Moral Reform and Public Economy.

There never was a time or place when and where the necessity of a free, independent and outspoken public journal was more manifest, than here and now, when the effort is being made to muzzle the press and reduce it to subordination to personal or party interests by the power of money and personal influence.

Two years ago, when we opened our columns to the vindication of public decency and morality, by assailing the strongholds of vice which had grown to wealth and power by public toleration during the early organization and unsettled condition of society, the people were astonished at our temerity; many who applauded the courage, doubted the discretion of the act, and feared to openly identify themselves with a measure which they believed would provoke retaliation.

The chief object of our assault was what was notoriously known all over the Sound as the "Mad House," a place devoted to licentiousness, and then one of the most prosperous and profitable business houses in this city. The proprietor of this infamous den of prostitution was by education and natural instincts far above such a disreputable business; his personal deportment was unexceptionable, his integrity in all business transactions outside of his vocation unimpeachable, and his public spirit and private generosity were proverbial; he had acquired considerable wealth which he contributed liberally to all public enterprises and associated him with business men of reputable character, and united with his personal qualities, had given him a standing and influence which blinded many to the nefarious character of his business, and while all decent persons regarded his house as the greatest curse and public nuisance, and greatly deplored its existence, none had before dared to declare open and exterminating war against it.

From the day we opened war upon that house its fortunes waned, though the columns of our cotemporary were opened to its defence, and many of our business men, who had become tolerant of vice by association, deprecated our assaults as tending to no practical good, and only calculated to drive business and money away from the place; while the radical reformers wanted to seize the opportunity of forming a local party on that issue and place all who were engaged in the lawful business of selling liquor in the same category. We listened to the counsels of neither, and, of course, lost the sympathy of both. But the work went on without the aid of either. Public sentiment was aroused to the enormity of the business and its fate was sealed. The proprietor, having become nearly bankrupt, finally offered a compromise by which he offered to abandon his unlawful and disreputable business upon the condition that the county would purchase two of his unoccupied lots for \$2,000. Though this was double the value of the lots, it was tacitly assented to by the people for the sake of getting rid of a public nuisance by amicable arrangement. Thus far, there was no demonstration of public opinion or complaint. The people of the county were only to be taxed a thousand dollars or so for suppressing a public nuisance in the city of Seattle which could have been removed at any time by the enforcement of the laws. But it now appears that that was not all of it. Mr. A. Mackintosh, a professional land grabber, appointed by the County Commissioners to procure a suitable location for the county buildings, entered into a conspiracy with the proprietor of the "Mad House" to defraud the county, by the sale to him of the county farm, worth not less than \$2,000, for \$1,000, in part payment for said lots. For this service, Mackintosh, while acting as agent and attorney of the county, was to receive one half of the said farm. We are authorized by Mr. H. L. Yeiser to say, that he has offered and is yet prepared to execute a deed of block 60, gratuitously, for county buildings; or he will sell to the county two lots on block 39, for \$1,000, and take the county farm at \$2,000, paying the county the balance of \$1,000 in gold coin. These lots are situated on Mill street, within three blocks of the Occidental Hotel, and in every respect more centrally and eligibly situated than those purchased at the instance of Mackintosh. The difference to the county in favor of this location would be \$2,000 in gold coin. This amount is added to the burdens of the people of the county and is taken directly from the pockets of the tax payers. Now Mr. Mackintosh makes himself conspicuous as a reformer, inveighs against high taxes and misappropriation of public funds, and tells the carrier of the DISPATCH not to leave that "rag" at his office any more; while true to his instincts, he steals from others the news for which we pay, not for our own advantage, but for the benefit of this community. He finds in our cotemporary a paper after his own

heart, which has no principles or opinions, but for a small consideration will open its columns to the defence of a squaw dance house, official peculation or a private land grab.

In our view, neutrality is not independence. A neutral paper is of no more use in promoting the public good than the neuter in propagating its kind. Independence incites opposition and provokes hostility; but so long as we publish a newspaper it shall express our opinions, free from the dictation of any other person, party, cabal or clique, holding ourself personally amenable to public censure for our words and acts.

No MORE MAILS.—We have word from Mr. Lowe, Express Messenger, that no more mails will be carried by Captain Starr, between Olympia and Victoria, until other arrangements are made by the Department. This cuts off from postal communication with the outer world, every post office and mail route on Puget Sound north of Tacoma, with no assuring prospect of a resumption for several months to come. No one has yet offered to carry this mail for the compensation heretofore allowed, and the Department is prohibited by act of Congress from paying any more. This is a calamity to our people more general if not more damaging than an embargo upon our commercial interchanges, and is the result of a mean and short-sighted policy which discriminates against the people of the Territories. The eight thousand dollars extra awarded to Ben. Holladay for the utterly useless service of carrying the Sitka mail from Portland instead of Port Townsend, would more than pay the advance demanded for carrying the mails on Puget Sound. Thus are the people of this Territory robbed of their dearest rights to reward politicians in Oregon. We have no vote.

