Knocked About in the World.

It is a good thing for a young man to be "knocked about in the world," though his soft-hearted parents may not think so. All youths, or if not all certainly nineteen twentys of the sum total enter life with a surplussage of self-conceit. The sooner they are relieved of it the better. If in measuring themselves they discover that it is unwarranted, and rid of it gracefully, of their own accord, well and good; if not, it is desirable, for their own sakes, that it be knocked out of them. A boy who is sent to a large school soon finds his level. His will may have been paramount at home, but school boys are democratic in their ideas, and if arrogant, he is sure to be thrashed into a recognition of the golden rule. The world is a great public school, and it soon teaches a new pupil his proper place. If he has the attributes that belong to a great leader, he will be installed in the position of a leader; if not, whatever his own opinion of his abilities may be, he will be compelled to fall in with the rank and file. If not destined to greatness, the next thing to which he can aspire is respectability, but no man can be either truly great or truly respectable who is vain, pompous and overbearing.

By the time the novice has found his legitimate social status, be the same high or low, the probability is that the disagreeable traits of his character will be softened down or worn away. Most likely the process of abrasion will be rough—perhaps very rough—but when it is all over, and he begins to see himself as others see him, and not as reflected by the mirror of self-conceit, he will be thankful that he has run the gauntlet, and arrived, though by a rough road, at self-knowledge. Upon the whole, whatever loving mothers may think to the contrary, it is a good thing for youths to be knocked about in this world; it makes men of them.

He knows his nose. I know he knows his nose. He said he knew his nose; and if he knew I know he knows his nose, of course he knows I know his nose.

THE SAD FALL OF A PUBLIC MAN.—A St. Louis newspaper correspondent narrates the following story: Coming down Chestnut street, St. Louis, one day, I was struck by the appearance of an old man past sixty who wore a thread-bare coat, shiny with constant wear, and whose hat was bruised and seedy. His head was bent towards the earth, and his walk was a tottering shuffle, the effect of whisky and old age. He reeled from one side of the pavement to the other, and at last brought up against a lamp-post on the corner, when a young looking loafer coming along, saluted him with, "Hello, Jim! Come and take a drink." The old man's eyes brightened, and arm in arm he sauntered along to the nearest grocery. Five years ago that old man was James Green, United States Senator from Missouri, and in the days of the Kansas and LeCompton matters he was, next to Stephen A. Douglas, the best debater in Congress. But the war broke out, Mr. Green was sent to the rebel congress, soon lost his property, his position and character, and now he is a poor drunkard, and earns barely a pittance of a living as a calaboose scavenger.

A FASTER HORSE THAN DEXTER.—The Boston Traveller has the following: "The horse Dexter having trotted a mile at Buffalo in two minutes and eighteen seconds, is pronounced by the press to be the fastest trotting horse in the country. We think, however, that the Bates mare, recently purchased in this city, by Mr. Bonner, is a much faster animal, and this will be clearly shown if her speed is ever tested. While in possession of her former owner she was once timed on a trotting park in New Jersey, and went a quarter of a mile in thirty seconds. Her driver says that for a portion of the distance, she showed a two minute gait, which is really remarkable for an untrained animal, and it is believed that she can be made to go a mile in two minutes. Mr. Bonner, her new purchaser, as was her former owner, is not an encourager of horse racing, but we hope he will give the public one opportunity to see what this mare, the foal of Pocahontas, sired by Ethan Allen, can do.

A United States soldier stationed at Fort Wayne, Mich., has been convicted of murder in the Circuit Court, and sentenced to be hung. Several years ago capital punishment was abolished by the Legislature of that State, and the criminal cannot be hung within the jurisdiction of that State. To avoid any conflict with the State law, the murderer is to be executed on the Fort Gratiot Reservation, which is United States property.

A wag in Sacramento seeing a man driving a tack into a card through the letter T, of the word Boston, printed on it, seized the latter and exclaimed: "Why what are you about? Don't you know that laying tax on tea in Boston, once, raised a thundering muss there?"

