The Land Ring.—The revelations of the operations of the Land Ring upon the Pacific Division of the Northern Pacific Railroad, which we commenced have aroused a sentiment of indignation and remonstrance against the abuses which we exposed, which extends all over the country and is shared in by every friend of the Railroad who is not seeking to subordinate its interests to purposes of private speculation; and we believe it is now apparent to the managers of the Company that the success of their project demands an immediate dissolution with the Land Ring and all connected therewith. This is undoubtedly the secret of the peremptory order by telegraph to the Terminus Commissioners to report at headquarters forthwith, and it carries with it the probability that their action will be rejected by the Board as manifestly against public policy and specially against the interests of the road. If not, it will be taken as confessed that the Railroad Company is under the control of the Land Ring.
From the Duluth *Minneapolis* of Aug. 23, we copy the following significant paragraphs:
"On Monday, of last week, as the pleasure party of Ex-Vice President Colfax, Hon. Wm. Windom, and others, was proceeding west, they were met by a delegation of citizens at Detroit Lake, who had assembled at the depot to pay their respects to the distinguished party. Mr. Colfax appeared and made a neat little speech to them, at the close of which he introduced the Hon. Wm. Windom, who, in the course of a few remarks gave the Lake Superior and Puget Sound Townsite and Land Monopoly Disgrace to the N. P. Railroad Company a little attention, as follows:
"It affords me pleasure to meet so many of the citizens of Detroit, and I will avail myself of this opportunity to say that had I never before been convinced of the expediency, not to say folly of corporations attempting to build up cities, the contrast between this beautiful and thriving place and those which the Townsite Company that has been operating along the line of the Northern Pacific road have made, I would now be satisfied that the only way to build cities is to let the people do it, unimpeded by any power or motive but their own interest. Two years ago, when encamped with the Directors of the Northern Pacific Company on the shore of our lovely lake, the question was presented whether this townsite should be placed under the control of Col. Johnson and his friends, or remain under the management of the Lake Superior and Puget Sound Company. I voted to give it to the people, and the thriving little city spread out in such beauty before us to-day proves the wisdom of that decision. I can only add on this point that so long as I remain a member of the Northern Pacific Board, every vote of mine shall be given in favor of the principle that the people whose enterprise and industry build cities shall own them.

Specdy Relief.
We have here in the country east of the mountains an anomalous condition of affairs. With a delightful climate, fertile soil, and all that might ordinarily be expected to make a people prosperous and happy, we have constantly dinned in our ears complaints of hard times, and talk of seeking homes elsewhere. Seek the cause for this continual wailing, and it will be found in the fact that we have no outlet for the products of our teeming soil. In round figures it may be stated that our farmers this year have raised one million bushels over and above the local demand, and for this vast amount of grain there is no accessible market.
In San Francisco wheat to-day is worth 2 1/2 cents per pound, and in Walla Walla the offering figure is just 1/2 of one cent. To make the figures plainer, we will state that wheat in San Francisco is quoted at \$2 12 1/2 per hundred. At Walla Walla the price paid is 56 1/2 cts. per hundred. Deduct 67 1/2 from 2 12 1/2 and we find that our farmers are paying at the rate of \$1 45 for getting wheat to market. It is this tremendous tariff upon the products of the soil that is curdling the very vitals of the country, and gives rise to all the complaints of hard times.
With anything like reasonable freight facilities our grain would reach market at a cost to the producer not to exceed 50 cents per hundred, and our farmers instead of getting 67 1/2 cents per hundred for their wheat would get \$1-62 1/2. It is the loss of this dollar on every one hundred pounds of wheat that we sell that keeps the country poor, and if long continued, promises to reduce us to a condition of bankruptcy. Such a state of affairs is not to be endured, and it will be for the meeting that assembles to-day to devise some plan that will ensure us speedy relief from the embarrassments under which we labor.
If the Seattle railroad project offers a promise of this speedy relief then we are for Seattle. If not, it will be for the meeting to devise some plan that will meet the wants of the hour. This country is too rich in resources to be abandoned for the want of an outlet, and it will speak little for our enterprise if we continue to grope on year after year shut out from the great markets of the world.
We produce in superabundance the "corn that soursishes and the wine that gladdens," but without a market this vast production fails to bring us a commensurate return. It is thus the question of speedy relief comes home to every producer in the Valley, and it will be for our wisest heads to develop and unfold a plan that will meet the emergency. This is not the time for quackery or idle experiment, and he that can devise a plan that is at once practicable and within our means will deserve the good will of his country.—Walla Walla Statesman.

Refined homes are the end of civilization. All the work of the world, the railroading and navigating, digging, manufacturing, inventing, teaching, writing, fighting, are done, first of all, to secure each family in the possession of its own hearth; and secondly, to surround as many hearths as possible with grace, and culture and beauty. The work of all races for five thousand years is represented in the difference between a wigwam and a lady's parlor. It has no better result to show.