A RUSTLER.—The grading of the first section of the Seattle and Walla Walla Railroad, now approaching completion, has been pushed forward with incredible rapidity, considering the number of hands employed, by the energy of Col. Thomas B. Morris, the Engineer. A Director remarked to us that Morris' superior personal energy was worth to the work not less than fifty cents a day to each hand. He leads the men in the work, taking an active part in the same, and imparting to all his own unflagging spirit. Such a leader is a host in himself, and has been the main stay in imparting to others his own undoubting confidence in the ultimate success of the enterprise, and commending it to the attention of foreign capitalists.

MORE "MAD HOUSES."—In reviving the subject of the old "Mad House" nuisance, which has lately been abated at such a great cost to the tax-payers of the county, our attention has been called to the fact that neither public decency or good morals in the city of Seattle have been promoted by the change.—The squaws turned out of the old resort, which was on the outskirts of the city, have taken refuge in the buildings belonging to Mr. F. M. Guley, on the corner of Washington and Second streets, near the business centre of the city, but one block from the Occidental Hotel, and the next corner east of our office on Washington street. These buildings are now chiefly occupied by Siawash and Chinese prostitutes, who may be seen at the open windows and upon the side-walks by all passers, plying their vocation in the most public manner. Is there no way by which such gross and lawless outrages upon public decency can be stopped? We can see no moral difference between the keepers of these dens of infamy and the man who harbors and encourages them by renting houses for such purposes; both alike derive revenue from an infamous traffic, though one may be a social pariah and the other surrounded by the odor of sanctity.

ARMY CHANGES.—We exceedingly regret to learn that Gen. Jeff. C. Davis, one of the best Indian pacificators in the army, has been superseded in the command of the Department of the Columbia, by Gen. O. O. Howard, the distinguished Peace General. In the present restless state of the Indians in this military department, if this change does not result in calamity to the white settlers as disastrous as the Modoc war, we shall have to thank Providence more than the policy that dictated the change. How many more innocent lives must be sacrificed to convince the Government of the impracticability of its sentimental and temporizing policy with blood-thirsty savages?

IN RELATION TO TAXES.

The City of Seattle does ordain as follows: That that portion of Ordinance No. 57 in reference to the date taxes become delinquent, be hereby amended to read: "Sec. 2. All taxes shall be due on the 20th day of June, A. D. 1874, and shall be paid to the City Treasurer, D. T. Wheeler, on or before the 21st day of July, A. D. 1874, or they shall be declared delinquent."

Mukeltee Correspondence.

MUKELTEE, July 10, 1874.

EDITOR DISPATCH.—I have not been guilty of enjoying much of a 4th, although I was at Lowell, where they had, I am told, a pleasant ball. I'm not on the dance or marry now, like I used to be. I've forgotten how to do both. It's nip and tuck with me and the tooth ache. I find the tooth ache painful, but economical. If one desires to ignore Christianity, I would advise him to cultivate the tooth ache. It unpleasant dreams are requisite to unhappiness, the tooth ache produces them. Tooth ache may be found and obtained from doctors and dentists in all incorporated cities. The rich, the poor, the mechanic, the professional men, even poor women may have the tooth ache upon equal terms, under the 14th amendment. It must be because they like it. If so, I beg to differ.

Logging on the Snohomish is not as brisk as it was. Haymaking is now all the go, and enough will be made, weather permitting, for all purposes next winter and summer. The crops of potatoes, cabbage, onions, beets, etc., look well, and there will be a surplus.

There are many land hunters cruising the country hunting homes; more than I have seen before. The impression is that the lands withdrawn for railroad purposes will revert back to Government soon. God grant it.

I am spending a few days at my little ranch, seventeen miles north of Seattle, improving it. I am now cutting a log road three-fourths of a mile. It is a much easier job than I expected. The grade has a declination towards the salt water of about 5 feet to the 100 yards average. I have not yet procured the other requisites to prove up on; that is, not all of them. I don't think I want the clootchman, anyway. I would be afraid that the ghost of some relative might visit me in anger.

Were you ever at Mukeltee? It is for sale now, and an invitation to capitalists is given. Frost & Fowler are determined to settle up their business, and I believe a good bargain can be had. Harvesting is going on now and the crop will average over three tons of hay to the acre. The garden is as good as I ever saw. It is a fine place to spend a day or so, trout or salmon fishing, hunting, clam digging, berrying, etc. One can find comfort here from the left wing of Democracy.