BOAT'S CREW EATEN BY CANNIBALS.—The Royal Mail steamship Norsman, which arrived at Plymouth, England, recently with the Cape mail, brought news of a frightful tragedy perpetrated in New Caledonia, in the Pacific employed as a French convict establishment. The French war steamer Fulton, from New Caledonia, reported that while she had been cruising round New Caledonia a boat was despatched into one of the rivers out of sight of the ship, for some purpose, and not returning, much anxiety was felt for it. The steamer then went up the river in search and upon a small island discovered remains, which left no doubt that the unfortunate seamen had been captured, and then killed and eaten by the natives. The Fulton then proceeded further inland, and some natives who were taken admitted that the conjectures of the ship's crew were correct; that they had come suddenly upon the boats crew, taken them to an island, killed them there by splitting their skulls with an ax, and had then cooked and eaten them. The officers and crew of the ship, highly exasperated at these horrible details, proceeded to take summary vengeance upon the savages, and killed every one they came in contact with, and set fire to their villages. In addition to those who were burned, no less than one hundred and fifty were either shot or bayoneted.

The "boomerang" is a puzzle, and even mathematicians cannot comprehend the law of its action. It is a piece of carved hard wood, nearly in the form of a parabola; it is from thirty to forty inches long, and about three inches broad, pointed at both ends, the concave part a quarter of an inch thick and the convex edge quite sharp. The mode of using it is as singular as the weapon. Ask a black to throw it so that it may fall at his feet, and always goes boomerang for forty feet before him, skimming along the surface at three or four feet from the ground, when it will suddenly rise into the air forty or fifty feet, describe a curve, and finally dropp at the feet of the thrower.

The Paris correspondent of the Star gives the following amusing account of the mode in which the census is now being taken in France: "Two solemn gentlemen in black, each armed with huge registers, ink-bottles and pens, arrive and demand the age, profession, &c., &c., of every individual inhabitant. The intelligence with which the printed forms are filled up is remarkable, especially in country parts. The census lately taken at Euvermu, near Dieppe, contains the following insertion: 'Lous Denis, aged three months; no profession; bachelor.' A little further on: 'Marie Joret, aged eight days, idiom, spinster.'

When the Hindoo priest is about to baptize an infant, he utters the following beautiful sentiment: "Little baby, thou enterest the world weeping while all around the smile; contrive so to live that you may depart in smiles while all around you weep."

Messrs. Herman and Barny gave one of their pleasing entertainments at Plummer's Hall on Thursday evening last. The performance throughout was good, and especially the one-string solo executed by Mr. Barny and the lecture of Miss Black by Professor Herman. The Professor made some spicy hits at men of national reputation, as also some good local hits. Mr. Barny as a violinist has not been equalled by any we have heard in this Territory. Owing to the unfavorableness of the weather, and the hard times, their entertainment was not as well attended as its merit justified.

PASSENGERS BY THE JOSIE MCNEAR.—The following passengers arrived by the steamer Josie McNear, from Victoria, Nov. 8th: M. Morris, O. Hortess, W. Rutland, S. C. Denmen, Andrews, Mrs. Capt. Guindon, O. S. Loreg, W. T. Bowry, J. T. Bowry, Mr. Browne, Clendenin, P. Smally, C. Strong, A. T. Long.

The Active was to leave on Saturday for San Francisco.

Saw the bark Huntsville bound up Sound off Port Townsend.

The President has named the 29th day of November to be observed as a day of national thanksgiving.

THANKS.—The purser of the Josie McNear will please accept our thanks for files of the Sacramento Union, San Francisco Bulletin and Victoria papers.

DOG EAT DOG.—A band of Grosventres and Crow Indians, some distance below Fort Benton, in the fight with the Peagans, slew "Big Leg," the head chief since the death of "Little Dog," besides eight of the small fry of the Peagans. The latter, receiving reinforcements, turned upon the Grosventres, killed 122 and took eighteen prisoners. This is the best news, says the Montana Post, we have heard from the red devils for a long while.

WHITE INDIANS.—The Denver News says that Captain Andrew and party, on their way to the States, came into camp one evening fifty miles east of Fort Kenney. Soon after a commotion was observed among the amass-poked out, when it was found that a party of white men were there, who fired on the Captain's party, mortally wounding one person. The white depredaters were driven off.

President's Thanksgiving Proclamation.

