PUGET SOUND WEEKLY.

MONDAY, May 21, 1866.

King County Democratic Convention.

At a Convention of the Union Democracy of King County, called for the purpose of nominating county officers, the following proceedings were had:

On motion, Chas. C. Terry, Esq., was called to the chair, and Chas. Eagan appointed Secretary.

The Committee on Resolutions presented the following, which were unanimously adopted:

King County Democratic Platform.

First. Resolved, That we affirm, as the end of our political faith and steadfast devotion to the following principles, viz: Equal and exact justice to all men, of whatever State, party or sect; the support of State governments in all their rights, and the Federal Government in all its vigor; a jealous care of the elective franchise; the supremacy of the civil over the military authority; opposition to the centralization of power; economy in all public expenditures; the general diffusion of education; the encouragement of morality and the highest civilization; the right of every man to worship God according to the dictates of his own conscience; freedom of speech, freedom of the press, and freedom of the person under the habeas corpus.

Second. Resolved, That the action of the majority in Congress, in refusing to admit the Representatives of eleven States, is an unwarranted assumption of power upon the part of Congress, revolutionary in its tendency, and dangerous to the liberties of the people; that we do and will sustain President Johnson in his efforts for the complete restoration of all the Constitutional rights of all the States; and we unreservedly approve his veto of the Freedmen's Bureau and Civil Rights bills, and all his Constitutional efforts to prevent the fanatical majority in Congress from changing or destroying our cherished form of government.

Third. Resolved, That we will ever hold in grateful memory those through whose patriotic—not mercenary or partisan services—the dignity of the Republic and the integrity of the Union were preserved; and we denounce as a base insult to the gallant living and heroic dead, the present efforts of the Radicals to convert the nation's victory into a partisan triumph, seeking to make the late war one of conquest instead of suppression of the rebellion—of subjugation instead of restoring the Union—for the negro instead of the white man.

Fourth. Resolved, That we pledge ourselves to stand by the time honored principles of conservatism, viz: The Constitution and the Union under the Constitution, with the rights of the States unimpaired; and will support and sustain any man who stands upon the platform and adheres to these principles, no matter what may have been his political antecedents.

Thereupon, the Convention proceeded to nominate county officers, which resulted as follows, by unanimous vote: For Joint Councilman, John Collins of Kitsap; For Representatives, John T. Stewart, and Frank McLellan; For Auditor, Charles Eagan; For Commissioner, P. C. Hays; For Superintendent of Schools, G. P. Bissell; For Justice of the Peace, Seattle Precinct, A. B. Rabbeson; For Justice of the Peace, Mox La Pash Precinct, C. C. Lewis; For Justice of the Peace, White River Precinct, John Thomas.

Resolved, That the proceedings of this Convention be published in the PUGET SOUND DAILY.

C. C. TERRY, Ch'm.

CHAS. EAGAN, Sec'y.

O'BRIAN COUNTY, Iowa, was organized some 5 or 6 years ago; has never had a population of over 30; never polls over 10 votes; and yet has a county debt of \$50,000. Some enterprising man ought to go up there and "fence it in."

THAT'S IT.—One of our exchanges says that he took a glass to see the spots on the sun, and then could not do it; hence, he does not believe the sun has any spots. We may remark to our "respected cotemporary" that the kind of glass he is in the habit of taking does not improve the vision.

King County Union Platform.

WHEREAS, Believing that the Union of the States comprising our Federal Government has been cemented, and the liberties of our people preserved upon the principles of the Union Party, and by the blood and treasure of the Union men of the nation, therefore

Resolved, That we have abiding confidence in the intelligence and patriotism of the loyal people of the United States, and that, in our opinion, they have the firmness and wisdom requisite to preserve the Union their valor has sustained.

Resolved, That the courage and devotion of those who have borne arms in the cause of LIBERTY and UNION entitles them to our enduring gratitude, and we pledge ourselves not to dishonor them by deserting the principles, or surrendering the results for which they fought and bled.

Resolved, That the doctrine of NULLIFICATION and SECESSION held by the so called Democratic party, is antagonistic to the perpetuity of the Union, and destructive to the peace, order and prosperity of the American People.

Resolved, That we pledge ourselves to sustain the National Union organization in its arduous duties in carrying out and maintaining these principles, and to the support of the Candidates nominated by this Convention.

Kitsap County Union Convention.

Pursuant to a call, the Union voters of Kitsap County, met, by delegation, in Convention at Port Madison on Saturday, May 19th, 1866.

B. E. Lombard was elected Chairman, and C. P. Stone Secretary, and the following named persons were nominated as candidates for the several offices to be filled at the next election: H. C. Rowe, of Seabeck, and A. B. Young, of Port Madison, for Representatives; S. W. Hovey, of Teekalet, for Commissioner; S. F. Coombs, of Port Madison, for Sheriff.

Upon consultation with the committee, appointed by the King County Union Convention, C. J. Noyes, of Teekalet, was nominated for Joint Councilman.