Some of Tull's fishermen have arrived, as well as seven tanks and a lot of barrels. They have one house built and are preparing to build more. I do not think the fishing business will pay here this year, unless extra well managed. Salmon have not begun to run yet. The winds are continuously from the north, and the bay, harbor, strait, or whatever it is, is rough for small boats, which, in my opinion, will make it bad for fishing a portion of the time. When the weather is calm, fishing will no doubt be good.

I hope to be in your city soon. Please notify the fleas and free lovers.

DEATH OF THE HOME-SICK SCOUT.—The Warm Spring Indian who became so homesick in San Francisco that he abandoned Donald McKay and the balance of his countrymen and returned to his reservation, was brutally murdered last by three Indians residing in that vicinity. The man's body was literally hacked to pieces with knives, but fortunately he lived long enough to give the names of his murderers, who have been arrested, and if they get their just deserts will suffer the extreme penalty of the law. The Warm Spring Indians who happened to be residing in the Dalles at the time become very much excited over the tragedy, and would doubtless have retaliated in kind had not better counsels prevailed. The lifeless remains of the scout were conveyed to the reservation of his friends and interred in the manner peculiar to his tribe.—Portland News.

A rag was requested by an old lady to read a newspaper for her. He took it up and read as follows: "Last night, yesterday morning, about two o'clock in the afternoon, before breakfast, a hungry boy about forty years bought a big custard for a levy, threw it into a brick wall nine feet thick, and jumping over it, broke his right ankle above the left knee, fell into a dry mill pond and was drowned. About thirty years after that, on the same day, an old cat had nine turkey gobblers, a high wind blew Yankee Doodle on a frying pan, and killed an old cow and two dead pigs at Boston, where a deaf and dumb man was talking to his Aunt Peter." Where upon the old lady, taking a long breath, exclaimed "Du tell!"

A STUDY FOR BETT HART.—Passing over one of the elevations, my companion pointed out on our left a narrow valley, through which ran a sluggish stream among the thick willow-brush. "That is a place," said he, "I never shall forget, for there it was we fit the Indians in the biggest kind of a fight. They ambushed us in them willows. Every shot of 'em told on some of us, and we couldn't get at 'em, they were slost away so close in the bush. We lost 20 men, but we finally drove 'em. I tell you 'twas worse than fighting with bars! Just as the scurrmage was about over, poor Gus Mellish was shot down close by me. I knowed Gus well. We'd been partners in California. He was one of the best fellers I ever knowed, and we was always gettin' sells on one another. But Gus got the heaviest thing on me when he died! As soon as he was shot, I see he was a goner. I helped him up on the bank, and eased him off as I could, sayin' over all the Bible I knowed, and promisn' to give his watch and his gun to his folks. 'But Gus wanted me to agree to send him to Frisco, where his folks lived. So I promisned, and he died happy. Well, I buried him on the spot temporary. Three years after, when I cal'ated he was about eat up, I went for his bones. Now, what do you think Gus had been and gone and done? Why, as he was buried in alkali, he'd gone and turned himself into solid stone, and then he expected me to pay freight on him all the way to Frisco! I did it, though, but that was the last load Gus ever got on me!" When Jeff had concluded this touching reminiscence of his departed friend, he stopped his horse and took a drink to his memory.

A young, unmarried clergyman in Rockport, N.Y., in conversation, said that young ladies nowadays can make rich cake, but they cannot make good bread. A few days after making the remark the divine received fourteen loaves of such white and puffy bread, with the compliments of fourteen young ladies of his congregation.

The Rochester Express is responsible for this: "A married man hearing that the eating of certain kinds of animal food would aid the same tissues of the human body, as, for instance, calves' brains would nourish the ester's brain, or beef's liver the enter's liver, immediately gave strict orders at his family market that no more tongue of any kind should be sold to his wife or mother-in-law."

Macintosh's Manifesto.

Mr. Angus Mackintosh appears in the Intelligence of the 18th inst. with a manifesto ostensibly in explanation of his connection with the purchase of the "Mad House" lots and the sale of the county farm...

Macintosh says, first: "It is false that I was employed by the County Commissioners to select and purchase for them a site for the Court House, but was appointed a committee at the February term of the Commissioner's Court to receive proposals for the sale to himself of a portion of the county farm."

