A St. Louis Eccentric.

Mr. Corde, of St. Lou's, a gen-  
tleman of wealth, has had legal  
inquiry, into his senseness, on ac-  
count of his taste for natural his-  
tory.

A short time ago he purchased  
a house and grounds on Grand  
Avenue, south of the Fair  
grounds, and concluded to con-  
struct a zoological aquarium and  
aviary for the pleasure of his  
friends and the public. Upon his  
grounds was a large sink hole, in  
which was a pool of water. He  
decorated the sides of this sink  
hole with rare plants, such as  
jimson weed, the dog fennel and  
the boneset. He purchased a  
collection of beautiful birds, among  
which were the crow, the cat-bird,  
the hedge sparrow, and the fly-  
up-the-creek. He imported two  
large alligators and placed them  
in this lake at the bottom of his  
sink hole, and took great delight  
in watching their sportive gambols.  
He peopled the laughing  
waters of the pool with melodious  
bullfrogs, beautiful water dogs,  
moccasin snakes, soft shell turtles,  
gars, and Mississippi cat fish.

Just as Mr. Corde has com-  
pleted filling his miniature Lake  
of Como, and was preparing to  
invite the Paulines and Claude  
Melouettes of the city to visit his  
romantic retreat and breathe their  
row of love and tilt their hoops  
over the heads of the happy fam-  
ily, his relatives took into their  
heads that he was crazy, and  
called upon Judge McDonald to  
have a guardian appointed over  
him. Mr. Cordas was not so mad  
that he did not know what was  
going on. He found out by some  
means what was in the wind, and  
when the jury came to examine  
into the case, the lunatic could  
not be found. He had packed up  
and gone a pleasure trip to Min-  
nesota. The alligators, the snakes,  
the birds, and the bullfrogs are  
awaiting the return of their mas-  
ter, and so is the Probate Court.

The dome of the Invalides is  
about to be regilded—an opera-  
tion which has not been performed  
since the first empire—when Na-  
poleon thought it necessary, in  
order to distract public attention  
from the disasters of the Russian  
campaign. A contractor has un-  
dertaken to do the work for eight  
thousand pounds.

**RATHER EXPENSIVE DRINKING.**  
—Prince Metternich, who has had  
the contents of his cellars at  
Johannisberg, removed to Paris,  
and, it is said among his liquid  
treasures, some bottles of the fa-  
mous Rosenwein, which were given  
by the town of Bremen to his  
father after the signing of the  
treaty of Vienna. These bottles,  
according to the arbitrary value  
set upon them, are in them else-  
where a princely fortune, each bottle be-  
ing worth upwards of a million  
francs, or about \$200,000. A  
barrel of Rosewine, in 1624, when  
it was first made, cost as much as  
1,200 francs. During the occupa-  
tion of Bremen by the French,  
a barrel of this wine was captured  
by a troop of soldiers, and an-  
other sent to Paris as a trophy.  
All the rest had been hidden  
from the invaders by the munici-  
pality.

A strange story is told of  
two sisters at Berlin. About  
three years ago one of these young  
ladies was engaged to be married,  
but on the bridal morning became  
so ill that she could not possibly  
go to the church. The bride-  
groom was a desirable one, and  
he was a fish who, it seems, had  
not easily been hooked. There  
was, therefore, great danger in  
delay, so instead of postponing  
the marriage, the second sister  
covered herself in a long veil, per-  
sonated the first, and duly went  
through the ceremony. The mo-  
ment it was over she transferred  
the bridal dress and ornaments to  
her sister, who, in her innocence  
was thus considered to have all  
proper claims to this husband she  
had married by proxy. It is only  
recently that the discovery has  
been made of the real facts, and  
proceedings are to be taken not  
only in the civil, but also in the  
criminal courts of Berlin.

