. Chapman presented the editor of THE HERALD with one the other day, and for the good of humanity the latter desires to add another testimonial of its merits. The pipe had its birth through a prize offered by the Answers newspaper for the best invention of a pipe to keep the tobacco juice from entering the mouth. In addition to the prize the winner was to receive a royalty on every pipe sold. There were fifteen hundred competitors, and the result was that the successful one reaped a fortune and earned the gratitude of the public.

The democratic state central committee met in Tacoma Feb. 29th with twenty of the thirty-five members present. It was decided to hold two state conventions.

The first, for the selection of eight delegates and eight alternates to the national convention, which meets in Chicago June 21st, will be held at Vancouver on Wednesday, May 25th. The basis of representation will be three delegates from each county at large and one delegate for every one hundred votes and one delegate for every fraction of one hundred votes in excess of fifty polled for Hon. Thomas Carroll at the election held Nov. 4th, 1890, which will make a convention of 331 delegates. The number of delegates apportioned to Yakima county is seven. The official call recommends that the county committee order primaries to be held Saturday, May 14th, to select delegates to a county convention to be held Saturday, May 21st, to select delegates to attend the convention to be held at Vancouver. Another convention will be held after the national convention has nominated the candidates for president and vice president, to nominate a full set of state officers, congressmen and presidential electors, constituting a new state central committee.

The Price of Postage Stamps.
A man went into the post office of a neighboring town recently and told the postmaster that he desired thirteen two cent stamps for a cent and a quarter. The postmaster refused to give them to him, stating that the cost would be twenty-six cents. The man persisted in getting his order, claiming that he could get them at any office for that amount, and even threatened the government official if he continued to refuse him. Finally the postmaster ordered him out, but the man, none daunted, took a cent and a twenty-five cent piece from his pocket, and, laying them down on the counter, he received his stamps for a cent and a quarter. The postmaster was a little disconcerted for a while, but now enjoys the joke as well as any one. —The Cause.

A GIANT POWDER EXPLOSION.

An Attempt to Eliminate Chinatown From the Map of North Yakima.

About midnight Thursday a terrific explosion caused windows to be raised, lightly attired people to issue to the streets, and the saloons to be temporarily emptied.

Chinatown was greatly excited and didn't dare to again tempt sleep from fear that the outrage would be repeated. Whoever placed the charge there either knew nothing about the handling of giant powder, or wasn't disposed to injure anyone, for giant powder, when exploded, always creates the havoc downward, and had the powder been placed on the roof of the building there would have been no more Gee Lee.

IN MARCH AND FIGHT.

CAREER OF THE FIFTY-FIFTH ILLINOIS UNDER SHERMAN.

It Joined His Brigade in 1861. Was with Him at Shiloh, 1862, at Bentonville, 1862, and in All His Intervening Campaigns.

(Copyright, 1891, by American Press Association. Book rights reserved.)

LEVEN thousand nine hundred and sixty-five miles, almost one-half the distance around the world, taken in a direct line, were covered by the travels of the Fifty-fifth Illinois in the service of the government during the war.

It marched 3,240 miles and made the remainder by boat and rail. At an average of fifteen miles a day its marches occupied 216 days.

In skirmishes and general actions in the Confederacy was touched during its campaigns, and in eight different states it buried battlefield victims.

The field service of the Fifty-fifth began in Sherman's brigade, in the St. Louis rendezvous, in 1861, and ended when he disbanded his army after the grand review, 1865.

The regiment was with Sherman at Shiloh, in April, 1862, and at Bentonville, N. C., in March, 1865, having followed his marches closely during the intervening three years.

This record alone would be a proud one, though it could be held in sentences, but the regiment has other claims to notice, having won a place among the 300 fighting regiments whose names are inscribed on the Roll of Honor in the National Cemetery at Arlington.

slope to the rear. Suddenly the order was countermanded and the regiment faced about, marched up the hill to its old position and opened fire again on the advancing enemy.

When Stuart finally retired it was to march away unsupported by the enemy, and his retreat was not followed up. After retreating a few hundred yards it was proposed by some officer of the Fifty-fifth to halt and make another stand, but examination showed that the supply of ammunition on hand was less than two rounds to a man.

The battle I have described took place on Sunday, April 6. On Monday, the 7th, the Fifty-fifth was again engaged and lost about twenty men. Its losses altogether on the field of Shiloh were 51 killed outright and 163 wounded and recovered.

After the American forces had established themselves on Canadian soil in the summer of 1814, the commander, Gen. Jacob Brown, adopted the policy of threatening various important points on that side of the boundary, in order to prevent his opponent, Gen. Riall, from making a counter invasion across Niagara river.

On the 26th of July he received news of the movements of the British that led him to suppose that such an invasion was on foot, and yielding to the urgent solicitation of Gen. Scott, who commanded one of his brigades, he ordered him to lead a movement along the Queenstown road to threaten Forts George and Niagara, and thus put the enemy on the defensive.

Instead of a remnant he met an army and unintentionally opened the battle of Lundy's Lane, or Niagara, as it is also called. Riall was in the vicinity with a large force and, moreover, was in full readiness for battle.

The enemy opened with musketry and cannon and Scott accepted the challenge just as though the entire American army was at hand. The British artillery was stationed on an eminence, with infantry to the right and left of it.

The British quickly rallied and attempted to drive Miller's men away. After two such assaults had been repulsed Gen. Ripley brought forward the remainder of his brigade and the heights were held, even against a third assault—the most powerful of all—by 1,500 fresh troops.
