Seattle W. T., April 23 1874

PARTY CONSISTENCY.—The consistency and reliability of party newspapers is well illustrated by the character of the assaults made by the partisan journals upon the candidates upon the Independent ticket for State officers in Oregon.

The Portland News, the leading organ of the Democratic party, says of the same candidate: "He has held the Chairmanship of the Democratic State Central Committee one or more terms, and was always conspicuous and active in and about Democratic Conventions.

There could hardly be a more damaging reflection upon the intelligence and management of the Democratic party in Oregon than the foregoing. What a man who can hardly write his own name nominated and elected to the most responsible and difficult office to fill in one of the most populous and wealthy counties of the State!

This is only an instance of the uniform bias and prejudice of party organs. As a rule, they are utterly unreliable in all matters touching the personal merits of candidates.

NEXT DELEGATE.—The Walla Walla Spirit of the West, in speculating upon the subject of the next Delegate to Congress, claims that by right the next Delegate should come from that side of the mountains, and mentions among the candidates, Gen. Edward Shiel, Daniel Stewart and J. C. Smith, on the part of the Grangers, and W. H. Newell, N. T. Cator, J. H. Lasater, W. A. George and J. R. Lewis, as supposable candidates of the old political parties.

We shall not dispute the local claim of our eastern fellow-citizens, though having an equal right and an equal interest with them in the character of our common representative, we shall insist upon the right of a voice in choosing between them, and failing to agree upon a man of the requisite qualifications, and unexceptionable to either section, then to drop mere local considerations in the selection, the main purpose being to secure an able, faithful and impartial representative of the best interests of the whole; one who will give his best efforts to the promotion of every measure calculated to unite the east and the west by such public improvements as well secure to the two divisions of the Territory an interchange of their varied productions and to the whole the full benefits of its own unparalleled resources.

A SOCIABLE GOVERNOR.—Governor Powell, of Kentucky, was never an orator, but his conversational story-telling and social qualities were remarkable. His great forte lay in establishing a personal intimacy with every one he met, and in this way he was powerful in electioneering. He chewed immense quantities of tobacco, but never carried the weed himself, and was always begging it from every one he met.

"He lives in your place, I believe, don't he?" "Yes, one of our oldest citizens." "Very sociable man, ain't he?" "Remarkably so."

"Well I thought so, I think he is one of the most sociable men I ever met in my life—wonderfully sociable. I was introduced to him over at Grayson Springs last Summer, and he hadn't been with me ten minutes when he begged all the tobacco I had, got his feet up in my lap, and spit all over me—remarkably sociable."

THE CRUSADE AGAINST KING ALCOHOL.—The Webfoot St loon was besieged by a large number of ladies yesterday afternoon, who, notwithstanding the din of gongs and other vile instruments, stood their ground until nearly 6 o'clock.

It seems strange to us that among the numerous possible candidates named for the section east of the mountains, no allusion is made to one of their most honored and distinguished citizens; a man better known throughout every portion of the Territory than any other citizen of the same, and honored and respected wherever known, by men of all parties and conditions in life, for his many manly virtues, his liberal public benefactions, his universal benevolence, his warm sympathies with the people in every measure calculated to promote the general welfare, and above all, for his incorruptible integrity, which we have never heard any man question; a very rare exception to our public men as a rule.

This morning the ladies assembled in full force with camp-stools and lunch-baskets, and quietly sat down in front of the saloon and renewed the attack. Mr. Wheeler immediately laid complaint before the Police Judge, and the whole party, consisting of twenty-one ladies, were arrested by the Police and conducted to the City Jail.

remotest idea what are his own views of the matter, beyond the fact that he has heard him express strong preference for another man, to whom he probably never mentioned his preference. We but mention his name incidentally, as one well qualified for the place. If he should happen to be nominated and elected, we should claim no merit for the suggestion.

MEEDLERS.—The Olympia Echo says: "Several correspondents and individuals have of late inquired of us if we know anything about a consolidation of the Courier and Dispatch. We do not. It is none of our business, and we do not care to meddle with the business of the owners of the offices in question. Are our correspondents answered?"