B. E. LOMBARD, Ch'm.

C. P. STONE, Sec'y.

MORE OF WOMEN.—In a letter to the Stockton Herald, Lyon C. Doyle says of the women of San Francisco: "There is an epidemic among women in this city, to don the habiliments of men, for the purpose of seeing the sights prohibited to their inspection while wearing the feminine garb. The first place a woman, disguised in man's clothing, visits is a cellar, where 'pretty waiter girls' do their 'beer slings.' They hear some rough jokes, see some lascivious actions, and familiarize themselves to manly (?) actions. Then the Bella Union is visited, and that tips out all their remaining modesty. Then the Chinese dens and the Anatomical Museum make them perfect with forbidden sights; so if they get drunk during some of their wanderings, it is not to be wondered at. If they follow up drinking when they resume their own dress, it is not to be wondered at. A saucy chap got a punch in the eye the other night, and a respectable though mischievous girl had a black eye the next morning. A jealous husband returned, unexpectedly, to his home, the other night, and caught a well dressed fellow emerging from his cottage. The husband knocked him down, broke his ribs and broke his arm. His wife has been bolstered up in bed ever since, with a fractured arm, broken ribs and bruised face. A brother went home a 'little tipsy' the other night, and met a 'cove' in the hall of his father's house.—He familiarly slapped the 'cove's' plug hat over his eyes, and had to purchase a new one for himself the next day. His sister was the 'cove.' These instances are facts. Girls should beware of any woman who would suggest a 'lark' of this kind to them. Women destroy more women than men do."

IF ANY persons doubt the truth so often asserted that one dose of Hall's Pulmonary Balsam will cure a cold. One tablespoonful taken at bed time will surely cure any cold in the head, chest or throat. It is sold by all druggists at fifty cents a bottle. G. Kellogg, Druggist, of this place, has always a supply on hand.

THE DANGEROUS ARTICLE.—The dangerous qualities of nitro glycerin are thus referred to by the German papers: The Bergund Huttenmannsche Zeitung states that among other disadvantages of Noble's nitro glycerin is the fact that it freezes in a temperature probably above 43 deg. Fah. It is said that at a temperature of 43 deg.—46 deg. Fah.—the oil solidifies to an icy mass which friction causes to explode. It is probable, however, that the freezing point of the oil lies somewhat lower than is here stated, though as yet no exact determination of the freezing point of the oil has been made. A newspaper from Hirschbiroh, in Sillesia, gives a sad account of an accident caused by the frozen oil exploding by friction; nitro glycerin being used there in making a railroad tunnel. It was kept in glass vessels, packed in straw, and placed in baskets, each vessel containing from one-eighth to one-fourth of a hundred weight of the oil. For several days the oil had been frozen. It was carefully handled, and pieces were separated by means of a piece of wood and put into the bore holes, and it was found that the nitro glycerin frozen exploded quite as well as fluid. One day an overseer at the shaft hit upon the unlucky plan of breaking into pieces with a pick a seven or eight pound lump of the frozen nitro glycerin. The blow caused the mass to explode, and the unfortunate man was blown up into the air and fell back into a shaft some forty or fifty feet deep, while two workmen, who were making cartridges a short distance from him, luckily escaped with a slight injury.

MONKEY.—Men work for it, fight for it, beg for it, steal for it, starve for it and die for it; and all the while from the cradle to the grave, nature and God are thundering in our ears the solemn question—"what shall it profit a man if he gain the whole world and lose his own soul?" This madness for money is the strongest and lowest of the passions; it is the insatiate Moloch of the human heart, before whose remorseless altar all the finer attributes of humanity are sacrificed. It makes merchandise of all that is sacred in human affections; and even traffics in the awful solemnities of the eternal.

Clippings.

The designations 4to, 8vo, 12mo, &c., as applied to books, refer to the size of the page, or rather to the number of times that a sheet of paper, which is used in any given book, is folded in order to make the page of the size that is determined upon. Book paper, or at least the bulk of it, is made in sheets of a uniform size. When a book is printed so large that the sheet is only folded once, so as to make two leaves or four pages, the book is called a folio. When the book is so small that the sheet can be folded twice, into four leaves or eight pages, the book is called quarto, or 4to. When there are eight leaves or sixteen pages to a sheet, the book is called an octavo, or 8vo. Twelve leaves or 24 pages make a duodecimo, or 12mo; 16 leaves or 32 pages, a 16mo; 18 leaves or 36 pages, an 18mo; 24 leaves or 48 pages, a 24mo, and so on.

SAN FRANCISCO AND THE SANDWICH ISLANDS.—The propeller Ajax, which has been running between San Francisco and Honolulu, has been drawn off, for the reason that sailing packets can carry freight at considerably lower rates than can be afforded by steamers. In eight or nine months the China line of steamers will commence operations, touching at the Sandwich Islands. The pioneer ships Japan and China, five thousand tons each, are expected to leave New York for San Francisco about October 1st. These, with the Colorado and Constitution, which are to be refitted, are to constitute the China line, which will commence operations January 1st.—Oregonian.