**A BEAUTIFUL EASTERN BELIEF.**  
—Two angels keep watch upon  
each mortal—an angel on the  
right, and an angel on the left,  
taking note of every word and ac-  
tion. At the close of each day  
they fly up to Heaven with a  
written report, and are replaced  
by two similar ones on the follow-  
ing day. According to Eastern  
tradition, every good action is re-  
corded ten times by the angel on  
the right; and if a mortal commit  
a sin, the same benevolent spirit  
says to the angel on the left—  
"bear seven hours to record it;  
peradventure he may repent and  
pray, and obtain forgiveness."

The London Times says the se-  
cret of the military strength of  
Prussia is that for every soldier  
of her regular army she has five  
men of a reserved force, each  
man practically as good as him  
with the force in the field. The  
regular army merely represents a  
portion of the entire army on duty  
for the time. The reserves are  
simply troops not on duty, but  
just as competent for duty if  
their services should be required.  
A Prussian soldier is made by a  
service of five years, commencing  
at the age of twenty one. But  
of this short term of service only  
half only is passed in the regular  
army, the other half being spent  
in the army of the reserve.

**"DESTROYING ANGELS" AFTER  
THE EDITOR OF "THE SALT LAKE  
VEDETTE."**—"Monday night, about  
half past seven o'clock," says the  
editor of the Salt Lake Vedette,  
"as we were walking along Sec-  
ond South Temple street, near  
our office, in company with the  
foreman and one compositor from  
the Vedette establishment, we  
were suddenly seized by a band of  
ten or twelve armed and disguised  
ruffians, who dragged us several  
blocks to a remote part of the  
city, where with four cocked re-  
volvers to our heads we were  
forced to promise an immediate  
emigration from Utah, after  
which we were permitted to go at  
large, with no further injury than  
a dilapidated suit of clothes and a  
few more bumps on our cranium  
than phrenologists can consist-  
ently account for. Our foreman  
was seized at the same time and  
dragged to the vicinity of the  
place where we were released,  
and then set at liberty. Our  
second companion succeeded in  
making his escape in the start, to  
which fortunate fact we must give  
credit for getting off as easy as  
we did, as a rescue party was ev-  
idently expected by the assailants."

He says, however, that the  
promise was extorted from him,  
and according to his views, in-  
valid; and that any of the cow-  
ardly dogs who wish satisfaction  
can get it by meeting him singly,  
by daylight, at any time, place,  
or in any manner that suits them

**HEAVY ROBBERY.**—Mr. Glenn,  
Paymaster of the regular army,  
sent a box of treasure containing  
about \$181,000 in legal tenders  
and notes, from the stage office  
at Boise City to the Fort, a little  
less than a mile distant, in charge  
of a wagoner. The wagoner de-  
posited the box at the garrison,  
and the Major, considering every-  
thing all safe, went to the quarters  
of a brother officer to take sup-  
per with him. During supper  
time the box was abstracted, and  
notwithstanding the arrest of sev-  
eral soldiers, no trace of the miss-  
ing treasure could be found.—

Now—"Now" is the constant  
syllable ticking from the clock of  
time. "Now" is on the banner  
of the prudent. "Now" is the  
watchword of the wise. Let us  
keep this little word always in  
view, and when everything pre-  
sents itself to us in the shape of  
work, whether mental or physical,  
we should do it with all our might,  
remembering that "now" is the  
only time for us.

**AN OPPOSITION CABLE.**—Thus  
early is the Atlantic cable prom-  
ised a competitor. The "Ameri-  
can Atlantic Cable Telegraph  
Company," a purely American  
concern, is forming at New York,  
with \$10,000,000 capital, sixty  
percent of which, is to be paid  
within two months. W. S. Worl  
is President of the Company, and  
R. M. Davis Treasurer. The  
route is from New York to Ber-  
muda, Va. Cape Charles Virginia,  
thence to the Azors, and thence  
to Lisbon, Portugal.

A silk factory has been  
started in San Francisco.