The editor exhibits a trait in the foregoing comments which cannot be too highly commended. The simple mention of a matter of public interest such as the contemplated consolidation of two public journals, is legitimate and proper. It only becomes mean and disreputable when persons who have no business with the matter seek clandestinely to obtain information relating exclusively to the private business affairs of the publishers, for the purpose of meddling with or misrepresenting the same through malicious motives, as has the literary mediocrity who is temporarily employed to write the prosy platitudes which fill the leading editorial column of our city contemporary, to the special delectation of the Tacoma Tribune and the Kalama Beacon; the trio forming a mutual admiration society of fossilized Bohemians. Fortunately for us, none of them enjoy sufficient public confidence to give any damaging effect to their malicious intent.

OUR RAILROAD.—At a meeting of the stock-holders of the Seattle and Walla Walla Railroad, at the Company's office on Monday, the construction of five miles of the road was contracted for, to be paid entirely in stock—H. L. Yester takes two miles and the Renton Coal Co. three miles. The balance of the first section of fifteen miles will be under contract by the first of May. When the thing once gets started, it is certain to go ahead to ultimate completion.

They still cure by the laying on of hands in St. Louis. The Chicago "drummer" who was making love to another man's wife in that town, got most miraculously "cured" that way, but the "doctor" has not been able to get near enough to that amiable young man since the event to secure his signature to a recommendation for publication.

A boy was struck with a baseball on the back of the head, and strange to say the ball came out of his mouth instantly.

There's no end to the unpleasantness of friendly and ceremonious calls. The etiquette of calls involves more white lies than anything else in the world, and it has been getting in the way of a woman in Hartford who wanted to hang herself. Three separate times did she make ready for the agreeable performance, and as often did people come ringing at the door, visiting and interfering with all her arrangements, and discouraging her generally. She says, sadly that it is impossible to hang one's self comfortably in Hartford without neglecting some of one's friends. Observe the heartlessness of modern society!—N. Y. Tribune.

ABUSE OF AMUSEMENT.—The habit of dissipating every serious thought by a succession of agreeable sensations, is as fatal to the happiness as virtue; for when amusement is uniformly substituted for objects of moral and mental interest, we lose all that elevates our enjoyments above the scale of childish pleasures.

Nine bushels and one-eighth is all the wheat crop averages per acre in the United States, and only about ten or eleven on the fertile prairies of the West, while in old England it averages twenty-eight bushels per acre by thorough tillage.

A few days ago a very handsome lady entered a dry goods house and inquired for a "bow." The police clerk threw himself back and remarked that he was at her service. "Yes, but I want a buff, not a green one," was the reply. The young man went on measuring goods immediately.

A citizen of Henderson, coming on board, fell into conversation with a passenger, who made inquiries about Powell. "He lives in your place, I believe, don't he?" "Yes, one of our oldest citizens." "Very sociable man, ain't he?" "Remarkably so."

fore the Police Judge, and the whole party, consisting of twenty-one ladies, were arrested by the Police and conducted to the City Jail. The case not being ready for trial, the Court permitted the ladies to retire to their homes, on condition that they appear for trial to-morrow. The arrest created great excitement among the populace, and hundreds of people gathered in the vicinity of the jail to discuss the matter in all its bearings, and to see all that was going on.—Portland News, 17th.

A Western paper says that the way to kill off the poets who offer to write pieces gratuitously, is to accept their efforts, hand them to the worst compositor, and let the proof reader correct them according to his own ideas of prosody. This is warranted to destroy the strongest poetical fever in 3 weeks.

Danbury News: Our correspondent, George Alfred Townsend, and the correspondent of the Chicago Times, had a personal encounter in Washington, a few days ago. While we must deplore an exhibition of such a nature by gentlemen, still we feel glad that our correspondent liked.