A Western orator who was lately advocating the acquisition of Mexico, Cuba and Canada, "rising to a pitch of lofty eloquence," declared: "Yes, fellow citizens, we must have them countries, and fellow citizens, them countries we must have; and, for one, am not only ready to help pay for 'em, or help fight for 'em, or to take 'em any how, but also, if it can't be done otherwise, I am even willing to go for 'em accordiiu' to law!"

FIXED.—It is settled that the Barbacoa mines are a complete fizzle, the whole excitement having been gotten up on the strength of the discovery of a rich pocket in an old otherwise worked out placer. The pocket was worked out, and there was nothing left for miners to work at. An old Californian visited the placers on the Isthmus and found them worked out years ago, the natives now averaging not more than twenty-five cents per day.

SELF EDUCATION.—Much less of success in life is really dependent upon accident, or what is called luck, than is commonly supposed. Far more depends upon the objects which man proposes to himself; what attainments he aspires to; what is the circle that bounds his vision and thoughts; what he chooses, not to be educated for, but to educate himself for; whether he looks to the end and aim of the whole life, or only to the present day, or hour; whether he listens to the voice of indolence or vulgar pleasure, or to the stirring voice of his own soul, urging his ambition on to laudable objects.

THE DIFFERENCE.—Matrimony is hot buckwheat cakes, warm beds, comfortable slippers, smoking coffee, round arms, red lips, kind words, shirts exulting in buttons, redeemed stockings, boot-jack, happiness, etc. Hurrah! Single blessedness is sheetiron quilt, blue noses, frosty rooms, ice in the pitcher, unregenerated linen, heelless socks, coffee sweetened with icicles, gutta-percha biscuits, flabby steak, dull razors, corns, coughs, colics, rhubarb, misery, etc. Ugh!

Dr. Johnson, at a late period of his life, observed to Sir Joshua Reynolds: "If a man does not make new acquaintances as he passes through life, he will soon find himself alone. A man, sir, should keep his friendship in constant repair."

The City of Washington, overdue, had not arrived at Liverpool. As the steamer Kearsage was at Lishon from Sierra Leon, 19 of the crew were attacked with yellow fever and on the passage 14 died. The Kearsage was kept in strict quarantine.

Political interest centers in the fate of the Reform bill. A vote was expected on the 28th. Owing to defection in the Liberal ranks from opposition— [Here the line failed near Yreka.]

London, April 27.—The latest news from Germany, is that Prussia objects to disarming while Austria continues her army on Italian frontiers.

At 8 o'clock in the morning the division took place, the vote for the bill being 318, against the bill 313; Government majority, 5. The papers generally regard the vote as a Government victory only in name, but really defeat.

CONGRESSIONAL.

Washington, May 3.—The Senate passed the House Resolution congratulating the Emperor of Russia on his escape from assassination. Mr. Chandler, from the committee on commerce reported a joint resolution instructing the Secretaries of War, the Navy and the Treasury to adopt an efficient system of quarantine against cholera, and to enforce sanitary measures.

over Frank & Co's stationery store on Sacramento street. The goods were greatly damaged by water.

The new rolling mill on Mission creek, the first in the Pacific States, has commenced operations.

There were 482 deaths in this city last week.

Nothing later has been received from Arizona, regarding the reported massacre at Fort Goodwin. The report is believed to be false. Major John Burney and others who were there quite recently, state that there were four guard-posts besides the main fort or post, and that surprise was hardly possible.

OUTRAGEOUS ROBBERY.

San Francisco, May 12.—A gentleman named Gilman, residing near Stockton, was robbed of \$5,000 worth of jewelry on the 9th of March last. Gilman had lived at Mazatlan several years, and returned with his wife. A short time before the robbery, Mrs. Gilman received a visit from a woman, whose acquaintance she made in Mazatlan, known as Rosa Rodriguez. Suspicion was directed to her. On Thursday, Jerome Myers, Chief of the Stockton police, came to this city in search of her. He found her on Jackson street and the first thing that attracted his attention upon meeting her, was one of the stolen rings which she was wearing.—He then accused her of the robbery and, upon searching her, found nearly all the precious stones which had been removed from their settings, in a bag concealed under her skirts, and also a lot of gold band setting, beaten up to avoid identification. Sufficient property, however, was found to fasten the robbery on her. Subsequently, a male companion, who gave his name as Theodore Hadur, was arrested, and some of the jewelry found on his person.—Both parties were sent to Stockton yesterday.

GOLD.
 Gold in New York on the 11th was 129. Legal tenders are 78 $\frac{1}{2}$ @ 79.

CALIFORNIA MINES.

The Spring trade thus far has disappointed business men very generally.

The mining share market is active, with large operations in Ophir. The product of the Washoe mines, it is thought, will be largely increased. The yield of bullion for the current month, (it is confidently asserted, will exceed that of April. The mines of Grass Valley District, are also said to be doing remarkably well. The aggregate yield of the Eureka at Grass Valley, for the month of April, exceeds \$55,000 from less than 1,000 tons of ore, and the net profits are about \$40,000, or \$2,000 per share.

CHILEAN AFFAIRS.

General Rufus Ingalls is ordered on an inspection tour of military posts in the Pacific States and Territories.