He says that it is false that he "selected two lots owned by Pinnell, and occupies much space in trying to cast the onus of that transaction upon Mr. John Leary, Attorney for Pinnell. The truth is, that Mr. Leary did precisely what any other Attorney would have done for a client. He drew up the application of Pinnell for the sale of his lots to the county, signed Pinnell's name to it and his own name as Attorney, addressed it to Mr. Mackintosh, who presented it to the Board. That is all the connection Mr. Leary had with the transaction; and when he learned the astounding fact that Pinnell had got the county farm for one half the price of his lots, he asked Pinnell how he got the farm so cheap, and he replied that he had to divide it with Mackintosh. Mackintosh confirms this statement in his own explanation. He says: "I had no conversation with Pinnell until after the Commissioners had accepted the proposition, and was directed by the Commissioners to see him, and ascertain what arrangements could be made with him about the \$1,000 to be paid, and if he would take the farm for the other \$1,000, and LEAVE THE STONE QUARRY TO THE COUNTY." The agreement was consummated by Mackintosh, who says it is false that he was employed by the County Commissioners; the deed was made to Pinnell for the entire farm, and he decided that portion containing the stone quarry, which the Commissioners directed Mackintosh to have reserved to the county, directly to Mackintosh himself. Of course there was no "secret understanding with Pinnell" the understanding by which a portion of the farm reserved to the county should revert to Mackintosh, must have been with the Chairman of the Board and the Auditor, who were privy to the transaction, and volunteer their endorsement of the truth of the statements made by Mackintosh.

It matters not to the public by what receipt means this transaction was consummated; it is manifest to all that the county has suffered a great loss, and the agents of the wrong stand confessed. Let them bear the consequences of their folly, or, as the case may be...

"Scor-My Paper."—There are persons in every community who think that when they subscribe for a newspaper they become part proprietor of the

editor, putting him under special obligation to themselves, not to express any opinions or sentiments counter to their own, whatever the public interests may require. Such persons belong to the same class as those who would repress differences of belief upon moral and religious questions by the strong arm of the law, and think they were doing God service thereby; or put down by force the expression of adverse political views and ascribe their zeal to their own superior patriotism.

During the past week we have had a touch of the quality of such dictatorial patrons, in several orders to "Stop my paper!" This order comes from D. Horton, "The Bank," A. Mackintosh, S. P. Andrews, F. M. Guye and George E. Keading—two bankers, a real estate broker, an office-holder, a landlord who rents buildings for disreputable purposes, and a tenant who keeps a resort for Indian and Chinese prostitutes—Church members, temperance men and a saloon keeper, making common cause against the paper for the same offence—defending the public interests against their personal designs.

The causes for these several stoppages are as follows: 1st. Mr. Horton and Mr. Mackintosh had purchased at public sale a block lying in front of the University grounds, through which an alley leading directly to the front of the University had been reserved and kept open for more than ten years, for the special use of the University. "For their great convenience," the purchasers asked the citizens of Seattle to vacate that alley by popular vote, and allow the land, worth not less than five hundred dollars, to revert to them without compensation. As the editor of a public journal, and as a Regent of the University, the double duty imperatively devolved upon us to oppose a measure the sole purpose of which was to despoil the University of a vested right for the exclusive benefit of wealthy land owners. We did our duty regardless of personal consequences, were sustained by the people with rare unanimity, and are very confident that Mr. Horton would have applauded our course had not his own interests been involved in the question. For that reason, and for no other, he gave the order: "Stop my paper and the paper sent to the Bank."

2d. We had occasion to speak in terms of disapproval of a transaction, in the purchase of lots and the sale of the county farm, by which we showed by logical deduction that the county lost not less than \$2,000; that is, that the Commissioners gave the county farm and \$1,000 in gold coin for two lots, making a difference to the county of \$2,000, to be drawn directly from the pockets of the tax payers; and Mackintosh, while acting as agent of the Commissioners, came out in this transaction with a deed to a valuable portion of the county farm and the endorsement of the Chairman of the Board and the County Auditor. For stating these facts, entirely free from malice or personal feeling, Messrs. Andrews and Mackintosh each gave the peremptory order: "Stop my paper!" The latter with vituperative epithets applied to the paper.

3d. After the county had been called upon to pay so dearly for the suppression of the "squaw nuisance," which had been the scandal and disgrace of the town for years, we felt called upon to publicly protest against a resumption of the infamous traffic in the very heart of the city. For this Mr. Guye, the owner, and Mr. Keading, the keeper of one of the squaw resorts, say: "Stop my paper!" Messrs. Horton, Mackintosh, Pinnell, Andrews, Keading and Guye, all unite in declaring that an independent press, devoted solely to public interests, shall not be sustained in this town by their aid or consent.