On motion proceeded to the election of a Councilman to fill the vacancy caused by the refusal of Mr. Stotter to qualify. Stuart Crichton was nominated and elected unanimously.
Moved and seconded that the Council proceed to the election of a new watchman in place of H. G. Thornton. Motion lost.
Minutes of the meeting of August 7 were brought up and laid over to the next meeting.
On motion adjourned to Thursday evening, Sept. 11.
E. H. BROWN, City Clerk.

Col. Charles H. Larrabee arrived in this city this morning, and will leave on Friday on his return to San Francisco, where he is at present residing.
We are sorry to announce that W. H. White, Esq., takes his departure at the same time without proposing to return. Mr. W. has resided here for two years, and has achieved an enviable distinction at the bar and a large circle of friends who will miss him much.
Circus.—Wilson's Grand Farisian Circus, which has performed in this place to large audiences for two evenings, left on the steamer Favorite this morning, intending to be in Victoria, Thursday, Friday and Saturday; Port Gamble, Sunday; Port Townsend, Monday; Tacoma, Tuesday; Steilacoom, Wednesday; Olympia, Thursday; Kalama, Friday, and Portland, Saturday.

REED'S PANORAMA.—This great work of art will be exhibited at the Pavilion this evening. Wherever it has been seen it has commanded expressions of admiration from all sorts of people. The following are among the briefest of many similar notices of the press:
REED'S PANORAMA.—Last evening this great masterpiece of art was exhibited for the first time before a Portland audience, and, as we anticipated, was greeted with a crowded house, consisting of the most fashionable and elite of Portland. Every seat in the capacious hall was taken, and a great many were compelled to stand in the aisles, or wherever they could obtain a cubic foot of space. The panoramas consists of thirty-two selected views from the great variety of our natural paradise.—Portland News.
THE PANORAMA.—Reed's Panorama of Oregon scenery was exhibited in this city last Wednesday evening, to the largest audience we have ever seen congregated in our place. The work is certainly a true representation of the various scenes. Some of the pictures are truly magnificent, while they are all correct. The work is a credit to the artist. We cannot see where we could improve on any portion of it. The pictures were all so faultless that we cannot find in our own disposition to find fault with any or to speak in higher praise of one than of the other.—Oregon City Enterprise.

A colored man of Wilmington, by the name of Sandy Johnson, has a tame coon which follows him about the streets like a dog. The Journal says that he is not only a civilized, but an educated coon, as he understands an order and does whatever his master tells him. They sit down and eat their meals together, the coon huffing his master, not only in taking up a piece of bread in his paw and biting it, but in lifting a cup of water and drinking as naturally as anybody. The animal is christened Bill Johnson, and his sable master, Sandy Johnson, calls him "Brother Bill."

We call the attention of our readers to the notice of Assignee's sale in another column.

Notice is hereby given that I. H. Page has received the contract for grading the streets. His bid being the lowest, \$965.

ROAD COMMITTEE.
PHOTOGRAPHIC.—There seems to be some objection made to a rifle recently printed in this paper, over my signature, concerning the pre-engagement of sittings for small children. Do you want good pictures of your children? Do you wish to be waited on as soon as you come into the gallery, or do you wish to wait a half an hour or an hour? Don't you know that the longer a child has to wait the less liable we are to get a good picture? Therefore I think the plan is a good one, and shall rigidly adhere to it. I shall have something more concerning the plan of pre-engagements to say in a future article.
GEO. MOORE.

M.; also on Monday evening, at 7 1/2 o'clock, on the subject of Temperance. Admission free! A collection will be taken at the close of delivery expenses of lecturer.

MARRIED.—In this city, on the 23d ult., by Rev. D. Bagley, James Edw. wistle to Sarah Kelly.
The Social Mobilizer revelations of last winter are to be supplemented during the coming Congress with discoveries in Northern and Southern Pacific, and Sioux City and Pacific, that will eclipse in magnitude everything that has preceded them. Wilson is busy hunting up promising trails upon which to set his sharp scented committee as soon as the opening of the session shall bring it together.—Fort Dodge, Iowa, Messenger.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T., Sept. 11 1873.

MUSIC.—J. Bagnall, Victoria, B. C. Pianoforte and Harmonium Tuner and regulator, will be in Seattle the beginning of September. Instructions left with Humphrey & Young will be promptly attended to. aug. 27.

NOTICE.—Hereafter all persons living in town who wish pictures of small children must make engagements in advance or I will not attend to them, for my time is too valuable.

GEO. MOORE.

MORE MEAT.—Mr. L. W. Foss arrived on Snoqualmie Prairie last week with another drove of beef cattle and a band of mutton sheep for the Seattle Market.