FAILURE OF MERCHANTS' NATIONAL BANK—IMMENSE LOSSES.

The Government loses about half a million of dollars by the failure of the Merchants' Bank.

Washington, May 11.—There was an informal meeting of a good many Republican Senators and Representatives, to-day, to see if some action could not be had in the Senate to strike out the third section of the Constitutional amendment which disfranchises rebels from voting for Federal officers.

The Bank received \$762,312 of Government funds, of which \$369,184 were deposited between the 20th of April and the 3d of May. When the Bank failed Boyer & Co., of Baltimore, owed the Bank \$780,000, and their failure has involved at least four Baltimore banks in heavy losses. One of which, name not reported, loses \$390,000; another \$100,000, besides there are private individuals who lose less sums. The Government officer investigating the matter thinks the Government will not realize \$50,000 from the assets from the Merchants' National Bank, exclusive of the \$100,000 held as security for Government deposits. This failure will probably revolutionize the system of using National banks as public depositories.

THE FORT GOODWIN MASSACRE.

The reported capture of Fort Goodwin, Arizona, excites considerable comment; and Capt. J. Ross Brown, the well known traveler, now here, makes a statement showing the report to be highly improbable.

INDICTMENT OF JEFF DAVIS—MRS. DAVIS.

New York, May 11.—A letter from Norfolk says the District Attorney Chodler had received from Washington an indictment against Jefferson Davis, which he will lay before the Grand Jury.

Mrs. Davis will remain at Fortress Monroe until her husband's case is finally disposed of by trial or pardon. She is making arrangements to keep house inside the Fort meanwhile. She visited Norfolk to purchase supplies when the people showered upon her presents of all kinds, and showed an active sympathy in her behalf.

Vorfolk, Va., May 11.—Late yesterday afternoon the Grand Jury of the U. S. Circuit Court brought in a true bill against Jefferson Davis for treason. The Court adjourned to meet on the first Tuesday in June, at Richmond. Judge Underwood went North last night, carrying with him a copy of the indictment.

THE FENIANS RE-ORGANIZING.

New York, May 11.—Stephens, the Fenian head-center, arrived yesterday. Efforts are being made for public demonstrations, which shall kindle anew Fenian fires, dampened by the Eastport farce and personal fends. Col. O'Mahoney resigned his position as Head-center of Fenians this morning, which was accepted by Chief Executive Stephens. Mr. Killian has been removed as Treasurer.

THE CHOLERA.

The Quarantine Surgeon reports one new case of cholera. No deaths to-day. Fifty cases in the hospital. The city is unusually healthy.

Judge Field and Gen. McCook, Minister to the Sandwich Islands, sailed for San Francisco to-day.

EUROPEAN INTELLIGENCE.

New York, May 12.—The City of Paris and Germania bring advices to May 3d.

Contrary to general expectation the British Ministry refused to regard the close vote on the reform bill as equivalent to defeat.

Gladstone announced in the House of Commons that the franchise bill for redistributing seats would be introduced on the 7th, that both might be considered together. In answer to an inquiry as to whether the Government would stand by bill, replied, "As long as the bill stands we stand—if it falls we fall."

The Liberals say the issue is now plain. The Liberal members must now face the simple question, without the protection of an evasive amendment.

The Jamaica Commissioners have arrived home. Nothing officially has been made known as to their report. The Times anticipates it will justify martial law, but will insure subsequent proceedings.

A police constable has been shot in Dublin by Fenians.

The German question continues to look war-like. Both Austria and Italy are decidedly menacing. Both Governments deny aggressive designs, but are represented as vigorously preparing for war.

The Italian Parliament promptly voted authority to the Government to raise means for the defense of the country.

A popular meeting has been held at Naples in favor of the Government. Warlike enthusiasm prevails through all Italy in view of the war.

It is asserted that the Italian Government has called out 150,000 men. The Austrian force in Venetia is 160,000.

A Florence correspondent of the London press says there can be no doubt that the Italian Government desires war as the only means of extraction from an exceedingly false and difficult situation.

Austria and Prussian relations show no improvement.

A Berlin despatch talks of the probability of an increased armament by the Prussians.

In London, funds and securities are depressed.

Napoleon presided at a special council of the Ministry, April 30th, to consider the Austrian proposal that Austria and Italy should simultaneously disarm. One rumor says it was determined at the meeting to prevent Italy from taking the offensive, and insist on the adoption of the proposition.

The following is the very latest news by the City of Paris, telegraphed to Queenstown under date of Liverpool, May 3d: Intelligence from Germany and Italy continued exciting. Armaments are vigorously pressed forward. The Italian fleet had left Genoa, destination unknown. Austrian ironclads are said to have received orders to put to sea, destination believed to be the Baltic.

A telegram from Berlin says the reply of the Austrian Government to the last Prussian despatch states that Austria will withdraw into the interior all the troops now on the Prussian frontier, but will at the same time continue armaments against Italy.

The Prussian troops on the frontier are said to have advanced near the Austrian territory.

An unauthenticated rumor in Vienna says that Austria intends to propose an European Congress.

