

In order to maintain compatibility with database software, precincts, contests and candidates are represented by a code with a maximum of 10 characters. Aside from the precinct, each column header consists of the election code, followed by the measure or contest code, followed by a response code.

**Precinct (St\_Code):**

The two-letter county code (see last page) followed by the numeric code for the precinct (padded with zeros to eight digits)

"W-I" at the end of the column header signifies write-in votes for that race.

For a listing of the full names and party preferences of the candidates and the titles of the statewide measures, see: <https://voter.votewa.gov/GenericVoterGuide.aspx?e=877&c=99#/>.