The wife of William McFarland, who resides on the ocean beach some twenty five miles north of Gray's Harbor, was severely wounded, the first of this week, by the accidental explosion of a metallic cartridge. She was handling it and dropped it, causing it to explode. The ball entered her wrist and ranged up the arm between the bones, coming out near the elbow. Dr. Johnson, of the Quinaielt Herse, was called in to dress the wound, and the lady was doing well at last accounts.—Courier.

EXCLUSIVELY TO THE DAILY DISPATCH.

NEW YORK, April 18.—A London letter says a very bitter conflict has broken out in the eastern counties, between the farmers and farm laborers. The latter have joined the Union that was started some years ago, with its headquarters at Warwickshire, and have demanded an extra shilling a week. This has been refused and the laborers have struck on one or two farms. The farmers generally retaliated by locking out all union men and declaring that hereafter they will employ only non-unionists. It is said that the landlords are supporting the farmers and threaten to eject tenants who do not hold aloof from all relations with the unionists.

The funeral of Dr. Livingstone took place this morning at Westminster Abbey. It was attended by a large crowd, including a full representation from the Royal Geographical Society. The Queen and Prince of Wales sent their carriages. There was a special funeral service early to-day, and another will be held by Dean Stanley to-morrow. Livingstone's grave is in the center of the nave of Westminster Abbey, near Robert Stevenson.

Boston, April 18.—Butler's friends are unable to conceal their mortification at the election of Washburne, who also defeated the General for the Governorship.

WASHINGTON, April 18.—The President's remarks to the New York Committee yesterday are accepted by them as indicating that he will not veto the Senate currency bill.

Grant's refusal to interfere in the Arkansas gubernatorial strife, is commended as a wise reversal of his former course in Louisiana.

Nothing new in the Pacific Mail and Railroad combination.

LITTLE ROCK, Ark., April 18.—Baxter's forces have been increased by the arrival of about 3,000 men from Pine Bluff, Washington and Barkerville, and have surrounded the State House so as to cut off all supplies. Brooks has sent repeated offers out. Three hundred of Baxter's reinforcements cut off.

ST. LOUIS, April 18.—The Democrat has received a special from Little Rock, by Duval's bluff. It asserts that Brooks is in receipt of assurances from every point of the State, that the people will support him. He holds the Court House and all the Government offices, records, and the great seal of the State, and is supported by the other State officers, the Chief Justice of the Supreme Court, all the leading men of the Conservative, Democratic, and Republican parties, while Baxter has appointed his military officers from the Bourbon Democracy. Brooks' position in the State House is guarded by 300 men and 2 pieces of cannon.

PARIS, April 18.—Few of the passengers of the Amerique have arrived. Their accounts of the disaster state that the storm commenced on the morning of the 13th, increasing by the afternoon to a gale, and by evening to a hurricane, filling the engine room with water, and the ship rapidly filled during the night, putting out the fires 3 times. On the morning of the 14th the water in the hold had so increased that it was evident that the ship had sprung a leak. All efforts to reduce the water or find the leak were futile, and by afternoon the ship became unmanageable. The officers informed the passengers of her condition and counseled coolness. They then signalled an Italian vessel, which had been standing gallantly by, and the transfer of passengers and crew was effected, with only one casualty, the drowning of the 1st officer, although there was a fearful sea on. The probable cause of the leak was that the wheat stored in the hold became wet, swelled, and started the rivets.

ST. LOUIS, April 18.—A special from Boring Cross says Brooks is being reinforced and Baxter's friends are not enthusiastic.

LITTLE ROCK, Ark., April 17.—Judge Whitlock to-day overruled the motion to set aside the judgment in the Brooks, Baxter case, but sustained the motion to correct the record so as to show that the demurrer was submitted with the knowledge of Baxter or his counsel. Gen. P. T. Dockery has been appointed by Baxter as Military Governor of the city, and has issued an order for the enrolling citizens. Leading citizens have issued an address to the people of the State urging them to sustain Baxter. U. S. troops occupy the United States Court Room in the center of the city and will preserve peace.