It seems, notwithstanding the proclaimed intention of the French Emperor to withdraw his troops from Mexico and the determined opposition Maximilian has met at the hands of the Mexicans, he is not yet willing to give up his darling project of saddling his government permanently upon that people. It is now announced that he intends taking the field in person and fighting in his own cause, but unless he proves to be an abler general than he has a statesman, the Liberal party need not fear of meeting a more formidable commander in him than those they have already had to encounter. It is thought now that Napoleon will only withdraw skeleton regiments, leaving behind the majority of his soldiers who can then enter the army under Maximilian, making an appearance of evacuating the country while in reality it is but a sham. That Mexico will eventually be rid of her foreign enemies, there is not the slightest doubt; but whether they will succeed in accomplishing the object themselves, unaided, or whether the United States will ultimately interpose armed assistance in their behalf, is a question yet to be decided.

Louis Napoleon has made himself a record for treachery in his dealings with other nations, as well as with the French people, that that of few monarchs has ever equaled—always working persistently, cunningly and basely for his own selfish purposes, not caring what wrong was done, so he succeeded in his aims. In his present attempt to evade his promise to withdraw his troops from Mexico, he is doing covertly what he dares not do openly, and may yet force the United States to teach him a lesson of wisdom through the stern measures of war.

Professor Chas. Herman, the wizard, and C. S. Barry, the celebrated one-string violinist, will arrive here in a few days, and give one of their chaste entertainments. The exhibitions of Messrs. Herman and Barry are spoken of by papers in places where they have performed as being good, and we have no doubt they will give satisfaction to those who may go to see them.

Banking in China.

Banks were organized in China many hundred years ago and there have been times when the currency of that antiquated and horrible land was much inflated by paper issues of the pigtailed, blind-writing cashiers.

The "cash" is the only native China money now current, and one thousand of these pieces are equal to \$1 40. The native bullion is called "eycee," and the ingots weigh from five to fifty taels. The "tael" is equal to 1000 cash. On the coast, silver dollars are in use among the traders. The bills of the Chinese banks are of a variety of denominations, ranging from a very small amount to the value of thousands of dollars, and, curious enough, when we consider the imitative character of the Chinnamen, are seldom counterfeited. The holders of the genuine notes are, however, often troubled by the most sudden bankruptcy of their makers.

In case of a refusal of a bank to cash its paper promises on demand, the enraged holders of the suspended paper make a sudden raid upon the dishonorable institution, "gutting" the establishment at once, and carrying off everything, even to the timbers. The penniless vagabonds of the streets are generally upon the alert for the sport, and "go in" with the bill-holders for a share of the plunder. What would the specious State Banks of Wall street think of such a run for cash as this?

Ten years ago there was a first class panic among the paper money owners of the Celestial land, and the "cleaning out" of banks described above, grew to be of an every day occurrence. The viceroy came to the rescue of the corporations. He arrested and decapitated in the street opposite a bank, without the use of the clumsy machinery which we call a law court, a coolie and a trader who had, without any bills in their possession, joined in a riotous run upon the currency-making institutions.

Money at once grew easier in the vicinity, and in a short time the banks were, as we say, in a condition to accommodate their customers at current rates. These, in China, are high enough to satisfy one of our down town pawn brokers, ranging, as they legally do, from 10 to 36 per cent. per annum.

A new bank in China is not opened without a feast. To this all the neighboring well established bankers and "prompters" are invited, and their acceptance of the invitation places the seal of respectability upon the new comer, and its circulating notes are thenceforth received all around and at the "Clearing house."

We learn from John N. Todd, agent of the Holladay Mail and Express Line, that the service, by order of the Postmaster General, is to be increased to a daily line from Salt Lake to the Dallas by the way of Walla Walla, W. T. The new arrangement will take place as soon as the additional stock required can be procured and distributed along the line, probably within a month. The travel between here and Salt Lake is steadily increasing, and the order for a daily line has not come too soon.—*Idaho Statesman.*

SAILED—The ship Mary Glover sailed on the 25th inst. from Port Discovery for San Francisco, with 500,000 feet of lumber to S. L. Mastick & Co.