The Oregon and Washington Methodist Conference is now in session at Olympia, Bishop Peck presiding and 70 ministers in attendance.

Capt. F. Tarbell, agent of the land department of the Northern Pacific Railroad Company is now in this city. He is engaged in collecting sample products of this country for exhibition at the East. Persons in this county who wish to contribute, are requested to leave the same with Mr. Henry Adams, at the store lately occupied by Stone & Burnett.

A PLEASANT SEASON.—During the past week our citizens have had a very pleasant time in the interchange of courtesies and entertainments with the officers of the Flag Ship Saranac, in which nearly all, of every degree, have participated. It is a rare occasion to us, in this provincial section of our common country, to meet so large a number of gentlemen accomplished in all the blandishments of refined society as navy officers proverbially are, and Admiral Pennock and his staff have spared no pains to make it an occasion long to be remembered, and their efforts have been met in a like cordial and hospitable spirit.

LEFT.—The U. S. flag ship Saranac, Rear Admiral Pennock, which arrived in this port on the 1st inst., departed to-day. The ten days that the ship remained here has been a festive occasion to all, being a succession of interchange of entertainments and courtesies between the officers and citizens, without a circumstance to mar the harmony of the intercourse. The Admiral and his wife commended themselves to all classes for the amenity of their bearing. Capt. Phelps was received and treated as an old acquaintance and cordially returned the greeting, and every officer of the ship won the hearts of our people by their gentle and graceful manners to all, and their short visit here will be replete with kindly memories on both sides.

BALL.—A ball in honor of Vice Admiral Hillyar and the officers of H. M. Fleet on this station, will be given at the hall of the House of Assembly on Wednesday evening next, the 15th inst. It is expected that Rear Admiral Cochran, R. N., Rear Admiral Pennock, U. S. N., and the officers of the war-ship Saranac will be present. It is probable that H. M. S. Fawn will join the squadron before the night of the ball, in which case her officers will be present. The ball will be, in every particular, the largest and most pleasant ever held in the Province.—Victoria Colonist.

"THE HEATHEN CHINESE"—The Cariboo Sentinel concludes an able leading article on the subject thus:—"The Chinese question will doubtless be brought before the attention of the Legislature at its next session. The opinions of the honorable member from Nanaimo on the subject have been before expressed in the House, and his able pen has been again lately directed in the Colonist to pointing out and warning the people of the danger of the absorption of their industries and wealth by an inferior race, almost incapable, it would appear, of receiving a higher civilization. 'Insuperable constitutional obstacles' are supposed to stand in the way of the special legislation needed, but, with the Colonist, the people will say, 'they must be removed.'"

In Memoriam.

At a meeting of St. John's Lodge, held Monday evening, Sept. 8, 1873, the following resolutions were adopted. To the W. M., Wardens and Brethren of St. John's Lodge No. 9, F. and A. M.:

Your Committee appointed to draft resolutions of respect to the memory of our deceased brother, WATTS CILLY, submit to you the following:

Whereas, It has pleased the Grand Master of the Universal Lodge above to take from among us our worthy and beloved brother, Watts Cilly, to a better and brighter Lodge beyond the ties, where oceans and eavesdroppers never approach, where brotherly love, relief and truth are practiced by all its members, and where naught but virtue is known to them that dwell therein, Therefore, be it

Resolved, That St. John's Lodge feels that a bright light has faded from the Masonic horizon, and truly "the mourners go about the streets. That we deeply, sincerely and affectionately sympathize with his bereaved relatives in the loss they have sustained.

Resolved, That we feel that Franklin Lodge has met with a severe loss in the death of our deceased brother. That

while we lament the untimely death of our deceased brother, and feel that he is gone from us on earth, and while we mourn the loss of the good and useful, yet we should all bow with humble submission to the will of Him who doeth all things well.

Resolved, That these resolutions be spread upon the records of this Lodge, and a copy be sent to the relatives of our deceased brother, and a copy to each of the papers in this city for publication.

D. T. WHEELER,
O. C. SHOREY,
W. H. GILLIAM,

The feature of the financial market has been the break down in gold and exchange. The price of the former falling 2 1/2 per cent, and the latter on that advancing 1/4 per cent. Tugboat Vixen was sunk at Hellgate early yesterday morning by the steamboat Granite State and Capt. Pikers was drowned. The engineer who was picked up was badly out about the head.

At mass held at St. Peter's Church, Father O'Farrell in alluding to the dedication of his parochial school in the afternoon, pronounced the public school system a failure. He believed that eventually the State must either make education voluntary and without taxation, each denomination supporting its own school; or else, if taxes were raised for educational purposes, each party must receive a fair share. At the dedication services in the afternoon the same clergyman said he wished it understood that in this case the priests and people went together. It had been charged that they had entered into a conspiracy. It was true, every man, woman and child of them had entered into a conspiracy and they made no secret of it. They did not deny that they protested against supplying schools to which Catholic children could not go just as they would protest against being forced to attend a State Church. They claimed as American citizens the privilege of educating their children as they pleased.