There are rumors of a ministerial crisis current at Vienna.

The Saxon Minister of Foreign Affairs is said to have returned an evasive answer to the Prussian summons to disarm.

A Berlin telegram of May 1st says that it is believed that the Prussian armament will shortly be increased. A reply, dated April 29th, to the Austrian Government, has been sent to the Prussian Ambassador at Vienna, stating that Prussia does not agree to the Vienna Cabinet's proposals. In reference to duties it lays especial stress on the commonality of the interests of Italy and Prussia, and gives evasive answers to Austria's proposal for disarmament. No immediate rupture between Austria and Prussia, however, is expected, as Austria will submit proposals to the Federal Diet; but affairs continue critical.

The Vienna press, of May 1st, states that negotiations between the Prussian Cabinet and the special envoy from Italy continue.

The Vienna Official Gazette publishes a notice that an increased number of army surgeons will be required.

In a circular despatch to Italian representatives at foreign Courts, Gen. Tamar states that the moment when the disarmament of Austria and Prussia was expected, Italy saw herself directly menaced by Austria who increased her armaments, and gave them in Venetia an overtly hostile character towards us, therefore it became indispensable for the security of the Kingdom that both the land and sea forces should be increased without delay. In taking military measures for the defence of the country Government only acted in accordance with the state of things created by Austria.

A Florence telegram says that a proclamation has been issued by the Minister of War, calling to arms soldiers who are on unlimited furlough.

A Mexican officer had arrived at Vienna on a special mission. He bore a letter from Maximilian, the purport of which is unknown.

SPAIN AND CHILE—HOSTILITIES BEGUN—BOMBARDMENT OF VALPARAISO—THE CITY IN RUINS.
San Francisco, May 14.—The P. M. S. S. Co.'s steamer Golden City has arrived from Panama, from which port she sailed on the 30th of April. She brings New York papers to the 21st April.

The city of Valparaiso has been bombarded by the Spanish fleet, and a good portion of the town laid in ruins. H. M. ships left the bay and anchored outside.—The American ships also had to leave. At about 8 a. m. the enemy's fleet took a position against the town. The Admiral's ship remained outside signaling orders. Each vessel selected a point on which to pour destruction, and for nearly three hours the firing was kept up without intermission.—From 15 to 20 millions of property was destroyed, belonging to English, American and other foreign merchants. The entire commercial part of the town was destroyed.

The Spanish Admiral, having received orders from Madrid to

destroy to the utmost all Chilean and Peruvian towns on the coast, on the 28th of March, notified all foreign representatives that in 4 days he would bombard the city. Every foreign representative protested in the most energetic manner. British residents were promised protection from the British squadron, but when the time came the British Admiral said he could not interfere, and that British subjects must look out for themselves on shore. The conduct of the British Admiral is loudly condemned by British residents.—One hundred and twenty-nine shots were fired.

FORT GOODWIN MASSACRE CONFIRMED.

The news of the massacre of Fort Goodwin is confirmed. The garrison consisted of two companies regulars of the 3d battalion, 14th regiment, 100 men. Seven men escaped. The remainder were murdered and scalped. The Apaches reaped a rich harvest, carrying off arms, ammunition and commissary stores.

GOODWIN MASSACRE A HOAX.

San Francisco, May 15.—General Mason, writing to Gen. McDowell, from Sacalone, on the Gila, April 30, says he has just heard, via Fort Yuma, concerning the massacre at Fort Goodwin, there is not a word of truth in the story. Sacalone is only four days travel from Fort Goodwin, and there is daily communication between the two places.

STAGE ROBBERY.

Nevada City, May 15.—The San Juan stage, with six passengers, was stopped this morning about half past four, by three masked robbers. They blew open Wells, Fargo & Co.'s treasure-box, and took \$7,900. None of the passengers were robbed. As soon as the stage arrived Sheriff Gentry started with a posse, and pursued the robbers about three miles from town. Steve Venard, formerly city marshal, got on the track of the robbers and followed them to Myers' Ravine, two miles from where the robbery took place. Just as he crossed the Ravine he looked above him, on the side-hill, about twenty-five feet from him, and saw the head of a robber who was ready to fire. Steve levelled his Henry's repeating rifle and fired, the ball striking the robber in the left breast, and killed him instantly. Robber number two then raised his pistol, but Steve was too quick, and fired, striking him under the right eye, killing him also. Number three then ran. Steve fired and missed, a second shot, however, passed through his heart. The treasure is secured.

A JUDGE SUED.

San Francisco, May 16.—No eastern news to-day.

Augustus M. Heslip commenced suit in the 4th District Court, against Judge Pratt of the 12th District Court and for cause of action alleges that in 1864 plaintiff had a suit against Captain N. Weber of Stockton to recover \$50,000 for wounds inflicted by Weber, who shot him with a pistol. At the commencement of the trial, Heslip proposed to introduce evidence of the ability of Weber to respond to heavy damages, which proposition the Court overruled. The jury afterwards awarded Heslip \$30,000 damages, when Weber applied for a new trial. Judge Pratt then informed Heslip, after the matter had been argued, that he would be compelled to grant a new trial, but if he would remit one half of the amount of the verdict, the case could be dismissed. Heslip chose to accept the \$15,000 to avoid the vexation and chances of another trial. He now claims that the court had no authority to assess damages which had already been passed upon by the jury.—He, therefore, asks damages in the sum of \$20,000 against Judge Pratt.

