THE TWO HUNDRED MILES RIDE.

—On Sunday, the ride of a hundred

miles over the Bay View Park Course, for

a purse of \$1,000 and the cham-
pion medal of California, took place

in the presence of a large number of
persons. The riders were William

Walsh and Nel Mowry, both of
whom have made some most aston-
ishing rides, and claimed the cham-
pionship. Each man had twenty

horses, with a reserve of five, which
were to be called into requisition
only in case anything should happen

to any one of the twenty. The ride
commenced at ten o'clock A. M., and

during the first two hours the pros-
pects of Walsh were decidedly favor-
able. He rode with ease and

grace, and his animals appeared to
have more speed than those of his
antagonist. Mr. Mowry, however,

was strategic; he brought out his
poor animals first, and reserved his
best for the final contest. He, too,

was a graceful rider, sitting a horse
with as much ease as if he had been
born in the saddle. The betting was

about even, and very light, as those
present thought it too early to calcu-
late the chances with any degree of

certainly. At the end of the forti-
eth mile, while changing horses,

Walsh fell, injuring himself slightly,
and causing a delay of about two

minutes, during which time Mowry
rode nearly a mile, and closed the
gap that had been made. Nothing

particular occurred during the three
or four hours following. At this

time Walsh was considerably ahead,
and his friends felt certain that he

would win with ease. During the

latter part of the ride, however,

Mowry used his best horses, and rap-
idly bridged the distance between

his antagonist and himself, and

came in on the home-stretch nearly
a mile ahead, making the entire two

hundred miles in eight hours, fifty-
eight minutes, and forty-five sec-
onds, beating Walsh one minute and

thirty seconds. The best single mile
was made by Walsh, in two minutes

and ten seconds. We understand
that the friends of Mr. Walsh claim

that he would have won the race if
he had not fallen at the end of the

fortieth mile. This claim may lead
to another contest.—*Morning Call.*

WHITE PINE ECENTRICITIES.

Here is a little chapter from the

White Pine News on fastidious peo-
ple: Some people are so fastidious

about their surroundings that there's
no getting along with them. In a

new country like this, where every
man cannot have a house to himself,
it is necessary for people to haul in

on the sharp corners of their natural
dispositions, and accommodate them-
selves to an association, sometimes,

with those who are not exactly what
they would fancy. We heard a man
object to Peter Toft's habit of carry-

ing his change of socks, before and
after changing, in his pantaloons

pocket, to be used occasionally as a
handkerchief. Another man up in

the camp had a bed in the same
room with a man from Sonoma. The

Sonoma man had a habit of softening
his socks in the morning before put-

ting them on. He was in the habit
of going to bed early, so as to give

his socks a chance; and then, in-
stead of taking them in shape,

after drying, and wearing them right
and left, like a Christian, this man

from Sonoma insisted on softening
his socks every morning. The way

he did it was by hammering them
on the bed-post till they began to

crack, then rubbing them briskly in
his hands—washing, like Sir Jacob,

“with invisible soap, in impercepti-
ble water.” Our friend in the next

bed is a late riser. He would be
sleeping his best about sock time,

but the dust would wake him. The

dust each time filled the room worse
than the flood of light that Ben

Adhem saw. This thing was trou-
blesome, but rooms were scarce. Our

friend could get a good sleep in the
morning only by getting up in the

night and sprinkling down Sonoma's
socks, so they wouldn't dry by day-

light. But Sonoma concluding that
his room looked, took to sleeping with

the socks under his head, and soon
got the room to himself.

THE Mount Genis Tunnel, when

finished will connect France by rail-
road with Italy through the Alps.

This great work was begun in 1857

and was first carried on by machin-
ery driven by compressed air. The

present rate is about one yard per
day on the French side. The ex-
cavation proceeds from both ends,

and it is intended that the workmen
should meet and shake hands in the

middle of the Alps sometime in 1878.

A WALL street speculator, return-

ing home, the other evening, in no

oblivious frame of mind, thus ac-

quainted the result of his operations

to the family group: “No more silk

dresses this Winter, my dear; no

more balls and parties; no more op-
era boxes;” and then, warming with

his subject, “no more of these infer-
nal windings and dinings, and no

more d-d nonsense of any sort,
Matilda.”

