**MASONIC REUNION.**—The Salem Record learns through Mr. S. F. Chadwick that the Masonic fraternity of Oregon, Washington and Idaho intend to have a reunion somewhere this summer where the scene of enjoyment can be flavored with a good, old-fashioned clam bake.

**THE 9TH** of August is the time fixed when the party will leave Portland for some point on the Sound, where Masons and their friends will congregate for a season of sea air and sea enjoyments generally.

**AFTER** the clam harvest shall have been fully partaken of, there will be a trip down the Sound to Victoria on some of those grand Sound steamers that ply the length of that labyrinth of waters, a pleasure excursion that will give a view of the magnificent scenery of that wonderfully picturesque region.

**WE CAN** hardly conceive of a more charming excursion to be planned than the one referred to above. In the first place, the Masonic order furnishes the general talent to appreciate such a tour of pleasure, and make it thoroughly enjoyable, for of course the ladies are included; next, the localities to be visited will offer every charm of nature, and enough of the comforts of civilization to render the enjoyment perfect; thirdly, the fare will, no doubt, be reduced to a price within command of all who may desire to be participants, thus favoring pleasure with economy, as well as making it savory with clam-bake.

**COAL CONSUMPTION.**—From Jan. 1st to April 1st, 1875, the imports of coal into the State of Washington were as follows: From Seattle, 9,170 tons; from Bellingham Bay, 1,840 tons; from Coos Bay, 7,500 tons; from Mount Diablo, 40,500 tons; and from Vancouver Island, 15,250 tons. During the same time 20,175 tons of coal were brought from England, and 22,045 tons from Australia. Of Cumberland and Anthracite, 1,838 tons of the former and 3,750 tons of the latter were received. Coos Bay is now quoted at \$10 per ton in that market; Bellingham Bay, at \$8 50; Australian, at \$10 00; and Walla Walla, (Vancouver Island) at \$11 00; Black Diamond and other Mount Diablo coal is exclusively used for steam purposes by factories and inland steamers; the coarse commands \$8 25 and the screenings \$6 25 per ton—the latter being preferred by many of the mills on the score of economy. During the first quarter of 1874, 14,200 tons of Vancouver Island coal were received at San Francisco; 4,500 tons of Bellingham Bay; 113 tons of Seattle; 15,434 tons of Coos Bay; and 40,492 tons of Mount Diablo. A comparison of the two years shows that Coos Bay has fallen off in quantity 50 per cent.; Mount Diablo has increased 1 per cent.; Vancouver Island, 17 per cent.; and Puget Sound, 40 per cent. Prices rule the same in 1875 as in 1874.

**JOURNALISM.**—The conductor of a public house who faithfully performs his duty generally leads a toilsome and thankless life. With a firm purpose to do equal and exact justice he crosses antagonisms and makes life-time enemies of who, if he were engaged in any other pursuit would be among his best friends. If he comments with just severity upon the acts of those who have been chosen to administer public affairs, he makes more enemies than friends by so doing. If he ignores or palliates the real or apparent derelictions from duty on the part of the servants of the people his motives are impeached and his friends alienated. If he tells the truth and nothing but the truth about subjects in which the public are interested, there are oftentimes those who think that this or that detail ought to have been omitted, and the list of his down-right enemies or lukewarm friends is again increased. If he utters an honest opinion on a subject of public concern and afterwards changes his views and gives expression to the thoughts and conclusions which further light and more mature reflection have convinced him are correct, he is accused of inconsistency and an intention to accomplish a purpose detrimental to somebody's interests.

**WE** have hinted at only a few of the obstacles and difficulties with which the editor of a period comes in contact. But there is a law of compensation that sets all things even, and the faithful journalist receives his share of its benefits in the end.

**MICHIGAN'S** new liquor law for lads sales to minors and habitual drunkards for buying liquor. The difficulty will be to prove a man a drunkard. According to an Irish priest a man is not drunk so long as he can hold on to the grass when he falls.