CONVICTED OF ROBBERY.

EUROPEAN NEWS.

London dates by overland telegraph are to the 3d. The apprehension of war in Continental Europe, excited the most depressing influence on funds. All securities were lower including American. The bank of England has been raised to seven per cent.—The rise in gold in New York is doubtless due to this disturbed state of affairs.

Sailed from Sota March 23d; entered Talcahuana, Chile, March 27; crossed the Equator in the Pacific April 8th; spent one day at the Gallapagos Islands; arrived at San Francisco April 24th, after one of the most remarkable passages for beautiful, clear weather ever it was the lot of mortals to experience. One sailor was lost 375 miles north of the Equator on the Atlantic side. No sickness; but two births.

THE GARDEN SPOT OF AMERICA.—I heard the love of home oddly illustrated the other night in a country bar room. Some well dressed men, in a state of strong drink, were boasting of their places of nativity: "I," said one, "was born in Mississippi, where the sun ever shines and the magnolias bloom all the year round."

"And I," said another, "was born in Kentucky—Kentucky, the home of impassioned oratory, the home of Clay, the State of splendid women and gallant men."

"And I," said another, "was born in Virginia, the home of Washington, the birthplace of statesmen, the State of chivalric deeds, and of hospitality."

"And I," said a yellow haired, sallow faced man, who was not of the party at all, and who had been quietly smoking a short, black pipe by the fire, during their magnificent conversation, "and I was born in the garden spot of America."

"Where is that?" they asked. "Skeonshegan, Maine," he replied "kin I sell you a razor strop?"

DIFFERENT sounds travel with different degrees of velocity. A call to dinner will run over a ten acre lot in a minute and a half, while a summons to work will require from five to ten minutes.

Clippings.

The new railway from Odessa to Balta, uniting the frontier of Poland with that great emporium of the Black Sea, and Southern Russia with the other parts of the empire, was recently inaugurated with great eclat in presence of all the great dignitaries of state, and the representatives of foreign governments. This railway will give fresh impetus to the agricultural labor of Southern Russia, and the manufacturing industry of Poland and the other parts of the country. The slow transportation of goods from the Russian and Polish manufactories heretofore threw the import trade of Odessa almost exclusively into the hands of English, French, German and Swiss manufacturers.

A deplorable casualty is related by the Louisiana True Flag: On Saturday morning last about 11 o'clock, as Miss Bettie, daughter of Garrett Minor, living near Prairieville, in this county, was preparing dinner, her clothes caught fire and burned her to death before assistance could be rendered. There was no one in the house at the time but herself and mother, who, being an invalid, was powerless to render the unfortunate girl any assistance. On discovering her critical situation she rushed out of the house across an adjoining field to where her father was at work and just reached him when she fell lifeless at his feet.

THE NESTORIANS IN PERSIA.—The Evangelical Alliance has for sometime past urged upon her Majesty's Government the necessity of something being done to lessen the persecution of the Nestorians in Persia. A letter has just been received from the Foreign Office in which it is stated that the efforts of the Government to carry out the wishes of the Alliance have been successful. The Shah of Persia has promised protection to the Nestorians, and there is a fair prospect of their being freed from the persecution which they have suffered at the hands of the Mahomedans.

A MONKISH REBELLION ON MOUNT SINAI.—An Alexandria letter reports a monkish rebellion on Mount Sinai. It appears that Archbishop Cyrille, of the Convent of St. Catherine, having given some cause of offense to the monks, they mutinied in a body and seized his Grace, and put him in the black hole of the convent. News of the event having been sent by an adherent of the Archbishop to Cairo, the Viceroy has despatched a company of troops to effect the release of the prelate, and restore his authority in the convent.—*Locust Herald.*

LOST THE BABY.—An amusing scene occurred on the cars between Schenectady and Utica, lately. A gentleman and his wife took passage in the cars at Schenectady for the West, and came away without their infant child, which had been left in the depot at Schenectady, each supposing that the other had "took the baby." They were not long in discovering that they had left something and, getting off at St. Johnsville, telegraphed back for the missing responsibility, which was brought to them by a blushing conductor on the next train.

WHAT DOES "D. D." MEAN?—We know its old signification and what it used to mean; But Mr. Benton took the little "d. d." (dirty dog) and applied them to Hon. John Pettit. Recently the President used "D. D." meaning dead ducks, and attached it to the name of some of his party friends; but John W. Forney turns round and applies "D. D." to the President, and says it means "dead drunk." What does it mean?

LOCAL INTELLIGENCE.

FRIDAY, May 18.

The following is the verdict of the Coroner's Jury on the body of Augustus C. Potter, who was found drowned about three-fourths of a mile below Five-mile Rock:

Territory of Washington,
County of King.