A PYRAMID IN THE WEST.—We find the following in a late number of the New York Times, and give it for what it is worth: "A party of five young men, while on an exploring expedition recently along the Colorado river, discovered an immense pyramid on a barren plain. It is composed of layers of stone from eight to ten inches to nearly three feet in thickness, and from five to ten feet in length. It had a level top of more than fifty feet square, though it was evident that it had been completed, and that some great convulsion of nature had displaced its entire top, as it was evidently lying on one of its sides, a huge and broken mass, nearly covered by the sands. Its present length is 104 feet, and it must have been formerly full twenty feet higher. This pyramid differs in some respects from the Egyptian pyramids. It is, or was, more slender or pointed; and while those of Egypt are composed of steps or layers, receding as they rise, this American pyramid was, undoubtedly, a more finished structure. The outer surface of the blocks was evidently cut to an angle that gave the structure, while new and complete, a smooth or regular surface from top to bottom."

The United States Commissioner for the Paris Exhibition writes from that city, strongly urging that prominent American features of the Paris General Exhibition in 1867 should be a model schoolhouse, with all its modern appliances, school books and apparatus, and with teachers and scholars, sent over for the purpose. The following is an extract from the letter of Mr. Beckwith:

"I regret that none of our people have had the enterprise to get up a model district school, with an intelligent report on its organization and operation, showing how well it is adapted to the physical, moral, and intellectual training and well-being of young people, giving also statistics of our schools throughout the United States. This would have presented a proper subject for competition in the class of prizes where distinction is most desirable, and I think would have secured an award that in money value would have been equal to the expense plus the great honor of such an award."

Were the idea to be carried out there certainly would be no difficulty in procuring subscriptions among the friends of education amply sufficient to pay the expenses.

A confirmed toper was bothered how to honor his birthday. A brilliant idea struck him. He kept sober.

Lake Washington COAL MINES.

The road on the east side of the Lake, in process of construction, is now nearly completed, and it is the intention to open these mines immediately. Proposals are invited from parties, to engage in the transportation of coal from the mines to Seattle, either by the way of Black and Dwamish rivers, or across the Lake, or by both routes. The proprietors will undertake to furnish any amount of coal at the mouth of the mines, which the parties bidding may engage to transport. Bids may be put in for the separate parts of each route, or for the whole. The latter will be preferred.

For further information, inquire of Dr. J. Settle, who is authorized to receive the bids. The proprietors reserve the right of rejecting any or all bids, nor will they obligate themselves to accept the lowest bid, unless the execution of its terms be fully guaranteed. Seattle, W. no Medicine so efficacious in removing humors from the blood as SCOVILL'S BLOOD & LIVER SYRUP. It is recommended by Physicians in all parts of the country, for the cure of Scrofula, and other diseases of the Cuticle. Pimples or Sores indicate that the system is out of order. Unless something is done to cleanse the blood of these impurities, the result may be a more serious disease, such as Scrofula, Syphilis, etc. Those who wish to find a most efficacious remedy, and yet have no confidence in Patent Medicines generally, will never regret a trial of Scovill's Blood and Liver Syrup.

Essence of Jamaica Ginger.

This valuable preparation containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period. It gives immediate relief to nausea, caused by riding in a railroad-car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

PUGET SOUND WEEKLY. MONDAY, October 29, 1866.

A Masked Battery.

A few days since, Mr. Kellogg and Mr. Shorey, while walking out on the hill near town, found an unexploded shell, thrown there from a gun of the United States war steamer Massachusetts, some years ago, during the Indian war in this section. They put the shell into a hollow stump, set fire to the stump, and retired some distance to await the result. After waiting some time, the shell not exploding as they anticipated, they came to the conclusion that it would not go off, and they went away. Shortly after their leaving Mr. Horton came along and stopped within a few feet of the burning stump, with his back to the fire. He had stood but a few minutes in that position when the shell exploded, fortunately, however, none of the pieces striking him; though the concussion produced by the explosion, knocked him some ten or fifteen feet, while his hat took a journey on its own hook in another direction. Mr. D. gathered himself and hat up, somewhat astonished and demoralized, and left the vicinity without standing upon the order of his going, not knowing where another battery might be located, or what outlandish kind of an infernal machine would open upon him with shell next. We do not know whether the gentlemen who engineered the machine are fully satisfied with their first performance or not, but Mr. Horton, doubtless, can testify that the performance created quite a sensation in the audience—most emphatically bringing it down.