Some of these men put their opposition on the ground that we opposed the "People's" movement in the late city election. That is not true. We gave it our full endorsement as a people's movement; commended the committee appointed to make nominations, and only protested against the use of the organization for the promotion of personal and private ends. We had nothing to say of, and nothing to do with the other party, except to do such advertising and printing as was ordered and paid for; never had attended one of their meetings or seen the inside of their hall, and had uniformly told those of them with whom we conversed that we were opposed to their organization. This they all understood, and generally respected the independence of the paper.

For the six subscribers lost, ten have been added to our list. Those who stopped to punish us, only punish themselves, by resorting to the meanness of getting their daily telegraphic news at the expense of others. We are sorry that they have no more self-respect or public spirit.

WISCONSIN RAILROAD LAW.—The U. S. Circuit Court, sitting at Madison, Wisconsin, gave a decision sustaining the constitutionality of the law of that State regulating fares and freights upon railroads, and fully affirming the right of States to prescribe the tariff to all railroads existing and operating under State charter. This decision gave great satisfaction to the Grangers in the Northwest, who celebrated the event by firing of cannon and other joyful demonstrations. The N. Y. Times says: "The unanimity and promptness with which the decision has been rendered in this case, suggests the great probability of its being sustained by the Supreme Court of the United States. An issue is thus raised of vital importance, not only to railroad corporations, but also to the country at large. A remark made by a local banker, and quoted in the Times of yesterday, puts one view of the case tersely, as follows: 'The result of the decision will be to place every railroad in the West—and for that matter in the East—in the hands of legislative "strikers."'

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

DETROIT, July 18.—An accident occurred near Ionia on the Detroit and Milwaukee road. A loaded gravel train was backing up, when a burning tree fell across the end of a flat car, throwing nearly the whole train from the track. Six men were killed, one has since died, and 14 or 15 more are seriously injured.

CHICAGO, July 18.—Col. R. Drin, Gen. Sheridan's chief of staff, to-day received the following telegram:

"Bradley telegraphed at 9 45 P. M. last night that a messenger was just in from the Seminole Mine, 35 miles north, for help. There are 25 miners there who have been fighting Indians for two days. Some of the miners were killed. It is reported that there are 200 or 300 Indians there. I have ordered a company of cavalry at once from Russell to Steele, and have instructed Bradley to do the best he can, in the meantime, with his infantry."

Signed, E. O. C. Ord, Brig. Gen. The following noted trotting horses arrived to-day and were stabled at Dexter Park, to be in readiness to participate in the races there next week: Goldsmith Maid, Milac, Etta Wright, Judge Fullerton and James Hawley Jr.

BOSTON, July 18.—Young Potter has been in prison since April last for torturing and murdering a boy. To-day workmen found in the cellar of the house where his mother resided at that time, the remains of a little girl who had been missing four months. Intense excitement prevails and the police have arrested his mother and brother to prevent their being lynched. The remains were found in a decomposed state, and were buried under piles of ashes and rubbish.

PANAMA, July 18.—There is a complete crisis in the ministry. Duke de Broglie has been seeking to constitute a cabinet based on the old majority in the Assembly, but it is said he has failed, and Duke deCazes has since been entrusted with the task.

BOSTON, July 19.—The body of Kate Curran, found yesterday, is mutilated with a knife in much the same manner as that of the boy killed, for whose murder Pomeroy is held.

BUFFALO, July 19.—Milford & Cushing's packing slaughter house burned this afternoon. Loss, \$30,000.

OLD ORCHARD BEACH, July 19.—The Boston and Maine house was burned to-night. Loss \$16,000.

ST. JOHN, July 18.—The Dominion Board of trade met to-day and received the American delegates with applause, tendering them the privilege of the floor. The question of the reciprocity treaty was discussed. Mr. Trout, of Toronto, moved a resolution reaffirming the favorable attitude of the board toward the treaty, and setting forth its convenience and the desirability of interchange of Canadian barley and American corn and other commodities, was most advantageous to both countries. Mr. Elder, of St. John, proposed amendments that while the document known as the draft of the reciprocity treaty contains many excellent provisions, it is nevertheless defective in the privileges secured to Canada, which are much less valuable than those secured the U.S. and that this board take measures to represent to the Government of Canada the unfair aspects of the treaty. No argument was needed to show that it was devoid of reciprocity. He argued that the Atlantic Coast may be made reciprocal, and the Bay Verte canal be built and Americans admitted to it on equal terms.