Before Josiah Settle, Coroner, in the matter of the inquisition upon the body of Augustus C. Potter, deceased:

We, the undersigned Jurors, summoned to appear before Josiah Settle, Coroner of King county, on the 17th day of May, One Thousand Eight Hundred and Sixty-six (1866), to inquire into the death of Augustus C. Potter, found lying on the beach bordering the waters of Puget Sound, within the limits of said county; having been duly sworn according to law, and having made such inquisition, after inspecting the body, and hearing the evidence adduced, upon our oath each and all do say, That we find deceased was named Augustus C. Potter, was a native of the State of Maine, aged about thirty-five or forty years; that he came to his death on the 16th day of May, 1866, in this county, by accidental drowning, all of which we duly certify by this inquisition in writing, by us signed this 17th day of May, 1866.

DAVID SIMES, Foreman.

SOCIAL PARTY.—The social party last evening went off very happily. To youth, there is something enchanting in these pleasant gatherings, when, as Willis says:

Is beating faster than the merry tune,
And their blue eyes are restless, and their lips
Part with eager joy, and their round cheeks
Flushed with the beautiful motion of the dance.

Mrs. Lewis, who always has a word of hearty greeting for every body, discoursed eloquent music, which was responded to by light feet and merry hearts until past 12 o'clock; when the guests repaired to the Occidental Hotel, where a nice collation was laid. All were highly satisfied with the evening's entertainment.

The U. S. Revenue Cutter Lincoln, Capt. White, arrived in our harbor yesterday afternoon with Special Agent Getchell, of the Treasury Department, on board. The Lincoln will proceed to Olympia, where she will be turned over to the Collector of Customs. Mr. Getchell will then proceed overland to Portland. Capt. White is an old acquaintance on the Sound and his many friends cordially extend the hand of welcome.

The University of Washington Territory will re-open on Monday next, so we are informed.

OUR BROWN—Our Brown is in favor of Port Gamble. In fact, Brown is so insanely in favor of that place, that he wants us to tear up and move our press over there; "for," says Brown, emphatically, "that's the place for a printer." The enthusiasm of Brown, in this regard, is superinduced by the lists of subscribers, (accompanied by the cash, which is highly satisfactory to us, as well as to Brown) sent us by our enterprising and gentlemanly agent, Mr. W. H. Llewellyn of that place. Brown is in favor of him and, in fact, so are we.

THEATRICAL—Edwin Forrest is now playing at Maguire's Opera House, in San Francisco. Forrest is, perhaps, the most renowned member of his profession, in the United States, and his advent on this coast, excites no small amount of attention.

ARRIVED—The sloop Lititia, Capt. Adams, thirty-six hours from Victoria, with merchandise, arrived this morning.

INDIANS ON THE SALT LAKE ROUTE

—A reliable person just in from the Mojave river, on the Salt Lake route, reports the Indians to be very troublesome. They are continually annoying trains and travellers, and several persons have already been killed by them. The report this morning is that a gentleman taking through a large drove of stock to Montana, went on in advance of his train to find a location for camp, and on the train coming up he was found shot and killed. The removal of the troops stationed at Camp Cady, has had a very bad effect, as the Indians are emboldened to commit depredations without fear of punishment, and unless a detachment of cavalry is immediately sent to that or some other point on the Mojave river, serious interruption to the travel on that road may be expected.—S. F. Flag.

A bone of contention should be thrown away when there is no longer any meat on it.

VICTORIA NEWS.

Victoria, May 18.—The steamer California sailed to-day at four o'clock A. M., for San Francisco with about 40 passengers and \$170,000 in gold dust and bars shipped by the Bank of British North America and the Bank of British Columbia. The total shipments of treasure hence, from December 29th to date, is \$430,027 32.

A seaman recovered \$70 damages against the steamship California, to-day, for having been discharged in this, a foreign port, by Captain Batters. He sued for \$240.

An extensive coal mine has been discovered at Sooke, about 15 miles from here. It is expected that it will be immediately opened.

CALIFORNIA NEWS.

San Francisco, May 17.—During the first 4 months of the year 1865, the arrivals from the East by Panama and San Juan routes were 5,843 persons, against 7,843 persons for the same period this year, showing a gain of nearly 1,900. Large numbers of these are returned Californians, who, not finding matters at the East as they expected, have returned. The arrivals this month, compared with the first half of May, 1865, show proportionately still greater increase, 1,214 passengers having arrived by two steamers this year, against 774 last year.

SHIPPING.

The Moses Taylor is now due from San Juan with a large number of passengers.

Sailed—Ship Parisan for Port Angeles.

THE FENIANS.

Benicia, May 16.—A large and enthusiastic meeting of the Fenian Brotherhood took place here this evening. Col. Walsh made a glorious speech. The Garfield Guard turned out with full ranks, with a band of music, followed by an immense crowd from all parts of the country, bearing transparencies and torches.

FROM NEW ORLEANS.

New Orleans, May 14.—Mayor Monroe was inaugurated to-day with interesting ceremonies.

Private letters from Mexico confirm the death of ex-Governor Warden.

