SUGGESTIVE ALLIANCE.—In Oregon there are three tickets in the field for State offices, and also in several of the counties for county offices. These are severally designated as Republican, Democratic and Reform. We notice that the most bitter warfare of the contest is carried on by the old party organs against the Reformers. There is no material difference in the platforms of principles put forth by the three parties, the main issue between the old parties being a contest for the spoils of office, which both hold "belong to the victor." They make common cause against the Reformers, who ostensibly seek to overthrow party domination and the corruption and abuses which have been fostered by the party system of division, and the use of the public treasury to reward partisan service. If these reforms prevail, it blasts the hopes of a large number of ambitious politicians in every community whose sole commendation is their devotion to party, and only chance for success is in packing primaries, manipulating conventions and compelling the popular vote through party drill. It ruins the vocations of the army of whippers-in, who are retained by the professional politicians to direct the rabble, and paid from the drippings of the public. Hence it is not strange that the party politicians of both parties should shake hands over the bloody chasm which has heretofore been represented to the populace as impassable, in common hostility to any organized measure looking to the reform of political systems. In Douglas county, Oregon, for the purpose of defeating the Reformers, the Republican and Democratic County Conventions met together, and by compromise and bargain made up a ticket for county officers composed of half Democrat and half Republican. The unprincipled character of such a bargain and sale arrangement to control the popular vote, is manifest, and yet it develops the controlling motive of the party politicians of both of the old party organizations—public spoils is the object and bargain and sale the means. The mass of the voters are but the instruments with which they operate, and party-drill and discipline the constraining force. The San Francisco Bulletin recently said: "Billy Carr ran the Democratic and Republican Conventions in this city twelve months ago, and we saw Federal officials instructed to vote the Democratic ticket." That was done under the guidance of monopoly influences, and resulted in securing a sufficient number of Democrats in the Legislature who were owned and controlled by the monopolists, to insure the defeat of any measure of reform demanded by the people. So it will ever be so long as the voters consent to be the subjects of caucus controlled by politicians who in turn are controlled by monopolists and corruptionists. The people can never be free until they assert and are prepared to maintain their independence of party despotism.

COMMEMORABLE ACTS.—President Grant has been credited with the remark that "the Republican party must begin to unload, or it will go under." Whether he made the remark or not, its pertinence cannot be questioned, and some of his recent acts manifest a determination to follow the suggestion, so far at least as his Administration is concerned. The most noticeable example in that direction is his veto of the speculators' bill for inflating the currency; a measure of the same character as the disreputable practice known as "watering stock," by gambling corporations, and much broader in its effects, disarranging the standards of value, to the serious detriment of the producing classes, and postponing for an indefinite period a return to specie redemption, to which the credit of the Government was pledged at the earliest day practicable. The merit of this veto is more apparent from the fact that the strongest and most zealous partisans of the President were among the most active supporters of the vetoed bill, and resent the veto as a personal wrong to themselves; while its chief opposers were among the Conservatives from whom he has the least to expect. In these days, a manifestly disinterested act of patriotism in a public functionary is one of those rare occurrences which cannot be too highly commended.

Another commendable act of the President is his course in the Arkansas embroglio. He maintained a strict neutrality between the contestants for the gubernatorial chair until his aid was invoked by the lawful authorities, in accordance with the prescribed forms of the constitution, and then only in a manner which will commend itself to the conservative and law-respecting portion of the country. We have seen so much in the present Administration which we could not approve, that it is a real satisfaction to us to note these acts which command our most hearty approval.

Mr. Moore, the photographer, has laid upon our table a beautiful stereoscopic view of the driving of the first pile on the Seattle and Walla Walla Railroad.

The unexpired term of Mr. Sumner, to which Gov. Washburn is elected, ends on the 4th of March next. The Legislature to be chosen next November will elect a Senator for the full succeeding term.

It is but three or four years since the system of narrow gauge railroads came into vogue. During that time no less than 1,445 miles have been built in this country and in Canada, which roads, when completed, will have a mileage of 4,562 miles, while there are 1,291 miles under construction.

