CLOTHING, HATS, CAPS, BOOTS, SHOES, GROCERIES, Etc.

THE attention of the citizens of Walla Walla and vicinity is respectfully called to the fact that we are prepared with a complete stock of goods in the above line, to offer good bargains to the public. The natural inference from the different shops which line Broadway. Morning, noon, and afternoon they are crowded by a moving, ceaseless throng of women of every kind and degree. What they all want to purchase, is a mystery which no one who has not seen them can solve. They are well and comfortably, even elegantly dressed. Take a bird's-eye glance at their homes, you will find wardrobes full of dresses which are scarcely ever worn; hand boxes full of bonnets, drawers so crowded that the lace of a chemise peeps out here, a bit of embroidery there, and little bands of string in every direction.

What is it that they want? Shall we say excepting? And as they supply it, in a measure, at least. Dangerous occupation, too, when its motive is only to while away the time—dangerous, because every temptation is hidden in every new design, and soft lustrous fads; dangerous, because the most intimate friends are not able to resist. Truth's Conflict.

The bravest of the brave is he Who battles for beleaguered Truth, And springs to set the captive free, Though, falling, he finds little ruth; And when the bolts of war are hurled, Defends the Right and dares the world.

No faltering hand, nor receding heart, That lingers warily with the foe, And plays the patron's dastard part, Will Error's legions overboard; Her conquest crowns none but the brave, Who fight for life, and falls to save.

Yet courage here brings no reward; Here wounds do cease of honor win; More often does the world's regard Hang round the victor's laurel wreath, And slights with scornful ban the man Who in Truth's battle leads the van.

A silent, friendless conflict this, Unfought by a single cheer, Though oft it stirs the coward's sigh, That hails the coming conquest nigh, When Truth shall live and falsehood die!

No pomp and circumstance of war, No bugle's blast, no rattling drum, Sounds its loud tocsin, near or far, To bid Truth's glimmering squadrons come, Let it in the unnumbered fight.

That drives black Error into night. Who conquers here must stand alone, A price among the sons of men; Content to win a future throne, Though oft it stirs the coward's sigh, That hails the coming conquest nigh, When Truth shall live and falsehood die!

Soldier of Truth! thy spirit nerve, Nor, though the timid god forsake, Do thou from thy high purpose swerve, For Error 'tis die at the stake, And for the martyr's ashes he Truth's life in the unnumbered fight.

The True Wife.
A wife, domestic, good and pure, Like oxal should keep within her door; But not like snail, in silvery track, That makes all her way with a snail's pace.

A wife should be like rose, tree, and oak, And speak with words as spoken, Not like the echo, which is heard, Contending for the final word.

Like a row of clove a wife should be: But not like clove, which is heard, Contending for the final word.

Young man, who has this illusion strike, Beware the woman as bride you hold, For she will be like just what she is, And so, like you, will be a snail.

Lady Shoppers and Male Clerks.
One hundred thousand dollars a day! that is the figure of the receipts of one large establishment in New York, which is frequented, almost exclusively by women. SPECIFIC CONTRACT LAW.—The Lewiston Age says a Specific Contract Law has passed the Council in the Idaho Legislature, and thinks there is no doubt of its passing the House and becoming a law.

"If we were a leading commercial community, and were taking the first step, patriotism unquestionably, and an observance of legal principles probably, would cry out against it. But Wall street—the throne of American power—first declared the depreciation of Government paper, and it was depreciated accordingly. Specific Contract Laws, to protect creditors of all classes, then became a business necessity. As matters now stand, Idaho is compelled to make a law that all debts shall be paid in such currency as is called for by the contract, whether expressed or implied, creating them; otherwise, our creditors must depend wholly upon the business integrity of their neighbors as security against imposition, for California, Oregon, and Washington Territory have their Specific Contract Laws."