THE BURNING OF THE STEAMER

STONEWALL.—The steamer Stone-

wall, which plied between St. Louis
and New Orleans, was burned on the

26th ult., near Neely's Landing, on
the Mississippi river. She was

heavily laden with passengers,
horses, mules, hay and other freight.

There were about 250 passengers on
board. The alarm of fire was given

about half past six, and in ten min-
utes the boat was in a sheet of flame.

The fire is supposed to have origi-
nated from some deck passenger hav-

ing a candle. As soon as the fire
was discovered, the captain ordered

the pilot to run her ashore. But he
was nervous, and ran her on a sand

bar, supposing that it reached the
shore. As soon as the boat struck,

the passengers plunged into the
water to wade ashore, and the fore-

mast had not proceeded far till he
sank out of sight, the water being

twenty feet deep, and the shore 200
yards distant. The direst confusion

then reigned. There was only one
yawl on the boat, and a number of

deck passengers seized this and
floated off without oars. In a few

minutes more than 250 passengers
were struggling in the turbid waters

of the Mississippi. Night gathered
around them, and the screams of the

drowning and the shrill neighing of
the horses, and the crackling of the

flames, made an appalling horror.

There was not a life-preserver to be
found on the boat, and in a few mo-

ments all but 35 souls had sank to
rise no more. There were eleven

women on board, and of them only
three were saved—one an aged lady

was saved by her devoted son. The
night was intensely cold, and many

who might have saved themselves by
clinging to the doors, shutters and

light freight which they flung over
board, were chilled through and soon

perished. There was great neglect
somewhere in allowing the boat to

leave the wharf at St. Louis without
being better provided with boats and

life preservers, by which the unfor-
tunate passengers might have been

saved.

TAKING away the bayonet from the

South and the miserable carpet-bag
element could not stand a day; and

the negroes would turn against them.

The carpet-baggers, with the aid
of the bayonet and bureau, have

thus far been able to control the
negroes in the larger places, while

in the country the old citizens have
had the most influence with them.

But there are indications that even
in the cities the carpet-baggers are

losing their power over the negro.

At the late municipal election in
Nashville, Tennessee, the negro de-

serted the radicals for the first time
and voted heavily with the citizens,

DEAR STATESMAN: Since the date of my last letter, little of interest has transpired. I have already stated that the two Houses had taken a recess, and that most of the members were away.

A CURE FOR EVERY DISEASE. DR. J. WALKER'S VINEGAR BITTERS. Manufactured from the Native Herbs and Roots of California.

THE GREAT BLOOD PURIFIER AND Life-Giving Principal. PURIFY THE BLOOD and the health of the whole system will follow.

The Life of all Flesh is in the Blood Thereof. Cleanse the vitiated blood whenever you find it impure bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will well.

Dr. Walker's Vinegar Bitters. Are a true medicine, placed in the hands of the people for their relief, and no person can take them according to directions, and remain long unwell. They are a perfect Renovator of the System, as they carry off every particle of poisonous matter.

For Female Complaints. Whether in the young or old, married or single, at the time of menstruation, the female system is peculiarly liable to be affected by the impurities of the blood.

For Inflammation and Chronic Rheumatism and Gout. These Bitters have been most successful. They are caused by vitiated blood, which is generally produced by derangement of the digestive organs.

It is a Gentle Purgative as well as a Tonic. Possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

Pin, Tape, and other Worms. Lurking in the systems of so many thousand on this Coast are effectually destroyed and removed. Dyspepsia or Indigestion. This disease, in a measure, is occasioned by the irregularity and want of action in the Liver, Gall bladder, etc.

Morbid Condition of the Blood. This is the fruitful source of many diseases, such as Tetter or Salt Rheum, Ringworm, Boils, Carbuncles, Sores, Ulcers, Eruptions, etc.

Diseases of the Blood, Liver, Kidneys and Bladder. It thoroughly eradicates every kind of humor and bad habit, and restores the entire system to a healthy condition.

Let it be distinctly borne in mind that Dr. Walker's Vinegar Bitters is not a gilded pill, to delight the eye or please the fancy; it is a medical preparation, and not a beverage; it is composed of the best vegetable ingredients, and is perfectly pure, and its effects are so rapid and so certain, that it is considered by the medical profession as one of the most valuable remedies in the world.