Coroner's Jury, in the case of Wm. McCormick who died of hydrophobia, closed their examination. They regard hydrophobia as an inoculated disease not transmissible from any rabid animal. They recommended erasure of the part bitten whenever practicable, and immediately after a bite is received that the wound be allowed to bleed a few minutes and then cauterized with nitrate of silver, nitric acid, caustic, potash or hot iron or burning coal. In case a physician is not present to excise wound a cord should be tied above it, and providing the mouth has no excretion, the wound should be sucked and caustic applied as soon as possible.

CHICAGO, July 18.—Nathan Isaacson was arrested yesterday on the charge of firing the building which originated the fire on Tuesday night. The examination elicited testimony that he had offered one Wolfson one hundred dollars to burn the building, then attempted it himself, and finally boasted that he would have better success next time.

The case was postponed till Wednesday. At the Common Council yesterday resolutions were adopted looking to the speedy reorganization of the Fire Department, the removal of inflammable buildings, additional conductors, and a corps of sappers and miners, to remove or destroy buildings in case of fire.

The Chicago Board of Underwriters adopted resolutions similar in tenor and intimate a belief that their principals would withdraw the assistance of the companies, unless such means of checking fires were adopted, together with additional high power steam engines to reach the loftier buildings, and the construction of fire walls or some barriers to configurations of the nature recently experienced here.

CANABERGA, N. Y., July 18.—The Eastward bound and Westward bound trains on the Erie Railroad collided this morning at nine o'clock, on a single track one mile East of here, while running fifteen or twenty miles an hour.—The Eastward bound train's engine

The engines are total wrecks. The Westward baggage was destroyed and the mails soaked.—It is stated that the Eastward train had the right to the track. The collision occurred at a short curve and the crash of the engine was the first intimation the passengers had.

M. Boidette Minister of Finance. He further stated that the cabinet as now organized had not sufficient time to agree upon a policy, and moved a postponement of the constitutional debate until Thursday.—Agreed to.

The new Ministerial appointments are considered a blow to the Bonapartists, who are now without representatives in the cabinet. In the Assembly next Thursday Chagnari will move a further postponement of the debate on the constitutional bills until January, 1875. On this question the Ministry will remain neutral and the left will oppose the motion. The disorganization of the right is increasing.

Hence they are doing their utmost to crush the Cuban rebellion, success of which insures emancipation.

At half past twelve morning he left Dr. Storrs' residence, accompanied by his friend Frank Moulton. A score of eager reporters gathered around Tilton as he emerged from the residence of Dr. Storrs, and eagerly inquired for news. He said, "I have nothing to say except that I have made in my statement, and think it unanswerable." In reply to a question as to whether his statement could be obtained, he said that the committee had agreed that nothing should be made public as yet. He then rode off with Moulton. Committee refused in a most decided manner to give any information, whatever. They said Mr. Tilton's statement had been made, but that there were other witnesses to be heard from and that the time had not yet arrived to give anything to the public.

Care should be taken not to strike the innocent and friendly Indians who are near the agency and have taken no part in the recent forays.—Measures should be immediately taken to keep in all friendly Indians from the others, and permission should be offered others who are friendly and have not had an opportunity to join them, to come in; and that all who persist in hostilities should be pursued and punished. The Secretary of the Interior will be immediately informed of these instructions and a copy of the letter of the Secretary of the Interior will be sent to you as soon as copied, for transmission to Gen. Sheridan.

(Signed) WM. BELKNAP, Secretary of War.

NEW YORK, July 21.—The case of the boy-murderer Pomeroy, at Boston, is again brought into prominence by yesterday's confession of the murder of Katy Curran. The lad, now 14 years old, was convicted two years ago of maiming some of his comrades in a shocking manner. He was sent to the State reform school, and was eventually pardoned on. In March last one of his little comrades named Millan disappeared, and was found in a marsh mutilated in the manner previously adopted by Pomeroy. The circumstances of the case all pointed to Pomeroy as the probable murderer. He was arrested and made a confession which he has since denied, but was put on trial.—About the same time Katy Curran, a child 10 years old, mysteriously disappeared. All search was unavailing, but last Saturday the mangled remains were found concealed in the cellar of the house formerly occupied by Pomeroy.

EXCLUSIVELY TO THE DAILY DISPATCH.