WASHINGTON, April 17.—The Secretary of War has instructed the officer at Duval's bluff to proceed to Little Rock and investigate the report that Baxter had seized the telegraph office to prevent the Brooks party from using the wire and to see that telegrams to or from General Government are not interrupted. Post Master General Cresswell has telegraphed the postmaster at Little Rock to deliver the mail matter addressed to Gov. Baxter or Baxter the Governor of Arkansas, to Baxter; and those similarly addressed to Brooks, to Brooks; and to hold letters addressed simply to the Governor of Arkansas, for the present.

The Cabinet session to-day was unusually long and was fully attended. The Senate finance bill was discussed; the President giving his views at length, but what they were has not transpired. It is generally believed that the President will approve the bill.

Shield struck the pistol down just as the passenger was pulling the trigger. It was discharged, the ball entering the left thigh, where it now remains. Co., for semi-monthly mail service between San Francisco and China, at an additional subsidy of \$500,000 per annum. John Roach, of the Morgan Iron Works of New York and the Delaware River Ship-building Co., made an argument showing the advisability of preserving the commerce of the Pacific to the American line, and urging the propriety of giving the Company further time in which to provide the necessary iron steamships to perform the increased service, in accordance with the contract. It was agreed that each committee shall appoint a sub-committee of three members, who, in connection with a sub-committee of the Committee of Postal Affairs, shall consider the subject and report what action should be taken regarding it. The Secretary of the Navy will also be called on to express his views on the same subject.

It provides for a United States Judge, Marshal, and Attorney in discharging the duties pertaining to all Courts; thus dispensing with the duplication of such officers by the Utah Legislature, and consequently depriving the Probate Court of civil and criminal jurisdiction as heretofore exercised.

The bill also changes the mode of selecting jurors. The United States Judge, Clerk, and Marshal are required to draw jurors from lists prepared in a specified manner, free from Mormon influence. Poland will bring up the bill in a few days.

SAN FRANCISCO, April 14.—The Tartar sailed from Sydney March 14th. The most important news has already been anticipated by telegraph. On March 12 a shock of earthquake was felt in the Province of Adelaide. The Herald regrets that trade between Sydney and San Francisco is not more extensive. Much loss and depression has been occasioned by a strike of iron workers. The Herald says for this reason the future of manufacturers in colonies will be most uncertain, still the general condition of the country is thriving. The Tartar made fast to the steamer Macgregor and pulled her about four hours, but failed to start. When she left the str. was in the same position. The Inter-Colonial difficulty between Victoria and Sydney is not yet settled. The inland free trade across the river boundary is stopped. The Custom Officers warn travellers that though he remains under one flag, he passes from the jurisdiction of one government to that of another. An angry correspondence is passing between the Prime Ministers as to who to blame for the result. The latest news from Fiji is that events are tending strongly toward the British annexation. It is reported that the Merchant's Exchange has been partially abandoned as unprofitable, and that of Melbourne is in a flourishing condition. The Tartar arrived at Sydney March 10 with mails and passengers of the steamship Macgregor.

Later—The Tartar reports that at Kandavua she found the steamship Macgregor, previously reported ashore, afloat from the reef with a hole in her fore compartment seven feet long, which was full of water. She had sailed under her bottom, but would have to wait for assistance from Sydney before she could be moved.

At last accounts of Maxy, one of the participants in the Fourth street tragedy, he was alive and improving. The Society of Heptasophs or Seven Wise Men hold their annual picnic today. It was well attended.

JACKSONVILLE, Oregon, April 14.—A fire broke out in this town this morning at about 4 o'clock. It originated near the southeast corner of Oregon and California streets, in a row of old frame buildings and soon got beyond control. Although no wind was blowing, the dry lumber blazed so high, and the flames spread so rapidly that nothing could be done to check the conflagration until it had spread across to houses of like character on the north side of the street. Part of two blocks, embracing some brick buildings, are consumed, which is the business houses and the heart of the town. The fire is supposed to have been the work of incendiaries. Two men, Albert Johnson, a mulatto, and a young white fellow named John Lenzo, were arrested and put in jail, but were afterwards discharged, as nothing could be found against them.