DARING BURGLARY.—The office of McNaught & Leary was forcibly entered on Wednesday night, and a small safe conveyed away bodily. Deputy Sheriff Russell, as soon as he was informed of the burglary, started in pursuit, and soon found the safe upon the beach near Randolph's wharf, with a hole cut through the bottom sufficiently large to remove the contents. About one hundred dollars in money was taken, but as far as ascertained, no papers of value were carried away. The robbery was evidently effected by very strong men, but as yet no clue is found to the perpetrators.

RAILROAD PIC-NIC.—The turn out to work on the railroad grade on yesterday (Friday) was not as general as on the previous occasion, but the result was no less efficient and satisfactory. None of the business houses in town were closed; very few of our business men took any active part in the affair; but our mechanics, laboring men and small property-holders, together with many farmers from the country, responded to the call nobly, and full as much work, with a much smaller force, was accomplished as at the previous turn out. Nearly one mile of the track was cleared and graded, ready for the ties, through a forest of heavy timber, some of the trees being not less than five feet in diameter, which were removed root and branch from the track. Much credit is due to the ladies for the sumptuous dinner they prepared for all who came, and remaining on the ground all day and providing supper for the men after the labors of the day were over.

A COUNTER CRUSADE.—There is a counter crusade—a man's movement—up in Ionia County, and it is rumored that a similar is under discussion here. It is called the "calico movement," and is designed as a companion piece to temperance, a reciprocal pledge signing. The men form praying clubs and pray the women to abstain from the use of stimulants as a beverage, or extravagance of dress. They have drawn up a pledge which is strong and double, and to be signed by couples, one part by men and the other by women. The man's pledge binds them to abstain from the use of intoxicating liquors as a beverage. The women's pledge is to wear only their own hair, and to discard all counterfeits or substitutes for that appendage to the head, except in cases of baldness; to dress in plain material, cheaply, discarding jewelry, capans, bustles, corsets, stays, hoops, switches, chignons, etc. The obligation is mutual, violation by one party releases the other of each couple signing the pledge.—Grand Rapids, Mich., Engle.

A COMPARISON.—One of our subscribers who has lived twelve years in this country, removed to Michigan two or three years ago. He now writes that he has made the discovery that he lives too near the North Pole and sunrise. He is out of humor with Michigan weather. Following is his report for the nine days ending at the date of writing: Saturday, 4th of April, thermometer four degrees above zero in the morning. Sunday, snowed four inches; Monday, snow nearly all melted; Tuesday, cold; Wednesday, colder; Thursday, ditto; Friday, warm—think Spring has begun; Saturday, cold and windy; Sunday warm, but what Monday will be it is impossible to tell. He says as soon as he can sell his "traps" he is coming back here.—Russian River Flag, April 30.

If the Lima, Peru papers tell the truth there is an opera troupe in that city that threatens to drive all others from the stage. An Italian named Contrani has trained thirty-two parrots and parakeets to sing two of Bellini's operas "Norma," and "Sonambula," with a full chorus. The Italian accompanies the singers on the piano-harmonium. At the debut, when the contracts finished the allegro in the "Salutation," the enthusiasm was so great and the applause so deafening that the whole troupe took wing in affright and sought refuge in the scenery. It was full a quarter of an hour before the artists were tranquilized sufficiently to go on with the performance.

## MECHANICS RESTAURANT

A Great Barrington (Mass.) merchant found a box of parlor matches on the floor the other morning, which had been knocked off the shelf by a rat or mouse over night. On opening the box the discovery was made that by the concussion every match in the box had been lighted, and the wood of which they were made was charred and turned brown. Fortunately the box was so tight as to smother the fire, and no harm resulted. It was a narrow escape; and if a fire had taken place, its cause would have been a perpetual mystery.