Puget Sound Dispatch.

PERIAH BROWN, EDITOR

Seattle, W. T., May 6, 1875.

NEWSPAPER SUPPORT.—There are five weekly newspapers published in Olympia. The Standard, the oldest and most prosperous of the five, estimates the entire amount of local advertising divided among them at less than \$600 per annum—\$120 a piece; and says: "At least three-fourths of the free church and charity advertising found in our columns is placed there by business men whose names have never appeared in our advertising columns." The aggregate circulation of the five papers in the town does not exceed 200, at \$600. The local job work does not net over \$800, exclusive of the cost of stock. Thus it will be seen that the five newspaper establishments derive but \$2000 from the citizens of the town, for the support of five families, aggregating 35 individuals—but a little over one dollar a week each—not one-fourth the amount required for their support. To barely subsist, therefore, these printers and publishers must contribute three times as much to the support of the town as they receive from it. How could Olympia sustain itself without the printers?

HAVE WE A BRENTS AMONG US?—We copy the following from our city co-exemporary of Saturday last: "There is an understanding between Judge Lewis and Wingard that, if the former will remove L. B. Andrews and appoint the latter's tillson here to the Clerkship of this District, he will keep Lewis' particular friend in office there. These Clerkships, under recent Congressional amendments, will hereafter be the most lucrative and important appointments to be made in the Territory, and their disposition, aside from any such trafficking, will have to be made with due regard to the fitness and competency of the appointees, and to political consistency on the part of those judges, or their official seals will be long dangling in our Supreme Court room among those of the many other small men who have heretofore constituted our Judiciary."

Our neighbor is scrupulously neutral upon political issues, but only radically partisan where personal interests are involved. The motive that actuated this assault upon the Judiciary of Washington Territory in general, and two of the three sitting Judges in particular, it is not necessary to refer to. We only notice it for the purpose of saying that the premises are without the least shadow of foundation in truth, to our certain knowledge. No such bargain or "trafficking" in judicial appointments as that so positively stated, we were in a position to know, was ever entered into, expressly or impliedly, between Judges Lewis and Wingard. We are not informed that any appointment for Clerk in this District has yet been determined upon, but feel assured that Judge Lewis is not the man to be bullied or bargued into an appointment not approved by his judgment. Both he and Judge Wingard have heretofore been assailed by clique combinations assuming to represent the Republican party of the Territory, and both have been triumphantly vindicated by the endorsement of the Administration, a large majority of the bar of both political parties and by popular sentiment. They are neither of them men who scare worth a cent.

SENATOR MITCHELL.—We have quite lately, been in receipt of documents addressed to us personally, under the frank of Senator Mitchell, of Oregon; a courtesy which we feel bound to acknowledge, coming from whatever source. Our readers are aware that in alluding to Mr. Mitchell's previous life and history we have spoken of him in terms of censure which the facts fully justified. As we were actuated by no motives of personal or party malice, we have nothing to extenuate or take back. That he views the matter in the same light, is manifest by his voluntarily opening personal communication with us, which is an evidence that instead of attempting to justify the notorious errors of his earlier life, his more manly instincts recognize the wrong and incite him to the purpose of condoning, by a useful and honorable career in the future, instead of seeking to justify and vindicate himself by an arbitrary exercise of a power which none but traitors and tipsters bow to when unassociated with personal merit. That Mr. Mitchell, considering his age and opportunities, is a man of pre-eminent ability, all will acknowledge. That he is one of the most industrious, active and useful Senators Oregon has ever had, few, if any, will deny. That his Senatorial career, thus far, has been marked by fewer acts subject to unfavorable criticism by his constituents than those of almost any of his contemporaries, it is but simple justice to say. In this age of public and private venality, charity is a necessity to the maintenance of the social organization, and we are not so savagely virtuous as to make Mr. Mitchell an exception to the general rule, in view of the fact that he is doing all in his power to atone for past delinquencies, and we are disposed to throw the mantle of charity over his past and judge and speak of his public acts for the future as of first intent, giving him full credit for the good he does and amenable to public criticism for his public acts. No friend of his ought to demand more, no enemy is justified in doing less.