Dr. Gwinn took the oath of allegiance and was released from Fort Jackson yesterday.

JEFF. DAVIS.

Fortress Monroe, May 14.—It is authoritatively understood here as the result of Secretary McCulloch's late visit, that the President has directed the surgeon of the Post to make a special report on the health of Jeff. Davis.

SAILED.

New York, May 16.—The Scotia sailed at noon, taking three millions of dollars in specie. The Kangaroo sailed taking three hundred and seventy thousand dollars in specie.

DESTRUCTIVE FIRE.

Charles Kelsey's cotton warehouse in Brooklyn, was burned this morning. A large amount of cotton and several buildings were destroyed. Loss very heavy—not estimated.

THE CHOLERA.

The Health Officers report that no cases of death from the cholera had occurred in the hospital ship. All well on board the Virginia and Illinois.

CONGRESSIONAL.

Washington, May 16.—The proceedings in the Senate are important.

Fessenden, of Maine, did not call up the House resolution proposing amendment to the Constitution, but Stewart, of Nevada, gave notice he would move to amend the first resolution so as to define the word citizen; without this, he said, the construction of of both the first and second sections would depend upon the party in power. He should also propose to strike out the second section disfranchising rebels, and make the first section law, which he would offer as a substitute for several bills reported by the committee. He would then make the bill excluding rebels from office serve in place of the second section of this substitute, and, in addition, would require each State to consent thereto, and authorize, by amendments to their constitutions, universal suffrage. This being done by any State, such State should be admitted without waiting the actions of the other States.

Wilson, of Massachusetts, introduced a bill to fix a military peace establishment of the United States, which was referred to the Military Committee. It provides that the army shall consist of five artillery and six cavalry regiments, now in service, the companies, to consist of 64 privates, minimum; men to be enlisted for five years.

Washington, May 16.—In the House, Washburne of Illinois, reported, from the Committee on Commerce, a bill to further provide for the safety of passengers on steamers. He stated that the bill contained a section to prevent the transportation of negro-glycer. in, and, also, one to modify the construction given to the law in reference to crude petroleum or coal oil. That construction, he said, prevented the shipment of articles, and interfered very much with commerce. The bill was read the third time and passed.

EUROPEAN INTELLIGENCE.

New York, May 16.—The Jura brings European advices to May 6th.

Consols closed on Saturday at 86 1/2 @ 87 for money; 6-20's (?) were 67 1/2 @ 68 1/2; Paris Bourse closed at 27 2-5. The Bank of Frankfurt has advanced the rate of discount to 6 per cent.

Prussia has declared to the Diet that warlike preparations on her part are entirely defensive. The Austrian reply to the last Prussian note was conciliatory, but she declines to disarm under the present circumstances. Warlike preparations in Venetia are being pressed forward earnestly. A popular demonstration had taken place at Padua, where great excitement prevails. It is rumored that Venetia will be placed in a state of siege.

Paris, May 5.—The Memorial Diplomatists denies that France made an energetic remonstrance at Vienna relative to the Austrian armaments in Venetia, but says that the dispatch sent to Vienna, requested a confidential explanation respecting the object of the Austrian preparations. The Austrian government replied, protesting that she would maintain a strictly defensive attitude. France accepted the explanation, and the result was a mutual understanding, according to which, Austria undertakes, should Italy attack Venetia independent of France, not to secure for herself any of the results of victory with diplomatic intervention of France.

It is asserted that the object of Austria in menacing Prussia and Italy, is to force England to assent to a convention of European Congress.

AN OLD BACHELOR'S ADVICE.

A confirmed old bachelor uses the following argument against matrimony; "Calico is a great promoter of laziness. If young men wish to accomplish anything of moment, either with head or hand, they must keep clear of the institution entirely. A pair of sweet lips, a pinched waist, a swelling chest, a pressure of two delicate hands, will do as much to unhinge a man as three fevers, the measles, a large sized whooping cough, a pair of lockjaws, several hydrophobias and a doctor's bill."

A Providence (R. I.) paper states that one day last week the conductor of a street railroad car in that city asked a gentleman, sitting in one corner, for his fare, but received no sign of attention. He asked again, and finally gently attempted to arouse the man from what he supposed to be a nap, but which, to his horror, he discovered to be the sleep of death. The man had died so quietly that no one in the car had noticed his decease.

A little girl in Pennsylvania was lately reproved for playing outdoors with boys, and informed that being seven years old, she was "too big for that now." But with all imaginable innocence she replied; "Why the bigger we grow, the better we like 'em." Grandma took time to think.

EARLY CHERRIES.—The Bulletin, of the 26th ult., notices the appearance of ripe cherries, grown in the open air, at Marysville, and picked on the 24th. This is slightly ahead of Oregon where cherry trees are just in bloom.

A wag in Appleton, Wisconsin, supplied a farmer with four quarts of Hungarian grass seed last Spring, from which the farmer this Summer raised several millions of mullen stalks.

The editor of an eastern paper remarks: We have adopted the eight hour system in this office.—We commence work at 8 o'clock in the morning, and end work at 8 o'clock in the evening.