SUCCESS AND FAILURE.—I confess, says Hilliard, that increasing years bring with them an increased respect for men who do not succeed in life, as those who are commonly used. Heaven is said to be a place for those who have not succeeded upon earth; and it is surely true celestial grace does not best thrive and bloom in the hot blaze of worldly prosperity. Ill success sometimes arises from a superabundance of qualities in themselves good—from a conscience too sensitive, a taste too fastidious, a self-forgetfulness too romantic, a modesty too retiring. I will not go so far as to say, with the poet, that "the world knows nothing of its greatest men," but there are forms of greatness or at least excellence, which "die and make no signs"; there are martyrs that miss the palm, but not the stake; heroes without the triumph.

Rev. Dr. Stratton, of the Methodist Church, has been talking temperance statistics on the largest scale. Clergymen cost \$12,000,000 yearly; criminals, \$40,000,000; lawyers, \$80,000,000; intoxicating drinks, \$700,000,000. The city of New York invests \$65,000,000 in manufactures, \$30,000,000 in seventy-one banks, and \$200,000,000 in the liquor business.

SARCASTIC COMMENT ON THE SPREAD OF CIVILIZATION.—There was not a little romance in the various motives which governed the original settlers of America. But the traveller of to-day abhors the process by which the north-west is made ready for civilization. An irate cosmopolitan, Captain Butler, gives this description of the process: Place on the river a steambot of the rudest construction; wherever the banks are of easy ascent build a drinking-house of rough logs; let the name of God be used only in blasphemy, and language be a medium for the conveyance of curses. Call a hill a bluff, a valley a gulch, a freely a lightning-bug, a man a cuss, three shanties a city. Let every man chew when he isn't smoking, and spit when he isn't asleep, and when a dozen men are killed it is literally no murder, and your new land will be thoroughly civilized.

## SHERIFF'S SALE.

WHEREAS, IN THE DISTRICT COURT for the 3d Judicial District of Washington Territory, holding terms at Seattle, in and for the County of King, Elmer and Strohman, Henry Hildicker on the 5th day of February, A. D. 1874, recovered a judgment against John Krumm, in an action in equity which said Henry Hildicker was plaintiff, and the said John Krumm was defendant for the sum of eight hundred and ninety-two dollars and twenty-five cents (\$892.25) in gold coin, with interest thereon at the rate of two per cent per month from date in the gold coin, together with costs taxed at seventy-four dollars and fifteen cents (\$74.15).

And whereas, in the Court aforesaid, on the 6th day of February, A. D. 1874, Michael McHugh recovered a judgment and decree against the said John Krumm in an action wherein the said John Krumm was Plaintiff and the said John Krumm was Defendant, for the sum of four hundred and forty-two dollars, gold coin, with interest thereon at the rate of one and one-half per cent per month from date in the gold coin, together with costs taxed at thirty-four dollars and five cents (\$34.05).

And whereas, on the 25th day of March, A. D. 1874, the said Court ordered, adjudged and decreed that all that certain tract of land, situated in the County of King and Territory of Washington, to wit: the North-east quarter (N. E. 1/4) of Section No. six (6) in township No. twenty-two (22), North Range five (5) East, containing one hundred and fifty-nine and eleven one hundredths (159 11/100) acres, be sold according to law by the Sheriff of King County, aforesaid, for and toward the satisfaction of the judgments of Henry Hildicker and Michael McHugh against the said John Krumm, and for and towards the payment of the amount of money secured to be paid by the mortgage of John Webster against the said John Krumm.

Now, therefore, by virtue of the above mentioned decrees, and in accordance with an order of sale in the words following, to wit: "and it is further ordered that the said tract of land, be sold in two separate parcels as follows: First, all of the above described tract of land, reserving and excepting the land from the sawmill and its appurtenances and the land on which they stand not exceeding in amount one acre of ground."

"Second: The said sawmill and its appurtenances and the land on which they stand, not exceeding in amount one acre of ground."

Now therefore, on Saturday, the 23rd day of May, A. D. 1874, at the hour of 10 o'clock, A. M., in front of the Court House, door in Seattle, King County, Washington Territory, I will sell to the highest bidder for cash the above described property or so much thereof as will satisfy the above mentioned judgments with costs, interest and accruing costs.