CORINNE, Utah, April 14.—The Chinaman arrested on Monday, the 6th inst., upon suspicion of having been implicated in the murder of Bornsheene, which occurred on the 5th, was yesterday proven, beyond all doubt, to have committed the deed unaided and alone. At two o'clock this afternoon, while the officers were endeavoring to take the prisoner to Brigham City for safe keeping, the citizens en masse took him from them and marched him down to the R. R. bridge, one mile east of town, and hung him from the trestle work. Thayer, detective, and a Chinese interpreter, called from Denver especially to work the case up, brought about this end with great credit to himself and the community. Public wrath is appeased. Quietness prevails again and people are happy to feel they have rid the city of a murderer, who has killed two or three men before and is known to be one of the worst Chinese characters in this country.

BOSTON, April 14.—Five additional ballots for Senator were taken this afternoon. Whole number of votes was from 240 to 266. The most noticeable features were the scattering of votes and losses of leading candidates, particularly Hoar, and the gains of Adams and Washburne, the last ballot standing—Dawes, 69; Hoar, 34; Curtis, 62; Adams, 37; Washburne, 20; Banks, 8; scattering 10.

NEW YORK, April 13.—The Pacific Mail steamer Colon, from New York, arrived at Aspinwall April 6. The City of Panama sailed from Aspinwall for New York direct April 11. The Granada was to sail from Panama for San Francisco April 11.

WASHINGTON, April 12.—John Roach was before the Postal Committee today in advocacy of Pacific Mail subsidy. He said he appeared solely in behalf of the ship building industry of the country, and in reference to iron ships under construction by him for that company. He gave statistics as to large subsidies paid by English and French Governments to keep up lines of semi-monthly steamers on the Pacific to control the commerce of that ocean for those nations. With reference to the failure of the Pacific M. S. S. to get their new ships ready in the time required by contracts, he explained that it was found that ships of the size and class contracted for could not compete in speed with ships built in England for the same Pacific trade, and the plans were therefore changed, and were built requiring more than the contract time. The Co. went forward believing that the U. S. Government would not take advantage of

the temporary delay if the service in the meantime be performed in other vessels without subsidy until newer and better ships should be ready to compete with foreign lines for the trade of the Pacific, and to carry the mails at a lower price than any other line would charge for the same service. In reference to the charge that a large sum was paid and corruptly used by the P. M. S. S. Co., to procure from Congress an additional subsidy, Roach stated that he knew nothing of such payment. That there was no evidence that any such sums taken out of the Company's funds nominally to prevent competition in bidding, were corruptly used in Washington. That none of the present managers had anything to do with the money. He will appear before the same committee again to-day.

Page and Luttrell are at loggerheads about postal matters in California. In the House Luttrell declared that there is a post office ring in California which has defrauded Government to extent of a hundred thousand dollars, and that he made the charge on the very best authority. Page sprang to his feet and a scene of great confusion ensued for several minutes. A resolution to investigate the charges was referred to the Postal Committee.

WASHINGTON, April 14.—Before the Ways and Means Committee to-day, Parks, agent for the P. M. S. S. Co., testified concerning the \$600,000 alleged to have been paid by the Co. to influence legislation, that one-half of the amount was transferred by its agent to whom the whole was committed, to a sister for investment in Philadelphia real estate, and that the Company expected to recover that amount.

The President has nominated Thomas Russell, of Massachusetts, as Minister resident of Venezuela.

President Grant, in conversation, said he did not favor inflation in the general acceptance of the term; he only believed in increasing the currency to meet the national wants. He did not commit himself on the currency bills before Congress.

VIENNA, April 13.—Emperor Francis Joseph has sent a conciliatory reply to the Pope's recent protest against the ecclesiastical bill. It is understood that the opposition at the Vatican is merely formal. The upper house of the Reich, staid to-day passed the ecclesiastical bill, whereupon the Bishops withdrew in a body.

SOUTHAMPTON, April 15.—The steamer Molina with the body of Dr. Livingstone arrived this morning.