That is rather a singular argument. First, Wall street depreciated the Government paper, and in so doing, acted disloyally; and secondly, every other community, per consequence has been compelled to act disloyally. The same course of reasoning would justify all the Northern States in passing secession ordinances, because, forsooth, the Southern States had first insubordinated that policy, and thus compelled the Northern States to act in like manner! But the legislature of the State of New York did not pass a Specific Contract Law, in consequence of Wall street having depreciated the Government paper, nor has any Eastern State ever passed a Specific Contract Law. The system originated in California and now the policy is being acted upon and carried out all over the Pacific slope. Wall street cannot be held accountable for the depreciation in the value of greenbacks. It was the Government, partly, and Mr. Chase, particularly, that conceived the idea of making paper the currency of the country in place of gold and silver,—making money out of paper to take the place of gold and silver coin. But when the paper was first put afloat in such enormous quantities, it was conceded by those best learned in financial matters, that it could never take the place of the solid currency for any great length of time; and hence came the depreciation; not because Wall street was disloyal, and therefore depreciated the paper currency, but because its value was fictitious and would depreciate in spite of Wall street or any other street. Such a currency never did succeed in any country and probably never will,—at least never will without becoming a general thing throughout the world, and when gold and silver becomes less valuable. For the present gold is the standard, and Congress and the concentrated efforts of every department of our government cannot make it otherwise. Congress made a raid upon gold last winter in passing a law to prevent speculation in gold and to make paper currency more valuable; but the law entirely failed to produce any such results and it was immediately repealed.

The passage of the bill demonstrated two things, particularly; one was that Congress could not make Government paper worth any more or make gold worth any less by such legislation, and the other thing demonstrated was that Congress, as a body, was shockingly ignorant, in believing that the gold bill would enhance the value of government paper.

The Age says Idaho Territory is "compelled" to have a Specific Contract Law, otherwise the business interests of the Territory would suffer by the impositions of California, Oregon, and Washington Territory,—they having Specific Contract Laws. The "Age" is mistaken in stating that Washington Territory has a Specific Contract Law. No such law has ever been passed by our Legislature. So, if there is any "compulsion" about the matter, it is altogether in favor of this Territory. Instead of California, Oregon, and Washington Territory compelling Idaho to pass a Specific Contract Law, it is quite the reverse, and California, Oregon, and Idaho Territory by their action will compel our Territory to pass the law.—These specific contract laws appear to have the sanction of the people of this coast, and it is almost certain that our Legislature will pass a law of the kind this winter. It is claimed that these acts nullify the legal tender law of Congress, but as the Union party does not generally concede anything of the kind, the policy promises to become a fixed one, so far at least, as the States and Territories west of the Rocky Mountains are concerned.

A LOYAL SENTIMENT.—The Abolition papers are publishing with approval a sentiment uttered by a loyal speaker during the presidential canvass: "Show me a man who is always talking about his rights and the constitution, and I will show you a traitor." In other words, the constitutional rights of white men must not be insisted upon, while the unconstitutional freedom of negroes must be upheld at all hazards.

A RETROSPECTIVE VIEW.—The Marysville Express, the leading Democratic paper of California, in taking a retrospective view of political matters, says:

"Now that the Presidential contest is over and the smoke of the battle is clearing away, it may be an appropriate time for considering the results attained, the causes that have produced them, and the political prospects of our country in the future. Under all the circumstances, that an election by the people should have passed off quietly throughout the Union is almost a miracle. In the midst of a great war, with public opinion nearly evenly divided upon questions of policy as to the manner in which it is conducted, as a war of invasion and conquest, and with their passions lashed to frenzy by the partisan appeals of demagogues, it is indeed remarkable that the ballot-box should have stood the test of the terrible pressure.

As to the results attained, though indicating a steady increase of dissatisfaction with the present Administration and opposition to the war, and demonstrating the real, reliable strength of the Democratic party, it is nevertheless the part of candor and honesty to admit that they are neither satisfactory, nor, in our opinion, flattering to the patriotism and intelligence of the American people. If we concede the re-election of Lincoln by the free voice of the people, without fraud enough to vitiate the proceeding (and we do not raise that question now), the result must be accepted as evidence that a majority of the people have endorsed the war and have indorsed Mr. Lincoln's mode of carrying it on."