Dated at Seattle, King County, W. T. April 15, 1874.

## SNUG SALOON

JUST OPENED BY

Puget Sound Dispatch.

OFFICIAL PAPER OF THE CITY. Seattle, W. T., May 21 1874.

We are indebted to Capt. Parker, of the Alida, for the latest Portland papers received at this place.

The corner stone of a new Episcopal Church was laid in the upper town of Tacoma, on Monday last, by Bishop Morris, assisted by Rev. C. R. Bonnell.

Ripe Strawberries.—We were shown to-day, May 20, by Mr. John S. Anderson, a quantity of ripe strawberries, raised in his garden. They were the first we have seen this year.

The corner stone of the Hospital and Orphan Asylum of the Good Samaritan was laid at Portland on Thursday last, by Bishop Morris, assisted by Bishop Hills, of British Columbia.

Col. F. A. Bee came up from San Francisco on the last steamer, accompanied by experienced engineers, superintendents, and coal miners. They will commence work on the Tenino coal mines in a few days, and it is hoped this will be the inauguration of a great industry within our borders.—Olympia Courier.

WASHINGTON TEMPERANCE ALLIANCE.—This organization met at Olympia on Wednesday last, and elected the following officers for the ensuing year: President, Geo. F. Whitworth; Cor. Sec., W. H. Goddard; Rec. Sec., J. H. Munson; Asst. Mrs. Amelia Giddings; Treasurer, C. H. Hale; Chaplain, Rev. L. T. Woodward.

WORK ON THE RAILROAD.—About three hundred men have been at work on the Olympia-Tenino Railroad this past two days, and the grading is now completed to the farther edge of Bush Prairie. A force of about forty men has likewise been at work on the Tenino end, and have graded upwards of half a mile.—The progress thus far has been exceedingly encouraging. It is only necessary to "keep up the lick" another month to prepare the road-bed for the ties. The enterprise of our people elicits the profound admiration of other communities. The Walla Walla Statesman, in alluding to the subject, closes as follows: "If any place deserves a railroad, we think that in the face of this showing, Olympia is that community. The enterprise they have shown is highly commendable and worthy of imitation.—Standard, 16th.

TEMPERANCE TICKET.—The Temperance Alliance of Oregon have entered the field of party politics as a distinctive political organization; to what end we cannot imagine from the character of the ticket for State officers which they present, which is made up, with the exception of a new candidate for State Printer, of candidates upon the three other party tickets, without any apparent reference to the temperance principles or professions of the nominees, and is composed as follows: For Congress—T. W. Davenport (Independent); for Governor—J. C. Tolman, (Republican); for Secretary of State—S. F. Chadwick, (Democrat); for State Treasurer—D. G. Clark, (Republican); State Printer E. Turner, (Temperance); for Superintendent of Public Instruction—L. L. Rowland. How the object professedly aimed at is to be promoted by a separate political party which nominates a ticket composed almost exclusively of politicians expressly devoted to other political organizations and in no manner identified with the cause, is beyond our comprehension; but it is in character with the doings of many assemblages of professed reformers whose zeal greatly dominates their discretion.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

LITTLE ROCK, May 16.—A bill passed both houses of the Legislature to-day, providing for the assembling of a constitutional convention on the 14th of July, the election for members to be held June 30th. The House declared all its offices vacant, and elected new officers in place of those not appearing this session.

One of the Brooks members of the Legislature took his seat to-day. Arrangements are completed for disbanding all troops on both sides.—Brooks' men are already leaving for their homes.

The Secretary of State has regained possession of his office to-day, and the keys of the legislative chambers have been restored to the proper officers.