There used to reside at Pacific City, W. T., a few men who have since become somewhat noted, such as Grant, now President of the United States, Sheridan, Ingalls, Hooker and Kelly, now in the U. S. Senate.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

CHICAGO, April 30.—The total losses at the great fire at Oshkosh are not known, but it is still estimated in the neighborhood of \$2,000,000. Two men were killed by falling walls, and so far as known these were the only fatal casualties. The safes of most of the business houses are still in the ruins and all insurance offices in the city having been destroyed, the amount of insurance is yet unknown.

Some two hundred families are said to be in need of assistance from the public, and the Common Council of Oshkosh last night appropriated \$2,000 for their relief.

There is a determination expressed among the business men who were burned out to rebuild immediately, though the blow to the town is a very severe one, especially as it is less than a year since two hundred buildings were burned there.

MILWAUKEE, April 30.—The Sentinel's Oshkosh special says that as yet nothing is definitely known of the losses of the insurance companies. Foremost among the losers stands the Home of New York, whose loss will probably reach \$100,000; Etna of Hartford, \$80,000; North America of Philadelphia, \$70,000. London and Liverpool & Globe \$60,000; and range from there to \$2,500. The loss is now estimated at \$2,500,000, with about \$950,000 insurance. The general feeling to-day among those interested is hopeful. The heavy merchants are willing and able to rebuild all of the business houses destroyed. Contracts have already been made for rebuilding. The surveyors are at work fixing the precise boundaries of lots and in many cases the debris is being removed. Shanties are being erected in all parts of the burnt District for temporary use.

The City Council last evening extended the fire limits a quarter of a mile in the direction from which danger always threatens.

The city is full of insurance adjusters and it is reported that one company has all its claims adjusted and its checks written for the amount of the loss. Comparative good order prevails. Hundreds of men now idle will be employed in moving the debris from the ruins in a few days.

The vaults of the banks were opened today and everything they contained was found in a remarkably good state of preservation.

The fire in the woods is still raging. Eight hundred acres have been burned over. The loss thus far is upwards of \$15,000. Harvey's mills and a number of dwellings are in imminent danger.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T., May 6, 1875.

There is 150 tons of freight on Yealer's wharf to be shipped by the Los Angeles to-morrow night.

Second hand Wheeler & Wilson sewing machine for sale at Mrs. Kelly's dressmaking shop.

MACHINERY.—The machinery for the new steamer building in Bell Town, arrived on the Los Angeles.

TO BE LAUNCHED.—The new steamer at Bell Town, belonging to Driggs & True, will, we are informed, be launched on Saturday next.

MARRIED.—In this city on the 3d inst., by Judge Webster, Mr. L. B. Parker, of Whidby Island, to Mrs. Quimby of Olympia.

COAL.—There is now lying at Yealer's wharf 14 tons of Talbot Coal which will be shipped to San Francisco on the Los Angeles for testing.

RACE.—The race on May-day of a single dash of a mile between Coal Mine Joe and Kitty Lyon was won by the former, beating the latter a few feet.

The Talbot Coal Company have commenced laying track at their mine from the bunkers to the river, a distance of some three thousand feet.

We are under obligations to the purser of the Los Angeles for files of late San Francisco papers. Also to Geo. Foster, the obliging wharfinger on Yealer's wharf for many favors.

WATER PIPES.—The steamer Admie arrived on Tuesday evening, towing a scow loaded with water pipes from Olympia, which will be shipped to San Francisco on the Los Angeles to-day.

Rev. J. R. Thompson, Pastor of the Presbyterian Church at Olympia, has left for a visit to his old home in Nova Scotia. A farewell reception was given him by Governor and Mrs. Ferry, who are members of the Episcopal Church.