CINCINNATI, April 14.—At an anti inflation meeting held here to-day, resolutions were adopted strongly condemning the measures now about to be taken by Congress, regarding the inflation. A Committee was appointed to take a document, signed by fifty manufacturers representing ten million dollars, to Washington.

WASHINGTON, April 15.—The President has signed the act, donating the Military Reservation at Steilacoom to Washington Territory to be used as an Insane Asylum.

LITTLE ROCK, Ark., April 15.—Joseph Brooks, claiming to have been elected Governor in 1872, took the oath of office to-day, before Chief Justice McClure and then took forcible possession of the Governor's office, ejecting Gov. Baxter and taking possession of the Court House. Brooks bases his action on the decision of Judge Whitlock of the Circuit Court of the State, made this morning, overruling a demurrer filed by Gov. Baxter's counsel, in a suit brought against him by Brooks for the Governor's office, and issuing a judgment of ouster in Brooks's favor. This action of the Court was taken in the absence of Baxter's counsel, who had no opportunity to answer or move an appeal. Baxter has established his headquarters at St. John's College, and has telegraphed to General Grant the facts in the case, and asking the support of the general government to regain possession of the office. The greatest excitement prevails.

SAN FRANCISCO, April 16.—The master of the bark Dublin, from Port Gamble, reports that on the 18th of February John Oakes, second mate, fell thro' a hatchway and was instantly killed.

LONDON, April 15.—Fifty thousand persons were present at the landing of Livingstone's remains. The hearse was followed by a line of carriages and the body was taken to the Geographical Society's rooms to await the funeral, which occurs on Saturday. In the Commons this afternoon Bodwell moved the expulsion of Biel. Motion moved a postponement until report of the Committee. Mosseau moved to present an address to the Queen for his pardon.

LONDON, April 15.—An explosion in a Lancashire coal mine killed and wounded a number of miners.

Later.—A dispatch says 46 bodies were recovered from the mine at Dunderberg, in which the explosion occurred to-day. One hundred miners have been rescued. The explosion was caused by a naked light.

NEW YORK, April 17.—The Pacific Mail Co. Directors say that they have \$165,000 in cash on hand, besides \$100,000 in call loans; half a million in uncollected freights, \$55,000 cash in London, over \$100,000 cash en route from the Pacific, and \$0,000 unsold shares of stock. Only \$725,000 is due on the Roach contract for the steamers Yeddo and Pending. The Directors claim that the Company is in a position to meet all demands, and that they have reduced expenses forty per cent. Their total number of passengers afloat yesterday was 3,360.

NEW YORK, April 17.—A Havana letter says it is rumored that Concha intends to spare the life of Dockery as a matter of courtesy to the United States.

OTTAWA, April 17.—In the House of Commons last night, Bowen's motion for Reil's expulsion was carried—124 to 68, and a new writ was ordered for an election in the Province.

NEW YORK, April 17.—To-day's World has an apparently semi official article which says there is no arrangement between the Pacific Mail Co. and the Railroads; probably it is because of the domineering disposition of railroads, and their demand to be made the steamers agents, which would enable them to discourage steamer business. The article says that the Union and Central railroad have an organization at Washington to undermine the efforts being made to retain the China mail subsidy to steamers. It is charged that the Pacific Mail stock has been sold short, on account of the members of the Congressional Committees guaranteeing them against loss, with the implied condition that they will introduce hostile resolution, and make unfavorable reports, tending to prejudice Pacific Mail interests. The Mail Company profess little fear of the Central Pacific's threats to put on an opposition to the China line, unless the former accede to their demands, as it takes a large sum to build American ships, and foreign bottoms cannot give through bills of lading to points east of San Francisco.

PANAMA, April 2.—News has reached here of the loss of, on the 4th of March, the Chilean coasting steamer Taena with 19 persons. Loss of life is attributed to the panic which seized the crew, two of whom made off with the only boat.

NEW YORK, April 17.—A Boston dispatch announces the election of Washburne as Senator.