CHICAGO, July 14.—Fire limits on the south are 518 State street near Harrison on Wabash Avenue, 475 just south of Eldridge Court on Third Avenue, 253 between Peck Court and Twelfth street. On the corner of Peck Court and Wabash Avenue is the only point where the firemen are operating. The fire broke out in a paint manufacturing shop on the corner of Twelfth and Clark sts., where the workmen were mixing materials which exploded and caused the conflagration. On the South the fire reached nearly to Jackson street and within one block of the Palmer House. The St. James is the last house burned on State street. In the destruction and removal of goods and furniture are, in all probabilities, as great as the actual loss of the buildings and property destroyed. Up to half past eight o'clock, for it takes but a moderate sized fire now-a-days to set Chicago people to clearing out their goods and chattels, about every store along Wabash Avenue and State street and as far north as Munroe was removing its goods, or the most valuable part thereof, to a place of safety and the dwelling houses in an apparent line of the fire were not slow in following the same instincts of self-preservation, by the removal of everything from cellar to garret. The destruction entailed by this speedy exodus will never appear among the losses sustained by insurance companies. Hundreds and hundreds of families have lost their all and have been rendered homeless and homeless. The good sufferer with the had on many occasions, so it is in this instance, the had have suffered with the good and probably that section of the city would not have so been purified of its slums so effectually and thoroughly in the next fifty years to come as it has this evening in a space of 3 hours, so on the whole, Chicago has not only had another big conflagration, but a great purification as well, and it will in the end be much better for it, by securing in the district burned wider streets and substantial buildings compared with those lost.

SAN FRANCISCO, July 15.—It is stated that the Firemen's Fund Insurance Co., of this city, is the only local company having risks in Chicago, but their loss will be slight, as very few risks had been taken on property within the burnt district. Greenbacks unchanged from yesterday's quotations.

SAN FRANCISCO, July 15.—In the Debecher-Tilton investigation Mrs. Tilton gives evidence contradictory of Tilton's version of her testimony before the committee. Her appearance before the committee was effected by personal charge of Beecher's. It is positively stated that Beecher is making overtures to restrain Tilton from his determined course, but Tilton shows no signs of yielding.

NEW YORK, July 15.—Mr. Jewell says that his acceptance of the Presidency of the Erie R. R. was decided on the favorable report of English experts. He did not doubt that the report would correct many errors, which he would try to retrieve in the future management. He hoped that his administration would prove satisfactory to the stock holders and that his reputation as a railroad man would not suffer therefrom. He would make himself fully cognizant of all the workings of the road.

CHICAGO, July 15.—A special gives an account of a most disastrous fire at Iowa Falls yesterday, which started about 3 p. m. and destroyed the whole business portion of the town. Loss, \$100,000.—A gale of wind furthered the progress of the fire. Forty-five buildings burned. The fire was controlled about sunset.

The exact limits of the Chicago fire are as follows: On Clark St., where it originated, from near 14th St. about a block north; on Fourth Avenue from near Taylor St. to Harrison St.; on Third Avenue from near Peck Court to Harrison St., on the west side, and one block further on the east side; on State St., from 500, near Harmon Court, to 310, near Congress St., on the west side; on Wabash Avenue, from 942, near Peck Court; to 267, near the corner of Van Buren, on the west side, and to 294, on the east side. Michigan Avenue is burned about one block, lying mostly between VanBuren and Harrison.

SAN FRANCISCO, July 15.—Jonathan J. Warner, of Los Angeles, has been appointed register in bankruptcy for the fourth Congressional District of California.

CHICAGO, July 15.—At 12 10 o'clock, the wind being Westerly, the fire was confined to very near Van Buren St., on the north side. Gilbert & Sampson's furniture warehouse on Wabash, running through to State St., was on fire, but with a prospect of subduing it. Gardiner House, before mentioned as being burned, should have been Michigan Avenue Hotel, which is situated on the corner of Congress St. Gardiner House is safe, as are also some half a dozen large stores on the East side of Wabash Avenue, south of VanBuren St. The building occupied by the Shureman & Hand Marble Co., on the corner of Mich. Avenue and VanBuren Sts., occupied in the upper stories by the Art Gallery, is intact, although buildings to the north and south of it succumbed to the flames. Although some of the buildings destroyed are north of that, there being only the Lake to the east of the hottest fire, with the wind tending rather toward it, has done a large share toward making our losses lighter than

would otherwise have been the case.—The fire now appears to be principally confined to Michigan Avenue Hotel, and when that is finally burned down there will be little else but ruins to mark the course of the night's destruction. The loss is roughly estimated at \$8,000,000.

MILWAUKEE, July 15.—Fire occurred on Main St., near the Deekwith House, and proceeded northward on Main St. for half a mile, then westward to the Lake. The buildings destroyed are mostly dwelling houses, with some stores and factories. Loss estimated at \$1,500,000.

TORONTO, July 15.—The yacht Foam, of 5 tons, left Toronto on Saturday evening with 8 persons on board, for a trip to Niagara, and has not been heard of since.

MADRID, July 15.—A crisis in the ministry is reported as impending. Gen. Serralbo and Camacho, the Minister of Finance, will probably retire. The former is said to be ill. In case Gen. Serralbo resigns, Gen. Moriones will probably be appointed his successor in command of the army of the North.