The steamer Los Angeles will sail to-day for San Francisco with the following freight from Seattle: Potatoes, 64 tons; water pipes, 59 tons; oats, 45 tons; Talbot coal, 14 tons; sundries, 5 tons.

SPELLING ENTERTAINMENT.—There will be a spelling match at the M. E. (White) church on Tuesday evening, May 6th, at 7 1/2 o'clock. The lawyers, doctors, ministers, printers, teachers and citizens generally will take part.

Admission, single person, 25 cents; families of two or more, 50 cts.

In the notice of Mr. L. B. Parker's marriage yesterday, we were misinformed in regard to the gentleman who performed the ceremony. Instead of Judge Webster, it should have been Rev. Mr. Wirth. After the ceremony the happy couple and their friends adjourned to the Occidental Hotel, where a first-class supper was provided.

A DIFFERENCE.—The steamer Ajax sailed from San Francisco on Saturday, April 24, put into Port Orford for shelter, arriving at A-toria on Friday, the 30th, six days from San Francisco. The steamer Los Angeles sailed from San Francisco on Tuesday, April 27, arriving at Victoria May 1, four days from San Francisco, encountering the same gale and seeking no shelter.

FAIR AND FESTIVAL.—The ladies of St. Johns P. E. Church of Olympia, will give a Fair and Festival on Wednesday, May 19th. All are cordially invited to attend. Capt. Watt, of the steamer Favorite, have kindly consented to change the hour of leaving on that evening from 9 until 11, so friends from down the Sound will have an opportunity of making the trip, attending the Festival and returning the same day.

THEATRE.—The Fanny Morgan Phelps Dramatic Troupe are billed for a performance at Yealer's Hall this (Wednesday) evening, together with McDonald's Trained Indians, whose performances are represented by the Victoria papers as wonderfully interesting. Mrs. Phelps is a hard working and pains taking manager, and deserving liberal patronage from all lovers of the legitimate drama.

MISINFORMED.—Some time since, on the authority of a letter from Mr. Harrington to his partner, Mr. Crawford, we announced that Goodall, Nelson & Perkins had concluded to haul off their line of steamers between San Francisco and Puget Sound. It now appears that Mr. Harrington was misinformed. The steamship Los Angeles came into port on its advertised time, and Capt. Howell assures us that her owners, as far as he knows, have not the least idea of drawing off the vessel; on the contrary, they look forward to the time when it will be to their interest to increase the service.

A party of gentlemen went from Olympia last week to the newly discovered coal-fields on the head waters of the Fuyallup, and on last Thursday returned, after an absence of a week, sun-browned and tired with a rough trip. They bring back some very fine specimens of coal, some bituminous, and others that according to every test yet made on them give evidence of being anthracite. In a short time the exact truth will be learned from sources competent to decide. Anyhow, the mines are of vast extent and enormous value. Considerable numbers of claims have been located.—Courier.

SPELLING MATCH.

The spelling fever struck our town on Tuesday evening, the first match taking place at the M. E. Church at that time. Quite a number were present, and Judge Lewis was called to the chair. Our local, Ed. H. Brown and the city clerk, W. R. Andrews, were selected to act as Captains. After they had chosen their respective sides the contest began. Judge Lewis, who gave out the words, selected some easy ones in the back part of a spelling book and soon the ranks began to thin out. We retired on "paradigm." In a short time our side was all down, leaving two (Dr. Freeland and Mr. Andrews) on Mr. Andrews' side.

The same sides began again and words were selected from newspapers and magazines. After about half an hour of this, and no one down, the Judge decided to return to the spelling book, which was done with disastrous effect. Mr. Andrews' side again victor, Dr. Freeland being the champion.

The ladies and gentlemen were then ranged against each other and after about half an hour's hard work two remained on either side. Of the ladies, Mrs. T. S. Russell and Miss Nellie Terry; and of the gentlemen, Professor Young and Dr. Freeland. These four were undoubtedly the best spellers present. An exciting contest ensued which finally ended by Professor Young being declared the victor.