The Express is now, as it has formerly been, the leading organ of the peace wing of the Democratic party in California, and the following extract taken from an editorial having for its caption "Our Purpose Politically," may be regarded as foreshadowing not only the future course and purposes of the Express, but also of the Peace Democracy of the State:

"The country having decided by popular verdict in favor of a continuation of the war policy, we do not propose to interpose any feigning opposition to those who have been entrusted with the management of national affairs, but shall, nevertheless, keep upon record our protest against Republican policy, trusting to future events, the reason and patriotism of the people, to carry our country through the severe ordeal to which passion and fanaticism has subjected it. The President and all the public servants who have been given a new lease of power by virtue of the late election, now stand charged to prosecute the war against the South until slavery is abolished and the revolted States are brought back to allegiance to such political institutions as may be in existence in the North; when peace shall be established, and though we do not believe that such a policy will either subjugate the South or abolish slavery or restore the Union, so long as our rights as citizens of this Government are not outraged, we have no desire to thwart the honest efforts of those in authority to carry into practice the duties with which they have been charged by a fair expression of the popular voice. Within the proper bounds of newspaper license we shall give the current news and shall comment upon it with a fearless pen. We shall always consider it our right and our duty to criticize the acts of public officers, holding them to a strict accountability to the people for the manner in which they discharge their agency. No true lover of his country can object to this, nor do we believe that the masses of the people are so blinded by passion and fanaticism as to desire to wholly stifle the voice of discussion, and by arbitrary proscription screen the acts of public officers from impartial criticism. We know there are many who would gladly do this, some out of motives of revenge on a political antagonist, others in order to enable themselves to plunder the Government with impunity and carry into practice principles totally subversive of free government. But the honest portion of the Republican party, who set from a sincere desire to restore the Union, preserve their liberties, their property, and the honor of their country, we are satisfied, desire no such thing."

CONSPIRACY SUGGESTED.—A Copperhead conspiracy has been squelched at the Dalles. Just before the election a Loyal Leaguer of very fine scent thought he had discovered an inkling of a conspiracy to overthrow the best government on earth. He determined to join it with a view to expose it. He first applied to an Unaffiliated, who referred him to Major V. T., who at once took the measure of the man. The Major proposed to have the Leaguer initiated into the Order of American Knights. The time was set at midnight; and the "patriot" was led, blindfolded by the redoubtable Major through every mud-hole that he could find, until at last they came to a house in the suburbs of the town. "Operations at once commenced. The "Grand Arch" was formed by two parallel rows of Copperheads holding their hands clasped as high as their heads. Under this "Arch" the initiate must pass on his hands and knees; each Knight bestowing the accolade by a hearty kick, with heavy boots, on the part that he sits down on. He then becomes a Knight, but must still pass through the trials of the cold and warm douche, flogging in a blanket of unsavory smell, and two hours of "Jehoshaphat" after which he is kicked into the street, and a cry of vengeance raised, the initiate fleeing for his life. All of which was duly performed, and the Union is now supposed to be safe.

CONSIDERABLE SNOW HAS FALLEN ON THE BLUE MOUNTAINS during the past week. The mountains are now covered with a white coat, from summit to base; but the valley, proper, rejoices in not yet having had a snow storm. We of the city, can look at the farms enveloped in snow along the foot-hills, eight miles distant, view the chilly condition of our neighbors, who were in out of the cold, and feel that we are very comfortably and pleasantly situated. The foot-hills always manage though to turn the tables on us in the Spring, as the cold gets away from there soonest.

NO EASTERN NEWS HAS COME TO HAND SINCE SATURDAY LAST. The telegraph wires are said to be down.

Boise Correspondence.

IDAHO CITY, Nov. 24th, 1864.

ENR. STATESMAN.—Since the announcement of the result of the election, "order reigns in Warsaw," once more, and all things seem to be returning to the even tenor of their way with accustomed eye to business profits and pursuits—each on the sharp lookout for the interests of No. 1. This has particular force as regards the outgoing appointees to county offices, among whom the "war grab" has been largely played with much rigor and extortionate exactness. Some of them begin to look upon every dollar coming within their vigorous grasp, whether allowed by law, as fees, or not, as their speciality, and they are not a little particular in "portable" property accordingly.

The weather for the last few weeks has remained pleasant for the time of year, and no snow has yet fallen to remain. The ground is frozen an inch or so deep, and ice formed in places where the sun does not shine has not melted away for over a fortnight, and of course, may be considered a "fixture" until sometime next spring. The leaves upon the willow shrubbery fringing the streams, long ago yellow, withered and dying have nearly all fallen from the parent stem to mother earth, and ought remains living of the past season's vegetation save the evergreen foliage of the winter-braving and veteran pines in the surrounding forests. Surely, a better timbering region has never yet been discovered. The supply, abundant and convenient, for fuel and lumber, will outlast generations of people to come.