WASHINGTON, Oct. 8th. By the President of the United States—Proclamation: Almighty God, our Heavenly Father, has been pleased to vouchsafe to us as a people another year of that national life which is an indispensable condition of peace, security and progress. That year, moreover, has been crowned with many peculiar blessings. The civil war that was so recently among us has not been anywhere reopened. Foreign intervention has ceased to excite alarm or apprehension. Invasive pestilence has been benignly mitigated; domestic tranquility has improved; sentiments of conciliation have largely prevailed; and professions of loyalty and patriotism have been widely renewed; our fields have yielded abundantly; our reviving industry has been richly rewarded, and we have been allowed to extend our railroad system further into the interior recesses of the country; our commerce has resumed its customary activity in foreign seas. These national blessings demand a national acknowledgment.

Now, therefore, I, Andrew Johnson, President of the United States, do hereby recommend that Thursday, the 29th day of November next, be set apart and be observed everywhere in the several States and Territories of the United States, by the people thereof, as a day of thanksgiving and prayer to Almighty God, with due remembrance that in His temple doth every one speak in His honor. I recommend, also, that on the same solemn occasion we do humbly and devoutly implore Him to grant to national councils and to our whole people the divine wisdom which alone can lead any nation into the ways of all good.

In offering these national thanksgivings, praises and supplications, we have the Divine assurance that the Lord remaineth a King forever; those that are meek will He guide in judgment, and such as are gentle shall He learn His way; the Lord shall give strength to His people, and the Lord shall give to His people the blessing of peace.

In witness whereof, I have hereunto set my name and caused the seal of the United States to be affixed. Done at the city of Washington the 8th day of October, in the year of our Lord 1866, and of the independence of the United States the ninety first.

ANDREW JOHNSON.
By the President: Wm. H. Seward, Secretary of State.

BURNS' COTTAGE FOR SALE.—Mrs. Anna Cora Mowatt Ritchie writes from England that the cottage of Robert Burns—"the old clay higg'in" in which the poet was born—is for sale. It is owned by the Ayr Incorporation of Shoemakers, and they have now felt compelled to offer it to the highest bidder, for the sake of increasing the yearly allowances of their aged members. If Scotch men show a proper spirit, the spot, consecrated by the birth and hallowed by so many memories of the great yet lowly lyric genius, would not long remain unpurchased, but made the property of the general people.

SANDWICH ISLANDS.—Stephen Henry Phillips, formerly Attorney General of Massachusetts, arrived at Honolulu, Sept. 19th, and was commissioned by the King as Attorney General of the Kingdom. He had been sent for by the King for that purpose.

Gold Mines in Maryland.

For several months explorations have been making for gold in Montgomery county and near Washington City. The Rockville Sentinel now gives the following interesting statement:

The facts show that the presence of rich gold deposits within a few miles of Washington is no longer problematical. "The Maryland Mining Company," composed principally of Philadelphians, were the pioneers. They bought a tract of land, about two miles below the great Falls of the Potomac, of some one hundred and twenty acres. They have sunk several shafts, and in these have found several well defined veins of gold-bearing quartz, which assays from \$40 to \$2,500 per ton. Having demonstrated the abundance and richness of the quartz, they have erected a large steam quartz mill for the reduction of these ores, and will be ready to put it in operation in a couple of weeks from this time. The abundance and richness of the quartz has created a great demand for the stock of the Company. Adjoining the "Maryland" mines, and within a few yards of their openings, the veins enter the "Henry" tract, now owned by Messrs. Mace and Metcalf, Rigour, Deitrick and Casey, of Washington City. This is a large tract, containing 500 acres, and having five veins, each a mile in length, through it. Some of these veins have been opened and are found to be exceedingly rich. We have seen a number of specimens from this tract that are very rich, containing large quantities of gold, apparent to the naked eye. Near by are the "Homilier" tract, owned by Dr. Kidwell, Marshall, Lamou and others, and the "Manchester" farm, owned by Judge Casey and others. All of these contain the veins, and promise the same richness that the others exhibit. Immediately above the "Cabin John" bridge are the lands of the "Union Arch Gold Mining Company," organized with a capital of \$2,000,000. They are sinking shafts, &c., and their preliminary assays show the same richness exhibited above. In addition to these are several other parties operating on the Virginia side of the river, and these explorations are developing large veins of copper, copper sulphurates, pyrites of iron, silver, lead, &c., besides giving indications of the presence of gold in very considerable quantities. Experienced miners and skillful mining engineers have visited the region lately, and they all concur in the opinion that, when developed, these will be among the richest miles in the country.

