

OCLC's new resource sharing service, WorldShare® Interlibrary Loan, is available for your use. As a member of the Washington group, you have the unique opportunity participate in a managed migration from WorldCat Resource Sharing to the new service. Do not miss out on this opportunity to receive training and get comfortable with WorldShare ILL. In December 2013, access to WorldCat Resource Sharing will end and OCLC resource sharing will continue through WorldShare Interlibrary Loan for all users worldwide.

Additional functionality has been added to the new WorldShare Interlibrary Loan service.

With these additions, WorldShare Interlibrary Loan contains nearly all features available in the WorldCat Resource Sharing service, plus some features only available in the new service.

WorldShare Interlibrary Loan enhancements include:

- Integration with the WorldCat knowledge base for streamlined article sharing
- Batch processing for yes and no
- Printing:
 - Print all requests in a queue
 - Print bookstraps and shipping labels from batch
- Article Exchange workflow enhancements
 - Access to Article Exchange from WorldShare Interlibrary Loan without re-entering login information
 - Selection of the “Email Notification” button brings up the locally configured email server; email contents are pre-populated with transaction information and Article Exchange instructions
- OPAC Links:
 - Links to borrower OPACs from staff workflow to determine local availability before placing a request
 - Links to lender OPAC from holdings lists to determine availability before including a library's symbol in a request
- Lender edits of conditional notes
- Local Holdings Record (LHR)-related enhancements
 - Display of LHR summaries
 - Use of LHR data to select lenders
- Ability to request multiple renewals
- French and Japanese language interfaces
