Services to Washington Libraries 2010

The Washington State Library (WSL) is the only agency in Washington that is specifically designated to assist libraries and to ensure that residents of the entire state have access to library and information services. State Library staff work in partnership with statewide advisory committees to plan and implement programs, provide training, grants, and consulting services aimed at the development, improvement, and enhancement of all public and non-profit libraries in the state. These services are supported by Library Services and Technology Act (LSTA) funding from the Institute of Museum and Library Services.

Congressional District #8: Direct Services to Local Libraries