Boston, May 16.—The villages affected by the outbreak of the reservoir are Williamsburg, Haydensville, Leeds, and Florence. They are situated on Mill River, which runs into the Connecticut at Northampton and Williamsburg.—Mill river divides, and one branch, rising at Goshen, has two large reservoirs. There are two reservoirs on the branches rising at Conway. The reservoirs were considered substantially constructed, killful engineers having built them after the most approved modern methods. Much money was spent during the year in reconstruction. The oldest dam is 25-years old, and is situated on the Goshen branch. It has been carefully rebuilt within 2 years. The capital involved in the loss is \$5,000,000. Immediate population suffering must be

5,000. The population is almost wholly manufacturing. The heaviest loss will fall upon the estate of the late ex-Governor Hayden, who died recently. One of the mills was lately sold by the executors of his estate. Sunday had been appointed a memorial day in memory of the late ex-Governor.

Reports that Lt. Governor Talbot and wife were in Haydensville at the time are untrue. He left Dayton on Thursday for Northampton on business, but returned.

SPRINGFIELD, May 16.—A Northampton telegram estimates the loss of life by the flood at sixty.

Several persons were drowned at Leeds. A train has gone to Leeds with provisions. Selectmen Starkweather and Burr have organized twenty men at Leeds, and twenty at Northampton, to search for bodies in the course of the flood.

Fifteen bridges, twelve factories, and seventy-five buildings have gone, and five hundred people are homeless.

Boston, May 16.—A dispatch from the scene of the disaster to-day gives the following particulars. At Skimmersville, Hayden & Co.'s store and the Haydensville Savings Bank, with the safe, were swept away. The safe contained \$35,000.

At Leeds a terrible loss of life took place. At first no water appeared, but a running wall of drift wood 30 feet high and several hundred feet wide appeared, sweeping down the valley at the rate twenty miles an hour. A portion of Montague's silk factory was carried off with a brick boarding house and a large number of women and children were engulfed in the torrent. One chimney is left of the silk mill of Crutch and Warner. The mills and stores are all gone and only three houses are left standing. Only two houses are left in Skimmersville.

LONDON, May 16.—Nicholas, who is under arrest for stealing his mother's diamonds, is a son of Grand Duke Constantine, Russian Minister of Marine, and a Captain of Infantry. He is aged 24, and is the Czar's nephew. Mowbray Morris, for many years manager of the London Times is dead. Tosee, a celebrated French singer and actress, died recently at Paris from grief at the loss of her daughter.

PARIS, May 16.—The vote on the question of the propriety of discussion on the electoral bill was taken in the National Assembly this afternoon and resulted in the defeat of Government by 494 votes. The ministers thereupon tendered their resignations to President MacMahon.

HAYDENSVILLE, MASS., May 16.—The reservoir supplying the manufactures of Williamsburg and Haydensville broke this morning, swept down the hills and through those villages, almost completely destroying them. Whole houses and many factories were carried off; several tenement blocks were crushed and the inmates had not time to escape. Dead bodies are constantly arriving. 23 have been discovered. It is already intimated that 100 persons have perished.

Later the water is falling. The reservoir comprised 150 acres and had an average depth of 300 feet. It was drawn up in the day time to supply the mills at Williamsburg, Haydensville and Florence. The reservoir was constructed about 12 years ago. There was scarcely sufficient water for the various factories or mills. Mill river was one of the most uncertain streams, liable to floods and almost utter drought. Tanks had to be built by capitalists interested in various manufacturing enterprises on the stream. It caused them apprehension of the disaster several times last year. The reservoir was repaired at a heavy expense and was supposed to be perfectly secure, although it seemed leaky.

WASHINGTON, May 16.—Grant condemns the Senate Currency Bill as passed, and urges the House to amend it in such a manner that he can conscientiously sign it.

Grant has recognized James Laird as Vice Consul at Portland, Oregon.

SAN FRANCISCO, May 18.—Greenbacks 80% @ 90%.

The Japan brings date from Yokohama up to April 23rd: Yeto, leader of the Suga rebellion, was decapitated and his head exposed to public gaze.

It is reported that the expedition to Formosa will be diverted to Corea, with additional force.

The railroad is not quite completed between Osoka and Kobolot.

The Emperor expected to witness the formal opening May 1st.

