**Created Nov 26, 2012**

The data in this report is based on the current registration information on file with the Secretary of State's Charities Program for each commercial fundraiser displayed. This data is not confirmed or denied by the Charities Program. The records are listed in alphabetical order. An index of charity clients is provided to aid readers in locating the commercial fundraiser record(s) associated with a given charity.

## Overview

Total number of Commercial Fundraisers in report:	114
Total Contributions:	\$518,958,444
Total Net to Charity:	\$237,708,456
Average Percentage of Contributions returned to or retained by charity clients:	46%

## Table of Contents

Commercial Fundraisers	3
Alphabetical Index of Charity Clients	117

Note A: The percentage of funds retained by charity clients is based on the most current financial information provided by the Commercial Fundraisers listed in this report. These percentages reflect the overall amount of funds received or retained by the client charities after all fundraising costs have been deducted from the total value of contributions received on behalf of the charity by the Commercial Fundraiser or by the charity client. The difference between Total Contributions and Net to Charity Client(s) may include fundraising expenses other than fees paid to the Commercial Fundraiser. It should also be noted that these figures do not necessarily indicate the specific percentage of funds allocated by a given charity to its charitable purpose. In some instances, charities may be using a combination of direct fundraising and a Commercial Fundraiser; others may be using several different Commercial Fundraisers, whose yield to the charity may vary.

Note B: The charity clients listed in this report are based on registration information submitted by the Commercial Fundraiser and/or the Charitable Organization. In some instances, the Commercial Fundraiser and Charitable Organization may no longer have a contractual relationship to conduct fundraising activities in Washington State.

Note C: The financial information provided by the Commercial Fundraisers listed in this report is aggregate and may reflect activities in Washington State, nationally, or a combination thereof.

Note D: Financial information is not available for some of the Commercial Fundraisers listed. If the financial information displayed is blank, contains zeros or is outdated, it is possible that the organization is newly registered, did not solicit contributions in Washington State during the accounting year reported or has re-registered after a period of inactivity. Please contact the Charities Program for more specific information.

**Fundraiser's Comments Regarding Financial Information (Optional):**

In Fiscal Year 2012, CharityUSA and The GreaterGood Network of websites generate a total of \$2,566,626 for charity. The total amount of contributions received by CharityUSA.com, LLC from the public in FY 2012 was \$984,155; 100% was given to charity. The remaining \$1,583,471 generated for charity in FY 2012 was from sales of products and advertising. The GreaterGood Network of websites, owned and operated by CharityUSA, LLC offers the public three unique ways to generate money for charity: Advertising: With each daily click on our network of websites, visitors are shown sponsor advertising. We give one hundred percent (100%) of the collected advertising fees from sponsor advertising to charity through the non-profit, tax-exempt organization GreaterGood.org. No fees are taken out of the charitable payments for administrative costs. Direct Donations: Supporters can also contribute directly to charity by purchasing Gifts That Give More through our store. These direct donations contribute 100% of the amount paid by donors to specific charitable programs throughout the world. Again, no fees are taken out of the charitable payments for administrative costs. Shopping: Supporters can also contribute to charity by purchasing product from our store, including jewelry, apparel and gifts. We pay our charity partners 3-30% of the purchase price of every item sold in our store. The remaining funds generated through the sale of merchandise support the day-to-day operations of CharityUSA, including the original purchase of goods to be sold. CharityUSA.com, LLC is also one of the largest US importers of fair-trade, artisan products made by rural women from areas of conflict and poverty. We sell products from more than 40 countries and work with charity partners to directly import custom jewelry and other products from artisan cooperatives all over the world. We believe we have a responsibility to provide support for local economies and trade, in addition to aid. In 2012, buyers from CharityUSA.com, LLC visited Guatemala, Peru, Argentina, Columbia, Mexico, Uganda, Zanzibar, Germany, China, India, and Nepal, in addition to sourcing products made in the United States. We are a mission-driven company, and it is our belief that selling artisan products made by rural women is one of the most important things we can do to reduce intergenerational poverty, and has been correlated with improved education for children, reduced incidence of disease, and increased family and community incomes.

Covenant Calls does not solicit funds. We introduce the idea of the donor including our client, the charity, in the donor's estate plan. Our client closes the commitment. However, we are registered as a Professional Solicitor due to the fact that a number of states have determined that we need to be registered as such and the services we perform are "part of the solicitation process". Therefore, we show zero contributions received. The expenses paid to Covenant Calls during 2011 are \$381,433.

Eight Year Contribution Value \$3,595,164.00 ROI 378% Children International Sponsors agree to sponsor an individual child with ongoing monthly contributions. Many of our sponsors continue to contribute for many of years. Due to this ongoing commitment, it is necessary when looking at the value of a campaign to look at the income generated over a number of years. We have projected the contributions of the sponsors acquired through DialogueDirect over eight years.

**Fundraiser's Comments Regarding Financial Information (Optional):**

We conducted several campaigns over this time frame which many were acquiring monthly donors, which have a high long term value to the organization. Although this type of campaign does not realize immediate financial gains, the organization will continue to receive recurring donations from the donors recruited on an ongoing basis. The ongoing donations will make up for the deficit. Our one time gift campaigns to lapsed and acquisition files that were conducted during this time frame are still receiving fulfillment. Our calling was expensed but not all fulfillment was received at the time of reporting.

Solicitation for Charities was primarily to prospect for new supporters donating monthly. New donor prospecting broke even this year but the newly recruited donors will yield additional revenue for the charities over time.

**Fundraiser's Comments Regarding Financial Information (Optional):**

As of the date of this report, the expenses of the fundraising campaigns outweigh the total amount of collected pledges. The primary reason is because our campaigns typically obtain pledge commitments that are paid by donors over a multi-year period. The full amount of the donation is typically not received until well after the expenses have been paid.

**Fundraiser's Comments Regarding Financial Information (Optional):**

The gross proceeds and the net amount of revenues to charity as reported reflect a portion of the true revenues received by the Charity as a result of the solicitation campaign by Public Outreach Fundraising, LLC. Public Outreach conducts sustainer campaigns on behalf of charities where the fundraiser solicits contributions for one-time gifts and ongoing monthly donations such that the monthly giving often continue for periods long after the end of the campaign and reporting periods. Thus, the figures reported here are not representative of the entire amount of the revenues charity receives because of the work performed by Public Outreach. Continued on attachment filed with the Charities Program.

Seattle Fire Fighters Union Local 27**Fundraiser's Comments Regarding Financial Information (Optional):**

The primary focus of the registration form required by the Charities Division of the Secretary of State's office is to report the amount of monies the client/charity retains; it does not provide an area to account for ANY program costs the client/charity has paid for throughout the year. Because of this, ALL program expenses are included with the professional fundraiser's revenue, because it was not "retained" by the client/charity. It is very misleading as it appears that the professional fundraiser retains more of the money than the client/charity. It is important to note that the expenses included with Support Services' revenue are not profit. Support Services Incorporated only retains approximately 11% of all revenue generated on behalf of the organizations it represents.
