

2007 Equipment Upgrade Grants

This grant cycle is supported with funding from the Bill & Melinda Gates Foundation through its Staying Connected Grant program. The purpose of this grant is to purchase and replace computer systems for qualifying libraries, to be used for public access to online resources. Grant awards consist of up to two public access workstations purchased and delivered by the Washington State Library. Funds were awarded to those libraries that preferred to purchase computers directly.

Grant Number	Organization	Award
07-EU-001	La Conner Regional Library	Equipment only