R. B. Baker, manager of the Chartered Mercantile Bank, is dead.

A fire at Nitta destroyed 221 houses. Many of those who were burned out died of starvation.

One thousand troops went from the Capital on the Formosan expedition.

A fire at Gift destroyed 400 houses. Steamer Manchu, from Nagasaki for Shanghai, was lost. She struck a Japanese fishing boat near Cape Gotto, which was sunk, but picked up her crew of five persons, making a total of fifty besides the Europeans on the Manchu.

On the sixteenth of March the steamer encountered a heavy gale; coal bunkers gave way and the engine rooms were flooded, stopping the engines. The vessel was waterlogged on the seventeenth of March, and Mr. Crocker and Mr. Jones jumped overboard from the small boat and were lost. Captain Lowell with another boat rescued several Chinese and was picked up on the nineteenth of March by the German brig Otto. Captain Lowell, D. B. Spedding, J. H. Crocker, H. T. WASHINGTON, May 19.—The House Postal Committee have reported on the Pacific Mail subsidy. The report says that the only question which the Committee called upon to consider, is the simple one as to whether the contract has been complied with; and whether the non-compliance has worked a forfeiture of the rights of the Company, under the terms of the contract regarding the performance of said additional service by American built iron steamships of 4,000 tons register, to commence October 1st, 1873. They add that, interpreting the terms of the contract strictly, as they feel bound to do, they do not see how they can accept the declarations of the Company as to the cause of the delay in providing steamships, and they accordingly find that such failure actually works a forfeiture of the rights of the Company under said contract. The question of aid to American commerce, to which the testimony of John Roach was chiefly directed. The Postal Committee do not regard as legitimately before them. They refer to the testimony of Tremor W. Park and Mr. Scott as to the so-called "corruption fund" of \$60,000 and its alleged absorption by the agent to whom it was entrusted, and say that, admitting that the present management of the Company are entirely innocent in the matter, the fact remains that the old organization consented to set aside a fund for corrupt uses, and that if corrupt means were employed to secure an additional subsidy, Congress should not hesitate to declare said additional subsidy forfeited on any ground, either technical or real. The Committee concluded by recommending that existing appropriation of \$50,000 be converted into the Treasury, and that no further appropriation be made for additional service.

WASHINGTON, May 12.—The House Committee on Public Lands to-day, heard the argument of an Attorney of the Atlantic and Pacific Railroad Company in opposition to Page's bill for the restoration of its land grant to the public domain. The main point of his argument was to the effect that the question of the alleged failure of the Company to comply with the conditions of its charter relative to completion of its roads could not be raised, for the reason that the United States have not fulfilled their agreement to extinguish grants of Indian lands in the Indian Territory as fast as possible. The Committee have arranged to hear the argument of Page at an older meeting.

In the Senate Mitchell presented a petition from the citizens of Yarhill, Oregon, asking for the passage of an act granting aid in the construction of a Railroad line from Portland to Astoria and McMinnville, Oregon. It was referred to Committee on Public Lands.

NEW YORK, May 13.—A Panama letter gives an account of a horrible outrage perpetrated by Colonel Gonzales, Commandant of the port of San Juan de Gusamania, on the British Vice-Consul, John Magee. Gonzales summoned him to appear at his office, and on his declining to come, Gonzales had him brought by soldiers. The Colonel then abused him, beating him over the head with a pistol, and declared he should first receive 400 lashes and then be shot. Magee vainly invoked the protection of his flag, and the remonstrances of the American Consul agent, James, were likewise disregarded. The Pacific Mail Steamer Arizona arrived at noon, but Gonzales, seizing the telegraph office, planted two cannon to cover the Arizona, had his victim brought out and 200 blows with a ratan inflicted. Magee fainted and was returned to prison, with the promise that the rest of the sentence should be carried out in the morning.

Meantime, the news reached Salvador and a detachment of soldiers was sent to San Jose, reaching there just as Magee was stripped for torture, Gonzales ordered his soldiers to shoot Magee, but they refused. He fled to the Arizona, pursued by Gonzales, when unseen hands among the passengers fired a number of shots at the villain, three of which entered his body. His body was taken ashore, where he died soon afterwards.