After a vote of thanks to Judge Lewis, the meeting adjourned to meet on Wednesday evening next at the same place. No admission fee will be charged and every one is invited.

THE EXCURSION.—On Saturday morning at 8 o'clock, in spite of the lowering aspect of the weather, the fine Steamer North Pacific, having on board about two hundred school children and other passengers, sailed for Steilacoom. The trip to that place was made in a little less than three hours. Upon arriving it looked so much like rain that they all went to Masonic Hall to await developments. They soon decided to proceed to the grounds and by twelve o'clock nearly every body was there. The picnic grounds are as fine as any in the Territory, being a large tract near the Insane Asylum, with all underbrush cleaned out, level as a floor, and well supplied with benches and tables. The Steilacoom people had furnished an abundant supply of provisions and a great deal of it was left. A great many of the excursionists visited the Insane Asylum, and were very hospitably received by the Superintendent, Hill Harmon Esq., who by the way, worked very hard to make the day a pleasant one for the Seattleites. Soon after three o'clock the grounds began to be deserted and by half past 3 they were all about the Steamer, which then started for home. Upon arriving and departing cannon was fired and all the flags in town saluted by dipping. Mr. Julius Dickens' Swedish flag was specially noticeable.

The crowning of the May Queen and other exercises did not take place on the grounds as intended, on account of the weather, but took place in the cabin of the steamer on the way back. Miss Katie Hall was the May Queen, and bore high rank with becoming dignity. The crowners were Miss Penfield and Miss Hyde.

At about seven o'clock the steamer reached Seattle and the crowd dispersed to their homes all well pleased with their May Day excursion to Steilacoom.

Great credit is due to Professor Hall, the getter up of the excursion and the people of Steilacoom, for their efforts to make the affair a success.

BUSINESS NOTICES

Health the source of Happiness.

The relaxation of the nervous system, which creates an indispotion to mental or bodily action, is of very frequent occurrence. It is found that a torpid liver, debilitated stomach or deranged bowels are the great causes. For years Dr. HENLEY'S CALIFORNIA VEGETABLE EXTRACT has been successfully used throughout the United States, as an unfailing restorative and health-giving medicine—restoring and invigorating those organs to their original strength. It has never failed to restore to health and invigorate the whole system. Dyspepsia, indigestion and loss of appetite, general debility, rheumatism, fever and ague, disappear with its use. As a medicine for diseases arising from impure or impoverished blood, it is without an equal. They are composed of an absolutely pure diffusive stimulant, medicated with the extracts and juices of the most effective tonic, and will prove a safeguard against the attacks of dyspepsia and liver complaint. Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

New York, April 27.—Thousands of spectators gathered at St. Patrick's Cathedral this morning to witness the conferring of the Berretta on Cardinal McClosky. There has been an enormous demand for tickets and numbers who had them found great difficulty in gaining an entrance through the crowd. The streets in the immediate neighborhood were blocked with human beings all anxious to get a chance of seeing the portals of the Church. The interest manifested was so great that representatives from every part of the Union were present. A number of front seats were reserved for invited guests, and among those seated there Chief Justice Daly, Judge Donohoe, Dist. Attorney Phelps, Hon. Thomas Murphy and many other well known citizens.

At 10 40 the head of the procession emerged from the vestry, the acolytes leading bearing the procession cross and tall tapers; then following long lines of clergy, who, after making genuflections before the high altar, passed down the centre aisle which was soon packed. When the surpliced priests had all taken their places, representatives of various religious orders in the diocese began to emerge from the vestry in their picturesque habits. When the procession had all been arranged in their proper places, there was an interval of ten minutes during which the Church was filled with music from the choir. The procession of prelates at length emerged from the vestry with slow and measured tread. As the magnificent spectacle began to unfold itself, the scene was one which New York will probably never again witness. Boys with picturesque habits and swinging censurs, and dignitaries in purple preceded the Bishops and Archbishops. The procession was closed by the celebrants of mass, Bishop Laughlin of Brooklyn, Rev. Dr. McGlinn, assistant, Rev. Father McGran, Deacon, and Father Keen, Sub Deacon, Cardinal McClosky and the Pappalava, Dubaldi, M. Gerosetti, and lastly the tall figure of Count Leurefoschi of the Pope's noble guard, in dazzling uniform.