The roads and trails continue dry, and in very good traveling condition, unusually so and during the day. Some few however, still resolutely keep at work as well as they can, and quite a number, including some 50 to 60 immigrants, have been rocking, with fair results, for weeks upon bar claims in and adjoining the town.

Speaking of immigrants, reminds the writer of a pompously pedantic opinion delivered, extrajudicially by the learned correspondent of the Statesman, upon the immigration vote question, in a recent number of that paper. Referring to the fact that Idaho City, the seat of Oregon at that communication, as a literary correspondent of a leading journal published in a neighboring State, takes occasion to relieve himself of a weighty opinion which, incubus-like, would otherwise have remained in his judicial brain in opposition to that given by Hon. A. E. Watt, former Chief Justice of the Supreme Court of Oregon. Written previous to the election, it was doubtless designed to effect the double object of preventing immigrants from voting and forcing the immediate vanquish of the undisciplined promulgator. The learned author appears to have entirely forgotten, in his eager haste to pay tribute for his sincere opinion at the expense of former professional political principle, that abandonment of one duty for the sake of another, is not a course to be pursued to acquire another, must, by necessary implication of law, logic, common sense and justice make the acquirement of a new domicile relate back to the date of the abandonment of the former one, and that the individual is bound to abandon and acquire consummated within a reasonable length of time. It behooves anything of the application of the doctrine of relation in its true legal significance, he knows the force and effect of the doctrine, and is bound to relate, in all essential points correct. The writer has devoted this much space to a recapitulation of the day, because it is likely to come up again and again on the Pacific Coast, until the force and effect of the doctrine is made the court of ultimate resort and law, justice, and right should be the criteria by which to be governed, not the imperious and egotistical dicta of U. S. District Judges extrajudicially delivered nor by the subserviently partisan opinions of the press, engaged in every thing that will weigh more weight than many third and fourth rate lawyers.

The false statement made with regard to the immigrant vote carrying Idaho Territory Democratic, has been called into existence through carelessness not less than to have attracted undue attention to the subject in Oregon and California. The immigrant vote in Boise County did not exceed 250, all told, and not less than one fourth of which were cast for Republican candidates. On the subject of the "war grab," that lying, like wonders will never cease the absurd falsehood of Idaho being carried by immigrant vote has been heralded, iterated, and reiterated all over the Pacific Coast, until the fact has become a matter of common knowledge, and is being ignorantly enough, believed such to have been the case.

The proceedings of the Idaho Legislative Assembly are looked forward to with much interest by the people in this part of the Territory. The proceedings of the Legislature, through a tool named Bradley, (now at Lewiston,) seeking an additional reward to the 300 pieces of silver or the equivalent in gold dust already paid him; is doubtless designed to accomplish for the Republic the same ends as the "war grab" from Alturas, what the Port Laramie fraud of a year ago was designed to effect east of the mountains.

As the icy fetters of winter begin to be drawn more closely around us, balls parties, and festive amusements seem to become more and more the order of the day. On the night of the 22d, there were three balls in the city and less than two to three a week would make the fair ladies and gentlemen many a merry evening. Public theaters are, of course, decidedly so. Public theaters appear to have temporarily "dried up."

But I must bring this already long communication to a close, so until about the holidays, adieu.

WHO CAN ANSWER?—A passenger from California to New York writes to a San Francisco paper: "Can you tell me why it is that it is always more pleasant to come from California than it is to go toward it by steamer? Why the passengers are less dirty in their habits, less haggard as usual, more orderly and more pleasant coming eastward? That such is the case, everyone who has traveled both ways well knows. One would naturally suppose that, with a load of passengers made up, to a large extent, of men who have roughed it in the mines for several years, they would be more filthy and more disagreeable than those who come from the States. Why some one give a true reason why it is so?"

POSSIBLE.—A gentleman just from Portland relates the following: In attempting to cross one of the principal streets in Portland, he saw a "bat" and supposing there was nothing under it, gave it a kick. He was much surprised to see a man's head appear, and a voice saying, "if you think I'm dead, you're kicking my hat in that manner for!" He apologized, and asked the man how in thunder he got into the mud so deep, as nothing but his head appeared above ground. "He said, 'I tried the fellow, 'at you think I'm dead, what do you do? You think of my blasted boss under me?'"