SANTO DOMINGO, July 15.—The Commandant at Bilboa has asked for reinforcements, which were sent hence to-day. The blockade of Bilboa by land is complete and stringently maintained by Carlists.

MADRID, July 15.—Gen. Moriones reports that Bilboa is no immediate danger.

LONDON, July 15.—In the House of Commons to-day, the public worship regulation bill passed to its second reading, without division. A serious break occurred in a canal near Glasgow to-day, causing damage to property the amount of half a million dollars.

LONDON, July 16.—The various accounts agree that Bismarck's escape was miraculous—his hand touching his hat when wounded. His coachman, fearing a second shot, struck the assassin across the face. Police have been sent to Hissegen to protect Bismarck from a repetition of the attack.

SAN FRANCISCO, July 16.—Negotiations are pending with parties in London to determine the destination of the steamer Tartar, of the Australian line. It is not known yet whether she will be sent to China or Australia.

Weather very cold and foggy to-day. Greenbacks, 91@91 1/2.

NEW YORK, July 15.—The rally in the stock market at the close of to-day was chiefly in sympathy with a rise in the Pacific Mail 6 1/2, and in Panama 110 1/2, which stocks advanced on a rumor that the Pacific Mail Co. had leased the Panama railroad. The facts of the case are as follows: The Directors of both companies have been talking over the subject for months and a committee appointed by the joint meeting of the Directors on Tuesday, have the matter in charge. The plan proposed is for the Pacific Mail Company to make arrangements of some kind to operate on the Panama Road, as neither company can lease to the other according to their charters. Besides this arrangement, it is proposed that the Pacific Mail Company relay the Panama road with steel rails, as the old iron rails are worn out pay interest on the Panama company's bonded debt, provide for a sinking fund, pay 12 per cent. per annum for Panama stock holders in quarterly installments, and after this give the Panama Co. half the net earnings. This plan will probably be adopted. P. M. S. Co. have contracted for the construction of a new steamer.

LITTLE ROCK, July 16.—Deputy Sheriff Kline was shot to-day and mortally wounded by an assassin in ambush. It is believed to be for having officiated at the execution of Sid. Wallace at Clarksville last spring. His friends then swore vengeance on all connected with the affair. A cousin named Robinson has been arrested charged with the deed.

EAST SAGINAW, Mich., July 16.—A race was run at Saginaw Driving Park to-day for a purse of \$5,000, \$3,500 to the winner, \$1,500 to second and \$1,000 to the horse that beat the best time on record. Goldsmith Maid won the first money in three straight heats making remarkable time of 2:10 1/2, 1:16 1/2 and 2:16. The only contestant was Judge Fullerton. Goldsmith Maid broke once in the first heat, but still won by a length. She won the second heat by two, and the third by four lengths. Fullerton's time was 2:20 1/2, 2:18 and 2:18 1/2.

CHICAGO, July 16.—Summary of the results of Tuesday's fire as far as they can be obtained, the Assessor's estimate puts the total loss of property at \$5,000,000, but he adds that owing to the cheapness of labor and material it could be replaced for \$3,000,000, which is nearer probably to the value. The total amount at risk in the burnt district was \$2,727,290. Estimated salvage \$492,320. Loss to Insurance Companies is \$2,244,970. Seven persons are known to have perished. Many new buildings are already planned and some work is commenced.

PHILADELPHIA, July 16.—Register Mason and Counsel for the creditors of Jay Cooke & Co., to-day, commenced an examination of their affairs. Jay Cooke referred the Court to the Company's books for most of the information desired. M. Falmestock, senior partner, said the insolvency of the firm was due to advances made and the inability to raise funds to meet the demands of September 18. The chief cause was advances made to the Northern Pacific R. R., by advice of Cooke. No proposition was ever made by the firm to exchange Northern Pacific R. R. bonds for real estate. And that the Philadelphia house was largely indebted to the New York

house. The examination will be resumed on Friday.

LONDON, July 16.—Albert Grant, a liberal conservative member of the House of Commons for Kidderminster, has been unseated for corrupt practices in his electoral canvass.

The Governments of Austria and Russia have agreed to open negotiations with the Sablime Porte, looking to a recognition of the independence of Roumania by Turkey.

MADRID, July 16.—Carlists have abandoned the siege of Peierda after a second assault, in which they were repulsed. The Carlists besieging Cueta have occupied houses in the suburbs of the city. Reinforcements for the besieged Republicans have arrived from Madrid and the city is being energetically defended.—Carlists have ordered that one Republican be shot for every shell fired by the fleet off Bilboa.