NEW LUMBERING ESTABLISHMENT.—We learn that a company has been formed under the title of the St. Helens Milling and Lumbering Company, with the intention of immediately commencing the erection of a large and powerful mill, capable of turning out 25,000 feet of lumber every ten hours. The stakes are already set, and workmen are being procured to go down to St. Helens to establish a door and sash factory in connection with their mill, as the timber procurable in the vicinity is first rate for such purpose.—Oregon Herald.

Hazard Stephens, son of the late I. I. Stevens, has been appointed Captain of the Fourteenth United States Infantry.

The bark Oak Hill, 19 days from San Francisco, arrived at Port Blakely November 5th.

The road on the east side of the Lake, in process of construction, is now nearly completed, and it is the intention to open these mines immediately.

Proposals are invited from parties, to engage in the transportation of coal from the mines to Seattle, either by the way of Black and Duwamish rivers, or across the Lake, or by both routes. The proprietors will undertake to furnish any amount of coal at the mouth of the mines, which the parties bidding may engage to transport. Bids may be put in for the separate parts of each route, or for the whole. The latter will be preferred.

[SPECIAL TO THE WEEKLY.]

CALIFORNIA.

Los Angeles, Oct. 17.—The last report from Hardyville gives the news of a fierce engagement between the Indians who murdered the miners in the Sacramento District and the citizens who went in pursuit of them. The fight resulted in the killing of fifty Indians. No whites were reported killed in the encounter.

I also learn from a reliable source that Mr. Herman Ebernberg, well known in California, was killed while on his way to La Paz. He was stopping for the night at Dos Dolores Station, and in the night the Indians attempted to steal his mule. He was sleeping outside the house, and on rising to prevent the taking of the animal he was discovered and shot dead.

The Catholic Church at San Bernardino was destroyed by fire on the 2d inst. The Catholic ladies of Los Angeles are giving an entertainment to rebuild the Church.

San Francisco, Nov. 3.—The British ship Augerovia, from Puget Sound, arrived at Shanghai on August 26th.

EASTERN NEWS.

Chicago, Nov. 3.—The Maryland imbraglio attracts considerable attention. Governor Swan concluded the trial of the Police Commissioners on Wednesday night, and removed them on Thursday morning, appointing James Young and Wm. L. Valliant. The old Board refused to surrender the office, and the new Board made a proclamation inviting all good citizens to recognize their authority and keep the peace. Much solicitude prevails here concerning the troubled condition of affairs in Baltimore. It is reported that troops were to-day sent to that neighborhood, to be ready in case of an emergency. If there should be any hostile demonstrations on the part of the authorities, the U. S. Government will declare the city under martial law for the purpose of preserving the peace.

San Francisco, Nov. 4.—The steamer Sacramento arrived this morning from Panama.

Baltimore, Nov. 4.—The counsel for Gov. Swan's new commission made application for a writ of habeas corpus to bring out parties now held in custody; the writ to be issued to-morrow seems inevitable. Both sides expect it, and are prepared for it; each wants the other to take the initiative; there is a strong guard of Radical police, both regular and special at the Commissioner's headquarters, and at every police station in the city, besides several thousand boys in blue, ready for action at moment's call. The Conservative force is equally

well organized, and is more confident, from the belief that the Federal force now here (about 4000) will assist in the event of a fight. Grant arrived at midnight.

New York, 4.—The Prince of Wales leaves England for Russia on the 5th of November, with a numerous suit, to attend the marriage of the Princess Dagmar with the Czarevich.

The Standard theatre, at the East End of London, was burned on the 21st ult.

An extraordinary excitement prevails in Hongkong in consequence of a threatened Stamp Act, which had been brought up in the Legislature.

New York, Nov. 4.—The famine in India is almost ended, and the plentiful harvest bids fair to restore the country to its usual prosperity.

Washington, 5.—The Mexican Minister has received a letter from Vera Cruz, dated October 25th, stating that Maximilian left the city of Mexico on the 23d ult., resigning virtually in favor of General Bazaine. General Castlneau reached Mexico soon after Maximilian left, and took possession of the place, and assumed the reins of government. The French soldiers who had enlisted under Maximilian's colors will be returned to France.