We are requested to remind citizen of this county who have not paid their taxes for the present year, that on the first of November ten per cent will be added to their taxes, which additional sum can be saved by paying up before that time.

In another column will be seen a notice inviting proposals to freight coal from the Lake Washington coal mines to Seattle. It is an excellent opportunity to engage in a good, paying business, and one that it is an object to secure.

Messrs. Newton & Tripp have opened a shipping office in Port Townsend. This, we believe, is a new business on the Sound, and will be a great advantage to Captains of vessels in want of hands. See advertisement in another column.

Professor Newton, of Yale College, announces a flight of meteors to take place on the morning of the 13th and 14th of November next, similar to the one witnessed in 1833.

We are again indebted to Captain Finch, of the steamer Anderson, for favors.

[SPECIAL TO THE WEEKLY.]

EASTERN NEWS.

FOREIGN NEWS.

The steamer Scotia brings the following news:—A Florence dispatch says the following are the principal conditions of the treaty of peace between Austria and Italy; the frontiers to be added to Italy are those which constituted the frontiers of Venetia, while under the Austrian rule. The amount of debt assumed is 35,000,000 florins, payable in eleven installments in 24 months. Venetia is transferred to Italy with its assets and liabilities; its assets are 3,500,000; its liabilities 63,000,000 florins. Venetians residing in Austria are to have the right of preserving their Austrian nationality if they desire; all objects of art belonging to Venetia will be restored. The iron crown of Lombardy will also be given up to Italy. Treaties which formerly existed between Austria and Sardinia will again come into force a year, during which period fresh arrangements can be concluded. Private property belonging to political prisoners which had been sequestered by the Austrian Government is to be restored with the reserve of rights of the state for one-third. A complete amnesty will be accorded by both Austria and Italy to all persons condemned for political offenses, to deserters from either army, and to persons compromised by their political conduct.

ST-1860-X.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and that's what's the matter. They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent miasmatic and intermittent fevers.

They purify the breath and acidity of the stomach. They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label. Beware of redilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

MUSTANG LINIMENT.

OVER A MILLION DOLLARS SAVED.

Gentlemen:—"I had a negro man worth \$1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

J. L. DOWNING. Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic." J. W. HEWITT. Foreman American, Wells, Fargo's and Harding's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment." ED. SEELY. Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steelplate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top. An effort has been made to counterfeit it with a cheap stone-plate label. LOOK CLOSELY.

Lyon's Katharion.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out.

It restores hair upon prematurely bald heads.

This is what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for indigestion Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold every where at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION—See that the private U. S. Stamp of Demas, Barnes & Co. is over the cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS. It is well known that Lyon's genuine Flea Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly harmless to the human species and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at the Institute. All classes of complaints are treated; but I consider it my duty to mention those of a special nature, as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive those ignorant of the emptiness of his profession. First among the special complaints is

**Seminal Weakness.**

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

Young men, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its great danger, for while the patient is being treated for some supposed affection of the heart, lungs, brain or digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal weakness. See in the bent form and languishing steps, the poor victim of that fascinating vice! Mark the course of the destructive complaint in the hollow cheek and dull eye! Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspiration. Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepit and degenerate.