Idaho is a fast country. If a woman there becomes dissatisfied with her husband or finds some one she likes better, she states the case to the president of the mining district where they reside; he calls a miners' meeting; they untie the matrimonial knot, and she is at liberty to take whomsoever she pleases, in case she can get him.

COPPEL, Nov. 28th, 1864.

ENR. STATESMAN.—I wish to inform you that the wind blows very hard here today, and that it rains. I wish to join in the tempest and see if we can blow any good to whom it may concern.

The subject of building a Grist Mill for the benefit of the farming community has of late been much talked of. I wish to contribute my mite to this enterprise, and hope you will lend a helping hand by admitting to your columns brief articles from contributors upon this subject. That it is to every farmer's interest that the farmers of Walla Walla valley should have a Mill to grind their own grain will appear from the following considerations:

It will enhance the value of their wheat by nearly one-half, which the figures will show. The present price of wheat at the mills is \$1.50 per bushel; the price of flour, \$6.00 per hundred. One bushel of good wheat will make forty-five lbs. of superfine flour, which, at six dollars per hundred would be for 45 lbs. \$2.70 cts. for the flour alone from a bushel of wheat. Add 13 lbs. of bran and shorts, say at 2 cts. per lb. (26 cts.) allowing two lbs. for waste in cleaning, and you have \$2.96 per bushel for good wheat at present rates for wheat, (at 150 cts.), leaving \$1.16 to the miller for grinding, or within four cents of half of the value of the farmer's labor.

It will afford a ready and a sure market for their wheat at nearly double remunerative prices. Say the farmer raises five hundred bushels of wheat at present prices at his own mill, at \$2.00 per bushel, his five hundred bushels of wheat, say the mill costs \$10,000, and that he owns a share (\$500 per share) and then one crop of wheat pays his five hundred dollar share and leaves him on his crop \$250. Say he pays for the hire of a miller and for other necessary help and repairs, \$150; then there is left, after paying his five hundred dollar share, one hundred dollars more than he gets by selling his wheat at \$1.50 per bushel. Thus in one year he pays his \$500 share in the mill, his \$150 to carry on the mill, and makes \$100 more than if he sells his wheat at present prices.

NEWS OF NOV. 21st.

Washington, Nov. 20.—The Richmond Sentinel speaking of Sherman's movements, says the first point marked out for capture by Sherman, is Macon, 89 miles from Atlanta. We are informed he will then move on Savannah, 105 miles distant, and then on Charleston.

In the Georgia legislature, on the 21st, a resolution was introduced asserting the right of each State to adopt its own individual capacity in reference to efforts to secure peace, as well as all other affairs and holding with gratification any disposition in favor of a cessation of hostilities manifested by the Democratic party of the North, and favoring a Convention of all the States, and calling on Jeff. Davis and the rebel Congress to make offers for such purpose to the Government at Washington.

Philadelphia, Nov. 21.—The Inquirer's dispatch says: Richmond papers of the 18th have an August dispatch says: Scouts who left Jonesboro, south of Atlanta, on Wednesday, report Gen. Howell Cobb, with 9,000 or 9,500 militia and three brigades of cavalry, attacked the enemy, and was steadily driving them in.

New York, Nov. 21.—The Charleston Mercury of the 14th says: Since our last report 250 shells have been thrown at Sumter, and 100 at the city.

A Richmond dispatch of the 18th says: Sherman will feel an expedition he does not calculate on before he reaches the fortifications of Macon. These works, should he ever reach them, will be found most formidable with troops that before that time will be collected in time to give battle. As the Petersburg militia did last June, Macon will be saved.

The Herald's special says: Richmond papers of the 19th contain positive information that Sherman is far south of Atlanta, moving onward. People along route are in a high state of excitement and there seems to be no troops to retard his progress.

Richmond papers of the 19th are received.—Two armed United States steamers are reported to have been captured on the Big Sandy river. Breckinridge is in East Tennessee endeavoring to reach the district that district to the allegiance of Jeff. Davis, and has declared an amnesty to all who lay down their arms and cease hush-whacking his troops.

In the Rebel House of Representatives there was a resolution passed, to the effect that the war must be continued until the independence of the South shall be acknowledged.

New York, Nov. 20.—Dispatches from Shenandoah Valley confirm the previous advice that the rebels under Early have withdrawn from Sheridan's front, with the design, it is supposed, of going into winter quarters somewhere in the vicinity of Staunton. It is possible that Early may be sent out of the valley, entirely by the Richmond authorities, for the purpose of assisting his army with the rebel forces in some other quarter.