General Diaz had captured the city of Oaxaca.

Toronto, C. W., Nov. 5.—The Fenian trials were resumed to-day. The trial of Benjamin Parry was proceeded with; the jury retired for an hour, and returned a verdict of not guilty.

A letter has been received by Harrison, one of the Crown prosecutors in the Fenian trials, informing him of an organization in the Western States for the purpose of assassinating those engaged in prosecuting the Fenians in Canada.

The 10th regiment, just out from England by the steamer Pennsylvania, arrived yesterday. There are now in British America about 15,000 troops of the regular British army, of whom 9,000 are in Canada.

New York, Nov. 5.—General Grant has gone to Baltimore to see if he can't arrange the difficulty between the police commissioners.

Washington, 5.—The President to-day issued an order for the reinstatement of General Sweeny to his former position in the regular army.

The Tribune says the hunting party including Viscount Conthwell who were reported killed returned in safety yesterday.

The Herald's Toronto special says another raid was expected from Buffalo on Saturday night during the Fenian demonstrations on the occasion of arrival of the captured arms recently restored by order of President Johnson. Mass meetings of the Brotherhood were held at Buffalo and Indianapolis on Saturday night, in which retaliatory measures were threatened if the execution of

Lynch or McMahon took place.

New York, 6.—General Sherman and Colonel Campbell, our new Minister, will sail for Mexico in a few days, to assume the protectorate over that republic.

Chicago, 8.—The Fenian trials in Toronto continue. Stephen Denin was yesterday sentenced to be hung on the 13th of December. Several others have been acquitted, including the Episcopal Minister Lumsden, who was proved to be on a drunken spree and not at Buffalo and not responsible for his actions. New trials have been demanded for Col. Lynch and Father McMahon.

New York, 8.—The Susquehanna is now in Brooklyn navy yard nearly ready to depart for Vera Cruz with Minister Campbell and Gen. Sherman, who expect to proceed direct to the City of Mexico.

New York, 7.—Mexican dispatches via Havana confirm the news that Maximilian has abdicated.

New York.—The Great Republic, the first vessel of the Pacific Steamship Company's new line, will be launched to-morrow morning. This ship is the largest and finest ever built in the United States.

FOREIGN NEWS.

London, 7.—It is said preparations are quietly progressing in Ireland to meet the probable Fenian rising. It is said that the insurrection in Canada has ended.

Toronto, 8.—The Leader says the Fenians will not be hung, but punishment will be proportionate to the crime, with perhaps an admixture of royal clemency.

The Canadian Government has resolved to commute the sentence of Lynch and McMahon.

The State elections in the East resulted in large Republican majorities. New York, Massachusetts, New Jersey, Michigan, Wisconsin, Illinois, Missouri, Minnesota and Kansas have given large majorities for Republican candidates; Maryland and Delaware Conservative.

NEGRO HUMOR.—A Virginia rebel, who has issued a book giving his experience as a prisoner in the hands of the Federals at Point Lookout and Elmira, tells the following story:

The boys are laughing at the summons which S., one of my fellow Petersburgers, got to-day from a negro sentinal. S. had on when captured, and I suppose still possesses, a tall beaver of the antique pattern, considered inseparable from extreme respectability in the last decade, and for many years before. While wandering around the inclosure, seeking, I suspect, "what he might devour," he accidentally stepped beyond the "dead line," and was suddenly arrested by a summons from the nearest negro on the parapet, who seemed to be in doubt whether or so well dressed a man could be a "reb," and therefore whether he should be shot at once.

"White man, you b'long in dar."
"Yea."
"Well, ain't you got no better sense dan to cross dat line?"
"I did not notice the line."
"Well, you had better notice it, and dat quick, or I'll blow half half dat nail knag off!"

REDINGTON & CO'S

Essence of Jamaica Ginger.

This valuable preparation containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to nausea, caused by riding in a railroad-car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

PUGET SOUND WEEKLY.

MONDAY, November 12, 1866.

The National Finances.