**The Records**

of our Institutions for the safety of those who are afflicted with mental troubles, bear fearful testimony of the wide spread and disastrous influences of this dreadful complaint—but such notices as the following, that hardly at the time arrest the eye, give to the world the only intelligence it has:

**Insanity.**

*Sent to the Insane Asylum.*—The following insane persons were examined yesterday by Judge Blake, of the probate court, and sent to the Insane Asylum at Stockton: T. W. Plummer, native of Maine, aged 21 years, single, and by occupation a farmer. His insanity appeared about five months ago, and is the result of secret vice. John Wall is another victim of solitary habits.—*San Francisco Call, Oct. 12, 1865.*

Yet the quotation speaks for itself in unmistakable language. It points out with unerring fidelity to every person afflicted with seminal weakness, one of the ultimate ends of that degrading complaint. At any time before reason became unseated, these poor victims had they read the warning and followed its advice, might have been saved. Let others, similarly afflicted, who have not yet passed the barrier where all hope is left behind, take warning by their untimely fate, and seek that relief which alone can secure them life and happiness. Consult then, at once, a physician whom long practice and research has made thoroughly conversant with every disease; one who will sympathize with your sufferings, giving to each and all assurance of a perfect and permanent cure, without hindrance from business, change of diet, or fear of exposure, or ask compensation for their trouble, and in whose secrecy the utmost confidence can be reposed.

**An unsolicited Testimonial of Cure.**

Let all who are afflicted with Seminal Weakness read the sworn-to certificate first published without the Doctor's knowledge. A remarkable case.  
[Revenue stamp] This is to certify that I was afflicted with Seminal Weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I first had nervous trembling of the limbs, pain in my back, and trouble in

my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally, the fits came on. At first I only had a momentary loss of mind, a dizziness. This grew worse, until in a short time, I would remain in a confused state—for some time after I had them in my sleep. I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now became as frequent as twice or three times a day, seizing me without warning and prostrating me to the earth, where I would remain for an hour insensible. I lost all recollection of persons and things. I could remember nothing for two minutes, but my great suffering, I swallowed bottle after bottle, and box after box of patent medicines. Nothing did me good. In a pair of ever being well, I prayed for death; but I was not to die for help was at hand. My friends visited the Dr. J. C. Young Institute, and I was placed under the care of Dr. Benj. F. Josselyn. I very soon experienced a change; I grew better and better, and I could go to work. My mind became clear; the fits grew lighter; I was soon perfectly free from them, and now, for over two months I have not experienced them at all. All the symptoms of seminal weakness are gone, and I feel as well as I ever did. It is to DR. BENJ. F. JOSSELYN that, under God, I owe my life; and from the gratitude I owe him, I give this, my testimony of his skill and success. If this should induce any one unfortunately afflicted with seminal weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe.

BENJ. BROWN. [Seal]  
[Revenue stamp] Subscribed and sworn to before me this 1st day of December 1864.

Notary Public.

**Important to Persons**

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that Mercury will not cure Venereal, but dries it on the surface, to allow it to poison the blood, to reappear in hideous marks upon the body, and in the throat, mouth and nose. Those who have had any form of Venereal, and were treated with mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues, to be communicated to the wife or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose sore heads, creaked mouths, diseased limbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. Be warned in time and secure health by applying at the Dr. J. C. Young Institute. The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in doors or without. The diet need not be changed. Cure always guaranteed or no pay required. Only purely vegetable remedies used.

**Important to Females.**

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female diseases for 20 years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation, by letter or otherwise, free. See address below. The celebrated female remedies compounded from the private prescriptions of Dr. YOUNG, have now obtained a most extensive popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accumulating testimony of efficacy declare them to be pre-eminently superior in their action. No lady should be without these renovating agents. None genuine unless prepared at this office. Sent by mail or express to any part of the State. The Great Female Medicine—Preventive Powders for married ladies. New, safe and infallible, lasting from four to six months. Price \$10. French Lunar, or Female Monthly Pills, for suppressions. After fifty years of use these pills stand unrivalled in efficacy. Price \$3 per box.

**To Correspondents:**

Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen only by the Doctor, and will be treated with the utmost confidence, and after returned or destroyed. **FRENCH MEDICAL OFFICE.**

**DR. JULIEN PERRAULT.** Doctor of Medicine of the Faculty of Paris, Graduate of the University, Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, but it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Strictures, Boho Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promise. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief.

**FEMALE MONTHLY PILLS.**

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage. Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc. All communications confidential. nol7:1y