The situation of affairs in Arkansas are unchanged.

VICTORIA, B. C., April 17.—An Indian woman named Emma Hart and her son Isaac, about five years of age, were found on Wednesday last a short distance from Nanaimo, with their throats cut and their skulls fractured, apparently with a blunt instrument. At latest advices, no clue had been discovered of perpetrators of this horrid deed.

Nanaimo shipped during the quarter ending March 31st, 21,297 tons of coal, the Vancouver Coal Company exporting about 14,000 tons of this quantity.

BREST, April 16.—The Amerigue foundered during the violent tempest of the 4th inst, and was abandoned when on the eve of sinking. An Italian ship saved a large number of the crew and passengers, who arrived here to-day.—148 of the crew, and forty passengers arrived by a Norwegian bark. 30 more passengers also arrived on an English vessel. The passengers unite in the praise of the coolness and bravery of Captain Rousseau of the Amerigue.

LONDON, April 16.—In the House of Lords to-night, Earl Russell gave notice that, on May 4th, he should ask for copies of the correspondence of the British Government with the Governments of Germany, France, Russia and Austria, with regard to the maintenance of peace. Also, that he should call for copies of the transaction sent to Thornton, Minister at Washington, with regard to the Oregon boundary question; and further, for an account of the compensation made by the U. S., for damages caused by Fenian raids in Canada.

WASHINGTON, April 16.—A joint resolution was introduced into the Senate by Carpenter to-day, declaring it to be the duty of the United States to recognize the independence of Cuba, to accord her belligerent rights and to preserve a strict neutrality between her and Spain. It is preceded by a preamble setting forth that it is the undoubted right of any American colony to declare itself independent of the Mother Country; that the people of Cuba have declared

their independence of Spain, established their own Government, abolished slavery, and for over 5 years have maintained their position; that war between Spain and Cuba has been and is conducted with shocking barbarity, and that there is no reasonable prospect that Spain will be able to reestablish her authority over Cuba; that in consequence of the proximity of the seat of war the contest is injurious to the interests of people of the United States, and that it is evident that its prolongation will only protract suffering and bloodshed, and result in the final recognition of Cuban independence by Spain.

The Senate Committee on Commerce to-day considered the joint resolution of the Legislature of California, against any grant of additional subsidy to the Pacific Mail Steamship Company, and agreed to report and recommend the passage of a bill declaring that the said Pacific Mail Steamship Company, by their failure to comply with the conditions upon which the additional subsidy of \$500,000 per annum was granted, to commence last October, have forfeited their right to the same, and are entitled only to the half a million subsidy previously granted, for a monthly mail service between San Francisco, China and Japan. The bill will simply declare as a matter of law the forfeiture already recognized as a fact.

LITTLE ROCK, April 16.—Brooks issued a proclamation to-day to the people of Arkansas, reciting at length the history of his contest with Baxter, and declaring his intention to sustain himself in office by every means at his command; that any attempt to place Baxter again in the Governor's office must result in strife and bloodshed, as he, Brooks, will resist all those who may assemble at Baxter's call, but that he is always ready to submit the decision to the Courts. He concludes with advising the people to quietly pursue their vocations, and if their services are necessary to preserve peace, he will call for them. Baxter's attorneys appeared in Court to-day and moved to set aside the judgement of yesterday. The motion will be argued to-morrow.

Later this evening, Gov. Baxter issued a proclamation declaring Pulaski County in a state of rebellion, proclaiming martial law, and calling on the militia to assist in suppressing the rebellion.—Simultaneously with the issuance of the proclamation, Baxter, with a force of 200 men marched down town, took up quarters in one of the hotels, posted sentinels along the principal streets and around the State House, where Brooks is ensconced with 200 armed with muskets and 2 cannon. Baxter expects reinforcements from other counties. He says the Attorney General's dispatch is satisfactory, all he wants is non-interference by the General Government. Baxter has taken possession of the telegraph office, and exercises complete censorship over all dispatches, and has issued a proclamation, announcing his intention to take the State House and reestablish his authority.