The New York Times, in alluding to the advancement of the prices of our national securities, states that the foreign demand has reached to the five twenties of 1864 and 1865, and that near three million dollars worth of the last named date have been taken in three days for transmission to Europe, where it is anticipated they will be speedily given recognition as a security equal in every essential characteristic to the original issue, which bears only the same rate of interest in coin, and which has three years less to run to the maturity of the privilege and obligation of the Government to redeem. In this connection the Times gives the following, the present and prospective condition of the national revenues:

The revenues of the Treasury Department not only keep up to the old average, but are yielding with growing liberality. The national income from excises now averages about eight millions a week; and from custom duties, from three and a half to four million dollars in coin a week. By reducing the customs revenue to currency on the basis of gold at 147 1/2, we have a grand weekly average income equivalent to about thirteen and a half millions, which not only enables Secretary McCulloch to pay as he goes, but to make a wholesome reduction of arrearages, while also contributing materially to facilitate the funding process, the necessary preliminary to a resumption of specie payments, and to the final liquidation of our national indebtedness, consummations which everybody devoutly wishes for. At present the actual working expenses of the Government cannot be much over five millions a week, which leave, out of the current weekly revenue, a margin of over eight millions in lawful money to be applied to the payment of such portions of the public debt as are presently redeemable at the option of the Treasury Department. A surplus of eight millions a week from the national income would afford the means to rid us of the whole of our indebtedness long before the centennial anniversary of the nation's birth day, if our bond holding creditors should see fit to present their claims for adjustment. We do not, of course, anticipate that the public revenues will, as at present, uniformly exceed the public expenditures by equal to more than eight millions a week.

Niagara Falls.—An enthusiastic old fellow and his wife recently visited the Falls. They worshipped the falls all day from the piazza in front of their room, and retired talking over its wonders. At an early hour the next morning the old gentleman was on the qui vive, and as soon as he saw the Falls again he sang out: "Wife, wife! I'll be darned if the water ain't still going over the dam!"

A New Hampshire paper mentions that a wealthy gentleman, who was once a poor boy, is building a hotel to cost \$70,000, on the spot where he was once put off the cars because he hadn't money to pay his fare.

The Post office at Olympia has been designated as a "money order" office.

The Tragedy in Coeyman's Hollow.

We hear of a sad and fearful tragedy that occurred yesterday afternoon in Coeyman's Hollow, in this county. Very few particulars reached the city last night, but such as they are run thus: A young man named Palmer had been paying his attentions for some time to a daughter of Archibald Stevens, and finally became engaged to marry her. Learning of this engagement, the father, who had taken a dislike to Palmer, became exasperated and forbade him the house, and at the same time cautioned his daughter against seeing or speaking to him thereafter. This was some months ago, and during all this time, and until yesterday, he managed to keep his daughter so close at home that it is thought they did not meet. Yesterday, however, during a brief absence from his house, he learned that Palmer and his daughter had met, and had gone off together in a wagon Coeyman's Hollow, which is about two miles from his home. He immediately started in pursuit, and met Palmer at Coeyman's Hollow, near the house of Electa Shear, but his daughter was not present. Palmer entered the house hurriedly, saying, as he hastened up-stairs, "Where shall I go? Stevens says he'll shoot me." Stevens, following close behind, was heard to ask, "Where's my daughter?" and a moment after the inmates of the house, all of whom were in the rooms on the first floor, heard two or three pistol shots. The next instant Palmer ran down stairs, hatless and the blood streaming down one side of his face, and as he passed through the front door, he exclaimed, "I've shot Stevens!" A few minutes after he was seen riding out of the village, with the girl beside him in the wagon. In the meantime, Shear's family ran up-stairs, and found Stevens quite dead from a pistol shot which had entered his cheek and pierced his brain. There is no doubt that Palmer was also shot, as a bullet was found in his hat. Stevens was a wealthy farmer and a man of excellent reputation, and it is also said that the character of Judson Palmer has hitherto been good. One cause of Stevens' aversion to the marriage was that his daughter was only fourteen years old.—Albany, N. Y., Argus.

A late London letter announces the arrival there of John C. Breckinridge and family from Canada, looking old, careworn, and seedy. The letter further says Judah Benjamin was sharp enough to get three or four thousand pounds out of the Confederate "pile," which is now exhausted, and poor Wigfall is very dejected that he couldn't get any. Wigfall wears old clothes and a battered hat, and is the best customer of cheap gin shops in the neighborhood of Laughman's.