Taft, at anchor near Marble Island, Hudson's Bay, parted her cable and went ashore, and could not be got off until the 19th of October following. Bark Ansell, Capt. Gibbs, went ashore at the same place and went on pieces. Taft had no oil, but Gibbs had 550 lbs. 116,000 lbs. which was most all lost. No men were lost at the time, but both crews were obliged to live on the island until 22d day of August, and from exposure and lack of proper food were attacked by scurvy. The winter was fearfully cold, being the most severe one for a number of years. Natives of the island died by scores, and the crews suffered exceedingly, 14 of whom died. Among the dead of the crew of Capt. Gibbs, are Murray and D. McConnell of Jacksonville, Illinois. The crew of Capt. Taft, and 3 of Capt. Gibbs, will come home in another vessel.

SAN FRANCISCO, Sept. 8.—John Irving who confessed to participating in the Nathan murder in New York, was in the presence of detective Lees again to-night, and insists on the truth of his confession. He gave Lees a complete record of his crimes, convictions and imprisonments. To-morrow he will go before one of the Judges to swear to his statements which was taken in short hand by Mr. Summer. He says the dog with Nathan was killed was not taken from the place named in previous accounts of the murder, but will tell nothing further about it without he is guaranteed of the safety of the New York officials. He adheres to the statement about the bonds and memorandum book taken from Nathan's safe. Says he can produce all of them at the proper time, and says he has relatives of standing and means living on Farrell street in this city but declines to give names at present, and says one is a banker in Stockton. He is very bitter against New York detectives, and says if they denounce him as a liar and impostor, he will peach on them and make them sweat. He scorns the story in New York that he has been a hen roost robber, always aspired to something higher in his profession. Lees will send a statement to New York officials. Irving says if it is taken back all right he thinks he would have no trouble in beating the city prison and getting off, but don't want to play any such game. He says New York officials are afraid he knows more about the Nathan murder mystery than they do. Refers constantly to documentary proofs which he can produce for them at any time if he is given such guarantees as will save his own neck from the gallows. Was induced to make the confession because a woman paramour of one of the confederates knows a secret, which he is afraid she might reveal.

An expert in one of the city banks to-day detected two points of difference between the genuine and counterfeit not mentioned in Government description. In the signature of Spinner clearly overlies the seal, while in the counterfeit the seal has evidently been stamped on after the signature. In the counterfeit the center star in the cluster around the neck of Goddess of Liberty is defective, while in the genuine it is perfect. A London dispatch says the steamship Harmonia from New York, arrived at Plymouth to-day. She reports having encountered terrific hurricanes on the 24th and 25th Aug., which filled her cabins with water. The passengers were compelled to vacate them for time. Another counterfeit \$500 greenback was received at the Sub Treasury, making thirteen received since Saturday. It is believed at the Sub Treasury the counterfeit bills came from the West and there are but few in circulation in New York. The bills have been examined by experts of the American Bank Note Co., and pronounced by them to be the best counterfeit bills that ever came under their notice. Geo. W. Master, of the Sub Treasury, says that the paper on which the forged bills are printed is lighter than that of the genuine. He also says that the face of the bills cannot be distinguished from the genuine but that the letters on the back are tinged with green where they should be perfectly white, and that the blue tint peculiar to the genuine is not perceptible in the counterfeit.

These Bitters are prepared from the most choice and wholesome herbs and roots, and have given universal satisfaction wherever tried. Thousands of dyspeptics have found relief through their use, and physicians recommend them for the cure of all diseases of the blood and liver, and irregularities of the digestive organs.

Headache, Biliousness and Constipation, General Debility and Loss of Appetite, are all caused by the derangement of the stomach and other functions of the system. The I.V.B. Bitters have been successfully used in all the above cases.

Dr. J. C. COLLARD, M. D., San Francisco, July 24th, 1871. I have carefully examined Dr. H. H. H. Bitters, and have failed to detect anything which could injure even the most delicate constitution. From the composition of the Bitters, as far as I am able to determine it, I should judge that the I.V.B. Bitters must be a very efficient and powerful remedy in cases of Dyspepsia, Indigestion, Loss of Appetite and similar complaints. Being composed of a number of vegetable drugs which are principally used in cases of liver disease, it is undoubtedly an efficient remedy in their cure.

Dr. H. H. H. Bitters, M. D., San Francisco, July 24th, 1871. I have made a careful examination of your I.V.B. Bitters, and have found them entirely free of deleterious mineral substances. Yours, etc. J. C. COLLARD, M. D., STATE ASSAYER'S OFFICE, San Francisco, July 24th, 1871.