Cardinal McClosky wearing his notch purple surplice and mitre, knelt at the Episcopal side of the altar. The Archbishop of Baltimore sat on his throne on the same side. The officiating Bishop and clergyman stood at the altar steps and mass was commenced. At Conteron the Cardinal stood up and proceeded to his throne on the Gospel side, he alone of all the prelates present having the pastoral staff, which was carried by an assistant officiating Bishop. After incensing the altar three times he sat down with the Deacon and Sub Deacon. Bishop Laughlin then read Iritri, recited Kyrie and intoned Gloria in Excelsis, which was afterwards sung by the choir. Collects were read by the celebrant and the Epistle by the Sub Deacon. While Bishop Laughlin read the Gospel the entire congregation rose to their feet. He then chanted the Ford Credo in Unum Deum and in a low voice recited the remainder of the Nicene Creed. When this was concluded, the celebrant together with the Assistant Deacon and Sub Deacon sat down until the choir had finished.

Bishop Laughlin returned to the altar where, after the customary Dominus Vobiscum and Oremus, he proceeded to read prayers at the Offertory. The Deacon and Sub Deacon then prepared the sacred vessels and bread and wine. Mercandantes quam Dilecta was sung during this period. The acolytes again advanced with censurs and the altar was incensed by the celebrant, the Bishops and Archbishops rising and removing their mitres, the priests and entire congregation rising also. At this time the Church was a level sea of heads from right to left, from the sanctuary to the door. The right, left and centre aisles were packed as full as they could hold with people who were glad to get standing room. When the bell tinkled to announce the opening of the Canon or solemn part of the ceremony, the people standing made an attempt to kneel, but were unable to do so as they were massed so tightly together, and the very unusual spectacle was witnessed of hundreds standing up during the consecration. Towards the end of mass was introduced the curious ceremony of giving the kiss of peace. It is not exactly a kiss, but an inclination of heads together while the hands rest on each other's arms. Pax was given from one to another until it passed along through the crowded sanctuary.

When mass was finished the interesting part of the ceremony commenced. Cardinal McClosky rose and knelt at the right hand side of the altar. The Archbishop of Baltimore stepped down from his throne and knelt at the epistle. The audience rose with perceptible excitement and some had the bad taste to crowd up among the clergymen on the sanctuary. M. Rosetti stood beside Archbishop Bayley and in a loud clear voice read a passage in Latin from Pius Papa to his venerable frater, the Archbishop of Baltimore, setting forth the reason which induced him to confer the Cardinalate on Archbishop McClosky, and at the close handed him the brief authorizing him to confer the Berretta on this newly elected prince of the Church. The Archbishop having replied in Latin, passed the brief over to Father McLean, Deacon of the mass, who then read it, Count Mansfocchi then surrendered the Berretta to M. Rosetti, who handed it to Archbishop Bay-

ley who then walked over to the Cardinal and placed the cap on his head, at the same time addressing him in Latin as "Eminentia tua." The Cardinal made a suitable reply, also in Latin, and, after intoning the Te Deum, proceeded to the vestry and put on the crimson robes of high office and returned to the altar while they sang the Te Deum. At the close of the hymn, the Cardinal gave the pontifical benediction, the ceremonies were ended and the vast congregation passed out of the Cathedral.

CHICAGO, April 27.—A Washington special says: The Evening Star says, editorially: "It is now said that the efforts to displace Secretary Delano arise from a combined movement on the part of Senator Mitchell of Oregon, Ben Holladay, Rufus Ingalls and others, who want him replaced by some one who will join them in securing to a corporation already formed and in which they are interested, the Black Hills country."