Truth is the most powerful thing in the world, since fiction itself must be governed by it, and can only please by its resemblance. The appearance of reality is necessary to make any passion agreeably represented, and to be able to move others we must be able to move ourselves, or at least seem to be so, upon some probable grounds.

The quantity of glass panes necessary for the Exhibition Palace in Paris would suffice to cover eight hectares (twenty acres)—that is to say, eighty thousand square feet.

EASTERN NEWS.

The British Government has renewed its proposition for a mixed commission to arbitrate the Alabama claims.

New York, November 9.—General Sherman arrived here last night, and the Susquehanna lies anchored off the battery awaiting the departure of our distinguished envoys.

A correspondent who left the city of Mexico on the 22d ult., and Vera Cruz on the 26th, says Gen. Castlenau arrived at the Capitol on Monday night. Everything was silent there and all sorts of rumors as to what the new policy will be. The whole country is infested with gurrillas, professedly Liberals, but really bandits, who are using these unsettled times for personal plunder.

FOREIGN NEWS.

London, 8.—The case of the rebel steamers seized at Liverpool, which was before the Admiralty Court, has been allowed to stand over, and it is believed will be properly adjusted.

Paris, Nov. 8.—Transports are ready to bring the French troops from Mexico.

SHIPPING.

San Francisco, 9.—Arrived—Whaling bark Endeavor, 25 days from Oebotok Sea; Hugh Barclay 21 days from Port Ludlow; brig Hattie Jackson, 23 days from Petropoloski.

An interesting suit is pending in Richmond, Va., growing out of alleged purchase before the war, of twenty-three hundred hogsheads of tobacco were burned on the fall of Richmond, and the rest was stored. Colonel Loomis claims the tobacco as abandoned property, but an injunction has been issued at the suit of the Rothschilds restraining him from removing it.

The Gold Hunter, and Coquimbo arrived at Port Madison on 10th.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind.

They prevent miasmatic and intermittent fevers. They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

MUSTANG LINIMENT.

OVER A MILLION DOLLARS SAVED.

Gentlemen:—I had a negro man worth \$1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure." J. L. DOWNING, Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT, Foreman American, Wells, Fargo's and Harding's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment." ED. SEELY, Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steelplate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. LOOK CLOSELY.

Lyon's Katharion.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out. It restores hair upon prematurely bald heads.

This is what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for indigestion Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold every where at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION—See that the private U. S. Stamp of Demas, Barnes & Co. is over the cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnolia Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly poison to the insect tribe, but entirely harmless to the human species and domestic animals.—The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit.—Any druggist will procure the genuine if you insist you will have no other. Oct. 8, 1866-n29-1y.

MEDICAL INSTITUTE!
 ESTABLISHED BY
DR. J. C. YOUNG IN 1850.
 536 Washington Street,
 Below Montgomery,
 San Francisco, California.

Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at the Institute. All classes of complaints are treated; but I consider it my duty to mention those of a special nature, as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive those ignorant of the emptiness of his profession. First among the special complaints is

Seminal Weakness.

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

Young men, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, ailing being. It is not a disease that declares itself at once. The poison lies its great danger; for while the patient is being treated for some supposed affection of the heart, lungs, brain or digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal weakness. See in the book form and languishing steps, the poor victim of that fascinating vice! Mark the course of the destructive complaint in the hollow cheeks and dull eye. Drowsiness is one of the precursory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your four hopes and blast your honest aspiration. Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepit and degenerate.

The Records

of our institutions for the safety of those who are afflicted with mental troubles, bear fearful testimony of the wide spread and disastrous influences of this dreadful complaint—but such notices as the following, that hardly at the time arrest the eye, give to the world the only intelligence it has:

Insanity.

Sent to the Insane Asylum.—The following insane persons were examined yesterday by Judge Blake, of the probate court, and sent to the Insane Asylum at Stockton: T. W. Plummer, native of Maine, aged 21 years, single, and by occupation a farmer. His malady appeared about five months ago, and is the result of secret vice. John Wall is another victim of solitary habits.—San Francisco Call, Oct. 12, 1865.