It is rumored in Washington that McClellan has consented to head a Commission of Democrats under the name of "The National Council," with the rebel Government respecting peace on the basis of Union. Grant's army is not yet going into winter quarters. Military men look for stirring news from there.

New York, Nov. 21.—The World's correspondent with Sheridan contradicts the report that Early has abandoned the valley. He is still at Newmarket and Mount Jackson.

It is reported that Capt. Brashear, with 60 men a fight with Mosely on the 19th, and was whipped. No particulars.

The Herald's special dispatch says: In connection with Sherman's movement South, it is significant that the Legislature of Georgia meets on Tuesday and Friday evenings of each week, at half past 6 o'clock, when a show will be made in order of the rebel forces, and the rebels will make a continual change of leaders is no longer a necessity.

Mr. Cross, having the only Geographical Outline Charts in the city, will open an Evening School on Tuesday and Friday evenings of each week, at half past 6 o'clock, when a show will be made in order of the rebel forces, and the rebels will make a continual change of leaders is no longer a necessity.

The San Francisco Press (Democratic) in commenting upon the result of the election in California, says:

"The increased vote reported from places where the population is notoriously decreased very largely during the past year, is pretty conclusive proof of the pre-determination of our opponents to carry the State for Lincoln whatever the comparative strength of the two parties might have been. We have no more doubts than we have of our existence, that of the actual citizens and householders of California a majority are opposed to the party policy of the Administration of Lincoln; but the election having been declared against us according to the forms of law, it is our duty to submit to that decision and bide our time."

A YANKEE thus winds up a notice to correspondents: "In conclusion, firstly, we wd say to most writers, 'write often and publish seldom.' Secondly, to some writers, write seldom and publish seldom."

FRIENDS AND ENEMIES.—He who by his conduct makes good friends on the one hand, and bitter haters on the other, gives evidence that there is something of the bold, independent, upright man in his composition; while the chicken-hearted imbecile character is capable of making neither friends nor foes.

Better submit in silence to a wrong-headed fellow than to try to set him right.

MARRIED: WOOD—SAILING.—At the Oriental Hotel, in this city, on the 23rd November, by W. P. Horton, Esq., Mr. Henry Wood and Mrs. Louisa Sailing, all of this valley.

Public School. THE WINTER TERM of the District School, 1864, will commence on Monday December 6th, 1864, under the instruction of Mr. J. H. Bawert. McCrath's Building, on Alder street, will be used as a school room.

SCHOOL! SCHOOL!! There is not being sufficient public money to defray the expenses of the school, charges of fifty cents per week will be made for each scholar. By Order of the Directors. Walla Walla, W. T., Dec. 2, 1864.

SCHOOL! SCHOOL!! B. F. CROSS would respectfully inform his friends and the public generally that the school will be reopened at the same place on Monday, the 4th day of December, 1864.

TERMS—INvariably in Advance.—Primary, per week, 20 cents. Intermediate, 25 cents. School, 30 cents. At the request of pupils, instruction will be given in Algebra, Geometry, Book Keeping and Astronomy. Mr. Cross, having been a practical teacher during the past fifteen years, and intending to continue in the profession for a longer time, would call the attention of parents to the fact that in Walla Walla a continual change of teachers is no longer a necessity.

DISOLUTION OF PARTNERSHIP.—MR. M. L. FRANK has this day withdrawn as a partner from our firm and copartnership. The receivable accounts of the business will be collected by Messrs. Brown, Brod & Co. who will also settle all bills against the firm.

ALMOST AN ESCAPE.—Geo. H. Porter came near making his escape from the prison on Sunday night last. With the use of a case knife, which had been left in his cell, and a file which had been furnished him from the outside, he succeeded in cutting off his shackles. This done, he attempted to crawl out through the hole in the grates of the south window, made by Crow, in his escape last spring; but the hole being too small, he got fastened in it, and came near hanging himself. He was rescued from this perilous position by the prisoner Borden, whom he was compelled to call to his assistance, and about this time (near daylight) deputy Sheriff Seitel paid his accustomed visit to the prison and stayed further proceedings. Porter was considerably lacerated and bruised in his attempts to get through the bars.