LONDON, April 27.—Paul Boynton makes another attempt to swim the English Channel. He will enter the water at Cape Grisneuse on the French coast and push for Dover. The day appointed is May 22nd.

Delegations of Indian Chiefs on their way to Washington are hourly expected at Cheyenne, where they will be taken in charge by Agent Saville, who will take them East. They are reported to express a strong desire to cede their interests in the Black Hills to the Government and it is reported that the Government contemplates the establishment of a military post at Harney's Peak, in case the country is thrown open to settlers.

CHICAGO, April 28.—A Washington special says: Agent Elliott, from Alaska, is here supervising the printing of his last report. This report will confirm the important positions which excited so much curiosity in the scientific world and which were violently assailed. Elliott maintains that for physiological reasons the seals will never leave Alaska, and will always be a source of revenue to the Government.

Another dispatch says: The principal subject of discussion at the Cabinet meeting today was the situation on the Mexican border. The official reports as to the raiding of parties were formally presented and considered. They consisted of the report received by the Postmaster General from the Postmasters who have been molested and of the reports of army officers. These documents substantiated most of the dispatches from the Mexican border. The Postmaster General showed that several of his officers have been killed.

The Secretary of State manifested some uneasiness at these raids. It is understood that the Mexican Government had disclaimed all responsibility for the incursions. It is evident that if these raids are to continue the border mail service will of necessity be discontinued.

No formal conclusion was reached, but it was generally understood that a note of protest would soon be prepared to be presented to the Mexican Government as a preliminary to the preparation of a formal note.

Mr. Sewell is arranging for the President all the correspondence of the Post Office department on this subject.

Department of Justice, Washington, D. C., April 22, 1875. The President. Sir:—I hereby resign the office of Attorney General of the United States, to take effect on the 15th proximo. I cannot dissolve our official relations without thanking you for the many acts of friendship and confidence with which you have honored me, and expressing for you personally my very high regard and esteem.

Very respectfully, George H. Williams, The President's reply: Executive Mansion, Washington, D. C., April 1875. Hon. Geo. H. Williams, Attorney General of the United States, Dear Sir:—In accepting your resignation of the office of Attorney General of the United States, to take effect the 15th of May, 1875, as tendered by your letter of 22nd April, allow me to express my appreciation of the ability, zeal and efficiency with which the trust confided to your charge has been performed. My sincere friendship accompanies you on the new field of life you have chosen, and the best wishes for your success.

The President having tendered the position of Attorney General to Judge Edward Pierpont of New York, that gentleman has accepted.

The Secretary of the Treasury in answer to an application from Portland, Oregon, for the free entry of a cargo of sugar from the Sandwich Islands, telegraphs to the effect that as the treaty recently completed between the Hawaiian Government and that of the United States has not yet been promulgated, such entry cannot at present be permitted, but that parties wishing to enter merchandise with the benefit of the treaty, may protect their rights in the premises by protest and appeal in the usual manner. It is known, however, that this treaty as ratified by the Senate provides that it shall not go into operation until the laws required to carry it into effect shall have been passed by the Congress of the United States. Appropriate action of the House of Representatives is expected next winter.

The fifty-sixth anniversary of the Odd Fellow's reunion to-day was celebrated by an excursion to Badger's park, Brooklyn. The public generally joined in the picnic and many thousands were present. The Oakland steamer, as late as 1 p. m., were crowded with excursionists. A band of music was in attendance. The customary police precautions were taken and everything passed off pleasantly.

The pardon is unconditional for all except deserters from Spanish forces, who will be required to serve in the vanguard of the army until the close of the war. The Liberals then returning to power are to make laws to suppress the publication of views unfavorable to the German ecclesiastical policy. The Liberals would introduce compulsory military service and establish new fortifications, consequently the Liberal Belgian papers support the latest demand of the German Cabinet, insisting on the overthrow of the clerical government. This means the Prussianizing of Belgium.