Yet the quotation speaks for itself in unmistakable language. It points out with unerring fidelity to every person afflicted with seminal weakness, one of the ultimate ends of that degrading complaint. At any time before reason became unseated, these poor victims had they read the warning and followed its advice, might have been saved. Let others, similarly afflicted, who have not yet passed the barrier where all hope is left behind, take warning by their untimely fate, and seek that relief which alone can secure them life and happiness. Consult then, at once, a physician whom long practice and research has made thoroughly conversant with every disease; one who will sympathize with your sufferings, giving to each and all assurance of a perfect and permanent cure, without hindrance from business, change of diet, or fear of exposure, or ask compensation for their trouble, and in whose secrecy the utmost confidence can be reposed.

An unsolicited Testimonial of Cure.

Let all who are afflicted with Seminal Weakness read the sworn to certificate first published without the Doctor's knowledge. A remarkable case. [Revenue stamp.] This is to certify that I was afflicted with Seminal Weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I first had nervous trembling of the limbs; pins in my back, and I quibled

my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the fits came on. At first I only had a momentary loss of mind, a dizziness. This grew worse, until in a short time, I would remain in a confused state—for some time after I had them in my sleep. I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now became as frequent as twice or three times a day, seizing me without warning and prostrating me to the earth, where I would remain for an hour insensible. I lost all recollection of persons and things. I could remember nothing for two minutes, but my great suffering, I swallowed bottle after bottle, and box after box of patent medicines. Nothing did me good. In despair of ever being well, I prayed for death; but I was not to die for help was at hand. My friends visited the Dr. J. C. Young Institute, and I was placed under the care of Dr. Benj. F. Josselyn. I very soon experienced a change; I grew better and better, and I could go to work. My mind became clear; the fits grew lighter; I was soon perfectly free from them, and now, for over two months I have not experienced them at all. All the symptoms of seminal weakness are gone, and I feel as well as I ever did. It is to DR. BENJ. F. JOSSELYN that, under God, I owe my life; and from the gratitude I owe him, I give this, my testimony of his skill and success. If this should induce any one unfortunately afflicted with seminal weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe.

Important to Persons

afflicted with Venereal. There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that Mercury will not cure Venereal, but dries it on the surface, to allow it to poison the blood, to reappear in hideous marks upon the body, and in the throat, mouth and nose. Those who have had any form of Venereal, and who were treated with mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues; to be communicated to the wife or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose sore heads, cankered mouths, diseased limbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. Be warned in time and secure health by applying at the Dr. J. C. Young Institute. The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in doors or without. The diet need not be changed. Cure always guaranteed or no pay required. Only purely vegetable remedies used.

Important to Females.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for 20 years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation, by letter or otherwise, free. See address below. The celebrated female remedies compounded from the private prescriptions of Dr. YOUNG, have now obtained a most extensive popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimony of efficacy declare them to be pre-eminently superior in their action. No lady should be without these renovating agents. None genuine unless prepared at this office. Sent by mail or express to any part of the State. The Great Female Medicine—Preventive Powders for married ladies. New, safe and infallible, lasting from four to six months. Price \$10. French Lunar, or Female Monthly Pills, for suppressions. After fifty years of use these pills stand unrivalled in efficacy. Price \$5 per box.

To Correspondents:

Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city.—To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen only by the Doctor, and will be treated with the utmost confidence, and either returned or destroyed. WE THINK THERE IS no Medicine so efficacious in removing humors from the blood as SCOVILL'S BLOOD & LIVER SYRUP. It is recommended by Physicians in all parts of the country, for the cure of Scrofula, and other diseases of the Cuticle. Pimples or Sores indicate that the system is out of order. Unless something is done to cleanse the blood of these impurities, the result may be a more serious disease, such as Scrofula, Syphilis, etc. Those who wish to find a most efficacious remedy, and yet have no confidence in Patent Medicines generally, will never regret a trial of Scovill's Blood and Liver Syrup. FRENCH MEDICAL OFFICE.
 DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University, Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets.

DR. PERRAULT's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for the fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients, laboring under this complaint, will complain of one or more of the following symptoms: Necturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief.

FEMALE MONTHLY PILLS.
 DR. PERRAULT is the only agent in California for DR. BIOR'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc. All communications confidential. no17;1y