The United States Minister at Salvador sent a dispatch ordering the detention of the steamer, but the captain, considering that the order was designed to keep the ship until the safety of foreign residents was assured, decided to disregard it and sailed for Panama, April 25.

The other interposed and objected, when shooting quickly followed. The weapon used was a short barreled six shooter. The ball took effect in the right side of the head of one of the company, just below the temple, and ranged downward. The name of the person shot is unknown.

The celebrated running horse Thad Stevens will be exhibited at Wilson's circus to-night, on the occasion of the benefit of Mr. Thompson, Treasurer of the establishment.

LITTLE ROCK, May 14.—The General Assembly, in joint convention this evening, received Baxter's message, which recites the position he holds. He thanks the legislature for their promptness in answering his call, states his conviction that the Court decision in the election case was illegal and arbitrary, and that the assembled legislature alone has power to make such a decision. He states that federal troops interfered in his attempts to preserve peace, alludes to the President's assurance of protection to the legislature, expresses the hope that, through the mediation of this body, peace will be restored; and urges the calling of a constitutional convention, to harmonize existing laws.

Also for deficiencies in the appropriations for collecting and subsisting the Apaches of Arizona and New Mexico during the past 2 years, \$523,000.

Under the Attorney General's opinion, the President is still awaiting the complete printing of the records of the Court Martial in General Howard's case, but is certain the Court was unanimous on all letters effecting his character as an officer and gentleman also. In commending his conduct as commissioner, his complete innocence is established.

LITTLE ROCK, May 15.—Presiding officers of both Houses of the Legislature to-day received the President's Proclamation recognizing Baxter as Governor of Arkansas. Many people thronged to Baxter's quarters during the day to congratulate him, and great rejoicing prevails in the city. Baxter to-day, issued general orders complimenting his soldiers for their bravery.

LONDON, May 15.—Czar and party reached Buckingham Palace to-day. Immense crowds lined the route of the procession from Paddington Station to the Palace. Czar, Prince of Wales, Grand Duke Alexes, and Duke of Edinburgh occupied one carriage, and Prince Arthur, Princess of Wales and Duchess of Edinburgh another. The latter was cheered vehemently because it had been understood lately that there existed a bitterness between her and the Prince of Wales in relation to the question of rank.

In the House of Commons to-day, Brooks, under Secretary for Foreign Department, stated that the Government of Guatemala offer an indemnity and reparation for the outrage committed upon Vice Consul Magee.

VERMILLES, May 15.—The hall of the National Assembly was crowded to-day in the anticipation of an exciting session. Ex-President Thiers occupied his seat as delegate. Duke De Broglie introduced his project for creating a second Chamber and read a ministerial report on the subject. The services of President MacMahon to the country were

warmly praised and the method of strengthening his hands pointed out. Appealing to members of Assembly, says you are unwilling to constitute a definite Republic. We do not ask you your conscience. We advise you to continue true to partisanship for some years, but you must give the President some means of protection and a ressource to trade and commerce. Re-assert proceeds to describe the new Chamber, which is to be called Grand Council; members to receive no salary. When De Broglie concluded there were renewed protests from the left, and a scene of wild excitement. The Bill was then read and referred to a Committee of thirty. No further business could be transacted on account of the confusion in the Chambers, and the sitting was adjourned.

Egyptian Bitters OF TREE OF LIFE.

Patented June, 1865, to Peter Poncin

THIS VALUABLE MEDICINE, IN USE for several years past in the Eastern States with marvellous success, has just been introduced in this place by the patentee. The first person who tried it here, offers the following testimony to its merits:

SEATTLE, August 19, 1873. I have been a sufferer for several years from chronic bilious affections from which no medicine tried by me afforded any relief. As an experiment, I tried Mr. Poncin's Egyptian Bitters from the effects of which I have experienced the most gratifying results. I can sincerely commend it to others similarly afflicted.