LONDON, April 28.—At a reception given to Chevalier, a celebrated French economist of Birmingham this evening, John Bright made some remarks on free trade, in the course of which he said it was ludicrous for the United States to invite foreign manufacturers to compete at an exhibition when the protective tariff prevented them from competing in American markets.

At a meeting of the Town Council of Kidderminster yesterday, the Secretary of the Carpet Manufacturer's Association, stated that carpet manufacturers throughout the Kingdom had decided not to send their products to the Philadelphia Exhibition because of the existence of a prohibitory tariff, and that a memorial to this effect would be forwarded to the British Minister at Washington.

NEW YORK, April 29.—The Times special from Germany reports that the Belgian Minister of Justice made an explicit statement that the Belgian Court is competent to take up proceedings against Duchesne and this statement has been transmitted to the Berlin Government.

TORONTO, April 29.—A fire at Bally Crox this morning destroyed Peter Small's Warehouse, two hotels and a number of other buildings. Bridget Burke, Mary Ann Fanning and Margaret Daly lost their lives.

HALIFAX, April 29.—Several vessels from Europe report seeing immense quantities of ice. Two of them were jammed in ice a number of days and much damaged.

CHICAGO, April 29.—A special from Oshkosh gives the following account of the fire there yesterday. It broke out in the sawmill of Morgan & Bros., on the North side of the river. The buildings were dry and filled with the most combustible materials, and in an incredibly short time were enveloped in flames. Neighboring piles of lumber caught fire and spread with lightning rapidity up Sawdust Avenue, sweeping everything before it. A dozen saw and shingle mills, with all the lumber piled around them, soon succumbed to the fury of the flames. The small frame residences of the operatives at the mills seemed served but to whet the appetite of the fiend. Families fled in blank dismay, surrendering everything. Firemen for a time fought bravely in the face of terrible odds, but were driven back, step by step. One after another of the business buildings on Main Street were licked up, from Alsoma to Cheap, where all of our principal dry goods stores, banks, hotels and newspaper offices, all went down before the resistless hurricane. Merchants had time to save but little. A few succeeded in carrying a few loads of most valuable wares away from the track of the fire, but by far the greater number lost all. Beckwith House and Adams House, two hotels of the finest capacity, finely furnished with all the modern improvements, were destroyed also in a twinkling. Nothing worth mentioning was saved. Newspaper and telegraphic offices shared the fate of the surrounding buildings. Of the Northwestern office, owned by Allen & Hicks, a daily paper, nothing was saved. The Times, a sprightly weekly, had also all the conveniences of a first class office.

Three men are reported killed, but so great is the confusion that it is impossible to ascertain their names. Rumors of further loss of life are prevalent about the street, but your correspondent cannot trace them to any reliable source. Quite a number, however, are seriously injured.

It is impossible at this hour to even estimate the losses. Over two thousand residences, one hundred stores, hotels, banks, the opera house, a valuable structure, costing nearly a hundred thousand dollars. A score of saw and shingle mills, besides an incalculable quantity of lumber are destroyed. The loss upon the whole can not fall short of two millions, while it may reach double that amount. The scenes in the city baffle description. Everything is confusion; hundreds of families are homeless and women and children are lying about the streets or coming around in search of places of shelter from the chilly night air. The heavens are lit up with the horrid glare of fire, which is yet burning fiercely within the limits to which it has been confined.

THE ABOVE INSTITUTION HAVING BEEN placed on a permanent footing, as the United States Hospital of Marine Patients on Puget Sound, the Proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients.

This is the largest General Hospital north of San Francisco, and by far the most complete in the West. It has been thoroughly refitted and refurnished. Its general wards have accommodations for about one hundred patients and are particularly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms, entirely separate and distinct, at a slight additional cost. The attention of Mill owners, and those interested in shipping, is called to the fact that seamen suffering from contagious diseases will be treated outside the Hospital without expense to the vessel.