BURGLARY.—Some persons having recently broken into Mayer & Co's warehouse and stolen a lot of goods therefrom, a man was set to watching the establishment, and on Sunday night last the burglars—two in number—came again, and one of them, while attempting to open the window, was greeted by a pistol shot from the hands of the man on the inside. He drew back and fired also; the ball from his pistol passing through the hat of the man on the inside. After this the thieves started to run, and being followed by the watchman, a running fight was kept up for a few minutes, in which from six to a dozen shots were exchanged, and one of the thieves, it is believed by the watchman, received a ball in his body. The thieves had a wagon with them, from which fact it is supposed they belong some distance from the city.

THE District School, under the charge of Mr. B. F. Cross, closed its Fall term last Friday. The expenses incurred were as follows: Teacher's wages, @ \$115 per mo., \$345.00 Rent of room @ \$30 per month, 90.00 Expenses for desks, 41.00 Expenses for stovepots, buckets, etc. 20.00

Total expenses, \$506.00 As this sum was paid in Treasury notes, at fifty per cent. discount, of course it cost the district double the amount, or one thousand, twelve dollars and thirty cents. During the school there were ninety-three pupils enrolled. The average attendance was sixty-four and the average tuition \$7.92.

CHRISTMAS TREE.—The teachers and pupils of the M. E. Sunday School are making preparations for the erection of a "Christmas Tree," at Masonic Hall, on the evening of the 23d. Some of the young Misses belonging to the school collected a considerable sum of money on Monday, which will be applied to the purchase of articles for decorating the tree, and they promise to the donors, as a reward for their liberality, a pleasant evening's entertainment at the hall. The exercises will consist of singing, declamations, and the usual distribution of presents from the tree.

ORGAN.—Through the exertions of one or two young ladies belonging to the M. E. Church congregation, a small Mason and Hamelin organ has been added to the furniture of the Church. It is intended for the use of a choir, and is used in the singing exercises of the Sabbath School.

SCHOOL MEETING.—There will be a meeting of the tax-payers of School District No. 1, at the new school room (McCrath's building, on Alder street) on Monday evening, December 12th, 1864, for the purpose of levying a tax, to be applied to the erection of a school house for the District. Parents and tax-payers generally, are alike interested in this matter, and are especially invited to be present at the meeting.

SCHOOLS.—The District school, under the supervision of Judge Blewett, will be opened in McCrath's building, on Alder street, on Monday next.

Mr. B. F. Cross will also open an independent day and evening school, in the room formerly occupied by him, on Main street.

The terms of each will be found in the new advertisement column.

Mr. H. BLENDE, W. F. & Co's Messenger, brought down on Wednesday \$2,421, the proceeds of eight days' run of J. S. Rucklo & Co's Powder river quartz mill.

This mill, which has been in operation for four or five weeks, has been turning out at the rate of about three thousand dollars per week.

HON. MARION MOORE is expected down this week with one thousand pounds of silver bullion, taken from quartz ledges in which he is interested at Owyhee.

DISTILLERY.—Messrs. A. Rose & Co., have erected a distillery, near Meyer's Brewery, at the east end of town, and commenced the manufacture of whisky this week.

A CARD FOR THE

Fall and Winter Clothing Trade.

OF SAN FRANCISCO.

BADGER & LINDENBERG,

Nos. 411, 413 and 415 Battery st. or. o. chant,

San Francisco.

Entire New and Fresh Stock.

WE would call the attention of COUNTRY

MERCHANTS to our usually large stock of

Goods. Our stock comprises every article in the

Clothing and furnishing line. We have constantly

on hand the largest stock and greatest variety of

Casimere and Wool HATS of any House in San

Francisco, and our prices for these goods are less

than those of any house, as we receive them direct

from the manufacturer's consignments. Our stock

of Fall and Winter Goods is particularly extensive

and the great feature to the country merchant is the

unusually low prices—

Less than the Cost of Importation!

We also keep the STAPLE ARTICLES in the Dry

Goods line, which Goods we have purchased in this

market under the hammer, and are offering them in

New York cost, and low.

We publish this card in order that we may make

new acquaintances, and induce those who have not

heretofore purchased of us to call and examine our

stock.

The good inducements to all who purchase to

sell again. Merchants who buy of us can make a

good profit, and sell to their customers at a low fig-

ure. We remain, respectfully,

Your obedient servants,

BADGER & LINDENBERG,

Wholesale Clothing and Hat Warehouse,
